## Employment Standards Administration

### Office of Workers' Compensation Programs; Report on Computer Matching Project Involving Certain Beneficiaries Under the Black Lung Benefits Act (BLBA)

**SUMMARY:** The Department of Labor, Employment Standards Administration, Office of Workers' Compensation Programs (OWCP) announces a computer match to be performed by the Illinois Department of Public Aid (IDPA) of the Department of Labor (DOL) black lung beneficiary data and Illinois Medicaid data. The match will be made under written agreement. The purpose of the data exchange is to identify those DOL black lung beneficiaries who live in Illinois, in order that the IDPA can determine which black lung beneficiaries have been recipients of Illinois Medicaid benefits. It is the responsibility of the State Agency administering the Medicaid program to pursue all liable third party resources prior to the utilization of Medicaid funds for payment of medical services. With the information obtained from this data exchange the IDPA will be able to identify potentially liable third party payors of medical expenses.

*a. Authority:* Title IV of the Federal Mine Safety and Health Act, 30 U.S.C. 901, *et seq.*, and Title XIX of the Social Security Act, 42 U.S.C. 301, *et seq.*

*b. Description of Match:* The OWCP will send the IDPA an extract from the DOL Black Lung Benefit Master File of all DOL black lung beneficiaries with an Illinois address. The IDPA will match the DOL black lung beneficiaries living in Illinois with the IDPA's records of recipients of Illinois Medicaid benefits. When a match occurs, the black lung extract data on that individual will be reviewed by the IDPA of determine whether there is potential third party liability. The IDPA will be able to seek reimbursement, if it is found that a third party should have paid for medical expenses that were paid by Medicaid in Illinois. Potential third party payors of these medical expenses include the BLBA Trust Fund and Responsible Coal Mine Operators/Insurance Carriers.

*c. Description of Federal Records to be Matched:* DOL/ESA–7 Office of Workers' Compensation Programs, Black Lung Benefit Payments File (47 FR 30378, July 13, 1982; as amended in 48 FR 5824, February 8, 1983, and 50 FR 5144, February 6, 1985) will be the source of the Federal black lung data extract. Among the items contained in the DOL source data extract will be: miner Social Security Number and birth date, payee name and address, payee monthly benefit amount, date and amount of last check.

*d. Period of Match:* The first match should begin on or about June 1, 1987, and recur annually. Follow-up procedures may extend through the calendar year.

*e. Security:* The personal privacy of individuals identified is protected by strict compliance with the Privacy Act (Pub. L. 93–579) and OMB Circular A–130. Information from the match will be used only for official purposes and will not be released to the public.

The extract files will be used and accessed only for the purposes previously agreed upon. Extract files will not be used to obtain information for any purpose concerning individuals who are not included in the match. Extract files will not be duplicated or disseminated within or outside the matching or source agency, unless agreed upon in writing by both agencies. The IDPA will use the data supplied in a manner prescribed by law and will maintain proper safeguards to prevent unauthorized release or use of all data contained in the source extract and the matching extract.

Access to working spaces and claim file storage areas in the IDPA offices is restricted to Illinois State employees. File areas are locked after normal duty hours and the offices are protected from outside access by security personnel. Strict control measures are enforced to ensure that access to and disclosure of these records is limited to a need-to-know basis.

*f. Disposition of Records:* The OWCP source data extract will remain the property of the OWCP and will be destroyed by the IDPA upon receipt of the following year's source data extract from the OWCP. The matching extract will become the joint property of the IDPA and the OWCP, and will be kept by the IDPA so long as the administrative audit is active. The matching extract will be destroyed by IDPA upon receipt of the following year's source data extract from the OWCP.

Signed at Washington, DC, this 7th day of May 1987.

**Richard Staufenberger,**

*Acting Director, Office of Workers' Compensation Programs.*

BILLING CODE 4510–27–M

## Wage and Hour Division

### Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR Part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR Part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the Federal Register, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29

BEST COPY AVAILABLE

CFR Parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3504, Washington, DC 20210.

**Modifications to General Wage Determination Decisions**

The numbers of the decisions listed in the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by Volume, State, and page number(s). Dates of publication in the Federal Register are in parentheses following the decisions being modified.

*Volume I*

Connecticut CT87-1 (Jan. 2, 1987) pp. 70-82.
New York NY87-11 (Jan. 2, 1987) p. 762.
Pennsylvania PA87-5 (Jan. 2, 1987) pp. 804-836.

*Volume II*

Iowa IA87-2 (Jan. 2, 1987) pp. 28-29.
Illinois:
IL87-6 (Jan. 2, 1987) p. 132.

**General Wage Determination Publication**

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the Country. Subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 783-3238.

When ordering subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the three separate volumes, arranged by State. Subscriptions include an annual edition (issued on or about January 1) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC this 8th day of May 1987.

## Occupational Safety and Health Administration

### Alaska State Standards; Notification of Approval

**1. Background**

Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On August 10, 1973, notice was published in the Federal Register (38 FR 21628) of the approval of the Alaska plan and the adoption of Subpart R to Part 1952 containing the decision.

The Alaska plan provides for the adoption of State standards which are at least as effective as comparable Federal standards promulgated under section 6 of the Act. Section 1953.20 provides that where any alteration in the Federal program could have an adverse impact on the at least as effective status of the State program, a program change supplement to a State plan shall be required.

In response to Federal standards changes, the State has submitted by letter dated December 17, 1982 from Jim Robison, Commissioner, to James W. Lake, Regional Administrator, and incorporated as part of the plan, State standards amendments comparable to 29 CFR Part 1910 Subpart S, Electrical Standards, as published in the Federal Register (46 FR 4034) on January 16, 1981, and subsequent correction. The State's original standards were published in the Federal Register (46 FR 40183) on August 7, 1981.

Regional review revealed discrepancies in several of the State's responses and the failure of the State to incorporate the corrections that appeared in the Federal Register at 46 FR 40183 dated August 7, 1981. The submission was returned to the State on December 8, 1983, for corrective action.

On November 5, 1984, the State resubmitted a corrective amendment to its Electrical Standards and pointed out that an additional amendment was forthcoming to correct an additional deficiency.

On June 28, 1985, a second corrective amendment was forwarded for inclusion in the State's submittal for Electrical Standards.

These State standards, which are contained in AAC 03.001, Electrical, were promulgated after public hearings which were held on July 19, 20, and 23, 1984. Notifications of the hearings were published in statewide media on June 18 and 25, 1984. The public comment period was open for thrity days by Jim Robison, Commissioner, under authority vested by AS 18.60.020. The State incorporated editorial modifications consisting of the replacement of parentheses with commas, the word *shall* has been changed to *must*, and the phrase the *employer shall* has been deleted throughout the standard as the employer's responsibilities are spelled out in Alaska's *State Statutes*, Section 18.60.075, Safe Employment.

**2. Decision.**

The above State standard has been reviewed and compared with the relevant Federal standards. OSHA has determined that the State standard is at least as effective as the comparable Federal Standard, as required by section 18(c)(2) of the Act. OSHA has also determined that the differences between the State and Federal standards are minimal and that the standards are thus substantially identical. OSHA therefore approves these standards; however, the right to reconsider this approval is reserved should substantial objections be submitted to the Assistant Secretary.

**3. Location of supplement for inspection copying.**

A copy of the standards supplement, along with the approve plan, may be inspected and copied during normal business hours at the following locations: Office of Regional Administrator, Occupational Safety and Health Administration, Room 6003, Federal Office Building, 909 First Avenue, Washington 98174; State of Alaska, Department of Labor, Office of the Commissioner, Juneau, Alaska, 99802; and the Office of State Programs, Room N–3476, 200 Constitution Avenue NW., Washington, DC 20210.

**4. Public participation.**

Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Alaska State plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reason:

1. The standards were adopted in accordance with the procedural requirements of State law which included public comments and further public participation would be repetitious.

This decision is effective May 15, 1987.

(Sec 18, Pub. L. 91–596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Seattle, Washington, this 23rd day of March 1987.

James W. Lake,
*Regional Administrator.*

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 87–43]

### NASA Advisory Council (NAC), Space Systems and Technology Advisory Committee (SSTAC); Meeting

**AGENCY:** National Aeronautics and Space Administration.

**ACTION:** Notice of meeting.

**SUMMARY:** In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Space Systems and Technology Advisory Committee, Ad Hoc Task Team on Spacecraft Power for Future Missions.

**DATE AND TIME:** June 5, 1987, 8:30 a.m. to 4 p.m.

**ADDRESS:** Room 647, Federal Office Building 10B, National Aeronautics and Space Administration Headquarters, Washington, DC 20546.

**FOR FURTHER INFORMATION CONTACT:** Mr. Robert Wasel, Office of Aeronautics and Space Technology, National Aeronautics and Space Administration, Washington, DC 20546, 202/453–2855.

**SUPPLEMENTARY INFORMATION:** The NAC Space Systems and Technology Advisory Committee (SSTAC) was established to provide overall guidance and direction to the Office of Aeronautics and Space Technology (OAST). Special ad hoc teams were formed to address specific topics. The ad hoc team on Spacecraft Power for Future Missions, chaired by Dr. Beno Steralicht, is comprised of six members. The meeting will be open to the public up to the seating capacity of the room (approximately 25 persons including the team members and other participants).

Type of Meeting: Open.

*Agenda*

*June 5, 1987*

8:30 a.m.—Summary of Prior Meeting
9 a.m.—Discussion of Spacecraft Power Report
1p.m.—Drafting of Report
3:30 p.m.—Status Review, Discuss Future Meeting
4 p.m.—Adjourn

May 8, 1987.

Richard L. Daniels,
*Advisory Committee Management Officer, National Aeronautics and Space Administration.*

[Notice 87–44]

### NASA Advisory Council (NAC), Space Systems and Technology Advisory Committee (SSTAC); Meeting

**AGENCY:** National Aeronautics and Space Administration.

**ACTION:** Notice of meeting.

**SUMMARY:** In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Space Systems and Technology Advisory Committee, Onboard Processing and Data Management Technology Ad Hoc Review Team.

**DATE AND TIME:** June 9, 1987, 8 a.m. to 5 p.m.; June 10, 1987, 8 a.m. to 3:15 p.m.

**ADDRESS:** Jet Propulsion Laboratory, National Aeronautics and Space Administration, Building 198, Room 111, 4800 Oak Grove Drive, Pasadena, CA 91109.

**FURTHER INFORMATION CONTACT:** Mr. Robert D. Kreider, Code RC, Office of Aeronautics and Space Technology, National Aeronautics and Space Administration, Washington, DC 20546, 202/453–2744.

**SUPPLEMENTARY INFORMATION:** The NAC Space Systems and Technology Advisory Committee was established to provide overall guidance and direction to the space research and technology activities in the Office of Aeronautics and Space Technology (OAST). The Onboard Processing and Data Management Technology Ad Hoc Review Team was established to provide an assessment of the current state of the art in onboard processing and data management system technologies, with an emphasis on reliability. The team, chaired by Dr. Donald C. Fraser, is comprised of 11 members. The meeting will be open to the public up to the seating capacity of the room (approximately 50 persons including the team members and other participants).

Type of Meeting: Open.

*Agenda*

June 9, 1987

8 a.m.—Introduction, Objectives, Format
8:45 a.m.—General Purpose Computers
9:15 a.m.—Special Purpose Processing
9:45 a.m.—System Issues (Networks)
10:45 a.m.—Flight (data) Recorders
11:15 a.m.—Design, Evaluation and Verification Issues
1:15 p.m.—Revisit Current OAST Programs in Context of Morning Presentations

3:15 p.m.—Discuss/Initiate Refinement of Panel Group Outputs in Order to Coalesce into Focused OAST Program(s)

5 p.m.—Adjourn

June 10, 1987

8 a.m.—Complete Development of Specific OAST Program Recommendations

3:15 p.m.—Adjourn

## NATIONAL SCIENCE FOUNDATION

### Advisory Panel for Biological Facilities Centers; Notice of Meeting

The National Science Foundation announces the following meeting:

Name: Advisory Panel for Biological Facilities Centers.

Date and Time: June 3, 4 and 5, 1987—8:30–5:00.

Place: National Science Foundation, Room 540, Washington, DC 20550

Type of Meeting: Closed.

Contact Person: John C. Wooley, Program Director, Biological Instrumentation, Room 325E. Telephone: 202/357–7852.

Purpose of Advisory Panel: To provide advice and recommendations concerning support for research instrumentation.

Agenda: To review and evaluate research proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

M. Rebecca Winkler,

*Committee Management Officer.*

## SECURITIES AND EXCHANGE COMMISSION

[Rel. No. IC-15734; 812-6585]

### Technology Funding Partners III, L.P. et al.

May 8, 1987.

**AGENCY:** Securities and Exchange Commission ("SEC").

**ACTION:** Notice of application for exemption under the Investment Company Act of 1940 (the "1940 Act").

*Applicants:* Technology Funding Partners III, L.P. (the "Partnership"), Technology Funding Inc. and Technology Funding Ltd. (the "Managing General Partners").

*Relevant 1940 Act Sections:* Exemption requested under section 6(c) of the 1940 Act from certain provisions of sections 2(a)(3) and 2(a)(19) of the 1940 Act.

*Summary of Application:* Applicants seek an order determining that (1) under section 2(a)(19) of the 1940 Act, the independent general partners of the Partnership are not "interested persons" of the Partnership solely by reason of being general partners thereof; and (2) under section 2(a)(3) of the 1940 Act, that no limited partner who owns less than 5% of the units of limited partnership interest in the Partnership is an "affiliated person" of the Partnership, any of the other limited partners, or any of the general partners, solely by reason of being a limited partner of the Partnership.

*Filing Date:* The Application was filed on December 18, 1986, and amended on March 7, April 17, and May 8, 1987.

*Hearing or Notification of Hearing:* If no hearing is ordered, the application will be granted. Any interested person may request a hearing on this application, or ask to be notified if a hearing is ordered. Any requests must be received by the SEC by 5:30 p.m., on May 22, 1987. Request a hearing in writing, giving the nature of your interest, the reason for the request, and the issues you contest. Serve the Applicants with the request, either personally or by mail, and also send it to the Secretary of the SEC, along with proof of service by affidavit, or, for lawyers, by certificate. Request notification of the date of a hearing by writing to the Secretary of the SEC.

ADDRESSES: Secretary, SEC, 450 5th Street, NW., Washington, DC 20549. The Partnership and the Managing General Partners, 2000 Alameda de las Pulgas, Suite 250, San Mateo, California 94403.

FOR FURTHER INFORMATION CONTACT: Staff Attorney Richard Pfordte at (202) 272–3011 or Special Counsel Curtis R. Hilliard at (202) 272–3028, Office of Investment Company Regulation.

SUPPLEMENTARY INFORMATION: Following is a summary of the application. The complete application is available for a fee from either the SEC's Public Reference Branch in person or the SEC's commercial copier (800) 231–3282 (in Maryland (301) 258–4300).

**Applicant's Representations**

1. The Partnership is a newly formed Delaware limited partnership that has elected status as a business development company pursuant to section 54 of the 1940 Act. The investment objective of the Partnership is to seek long-term capital appreciation by making venture capital investments.

2. The Partnership's registration statement under the Securities Act of 1933, with respect to a proposed public offering of units of limited partnership interest ("Units") was declared effective on March 25, 1987.[1] The maximum proceeds from the offering will be $60 million which will be invested in 20 to 30 venture capital investments over a period of up to four years.

3. The General Partners of the Partnership initially will consist of three individual general partners (the "Individual General Partners") and the Managing General Partners. The initial Individual General Partners will not be "interested persons" of the Partnership within the meaning of that term under section 2(a)(19) of the 1940 Act ("Independent General Partners"). The Managing General Partners are a California corporation (Technology Funding Inc.) and a California limited partnership (Technology Funding, Ltd.). The Managing General Partners are in the business of organizing and managing limited partnerships. Both Managing General Partners will register as investment advisers under the Investment Advisers Act of 1940 ("Advisers Act") as soon as possible, and Applicants undertake that the Partnership will not commence operations until both are so registered.

4. The three Individual General Partners and one representative from each Managing General Partner will serve on a management committee ("Committee") of the Partnership. The Committee has complete and exclusive authority to manage and control the Partnership except for those specific activities of the Partnership for which

[1] For further information as to the Partnership, reference is made to its registration statement, as amended (File No. 33–10856), which includes a copy of the Partnership Agreement.

under the supervision of the Committee, the Managing General Partners will be responsible. Such activities are summarized below and are specifically set forth in the Partnership Agreement. The Committee will provide overall guidance and supervision with respect to the operations of the Partnership, will perform all duties of a board of directors of a business development company pursuant to the 1940 Act, and will monitor the activities of companies in which the Partnership invests.

The Partnership Agreement provides that the general partners are elected at the annual meetings of the limited partners and serve for annual terms. The Committee is empowered from time to time to determine the number of persons to be elected as Individual General Partners. If at any time the number of Independent General Partners is reduced to less than a majority of the general partners, the remaining members of the Committee must, within ninety days, designate one or more successor Independent General Partners so as to restore the number of Independent General Partners to such a majority.

5. The Managing General Partners will be responsible and have authority, subject to the supervision of the Committee, to determine and manage the Partnership's venture capital investments and manage day-to-day Partnership operations. The Independent General Partners will assume the responsibilities and obligations under the 1940 Act required of non-interested directors of a business development company in corporate form.

6. The Managing General Partners undertake that they will not resign or withdraw from the Partnership unless successor Managing General Partners have been appointed and consented to by the limited partners in compliance with the Partnership Agreement.

7. Applicants state that the Independent General Partners will have full-time employment with entities unrelated to the Partnership and will have substantial experience that they will bring to their positions as Independent General Partners. Applicants state that the Independent General Partners are in a position to act capably and independently on behalf of the Partnership and the limited partners. The Partnership Agreement requires the Independent General Partners to act, in their good faith judgment, in the best interests of the Partnership. In addition, the actions of the Independent General Partners will be subject to the fiduciary responsibilities imposed on general partners to limited partners of partnerships by applicble partnership laws.

8. The Partnership has been structured so that the Independent General Partners are the functional equivalents of the non-interest directors of an incorporated investment company. Section 2(a)(19) of the 1940 Act excludes from the definition of "interested persons" individual directors of an investment company. However, there is no comparable exclusion for general partners of a partnership. Applicants submit that granting the requested exemption from the provisions of section 2(a)(19) of the 1940 Act is consistent with the purpose fairly intended by the policy and provisions of the 1940 Act.

9. The limited partners, in general, have the right to vote only on certain major Partnership events specifically contemplated by Delaware law (such as dissolution of all or substantially all of the Partnership assets and dissolution of the Partnership) and on certain occasions required by the 1940 Act. The limited partners have no right to participate in the control of the Partnership's business. The Partnership will seek an opinion of counsel that the existence of or exercise of the voting rights granted to limited partners will not subject the limited partners to liability as general partners under the Delaware Revised Uniform Limited Partnership Act.

10. The Partnership Agreement empowers the general partners to take all actions which may be necessary or appropriate to protect the limited liability of the limited partners. The Partnership does not presently have an insurance policy that would provide coverage to persons who become limited partners, but the general partners expressly represent and undertake that they will take all such actions necessary or appropriate to protect the limited liability of the limited partners. Moreover, the Partnership will consider the possiblity of obtaining an errors and omissions insurance policy, and the Individual General Partners will periodically review the appropriateness of obtaining such an insurance policy for the Partnership.

11. The rights of limited partners to vote on certain matters are either equivalent to or more limited that those of corporate shareholders. Section 2(a)(3) of the 1940 Act specifically excludes from the definition of "affiliated persons," shareholders with less than a 5% ownership in such a corporation. Applicants state that limited partner investors may be deemed affiliates of the Partnership because section 2(a)(3) of the 1940 Act contains no comparable exclusion for limited partners of partnerships. Applicants therefore seek exemption from the provisions of section 2(a)(3) of the 1940 Act to the extent that limited partners with less than a 5% interest in the Partnership will not be deemed "affiliated persons" of the Partnership, any of the other limited partners and the General Partners of the Partnership.

12. The Partnership Agreement provides generally that the net profits of the Partnership will be allocated first to those partners with deficit capital account balances until such deficits have been eliminated, and then to the partners as necessary to offset net losses previously allocated to such partners and sales commissions charged to their capital accounts.

13. The Partnership Agreement specifically provides that the cash and securities available for distribution will be distributed 99% to the limited partners and 1% to the general partners until "conversion", i.e., when the amount previously distributed equals the aggregate capital contributions of all limited partners, less any excess capital contributions retured to the limited partners. Thereafter, the Partnership will make distributions, subject to the representations and express conditions agreed to below, 75% to the limited partners (ordinarily in proportion to the number of Units held by each), 5% to the limited partners (to be allocated pursuant to "Unit months" as defined in the Partnership Agreement) and 20% to the Managing General Partners. The Partnership Agreement also provides that securities distributed in kind to the partners will be treated as so sold at the time of distribution. The various allocation provisions in the Partnership Agreement have not been reviewed or approved by the Commission and the Commission expresses no opinion with regard to whether section 205 of the Advisers Act permits such allocations.

## Applicants' Conditions

Applicants agree that the following may be made express conditions to the requested order:

1. The Partnership will be structured so that the Independent General Partners are the functional equivalents of the non-interested directors of an investment company registered under the 1940 Act.

2. The Partnership will not make any in-kind distributions of portfolio securities to its partners until it has obtained either a no-action letter from the staff of the Commission confirming the Partnership's interpretation of section 205 of the Advisers Act (i.e., that unrealized gains or losses attributable to

securities distributed in-kind to partners are properly deemed realized upon such distribution) or, in the alternative, the Partnership has obtained an order of exemption from section 205 of the Advisers Act pursuant to section 206A of the Advisers Act, permitting the Partnership to deem such gains or losses to be realized upon any in-kind distributions.

4. The Partnership will not commence operations until both Managing Partners are registered under the Advisers Act as investment advisers.

For the Commission, by the Division of Investment Management, under delegated authority.

**Jonathan G. Katz,**

*Secretary.*

## SMALL BUSINESS ADMINISTRATION

**[Declaration of Disaster Loan Area #2275]**

### Louisiana; Declaration of Disaster Loan Area

Terrebonne Parish in the State of Louisiana constitutes a disaster area because of damage from tornadic winds which occurred on March 29, 1987. Applications for loans for physical damage may be filed until the close of business on June 9, 1987, and for economic injury until the close of business on January 11, 1988, at the address listed below:

Disaster Area 3 Office,
Small Business Administration,
2306 Oak Lane, Suite 110,
Grand Prairie, Texas 75051,

or other locally announced locations.

The interest rates are:

| | Percent |
|---|---|
| Homeowners with credit available elsewhere | 8.000 |
| Homeowners without credit available elsewhere | 4.000 |
| Businesses with credit available elsewhere | 7.500 |
| Businesses without credit available elsewhere | 4.000 |
| Businesses (EIDL) without credit available elsewhere | 4.000 |
| Other (non-profit organizations including charitable and religious organizations) | 8.500 |

The number assigned to this disaster is 227512 for physical damage and for economic injury the number is 852100.

(Catalog of Federal Domestic Assistance Programs Nos. 59002 and 59008)

Date: April 10, 1987.

BILLING CODE 8025-01-M

**[Declaration of Disaster Loan Area #6519]**

### Texas; Declaration of Disaster Loan Area

Galveston and Chambers Counties in the State of Texas constitute a disaster area because of the closure of the oyster grounds from December 20, 1986 to February 20, 1987, due to heavy rains and flooding of the Trinity and San Jacinto Rivers, which began on or about December 18, 1986. Eligible small businesses without credit available elsewhere and small agricultural cooperative without credit elsewhere may file applications for economic injury assistance until the close of business on *January 11, 1988*, at the address listed below:

Disaster Area 3 Office,
Small Business Administration,
2306 Oak Lane, Suite 110,
Grand Prairie, Texas 75051.

or other locally announced locations. The interest rate for eligible small business concerns without credit available elsewhere is 4 percent and 9.5 percent for eligible small agricultural cooperatives without credit available elsewhere.

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

**[Summary Notice No. PE-87-8]**

### Petitions for Exemption; Summary and Disposition

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of petitions for exemption received and of dispositions of prior petitions.

**SUMMARY:** Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR Part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR Chapter I), dispositions of certain petitions previously received, and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

**DATE:** Comments on petitions received must identify the petition docket number involved and must be received on or before June 4, 1987.

**ADDRESS:** Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Petition Docket No. , 800 Independence Avenue, SW., Washington, DC 20951.

**FOR FURTHER INFORMATION:** The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-204), Room 915G, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW.,

Washington, DC 20591; telephone (202) 267–3132.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Issued in Washington, DC, on May 12, 1987.

Leonard E. Smith,

*Manager, Program Management Staff.*

PETITIONS FOR EXEMPTION

| Docket No. | Petitioner | Regulations affected | Description of relief sought |
|---|---|---|---|
| 25217 | Kenmore Air Harbor | § 135.265 | To allow Kenmore Air Harbor, Inc. pilots to operate aircraft more than 34 flight hours in any 7 consecutive days. |
| 25229 | MTU Maintenance GmbH | §§ 145.71 and 145.73 | To allow MTU Maintenance GmbH to inspect, repair, maintain, overhaul, and return to service aircraft engines, appliances, parts, and components for installation on any U.S. registered aircraft without geographical limitation. |
| 25230 | Chromalloy American Corporation | § 145.1(b) | To allow Chromalloy American Corporation to be a domestic repair station partially located within the U.S. and partially located outside the U.S. |

## UNITED STATES INFORMATION AGENCY

## Culturally Significant Objects Imported for Exhibition; Determination

Notice is hereby given of the following determination: Pursuant to the authority vested in me by the act of October 19, 1965 (79 Stat. 985, 22 U.S.C. 2459), Executive Order 12047 of March 27, 1978 (43 FR 13359, March 29, 1978), and Delegation Order No. 85–5 of June 27, 1985 (50 FR 27393, July 2, 1985), I hereby determine that the objects to be included in the exhibit, "Venus Anadyomene" (see list)[1] imported from abroad for the temporary exhibition without profit within the United States are of cultural significance. These objects are imported pursuant to loan agreements with the foreign lenders. I also determine that the temporary exhibition or display of the listed exhibit objects at the National Gallery of Art, Washington, DC, beginning on or about June 8, 1987, to on or about June 12, 1987, is in the national interest.

Public notice of this determination is ordered to be published in the Federal Register.

Dated: May 11, 1987.

R. Wallace Stuart,

*Acting General Counsel.*

# Sunshine Act Meetings

Federal Register
Vol. 52, No. 94
Friday, May 15, 1987

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:00 p.m. on Wednesday, May 6, 1987, the Board of Directors of the Federal Depost Insurance Corporation met in closed session, by telephone conference call, to:

(A)(1) accept the highest acceptable bid which may be submitted in accordance with the "Instructions for Bidding" for a purchase and assumption transaction, or (2) in the event no acceptable bid for a purchase and assumption transaction is submitted, accept the highest acceptable bid for an insured deposit transfer transaction which may be submitted, or (3) in the event no acceptable bid for either type transaction is submitted, make funds available for the payment of the insured deposits of the closed bank, with respect to each of the following: (a) American Bank of Commerce, Denver, Colorado, which was closed by the State Bank Commissioner for the State of Colorado on Wednesday, May 6, 1987; (b) North American National Bank, Littleton, Colorado, which was expected to be closed by the Senior Deputy Comptroller of the Currency, Office of the Comptroller of the Currency, on Thursday, May 7, 1987; (c) First State Bank, Sisseton, South Dakota, which was expected to be closed by the Director of Banking and Finance for the State of South Dakota on Thursday, May 7, 1987; and (d) Moreauville State Bank, Moreauville, Louisiana, which was expected to be closed by the Commissioner for Financial Institutions for the State of Louisiana on Friday, May 8, 1987; and

(B)(1) accept the highest acceptable bid which may be submitted in accordance with the "Instructions for Bidding" for the transfer of insured deposits in Farmers State Bank, Maddock, North Dakota, which was expected to be closed by the Commissioner of Banking and Financial Institutions for the State of North Dakota on Friday, May 8, 1987; or (2) in the event no acceptable bid for a deposit transfer transaction is submitted, make funds available for the payment of the insured deposits of the closed bank.

In calling the meeting, the Board determined, on motion of Director C. C. Hope, Jr. (Appointive), seconded by Mr. Robert J. Herrmann, acting in the place and stead of Director Robert L. Clarke (Comptroller of the Currency), concurred in by Chairman L. William Seidman, that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting pursuant to subsections (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

Dated: May 11, 1987.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

*Executive Secretary.*

BILLING CODE 6714-01-M

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:50 p.m. on Thursday, May 7, 1987, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to consider a recommendation regarding an administrative enforcement proceeding against certain individuals of an insured bank: names of persons and name and location of bank authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii)).

In calling the meeting, the Board determined, on motion of Director C.C. Hope, Jr. (Appointive), seconded by Director Robert L. Clarke (Comptroller of the Currency), concurred in by Chairman L. William Seidman, that Corporation business required its consideration of the matter on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matter in a meeting open to public observation; and that the matter could be considered in a closed meeting pursuant to subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(6), (c)(8), and (c)(9)(A)(ii)).

Dated: May 8, 1987.

Federal Deposit Insurance Corporation.

# Postal Rate Commission

## Postal Rate and Fee Changes, 1987; Filing of Proposed Changes and Order Designating Officer of the Commission, Fixing Date for Prehearing Conference, and Establishing Procedures; Notice

## POSTAL RATE COMMISSION

[Docket No. R87-1; Order No. 756]

### Postal Rate and Fee Changes, 1987; Filing of Proposed Changes and Order Designating Officer of the Commission, Fixing Date for Prehearing Conference, and Establishing Procedures

Issued May 12, 1987.

Before Commissioners: Janet D. Steiger, Chairman; Bonnie Guiton, Vice-Chairman; John W. Crutcher; Henry R. Folsom; Patti Birge Tyson.

Notice is hereby given that on May 7, 1987, the United States Postal Service (hereafter Postal Service or Service), pursuant to section 3622 of the Postal Reorganization Act (39 U.S.C. 3622), filed a request with the Postal Rate Commission for a recommended decision on certain proposed changes in rates of postage and fees for postal services, and for certain related changes to the Domestic Mail Classification Schedule. This filing has been assigned Docket No. R87-1.

The Postal Service indicates that its filing is in accordance with the Commission's rules of practice applicable to requests for changes in postage rates and fees (39 CFR 3001.51-3001.55) and classification changes (39 CFR 3001.61-3001.65). The Postal Service also asserts that at current rates, for the fiscal year ending September 30, 1989, it would generate total revenues of approximately $34.5 billion and incur total costs of approximately $39.5 billion, resulting in a total revenue deficiency of approximately $5.0 billion. The Postal Service states that this revenue deficiency contravenes the requirement of 39 U.S.C. 3621 that total estimated income and appropriations will equal as nearly as practical total estimated costs. Therefore, the Postal Service has filed proposed rate and fee changes with the Commission in order that revenues in the test year [1] should approximately equal total estimated costs. According to the Postal Service, implementation of its suggested rates will increase total revenues by approximately $4.3 billion, while decreasing total costs approximately $0.7 billion.

The approximate percentage rate increases proposed for the various major categories of mail service are as follows:

| Category | Rate increase proposed by Postal Service |
|---|---|
| First Class: | |
| Letters (percent) | 15 |
| Cards | 14 |
| Priority | 7 |
| Express Mail | (1) |
| Second Class: | |
| In County (full rates) | 22 |
| Outside | |
| Nonprofit (full rates) | 20 |
| Classroom (full rates) | 21 |
| Regular Rate | 14 |
| Third Class: | |
| Single Piece | 12 |
| Bulk Rate Regular | 23 |
| Bulk Rate Nonprofit (full rates) | 4 |
| Fourth Class: | |
| Parcel Post | 12 |
| Bound Printed Matter | 21 |
| Special Rate | 27 |
| Library Rate | 13 |
| Overall increase | 16 |

[1] Decrease.

The specific rates and fees, both current and proposed, are cotained in Attachment A to this notice and order.

Included in the Postal Service's filing are proposals for mail classification changes. Among the major classification changes are: (1) Adding an Express Mail letter rate, (2) volume discounts for Express Mail, (3) addition of second-day Express Mail, (4) simplification of the Express Mail rate schedule by eliminating zone-related charges and charging rates in 5-pound increments, (5) simplification of the Priority Mail rate schedule by eliminating zone-related charges for 3-to-5-pound pieces and charging rates for higher weights in 5-pound increments, (6) discount for ZIP + 4 prebarcoded First-Class letters presorted to 5-digit ZIP code areas, (7) discount for second-class regular rate palletized mail, (8) nonadvertising incentive added for nonprofit and classroom second-class mail and increased for regular rate second class, (9) all second-class pound rates to vary with distance, (10) second-class Sectional Center Facility discount to be calculated with regard to pounds rather than pieces, (11) calculating allowable sample and complimentary copies of second class by pieces rather than weight, (12) simplification of the parcel post rate structure by eliminating zone-related charges for 2-pound and for 3-to-5-pound parcels and charging rates for higher weights in 5-pound increments, (13) discount for prebarcoded business reply with advance deposit, (14) return receipt for merchandise as a stand-alone service, and (15) additional stamped envelope options.

Simultaneously with filing this request, Postal Service filed a Request for Waiver of Portions of Rule 54 (39 CFR 3001.54). This rule specifies supporting materials which should accompany a request for a recommended decision on rates. The Service states it has not completed cross-referencing its "roll-forward workpapers" and states its belief that delayed production will not prejudice any party or the Commission.

The request of the United States Postal Service for a recommended decision on changes in rates of postage and fees for postal services is on file with the Commission's docket section and is available for public inspection during regular business hours.

### I. Intervention

Hearings will be held on the proposal submitted by the Postal Service in Docket No. R87-1. Any person desiring to be heard in this matter and to become a party to the proceeding or to participate as a party in the hearings, should file a written notice of intervention. Notices of intervention must be filed, with the Secretary, Postal Rate Commission, Washington, DC 20268-0001, on or before June 9, 1987, and must be in accordance with section 20 of the Commission's rules of practice (39 CFR 3001.20). We direct specific attention to § 20(b) which provides that notices of intervention shall affirmatively indicate whether or not the petitioner intends to actively participate in the hearings. Alternatively, those persons seeking limited participation who do not wish to become formal intervenors may, on or before June 9, 1987, file a written notice of intervention as a limited participator, pursuant to section 20a of the Commission's rules of practice (39 CFR 3001.20a). In addition, those persons wishing to express their views informally, not desiring to become either a party or limited participant, may file comments pursuant to section 20b of the Commission's rules (39 CFR 3001.20b).

Intervenors wishing to comment on the Request of the United States Postal Service for Waiver of Portions of Rule 54 should do so, in writing, on or before June 9. All persons filing a notice of intervention, whether generally or on a limited basis, will be permitted to participate in the proceeding pending a final ruling by the Commission, should any written opposition to such notice of intervention be filed.

[1] The Postal Service proposes a test year in this proceeding from October 1, 1988 to September 30, 1989.

## II. Representation of the General Public

We designate, to represent the general public [2] in this proceeding, Stephen A. Gold, the Director of the Office of Consumer Advocate (OCA). During this proceeding, the OCA will direct the activities of Commission personnel assigned to assist him and neither he nor any of those designated assigned personnel will participate in or advise as to any Commission decision in this proceeding.[3] The OCA will supply for the record, at the appropriate time, the names of all Commission personnel assigned to assist him in this proceeding. In this proceeding, the OCA shall be separately served with three copies of all filings in addition to, and simultaneously with, service on the Commission of the 24 copies required by section 10(c) of the rules of practice [39 CFR 3001.10(c)].

## III. Discovery

The Commission directs the attention of all participants to the provisions of sections 25, 26, 27, and 28 of the rules of practice (39 CFR 3001.25, 3001.26, 3001.27, 3001.28) establishing the availability of, and rules for, discovery requests. The discovery process is one aspect of this general rate filing which we particularly wish to expedite. All interrogatories must be answered promptly in order that the expedited hearing format which we utilize can function as intended. In this regard, we point out that under our rules of practice, interested parties may immediately obtain active status in this proceeding by filing a notice of intervention. Accordingly, all parties filing such notices may immediately engage in discovery of the Postal Service's case-in-chief, without any additional action by the Commission. In accord with our desire for expedition in this proceeding, parties are actively encouraged to do so.

Participants should be aware that the limited time available to the Commission for issuing its decision makes expeditious discovery practice essential. Participants are put on notice that it is the present intention to schedule completion of discovery concerning the evidence presented by the Postal Service for July 10, 1987, although additional discovery may be allowed, especially on testimony or materials where analysis has been delayed as a result of the Service's failure to present complete information as required by Rule 54 (39 CFR 3001.54).

[2] *See* 39 U.S.C. 3624(a), providing for an officer of the Commission for that purpose.

[3] *See* 39 CFR 3001.8.

## IV. Procedures for Expedition

Section 3624(c)(1) of the Postal Reorganization Act (39 U.S.C. 3624(c)(1)) provides that the Commission is to render its recommended decision within ten months after receiving a request proposing changes in rates and fees. In order to expedite this proceeding and still be consistent with procedural fairness, we are issuing the present detailed order so that all those who contemplate participating in this proceeding will have sufficient time to prepare for the prehearing conference.

In this regard, we direct the attention of the parties and of those who intend to file notices of intervention or notices of intervention as limited participators to Commission rule 24(d) [39 CFR 3001.24(d)], which sets forth the matters which the presiding officer and participants may consider and resolve at the prehearing conference. All interested persons are expected to appear at the prehearing conference fully prepared to discuss in detail and resolve all matters contemplated within section 24(d). All interested persons will have an opportunity to comment, at that time, on a list of suggested procedural dates and proposed special rules of practice, and should have the authority to make commitments with respect to items to be discussed and resolved. The list of suggested procedural dates and proposed special rules of practice will be distributed to intervenors, and available for inspection at the Commission docket section at least seven days prior to the prehearing conference. Before the end of the prehearing conference, all interested persons also will have an opportunity to raise appropriate subjects of concern to them. A participant intending to raise one or more issues at the initial prehearing conference should provide advance written notice explaining its concerns.

In conformity with the requirement of the Postal Reorganization Act and consistent with our past practice in general rate cases, we are resolved to expedite the conduct of this proceeding. We intend to adhere to the procedural requirements and filing deadlines set forth in our rules of practice and in any special rules of practice subsequently promulgated. The parties are forewarned that they should insure, from the outset of this proceeding, that they have provided adequate resources for the timely preparation of and response to discovery requests.

Participants may also inform the Postal Service, informally and promptly, of any desired preliminary clarification in the Service's presentation which the participant believes will assist it in contributing to the expedition of this proceeding. The Postal Service has been cooperative in providing informal clarification of past requests. Participants are urged to utilize these informal off-the-record techniques to the maximum extent feasible in resolving their particular difficulties. Should these informal procedures be used, every two weeks Postal Service is to file (1) a listing of all information given in response to these informal requests, and (2) a copy of such information with the docket section of the Commission. Such a procedure will avoid duplicative requests for information.

In order to reduce or preclude discovery by the parties of information which should have been included in the Postal Service's filing, the Commission will entertain motions requesting an opportunity to engage in a limited amount of "preliminary cross examination" of Postal Service witnesses during prehearing conferences.[4] It is our expectation that promptly scheduled conferences of this type will shorten and simplify formal discovery. However, requests of this nature concerning roll-forward workpapers should not be filed prior to May 21, as the Postal Service has admittedly failed to complete its filing on that subject, and is preparing additional materials as of this date. As opportunity for preliminary cross-examination for clarification of the presentations of other participants will exist following the filing of other participants' cases.

We also shall employ in this docket a procedure to be followed in instances where answers to discovery requests are not filed within the prescribed time. This procedure is the same as that employed in our two most recent omnibus rate cases. If a motion to compel a response is not answered by a showing of cogent and convincing reasons for delay, the presiding officer may prescribe a time at which the witness to whom the discovery request was addressed will appear for oral examination on the subject matter of the request. This examination may be conducted parallel to main hearings, before a special presiding officer to be designated by the Chairman. The special presiding officer will record any objections made, together with the proposed disposition thereof, and transmit both to the presiding officer in

[4] This procedure would involve a witness explaining how he reached conclusions, not why he did so. *Compare* the notice appearing at 48 FR 51337, November 8, 1983.

this docket. A transcript will be made of all such examination and the responding witness may be represented by counsel. We anticipate that such ancillary proceedings will accelerate the obtaining of responses, while not requiring the main proceeding to be delayed.

While we are not at this time specifying any procedures for the taking of depositions parallel to the main proceeding, we anticipate that the parties and the presiding officer will consider their use, when appropriate, in order to expedite responses to discovery requests and also where attendance of a special presiding officer may not be required.

As we have emphasized above, the Act requires expedited proceedings, subject to procedural fairness. We wish the parties to be on notice that this mandate of expedition applies also to the briefing stage of the proceeding, following close of the evidentiary record. Parties should be prepared to adhere strictly to a briefing schedule which is consonant with this policy.

**V. Date of Initial Prehearing Conference**

In accordance with the Commission's goal of expeditious consideration, the Commission will conduct all prehearing conferences and hearings en banc (39 CFR 3001.30(b)]. An initial prehearing conference will be held on June 11, 1987. Additional prehearing conferences will be held on such further dates as may be scheduled by the presiding officer who will be designated by the Chairman of the Commission. Conferences and hearings will commence each day at 9:30 a.m. at the Postal Rate Commission's hearing room, Suite 300, 1333 H Street NW., Washington, DC 20268–0001. Hearings shall be on the record and a transcript made except where the presiding officer determines otherwise.

The Commission orders:

(A) The Commission will sit en banc in the above-captioned proceeding.

(B) A prehearing conference in this proceeding will be held on June 11, 1987, commencing at 9:30 a.m. in the Postal Rate Commission hearing room, Suite 300, 1333 H Street NW., Washington, DC 20268–0001. The Conference will be held for the purposes specified in § 24 of the Commission's rules of practice (39 CFR 3001.24) and in this Notice and Order, and also to afford all participants in the proceeding an opportunity to be heard with respect to the procedures to be followed. The prehearing conference proceedings shall be recorded by an official reporter except where the presiding officer otherwise directs.

(C) Stephen A. Gold, the Director of the Office of Consumer Advocate, is designated to represent the general public in this proceeding. Service of documents on the Commission shall not constitute service on the OCA, who shall separately be served three copies of all documents.

(D) The Secretary shall cause this Notice and Order to be published in the Federal Register.

By the Commission.

Charles L. Clapp,

*Secretary.*

ATTACHMENT A.—PRESENT AND PROPOSED RATES OF POSTAGE AND FEES FOR POSTAL SERVICES

[Rate schedule 100—First class mail]

| Mail type | Postage rate unit | Current rates | | Proposed rates | |
|---|---|---|---|---|---|
| | | Regular (cents) | Presorted (cents) [1] | Regular (cents) | Presorted (cents) [2] |
| (1) | (2) | (3) | (4) | (5) | (6) |
| Letters | 1st ounce | 22 | 18/17 | 25 | 21.5/20 |
| | Each additional ounce [3] | 17 | 17 | 20 | 20 |
| Cards | Piece | 14 | 12/11 | 16 | 14/12.5 |
| ZIP+4 Mail: [4] | | | | | |
| Letters | first ounce | 21.1 | 17.5 | 29 | [4] 20.7 |
| | Pre-bar code | | | | 20.2 |
| | Each additional ounce [3] | 17 | 17 | 20 | 20 |
| Cards | Piece | 13.1 | 11.5 | [4] 14.5 | 13.2 |
| | Pre-bar coded | | | | 12.7 |
| Nonstandard Surcharge [5]. | | 10 | 10 | 10 | 10 |

[1] Presorted First-Class Mail must be presented in a single mailing of at least 500 pieces properly prepared and presorted. The 5-digit presort rate applies only to each piece of a group of ten or more pieces destined for the same 5-digit ZIP Code or each piece of a group of 50 or more pieces destined for the same 3-digit ZIP Code. The lower rate applies only to mail presorted to carrier route, with a minimum of 10 pieces per route. A mailing fee of $50 must be paid once each year at each office of mailing by any person who mails presorted First-Class Mail. [The fee for mailers allows usage of either or both of these rates.]

[2] Presorted First-Class Mail must be presented in a single mailing of at least 500 pieces properly prepared and presorted. The higher rate applies to mail presorted to ZIP Code and prepared as prescribed by the Postal Service. The lower rate applies only to mail presorted to carrier route, and prepared as prescribed by the Postal Service. A mailing fee must be paid once each year at each office of mailing by any person who mails presorted First-Class Mail. [The fee for mailers allows usage of either or both of these rates.]

[3] Rate applies through 12 ounces. Heavier pieces are subject to zone-rated priority mail rates.

[4] ZIP+4 mail must be properly prepared and submitted in a single mailing of at least 250 pieces, except where the presort minimum of 500 applies. ZIP+4 rates are not available for carrier route presort mail.

[5] Applies to the first ounce only. Not applicable to ZIP+4 mail.

## RATE SCHEDULE 200

[Second-class mail: Regular rate publications, outside county [1]]

| | Postage rate unit | Rates [2] Current (cents) | Rates [2] Proposed (cents) |
|---|---|---|---|
| Per pound: | | | |
| Non-advertising portion | Pound | 11.8 | ([3]) |
| Zoned pound rates: | | | |
| Zone: | | | |
| SCF | do | | 11.4 |
| 1 and 2 [4] | do | [5] 15.8 | 14.4 |
| 3 | do | 16.6 | 14.6 |
| 4 | do | 18.2 | 15.9 |
| 5 | do | 20.7 | 17.7 |
| 6 | do | 23.3 | 19.6 |
| 7 | do | 26.0 | 21.8 |
| 8 | do | 28.9 | 23/7 |
| Pallet difference [6] | | Pound rate | 10% |
| Per piece: | | | |
| A—Prepared [7] | Piece | 12.3 | 15.1 |
| B—Presorted to 3-digit city/5-digit ZIP code | do | 9.6 | 11.9 |
| C—Carrier-route presort | do | 7.8 | 9.7 |
| SCF difference [8] | do | (1.0) | |
| Non-advertising difference [9] | do | (3.0) | (4.0) |

[1] The rates in this schedule apply to commingled non-subscriber, non-requester, complementary, and sample copies in excess of the 10 percent allowance in regular-rate, non-profit, and classroom second-class mail.
[2] Charges are computed by adding the appropriate per-piece charge to the sum of the non-advertising portion and the advertising portion charge, as applicable.
[3] Under proposed rates, the full weight of the publication pays the zoned pound rates shown below.
[4] Under proposed rates, the zones 1 & 2 pound rate does not apply to mail entered under the SCF pound rate.
[5] Full rate for advertising portion of science-of-agriculture publications mailed to zones 1 & 2 is currently 10.1 cents per pound. The proposed full rate is 6.6 cents per pound for zones 1 & 2 and 3.8 cents per pound for SCF.
[6] Palletized publications receive a 10 percent reduction in the total of the pound rate charges of qualifying mail.
[7] Presorted to 3-digit (other than 3-digit city), SCF, states, mixed states.
[8] Applies to mail destinating in the originating SCF area. The difference is subtracted from the applicable piece rate.
[9] Per-piece rate reduction equals this rate times the proportion of the publication which is non-advertising.

## RATE SCHEDULE 201

[Second-class mail: In-county]

| | Full rates Current (cents) | Full rates Proposed (cents) |
|---|---|---|
| Per pound | 7.9 | 9.4 |
| Per piece: | | |
| Required presort | 4.3 | 5.3 |
| Carrier route presort | 2.5 | 3.1 |

## RATE SCHEDULE 202

[Second-class mail: Publications of authorized nonprofit organizations, outside county [1]]

| | Postage rate unit | Full rates [2] Current (cents) | Full rates [2] Proposed (cents) |
|---|---|---|---|
| Per pound: | | | |
| Non-advertising portion | Pound | 7.6 | ([3]) |
| Zoned pound rates: [3] | | | |
| Zone: | | | |
| SCF | do | | 3.8 |
| 1 and 2 [4] | do | 10.1 | 6.6 |
| 3 | do | 11.5 | 7.1 |
| 4 | do | 13.7 | 8.4 |
| 5 | do | 17.0 | 10.3 |

## RATE SCHEDULE 202—Continued

[Second-class mail: Publications of authorized nonprofit organizations, outside county [1]]

| | Postage rate unit | Full rates [2] | |
|---|---|---|---|
| | | Current (cents) | Proposed (cents) |
| 6 | do | 20.5 | 12.9 |
| 7 | do | 24.7 | 14.7 |
| 8 | do | 28.2 | 16.7 |
| Per piece | | | |
| A—Prepared [5] | Piece | 8.4 | 12.0 |
| B—Presorted to 3-digit city/5-digit ZIP code | do | 5.8 | 8.8 |
| C—Carrier-route presort | do | 3.9 | 5.6 |
| SCF difference [6] | do | (1.0) | |
| Non-advertising difference [7] | do | | (2.0) |

[1] These rates apply to second-class mail which is entered by authorized nonprofit organizations or associations.
[2] Charges are computed by adding the per-piece charge to the sum of the non-advertising portion charge and the advertising portion charge, as applicable.
[3] Under current rates, zoned pound rates are not applicable to publications containing 10 percent or less advertising content.
[4] Under proposed rates, the zones 1 & 2 pound rate does not apply to mail entered under the SCF pound rate.
[5] Presorted to 3-digit (other than 3-digit city), SCF, states, mixed states.
[6] Applies to mail destinating in the originating SCF area. The difference is subtracted from the applicable piece rate.
[7] Per-piece rate reduction equals this rate times the proportion of the publication which is non-advertising.
[8] Under proposed rates, the full weight of the publication pays the zoned pound rates shown below.

| SCF difference [3] | do | (1.0) | |
| Non-advertising difference [4] | do | | (4.0) |

[1] Charges are computed by adding the per-piece charge to the sum of the non-advertising portion charge and the advertising portion charge, as applicable.
[2] Under proposed rates, the zones 1 & 2 pound rate does not apply to mail entered under the SCF pound rate.
[3] Applies to mail destinating in the originating SCF area. The difference is subtracted from the piece rate.
[4] Per-Piece rate reduction equals this rate times the proportion of the publication which is non-advertising.
[5] Under proposed rates, the full weight of the publication pays the zoned pound rates shown below.

## RATE SCHEDULE 207

[Second-class mail: Commingled non-subscriber and [1] non-requester]

| | Postage rate unit | Rates [2] | |
|---|---|---|---|
| | | Current (cents) | Proposed (cents) |
| Per Pound: | | | |
| Non-advertising portion | Pound | 11.6 | |
| Zoned pound rates: | | | |
| Zone: | | | |
| 1 and 2 | do | 15.6 | |
| 3 | do | 16.6 | |

## RATE SCHEDULE 207—Continued

[Second-class mail: Commingled non-subscriber and [1] non-requester]

| | Postage rate unit | Rates [2] | |
|---|---|---|---|
| | | Current (cents) | Proposed (cents) |
| 4 | do | 18.2 | |
| 5 | do | 20.7 | |
| 6 | do | 23.3 | (6) |
| 7 | do | 26.0 | |
| 8 | do | 28.9 | |
| Per Piece: | | | |
| A—Prepared [3] | Piece | [5] 12.3 | |
| B—Presorted to 3-digit city/5-digit ZIP code | do | [5] 9.6 | |
| C—Carrier route presort | do | [5] 7.8 | |
| SCF difference [4] | do | (1.0) | |
| Non-advertising difference | do | (3.0) | |

[1] Includes sample copies in excess of the 10 percent allowance and complimentary copies.
[2] Charges are computed by adding the appropriate per-piece charge to the sum of the non-advertising portion and the advertising portion charge, as applicable.
[3] Presorted to 3-digit (other than 3-digit city) SCF, states, mixed states.
[4] Applies to mail destinating in the originating SCF area. The difference is subtracted from the applicable piece rate.
[5] For postage calculation, multiply the percentage of non-advertising content by 3.0 cents and subtract from the applicable piece charge.
[6] Under the proposed rates, this schedule is deleted and mailers otherwise paying these rates are referred to Schedule S–4.

## RATE SCHEDULE 300

[Third-class mail single piece]

| | Rate | |
|---|---|---|
| | Current (cents) | Proposed (cents) |
| Single piece: | | |
| One ounce | 22 | 25 |
| Two ounces | 29 | 45 |
| Three ounces | 56 | 65 |
| Four ounces | 73 | 85 |
| Five and six ounces | 88 | 100 |
| Each additional 2 ounces | 10 | 10 |
| Nonstandard surcharge [1] | 10 | 10 |
| Keys and identification devices: | | |
| First 2 ounces | 62 | 85 |
| Each additional 2 ounces | 34 | 47 |

[1] Applies only to pieces weighting 1 ounce or less.

## RATE SCHEDULE 301

[Third-class mail regular bulk]

| | Rate | |
|---|---|---|
| | Current (cents) | Proposed (cents) |
| Bulk Rate Structure: [1] | | |
| Per pound, required presortation | 38 plus 4.2 cents per piece | 45 plus 6.4 cents per piece. |
| Per pound, presorted to 5-digit ZIP Code | 38 plus 1.8 cents per piece | 45 plus 3.1 cents per piece. |
| Per pound, presorted to carrier route | 38.0 | 45.0. |
| Minimum per piece, required presortation | 12.5 | 16.5. |
| Minimum per piece, presorted to 5-digits | 10.1 | 13.2. |
| Minimum per piece, presorted to carrier route | 8.3 | 10.1. |

[1] Currently, a fee of $50 must be paid once each calendar year for each bulk mailing permit. The proposed bulk fee is $60.

[2] Applies to pieces weighing more then 8 ounces but not in excess of 2 pounds.
[3] Applies to pieces weighing more then 2 pounds but not in excess of 5 pounds.

## RATE SCHEDULES 504(B)

[Express mail proposed rate differential [1] (dollars)]

| Minimum monthly volume [2] | Discounts from regular rates | | | |
|---|---|---|---|---|
| | Postage pounds | | | |
| | ½ pound [3] | 1–2 pounds [3] | 3–5 pounds [3] | 6–70 pounds [3] |
| 26–250 | $0.50 | $1.25 | $1.50 | $2.25 |
| 251–500 | .75 | 1.50 | 1.75 | 2.50 |
| 501–750 | 1.00 | 1.75 | 2.00 | 3.00 |
| 751–1000 | 1.25 | 2.00 | 2.25 | 3.50 |
| 1001–5000 | 1.50 | 2.25 | 2.75 | 4.00 |
| 5001 and over | 1.75 | 2.75 | 3.50 | 5.00 |

[1] Volume discounts from regular Express Mail rates apply to Express Mail paid through Corporate Account postage payment system.
[2] Discounts based on total monthly volume sent at Express Mail rates.
[3] Discounts applied against available published rates. One-half pound volume discounts are not applicable to Next Day Post Office to Post Office or Same Day Airport service options.

## SCHEDULE SS–1

## SPECIAL SERVICES: ADDRESS CORRECTION

| Description | Fee | |
|---|---|---|
| | Current | Proposed |
| Per Piece | $0.30 | $0.30 |

## SCHEDULE SS-2

### BUSINESS REPLY MAIL

| Description | Fees (in addition to postage) | |
|---|---|---|
| | Current (cents) | Proposed (cents) |
| Business Reply: [1] | | |
| With advance deposit account: | | |
| Regular | 7 | 9 |
| Discount [2] | | 7 |
| Without advance deposit account | 23 | 40 |

[1] Rates are applied on a per-piece basis in addition to regular First-Class postage. Currently, a fee of $50 must be paid to each year for each business reply permit. The proposed fee is $60. An accounting charge of $100 must be paid once each year for each business reply advance deposit account. The proposed charge is $206.

[2] Currently there is no rate differential offered for pieces that are bar-coded. It is proposed that a 2¢ discount be offered for bar-coded pieces meeting certain ZIP+4 and additional automated mail processing criteria.

## SCHEDULE SS-4

### SPECIAL SERVICES: CERTIFICATES OF MAILING

| Description | Fees (in addition to postage) | |
|---|---|---|
| | Current | Proposed |
| Individual Pieces: | | |
| Original certificate of mailing for listed pieces of all classes of ordinary mail (per piece) | $0.45 | $0.45 |
| Three or more pieces individually listed in a firm mailing book or an approved customer provided manifest (per piece) | .15 | .15 |
| Each additional copy of original certificate of mailing or original mailing receipt for registered, insured, certified and C.O.D. mail (each copy) | .45 | .45 |
| Bulk pieces: | | |
| Identical pieces of first- and third-class mail paid with ordinary stamps, precanceled stamps, or meter stamps are subject to the following fees: | | |
| Up to 1,000 pieces (1 certificate for total number) | 1.60 | 2.00 |
| Each additional 1,000 pieces or fraction | .20 | .25 |
| Duplicate copy | .45 | .45 |

## SCHEDULE SS-5

### SPECIAL SERVICES: CERTIFIED MAIL

| Description | Fee (in addition to postage) | |
|---|---|---|
| | Current | Proposed |
| Per Piece | $0.75 | $0.85 |

## SCHEDULE SS-6

### SPECIAL SERVICES: COLLECT ON DELIVERY

## Federal Aviation Administration

14 CFR Part 71

Establishment of an Airport Radar Service Area at Luis Munoz Marin International Airport, San Juan, PR; Proposed Rule

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 86-AWA-43]

Radar Service Area at Luis Munoz Marin International Airport, San Juan, PR

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to establish an Airport Radar Service Area (ARSA) at Luis Munoz Marin International Airport, San Juan, PR. This location is a public airport at which a nonregulatory Terminal Radar Service Area (TRSA) is currently in effect. Establishment of an ARSA would require that pilots maintain two-way radio communication with air traffic control (ATC) while in the ARSA. Implementation of ARSA procedures at the affected location would promote the efficient control of air traffic and reduce the risk of midair collision in terminal areas.

DATES: Comments must be received on or before August 17, 1987. The informal airspace meeting date is July 16, 1987.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket [AGC-204], Airspace Docket No. 86-AWA-43, 800 Independence Avenue, SW., Washington, DC 20591.

The informal airspace meeting place is as follows:

Luis Munoz Marin International Airport, San Juan, PR, ARSA
*Time:* 7:30 p.m.
*Location:* Muniz Air National Guard Base, Dining Facility, Luis Munoz Marin International Airport, San Juan, PR.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, DC.

The informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Robert L. Laser, Airspace Branch (ATO-240), Airspace-Rules and Aeronautical Information Division, Air Traffic Operations Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-9255.

SUPPLEMENTARY INFORMATION:

## Comments Invited

This notice involves one location. Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 86-AWA-43." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

## Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA-230, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267-3484. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

## Meeting Procedures

In addition to seeking written comments on this proposal, the FAA will hold an informal airspace meeting for the proposed ARSA location in order to receive additional input with respect to the proposal. The date, time, and place for this meeting is listed above. Persons who plan to attend the meeting should be aware of the following procedures to be followed:

(a) The meeting will be informal in nature and will be conducted by the designated representative of the Administrator. Each participant will be given an opportunity to make a presentation.

(b) There will be no admission fee or other charge to attend and participate. The meeting will be open to all persons on a space-available basis. The FAA representative may accelerate the agenda to enable early adjournment if the progress of the meeting is more expeditious than planned.

(c) The meeting will not be recorded. A summary of the comments made at this meeting will be filed in the docket.

(d) Position papers or other handout material relating to the substance of the meeting may be accepted at the discretion of the FAA representative. Participants submitting handout materials should present an original and two copies to the presiding officer for approval before distribution. If approved by the presiding officer, there should be an adequate number of copies provided for further distribution to all participants.

(e) Statements made by FAA participants at the meeting should not be taken as expressing a final FAA position.

## Background

On April 22, 1982, the National Airspace Review (NAR) plan was published in the Federal Register (47 FR 17448). The plan encompassed a review of airspace use and procedural aspects of the ATC system. Among the main objectives of the NAR was the improvement of the ATC system by increasing efficiency and reducing complexity. In its review of terminal airspace, NAR Task Group 1-2 concluded that TRSA's should be replaced. Four types of airspace configurations were considered as replacement candidates, of which Model B, since redesignated ARSA, was the consensus recommendation.

In response, the FAA published NAR Recommendation 1-2.2.1, "Replace Terminal Radar Service Areas with Model B Airspace and Service" in Notice 83-9 (July 28, 1983; 48 FR 34286) proposing the establishment of ARSA's at the Robert Mueller Municipal Airport, Austin, TX, and the Port of Columbus

International Airport, Columbus, OH. ARSA's were designated at these airports on a temporary basis by SFAR No. 45 (October 28, 1983; 48 FR 50038) in order to provide an operational confirmation of the ARSA concept for potential application on a national basis.

Following a confirmation period of more than a year, the FAA adopted the NAR recommendation and, on February 27, 1985, issued a final rule (50 FR 9252; March 6, 1985) defining an ARSA and establishing air traffic rules for operation within such an area. Concurrently, by separate rulemaking action, ARSA's were permanently established at the Austin, TX, and Columbus, OH, airports and also at the Baltimore/Washington International Airport, Baltimore, MD, (50 FR 9250; March 6, 1985). The FAA has stated that future notices would propose ARSA's for other airports at which TRSA procedures were in effect.

Additionally, the NAR Task Group recommended that the FAA develop quantitative criteria for proposing to establish ARSA's at locations other than those which are included in the TRSA replacement program. The task group recommended that these criteria take into account, among other things, traffic mix, flow and density, airport configuration, geographical features, collision risk assessment, and ATC capabilities to provide service to users. This criteria has been developed and is being published via the FAA directives system.

The FAA has established ARSA's at 86 locations under a paced implementation plan to replace TRSA's with ARSA's. This is one of a series of notices to implement ARSA's at locations with TRSA's.

### Related Rulemaking

This notice proposes ARSA designation at one of the locations identified as candidates for an ARSA in the preamble to Amendment No. 71–10 (50 FR 9252). Other candidate locations will be proposed in future notices published in the Federal Register.

### The Current Situation at the Proposed ARSA Location

A TRSA is currently in effect at Luis Munoz Marin International Airport. A TRSA consists of the airspace surrounding a designated airport where ATC provides radar vectoring, sequencing, and separation for all aircraft operating under instrument flight rules (IFR) and for participating aircraft operating under visual flight rules (VFR). TRSA airspace and operating rules are not established by regulation, and participation by pilots operating under VFR is voluntary, although pilots are urged to participate. This level of service is known as Stage III and is provided at all locations identified as TRSA's. The NAR task group recommended the replacement of most TRSA's with ARSA's.

A number of problems with the TRSA program were identified by the task group. The task group stated that because there are different levels of service offered within the TRSA, users are not always sure of what restrictions or privileges exist, or how to cope with them. According to the task group, there is a shared feeling among users that TRSA's are often poorly defined, are generally dissimilar in dimensions, and encompass more area than is necessary or desirable. There are other users who believe that the voluntary nature of the TRSA does not adequately address the problems associated with nonparticipating aircraft operating in relative proximity to the airport and associated approach and departure courses. There is strong advocacy among user organizations that terminal radar facilities should provide all pilots the same service, in the same way, and, to the extent feasible, within standard size airspace designations.

Certain provisions of FAR 91.87 add to the problem identified by the task group. For example, aircraft operating under VFR to or from a satellite airport and within the airport traffic area (ATA) of the primary airport are excluded from the two-way radio communications requirement of § 91.87. This condition is acceptable until the volume and density of traffic at the primary airport dictates further action.

### The Proposal

The FAA is considering an amendment to § 71.501 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish an ARSA at Luis Munoz Marin International Airport, San Juan, PR. The above location is a public airport at which a nonregulatory TRSA is currently in effect. The proposed location is depicted on a chart in Appendix 1 to this notice.

The FAA has published a final rule (50 FR 9252; March 6, 1985) which defines ARSA and prescribes operating rules for aircraft, ultralight vehicles, and parachute jump operations in airspace designated as an ARSA.

The final rule provides in part that any aircraft arriving at any airport in an ARSA or flying through an ARSA, prior to entering the ARSA must: (1) Establish two-way radio communications with the ATC facility having jurisdiction over the area, and (2) while in the ARSA, maintain two-way radio communications with that ATC facility. For aircraft departing from the primary airport within the ARSA, two-way radio communications must be maintained with the ATC facility having jurisdiction over the area. For aircraft departing a satellite airport within the ARSA, two-way radio communications must be established as soon as practicable after takeoff with the ATC facility having jurisdiction over the area, and thereafter maintained while operating with the ARSA.

All aircraft operating within an ARSA are required to comply with all ATC clearances and instructions and any FAA arrival or departure traffic pattern for the airport of intended operation. However, the rule permits ATC to authorize appropriate deviations to any of the operating requirements of the rule when safety considerations justify the deviation or more efficient utilization of the airspace can be attained. Ultralight vehicle operations and parachute jumps in an ARSA may only be conducted under the terms of an ATC authorization.

The FAA adopted the NAR task group recommendation that each ARSA be of the same airspace configuration insofar as practicable. The standard ARSA consists of airspace within 5 nautical miles of the primary airport extending from the surface to an altitude of 4,000 feet above that airport's elevation, and that airspace between 5 and 10 nautical miles from the primary airport from 1,200 feet above the surface to an altitude of 4,000 feet above that airport's elevation. Proposed deviation from the standard has been necessary at some airports due to adjacent regulatory airspace, international boundaries, topography, or unusual operational requirements.

Definitions, operating requirements, and specific airspace designations applicable to ARSA may be found in 14 CFR Part 71, §§ 71.14 and 71.501, and Part 91, §§ 91.1 and 91.88.

The FAA has determined that this proposed regulation is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Further, for the reasons discussed under "Regulatory Evaluation," the FAA has determined that this proposed regulation is not a "major rule" under Executive Order 12291.

### Regulatory Evaluation

The FAA has conducted a Regulatory Evaluation of the proposed establishment of additional ARSA sites. The major findings of that evaluation

are summarized below, and the evaluation is available in the regulatory docket.

*a. Costs*

Costs which potentially could result from the ARSA program fall into the following categories:

(1) Air traffic controller staffing, controller training, and facility equipment costs incurred by the FAA.

(2) Costs associated with the revision of charts, notification of the public, and pilot education.

(3) Additional operating costs for circumnavigating or flying over the ARSA.

(4) Potential delay costs resulting from operations within an ARSA rather than a TRSA.

(5) The need for some operators to purchase radio transceivers.

(6) Miscellaneous costs.

It has been the FAA's experience, however, that these potential costs do not materialize to any appreciable degree, and when they do occur, they are transitional, relatively low in magnitude, or attributable to specific implementation problems that have been experienced at a very small minority of ARSA sites. The reasons for these conclusions are presented below.

FAA expects that the ARSA program can be implemented without requiring additional controller personnel above current authorized staffing levels because participation at most TRSA locations is already quite high, and the reduced separation standards permitted in ARSA's will allow controllers to absorb the slight increase in participating traffic by handling all traffic much more efficiently. Further, because controller training will be conducted during normal working hours, and existing TRSA facilities already operate the necessary radar equipment, FAA does not expect to incur any appreciable implementation costs. Essentially, the FAA is modifying its terminal radar procedures in the ARSA program in a manner that will make more efficient use of existing resources.

No additional costs are expected to be incurred because of the need to revise sectional charts to remove TRSA airspace depictions and incorporate the new ARSA airspace boundaries. Changes of this nature are routinely made during charting cycles, and the planned effective dates for newly established ARSA's are scheduled to coincide with the regular 6-month chart publication intervals.

Much of the need to notify the public and educate pilots about ARSA operations will be met as a part of this rulemaking proceeding. The informal public meeting being held at each location where an ARSA is being proposed provides pilots with the best opportunity to learn both how an ARSA works and how it will affect their local operations. Because the expenses associated with these public meetings will be incurred regardless of whether or not an ARSA is ultimately established at a proposed site, they are more appropriately considered costs attributable to the rulemaking process rather than costs of the ARSA program. Once the decision has been made to establish an ARSA through a final rule issued in this proceeding, however, any public information costs which follow are strictly attributable to the ARSA program. The FAA expects to distribute a Letter to Airmen to all pilots residing within 50 miles of ARSA sites explaining the operation and configuration of the ARSA finally adopted. The FAA will also issue an Advisory Circular on ARSA's. The combined Letter to Airmen and prorated Advisory Circular costs for the airport at which an ARSA is being proposed by this notice is estimated to be approximately $450. This cost will be incurred only once upon the initial establishment of the ARSA.

Information on ARSA's following implementation of the program will also be disseminated at aviation safety seminars conducted throughout the country by various district offices. These seminars are regularly provided by the FAA to discuss a variety of aviation safety issues, and therefore will not involve additional costs strictly as a result of the ARSA program. Additionally, no significant costs are expected to be incurred as a result of the follow-on user meetings that will be held at each site following implementation of the ARSA to allow users to provide feedback to the FAA on local ARSA operations. These meetings are being held at public or other facilities which are being provided free of charge or at nominal cost. Further, because these meetings are being conducted by local FAA facility personnel, no travel, per diem, or overtime costs will be incurred by regional or headquarters personnel.

FAA anticipates that some pilots who currently transit a TRSA without establishing radio communications or participating in radar services may choose to circumnavigate the mandatory participation airspace of an ARSA rather than participate. Some minor delay costs will be incurred by these pilots because of the additional aircraft variable operating cost and lost crew and passenger time resulting from the deviation. Other pilots may elect to overfly the ARSA, or transit below the 1,200 feet above ground level (AGL) floor between the 5- and 10-nautical-mile rings. Although this will not result in any appreciable delay, a small additional fuel burn will result from the climb portion of the altitude adjustment (which will be offset somewhat by the descent).

FAA recognizes that the potential exists for delay to develop at some locations following establishment of an ARSA. The additional traffic that the radar facilities will be handling as a result of the mandatory participation requirement may, in some instances, result in minor delays to aircraft operations. FAA does not expect such delay to be appreciable. FAA expects that the greater flexibility afforded controllers in handling traffic as a result of the reduced separation standards will keep delay problems to a minimum. Those that do occur will be transitional in nature, diminishing as facilities gain operating experience with ARSA's and learn how to tailor procedures and allocate resources to take fullest advantage of the efficiencies that an ARSA will permit. This has been the experience at the locations where ARSA's have been in effect for the longest period of time, and is the trend at most of the locations that have been more recently designated.

The FAA does not expect that any operators will find it necessary to install radio transceivers as a result of establishing the ARSA proposed in this notice. Aircraft operating to and from primary airports already are required to have two-way radio communications capability because of existing airport traffic areas and, therefore, will not incur any additional costs as a result of the proposed ARSA. Further, the FAA has made an effort to minimize these potential costs throughout the ARSA program by providing airspace exclusions, or cutouts, for satellite airports located within 5 nautical miles of the ARSA center where the ARSA would otherwise have extended down to the surface. Procedural agreements between the local ATC facility and the affected airports have also been used to avoid radio installations costs.

At some proposed ARSA locations, special situations might exist where establishment of an ARSA could impose certain costs on users of that airspace. However, exclusions, cutouts, and special procedures have been used extensively throughout the ARSA program to alleviate adverse impacts on local fixed base and airport operators. Similarly, the FAA has eliminated potential adverse impacts on existing flight training practice areas, as well as

soaring, ballooning, parachuting, ultralight and banner towing activities, by developing special procedures to accommodate these activities through local agreements between ATC facilities and the affected organizations. For these reasons, the FAA does not expect that any such adverse impact will occur at the candidate ARSA site proposed in this notice.

*b. Benefits*

Much of the benefit that will result from ARSA's is nonquantifiable, and is attributable to simplification and standardization of ARSA configurations and procedures, which will eliminate much of the confusion pilots currently experience when operating in nonstandard TRSA's. Further, once experience is gained in ARSA operations, the greater flexibility allowed air traffic controllers in handling traffic within an ARSA will enable them to move traffic more efficiently than they currently are able to under TRSA's. These expected savings may or may not offset the delay that some sites may experience after the initial establishment of an ARSA, but are expected to eventually provide overall time savings to all traffic, IFR as well as VFR, as both pilots and controllers become more familiar with ARSA operating procedures.

Some of the benefits of the ARSA cannot be specifically attributed to individual candidate airports, but rather will result from the overall improvements in terminal area ATC procedures realized as ARSA's are implemented throughout the country. ARSA's have the potential of reducing both near and actual midair collisions at the airports where they are established. Based upon the experience at the Austin and Columbus ARSA confirmation sites, FAA estimates that near midair collisions may be reduced by approximately 35 to 40 percent. Further, FAA estimates that implementation of the ARSA program nationally may prevent approximately one midair collision every 1 to 2 years throughout the United States. The quantifiable benefits of preventing a midair collision can range from less than $100,000, resulting from the prevention of a minor nonfatal accident between general aviation aircraft, to $300 million or more, resulting from the prevention of a midair collision involving a large air carrier aircraft and numerous fatalities. Establishment of an ARSA at the site proposed in this notice will contribute to these improvements in safety.

*c. Comparison of Costs and Benefits*

A direct comparison of the costs and benefits of this proposal is difficult for a number of reasons. Many of the benefits of the rule are nonquantifiable, and it is difficult to specifically attribute the standardization benefits, as well as the safety benefits, to individual candidate ARSA sites.

FAA expects that any adjustment problems that may be experienced at new ARSA locations will only be temporary, and that once established, the ARSA program will result in an overall improvement in efficiency in terminal area operations at those airports where ARSA's are established. This has been the experience at the vast majority of ARSA sites that have already been implemented. In addition to these operational efficiency improvements, establishment of the proposed ARSA site will contribute to a reduction in near and actual midair collisions. For these reasons, FAA expects that establishment of the ARSA site proposed in this notice will produce long term, ongoing benefits that will far exceed its costs, which are essentially transitional in nature.

**International Trade Impact Analysis**

This proposed regulation will only affect terminal airspace operating procedures at selected airports within the United States. As such, it will have no affect on the sale of foreign aviation products or services in the United States, nor will it affect the sale of United States aviation products or services in foreign countries.

**Regulatory Flexibility Determination**

The Regulatory Flexibility Act of 1980 (RFA) was enacted by Congress to ensure that small entities are not unnecessarily and disproportionately burdened by government regulations. Small entities are independently owned and operated small businesses and small not-for-profit organizations. The RFA requires agencies to review rules that may have "a significant economic impact on a substantial number of small entities."

The small entities that potentially could be affected by implementation of the ARSA program include the fixed-base operators, flight schools, agricultural operators and other small aviation businesses located at satellite airports within 5 nautical miles of the ARSA center. If the mandatory participation requirement were to extend down to the surface at these airports, where under current regulations participation in the TRSA and radio communication with ATC is voluntary, operations at these airports might be altered, and some business could be lost to airports outside of the ARSA core. FAA has proposed to exclude many satellite airports located within 5 nautical miles of the primary airport at candidate ARSA sites to avoid adversely impacting their operations, and to simplify coordinating ATC responsibilities between the primary and satellite airports. In some cases, the same purposes will be achieved through letters of Agreement between ATC and the affected airports that establish special procedures for operating to and from these airports. In this manner, FAA expects to eliminate any adverse impact on the operations of small satellite airports that potentially could result from the ARSA program. Similarly, FAA expects to eliminate potentially adverse impacts on existing flight training practice areas, as well as soaring, ballooning, parachuting, ultralight, and banner towing activities, by developing special procedures that will accommodate these activities through local agreements between ATC facilities and the affected organizations. FAA has utilized such arrangements extensively in implementing the ARSA's that have been established to date.

Further, because the FAA expects that any delay problems that may initially develop following implementation of an ARSA will be transitory, and because the airports that will be affected by the ARSA program represent only a small proportion of all the public use airports in operation within the United States, small entities of any type that use aircraft in the course of their business will not be adversely impacted.

For these reasons, the FAA certifies that the proposed regulation will not result in a significant economic impact on a substantial number of small entities, and a regulatory flexibility analysis is not required under the terms of the RFA.

**List of Subjects in 14 CFR Part 71**

Aviation safety, airport radar service areas.

**The Proposed Amendment**

**PART 71—[AMENDED]**

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

1. The authority citation for Part 71 continues to read as follows:

**Authority:** 49 U.S.C. 1348(a), 1354(a), 1510; E.O. 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

2. Section 71.501 is amended as follows:

**§ 71.501 [Amended]**

**San Juan Luis Munoz Marin International Airport, PR [New]**

That airspace extending upward from the surface to and including 4,000 feet MSL within a 5-mile radius of the Luis Munoz Marin International Airport (lat. 18°26'29"N., long. 66°00'06"W.); and that airspace extending upward from 2,500 feet MSL to 4,000 feet MSL within a 10-mile radius of the Luis Munoz Marin International Airport from the 129°T(140°M) bearing from the airport clockwise to the 189°T(200°M) bearing from the airport and that airspace extending upward from 3,700 feet MSL to 4,500 feet MSL within a 10-mile radius of the airport from the 189°T(200°M) bearing from the airport clockwise to the 229°T(240°M) bearing from the airport and that airspace extending upward from 1,200 feet MSL to 4,000 feet MSL within a 50-mile radius of the airport from the 229°T(240°M) bearing from the airport clockwise to the 129°T(140°M) bearing from the airport.

Issued in Washington, DC, on May 8, 1987.

**Daniel J. Peterson,**

*Manager, Airspace—Rules and Aeronautical Information Division.*

# Guide to Record Retention Requirements

## in the Code of Federal Regulations (CFR)

**GUIDE:** Revised January 1, 1986
**SUPPLEMENT:** Revised January 1, 1987

The GUIDE and the SUPPLEMENT should be used together. This useful reference tool, compiled from agency regulations, is designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

*Order from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402-9325.*

---

Briefings on How To Use the Federal Register—
For information on briefings in Washington, DC, Chicago, IL, and Boston, MA, see announcement on the inside cover of this issue.

BEST COPY AVAILABLE

**FEDERAL REGISTER** Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $340.00 per year, or $170.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

**How To Cite This Publication:** Use the volume number and the page number. Example: 52 FR 12345.

## THE FEDERAL REGISTER
## WHAT IT IS AND HOW TO USE IT

**FOR:** Any person who uses the Federal Register and Code of Federal Regulations.

**WHO:** The Office of the Federal Register.

**WHAT:** Free public briefings (approximately 2 1/2 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

**WHY:** To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

### WASHINGTON, DC

**WHEN:** June 9, at 9 a.m.
**WHERE:** Office of the Federal Register,
First Floor Conference Room,
1100 L Street NW., Washington, DC.
**RESERVATIONS:** Gertrude E. Belton, 202-523-5237

# Rules and Regulations

Federal Register
Vol. 52, No. 95
Monday, May 18, 1987

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

## DEPARTMENT OF AGRICULTURE

### Farmers Home Administration

### 7 CFR Part 1951

### Implementation of Salary Offset

**AGENCY:** Farmers Home Administration, USDA.

**ACTION:** Interim rule with request for comments.

**SUMMARY:** The Farmers Home Administration (FmHA), United States Department of Agriculture (USDA) amends its regulations to permit salary offset to collect debts owed by Federal employees arising from delinquent FmHA loans and other debts. The objective is to inform the public of the procedures that will be used by FmHA to exercise salary offset. The intended effect is to allow FmHA to collect from an employee's current salary, to increase collections and reduce delinquencies.

**DATES:** Effective Date: May 18, 1987. Comments must be submitted on or before June 17, 1987.

**ADDRESSES:** Send comments, in duplicate, to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6348–S, 14th and Independence Avenue SW., Washington, DC 20250. All written comments will be available for public inspection during normal working hours at the above address.

**FOR FURTHER INFORMATION CONTACT:** Pat Vincenzo, Management Analyst, telephone (202) 475–5502, Farmers Home Administration, U.S. Department of Agriculture, Room 5505, South Agriculture Building, Washington, DC 20250.

**SUPPLEMENTARY INFORMATION:** This rule has been reviewed under USDA procedures established in Departmental Regulation 1512–1 which implements Executive Order 12291, and has been determined "non-major." It will not result in an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This document has been reviewed in accordance with 7 CFR Part 1940, Subpart G, "Environmental Program." The Administrator of FmHA has determined that this action does not constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Environmental Policy Act of 1969, Pub. L. No. 91–190, an Environmental Impact Statement is not required.

This activity is listed in the Catalog of Federal Domestic Assistance under Farm Labor Housing Loans (No. 10.405), Farm Ownership Loans, specifically related to non-farm enterprise loans (No. 10.407), Rural Housing Site Loans (No. 10.411), Resource Conservation and Development Loans (No. 10.414), Rural Rental Housing Loans (No. 10.415), Soil and Water Loans (SW Loans) (No. 10.416), Water and Waste Disposal Systems for Rural Communities (No. 10.418), Housing Technical Assistance (Section 523 Technical Assistance (No. 10.420), Business and Industrial Loans (No. 10.422), Community Facilities Loans (No. 10.423), and Rural Rental Assistance Payments (Rental Assistance) (No. 10.427), and are subject to the provisions of Executive Order 12371 which requires intergovernmental consultation with State and local officials. (7 CFR 3015, Subpart V, 48 FR 29112, June 24, 1983.) Emergency loans (No. 10.404), Farm Operating Loans (No. 10.406), Farm Ownership Loans (No. 10.407), Low-Income Housing Loans (Section 502 Rural Housing Loans) (No. 10.410), Very Low-Income Housing Repair Loans (Section 504 Rural Housing Loans) (No. 10.417), Indian Tribes and Tribal Corporation Loans (No. 10.421), and Economic Emergency Loans (No. 10.428) are excluded from the Executive Order.

FmHA is implementing this interim rule immediately with a 30 day comment period. It is the policy of USDA that rules relating to public property, loans, grants, benefits or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. Good cause exists to make this regulation effective immediately and not to publish the regulation as a proposed rule. This is a rule concerned with matters of agency management only and publication as a proposed rule is unnecessary, but FmHA is accepting public comments.

While delinquent debts owed to FmHA remain unpaid, FmHA must borrow money to operate which increases the Federal deficit. Increased Government borrowing causes interest rates to rise and reduces the availability of credit in the country. The Debt Collection Act of 1982 (31 U.S.C. 3701, 3711 and 3716–19), the Attorney General-Comptroller General's joint claims collection standards for agencies (4 CFR Parts 101–105), and the USDA debt collection regulations (7 CFR Part 3) contain specific and detailed requirements which agencies of USDA must follow in order to collect debts by offset. This FmHA regulation does not add to those existing requirements and simply restates those requirements and identifies the FmHA employees who are responsible for fulfilling those requirements for FmHA. Publication as a proposed rule is unnecessary because no new requirements or restrictions are imposed on those who are already subject to USDA regulations. Making this FmHA regulation effective immediately upon publication is warranted because the regulation only gives guidance to the FmHA staff and affected parties as to how FmHA intends to administer the Debt Collection Act, the Attorney General-Comptroller General regulations, and the USDA regulations.

### List of Subjects in 7 CFR Part 1951

Account servicing, Loan programs, Agriculture, Loan programs—Housing and community development, Low and moderate income housing loans—Servicing, Accounting, Credit.

Accordingly, 7 CFR Part 1951 is amended as follows:

PART 1951—SERVICING AND COLLECTIONS

1. The authority citation for Part 1951 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart C—Offsets of Federal Payments to FmHA Borrowers

§ 1951.105 [Amended]

2. In § 1951.105, paragraph (f) is amended by removing the words, "ASCS and FCIC" at the end of the paragraph.

3. A new § 1951.111 is added to read as follows:

§ 1951.111 Salary offset.

Salary offset may be used to collect debts arising from delinquent FmHA loans and other debts which arise through such activities as theft, embezzlement, fraud, salary overpayments, underwithholding of amounts payable for life and health insurance, and any amount owed by former employees from loss of federal funds through negligence and other matters. Salary offset may also be used by other Federal agencies to collect debts owed to them by employees of FmHA, excluding County Committee members. Salary offset will not be initiated until after other servicing options available to the borrower have been utilized. In addition, for farmer program loans, salary offset will not be instituted if the federal salary has been considered on the farm and home plan, and it was determined the funds were to be used for another purpose other than payment on the FmHA loan. When salary offset is used, payment for the debt will be deducted from the employee's pay and sent directly to the creditor agency. Not more than 15 percent of the employee's disposable pay can be offset per pay period, unless the employee agrees to a larger amount. The debt does not have to be reduced to judgment or be undisputed and the payment does not have to be covered by a security instrument. This section describes the procedures which must be followed before FmHA can ask a Federal agency to offset any amount. Decisions made under the following section are not appealable under Subpart B of Part 1900 of this chapter.

(a) *Authorities.* The following authorities are granted to FmHA employees in order that they may initiate and implement salary offset:

(1) Certifying Officials are authorized to certify to the debtor's employing agency that the debt exists, the amount of the delinquency or debt, that the procedures in FmHA's and United States Department of Agriculture's (USDA's) regulations regarding salary offsets have been followed, that the actions required by the Debt Collection Act have been taken; and to request that salary offset be initiated by the debtor's employing agency. This authority may not be redelegated.

(2) Certifying Officials are authorized to advise the Finance Office to establish employee defalcation accounts and non-cash credits to borrower accounts in cases involving other debts, such as those arising from theft, fraud, embezzlement, loss of funds through negligence, and similar actions involving FmHA employees.

(3) The Finance Office is authorized to establish defalcation accounts and non-cash credits to borrower accounts upon receipt of requests from the Certifying Officials.

(b) *Definitions*—(1) *Salary offset.* The collection of a debt due to the U.S. by deducting a portion of the disposable pay of a Federal employee without the employee's consent.

(2) *Debt or debts.* A term that refers to one or both of the following:

(i) *Delinquent debts.* A past due amount owed to the United States from sources which include, but are not limited to, insured or guaranteed loans, fees, leases, rents, royalties, services, sales of real or personal property, overpayments, penalties, damages, interest, fines and forfeitures (except those arising under the Uniform Code of Military Justice).

(ii) *Other debts.* An amount owed to the United States by an employee for pecuniary losses where the employee has been determined to be liable due to the employee's negligent, willful, unauthorized or illegal acts, including but not limited to:

(A) Theft, misuse, or loss of Government funds;

(B) False claims for services and travel;

(C) Illegal, unauthorized obligations and expenditures of Government appropriations;

(D) Using or authorizing the use of Government owned or leased equipment, facilities supplies, and services for other than official or approved purposes;

(E) Lost, stolen, damaged, or destroyed Government property;

(F) Erroneous entries on accounting record or reports; and,

(G) Deliberate failure to provide physical security and control procedures for accountable officers, if such failure is determined to be the proximate cause for a loss of Government funds.

(3) *Certifying Officials.* State Directors; the Assistant Administrator, Finance Office; and the Deputy Administrator for Management, National Office.

(4) *Hearing Officer.* An Administrative Law Judge of the USDA or another individual not under the control of the USDA, designated by the Certifying Official to review the determination of the alleged debt.

(5) *Disposable pay.* Pay due an employee that remains after required deductions for Federal, State and local income taxes; Social Security taxes, including Medicare taxes; Federal retirement programs; premiums for life and health insurance benefits, and such other deductions required by law to be withheld.

(6) *Defalcation account.* An account established in the Finance Office for other debts owed the Federal government in the amount missing due to the action of an employee or former employee.

(7) *Non-cash credit.* The accounting action taken by the Finance Office to credit and make a borrower's account whole for funds paid by the borrower but missing due to an employee's or former employee's actions.

(c) *Feasibility of salary offset.* The first step the Certifying Official must take to use this offset procedure is to decide, on a case by case basis, whether offset is feasible. If an offset is feasible, the directions in the following paragraphs of this section will be used to collect by salary offset. If the official making this determination decides that salary offset is not feasible, the reasons supporting this decision will be documented in the borrower's running case record in the case of delinquent debts, or the "For Official Use Only" file in cases of other debts. Ordinarily, and where possible, debts should be collected in one lump-sum; but payments may be made in installments. Installment deductions can be made over a period not greater than the anticipated period of employment. However, the amount deducted for a pay period will not exceed 15 percent of the disposable pay from which the deduction is made. If possible, the installment payment will be sufficient in size and frequency to liquidate the debt in approximately 3 years. Based on the Comptroller General's decisions, other debts by employees cannot be forgiven. If the employee retires or resigns, or if employment ends before collection of the debt is completed, final salary payment, lump-sum leave, etc. may be offset to the extent necessary to

liquidate the debt. Salary offset is feasible if:

(1) The cost to the Government of collecting salary offset does not exceed the amount of the debt. County Committee members are exempt from salary offset because the amount collected by salary offset would be so small as to be impractical.

(2) There are no legal restrictions to the debt, such as the debtor being under the jurisdiction of a bankruptcy court, or the statute of limitations having expired. The Debt Collection Act of 1982 permits offset of claims that have not been outstanding for more than 10 years.

(d) *Notice to debtor.* (1) After the Certifying Official determines that collection by salary offset is feasible, FmHA Form Letter 1951–4 will be sent to notify the debtor at least 30 days before the salary offset begins. FmHA Form Letter 1951–4 will be personally delivered to the debtor or sent certified mail, Return Receipt Requested, with a copy sent by regular mail on the same day. If the certified mail receipt is returned, the date the debtor received the letter will be established and the time limits set out in FmHA Form Letter 1951–4 will run from that date. If delivery by certified mail is not accomplished, FmHA will assume that the debtor received the letter by regular mail on the day the certified mail was refused or was unable to be delivered.

(2) The Debt Collection Act of 1982 requires that the hearing officer issue a written decision not later than 60 days after the filing of the petition requesting the hearing; thus, the evidence upon which the decision to notify the debtor is based, to the extent possible, should be sufficient for FmHA to proceed at a hearing, should the debtor request a hearing under paragraph (f) of this section.

(e) *Notice requirement before salary offset.* Salary offset will not be made unless the employee receives 30 calendar days written notice. This Notice of Intent (FmHA Form Letter 1951–4) will state:

(1) It has been determined that the debt is owed, the amount of the debt, and the facts giving rise to the debt;

(2) The debt will be collected by means of deduction of not more than 15 percent from the employee's current disposable pay until the debt and all accumulated interest are paid in full;

(3) The amount, frequency, approximate beginning date, and duration of the intended deductions;

(4) An explanation of the requirements concerning interest, penalties and administrative costs, unless such payments are waived;

(5) The employee's right to inspect and request a copy of records relating to the debt;

(6) The employee's right to voluntarily enter into a written agreement for a repayment schedule with the agency different from that proposed by FmHA, if the terms of the repayment proposed by the employee are agreeable with the agency;

(7) That the employee has a right to a hearing conducted by an Administrative Law Judge of USDA or a hearing official not under the control of the Secretary of Agriculture, concerning the agency's determination of the existence or amount of the debt and the percentage of disposable pay to be deducted each pay period, if a petition for a hearing is filed by the employee as prescribed by FmHA;

(8) The timely filing of a petition for hearing will stay the collection proceedings;

(9) That a final decision will be issued at the earliest practical date, but not later than 60 calendar days after the filing of petition requesting the hearing;

(10) That any knowingly false or frivolous statements may subject the employee to disciplinary procedures, or penalties, under the applicable statutory authority;

(11) Any other rights and remedies available to the employee under statutes or regulations governing the program for which the collection is being made;

(12) That amounts paid on or deducted for the debt which are later waived or found not owed to the United States will be promptly refunded to the employee unless there are provisions to the contrary;

(13) The method and time period for requesting a hearing; and

(14) The name and address of an official of USDA to whom communications should be directed.

(f) *Debtor's request for records, offer to repay, request for a hearing or request for information concerning debt settlement.* (1) If a debtor responds to FmHA Form Letter 1951–4 by asking to review and copy FmHA's records relating to the debt, the Certifying Official will promptly respond by sending a letter which tells the debtor the location of the debtor's FmHA files and that the files may be reviewed and copied within the next 30 days. Copying costs (see FmHA Instruction 2018–F) will be set out in the letter, as well as the hours the files will be available each day. If a debtor asks to have FmHA copy the records, a copy will be made within 30 days of the request.

(2) If a debtor responds to FmHA Form Letter 1951–4 by offering to repay the debt, the offer may be accepted by the Certifying Official, if it would be in the best interest of the government. FmHA Form Letter 1951–5 will be used if a repayment offer for an FmHA loan or grant is accepted. Upon receipt of an offer to repay, the Certifying Official will delay institution of a hearing until a decision is made on the repayment offer. Within 60 days after the initial offer to repay was made, the Certifying Official must decide whether to accept or reject the offer. This decision will be documented in the running case record or the "For Official Use Only" file, as appropriate, and the debtor will be sent a letter which sets out the decision to accept or reject the offer to repay. The decision to accept or reject a repayment offer should be based upon a realistic budget or farm and home plan and according to the servicing regulations for the type of loan(s) involved.

(3) If a debtor responds to FmHA Form Letter 1951–4 by asking for a hearing on FmHA's determination that a debt exists and/or is due, or on the percentage of net pay to be deducted each pay period, the Certifying Official will notify the debtor in accordance with paragraph (g)(3) of this section and request the debtor's case file or the "For Official Use Only" file.

(4) If a debtor is willing to have more than 15 percent of the disposable pay sent to FmHA, a letter prepared and signed by the debtor clearly stating this must be placed in the debtor's case file or the "For Official Use Only" file.

(5) If a debtor who is an FmHA borrower requests debt settlement, the account must be in collection-only status or be an inactive account for which there is no security. The Certifying Official must inform the borrower of how to apply for debt settlement. Any application will be considered independently of the salary offset. A salary offset should not be delayed because the borrower applied for debt settlement.

(6) The time limits set in FmHA Form Letter 1951–4 and in paragraphs (f) (1), (2), and (3) of this section run concurrently. In other words, if a debtor asks to review the FmHA file and offers to repay the debt, the debtor cannot take 30 days to ask to review the file and then take another 30 days to offer to repay. The request to review the file and the offer to repay must both be made within 30 days of the date the debtor receives the notification letter.

(7) If an employee is included in a bargaining unit which has a negotiated grievance procedure that does not specifically exclude salary offset proceedings, the employee must grieve the matter in accordance with the

negotiated procedure. Employees who are not covered by a negotiated procedure must utilize the salary offset proceedings as outlined in FmHA Form Letter 1951–4. The employee must be informed, in writing, which procedure to follow and, as appropriate, reference should be made to the appropriate sections of the negotiated agreement.

(g) *Hearings.* (1) A hearing officer must be a USDA Administrative Law Judge or a person who is not a USDA employee. In order to ensure that a hearing officer will be available promptly when needed, Certifying Officials need to make appropriate arrangements with officials of nearby federal agencies for the use of each other's employees as hearing officers.

(2) Not later than 30 days from the date the debtor receives the Notice of Intent (FmHA Form Letter 1951–4), the employee must file with the Certifying Official issuing the notice, a written petition establishing his/her desire for a hearing on the existence and amount of the debt or the proposed offset schedule. The employee's petition must fully identify and explain all the information and evidence that supports his/her position. In addition, the petition must bear the employee's original signature and be dated upon receipt by the Certifying Official.

(3) Certifying Officials are responsible for determining if the employee's petition for a hearing has been submitted in a timely fashion. Petitions received from employees after the 30-day time limitation expires will be accepted only if the employee can show the delay was because of circumstances beyond his/her control or because of failure to receive notice of the time limitation. Certifying Officials are required to provide written notification to the employee of the acceptance or non-acceptance of the employee's petition for hearing.

(4) For those petitions accepted, FmHA will arrange for a hearing officer and notify the employee of the time and place of the hearing. The hearing location should be convenient to all parties involved. The employee will also be notified that the acceptance of the petition for hearing will stay the commencement of collection proceedings. Any payments collected in error due to untimely or delayed filing beyond the employee's control will be refunded unless there are applicable contractual or statutory provisions to the contrary.

(5) The hearing will be based on written submissions and documentation provided by the debtor and FmHA unless:

(i) A statute authorizes or requires consideration of waiving the debt, the debtor requests waiver of the debt, and the waiver determination turns on an issue of credibility or truth.

(ii) The debtor requests reconsideration of the debt and the hearing officer determines that the question of the indebtedness cannot be resolved by a review of the documentary evidence; for example, when the validity of the debt turns on an issue of credibility or truth.

(iii) The hearing officer determines that an oral hearing is appropriate.

(6) Oral hearings may be conducted by conference call at the request of the debtor or at the discretion of the hearing officer. The hearing officer's determination that the offset hearing is on the written record is final and is not subject to review.

(7) The hearing officer will issue a written decision not later than 60 days after the filing of the petition requesting the hearing, unless the employee requests and the Certifying Official grants a delay in the proceedings. The written decision will state the facts supporting the nature and origin of the debt, the hearing officer's analysis, findings and conclusions as to the amount and validity of the debt, and repayment schedule. Both the employee and FmHA will be provided with a copy of the hearing officer's written decision on the debt.

(h) *Processing delinquent debts.* (1) Form AD–343, "Payroll Action Request," will be prepared and submitted by the Certifying Official to the debtor's employing agency along with FmHA Form Letter 1951–6 if:

(i) The borrower does not respond to FmHA Form Letter 1951–4 within 30 days.

(ii) The borrower responds to FmHA Form Letter 1951–4 within 30 days and

(A) Has had an opportunity to review the file, if requested,

(B) Has received a hearing, if requested, and

(C) A decision has been made by the hearing officer to uphold the offset.

(2) A copy of Form AD–343 and the Form Letter 1951–6 will be sent to the Finance Office, St. Louis, MO 63103, Attn: Account Settlement Unit.

(3) If the debtor is an FmHA employee, the Certifying Official will send Form AD–343 to the National Finance Center (NFC), New Orleans, LA, and a copy to the Finance Office, St. Louis, MO, Attn: Account Settlement Unit.

(4) If the debtor has agreed to have more or less than 15 per cent of the disposable pay sent to FmHA, a copy of the debtor's letter (FmHA Form Letter 1951–8) authorizing this must be attached to Form AD–343.

(5) Field offices will be notified of payments received from salary offset by receipt of a transaction record from the Finance Office.

(i) *Deduction percentage.* (1) Generally, installment deductions will be made over a period not greater than the anticipated period of employment. If possible, the installment payment will be sufficient in size and frequency to liquidate the debt in approximately 3 years. The size and frequency of installment deductions will bear a reasonable relation to the size of the debt and the employee's ability to pay. Certifying Officials are responsible for determining the size and frequency of the deductions. However, the amount deducted for any period will not exceed 15 percent of the disposable pay from which the deduction is made, unless the employee has agreed in writing to the deduction of a greater amount. Installment payments of less than $25 per pay period or $50 a month will be accepted only in the most unusual circumstances.

(2) Deductions will be made only from basic pay, incentive pay, retired pay, retainer pay, or, in the case of an employee not entitled to basic pay, other authorized pay. If there is more than one salary offset, the maximum deduction for all salary offsets against an employee's disposable pay is 15 percent unless the employee has agreed in writing to a greater amount.

(j) *Agency/NFC responsibility for other debts.* (1) FmHA will inform NFC about other indebtedness by transmitting to NFC an AD–343. NFC will process the documents through the Payroll/Personnel System, calculate the net amount of the adjustment and generate a salary offset notice. This notice will be sent to the employee's employing office along with a duplicate copy for the FmHA's records. FmHA is responsible for completing the necessary information and forwarding the employee's notice to the employee.

(2) Other indebtedness falls into two categories:

(i) An agency-initiated indebtedness (i.e. personal telephone calls, property damages, etc.).

(ii) An NFC-initiated indebtedness (i.e. duplicate salary payments, etc.). NFC will send the salary offset notice to the employing office.

(k) *Establishing employees or former employees defalcation accounts and non-cash credits to borrower accounts.* In cases where a borrower made a payment on an FmHA account(s) and, due to theft, embezzlement, fraud,

negligence, or some other action on the part of an FmHA employee or employees, the payment is not transmitted to the Finance Office for application to the borrower's account(s), certain accounting actions must be taken by the Finance Office to establish non-cash credits to the borrower's account and an employee defalcation account.

(1) The Certifying Official will advise the Assistant Administrator, Finance Office by memorandum to establish a defalcation account. The memorandum must state the following information:

(i) Employee's name (or former),

(ii) Social Security Number,

(iii) Present or last known address,

(iv) Date of Payment, and

(v) Amount of the defalcation account.

(2) If a non-cash credit to a borrower's account(s) is required, the letter to the Finance Office will include:

(i) Borrower's name and case number,

(ii) Fund Code and Loan Code,

(iii) Date and amount of missing payment,

(iv) Copy of receipt issued for the missing payment, and

(v) Name of employee who last had custody of the missing funds.

(3) To assist and assure proper accounting for defalcation accounts and non-cash credits, the request should be made at the same time. Should requests be made separately, be sure to identify appropriately.

(4) The Certifying Official shall furnish a copy of the memorandum and supporting documentation for paragraphs (k) (1) and (2) of this section to the Deputy Administrator for Management for distribution to the Financial Management and Analysis Staff (FMAS) and Employee Relations Branch, Personnel Division.

(l) *Application of payments, refunds and overpayments.* (1) If a debtor is delinquent or indebteded on more than one FmHA loan or debt, amounts collected by offset will be applied as specified on Form AD–343, based on the advantage to agency or debtor. The check date will be used as the date of credit in applying payments to the borrower's accounts.

(2) If a court or agency orders FmHA to refund the amount obtained by salary offset, a refund will be requested promptly by the Certifying Official in accordance with the order by sending FmHA Form Letter 1951–5 to the Finance Office. Processing FmHA Form Letter 1951–5 in the Finance Office will cause a refund to be sent to the debtor through the county office or other appropriate FmHA office. The debtor is not entitled to any payment of interest, on the refunded amount.

(3) If a debtor does not request a hearing within the required time and it is later determined that the delay was due to circumstances beyond the debtor's control, any amount collected before the hearing decision is made will be refunded promptly by the Certifying Official in accordance with paragraph (l) (2) of this section.

(4) If FmHA receives money through an offset but the debtor is not delinquent or indebted at the time or the amount received is in excess of the delinquency or indebtedness, the entire amount or the amount in excess of the delinquency or indebtedness will be refunded promptly to the debtor by the Certifying Official in accordance with paragraphs (l) (1) and (2) of this section.

(m) *Cancellation of offset.* If a debtor's name has been submitted to another agency for offset and the debtor's account is brought current, the Certifying Official will notify the other agency with Form AD–343 that the debtor is no longer delinquent or indebted and to cancel the offset. A copy of the cancellation document will be sent to the debtor and the Finance Office, Attn: Account Settlement Unit.

(n) *Intra-departmental transfer.* When an FmHA employee who is indebted to one agency in USDA transfers to another agency within USDA, a copy of the repayment schedule should be forwarded by the agency personnel office to the new employing agency. The NFC will continue to make deductions until full recovery is effected.

(o) *Liquidation from final checks.* Upon the determination that an employee owing a debt to FmHA is to retire, resign, or employment otherwise ends, the Certifying Official should forward a telegram with the appropriate employee identification and amount of the debt to the NFC. The telegram should request that the debt be collected from final salary/lump sum leave or other funds due the employee, and, if necessary, to put a hold on the retirement funds. The telegram information should be confirmed by completion of Form AD–343. Collection from retirement funds will be in accordance with Departmental Administrative Offset procedures (7 CFR, Part 3, Subpart B, Section 3.32).

(p) *Coordination with other agencies.* (1) If FmHA is the creditor agency but not the paying agency, the FmHA will submit Form AD–343 to the paying agency to begin salary offset against an indebted employee. The request will include a certification as to the determination of indebtedness, and that FmHA has complied with applicable regulations and instructions for submitting the funds to the Finance Office. (See FmHA Form Letter 1951–6.)

(2) When an employee of FmHA owes a debt to another Federal agency, salary offset may be used only when the Federal agency certifies that the person owes the debt and that the Federal agency has complied with its regulations. The request must include the creditor agency's certification as to the indebtedness, including the amount, and that the employee has been given the due process entitlements guaranteed by the Debt Collection Act of 1982. When a request for offset is received, FmHA will notify the employee and NFC and arrange for offset. (See FmHA Form Letter 1951–7).

(q) *Deductions by the National Finance Center (NFC).* The NFC will automatically deduct the full amount of the delinquency or indebtedness if less than 15 percent of disposable pay or 15 percent of disposable pay if the delinquency or indebtedness exceeds 15 percent, unless the creditor agency advises otherwise. Deductions will begin the second pay period after the 30-day notification period has expired unless FmHA issues the notice. If FmHA issues the notice, the NFC will begin deductions on the first pay period after receipt of the Form AD–343.

(r) *Interest, penalties and administrative costs.* Interest and administrative costs will normally be assessed on outstanding claims being collected by salary offset. However, penalties should not be charged routinely on debts being collected in installments by salary offsets, since it is not to be construed as a failure to pay within a given time period. Additional interest, penalties, and administrative costs will not be assessed on delinquent loans until FmHA publishes regulations permitting such charges.

(s) *Adjustment in rate of repayment.* (1) When an employee who is indebted receives a reduction in basic pay that would cause the current deductions to exceed 15 percent of disposable pay, and the employee has not consented in writing to a greater amount, FmHA must take action to reduce the amount of the deductions to 15 percent of the new amount of disposable pay. Upon an increase in basic pay which results in the current deductions to be less than the specified percentage, FmHA may increase the amount of the deductions accordingly. In either case, when a change is made the employee will be notified in writing.

(2) When an employee has an existing reduced repayment schedule because of financial hardship, the creditor agency

may arrange for a new repayment schedule.

Dated: April 13, 1987.

Michael C. Wilkinson,

*Acting Administrator, Farmers Home Administration.*

BILLING CODE 3410-07-M

## DEPARTMENT OF ENERGY

### 10 CFR Parts 420, 465, and 600

### Class Deviation; Subawards Under the State Energy Conservation Program and Energy Extension Service Grant Program

**AGENCY:** Department of Energy (DOE).

**ACTION:** Notice of class deviation.

**SUMMARY:** The Department of Energy (DOE) announces that a class deviation has been approved which exempts subawards (subgrants) under the State Energy Conservation Program and Energy Extension Service grant program for Fiscal Year 1987 from the requirement that subgrants must be "specifically authorized by statute or program rule" (10 CFR 600.3).

**DATE:** The class deviation is effective June 2, 1987.

**FOR FURTHER INFORMATION CONTACT:** Howard K. Mitchell, Office of Clearance and Support, Procurement and Assistance Management Directorate, Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-8226. Ernestine Gibson, Energy Management and Extension Programs, Office of State and Local Programs, Conservation and Renewable Energy, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-8294.

**SUPPLEMENTARY INFORMATION:** As part of the Department's energy conservation mission, DOE fosters and promotes comprehensive state energy conservation plans by providing technical and financial assistance for specific state initiatives to conserve and improve efficiency in the use of energy and to encourage the use of renewable resources through the State Energy Conservation Program (SECP), 10 CFR Part 420. DOE also provides financial and technical assistance to the States through the Energy Extension Service (EES) program, 10 CFR Part 465, to stimulate, provide for and supplement programs for the conduct of evaluation, planning and other technical assistance and energy conservation efforts, including energy outreach activities of States.

Each year the Department receives applications from the States for these grant programs and, because of the diversity of conditions among the various States, some contain requests to make subgrants for purposes of planning and implementing a variety of local energy projects to local community organizations.

Subgrants are not permissible funding mechanisms under the SECP and EES programs since they are not specifically authorized by statute or program rules in accordance with 10 CFR 600.3, Definitions, "Recipient," "Subaward", "Subrecipient," and 10 CFR 600.101, "Subgrant."

The Director, Procurement and Assistance Management Directorate, has approved a class deviation in accordance with 10 CFR 600.4, exempting subgrants under SECP and EES grant programs for Fiscal Year 1987 from the requirements of the DOE Financial Assistance Rules described above for use when subgrants are necessary to achieve program objectives.

Berton J. Roth,

*Director, Procurement and Assistance, Management Directorate.*

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

### 14 CFR Part 39

[Docket No. 87-CE-05-AD; Amdt. 39-5624]

### Airworthiness Directives; Bellanca Models 17-30, 17-30A, 17-31, 17-31A, 17-31TC, and 17-31ATC Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This amendment adopts a new Airworthiness Directive (AD), applicable to all Bellanca Models 17-30, 17-30A, 17-31, 17-31A, 17-31TC, and 17-31ATC airplanes, which requires repetitive inspections of the fuel filler caps and fuel filler well (scupper) drains. Additionally, for airplanes manufactured between late 1966 and early 1973, the AD requires that revisions be incorporated in the Airplane Flight Manuals (AFM), and that revised fuel system placards, referenced in the AFMs be installed in the airplanes. A high percentage of the accidents and incidents in which these airplanes were involved were related to loss of engine power, with fuel contamination or fuel mismanagement being the cause in many instances. The fuel filler cap and fuel filler well drain inspections will reduce the possibility of fuel contamination. The AFM revisions, which contain improved descriptions of the fuel system and related operating procedures, will provide pilots with specific operating information and improved emergency procedures to prevent inflight power loss due to fuel contamination or starvation.

**DATE:** Effective Date: June 22, 1987.

Compliance: As prescribed in the body of the AD.

**ADDRESSES:** Bellanca Service Letter No. B-105, dated February 2, 1967, and the Airplane Flight Manual Revisions (Model 17-30/Rev. 15, dated February 2, 1987; Model 17-30A/Rev. 6, dated February 2, 1987; Model 17-31/Rev. 2, dated February 2, 1987; Model 17-31A/Rev. 8, dated February 2, 1987; Model 17-31TC/Rev. 2, dated February 2, 1987; Model 17-31ATC/Rev. 8, dated February 2, 1987) applicable to this AD may be obtained from Bellanca, Inc., P.O. Box 964, Alexandria, Minnesota 56308. This information may be examined at the Rules Docket, FAA, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

**FOR FURTHER INFORMATION CONTACT:** Mr. Ty Krolicki, FAA, Chicago Aircraft Certification Office, ACE-140C, 2300 East Devon Avenue, Room 232, Des Plaines, Illinois 60018; Telephone (312) 694-7032.

**SUPPLEMENTARY INFORMATION:** A proposal to amend Part 39 of the Federal Aviation Regulations to include an AD requiring repetitive inspections of the fuel filler caps and fuel filler well (scupper) drains on all airplanes and AFM revisions (and installation of referenced fuel system placards) on certain Bellanca 17 Series airplanes was published in the Federal Register on March 2, 1987 (52 FR 6170). National Transportation Safety Board (NTSB) data for the period from 1967 through 1985 showed that Bellanca 17-30 and 17-31 series airplanes were involved in 127 accidents in which there was a loss of engine power. This represented about 38 percent of the total accidents which these model airplanes were involved in during the period. During the same timespan, however, loss of engine power accounted for only 21 percent of the total number of accidents in which airplanes of several other comparable manufacturers were involved. In addition, the Federal Aviation Administration (FAA) data base for 1980

through 1985 contained 22 incidents in which these airplanes experienced loss of engine power. Fuel system contamination and fuel mismanagement are two identified or probable causal factors in many of these accidents and incidents. To protect against fuel system contamination due to water entering the fuel tanks, Bellanca has developed Service Letter No. B–105, dated February 2, 1987, which contains specific procedures for inspecting the fuel caps and the fuel filler well (scupper) drains. Inspection of the fuel caps will help provide a good seal, thus preventing moisture from entering the tanks. A test is also required for the thermos-type expansion fuel caps to assure moisture will not enter the cap through the locking tab mechanism. In addition, procedures are included to ensure that the fuel filler well drain is not plugged. A plugged drain could permit water to accumulate in the fuel filler well and possibly reach a level where it would flow into the tank inlet if the filler cap seal was defective or loosefitting. The FAA believes that mandatory compliance with the procedures of the service letter will reduce the possibility of water entering the fuel tanks. Fuel starvation of the engine due to a fuel tank being dry despite the presence of ample fuel in another tank has been a recurring problem. The design of the fuel system on late 1966 through early 1973 versions of these airplanes is complex, requiring improved instructions to prevent fuel system mismanagement. This design includes the use of two fuel selector valves (in airplanes with wing auxiliary fuel tanks), a fuel quantity gauging system that does not provide a dedicated gauge for each tank, and the characteristic that the main tank fuel quantity gauge reads empty (regardless of the actual amount of fuel present in the tanks) when the main fuel selector valve is set to the "AUX" tank position.

The problem is compounded by the fact that the fuel system description and operating procedures provided in the existing airplane flight manuals for these older airplanes are generally inadequate. To improve the situation, Bellanca has developed comprehensive revisions to the flight manuals for these older airplanes. These revisions incorporate an improved description of the operation of the fuel system, specific operating information regarding management of available fuel resources, a recommendation that fuel tanks not be intentionally run dry, and procedures for restarting the engine in flight. In addition, Bellanca has developed improved placards, referenced in the revised flight manuals, to highlight certain peculiarities of the fuel system in a more clear manner. The FAA believes that these changes will heighten pilot awareness of the importance of proper fuel management and increase overall understanding of the fuel system, thereby reducing accidents and incidents caused by fuel mismanagement.

Since the condition described is likely to exist or develop in other Bellanca airplanes of the same type design, the AD requires (1) periodic inspections of the fuel filler caps and fuel filler well (scupper) drains in accordance with Bellanca Service Letter No. B–105, dated February 2, 1987; and (2) for airplanes manufactured between late 1966 and early 1973, a revision to the airplane flight manuals to incorporate an improved description of fuel system (and installation of the associated revised fuel system placards) and related operating procedures.

Interested persons have been afforded an opportunity to comment on the proposal. Two comments were received. One commenter concurred with the proposal. The second commenter concurred with the fuel filler cap/well drain inspections and AFM revision aspects of the proposal but objected to the instrument panel placard of paragraph (b)(2)(ii). The commenter maintained that the placard duplicated information in the AFM, was not of emergency value, and would contribute to panel placard clutter. Although the FAA is in agreement with the concept of minimizing panel clutter and acknowledges that the placard repeats AFM information, it believes that the placard is appropriate and necessary. The only new message contained in this revised placard is that the main fuel tank gauge is inoperative when an auxiliary tank is selected. This is a vital piece of information of which a pilot may be unaware if he has not received an adequate airplane check-out and has not reviewed the AFM. An uninformed pilot, not understanding the functioning of the fuel gauging system, may fail to switch back to a main tank upon inadvertently running an auxiliary tank dry if the main fuel tank gauges indicate empty. This sort of scenario might explain some of the previous accidents which prompted several NTSB recommendations to the FAA regarding the fuel systems on these airplanes. No comments or objections were received on the FAA determination of the related cost to the public. Accordingly, the proposal is adopted without change.

The FAA has determined there are approximately 1,300 airplanes affected by the inspections specified in the AD at a negligible cost per airplane, and 661 airplanes affected by the flight manual revision and placard installation specified in the AD, at a cost of approximately $10 per airplane. The total cost is estimated to be less than $7,000 to the private sector. The cost of compliance with the AD is so small that the expense of compliance will not be a significant financial impact on any small entities operating these airplanes. Therefore, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the final evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption "ADDRESSES".

**List of Subjects in 14 CFR Part 39**

Air transportation, Aviation safety, Aircraft, Safety.

**Adoption of the Amendment**

**PART 39—[AMENDED]**

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends § 39.13 of Part 39 of the FAR as follows:

1. The authority citation for Part 39 continues to read as follows:

**Authority:** U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

**§ 39.13 [Amended]**

2. By adding the following new AD:

**Bellanca:** Applies to Models 17–30, 17–30A, 17–31, 17–31A, 17–31TC, and 17–31ATC (all serial numbers) airplanes certificated in any category.

Compliance: Required as indicated, unless already accomplished.

To preclude engine power loss due to either the accumulation of water or other contaminants in the fuel system or due to mismanagement of available fuel resources caused by lack of pilot familiarity with the airplane fuel system design and operating procedures, accomplish the following:

(a) For all airplanes, within the next 30 days after the effective date of this AD or at the next annual inspection, whichever occurs later, and thereafter at each annual inspection, inspect the fuel filler caps and fuel filler well (scupper) drains in accordance with the instructions contained in Section II of Bellanca Service Letter No. B–105, dated February 2, 1987.

(b) For Bellanca Models and Serials identified in Table 1., within the next 30 days after the effective date of this AD, accomplish the following:

(1) Install the appropriate AFM revision, as specified in Table 1.

(2) Install permanent placards which state the following at the specified airplane locations:

(i) On the instrument panel adjacent to the auxiliary fuel pump switch: "USE TO RESTORE FUEL PRESSURE AND RELEASE TO PREVENT ENGINE FLOODING."

(ii) On the instrument panel adjacent to the fuel quantity gauges: "FUEL GAUGES READ QUANTITY IN TANK SELECTED. MAIN FUEL TANK GAUGE INOPERATIVE WHEN AUXILIARY TANK SELECTED. FUEL REMAINING IN SELECTED TANK CANNOT BE USED SAFELY IN FLIGHT WHEN GAUGE READS ZERO."

(iii) On the console adjacent to the fuel selector valve (on airplanes with a 58 gallon capacity fuel system):

"LEFT TANK: 15.5 GALLONS
RIGHT TANK: 15.5 GALLONS
AUXILIARY TANK: 20 GALLONS
USE AUX. TANK IN LEVEL FLIGHT ONLY."

(3) Placards specified in (b)(2)(i), (b)(2)(ii), and (b)(2)(iii) may be fabricated and installed using letters with minimum 1/16 inch height.

Note.—The AFM revisions specified above (and associated placards) are available at a nominal cost from Bellanca, Inc., P.O. Box 964, Alexandria, Minnesota 56308; Telephone (612) 762–1501. The placards are revised versions of existing placards. The existing placards may either be removed and discarded or overlaid by the corresponding revised placard. The placard specified in paragraph (2)(iii) deletes information which was contained in the placard being replaced. This information, however, is presented more clearly in the placard of paragraph (2)(ii) which is a new placard for the airplanes to which paragraph (2)(iii) applies.

(c) The requirements of paragraph (b) of this AD may be accomplished by the holder of a pilot certificate issued under Part 61 of the Federal Aviation Regulations (FAR) on any airplane owned or operated by him, provided the airplanes are not used in air taxi operations. The person accomplishing these actions must make the appropriate aircraft maintenance record entry as prescribed by FAR 91.173.

(d) Airplanes may be flown in accordance with FAR 21.197 to a location where this AD may be accomplished.

(e) An equivalent means of compliance with this AD may be used if approved by the Manager, Chicago Aircraft Certification Office, FAA, 2300 East Devon Ave., Des Plaines, Illinois 60018; Telephone (312) 694–7357.

All persons affected by this directive may obtain copies of the document(s) referred to herein upon request to Bellanca, Inc., P.O. Box 964, Alexandria, Minnesota 56308; or may examine the document(s) referred to herein at FAA, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

This amendment becomes effective on June 22, 1987.

Issued in Kansas City, Missouri, on May 6, 1987.

**Jerold M. Chavkin,**

*Acting Director, Central Region.*

## 14 CFR Part 39

**[Docket No. 86-NM-159-AD; Amdt. 39-5625]**

## Airworthiness Directives; The de Havilland Aircraft Company of Canada, a Division of Boeing of Canada, Ltd., Model DHC-7 Series Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action adopts a new airworthiness directive (AD), applicable to de Havilland Model DHC-7 series airplanes, which requires the installation of a fine mesh stainless steel screen in the rear cargo compartment perforated ceiling center panel. This action was prompted by several reports of fires in the cargo compartments of various transport airplanes, and an investigation that revealed the perforated cargo compartment ceiling liner installed on Model DHC-7 series airplanes is unsatisfactory in preventing flame penetration through the perforations to the fuselage primary structure. This condition, if not corrected, could lead to fires on board the airplane.

**DATE:** Effective June 21, 1987.

**ADDRESSES:** The applicable service information may be obtained from The de Havilland Aircraft Company of Canada, A Division of Boeing of Canada, Ltd., Garratt Boulevard, Downsview, Ontario M3K 1Y5, Canada. This information may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or the FAA, New England Region, New York Aircraft Certification Office, 181 South Franklin Avenue, Room 202, Valley Stream, New York.

**FOR FURTHER INFORMATION CONTACT:** Mr. C. Kallis or Mr. W. White, Aerospace Engineers, Systems Branch, ANE-173, New York Aircraft Certification Office, FAA, New England Region, 181 South Franklin Avenue, Room 202, Valley Stream, New York 11581; telephone number (516) 791-6427.

**SUPPLEMENTARY INFORMATION:** A proposal to amend Part 39 of the Federal Aviation Regulations (FAR) to include an airworthiness directive which requires installation of a fine mesh stainless steel screen in the rear cargo compartment perforated ceiling center panel on de Havilland Model DHC-7 series airplanes, was published in the Federal Register on August 18, 1986 (51 FR 29474).

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the one comment received.

The commenter agreed with the intent of the proposed rule, but suggested that paragraph B. be changed to indicate that any alternate means of compliance with the rule must be in accordance with FAR 25.855. That regulation pertains to requirements for "Cargo and Baggage Compartments" on transport category airplanes. The FAA does not concur with the suggestion. Any alternate means of compliance with this AD must also satisfy other FAA regulations, such as "Ventilation" (FAR 25.831) and "Pressurization" (FAR 25.841) requirements, and cannot be limited only to FAR 25.855.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

It is estimated that 44 airplanes of U.S. registry will be affected by this AD, that it will take approximately 8 manhours per airplane to accomplish the required actions, and that the average labor cost will be $40 per manhour. Based on these figures, the total cost impact of this AD to U.S. operators is estimated to be $14,080.

For the reasons discussed above, the FAA has determined that this regulation is not considered to be major under Executive Order 12291 or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and it is further certified under the criteria of the Regulatory Flexibility Act that this rule will not have a significant economic effect on a substantial number

of small entities, because few, if any, de Havilland Model DHC–7 series airplanes are operated by small entities. A final evaluation has been prepared for this regulation and has been placed in the docket.

**List of Subjects in 14 CFR Part 39**

Aviation safety, Aircraft.

**Adoption of the Amendment**

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends § 39.13 of Part 39 of the Federal Aviation Regulations as follows:

1. The authority citation for Part 39 continues to read as follows:

**Authority:** 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

2. By adding the following new airworthiness directive:

**The De Havilland Aircraft Company of Canada, a Division of Boeing of Canada, Ltd.:** Aplies to all Model DHC–7 series airplanes, certificated in any category. Compliance is required as indicated, unless already accomplished.

To assure that flames will not penetrate the rear cargo compartment liner to the fuselage primary structure, accomplish the following:

A. Within the next 6 months after the effective date of this AD, modify the DHC–7 rear cargo liner in accordance with DH Modification No. 7/2499, as detailed in DeHavilland Service Bulletin No. 7–25–49, Revision A, dated July 11, 1986, or later revisions approved by the Manager, New York Certification Office, FAA, New England Region.

B. Alternate means of compliance which provide an acceptable level of safety may be used when approved by the Manager, New York Aircraft Certification Office, FAA, New England Region.

C. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to The de Havilland Aircraft Company of Canada, A Division of Boeing of Canada, Ltd., Garratt Boulevard, Downsview, Ontario M3K 1Y5, Canada. These documents may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or FAA, New England Region, New York Aircraft Certification Office, 181 South Franklin Avenue, Room 202, Valley Stream, New York.

This Amendment becomes effective June 21, 1987.

Issued in Seattle, Washington, on May 7, 1987.

**Wayne J. Barlow,**

*Director, Northwest Mountain Region.*

**14 CFR Part 71**

**[Airspace Docket No. 87–ACE–02]**

## Alteration of Transition Area; Maquoketa, IA

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** The nature of this Federal action is to alter the 700–foot transition area at Maquoketa, Iowa, to provide additional controlled airspace for aircraft executing a new instrument approach procedure to the Maquoketa, Iowa, Municipal Airport, utilizing the Davenport, Iowa, VORTAC as a navigational aid. The intended effect of this action is to ensure segregation of aircraft using the new approach procedure under Instrument Flight Rules (IFR) and other aircraft operating under Visual Flight Rules (VFR).

**EFFECTIVE DATE:** July 3, 1987.

**FOR FURTHER INFORMATION CONTACT:** Lewis G. Earp, Airspace Specialist, Traffic Management and Airspace Branch, Air Traffic Division, ACE–540, FAA, Central Region, 601 East 12th Street, Kansas City, Missouri 64106, Telephone (816) 374–3408.

**SUPPLEMENTARY INFORMATION:** To enhance airport usage, an additional approach procedure is being developed for the Maquoketa, Iowa, Municipal Airport, utilizing the Davenport VORTAC as a navigational aid. The establishment of an instrument approach procedure based on this approach aid entails alteration of the transition area at Maquoketa, Iowa, at or above 700 feet above the ground, within which aircraft are provided air traffic control service. The intended effect of this action is to ensure segregation of aircraft, using the new approach procedure under Instrument Flight Rules (IFR) and other aircraft operating under Visual Flight Rules (VFR). Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6C, dated January 2, 1987.

**Discussion of Comments**

On page 7445 of the **Federal Register**, dated March 11, 1987, the Federal Aviation Administration published a Notice of Proposed Rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations, so as to alter the transition area at Maquoketa, Iowa. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No responses were received as a result of the Notice of Proposed Rulemaking.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**List of Subjects in 14 CFR Part 71**

Aviation safety, Transition areas.

**Adoption of the Amendment**

**PART 71—[AMENDED]**

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration (FAA) amends Part 71 of the FAR (14 CFR Part 71) as follows:

1. The authority citation for Part 71 continues to read as follows:

**Authority:** 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); 14 CFR 11.69.

2. By amending § 71.181 as follows:

**Maquoketa, Iowa [Revised]**

That airspace extending upward from 700 feet above the surface within a 7 mile radius of Maquoketa Municipal Airport (Latitude 42°03'05" N., Longitude 90°44'27" W.); and that airspace 3 miles each side of the 343° bearing from the Maquoketa NDB (Latitude 42°03'05" N., Longitude 90°44'27" W.); extending from the 7 mile radius area to 8.5 miles northwest of the NDB; and within 2.5 miles each side of the 161° bearing from the Maquoketa NDB, extending from the 7 mile radius area to 9 miles southeast of the NDB.

This amendment becomes effective at 0901 UTC July 3, 1987.

Issued in Kansas City, Missouri, on May 7, 1987.

14 CFR Part 73

[Airspace Docket No. 86-ASO-20]

## Establishment of Restricted Areas R-3008 A, B, and C—GA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes Restricted Areas R-3008 A, B, and C Grand Bay Weapons Range near Moody Air Force Base (AFB), GA, at the request of the U.S. Air Force. The restricted areas will provide airspace necessary for needed training to increase combat readiness. Proximity of the range to Moody AFB will enable the user to accomplish its mission better and more economically.

EFFECTIVE DATE: 0901 UTC, July 30, 1987.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace Branch (ATO-240), Airspace-Rules and Aeronautical Information Division, Air Traffic Operations Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-9253.

SUPPLEMENTARY INFORMATION:

### History

On September 23, 1986, the FAA proposed to amend Part 73 of the Federal Aviation Regulations (14 CFR Part 73) to establish Restricted Areas R-3008 A, B, and C near Moody AFB, GA (51 FR 33790). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 73.30 of Part 73 of the Federal Aviation Regulations was republished in Handbook 7400.6C dated January 2, 1987.

### The Rule

This amendment to Part 73 of the Federal Aviation Regulations establishes Restricted Areas R-3008 A, B, and C Grand Bay Weapons Range, GA. This action provides airspace required by the military to conduct training operations which would constitute a hazard to nonparticipating aircraft.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### List of Subjects in 14 CFR Part 73

Aviation safety, Restricted areas.

### Adoption of the Amendment

### PART 73—[AMENDED]

Accordingly, pursuant to the authority delegated to me, Part 73 of the Federal Aviation Regulations (14 CFR Part 73) is amended, as follows:

1. The authority citation for Part 73 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510, 1522, Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

### § 73.30 [Amended]

2. Section 73.30 is amended as follows:

R-3008A Grand Bay Weapons Range, GA [New]

Boundaries. Beginning at lat. 30°57'35" N., long. 88°11'05"W.; to lat. 30°59'12" N., long. 83°10'00" W.; to lat. 30°59'12" N., long. 83°07'53" W.; to lat. 30°58'30" N., long. 83°07'53" W.; to lat. 30°58'30" N., long. 83°07'45" W.; to lat. 30°57'43" N., long. 83°07'45" W.; to lat. 30°57'43" N., long. 83°08'05" W.; to lat. 30°56'55" N., long. 83°08'05" W.; to lat. 30°56'23" N., long. 83°08'43" W.; to lat. 30°56'50" N., long. 83°10'00" W.; to the point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

## FEDERAL TRADE COMMISSION

16 CFR Part 455

## Trade Regulation Rule; Sale of Used Motor Vehicles

AGENCY: Federal Trade Commission.

ACTION: Staff Compliance Guidelines.

SUMMARY: The staff of the Federal Trade Commission has written compliance guidelines for the Used Car Rule to help industry members comply with the Rule. The views expressed in the guidelines are those of staff only. They have not been approved or adopted by the Commission and are not binding on the Commission. However, the guidelines will serve as enforcement criteria for the staff in assessing compliance with the Used Car Rule.

DATES: Effective date: May 18, 1987. Written comments regarding the staff compliance guidelines will be accepted until July 17, 1987.

ADDRESS: Written comments should be addressed to the Secretary, Federal Trade Commission, 6th and Pennsylvania Avenue, NW.,

Washington, DC 20580. All comments should be captioned: "Comment on Staff Compliance Guidelines—Used Car Rule—FTC File No. 215–54."

**FOR FURTHER INFORMATION CONTACT:** Joyce E. Plyler [202/326–3021], or Matthew D. Gold [202/326–3019], Attorneys, Division of Enforcement, Bureau of Consumer Protection, Federal Trade Commission, Washington, DC 20580.

**SUPPLEMENTARY INFORMATION:**

## I. Introduction

These staff compliance guidelines describe certain provisions of the Federal Trade Commission's Trade Regulation Rule Concerning the Sale of Used Motor Vehicles (the "Rule" or "Used Car Rule"), 16 CFR Part 455, which was promulgated on November 19, 1984.[1] The Used Car Rule became effective on May 9, 1985.[2]

These guidelines cover the entire Used Car Rule. The guidelines neither amend nor modify the Rule. Rather, staff is publishing these guidelines to provide assistance to industry members in understanding the Commission's Rule and complying with its obligations.

The views expressed in these guidelines are those of staff only. These views have not been approved or adopted by the Commission and they are not binding on the Commission. However, the guidelines will serve as enforcement criteria for staff in assessing compliance with the Used Car Rule. Although staff views these guidelines as final, it will accept written comments until July 17, 1987. If it is appropriate to revise any portion of the guidelines based upon the comments received, revised staff compliance guidelines will be published in the Federal Register.

The Used Car Rule has four basic components. Basically, the Rule requires dealers to: (1) Prepare and display a Buyers Guide on each used vehicle offered for sale to a consumer; (2) include a special disclosure in the contract of sale; (3) identify the final warranty terms in the contract of sale; and (4) give to the purchaser a copy of the Buyers Guide that includes the final warranty terms. These guidelines explain the Rule, section by section, and explain these requirements. Included in the discussion are illustrations of how the Rule applies in specific fact situations that are faced by many dealers. The guidelines cover those areas in which guidance should prove most helpful to industry members. If further compliance questions arise, they will be handled by staff through informal advisory opinions,[3] or if appropriate, by the Commission, through formal advisory opinions, as provided for in §§ 1.1 through 1.4 of the Commission's Rules of Practice, 16 CFR 1.1–1.4.

The Used Car Rule is primarily intended to prevent and discourage oral misrepresentations and unfair omissions of material facts by used car dealers concerning warranty coverage. The Rule provides a uniform method for written disclosure of such information on a window sticker, called the "Buyers Guide." The Rule requires clear disclosure through the Buyers Guide of any warranty coverage and of the terms and conditions of any warranty offered by the dealer in connection with the sale of a used vehicle, including the duration of warranty coverage and the percentage of total repair costs that the dealer will pay. The Rule also requires certain additional disclosures that are incorporated directly onto the Buyers Guide, including: a suggestion that consumers ask the dealer if a pre-purchase inspection is permitted; a warning against reliance on spoken promises that are not confirmed in writing; and a list of the fourteen major systems of an automobile and defects that can occur in these systems. When the used car transaction is conducted in Spanish, the Rule requires that a Spanish-language version of the Buyers Guide be displayed on the vehicle prior to being offered for sale. The Rule includes a text for the Spanish-language version. In addition, the Rule provides that the Buyers Guide disclosures are to be incorporated by reference into the sales contract. In the event of any inconsistency between the Buyers Guide and the sales contract, the Rule states that the Buyers Guide will govern. The Rule also tells dealers to give a copy of the Buyers Guide to the buyer. The Buyers Guide that is given to the buyer must reflect the final warranty terms.

## II. Who Must Comply With the Rule?

Generally, all sellers of used vehicles are covered by the Rule, except those who sell, or offer to sell, fewer than six (6) vehicles in a twelve month period. A used vehicle is any car, light-duty van or light-duty truck that has been driven more than the distance necessary for test driving or moving new cars. As discussed in section II(B), below, "demonstrator" vehicles *are* covered within the definition of "used vehicles." The following definitions, included in the Used Car Rule, provide more detailed information as to the persons, firms, and vehicles that are covered by the Rule.

The Used Car Rule does not affect the definitions of terms in state law such as "dealer," "used vehicle," "new vehicle," or "vehicle." Likewise, state law definitions of the specific terms set out in § 455.1(d) of the Rule have no effect on the Used Car Rule.

### *A. "Vehicle" Defined—Section 455.1(d)(1)*

For the purposes of the Rule, a "vehicle" is defined as "any motorized vehicle with a gross vehicle weight rating (GVWR) (the loaded weight) of less than 8,500 lbs., a curb weight (the weight of an unloaded vehicle) of less than 6,000 lbs., and a frontal area of less than 46 sq. ft." Thus, the Rule covers automobiles, as well as most light-duty vans and light-duty trucks. Motorcycles are not covered. Due to the limit on the

---

[1] 49 FR 45692 (Nov. 19, 1984). That notice included the Used Car Rule and the Commission's Statement of Basis and Purpose concerning the Rule.

[2] *Id. But see infra* Section II(F) of these guidelines concerning the application of the Rule within the State of Wisconsin.

[3] Staff may be contacted at the address listed in the beginning of these guidelines, under the heading "For Further Information Contact."

vehicle size built into this provision, large trucks and recreational vehicles generally fall outside the definition of the term "vehicle," and are therefore not covered.

In staff's opinion, "classic" cars are covered by the Used Car Rule. However, it is staff's opinion that the Rule does not apply to the sale of vehicles such as tractors, combines, tillers, etc., that are designed primarily for use on a farm, but which meet the definition of the term "vehicle" that is set forth in the Rule. In addition, staff is of the opinion that mopeds, like motorcycles, are not covered by the Rule.

*B. "Used Vehicle" Defined—Section 455.1(d)(2)*

Under the Rule, the term "used vehicle" includes all vehicles, as defined above, "driven more than the limited use necessary in moving or road testing a new vehicle prior to delivery to a consumer." This definition, therefore, includes demonstrators and company cars.[4] However, a vehicle sold as scrap or for its parts, and not as an operating vehicle, is specifically excluded from the definition of used vehicle, if the dealer surrenders any title documents to the appropriate State authority and obtains a salvage certification. Illustrations 2.6, 2.7, and 2.9 discuss the application of the Rule to demonstrator vehicles. Illustration 2.8 discusses how the Rule applies when a vehicle is transferred from one dealer to another.

*C. "Dealer" Defined—Section 455.1(d)(3)*

The Used Car Rule defines a "dealer" in terms of the number and frequency of used vehicle sales or offerings. Under the Rule, the term dealer includes any person or business that is presently selling or offering for sale a used vehicle, after having sold or offered for sale five or more used vehicles during the previous twelve months. *In other words, a person or business becomes a "dealer," for purposes of the FTC Used Car Rule, upon offering for sale their sixth used vehicle in twelve months.* The Rule does not impose any requirements on persons or businesses that offer *less than* six used vehicles for sale in twelve months. Illustrations 2.1 and 2.2 discuss this provision of the Rule.

The Used Car Rule's definition of "dealer" specifically excludes banks and financial institutions selling used vehicles forfeited as collateral on consumer loans. However, the Rule applies to the retail sale of used vehicles by affiliates and subsidiaries of banks or financial institutions. Illustration 2.13 discusses the application of the Rule to banks.

Section 455.1(d)(3) of the Rule also excludes a business which sells its used vehicles to its own employees. In addition, the term "dealer" excludes a lessor offering to sell a leased vehicle to one of the following parties: (1) The lessee; (2) an employee of the lessee; or (3) an individual who approached the lessee and inquired about buying the vehicle (the Rule would apply to the lessor, however, if the lessee advertised that the leased vehicle was for sale).[5] Therefore, the Rule covers the sale of a leased vehicle to an individual who did not lease the vehicle, work for the lessee, or ask the lessee about purchasing the vehicle. Illustration 2.10 discusses how the Rule applies to the sale of leased vehicles.

*D. "Consumer" Defined—Section 455.1(d)(4)*

For purposes of the Used Car Rule, the term "consumer" is broadly defined to include any person who is not a used vehicle dealer. This definition is important because § 455.2(a) of the Rule requires you (the dealer) to prepare and display a Buyers Guide before you offer to sell a used vehicle to a *consumer*. In the Statement of Basis and Purpose, the Commission indicated that the term "consumer" also includes small businesses. 49 FR 45692, 45708 (1984). If you are offering to sell a used vehicle *only* to another dealer, the Rule does not apply to the sale of that vehicle. Illustrations 2.3–2.5 highlight this provision of the Rule.

*E. Consignment Sales and Auctions*

The Rule applies whenever a dealer offers to sell a used vehicle to a consumer. (See § 455.2(a).) Therefore, before you offer to sell a used vehicle that you have on your lot due to a consignment, power of attorney or other such agreement, the Rule requires you to prepare and display a Buyers Guide. The point to remember is that whenever *you*, the dealer, offer to sell a used vehicle to a consumer, *you* are responsible for making sure that there is full compliance with the Rule.

If you are a dealer who consigns a car to *another dealer* for sale to a consumer on your behalf, the Rule covers both you and the other dealer. Both of you are responsible to make sure that the requirements of the Rule are met.

You are not covered by the Rule if you offer to sell a vehicle through an auction that is *only* open to other dealers. However, you would be covered by the Rule when offering to sell at an auction, *if:* (1) The auction is open to consumers; *and* (2) the auction is advertised to consumers in some manner.

The auctioneer is also covered by the Rule if the auctioneer has sold or offered to sell six or more used vehicles to consumers within a twelve month period. As with consignment sales, both you and the auctioneer are responsible to make sure that the requirements of the Rule are met when used vehicles are offered for sale to consumers. See Illustrations 2.11–2.12 for a further discussion of sales through auctions.

*F. Where Does the Rule Apply?*

The Used Car Rule was issued by the FTC based upon two sources of authority: Section 109(b) of the Magnuson Moss Warranty Act, 15 U.S.C. 2309(b), and section 18 of the Federal Trade Commission Act, 15 U.S.C. 57a. Accordingly, the Used Car Rule applies in those states and jurisdictions where either the Federal Trade Commissison Act or the Magnuson Moss Warranty Act apply. The Magnuson Moss Warranty Act covers all 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam and American Samoa. 15 U.S.C. 2301(15). Therefore, with the exception discussed in the next paragraph, the Used Car Rule applies in each of these jurisdictions. In addition, the Rule covers vehicles exported from the United States for sale at military post exchanges. 16 CFR 700.1(i).

In March, 1985, the Wisconsin Department of Transportation petitioned the Commission for a statewide exemption from the Used Car Rule, under § 455.6 of the Rule. (Section 455.6 of the Rule is discussed in further detail in section VI of these guidelines.) On June 9, 1986, the Commission announced its determination that an exemption was justified, because the applicable law of Wisconsin "affords an overall level of protection to consumers that is as great as, or greater than, that afforded by the Used Car Rule." 51 FR 20936, 20943

[4] As used in these guidelines, the term "demonstrator" vehicle refers to "new" vehicles that have never been sold to a retail customer, but have been driven for purposes other than test drives or moving. This may include use by the dealer, the dealer's employees, the dealer's corporate officers, or anyone else. Demonstrators are covered by the Rule because the Rule's definition of a "used vehicle" in § 455.1(d)(2) includes any vehicle that has been driven more than for the limited purpose of either test driving the vehicle or moving it to the dealership from the manufacturer or from another dealer.

[5] This explanation assumes that the lessor meets the definition of the term "dealer," because the lessor has offered to sell, or sold, six or more used vehicles in a twelve month period. If the lessor is not a "dealer," as defined in the Used Car Rule, the lessor will not be covered by the Rule, even if the lessee advertises the leased vehicle for sale.

BEST COPY AVAILABLE

(1986). Therefore, the Used Car Rule does not apply within the State of Wisconsin, "for so long as Wisconsin administers and enforces effectively its law." *Id.*

*G. Illustrations*

*Illustration 2.1:* You are opening your first dealership, and on your first day of business, you offer to sell five used vehicles to consumers. In the past twelve months, you have not offered to sell any other used vehicles to consumers. Are you covered by the Rule?

*No.* You are not a "dealer," because you have not offered to sell at least *six* used vehicles in a twelve month period. However, as soon as you offer your sixth used vehicle for sale to consumers within a twelve month period, you become a "dealer" as defined in the Rule, and therefore must prepare and display a Buyers Guide on *all* used vehicles that you offer for sale to consumers. (Section 455.1(d)(3).)

*Illustration 2.2:* You are an individual who occasionally buys used cars, repairs them, and then offers them for sale to the public. In the past twelve months, you have offered five used cars for sale. You now are offering to sell your sixth used car to the public. Are you covered by the Rule?

*Yes.* The Rule defines you as a "dealer." Because you are offering to sell your *sixth* used vehicle to consumers within twelve months, you must comply with all aspects of the Rule, including preparing and displaying a Buyers Guide on that vehicle. It does not matter that you may not be considered a "dealer" under *state law:* once you offer your sixth used vehicle for sale to consumers in twelve months, you are a "dealer" under the FTC's Used Car Rule and must comply with its requirements. (Section 455.1(d)(3).)

*Illustration 2.3:* You are a dealer that is offering to sell a particular used vehicle *only* to dealers. You do not offer to sell the vehicle to consumers. Are you covered by the Rule?

*No.* Here, you are not offering to sell the vehicle *to consumers*, and therefore the Rule does not apply. (Section 455.2(a).)

*Illustration 2.4:* Same as in 2.3 above, but it is your company's policy to offer a vehicle for sale to consumers for only 30 days, and then if the vehicle is unsold, it would be sold to a dealer at wholesale. Are you covered by the Rule?

*Yes.* Whenever you offer to sell a used vehicle to a consumer, you must comply with the Rule by preparing and posting a Buyers Guide before offering the vehicle for sale. In this example, you would be required to prepare and display a Buyers Guide while the used vehicle is offered for sale to consumers. However, the Rule does not apply when you conduct a wholesale transaction, even if the vehicle was first offered for sale to consumers. (Section 455.2(a).)

*Illustration 2.5:* Same as in 2.4 above, but instead, your company offers to sell its used vehicles to *anyone* at *any time.* Therefore, you offer to sell each of your used cars to consumers and dealers, at the same time. Are these used cars covered by the Rule?

*Yes.* As discussed above, whenever you sell, or offer to sell a used vehicle to a consumer, the Rule applies. This is the case even if you also offer to sell the used car to a dealer at the same time. The Rule does not require you to give a copy of the Buyers Guide to the purchaser if you sell the car to another dealer. (Section 455.2(a).)

*Illustration 2.6:* You are a dealer who regularly offers both new and used vehicles to the general public. You currently have four "demonstrator" vehicles in service. When the new model year begins, you decide to sell the demonstrators and replace them with new models. Must you comply with the Rule?

*Yes.* Under the Rule, demonstrator vehicles are included within the definition of "used vehicles."[6] Therefore, *before* you offer a demonstrator vehicle for sale to a consumer, you must prepare and display a Buyers Guide, as required by the Rule. On demonstrators that have never been titled to a consumer, both the Buyers Guide and the new vehicle disclosure sticker (the "Monroney Sticker") must be posted.[7] (Section 455.1(d)(2).)

*Illustration 2.7:* You are a dealer who has just put three vehicles into demonstrator service. It is your company's policy that no demonstrators are made available for sale until after five months or 5,000 miles in service. Before that time, your company will not discuss selling the demonstrator with a consumer. At the time when you first put the vehicle into demonstrator service, must you comply with the Rule?

*No.* Until you offer the demonstrator for sale to a consumer, the Rule does not apply. However, once you choose to offer the demonstrator to a consumer, you must *first* prepare and display a Buyers Guide in the side window of that vehicle. (Sections 455.1(d)(2), 455.2(a).)

*Illustration 2.8:* You are a dealer who sometimes "transfers" or "trades" new vehicles with another dealer, so that you can provide your customers with the exact car that they want. Do these traded cars have to display a Buyers Guide before you can offer them for sale to a consumer?

*No.* Simply by trading a car with another dealer, you have only accumulated mileage for the purpose of delivering the vehicle to the consumer. Therefore, the car would not be a "used vehicle" under the Rule. (Section 455.1(d)(2).)

*Illustration 2.9:* Same as 2.8 above, except that the first dealer drove the vehicle as a demonstrator before trading it to you. Does the traded car have to have a Buyers Guide before it can be offered for sale to a consumer?

*Yes.* If the vehicle was used as a demonstrator at any time, it must have a Buyers Guide in its side window before it can be offered for sale to a consumer. (Section 455.1(d)(2).)

*Illustration 2.10:* You are a dealer who also leases vehicles. You lease a car to Jones, who is not a dealer. At the end of the lease term, you offer to sell the car to Jones. Must you prepare a Buyers Guide for this vehicle?

*No.* Although you are a used vehicle dealer, the Rule does not cover situations in which you sell or offer to sell the leased vehicle to the lessee, to an employee of the lessee, or to a buyer who is found by the lessee. Thus, you would not have to comply with the Rule if you offered to sell the car to Jones, the lessee, or to an employee of Jones. In addition, you would not be required to display a Buyers Guide if Jones' next door neighbor asked Jones about buying the car. But, if you reclaimed the car at the end of the lease term and then offered it for sale to the public, the Rule would apply. (Section 455.1(d)(3).)

*Illustration 2.11:* You are a used vehicle dealer who sells vehicles, from time to time, at auctions. These auctions are only open to other dealers. The only advertisements for these auctions are in trade journals and through dealer associations. Are these sales covered by the Rule?

*No.* Selling at an auction that is *only open to other dealers* is just like a non-auction sale to another dealer: the Rule does not apply. (Sections 455.1(d)(3), 455.2(a).)

*Illustration 2.12:* Same as 2.11 above, but instead the auctions are open to consumers *and* are advertised in local newspapers or other publications. Are

---

[6] *See supra* note 4 for a discussion of the term "demonstrator."

[7] The Automobile Information Disclosure Act (commonly known as the Monroney Act) can be found at 15 U.S.C. 1231–33. *See also* the Commission's Statement of Basis and Purpose for the Used Car Rule, 49 FR 45692, 45707 n.234 (1984) (recognizing that dealers would have to display both the Monroney Sticker and the FTC Buyers Guide on some vehicles).

the vehicles offered for sale at this auction covered by the Rule?

*Yes.* The Rule applies to an auction that is both: (1) Open to consumers; and (2) advertised to consumers in some manner. Before your used vehicles are offered for sale, sold, or made available for inspection at an auction that is open to consumers and advertised to consumers, you must prepare and display a Buyers Guide as required by the Rule. If the vehicle is sold to a consumer, you must comply with the other requirements of the Rule, just as if you had sold the vehicle from your regular place of business. If your used vehicle is sold at the auction to another dealer, you need not comply with respect to that particular vehicle.

Evidence that staff might look at to see whether an auction is advertised to consumers might include, among other things, newspaper ads, television or radio ads, listings in the yellow pages of the phone book, or roadside signs.

*Illustration 2.13:* In your state, banks and financial institutions may own or operate general businesses as separate entities. You operate a retail used vehicle dealership that is owned in part by a bank. Must you comply with the Rule?

*Yes.* The Rule is intended to cover all used vehicle dealers, regardless of ownership. However, banks and financial institutions that *directly* offer to sell used cars *forfeited as collateral on consumer loans* are not covered by the Rule. (Section 455.1(d)(3), Statement of Basis and Purpose, 49 FR 45708.)

## III. The Buyers Guide

### *A. General Information*

The Buyers Guide is the heart of the Used Car Rule. Before offering a used vehicle for sale to a consumer, § 455.2 of the Rule requires dealers to prepare and display a window sticker called the "Buyers Guide." The Buyers Guide discloses whether there is any warranty offered, and also states the duration of coverage, the percentage of repair costs that the dealer will pay and a list of the exact systems covered under the warranty. If the dealer does not provide an express warranty, then the Buyers Guide indicates that the vehicle is being offered for sale "as is" (with no written or implied warranties), or with only the applicable "implied warranties" required by state law. An explanation of each of these terms is incorporated directly onto the Buyers Guide.

The Buyers Guide also includes several additional disclosures, including: A list of the fourteen major systems of an automobile and defects that can occur in these systems; a suggestion that consumers ask the dealer if a pre-purchase inspection is permitted; and a warning against reliance on spoken promises that are not confirmed in writing. Finally, at the time of sale, the dealer must give the buyer the original Buyers Guide (or an accurate copy) that was displayed in the vehicle.

### *B. Preparing the Buyers Guide*

Before a dealer may offer a used vehicle for sale to a consumer, § 455.2(a) of the Rule requires that a completed Buyers Guide must be displayed on that vehicle. There are four different parts of the pre-printed Buyers Guide that the dealer must fill in: (1) General vehicle information; (2) warranty information; (3) service contract availability; and (4) dealer identification and consumer complaint information. The following sections of these Guidelines discuss how to prepare the Buyers Guide. In addition, staff has prepared a brochure entitled "Facts For Business: A Dealer's Guide to the FTC Used Car Rule," designed to assist dealers in understanding the Rule. Staff mailed a copy of this brochure to every dealer in the country before the Rule took effect. If you are a new dealer, did not receive this brochure, or need another copy, you may request a copy free of charge by writing to the Publications Branch, Federal Trade Commission, Washington, DC 20580.

#### 1. Buyers Guide Format—Section 455.2(a)

The Rule requires dealers to use the exact form for the Buyers Guide which is shown in the Rule. The text of the Rule contains a model Buyers Guide, in both English and Spanish, and also provides specific printing instructions. Although dealers may print their own Buyers Guides or get copies from any other source (for example, trade associations and form companies), all Buyers Guides must comply exactly with the standardized wording, type style, type size, and format required by the Rule. No additional information or printing may be added to the Buyers Guide, such as a dealership logo, consumer signature line, or the price of the vehicle. Of course, dealers may post a completely separate window sticker to make other information known to the consumer, so long as that information does not conflict with the Buyers Guide and the sales contract. Illustration 3.1 discusses this provision of the Used Car Rule.

#### 2. Vehicle Information—Section 455.2(d)

At the top of the Buyers Guide, fill in the vehicle make, model, model year, and vehicle identification number (VIN) in the spaces provided. You may write in a dealer stock number in the space provided or you may leave this space blank.

#### 3. Warranty Information—Section 455.2(b)

(a) *"As Is" Version.* If you offer a vehicle "as is," which means without any implied warranties, mark the box provided next to the "As Is" disclosure. The Used Car Rule *does not* take the place of any state law that requires you to use special language or a separate form to make an effective "as is" sale. "As is" disclosures will excuse you from liability under state law only if you follow state law requirements for making the disclosure. Illustration 3.3 further discusses this portion of the Rule.

(b) *Implied Warranties Only Version.* If you offer the vehicle with state law implied warranties only, delete the "As Is" disclosure, substitute the "Implied Warranties Only" disclosure (see below), and mark the box provided:

*Implied Warranties Only.* This means that the dealer does not make any specific promises to fix things that need repair when you buy the vehicle or after the time of sale. But, state law "implied warranties" may give you some rights to have the dealer take care of serious problems that were not apparent when you bought the vehicle.

In order to substitute this disclosure, dealers may prepare a Buyers Guide with this disclosure printed in place of the "As Is" statement. The "Implied Warranties Only" version of the Buyers Guide is generally available from the same sources as the "as is" version of the Buyers Guide. Alternatively, dealers could have the "Implied Warranties Only" disclosure printed on labels, and then simply affix these labels to the Buyers Guide, covering up the "As Is" statement. See Appendix A and Illustration 3.2 for examples of a Buyers Guide with the "Implied Warranties Only" disclosure.

In some states, dealers are not allowed to sell used vehicles on an "as is" basis. The Used Car Rule does not override such state laws. In those states, § 455.2(b)(1)(ii) of the Rule requires that dealers must include the "Implied Warranties Only" disclosure on the Buyers Guide in place of the "As Is" disclosure. The "Implied Warranties Only" disclosure is shown above and in Appendix A.

If you are in a state that *allows* you to sell used vehicles "as is," but you choose to sell a used vehicle with only implied warranties, § 455.2(b)(1)(ii) of the Rule requires you to substitute the "Implied Warranties Only" disclosure in

place of the "As Is" statement on the Buyers Guide.

(c) *Full/Limited Warranties.* Determining whether your warranty is "full" or "limited" under federal law is not difficult. If each of the following five statements about your warranty's terms and conditions is true, then your warranty is "full": [8]

1. You provide warranty service to anyone who owns the vehicle during the warranty period, when they report a problem.

2. You provide warranty service free of charge, including such costs as returning the vehicle or removing and reinstalling a "covered" system when necessary.

3. You provide, at the consumer's choice, either a replacement or a full refund if you are unable, after a reasonable number of tries, to repair the vehicle.

4. You provide warranty service without requiring that consumers return a warranty registration card.

5. You do not disclaim or limit the duration of implied warranties.

If any one of these statements is *not* true, then your warranty is "limited". Please note that a "full" or "limited" warranty need not cover the entire vehicle. You may specify certain systems for coverage under a warranty. By giving a "limited" warranty, you are telling your customers that there are some costs or responsibilities that you will not cover for the specified systems. See Illustration 3.5 for an additional discussion of this issue.

(d) *Unexpired Manufacturer's Warranties.* If you choose to, you may disclose unexpired manufacturer's warranties in the warranty section of the Buyers Guide. To disclose that a manufacturer's warranty still applies on a used vehicle, staff suggests that dealers use one of two methods, depending on whether the dealer offers a warranty in addition to the unexpired manufacturer's warranty. (Section 455.2(b)(2)(v).

First, if additional warranty coverage is not offered by the dealer, the dealer should check the large box to indicate that a "warranty" is offered, and then simply fill in (with a rubber stamp, if desired) the unexpired manufacturer's warranty statement set forth in section 455.2(b)(2)(v):

MANUFACTURER'S WARRANTY STILL APPLIES. The manufacturer's original warranty has not expired on the vehicle. Consult the manufacturer's warranty booklet for details as to warranty coverage, service location, etc.

Separately, and beneath that statement, the dealer may add the following language, only if permitted by state law to sell a used vehicle on an "as is" basis:

The dealership itself assumes no responsibility for any repairs, regardless of any oral statements about the vehicle. All warranty coverage comes from the unexpired manufacturer's warranty."

An example of a completed Buyers Guide with this language is included as Appendix B to these Guidelines.

If a dealership warranty is offered and the dealer also chooses to disclose the unexpired manufacturer's warranty, the dealer should: (1) Mark the large box to indicate that a "warranty" is offered, and fully complete the rest of the Buyers Guide's warranty section, indicating whether the *dealer's* warranty is full or limited, what percentage of parts and labor are covered, the systems covered, and the duration of coverage, as required by § 455.2(b) of the Rule; and (2) fill in (with a rubber stamp, if desired) the unexpired manufacturer's warranty statement below the dealer's warranty disclosure. An example of a completed Buyers Guide with this language is included as Appendix C to these Guidelines.

*(e) Filling in the Warranty Portion of the Buyers Guide.* Dealers who offer a warranty on the vehicle must mark the large box next to the word "warranty," and fill in the warranty section of the Buyers Guide. (Section 455.2(b).) There are several other parts of the warranty section that must be completed.

*First,* mark one of the smaller boxes to indicate whether the warranty offered is "Full" or "Limited." (See section III(B)(3)(c) above, and Illustration 3.5, for a discussion of this issue.) (Section 455.2(b)(2)(i) of the Rule.)

*Second,* fill in the percentage of the repair cost that will be paid by the dealer. For example, "The dealer will pay 100% of the labor and 100% of the parts. . . ." [9] See Illustration 3.7 for a discussion of how the Rule applies to the use of a deductible. (Section 455.2(b)(2)(iv).)

*Third,* indicate which of the specific systems are covered. Do not use shorthand terms such as "drive train" or "power train". Rather, indicate the exact systems (*e.g.*, frame and body, brake systems, etc.) that are covered. A list of the major systems of an automobile is printed on the back of the Buyers Guide. Those terms may be used to indicate the specific systems covered by the warranty. Illustration 3.6 provides an explanation of how to disclose systems covered. (Section 455.2(b)(2)(ii).)

Some dealers may wish to provide warranty coverage for some systems of a used vehicle and at the same time disclaim all other express or implied warranty coverage for the other systems of the car. A dealer may use the space provided for warranty disclosures to write in any such disclaimers or exclusions. Illustration 3.4 further discusses this issue. Illustration 3.1 explains how to enlarge the Buyers Guide, if necessary, to provide additional warranty information.

If some systems are covered by a "full" warranty, while most others are covered by a "limited" warranty: (1) Check the "limited" warranty box; and (2) indicate which system(s) are covered by the full warranty by writing "(full warranty)" next to the system name, as it is listed on the Buyers Guide.

*Fourth,* indicate the duration of the warranty. For example, "30 days or 1,000 miles, whichever occurs first." If there are different durations for different systems, write out each different duration. If the duration of the warranty is the same for all systems covered by the warranty, you need only write the duration once. (Section 455.2(b)(2)(iii).)

### 4. Service Contract Availability

A "service contract" is defined in § 455.1(d)(7) of the Used Car Rule as "a contract in writing for any period of time or any specific mileage to refund, repair, replace, or maintain a used vehicle [which is] provided *at an extra charge* beyond the price of the used vehicle." (emphasis added). However, careful attention should be paid to the distinction between "service contracts" and "warranties." Under § 455.1(d)(5) of the Rule, a "warranty" is defined as "any undertaking in writing, in connection with the sale by a dealer of a used vehicle, to refund, repair, replace, maintain or take other action with respect to such used vehicle and provided *at no extra charge* beyond the price of the used vehicle. (emphasis added).

If you offer a service contract on a particular vehicle, § 455.2(b)(3) requires you to mark the box provided on the Buyers Guide, next to the service contract disclosure that follows:

---

[8] These standards are set out in section 104 of the Magnuson-Moss Act, 15 U.S.C. 2304. The Magnuson-Moss Act does not apply to vehicles manufactured before July 4, 1975. Therefore, in offering such vehicles for sale, dealers are not required to indicate whether the warranty offered is "full" or "limited." Rather, dealers may simply cross out the terms "full" and "limited," leaving just the term "warranty." However, all other provisions of the Used Car Rule apply to sales of such vehicles.

[9] Note that the Used Car Rule does not require that a dealer pay any specific percentage of repair or labor costs. The figure in the example is provided only for the sake of clarity.

Service Contract. A service contract is available at an extra charge on this vehicle. If you buy a service contract within 90 days of the time of sale, state law "implied warranties" may give you additional rights.

Remember: when a dealer enters into a service contract with a consumer within 90 days of selling the vehicle, federal law prohibits the dealer from disclaiming implied warranties on the systems covered in that service contract. For example, if you are a dealer who sells a car "as is," the car normally will not be covered by implied warranties (assuming that state law permits "as is" sales). But if you also sell a service contract covering the engine for six months, you automatically provide an implied warranty on the engine.

If you are in a state that regulates service contracts as the "business of insurance," you need not include the Service Contract Disclosure on your Buyers Guides. (Section 455.2(b)(3).) In those states, you have the option to check the box next to the Service Contract Disclosure, cross out the Service Contract Disclosure, delete it from the Buyers Guide, or do nothing to change the preprinted Buyers Guide that you have purchased.

**5. Dealer Identification and Consumer Complaint Information**

Put the name and address of your dealership in the space provided on the back of the Buyers Guide. If you do not have a dealership, use the name and address of your place of business (for example, your service station) or your own name and home address. (Section 455.2(c).)

In the space provided below the dealer's name and address, you must put the name and telephone number of the person to contact if the buyer has a complaint. You might want to include the *position* of the person to be contacted, along with their name, so that consumers will know who to contact if the individual named has left the dealership. (Section 455.2(e).)

*C. Spanish Language Sales*

Section 455.5 of the Rule sets forth a Buyers Guide in Spanish that must be used by a dealer who conducts a sale in Spanish. From a practical standpoint, dealers must post *both* the English and Spanish versions of the Buyers Guide where a substantial number of sales are made in both languages. See Illustration 3.11 for a further discussion of this provision of the Rule.

*D. How to Display the Buyers Guide*

The Buyers Guide must be displayed in a *side* window of the vehicle so that the front side (with the title "Buyers Guide") faces the outside. You may display copies of *both* the front and back of the Buyers Guide so that both sides can be read from outside. (Section 455.2(a)(1).)

The Buyers Guide should be firmly affixed to the inside of the side window. This may be accomplished using any method you select, such as tape, light glue, etc. If desired, you may display the Buyers Guide inside a clear plastic sleeve which holds the Buyers Guide against the inside of the side window. If necessary, the form may be removed from the window temporarily during a test drive, but you must return it to the window as soon as the test drive is over. Remember that you must give the buyer the original Buyers Guide (or an accurate copy) that was displayed on the vehicle. (Section 455.3(a).)

*E. Changes in Warranty Coverage*

If you and the buyer agree to any changes in the warranty that was described on the Buyers Guide, you must write those changes onto the Buyers Guide. (See §§ 455.2(b)(2)(v)(¶¶ 2–3) and 455.4 of the Rule.) If, for instance, the car was originally offered with a warranty, but following negotiations it was actually sold without a warranty, cross out the offered warranty and mark the "As Is" or "Implied Warranties Only" box, as appropriate. If you first offer the vehicle for sale "as is" (or with only implied warranties), but then sell it with a warranty, simply cross out the box for the "As Is" Disclosure (or the "Implied Warranties Only" disclosure) and fill in the warranty terms, as explained in section III(B)(3)(e) of these guidelines, above. Be sure to include the final warranty terms in the sales contract and also on the copy of the Buyers Guide that you give to the buyer. Appendix D and Illustrations 3.8 and 3.9 further explain this provision of the Rule.

*F. How to Disclose Mandatory Warranties*

The Used Car Rule requires dealers to disclose information about all warranty coverage on the vehicles that they offer for sale. Therefore, if federal, state, or local laws *require you* to give a specific warranty on a used vehicle that you offer for sale, you must briefly describe this warranty on the Buyers Guide. (Section 455.2(b)(2).) This warranty information should be included in the "systems covered/duration" portion of the Buyers Guide. The Rule does not require dealers to disclose on the Buyers Guide warranties that are the responsibility of another party, such as the manufacturer. Of course, you may include truthful information on the Buyers Guide about additional warranty coverage that is offered by other parties. For example, see the discussion of unexpired manufacturer's warranties in section III(B)(3)(d) of these guidelines. If necessary, you may enlarge the "systems covered/duration" portion of the Buyers Guide to accommodate additional warranty information. Of course, you still must comply with other legal requirements that tell you to provide information about the warranty on a separate document.

Under state or local law, you may be required to provide warranty coverage in addition to, or in place of, implied warranties.[10] You must disclose any such mandatory warranty on the Buyers Guide and you must fully comply with the disclosure requirements of the state or local law. For example, you must comply with a state or local law that requires you to give the consumer a separate warranty document.[11]

*G. Illustrations*

*Illustration 3.1:* May a dealer put a dealership logo or insignia, or other vehicle information (*e.g.*, price, features, color, service contract details, etc.) on the Buyers Guide?

*No.* The Buyers Guide must be in the exact format required by the Rule, including wording, capitalization, type style and type size. No changes, additions or deletions are permitted, except as noted in the Rule.

Section 455.2(a)(2) of the Rule requires that the Buyers Guide be printed in 100% black ink on white stock that is at least 11 inches high and 7¼ inches wide. You may enlarge the "systems covered/duration" portion of the Buyers Guide if you need additional room. However, such additional room may only be used to describe the warranty coverage. You may also provide additional accurate and truthful information about the vehicle on a completely separate window sticker. (Sections 455.2(a)(2), 455.4., Statement of Basis and Purpose, 49 FR 45710.)

*Illustration 3.2:* You are offering a used vehicle for sale in a state that prohibits you from selling used vehicles "as is." Do you have to replace the "As Is" disclosure with the "Implied Warranties Only" disclosure on the Buyers Guide?

*Yes.* The "Implied Warranties Only" disclosure *must* appear on the Buyers

[10] For one example, see New York General Business Law Section 198–b. This provision of New York law requires dealers to give consumers written warranties covering seven mechanical systems of a used vehicle that is sold for over $1,500.

[11] *See, e.g.*, New York General Business Law section 98–b(b).

Guide in place of the "As Is" disclosure: (1) If the vehicle is offered for sale in a state which prohibits "as is" sales; or (2) if you decide to offer implied warranties, but no other warranties. In states that prohibit "as is" sales, you must use the "Implied Warranties Only" disclosure even if you offer a warranty. See Appendix A for an example of a Buyers Guide incorporating the "Implied Warranties Only" disclosure. [Section 455.2(b)(1)(ii).]

*Illustration 3.3:* You offer all your used vehicles for sale on an "as is" basis. Under the laws of your state, you must prepare a warranty disclaimer form, using specific language required by state law, and have the buyer sign the form. Can you display that form instead of the Buyers Guide?

*No.* The state law requirement does not affect your obligation to prepare and post a Buyers Guide on the used vehicle. If you want to sell the car "as is," you should simply fill in the appropriate vehicle and dealership information on the Buyers Guide, mark the large box next to the "As Is" disclosure, and complete the reverse side of the Buyers Guide. Of course, the Used Car Rule does not affect your obligations under state law, so you still must comply with all applicable provisions of state law, including warranty disclaimer requirements. (Sections 455.2(a), 455.2(b)(1)(i).)

*Illustration 3.4:* You are a dealer who is offering a used vehicle for sale and want to offer a warranty on the vehicle. You would like to warrant only the engine, transmission and drive shaft, differential and electrical systems, and you would like to disclaim any warranties, express or implied, on the other systems of the vehicle. Can you indicate this disclaimer on the Buyers Guide?

*Yes.* Mark the large box to indicate that a warranty is offered on the vehicle. Indicate whether the warranty is "full" or "limited".[12] Fill in the lines to show what percentage of parts and labor you will pay for repairs to covered systems. Beneath the warranty disclosure, fill in the list of covered systems, and the duration of the warranty coverage for each covered system. Below that, you may indicate that you disclaim all warranties, express or implied, on other systems or parts of the vehicle. Of course, you still must describe the warranty in the contract of sale, including the systems covered and the systems not covered. This requirement is more fully discussed in Section IV(B) of these guidelines.

[12] *See supra* text accompanying note 8 for a discussion of the terms "full" and "limited."

Be careful to check your state's laws for any restrictions that might apply to disclaimers of express warranty coverage or disclaimers of implied warranty coverage.

See Appendix D for an example of the front of a Buyers Guide that has been completed for a warranty such as the one discussed in this illustration. (Section 455.2(b)(2), Statement of Basis and Purpose, 49 FR 45710.)

*Illustration 3.5:* You are a dealer who is offering a warranty on a used vehicle. The warranty that you offer covers *less than* 100% of the cost of labor and parts for the systems covered. Is this a "full" warranty?

*No.* A "full" warranty is one which meets the minimum standards for a warranty under Section 104 of the Magnuson-Moss Act, 15 U.S.C. 2304. All other warranties are called "limited." In the example provided in this illustration, the warranty covers less than 100% of the repair costs of the covered systems, and thus does not meet one of the elements of a "full" warranty. The elements of a "full" warranty are discussed more completely in the text that accompanies footnote 8, *supra.* (Section 455.2(a)(2)(i).)

*Illustration 3.6:* You are a dealer who wishes to provide a warranty covering *all vehicle systems shown on the reverse of the Buyers Guide.* Under "systems covered" in the warranty section of the Buyers Guide, can you write "all systems shown on reverse of the Buyers Guide"?

*Yes.* To indicate that your warranty covers *all systems shown on the reverse side of the Buyers Guide,* write in the "systems covered" section that the warranty covers: "All systems shown on the reverse side of the Buyers Guide." You also must specifically list in the "systems covered" section any systems not covered. For example, if your warranty covers all systems shown on the reverse of the Buyers Guide, except for the fuel system, write: "All systems shown on the reverse side of the Buyers Guide, except the fuel system."

Shorthand terms, such as "power train" or "drive train" may not be used to describe the systems covered by a warranty. These requirements are designed so that both you and the consumer will be clear as to exactly what is covered by the warranty. This avoids misunderstandings and potential disputes that might otherwise occur. A useful list of the names of fourteen of the major systems in an automobile can be found on the reverse of the Buyers Guide. (Section 455.2(a)(2)(ii).)

*Illustration 3.7:* You offer a warranty that covers 100% of labor and parts, but with a $50 deductible over the course of the warranty. Should you fill in "100%" on the Buyers Guide in the lines for percentage of repair cost covered under the warranty?

*Yes.* Fill in "100%*" in the lines for percentage of parts and labor, and include a note to explain the deductible on the first line of the "systems covered/duration" portion of the Buyers Guide. For example, on the first line of the "systems covered/duration" portion, write: "*—A one-time $50 deductible will apply on repairs." See Appendix E for an example of a completed Buyers Guide with this language. (Section 455.2(a)(2)(iv).]

*Illustration 3.8:* You are a dealer who is offering a used car for sale "as is" in a state that permits such sales. The Buyers Guide displayed on the vehicle indicates that the car is offered "as is". However, after negotiating with the buyer, you agree to warrant the vehicle's engine for 90 days or 3,000 miles, whichever comes first, and to pay 75% of the cost of parts and labor involved in necessary repairs during the warranty period. Do you have to change the Buyers Guide before you give it to the buyer?

*Yes.* Before you give the buyer a copy of the Buyers Guide, you must change the Buyers Guide to indicate the warranty that you have agreed to provide. In the alternative, you may simply fill out a new Buyers Guide with the new information. If, however, you choose to change the "old" Buyers Guide, first cross out the "As Is" box. (If the Buyers Guide has an "Implied Warranties Only" disclosure and the car was originally offered with implied warranties only, then cross out the "Implied Warranties Only" box.) Next, fill in the warranty portion of the Buyers Guide just as you would if you were originally offering the car with that warranty. Remember that the final warranty terms must be included in the sales contract for the car. An example of the front of a Buyers Guide like the one described in this illustration is included as Appendix D to these guidelines. (Sections 455.2(a)(2)(v)(¶¶ 2–3), 455.4.)

*Illustration 3.9:* Same as above, but instead you originally offered the car *with* a warranty. Now you want to sell it with implied warranties only. Do you have to change the Buyers Guide before you offer the vehicle with implied warranties only?

*Yes.* You should cross out the warranty portion of the Buyers Guide and mark the box for the "Implied Warranties Only" disclosure. (If you choose to offer the car "as is" in a state that permits such sales, then simply mark the box next to the "As Is"

disclosure.) Alternatively, you could prepare a new Buyers Guide, and just mark the box next to the "Implied Warranties Only" disclosure. (Sections 455.2(a)(1)(ii), 455.2(a)(2)(v)(¶¶ 2–3), 455.4.)

*Illustration 3.10:* Your dealership has a used vehicle that is still being prepared for sale. A consumer is interested in looking at that vehicle, with the understanding that it cannot be delivered until the preparations are complete. Does the vehicle need to have a Buyers Guide?

*Yes.* Before you offer to sell, show, or actually sell any used vehicle to a consumer, you must prepare and display a Buyers Guide in the side window of that vehicle. Therefore, you may want to prepare and display a Buyers Guide soon after you acquire the vehicle. (Section 455.2(a).)

*Illustration 3.11:* You are a dealer who makes a substantial number, but not a majority, of your sales to Spanish speaking customers. Your staff is trained to conduct sales in both Spanish and English. Must you display both a Spanish and English version of the Buyers Guide on all your vehicles?

*Yes.* You are offering to sell each of your vehicles to consumers who speak only Spanish and also to other consumers who speak only English. Therefore, you must prepare and display *both* an English and Spanish version of the Buyers Guide for each vehicle, *before* you offer it for sale to consumers. However, if it would be unreasonable for a dealer to expect that sales will be conducted in Spanish, then the dealer would not be required to post a Spanish language Buyers Guide. For example, a dealer who has never sold a used vehicle in Spanish and does not expect to do so would not be covered by § 455.5, even if the dealer was bilingual.

In effect, this provision of the Rule means that where dealers expect to conduct sales in Spanish, *and* are prepared to do so, then they *offer to sell* their used vehicles in Spanish. Such dealers come within the requirements of § 455.5 of the Rule. Evidence that staff may look at to see whether a dealer is prepared to sell vehicles in Spanish might include, among other things, advertisements in Spanish language newspapers, journals, and phone books, bilingual staff, or "se habla Espanol" signs. (Sections 455.2, 455.5.)

## IV. The Sales Contract

### *A. The Rule's Requirements*

There are several requirements in the Used Car Rule pertaining to sales contracts. Section 455.3(a) requires that at the time of a sale, you must give the buyer the original Buyers Guide (or an accurate copy) that was displayed on the vehicle. Remember that the copy of the Buyers Guide that you give to the consumer must include any changes in warranty coverage agreed to by you and the buyer. (Sections 455.2(a)(2)(v)(¶¶ 2–3), 455.4.)

You must include warranty information in the sales contract. (The warranty information may be printed in your sales contract, *or* it may be on a separate warranty page that is referred to and made part of your sales contract.) Information on the Buyers Guide will override any contrary provisions that there may be in the sales contract. (Section 455.3(b).) To inform consumers of this provision of the Used Car Rule, you must place the disclosure that follows in the sales contract so that it appears in a *conspicuous manner.* A good place to put this disclosure is at the beginning of the warranty portion of the sales contract:

> The information you see on the window form for this vehicle is part of this contract. Information on the window form overrides any contrary provisions in the contract of sale.[13]

### *B. What to Include in the Contract of Sale*

Under § 455.4 of the Rule, you must identify the final warranty terms in the contract of sale. Under other federal laws,[14] the warranty portion of the contract of sale must meet certain requirements. If you do not offer a warranty, you do not need to comply with the requirements discussed in this portion of the guidelines.

A warranty that satisfies the disclosure requirements discussed below will also satisfy the Used Car Rule. To meet these requirements, your warranty document must:

(1) State whether the warranty offered is "full" or "limited".

(2) Indicate the percentage of the repair costs that you will pay.

(3) List the specific systems that are covered by the warranty.

(4) If it is necessary for clarification, list any parts or systems that are excluded from coverage under the warranty. For example, "battery not covered."

(5) Indicate the duration of warranty coverage for each of the covered systems.

(6) Explain how a customer gets warranty service. Include your company's name, address, and the telephone number of the person to call concerning warranty service.

(7) Include the following disclosure: "This warranty gives you specific legal rights, and you may also have other rights which vary from state to state."

(8) Disclose all obligations that the consumer has, if any, as a condition to obtaining warranty service.

(9) Include the following disclosure only if you wish to limit the duration of implied warranties: "Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you."

(10) Include the following disclosure only if you wish to exclude or limit consequential or incidental damages: "Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you."

(11) Indicate who is covered by the warranty, if you choose to limit the coverage. For example, "warranty covers only the original purchaser" or "commercial use excluded."

Put into the contract of sale everything that you will do and everything that you expect your customers to do under the warranty. Write the warranty clearly. Make sure that your customers can find each item of information in the warranty easily.

If you sell the vehicle "as is" or with implied warranties only, you must state this fact in the contract of sale. "As is" disclosures in the contract of sale will excuse you from liability under implied warranties *only* if you follow *state law* requirements for making this disclosure.

The Federal Trade Commission has prepared two publications that also may help you to comply with the laws and regulations governing warranties. You can get a free copy of "Making Business Sense Out of Warranty Law" by writing to the Publications Branch, Federal Trade Commission, Washington, DC 20580. "Writing Readable Warranties" is available for $2.00, from the Superintendent of Documents, Washington, DC 20402, GPO Order #: 018–000–00303–1.

You may also want to consult your lawyer to be sure that your warranty meets all the requirements of both federal and state laws.

### *C. Illustrations*

*Illustration 4.1:* When you sell a vehicle, you complete a customer order, or bill of sale, and a financing document prepared by a bank, if the consumer finances the vehicle. Do both of these

---

[13] 16 CFR 455.3(b). The Spanish translation of this disclosure is as follows: La informacion que aparece en la ventanilla de este vehiculo forma parte de este contrato. La informacion contenida en el formulario de la ventanilla anula cualquier prevision que establezca lo contrario y que aparezca en el contrato de venta.

[14] 16 CFR Part 701.

documents have to contain the contract disclosure required by § 455.3(b) of the Rule?

*No.* The disclosure is required only on the "contract of sale." The *contract of sale* is the document by which you agree to transfer title to the vehicle upon payment of the purchase price. That contract must contain the specific warranty information required by federal law,[15] which is discussed in section IV(B) of these Guidelines.

The dealership may use a document, such as a "buyer's order," "purchase order," or "bill of sale," as its contract of sale. The disclosure should be placed on the form in close proximity to the warranty information or the disclaimer of implied warranties, if there is any such disclaimer. Whether the "financing agreement" must *also* contain this disclosure depends upon the content of that financing agreement. The disclosure should be included in the financing agreement if the financing agreement contains terms and provisions apart from those governing the actual financing of the transaction. Such terms might include, but are not limited to, warranty terms, sale terms, or a statement that the financing document represents the complete and total agreement between the dealer and the consumer. If such additional terms are present in the financing document, then the disclosure required by § 455.3(b) should be included in the financing document. In addition, if the financing agreement is the only document given to the consumer to record the transaction, then the financing agreement should include the disclosure required by § 455.3(b) of the Rule.

*Illustration 4.2:* You are a dealer who uses a separate warranty document that is in compliance with all the requirements of federal and state law. Can you continue to use this form and be in compliance with the Used Car Rule?

*Yes.* The Rule merely requires you to identify the final warranty terms in the contract of sale. You may do this by writing the warranty information on the contract form. In the alternative, unless prohibited by state law, you may incorporate a separate warranty document by reference into the contract. (Section 455.4. *See also* 16 CFR Part 701).

### V. Contrary Statements—Section 455.4

Section 455.4 of the Rule prohibits dealers from making "any statements, oral or written, or tak[ing] other actions which alter or contradict the disclosures required by §§ 455.2 and 455.3 [of the Rule]." For example, it is staff's opinion that you may not write that there is a warranty on the Buyers Guide, but disclaim all warranties in the contract of sale. (As discussed in section IV(A) of these guidelines, the information on the Buyers Guide supercedes contrary information in the contract, under § 455.3(b) of the Rule.) However, staff does not interpret § 455.4 to mean that the Used Car Rule prohibits a dealer from making a repair to a vehicle that was sold "as is."

### VI. State Exemption Petitions—Section 455.6

The Used Car Rule includes a specific provision that sets out the standards for granting statewide exemptions from the Rule. This provision states that the Used Car Rule will not be in effect in a state, to the extent specified by the Commission, where:

(1) There is a state requirement in effect which applies to any transaction to which this rule applies, and

(2) That state requirement affords an overall level of protection to consumers which is as great as, or greater than, the protection afforded by [the Used Car] Rule; . . . for as long as the State administers and enforces effectively the state requirement.

Final staff guidelines for state exemption petitions have been developed for the Commission's Trade Regulation Rule Concerning Funeral Industry Practices, 16 CFR Part 453 (the "Funeral Rule"). These state exemption guidelines (published at 50 FR 12521 (1985)) provide an analysis of the procedures and materials that staff believes are relevant to an exemption proceeding. The state exemption provisions in both the Funeral Rule (16 CFR 453.9) and the Used Car Rule (16 CFR 455.6) are virtually identical. Therefore, staff recommends that states (or state agencies) that are interested in filing a petition for statewide exemption from the Used Car Rule should consult the state exemption guidelines developed for the Funeral Rule for more detailed information about § 455.6 of the Rule.

## DEPARTMENT OF ENERGY

## Federal Energy Regulatory Commission

## 18 CFR Part 375

[Docket No. RM87-14-000; Order No. 470]

## Delegation of Authority to the Director of the Office of Pipeline and Producer Regulation To Pass Upon Certain Uncontested Settlements

Issued: May 12, 1987.

**AGENCY:** Federal Energy Regulatory Commission, DOE.

**ACTION:** Final rule.

**SUMMARY:** The Federal Energy Regulatory Commission (Commission) is amending § 357.307 of its regulations to delegate to the Director of the Office of Pipeline and Producer Regulation the authority to pass upon uncontested settlements in the proceedings in Independent Oil and Gas Association of West Virginia, Docket Nos. RI74–188 and RI75–21 that are substantially similar to settlements previously approved by the Commission therein.

**EFFECTIVE DATE:** May 12, 1987.

**FOR FURTHER INFORMATION CONTACT:** Peter J. Roidakis, Office of the General Counsel, 825 North Capitol Street, NE., Washington, DC 20426, (202) 357–8224.

**SUPPLEMENTARY INFORMATION:**

Before Commissioners: Martha O. Hesse, Chairman; Anthony G. Sousa, Charles G. Stalon, Charles A. Trabandt and C.M. Naeve.

The Federal Energy Regulatory Commission is amending its *Delegations* regulations (18 CFR Part 375, Subpart C) to delegate to the Director of the Office of Pipeline and Producer Regulation (OPPR) the authority to pass upon certain uncontested settlements.

By separate order issued on May 12, 1987, the Federal Energy Regulatory Commission (Commission) approved certain settlements in the Independent Oil & Gas Association of West Virginia (IOGA) proceedings, Docket Nos. RI74–188–091 *et al.* and RI75–21–087 *et al.*, and stated its intent to delegate to the Director of OPPR authority to approve other settlements in those proceedings that are certified to the Commission as uncontested, and that are substantially similar to previous uncontested settlements already approved by the Commission. This final rule delegates this authority by making the necessary amendment to Part 375 Subpart C of the Commission's regulations.

The authority delegated by this final rule involves only limited discretion which is consistent with established

Commission policy with respect to delegations. As previously noted, this delegation relates only to uncontested settlements which are substantially similar to others previously approved in the IOGA proceedings. As defined in 18 CFR 375.301(c), "uncontested" means that "no motion to intervene, or notice of intervention, in opposition to the pending matter made under § 385.214 (intervention) has been received by the Commission." Furthermore, the Commission understands "substantially similar" with respect to this delegation to mean virtually identical (with the exception of producer-sellers' names, contracts affected, and effective dates), to prototype settlements previously approved in the Docket No. RI74–188, RI75–21 IOGA proceedings between various producer-sellers and Consolidated Gas Transmission Corporation,[1] Columbia Gas Transmission Corporation,[2] Equitable Gas Company,[3] and Carnegie Natural Gas Company,[4] respectively. In addition, the Commission notes that as provided in 18 CFR 375.301(a), any staff action may be appealed to the Commission pursuant to § 385.1902.

The Commission is issuing this final rule in order to use more efficiently the resources at its disposal and to expedite the approval of uncontested settlements in the IOGA proceedings, which have become routine. This will allow the Commission more time to devote to the less routine, more complex issues of law and policy that come before it and will benefit both the regulated entities involved and the public interest. Moreover, as already noted, any delegated action is appealable to the Commission itself.

Because this final rule is a matter of agency management, organization, procedure, and practice, prior notice and comment are unnecessary. 5 U.S.C. 553 (a) and (b) (1982). This rule becomes effective May 12, 1987.

[1] *See, e.g.*, Order Approving Settlements, Independent Oil & Gas Association of West Virginia, Docket Nos. RI74–188–089 and RI75–21–084, issued December 11, 1986, 37 FERC ¶ 61,230.

[2] *See, e.g.*, Order Approving Settlements, Independent Oil & Gas Association of West Virginia, Docket No. RI74–188–087 and RI75–21–082, issued November 10, 1986, 37 FERC ¶ 61,124.

[3] *See, e.g.*, Order Approving Settlements, Independent Oil & Gas Association of West Virginia, Docket Nos. RI74–188–086 and RI75–21–081, issued October 23, 1986, 37 FERC ¶ 61,051.

[4] *See, e.g.*, Order Approving Settlements, Independent Oil & Gas Association of West Virginia, Docket Nos. RI74–188–088 and RI75–21–083, issued November 15, 1985, 33 FERC ¶ 61,227.

**List of Subjects in 18 CFR Part 375**

Authority delegations (Government agencies), Seals and insignia, Sunshine Act.

In consideration of the foregoing, the Commission amends Part 375 of Chapter I of Title 18, Code of Federal Regulations, as set forth below, effective May 12, 1987.

By the Commission.

Kenneth F. Plumb,

*Secretary.*

**PART 375—[AMENDED]**

1. The authority citation for Part 375 is revised to read as follows:

**Authority:** Electric Consumers Protection Act of 1986, Pub. L. No. 99–495; Department of Energy Organization Act, 42 U.S.C. 7101–7532, Exec. Order No. 12,009, 3 CFR 1977 Comp., p. 142; Administrative Procedure Act, 5 U.S.C. 553; Federal Power Act, 16 U.S.C. 791–828c, as amended; Natural Gas Act, 15 U.S.C. 717–717w, as amended; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Public Utilities Regulatory Policies Act, 16 U.S.C. 2601 *et seq.*, as amended.

2. A new § 375.307(a)(18) is added to read as follows:

**DEPARTMENT OF THE TREASURY**

**Internal Revenue Service**

**26 CFR Part 1**

**Income Tax; Taxable Years Beginning After December 31, 1953; Percentage to be Used by Foreign Life Insurance Companies in Computing Income Tax for the Taxable Year 1986 and Estimated Tax for the Taxable Year 1987**

**AGENCY:** Internal Revenue Service, Treasury.

**ACTION:** Proclamation.

**SUMMARY:** This proclamation announces the percentage to be used to compute the income tax liability of foreign corporations carrying on life insurance business in the United States.

**EFFECTIVE DATE:** March 15, 1987.

**FOR FURTHER INFORMATION CONTACT:** Mr. Thomas Neubig, Office of Tax Analysis, U.S. Treasury Department, Washington, DC. 20220, (202–566–5374), not a toll free call.

**SUPPLEMENTARY INFORMATION:** This proclamation, issued each year by the Secretary of the Treasury, announces the percentage to be used to compute the income tax liability of foreign corporations carrying on life insurance business in the United States.

**Proclamation:**

For purposes of computing the 1986 income tax of foreign corporations carrying on a life insurance business, a percentage of 18.9 percent shall be used in determining the "minimum figure" under Section 813. The same percentage shall be used for purposes of computing the estimated tax and the installment payments of estimated tax for the taxable year 1987. No additions to tax shall be made because of any underpayment of estimated tax for the taxable year 1987 which results solely from the use of this percentage.

This proclamation is issued without notice and public procedure because the public cannot effectively participate in the determination of the percentage. It is computed from information contained in income tax returns that are not open to the public. The proclamation was not published prior to its effective date because the percentage is computed on the basis of data which was not then available.

J. Roger Mentz,

*Assistant Secretary (Tax Policy).*

May 4, 1987.

**DEPARTMENT OF TRANSPORTATION**

**Coast Guard**

**33 CFR Part 100**

**[CGD2 87–01]**

**Special Local Regulations; Annual Marine Events within the Second Coast Guard District**

**AGENCY:** Coast Guard, DOT.

**ACTION:** Final rule.

**SUMMARY:** This final rule establishes permanent special local regulations for marine events within the Second Coast Guard District which recur on an annual

basis and which have been determined by the District Commander to require the issuance of special local regulations. This action is taken to insure the safety of life during each event, while avoiding the necessity of publishing a separate temporary regulation each year for each event.

**EFFECTIVE DATE:** June 17, 1987.

**FOR FURTHER INFORMATION CONTACT:** LCDR B.J. WILLIS, Chief, Boating Technical Branch, Second Coast Guard District; 1430 Olive St., St. Louis, MO 63103–2398 (314) 425–5971.

**SUPPLEMENTARY INFORMATION:** On April 10, 1987 the Coast Guard published a notice of proposed rule making in the Federal Register for these regulations (52 FR 11693). Interested persons were requested to submit comments. No comments were received.

**Drafting Information**

The drafters of this regulation are LCDR B.J. Willis, Second Coast Guard District Boating Technical Branch and LT R.E. Kilroy, USCG, Project Attorney, Second Coast Guard District Legal Office.

**Economic Assessment and Certification**

These regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact of these regulations is expected to be so minimal that a full regulatory evaluation is unnecessary, since the regulated areas will be in effect for short periods of time. Since the impact of these regulations is expected to be minimal, the Coast Guard certifies that these regulations will not have a significant economic impact on a substantial number of small entities.

**List of Subjects in 33 CFR Part 100**

Marine safety, Navigation (water).

**Final Regulations**

In consideration of the foregoing, Part 100 of Title 33, Code of Federal Regulations, is amended as follows:

## PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

1. The authority citation for Part 100 continues to read as follows:

**Authority:** 33 U.S.C. 1233; 49 CFR 1.46(b) and 33 CFR 100.35.

2. Part 100 is amended by adding a § 100.201 to read as follows:

**§100.201, Annual Marine Events within the Second Coast Guard District.**

Permanent special local regulations are hereby established for the marine events listed in Table 1. These regulations will be effective annually, for the duration of each event, on or about the dates indicated in Table 1. Annual notice of the exact dates and times of the effective period of the regulations with respect to each event, the geographical description of each regulated area, and details concerning the nature of the event and the number of participants and type(s) of vessels involved will be published in local notices to mariners. To be placed on the mailing list for such notices, contact: Commander (oan), Second Coast Guard District, 1430 Olive St. St. Louis, MO 63103–2398.

(a) The Coast Guard will maintain a patrol consisting of regular and auxiliary Coast Guard vessels in the regatta area. This patrol will be under the direction of a designated Coast Guard Patrol Commander. The Patrol Commander may be contacted on Channel 16 (156.8 MHZ) by the call sign "COAST GUARD PATROL COMMANDER." Vessels desiring to transit the regulated area may do so with prior approval of the Patrol Commander and when so directed by that officer. Vessels will be operated at a no wake speed to reduce the wake to a minimum, and in a manner which will not endanger participants in the event or any other craft. The rules contained in the above two sentences shall not apply to participants in the event or vessels of the patrol operating in the performance of their assigned duties.

(b) The Patrol Commander may direct the anchoring, mooring or movement of any boat or vessel within the regatta area. A succession of sharp, short signals by whistle or horn from vessels patrolling the ara under the director of the U.S. Coast Guard Patrol Commander shall serve as a signal to stop. Vessels so signaled shall stop and shall comply with the orders of the Patrol Commander. Failure to do so may result in expulsion from the area, citation for failure to comply, or both.

(c) The Patrol Commander may establish vessel size and speed limitations and operating conditions.

(d) The Patrol Commander may restrict vessel operation within the regatta area to vessels having particular operating characteristics.

(e) The Patrol Commander may terminate the marine event or the operation of any vessel at any time it is deemed necessary for the protection of life and property.

## INTERSTATE COMMERCE COMMISSION

## 49 CFR Part 1014

## Enforcement of Non-Discrimination on the Basis of Handicap in Federally Conducted Programs

**AGENCY:** Interstate Commerce Commission.

**ACTION:** Self-evaluation—Public Comment Notice.

**SUMMARY:** 49 CFR 1014.110 requires that the Interstate Commerce Commission shall, by August 24, 1987, evaluate its current policies and practices and the effects thereof, that do not or may not meet the requirements of 49 CFR Part 1014, and, to the extent modification of any such policies and practices is required, the agency shall proceed to make the necessary modifications.

**DATE:** Comments by June 17, 1987.

**ADDRESS:** Interested parties may obtain a copy of the agency's self-evaluation report by contacting the Director, Office of Human Relations, Interstate Commerce Commission, Rm. 1419, 12th Street & Constitution Ave., NW., Washington, DC 20423. Voice: 202–275–7503. TDD: 202–275–1721.

**FOR FURTHER INFORMATION CONTACT:** Gideon Fenebee, Equal Opportunity Mgr. 202–275–1644. TDD 202–275–1721.

**SUPPLEMENTARY INFORMATION:** On August 22, 1986, the Interstate Commerce Commission's rule to implement section 504 of the Vocational Rehabilitation Act of 1973, as amended, became effective. The purpose of the regulation is to ensure that the ICC's policies and practices do not discriminate against an otherwise qualified handicapped person wishing to participate in or benefit from any of the agency's programs, activities, or offerings. 49 CFR 1014.110 (b) requires that the ICC shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the self-evaluation process by submitting comments (both oral and written).

Persons wishing to present oral or written comments on the agency's self-evaluation should contact the Director, Office of Human Relations within 30 calendar days from publication of this notice.

Kathleen M. King,
*Acting Secretary.*

# Proposed Rules

Federal Register
Vol. 52, No. 95
Monday, May 18, 1987

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## DEPARTMENT OF AGRICULTURE

### Agricultural Stabilization and Conservation Service

### 7 CFR Part 713

### Feed Grain, Rice, Upland and Extra Long Staple Cotton, and Wheat; Discretionary Special Disaster Payments for the 1987–1990 Crops

**AGENCY:** Agricultural Stabilization and Conservation Service, USDA

**ACTION:** Proposed rule.

**SUMMARY:** This proposed rule would amend the regulations found at 7 CFR Part 713 to establish the criteria that the Commodity Credit Corporation ("CCC") would use in making special disaster payments available to eligible producers of the 1987 through 1990 of rice, upland cotton, feed grains, and wheat.

**DATE:** Comments must be received on or before, July 14, 1987, in order to be assured of consideration.

**ADDRESSES:** Send comments on this proposed rule to Director, Emergency Operations and Livestock Programs Division, ASCS, Department of Agriculture P.O. Box 2415, Washington, DC 20013. All written submissions made pursuant to this rule will be available for further inspection in Room 4095 South Building, USDA, between the hours of 8:15 AM and 4:45 PM, Monday through Friday.

**FOR FURTHER INFORMATION CONTACT:** Jerry W. Newcomb, Director, Emergency Operations and Livestock Programs Divisions, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, P.O. Box 2415, Washington, DC 20013. Telephone (202) 447–5621.

**SUPPLEMENTARY INFORMATION:** Information collection requirements contained in this regulation (7 CFR Part 713) have been approved by the Office of Management and Budget in accordance with the provisions of 44 U.S.C. Chapter 35.

This proposed rule has been reviewed under U.S. Department of Agriculture (USDA) procedures established in accordance with provisions of Executive Order 12291 by Departmental Regulation No. 1512–1 and has been classified "not major." It has been determined that these program provisions will not result in: (1) An annual effect on the economy of $100 million or more; (2) major increases in costs or prices for consumers, individual industries, Federal, State, or local government agencies or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The title and number of the Federal assistance program to which this proposed rule applies are: Title—Commodity Loans and Purchases; Number 10.051; as found in the Catalog of Federal Domestic Assistance.

It has been determined that the Regulatory Flexibility Act is not applicable to this proposed rule since CCC is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this rule.

It has been determined by an environmental evaluation that this action will have not significant impact on the quality of human environment. Therefore, neither an environmental assessment nor an Environmental Impact Statement is needed.

This program/activity is not subject to provision of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the notice related to 7 CFR Part 3015, Subpart V, published at 48 FR 29115 (June 24, 1983).

### Background

The Food Security Act of 1985 (the "Act") which was enacted on December 23, 1985, amended the Agricultural Act of 1949 to provide that disaster payments may be made available to producers of the 1986 through 1990 crops of rice, upland cotton, feed grains, and wheat notwithstanding the availability of Federal crop insurance for the disaster-affected acreage. This proposed rule does not include the 1986 crop year since section 633(B) of the Agriculture, Rural Development, and Related Agencies Appropriations Act, 1987, as included in Pub. L. 99–500 and 99–591 ("Public Law 99–500"), provided for a disaster payment program for 1986 crops.

This proposed rule would establish the criteria for determining when CCC would make such discretionary special disaster payments to eligible producers participating in the CCC price support and production adjustment programs established for the 1987 through 1990 crops.

### Proposed Rule

The statutory authorization for this proposed rule is found at sections 101A(c)(2)(D), 103A(c)(2)(D), 105C(c)(2)(D), and 107D(c)(2)(D) of the Agricultural Act of 1949, as amended (the "1949 Act") (7 U.S.C. 1441–1(c)(2)(D), 1441–1(c)(2)(D), 1444e(c)(2)(D), and 14445b–3(c)(2)(D)), for rice, upland cotton, feed grains, and wheat, respectively.

The proposed rule provides that these payments would be made only to producers who are in a county in which a natural disaster or other similar condition has created an economic emergency and such producers have also experienced an economic emergency as the result of the natural disaster or similar occurrence. Section 713.130 of the proposed rule sets forth definitions applicable to these discretionary disaster payments. A "natural disaster or other condition beyond the control of the producers" ("natural disaster") would be defined as an adverse weather condition or other similar occurrence which results in at least a 60 percent reduction in the yield of the applicable program crop on the farm and throughout a county, as applicable. An "economic emergency" would be defined as a loss of 60 percent or more of the value of all crop production, including hay and pasture on a farm and throughout a county, as applicable. "Insufficient assistance to alleviate the economic emergency" would be defined as a situation in which an economic loss of 60 percent or more exists after taking into consideration the value of agricultural commodities produced and Federal assistance made available to producers on a farm and to producers throughout a county, as applicable.

Section 713.134 of the proposed rule provides that an economic emergency would be determined to exist on a farm and in a county, as applicable, when a natural disaster has created an economic loss of 60 percent or more. By providing that such discretionary

disaster payments would be made only after the occurrence of an economic emergency, a determination of economic necessity would not be subject solely to noneconomic events. For example, reductions in program crop yields due to seasonal fluctuations in productivity of 20 to 30 percent or more are not uncommon. Accordingly, the proposed rule provides for making a determination with respect to the availability of these payments by considering the crop yields produced in a county and on individual farms as well as the prices received for these crops and all forms of Federal assistance made available as the result of the natural disaster.

Section 713.135 of the proposed rule also sets forth the criteria to be used to determine whether an economic emergency exists on a farm and in a county as the result of a natural disaster. Such a determination would be based upon a determination of the agricultural economic base of the farm and county in a normal year as compared to the year in which the natural disaster occurred. Accordingly, a normal year's and disaster year's yields, crop acreages, and price data for agricultural commodities would be determined by ASCS based upon, to the extent practicable, data furnished by the National Agricultural Statistics Service ("NASS"), USDA. However, if available, a disaster year's yield and prices would be the actual yield of the farm and the higher of the actual prices received by the producer or the average price received by producers in the country. A situation in which insufficient assistance to alleviate an economic emergency would be determined to exist in the country if the disaster year's "gross income" (crop yields times prices of the agricultural commodities produced in the county, plus Federal assistance made available in the county) is 40 percent or less than a normal year's "gross income" (crop yields times prices of agricultural commodities produced in the county). Section 713.132 of the proposed rule provides that all forms of Federal assistance made available to producers shall be considered in making determinations of economic emergencies in a county or on a farm.

The unlimited availability of discretionary special disaster payments would severely jeopardize the Federal Crop Insurance Corporation ("CCC") insurance program since producers would not have an incentive to purchase such insurance if "free crop insurance" in the form of discretionary disaster payments is available. Such a result would affect adversely the actuarial soundness of the FCIC insurance program. Accordingly, in order to assure the viability of an actuarially sound FCIC crop insurance program, while providing adequate assistance to producers who have been subjected to natural disasters which have created an economic situation for which FCIC insurance and other forms of Federal assistance are insufficient, § 713.136 of the proposed rule provides that producers must have crop insurance on at least a portion of the affected program crop acreage if crop insurance is available to the producer. Similarly, § 713.135 includes the availability of crop insurance as one of the criteria used to determine if an economic emergency exists.

Section 713.134 of the proposed rule provides that with respect to the determination of the availability of the crop insurance CCC shall consider insurance offered at the highest indemnity for which Federal subsidization of insurance policy premiums exist. Thus, to the benefit of the producer, any insurance indemnities in excess of this amount will not be included in the determination of an economic loss which may have been incurred by a producer.

The respective provisions of the 1949 Act provide that these discretionary special disaster payments be made in a manner "so as to assure the equitable allotment of such payments among producers, taking into account other forms of Federal disaster assistance provided to the producers for the crop involved." In order to assure the equitable allotment of these discretionary special disaster payments among eligible producers, it is proposed that such producers must be in a county which the Secretary has determined has suffered an economic emergency as the result of a natural disaster.

The determination that discretionary special disaster payments would be made only in a county in which an economic emergency as the result of a natural disaster has occurred also is consistent with the historical administration of virtually all CCC price support and production adjustment programs. These CCC programs are administered at the local level by producer-elected members of a county Agricultural Stabilization and Conservation ("ASC") committee which are established in accordance with the Soil Conservation and Domestic Allotment Act, as amended. In addition, CCC emergency haying and grazing and emergency feed and livestock programs are established on the occurrence of a natural disaster in a county.

Similarly, FCIC insurance rates and indemnity levels also are based upon the historical production of a commodity in a county. Further, Farmers Home Administration ("FmHA") emergency and disaster loans are made available to producers based upon the financial condition existing in a county as well as on a farm. Since CCC, FCIC, and FmHA are the primary agencies which provide assistance to producers, it is proposed that these discretionary special disaster payments also be administered on a county basis in a manner similar to current practices. Further, in the most recent comprehensive disaster payment legislation, Pub. L. 99-500, eligibility was determined on a county-by-county basis.

These discretionary disaster payments are a benefit, such as deficiency, diversion and mandatory disaster payments and nonrecourse price support loans, which CCC makes available to producers who are otherwise eligible to receive benefits as a result of participation in the respective CCC price support and production adjustment programs. Section 713.136 of the proposed rule provides that a producer in a county which has met the economic emergency requirements would be eligible to apply for these decretionary special disaster payments if the producer was participating in, and in compliance with, the commodity price support and production adjustment programs set forth at 7 CFR Part 713 which were in effect for the applicable crop years 1987–1990.

Section 713.137 provides that if an elibible producer has experienced an economic emergency, discretionary special disaster payments may be made to the producer. Section 713.138 provides that the payment rate for these discretionary special disaster payments would be based upon the same rate established for mandatory prevented planting and reduced yield disaster payments.

**List of Subjects in 7 CFR Part 713**

Cotton, Feed grains, Price support program, Wheat, Rice.

Accordingly, it is proposed that Part 713 of Title 7 of the Code of Federal Regulations be amended as follows:

**PART 713—[AMENDED]**

1. The authority citation is revised to read as follows:

Authority: Sections 101A, 103A, 105C, 107C, 107D, 107E, 109, 113, 401, 403, 503, 504, 505, 507, 508, and 509 of the Agricultural Act of 1949, as amended; 63 Stat. 1419, as amended, 1407, as amended, 1395, as amended, 1444, 1383, as amended, 1448; 91 Stat. 950, as

amended, 63 Stat. 1054, as amended; 99 Stat. 1461; as amended, 1462, 1463, 1464, 1465, 1566, 1467, 1468, 1469 (7 U.S.C. 1441–1. 1444–1. 1444b, 1444b–2, 1445b–3, 1445b–4, 1445b, 1445h, 1421, 1423, and 1461 through 1469); Sec. 1001 of the Food Security Act of 1985, as amended, 99 Stat. 1444, as amended (7 U.S.C. 1308); Sec. 1001 of the Food and Agriculture Act of 1977, as amended, 91 Stat. 950, as amended (7 U.S.C. 1309); Sec. 4 and 5 of the Commodity Credit Corporation Charter Act, as amended, 62 Stat. 1070, 1072, as amended (15 U.S.C. 714b and 714c).

2. Part 713 is amended by adding new entries to the Table of Contents to read as follows:

Sec.
713.132 Special disaster payments.
713.133 Availability of special disaster payments in a county.
713.134 County eligibility designation.
713.135 Determination of economic emergency.
713.136 Producer eligibility.
713.137 Determination of economic emergency for a producer.
713.138 Special disaster payment provisions.
713.139 Duplication of disaster payments.

3. Part 713 is amended by adding the following new sections (§§ 713.132 through 713.139):

**§ 713.132 Special disaster payments.**

(a) "Economic emergency" means a loss of 60 percent or more of the value of all crop production, including hay and pasture, of producers on the farm and in the county, respectively;

(b) "Insufficient assistance to alleviate the economic emergency" means an economic loss of 60 percent or more on the farm and in the county, respectively, after taking into consideration:

(1) The value of agricultural commodities produced on the farm and in the county, respectively, during the applicable crop year; and

(2) Any Federal assistance provided to producers on the farm and in the county, respectively, including, but not limited to, the value of any Federal crop insurance indemnity coverage available to producers in the county, land diversion payments, deficiency payments, and noncash payments including in-kind compensation.

(c) "Natural disaster or other conditions beyond the control of the producers" means an occurrence which results in a yield reduction of at least 60 percent as the result of adverse weather or other similar condition.

(d) "Special disaster payments" means the discretionary special disaster payments authorized by sections 101A(c)(2)(D), 103A(c)(2)(D), 105C(c)(2)(D), and 107D(c)(2)(D) of the Agricultural Act of 1949, as amended.

**§ 713.133 Availability of special disaster payments in a county.**

(a) Special disaster payments may be made to producers on a farm when the Administrator determines that:

(1) As the result of drought, flood, or other natural disaster, or other conditions beyond the control of the producers in a county, such producers have suffered substantial losses of production for the crop year:

(i) Because the producers were prevented from planting applicable program crops or other nonconserving crops; or

(ii) Due to reduced program crop yields.

(2) Such losses have created an economic emergency in the county;

(3) Federal crop insurance indemnity payments and other forms of assistance made available by the Federal Government to producers in the county for such losses provide insufficient assistance to alleviate the economic emergency; and

(4) In accordance with paragraph (b) of this section, additional assistance must be made available to such producers to alleviate the economic emergency in the county.

(b) If special disaster payments are made available, producers in a county are eligible for special disaster payments made in accordance with §§ 713.136 through 713.139 only if:

(1) A natural disaster or other condition beyond the control of the producers in the county has substantially and adversely affected producers in the county; and

(2) A written request from the State Governor for a special disaster designation has been received by the Secretary within 90 days of the last day of the occurrence of the natural disaster, except that CCC may waive the requirement that the Governor's request be received within 90 days if it is determined by CCC that the extent of loss in the affected area reasonably can be ascertained as of the date the request is received; and

(3) The Administrator determines that unusual and adverse weather conditions or other causes beyond the control of producers, excluding flooding within flood plains or in flowage easement areas, have resulted in substantial crop production losses resulting in an economic emergency.

**§ 713.134 County eligibility designation.**

(a) A county may be designated as a county in which producers are eligible to receive special disaster payments when the requirements of § 713.133 are met.

(b) Upon receipt of the Governor's request made in accordance with § 713.133, the Governor's request shall be acknowledged and, if any delay is anticipated in processing the request, the acknowledgement shall state the reasons for such delay and when action will be taken.

(c) The State Executive Director, ASCS, in the role of the Food and Agriculture Council ("FAC") Vice Chairperson, Emergency Programs, will immediately:

(1) Notify the local FAC to prepare a Damage Assessment Report ("DAR") for the requested county; and

(2) Review each DAR and forward such DAR to the Deputy Administrator with a transmittal memorandum containing views, comments, and recommendations concerning the need or lack of need for special disaster payments to be made available.

(d) The local FAC Chairperson of an affected county shall forward DAR's to the FAC, Vice Chairperson, Emergency Programs. The DAR's shall be completed in accordance with instructions issued by the Deputy Administrator.

(e) Reports submitted in accordance with this section and any other evidence determined by the Administrator to be relevant shall be used to determine whether the requirements of § 713.135 have been met. Such a determination shall take into consideration, but not be limited to, the value of all crops, including hay and pasture, in the affected county, the value of crop insurance available in the county (determined by multiplying the greater of (1) the acreage planted for harvest, or if a production adjustment program is in effect for the commodity, (2) the total permitted acreage for the commodity for the county, by the highest indemnity available for each commodity in the county at the 65 percent coverage level made available in accordance with section 508(b) of the Federal Crop Insurance Act), and other Federal assistance available in the county.

(f) The Deputy Administrator will review DAR's, the State Executive Director's recommendations, and all other pertinent data to determine whether an economic emergency exists.

**§ 713.135 Determination of economic emergency.**

(a) In determining whether an economic emergency exists in a county, the total value of all crops, including hay and pasture, grown in the county shall be taken into consideration. The total value of such crops shall be determined by converting yield losses into dollar losses in the manner specified in this section. In making such a determination, the following criteria shall be used:

(1) The value of crops produced in the county during normal years shall be determined by multiplying a normal year's yield for each commodity by a normal year's price for each such commodity.

(2) The normal year's yield for each commodity shall be the average yield in the county for such commodity based upon each of the 5 years immediately preceding the year in which the disaster occurred.

(3) The normal year's price for each commodity shall be the average of the market prices for each such commodity based upon the 3 years immediately preceding the year in which the disaster occurred.

(4) Yields, crop acreage, and price data used to establish the normal year's production shall be determined by the Administrator and, to the extent practicable, shall be obtained from the National Agricultural Statistics Service ("NASS"), USDA.

(5) Yields, crop acreages, and price data used to establish the disaster year's production shall be determined by the Administrator and may be obtained from the DAR's submitted in accordance with § 713.134 or, if available, the actual production data for such year as determined by NASS except as otherwise provided in §§ 713.136 through 713.138.

(b)(1) The gross income for each commodity for the year in which the disaster occurred shall be determined by multiplying the total acres of the crop of each commodity planted in the county in the disaster year by the disaster year's yield for the crop by the price of the commodity. The gross income for the county will be the total of the individual commodity computations.

(2) The gross income for each commodity for the normal year shall be determined by multiplying the total acres planted and intended to be planted in the country in the disaster year by the price of the commodity by the normal year's yield for the crop. The gross income for the county will be the total of the individual commodity computations.

(3) A gross income gain will exclude the county from consideration. The gross income loss experienced in the county in the disaster year shall be determined by subtracting the disaster year's gross income from the normal year's gross income.

(4) The gross income loss determined in accordance with paragraph (b)(3) of this section shall be adjusted by the following:

(i) The total value of the Federal crop insurance available in the county (determined by multiplying the greater of (A) the acreage planted for harvest or, if a production adjustment program is in effect for the commodity, (B) the total permitted acreage for the commodity for the county, by the highest indemnity available for the commodity in the county at the 65 percent coverage level made available in accordance with section 508(b) of the Federal Crop Insurance Act). The total FCIC adjustment will be the total for all commodities for which crop insurance is available in the county;

(ii) The value of all noncash payments, including in kind compensation, provided in the county;

(iii) The total value of Farmers Home Administration emergency loans made available for the same disaster losses of crop production;

(iv) The value of any special emergency haying or grazing of acreage diverted to the acreage conservation reserve under the commodity production adjustment programs, or acreage subject to a contract under the Water Bank Program;

(v) The value of any emergency livestock feed made available in the county;

(vi) The value of any land diversion payments and deficiency payments made available; and

(vii) The value of any other forms of assistance made available by the Federal Government to such producers in a county for the same disaster losses of crop production.

(c) To determine whether a sufficient percentage of loss exists to constitute insufficient assistance to alleviate the economic emergency in the county, the adjusted gross income loss shall be divided by the normal year's gross income.

**§ 713.136 Producer eligibility.**

(a) If it is determined that the county has met the conditions set forth in §§ 713.134 and 713.135, the county committee may be authorized to make payments available to only those producers on a farm for which the operator of the farm:

(1) Submits a Form ASCA–574, Application for Disaster Credit, in the case of a reduced yield application or a Form ASCS–574–1, Prevented Planting Claim, in the case of a prevented planting application, in accordance with instructions issued by the Deputy Administrator;

(2) Submits a report in accordance with the provisions in § 713.137;

(3) Meets the economic emergency requirements in § 713.137; and

(4) Applies for payment on a form prescribed by the Deputy Administrator.

(b) Special disaster payments are authorized to be made to producers of wheat, corn, grain sorghum, oats, barley, upland cotton, and rice only if:

(1) For a crop of a commodity for which a production adjustment program has been established, such producer is in compliance with the regulations set forth in of this title; and

(2) The producer had a Federal Crop Insurance policy in effect on at least a part of the affected program crop acreage if such insurance is available for purchase by producers in the county; and

(3) The operator of the farm has complied with the requirements in paragraph (a) of this section; and

(4) The producer submits a report of any indemnity payments received for crops produced on the farm, and any other assistance made available by the Federal Government to such producers for such losses.

(c) In addition to the requirements of paragraph (b) of this section, the county committee must also determine that the operator and other producers were prevented from planting an eligible commodity or other nonconserving crop, or that the production of an eligible commodity on an acreage resulted in a reduced yield of such commodity, because of a drought, flood, other natural disaster or other condition beyond the control of the producers.

**§ 713.137 Determination of economic emergency for a producer.**

(a) In determining whether a producer has suffered a loss which constitutes an economic emergency, the total value of all crops produced on the farm, including hay and pasture, will be taken into consideration. The total value of such crops shall be determined by converting yield losses into dollar losses in accordance with this section.

(b)(1) The value of crops produced on the farm during normal years shall be determined by multiplying a normal year's yield for each commodity by a normal year's price for each such commodity.

(i) The normal year's yield for each commodity shall be the farm program payment yield established for program crops and, with respect to other crops, the yield established by the county committee in accordance with instructions issued by the Deputy Administrator taking into consideration actual production on the farm in the five years immediately preceding the disaster year and the average yields of such crops in the county for such years.

(ii) The normal year's price for each commodity shall be the average of the

market prices for each such commodity based upon the 3 years immediately preceding the year in which the disaster occurred.

(2) The value of production from any acreage for the disaster year shall be determined as follows:

(i) The production from acreage which is not harvested shall be appraised in accordance with instructions issued by the Deputy Administrator and shall be added to the actual production.

(ii) The production from acreage which is harvested shall be the actual production of the farm. The farm program payment yield established in accordance with § 713.6 shall be used with respect to any acreage for which production cannot be determined. If the county committee determines that the acreage of a farm was affected by a natural disaster, the farm yield with respect to such acreage shall be the larger of 60 percent (75 percent for upland cotton and rice) of the farm program payment yield established in accordance with § 713.6 or the actual yield from the harvested acreage of the crop.

(iii) Producers shall report the production and disposition of all crops produced on the farm, including hay and pasture, in accordance with instructions issued by the Deputy Administrator.

(A) If there has been a disposition of crop production through commercial channels, the producer must furnish documentary evidence of such disposition in order to verify the information provided on the report. Acceptable evidence shall include such items as the original or copy of commercial receipts, gin records, CCC loan documents, settlement sheets, warehouse ledger sheets, elevator receipts or load summaries.

(B) If there has been disposition of crop production other than through commercial channels, the producer must furnish such documentary evidence as the county committee determines to be necessary in order to verify the information provided on the report. If the producer utilized any of the crops produced on the farm as feed, the producer must provide the number and type of livestock fed, the duration of the feeding period, the type of feed, and other documentation to substantiate the production on the farm in the disaster year.

(iv) Prices of commodities used to establish the disaster year's production will be the higher of the price the producer actually received for the crop or the average of the prices received by producers in the county as determined in accordance with instructions issued by the Deputy Administrator.

(3)(i) The gross income for each commodity for the year in which the disaster occurred shall be determined by multiplying the total acres of each commodity planted or intended to be planted which were affected by the disaster by the disaster year's yield for each crop by the price of the commodity for the disaster year. The gross income for the farm will be the total of the individual commodity components.

(ii) The gross income for each commodity in the normal year shall be determined by multiplying the total acres planted and intended to be planted on the farm in the disaster year by the price of the commodity by the normal year's yield for the commodity. The gross income for the farm will be the total of the individual commodity components.

(iii) A gross income gain will exclude the producer from consideration. The gross income loss experienced by the producers on the farm shall be determined by subtracting the disaster year gross income from the normal year's gross income.

(iv) The gross income loss determined in accordance with paragraph (a)(3)(iii) of this section shall be adjusted by, the following:

(A) The total value of the Federal crop insurance available for the farm (determined by multiplying the greater of (1) the acreage planted for harvest or, if a production adjustment program is in effect for the commodity, (2) the total permitted acreage for the commodity on the farm, by the highest indemnity available for the commodity in the county at the 65 percent coverage level made available in accordance with section 508(b) of the Federal Crop Insurance Act). The total FCIC adjustment will be the total for all commodities for which crop insurance is available on the farm whether or not the producer elected to purchase such crop;

(B) The value of all noncash payments, including in-kind payments, received by such producer;

(C) The total value of Farmers Home Administration emergency loans made available for the same disaster losses of crop production;

(D) The value of any special emergency haying or grazing of acreage diverted to the Acreage Conservation Reserve under the commodity production adjustment programs, or acreage subject to a contract under the Water Bank Program;

(E) The value of emergency livestock feed made available to such producers;

(F) The value of any land diversion payments and deficiency payments made available to such producer; and

(G) The value of any other forms of assistance made available by the Federal Government to the producer for the same disaster losses of crop production.

**§ 713.135 Special disaster payment provisions**

(a) *Applicability.* Special disaster payments may be made to eligible producers as soon as practicable after the extent of the crop loss is determined and payment is approved. Special disaster payments shall not exceed the amount necessary to alleviate the economic emergency of the producer on the farm, as defined in § 713.132.

(b) *Prevented planting.* Producers who were prevented from planting a program crop may receive special disaster payments in accordance with this section.

(1) *Payment rate.* The prevented payment rate is one-third of the established (target) price as provided for in § 713.106.

(2) *Acreage eligible for payment.* Acreage in flood plains or flowage easement areas is ineligible acreage for special disaster payment purposes. The acreage eligible for payment shall equal the smaller of the following:

(i) The acreage of the crop intended for harvest, but which could not be planted to the crop or other nonconserving crops because of a drought, flood or other natural disaster or other condition beyond the producer's control;

(ii) The result obtained by subtracting the acreage of the crop planted in the current year from the acreage of the crop that was planted or prevented from being planted in the previous year;

(iii) For crops for which an acreage reduction or set-aside requirement is in effect or on farms participating in a land diversion or wheat grazing and hay program, the amount by which the permitted acreage of the crop for the current year exceeds the acreage of the crop planted in the current year; or

(iv) The acreage for which crop insurance under the Federal Crop Insurance Act is not available.

(3) *Payment computation.* Prevented planting payments for each crop shall be the result of multiplying the acreage eligible for payment times 75 percent of the farm program payment yield as determined in accordance with § 713.6 by the prevented planting payment rate.

(c) *Reduced yield.* Producers on farms on which the yield of the program crop planted for harvest is reduced may receive payments in accordance with this paragraph.

(1) *Payment rate.* The reduced yield payment rate is one-third of the established (target) price for upland cotton and rice and one-half of the established (target) price for barley, corn, grain sorghum, oats, and wheat as provided for in § 713.106.

(2) *Payment computation.* Reduced yield payments shall be determined for each crop by multiplying the reduced yield payment rate times the smaller of the result of the following computations:

(i) The result determined by multiplying the acreage of the crop on the farm by 60 percent (75 percent for upland cotton and rice) of the farm yield as provided in § 713.6, and subtracting the determined production for the farm therefrom; or

(ii) The result determined by multiplying the acreage of the crop on the farm for which crop insurance under the Federal Crop Insurance Act was not available by 60 percent (75 percent for upland cotton and rice) of the farm yield as provided in § 713.6, and subtracting the determined production for the eligible acreage therefrom.

**§ 713.133 Duplication of disaster payments.**

To eliminate the duplication of compensatory disaster benefits from CCC and FmHA for the same disaster losses, any cash disaster payment due a producer who has received a FmHA emergency loan will be made with FmHA as joint payee and a check in the name of the producer and FmHA will be forwarded to the FmHA county office.

Signed at Washington, DC on May 11, 1987.

Milton J. Hertz,

*Executive Vice President Agricultural Stabilization and Conservation Service.*

BILLING CODE 3410-E-M

## SMALL BUSINESS ADMINISTRATION

### 13 CFR Part 102

### Disclosure of Information and Privacy Act of 1974

**AGENCY:** Small Business Administration.

**ACTION:** Proposed rule.

**SUMMARY:** These proposed regulations implement certain provisions of the Freedom of Information Reform Act of 1986 (Pub. L. 99-570). The intended effect of this proposed rule if adopted in final form would be to provide to the public the method by which SBA would charge and waive fees in connection with requests made under the Freedom of Information Act.

**DATE:** *Public Comment:* The public may furnish comments by June 17, 1987, to the Small Business Administration at the address indicated below.

**FOR FURTHER INFORMATION CONTACT:** Inquiries and comments should be directed to C. Nicholas Kalcounos, Director, Freedom of Information/Privacy Acts, 2100 K Street, NW., Room 303, Washington, DC 20416, (202) 653-6460.

**SUPPLEMENTARY INFORMATION:** The Freedom of Information Reform Act of 1986 (Pub. L. 99-570) amended the Freedom of Information Act (5 U.S.C. 552) by modifying the terms of exemption 7 and by supplying new provisions relating to the charging and waiving of fees. The Reform Act specifically required the Office of Management and Budget to develop and issue a schedule of fees and guidelines pursuant to notice and comment. That Act also required agencies to publish their own regulations for those same purposes based upon the OMB guidelines. These regulations represent SBA's response to that requirement. They are based upon the OMB guidelines.

### Regulatory Flexibility Act

The provisions of the Regulatory Flexibility Act relating to an initial and final regulatory analysis (5 U.S.C. 603, 604) are not applicable to this notice because the proposal, if promulgated as a final rule, will not have a significant economic impact on a substantial number of small entities. The proposal will not impose, or otherwise cause, a significant increase in the reporting recordkeeping or other compliance burdens on a substantial number of small entities. The proposal is not expected to have significant secondary or incidental efforts on a substantial number of small entities.

Accordingly, it is hereby certified under the provisions of section 3 of the Regulatory Flexibility Act (5 U.S.C. 605(b)) that this notice of proposed rulemaking, if promulgated as a final rule, will not have a significant economic impact on a substantial number of small entities.

### Executive Order 12291

In compliance with Executive Order 12291 of February 17, 1981, SBA has determined that this proposal is not a major rule since it will not result in:

(a) An annual effect on the economy of $100 million or more;

(b) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(c) Significant adverse effects on competition, employment, investment, productivity, innovation or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

### Paperwork Reduction Act

These regulations, if promulgated in final form, will not result in any implications pursuant to the Paperwork Reduction Act.

### List of Subjects in 13 CFR Part 102

Disclosure of Information, Privacy Act of 1974.

### PART 102—[AMENDED]

Accordingly, 13 CFR Part 102 is proposed to be amended as follows:

1. The authority citation for Part 102, Subpart A would be revised to read as follows:

**Authority:** The Freedom of Information Act (5 U.S.C. 552), as amended; the Paperwork Reduction Act (44 U.S.C. 35); the Privacy Act of 1974 (5 U.S.C. 552a); the Budget and Accounting Act of 1921 (31 U.S.C. 1 *et seq.*); the Budget and Accounting Procedures Act (31 U.S.C. 67 *et seq.*).

2. Section 102.6 would be revised to read as follows:

**§ 102.6 Fees.**

(a) *Definitions.* For the purpose of these regulations all the terms defined in the Freedom of Information Act apply.

(1) The term "direct costs" means those expenditures which SBA actually incurs in searching for and duplicating (and in the case of commercial requesters, reviewing) documents to respond to a FOIA request. Direct costs include, for example, the salary of the employee performing work (the basic rate of pay for the employee plus 16 percent of that rate to cover benefits) and the cost of operating duplicating machinery. Not included in direct costs are overhead expenses such as costs of space, and heating or lighting the facility in which the records are stored.

(2) The term "search" includes all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material. within documents.

(3) The term "duplication" refers to the process of making a copy of a document necessary to respond to an FOIA request. Such copies can take the form of paper copy, microfilm, audio-visual materials, or machine readable documentation (e.g., magnetic tape or disk) among others. The copy provided must be in a form that is reasonably usable by the requester.

(4) The term "review" refers to the process of examining documents located in response to a request that is for a

commercial use (see paragraph (f) of this section) to determine whether any portion of any document located is permitted to be withheld. It also includes processing any documents for disclosure, e.g., doing all that is necessary to excise them and otherwise prepare them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(5) The term " 'commercial use' request" refers to a request from or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, SBA will determine the use to which a requester will put the documents requested. Moreover, where SBA has reasonable cause to doubt the use to which a requester will put the records sought, or where that use is not clear from the request itself, SBA will seek additional clarification before assigning the request to a specific category.

(6) The term "educational institution" refers to a preschool, a public or private elementary or secondary school, an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research.

(7) The term "non-commercial scientific institution" refers to an institution that is not operated on a "commercial" basis as that term is referenced above, and which is operated solely for the purpose of conducting scientific research the results of which are not intended to promote any particular product or industry.

(8) The term "representative of the news media" refers to any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term "news" means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large, and publishers of periodicals (but only in those instances when they can qualify as disseminators of "news") who make their products available for purchase or subscription by the general public. These examples are not intended to be all-inclusive. Moreover, as traditional methods of news delivery evolve (e.g., electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. In the case of "freelance" journalists, they may be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even though not actually employed by it. A publication contract would be the clearest proof, but agencies may also look to the past publication record of a requester in making this determination.

(b) *Basis Upon Which Fees Are To Be Charged.* SBA will charge fees that recoup the full allowable direct costs it incurs. SBA will use the most efficient and least costly methods to comply with requests for documents made under the FOIA.

(1) *Manual Searches for Records*—SBA will charge at the salary rate(s) (i.e., basic pay plus 16 percent) of the employee(s) making the search. However, where a homogeneous class of personnel is used exclusively (e.g., all administrative/clerical, or all professional/executive), agencies may establish an average rate for the range of grades typically involved.

(2) *Computer Searches for Records*—SBA will charge at the actual direct cost of providing the service. This will include the cost of operating the central processing unit (CPU) for that portion of operating time that is directly attributable to searching for records responsive to a FOIA request and operator/programmer salary apportionable to the search.

(3) *Review of Records*—Only requesters who are seeking documents for commercial use may be charged for time SBA spends reviewing records to determine whether they are exempt from mandatory disclosure. It should be noted that charges may be assessed only for the initial review; i.e., the review undertaken the first time SBA analyzes the applicability of a specific exemption to a particular record or portion of a record. SBA may not charge for review at the administrative appeal level of an exemption already applied. However, records or portions of records withheld in full under an exemption which is subsequently determined not to apply may be reviewed again to determine the applicability of other exemptions not previously considered. The costs for such a subsequent review would be properly assessable. Where a single class of reviews is typically involved in the review process, SBA may establish a reasonable agency-wide average and charge accordingly.

(4) *Duplication of Records*—SBA has established an agency-wide, per page charge for paper copy reproduction of documents of ten cents per page. This charge shall represent the reasonable direct costs of making such copies, taking into account the salary of the operators as well as the cost of the reproduction machinery. For copies prepared by computer, such as tapes or printouts, SBA shall charge the actual cost, including operator time, of production of the tape or printout. For other methods of reproduction or duplication, agencies should charge the actual direct costs of producing the document(s). In practice, if SBA estimates that duplication charges are likely to exceed $25, it shall notify the requester of the estimated amount of fees, unless the requester has indicated in advance his willingness to pay fees as high as those anticipated. Such a notice shall offer a requester the opportunity to confer with agency personnel with the object of reformulating the request to meet his or her needs at a lower cost.

(5) *Other Charges*—It should be noted that complying with requests for special services such as those listed below is entirely at the discretion of SBA. Neither the FOIA nor its fees structure cover these kinds of services. SBA will recover the full costs of providing services such as those enumerated below to the extent that SBA elects to provide them:

(i) Certifying that records are true copies;

(ii) Sending records by special methods such as express mail, etc.

(6) *Restrictions on Assessing Fees*—With the exception of requesters seeking documents for a commercial use, section 4(A)(iv) of the Freedom of Information Act, as amended, requires SBA to provide the first 100 pages of duplication and the first two hours of search time without charge. Moreover, this section prohibits SBA from charging fees to any requester, including commercial use requesters, if the cost of collecting a fee would be equal to or greater than the fee itself. These provisions work together, so that except for commercial use requesters, SBA would not begin to assess fees until after it had provided the free search and reproduction. For example, for a request that involved two hours and ten minutes of search time and resulted in 105 pages of documents, SBA would determine the cost of only 10 minutes of search time and only five pages of reproduction. If this cost was equal to or less than the cost to the agency of billing the requester and processing the fee collected, no charges would result. SBA's Freedom of Information/Appellate Office will be the entity within SBA which determines if the cost to the Agency of billing the requester and processing the fee

collected will be equal to or greater than the cost to be recovered.

(i) The elements to be considered in determining the "cost of collecting a fee," are the administrative costs to the agency of receiving and recording a requester's remittance, and processing the fee for deposit in the Treasury Department's special account (or the agency's account if the agency is permitted to retain the fee). The per-transaction cost to the Treasury to handle such remittances is negligible and should not be considered in the agency's determination.

(ii) For purposes of these restrictions on assessment of fees, the word "pages" refers to paper copies of a standard agency size which will normally be "8½ x 11" or "11 by 14." Thus, requesters would not be entitled to 100 microfiche or 100 computer disks, for example. A microfiche containing the equivalent of 100 pages or 100 pages of computer printout, however, might meet the terms of the restriction.

(iii) Similarly, the term "search time" in this context has as its basis, *manual search*. To apply this term to searches made by computer, SBA will determine the hourly cost of operating the central processing unit and the operator's hourly salary plus 16 percent. When the cost of the search (including the operator time and the cost of operating the computer to process a request) equals the equivalent dollar amount of two hours of the salary of the person performing the search, i.e., the operator, SBA will begin assessing charges for computer search.

(iv) *Fees to be Charged*—Categories of Requesters. There are four categories of FOIA requesters: Commercial use requesters; educational and non-commercial scientific institutions; representatives of the news media; and all other requesters. Specific levels of fees will be charged for each of these categories.

(A) *Commercial use requesters*—When SBA receives a request for documents for commercial use, it will assess charges which recover the full direct costs of searching for, reviewing for release, and duplicating the records sought. Requesters must reasonably describe the records sought. Commercial use requesters are not entitled to two hours of free search time nor 100 pages of reproduction of documents.

(B) *Educational and Non-commercial Scientific Institution Requesters*—SBA shall provide documents to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, requesters must show that the request is being made as authorized by and under the auspices of a qualifying institution and that the records are not sought for a commercial use, but are sought in furtherance of scholarly (if the request is from an educational institution) or scientific (if the request is from a non-commercial scientific institution) research. Requesters must reasonably describe the records sought.

(C) *Requesters who are Representatives of the News Media* — SBA shall provide documents to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, a requester must meet the criteria in section 5 above, and his or her request must not be made for a commercial use. In reference to this class of requester, a request for records supporting the news dissemination function of the requester shall not be considered to be a request that is for a commercial use.

(D) *All Other Requesters*—SBA shall charge requesters who do not fit into any of the categories above fees which recover the full reasonable direct cost of searching for and reproducing records that are responsive to the request, except that the first 100 pages of reproduction and the first two hours of search time shall be furnished without charge. Moreover, requests from record subjects for records about themselves filed in agencies' systems of records will continue to be treated under the fee provisions of the Privacy Act of 1974 which permit fees only for reproduction. Requesters must reasonably describe the records sought.

(d) *Methods of Assessing Charges*— (1) *Charging Interest—Notice and Rate.* SBA shall begin assessing interest charges on an unpaid bill starting on the 31st day following the day on which the billing was sent. Interest will be at the rate prescribed in section 3717 of Title 31 U.S.C. and will accrue from the date of the billing.

(2) *Charges for Unsuccessful Search.* SBA may assess charges for time spent searching, even if the agency fails to locate the records or if records located are determined to be exempt from disclosure. In practice, if the agency estimates that search charges are likely to exceed $25, it shall notify the requester of the estimated amount of fees, unless the requester has indicated in advance his willingness to pay fees as high as those anticipated. Such a notice shall offer the requester the opportunity to confer with agency personnel with the object of reformulating the request to meet his or her needs at a lower cost.

(3) *Aggregating Requests.* Except for requests that are for a commercial use, SBA may not charge for the first two hours of search time or for the first 100 pages of reproduction. However, a requester may not file multiple requests at the same time, each seeking portions of a document or documents solely in order to avoid payment of fees. When SBA reasonably believes that a requester or, on rare occasions, a group of requesters acting in concert, is attempting to break a request down into a series of requests for the purpose of evading the assessment of fees, the agency may aggregate any such requests and charge accordingly.

(4) *Advance Payments.* SBA may not require a requester to make an advance payment, i.e., payment before work is commenced or continued on a request, unless:

(i) The agency estimates or determines that allowable charges that a requester may be required to pay are likely to exceed $250. Then, SBA will notify the requester of the likely cost and obtain satisfactory assurance of full payment where the requester has a history of prompt payment of FOIA fees, or require an advance payment of an amount up the full estimated charges in the case of requesters with no history of payment; or

(ii) A Requester has previously failed to pay a fee charged in a timely fashion (i.e., within 30 days of the date of the billing), the agency may require the requester to pay the full amount owed plus any applicable interest as provided above or demonstrate that he has, in fact, paid the fee, and to make an advance payment of the full amount of the estimated fee before the agency begins to process a new request or a pending request from that requester.

(iii) When SBA acts under paragraph (d) (1) or (2) of this section, the administrative time limits prescribed in subsection (a)(6) of the FOIA (i.e. 10 working days from receipt of initial requests and 20 working days from receipt of appeals from initial denial, plus permissible extensions of these time limits) will begin only after the agency has received fee payments described above.

(e) *Fee Waivers.* SBA may furnish documents under these regulations without any charge or at a reduced charge if disclosure of the information is in the public interest because it is likely to contribute to public understanding of the operations or activities of the Government and is not primarily in the commercial interest of the requester. All requests for a waiver or reduction of fees should be addressed to SBA's Freedom of Information Appellate Office, 2100 K Street, NW., Room 303, Washington, DC 20416. That office will

render all determinations on such requests.

Dated: May 7, 1987.

James Abdnor,

*Administrator.*

BILLING CODE 8025-01-M

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

### 14 CFR Parts 21 and 23

[Docket No. 17929; Notice No. 23-ACE-32]

### Special Conditions; Aviation Safety Release Corporation, Modified Univair Model 108-2 Airplane To Incorporate the Aviation Safety Release System Provisions

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of Proposed Amendment to Special Conditions No. 23-83-EA-11.

**SUMMARY:** This notice proposes to amend Special Conditions No. 23-83-EA-11 issued on May 19, 1978, for the Univair Model 108-2 airplane to permit the installation and approval of the Aviation Safety Release (ASR) system. The FAA has determined that the Special Conditions No. 23-83-EA-11 do not adequately set forth requirements to assure the necessary level of safety for the installation, operation, and maintenance of the ASR system. This amendment, as proposed, will assure the level of safety necessary for the supplemental type certification approval of the ASR system for the Univair Model 108-2 airplane.

**DATE:** Comments must be received on or before June 17, 1987.

**EFFECTIVE DATE:** Comments on this proposal may be mailed or delivered in duplicate to: Federal Aviation Administration, Office of the Regional Counsel, ACE-7, Attn: Rules Docket Clerk, Docket No. 17929, Room 1558, Federal Office Building, 601 East 12th Street, Kansas City, MO 64106. Comments may be inspected in the Rules Docket weekdays, except Federal holidays, between 7:30 a.m. and 4:00 p.m.

**FOR FURTHER INFORMATION CONTACT:** Ronald K. Rathgeber, Aerospace Engineer, Standards Office (ACE-110), Aircraft Certification Division, Central Region, Federal Aviation Administration, Room 1656, 601 East 12th Street, Kansas City, Missouri 64106; Telephone (816) 374-5688.

**SUPPLEMENTARY INFORMATION:**

#### Comments Invited

Interested persons are invited to participate in the making of these amended special conditions by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking further rulemaking action on this proposal. Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must include a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 17929." The postcard will be date stamped and returned to the commenter.

In addition to commenting on the proposed special conditions, the FAA requests that commenters respond to the questions listed below. A technical discussion is desired as part of each response. This discussion will assist the FAA in evaluating the merits of the special conditions.

1. Are there hazards posed to the general public from the ARS system as a result of possible falling objects?

2. Does an airplane with an ARS system pose a hazard to other aircraft as a result of possible uncontrolled flight?

3. Should special operating rules and/or pilot training be required for operators of an airplane with an ARS system?

4. Should special ground handling procedures be developed for an airplane with an ARS system?

The proposals contained in this notice may be changed in light of the comments received. All comments received will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested parties. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

#### Type Certification Basis

The type certification basis for the Univair Model 108-2 airplane is Civil Air Regulations (CAR) Part 3, effective December 15, 1946, as amended by Amendments 3-1 through 3-3. In addition, any changes to Special Conditions No. 23-83-EA-11 resulting from this proposed action will become a part of the type certification basis of the Univair Model 108-2 when the Aviation Safety Release (ASR) system is installed.

#### Background

On June 24, 1976, Dario J. Manfredi filed an application for a Supplemental Type Certificate (STC) for the Univair Model 108-2 airplane to install the Aviation Safety Release (ASR) system. The ASR system operates to jettison the wings and then parachute the rest of the airplane to the ground. The ASR system is intended for use as a last resort for the survival of the occupants and only in a situation where the airplane is disabled and there is no suitable landing site available.

The Univair Model 108-2 is a small, four-place, single engine, high wing airplane with a maximum certificated weight of 2,235 pounds.

The type design changes for the Univair Model 108-2 airplane to accommodate the ASR system contains unusual design features for an airplane type certificated under Part 3 of the CAR. In view of these unusual design features, the applicable airworthiness requirements do not contain adequate or appropriate safety standards and special conditions are necessary to provide a level of safety equal to that established by the regulations incorporated by reference in the type certificate.

On May 19, 1978, Special Conditions No. 23-83-EA-11 were issued. The applicant and other interested persons were given an opportunity to participate in the making of these special conditions and all comments received were fully considered. However, the applicant did not pursue supplemental type certification of the Univair Model 108-2 with the ASR system installed in accordance with § 21.17(b) of the Federal Aviation Regulations. Subsequent to the issuance of Special Conditions No. 23-83-EA-11, as a result of a similar project, the FAA further identified issues that need to be addressed in special conditions to assure an acceptable level of safety. Therefore, the FAA is proposing to require a showing of compliance with requirements addressing the inadvertent jettisoning of the parachute after it has been deployed to assure that after the ASR system has been deployed that inadvertent jettisoning of the parachute, thereby creating a catastrophic situation for the occupants, is extremely improbable. The use of rational methods for safety assessment of the ASR system does not mandate the use of a numerical analysis to determine an extremely improbable condition to achieve the required level of safety. The applicant may use a numerical analysis to assist in a showing of compliance, but

adequate data may not be available for preparing a stand-alone numerical analysis. Therefore, the applicant may use a rational analysis based on the identification of failure mode and the failure modes consequences to assure the required level of system reliability in conjunction with a numerical analysis.

To protect the occupants from serious head or upper torso injury due to flailing during parachute deployment or ground impact, the FAA is proposing that the applicant provide a seat belt and shoulder harness restraint system at each seat position which will protect the occupants for critical loads.

Because the ASR system incorporates the use of explosive charges as a part of the system design, the FAA considers it necessary that the explosive charges be properly labeled and that the applicant provide appropriate instructions for the installation, handling, and maintenance to assure that the necessary precautions are exercised with these potentially dangerous articles.

The FAA is proposing that the applicant establish a sequence for system operation to assure that the ASR system would not be inadvertently activated. Inadvertent operation subjects the occupants of the airplane to a situation that is intended to occur only under the most extreme circumstance when no other alternatives for a safe landing exists.

In addition, the FAA is proposing to require that the ASR system be capable of being disarmed after being armed at any time prior to final system activation. This requirement is considered necessary to assure that should the pilot decide to continue the flight that this alternative is made available after arming the system and that the final activation step is removed from a possible inadvertent operation when the decision to continue the flight has been made by the pilot.

The FAA is proposing to require that it be shown that the parachute can be jettisoned after impact under various weather conditions, including high winds. This requirement is considered necessary to assure that the occupants of the fuselage are not endangered after the successful completion of the descent by the inflated parachute dragging the fuselage through a hostile terrain. The FAA is proposing that the applicant develop Instructions for Continued Airworthiness for the ARS system which meet the requirements of § 23.1529 of the FAR. This requirement will assure that the unique maintenance inspection procedures for this system are detailed by the applicant.

Since the issuance of Special Conditions Number 23–83–EA–11, the FAA Small Airplane Certification Directorate has standardized on a new format for special conditions. In the public interest, the FAA is presenting the modified special conditions in this format.

**List of Subjects in 14 CFR Part 21**

Air transportation, Aircraft, Aviation safety, Safety.

The authority citation for these special conditions is as follows:

**Authority:** Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); 14 CFR 21.16 and 21.101; and 14 CFR 11.28 and 11.29(b).

**The Proposed Special Condition Amendment**

Accordingly, the Federal Aviation Administration proposes to amend Special Conditions Number 23–83–EA–11 by placing the special conditions originally with the heading of *"SPECIAL FLIGHT CONDITIONS"* under a new heading of *"1. Flight Test Demonstration"*; by adding new special conditions for occupant flailing protection under the heading of "2. *Occupant Restraint"*; by placing the special conditions originally with the heading of *"SPECIAL AIRFRAME CONDITIONS"* and the sub-heading of "1. *Protection"* under a new heading of "3. *System Protection"*; by placing the special conditions originally with the heading of *"SPECIAL AIRFRAME CONDITIONS"* and the sub-heading of "2. *Inspection Provisions"* under a new heading of "4. *System Inspection Provisions"* and adding new requirements for Instruction for Continued Airworthiness; by placing the special conditions originally with the heading of *"SPECIAL AIRFRAME CONDITIONS"* and the sub-heading of "3. *Parachute"* under a new heading of "5. *Parachute Performance"; by placing the special conditions originally with the heading of "SPECIAL PROPULSION CONDITIONS"* under a new heading of "6. *Fuel Containment"*; by placing the special conditions originally with the heading of *"SPECIAL SYSTEMS AND EQUIPMENT CONDITIONS"* and the sub-heading of "1. *General"* under a new heading of "7. *Lightning Strike Protection"*; by placing the special conditions originally with the heading of *"SPECIAL SYSTEMS AND EQUIPMENT CONDITIONS"* and the sub-heading of "2. *Function and Installation"* in paragraph (a) of a new section with the heading of "8. *System Functions and Operations"*; by adding new special conditions (b) through (f) to the new section with the heading "8. *System Functions and Operations"*; and by placing the special conditions originally with the heading of *"SPECIAL OPERATING LIMITATION CONDITION"* under a new heading of "9. *Operating Limitations"* and adding the following sentence: "This parachute must be considered an auxiliary parachute in the context of § 105.43(a)(2) of this chapter.

With these changes, the special conditions read as follows:

1. *Flight Test Demonstration.* The Aviation Safety Release (ASR) system must be demonstrated in flight to satisfactorily perform its intended function, for both normal and inadvertent operation, in the critical flight conditions.

2. *Occupant Restraint.* Each seat in the airplane must be equipped with a restraint system, consisting of a seat belt and shoulder harness, which will protect the occupant from head and upper torso injury during parachute deployment and ground impact at the critical conditions.

3. *System Protection.* All components of the ASR system must be designed or suitably protected, or both, against deterioration due to weathering, corrosion, abrasion, or other causes. In addition, adequate provisions must be made for ventilation and drainage of the parachute compartment (and associated structure) to ensure the sound condition of the parachute.

4. *System Inspection Provisions.*

(a) Instructions for Continued Airworthiness must be prepared for the ARS system which meet the requirements of § 23.1529 of this chapter.

(b) Adequate means must be provided to permit the close examination of the parachute and the ARS system components to ensure proper functioning, alignment, lubrication, and adjustment during all required inspections of the parachute and system components.

5. *Parachute Performance.* The fuselage parachute must meet the applicable requirements of TSO–C23 for the critical airplane weights. In addition, it must be shown that although the structure may be damaged, the fuselage impact with the ground will result in occupant environment that will give each occupant every reasonable chance of escaping serious injury.

6. *Fuel Containment.* Each line that carries flammable fluid and that will be separated during operation of the ASR system must incorporate means to prevent leakage of the fluid unless an acceptable fuel jettisoning system is installed.

BEST COPY AVAILABLE

7. *Lightning Strike Protection.* It must be shown by analysis and test, including test under simulated or actual lightning strike, that inadvertent or partial activation of the ASR system which can be catastrophic is extremely improbable.

8. *System Functions and Operations.*

(a) The ASR system must be shown to function reliably, to perform adequately the functions for which it is to be used, and to function properly when installed. It must be adequately labeled as to its identification, function, operational limitations, or any combination of these, whichever are applicable.

(b) It must be shown that the inadvertent jettisoning of the parachute after it has been deployed is extremely improbable.

(c) It must be shown that the explosive charges are properly labeled and its handling, installation, and maintenance procedures are safe.

(d) It must be shown that arming the system, activating the system, and parachute jettisoning can only be accomplished in a sequence which would make inadvertent pilot operation extremely improbable.

(e) It must be shown that the system, after arming, may be disarmed at any time prior to final system activation.

(f) It must be shown that after impact the parachute can be jettisoned under various adverse weather conditions, including high winds.

9. *Operating Limitations.* An operating limitation must be prescribed that requires the fuselage parachute to be repacked at intervals no greater than 120 days. This parachute must be considered an auxiliary parachute in the context of § 105.43(a)(2) of this chapter.

Issued in Kansas City, Missouri, on May 4, 1987.

Paul K. Bohr,

*Director, Central Region.*

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 87-NM-39-AD]

## Airworthiness Directives; Short Brothers Model SD3-30 Series Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of Proposed Rulemaking (NPRM).

**SUMMARY:** This notice proposes an airworthiness directive (AD), applicable to certain Short Brothers Model SD3-30 series airplanes, that would require the installation of an extended guard behind the overhead lockers to protect the elevator and rudder control system from interference caused by oversized luggage. This condition, if not corrected, could result in partial loss of control of the airplane.

**DATE:** Comments must be received no later than July 6, 1987.

**ADDRESSES:** Send comments on the proposal in duplicate to the Federal Aviation Administration, Northwest Mountain Region, Office of the Regional Counsel (Attention: ANM-103), Attention: Airworthiness Rules Docket No. 87-NM-39-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168. The applicable service information may be obtained from Shorts Aircraft, 2011 Crystal Drive, Suite 713, Arlington, Virginia 22022-3702. This information may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or the Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

**FOR FURTHER INFORMATION CONTACT:** Ms. Judy Golder, Standardization Branch, ANM-113; telephone (206) 431-1909. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

**SUPPLEMENTARY INFORMATION:**

### Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this Notice may be changed in light of the comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

### Availability of NPRM

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the FAA, Northwest Mountain Region, Office of the Regional Counsel (Attention: ANM-103), Attention: Airworthiness Rules Docket No. 87-NM-39-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

### *Discussion*

The United Kingdom Civil Aviation Authority (CAA) has, in accordance with existing provisions of a bilateral airworthiness agreement, notified the FAA of an incident where excessive friction was created in the elevator and rudder control system on a Shorts Model SD3-30 airplane when an oversized piece of luggage was forced into the overhead locker. This caused the back of the locker to deform and press against the adjacent controls. This condition, if not corrected, could result in partial loss of control of the airplane.

Short Brothers issued Service Bulletin SD330-27-31, dated March 1986, which describes a modification to provide additional guards for the control system. The CAA classified this service bulletin as mandatory.

This airplane model is manufactured in the United Kingdom and type certificated in the United States under the provisions of Section 21.29 of the Federal Aviation Regulations and the applicable bilateral airworthiness agreement.

Since this condition is likely to exist or develop on airplanes of this model registered in the United States, an AD is proposed that would require the installation of an extended guard behind the overhead lockers in accordance with the previously mentioned service bulletin.

It is estimated that 52 airplanes of U.S. registry would be affected by this AD, that it would take approximately 16 manhours per airplane to accomplish the required actions, and that the average labor cost would be $40 per manhour. Based on these figures, the total cost impact of this AD to U.S. operators is estimated to be $33,280.

For the reasons discussed above, the FAA has determined that this document: (1) Involves a proposed regulation which is not major under Executive Order 12291 and (2) is not a significant rule pursuant to the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and it is further certified under the criteria of the Regulatory Flexibility Act that this proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities because of the minimal cost of compliance per airplane ($640). A copy of a draft regulatory evaluation prepared for this action is contained in the regulatory docket.

**List of Subjects in 14 CFR Part 39**

Aviation safety, Aircraft.

**Proposed Amendment**

**PART 39—[AMENDED]**

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations as follows:

1. The authority citation for Part 39 continues to read as follows:

**Authority:** 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449 January 12, 1983); and 14 CFR 11.89.

**§ 39.13 [Amended]**

2. By adding the following new airworthiness directive:

**Short Brothers PLC:** Applies to Model SD3-30 series airplanes, serial numbers SH3002 through SH3099, SH3102, and SH3105, certificated in any category. Compliance required as indicated, unless previously accomplished.

To prevent interference with the elevator and rudder control system, accomplish the following:

A. Within 180 days after the effective date of this AD, install an extended guard behind the overhead lockers in accordance with the Accomplishment Instructions of Shorts Service Bulletin No. SD330-27-31, dated March 1986.

B. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Standardization Branch, ANM-113, FAA, Northwest Mountain Region.

C. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of the modification required by this AD.

All persons affected by this directive who have not already received the appropriate service information from the manufacturer may obtain copies upon request to Shorts Aircraft, 2011 Crystal Drive, Suite 713, Arlington, Virginia 22202-3702. This information may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or at the Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

Issued in Seattle, Washington, on May 7, 1987.

Frederick M. Isaac,

*Acting Director, Northwest Mountain Region.*

BILLING CODE 4910-13-M

**14 CFR Part 71**

**[Airspace Docket No. 87-AEA-6]**

**Proposed Alteration of Control Zone, New York LaGuardia Airport, NY**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This notice proposed to alter the published description of the New York LaGuardia Airport Control Zone by excluding that airspace within one mile of the center of the Pan Am Metroport. The intended effect of this action is to provide ingress/egress for aircraft operating under visual weather conditions in controlled airspace at Pan Am Metroport.

**DATE:** Comments must be received on or before July 2, 1987.

**ADDRESSES:** Send comments on the proposal in triplicate to: Glenn A. Bales, Manager, Airspace Planning Branch, AEA-530, Federal Aviation Administration, Docket 87-AEA-6, Fitzgerald Federal Building (formerly Federal Building), John F. Kennedy International Airport, Jamaica, New York 11430.

The official dockets may be examined in the Office of Regional Counsel, Federal Aviation Administration, Fitzgerald Federal Building (formerly Federal Building), John F. Kennedy International Airport, Jamaica, New York 11430.

An informal docket may also be examined during normal business hours in the Airspace Planning Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Fitzgerald Federal Building, J.F.K. International Airport, Jamaica, New York 11430; Telephone: (718) 917-1228.

**FOR FURTHER INFORMATION CONTACT:** Glenn A. Bales, Airspace Planning Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Fitzgerald Building, J.F.K. International Airport, Jamaica, New York 11430; Telephone: (718) 917-1228.

**SUPPLEMENTARY INFORMATION:**

**Comments Invited**

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 87-AEA-6." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in the notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

**Availability of NPRMs**

Any person may obtain a copy of the Notice of Proposed Rulemaking (NPRM) by submitting a request to the Office of Regional Counsel, AEA-7, Federal Aviation Administration, Fitzgerald Federal Building (formerly Federal Building), John F. Kennedy International Airport, Jamaica, New York 11430. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

**The Proposal**

The FAA is considering an amendment to § 71.171 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the published description of the New York LaGuardia Airport Control Zone by excluding that airspace within one mile of the center of the Pan Am Metroport. The intended effect of this action is to provide ingress/egress for aircraft operating under visual weather conditions in controlled airspace at Pan Am Metroport. Section 71.171 of Part 71 of the Federal Aviation Regulations was republished in Handbook 74606 dated January 2, 1986.

The FAA has determined that this amendment only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "major rule" under Executive Order 12291; (2) is not a

"significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**List of Subjects in 14 CFR Part 71**

Aviation safety, Control zones.

**The Proposed Amendment**

**PART 71—[AMENDED]**

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

1. The authority citation for Part 71 continues to read as follows:

**Authority:** 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

**§ 71.171 [Amended]**

2. Section 71.171 is amended as follows:

**New York LaGuardia, NY [Amended]**

By adding the words "Excluding that portion within a 1-mile radius of Pan Am Metroport (Lat. 40°45'36" N., Long. 73°57'26" W.)".

Issued in Jamaica, New York, on May 8, 1987.

**DEPARTMENT OF ENERGY**

**Federal Energy Regulatory Commission**

**18 CFR Part 271**

**[Docket No. RM79-76-175 (Colorado—34)]**

**High-Cost Gas Produced From Tight Formations; Order Withdrawing Proposed Rulemaking and Termination Docket**

Issued: May 12, 1987.

**AGENCY:** Federal Energy Regulatory Commission, DOE.

**ACTION:** Order withdrawing proposed rulemaking and terminating docket.

**SUMMARY:** Under section 107(c)(5) of the Natural Gas Policy Act of 1978, the Federal Energy Regulatory Commission designates certain types of natural gas a high-cost gas. High-cost gas is produced under conditions which present extraordinary risks or costs and once designated may receive incentive price. Under section 107(c)(5), the Commission issued a rule designating natural gas produced from tight formations as high-cost gas. Jurisdictional agencies may submit recommendations of areas for designation as tight formations. Here, the Commission received a request from the Colorado Oil and Gas Commission to withdraw a recommendation previously submitted to the Commission that the Sussex Formation underlying certain acreage in Boulder and Weld Counties, Colorado (Colorado—34) be designated a tight formation under § 271.703(d). The Commission grants the request for withdrawal of the recommendation, withdraws its proposed rulemaking and terminates this docket.

**DATE:** This order is effective June 11, 1987.

**FOR FURTHER INFORMATION CONTACT:** Edward G. Gingold, (202) 357-8114 or Victor H. Zabel, (202) 357-8737.

**Background**

Before Commissioners: Martha O. Hesse, Chairman; Anthony G. Sousa, Charles G. Stalon, Charles A. Trabandt and C.M. Naeve.

Section 271.703[1] of the Federal Energy Regulatory Commission's (Commission) regulations establishes procedures and substantive guidelines whereby a jurisdictional agency may submit recommendations to the Commission that a particular formation or portion thereof be designated as a tight formation. Section 271.703(c)(2)(i) establishes the guidelines which a formation must meet to be designated as a tight formation.

On January 7, 1983, the Commission received from the State of Colorado Oil and Gas Conservation Commission (Colorado) a recommendation that the Sussex Formation in portions of Boulder and Weld Counties, Colorado, be designated as a tight formation. Pursuant to § 271.703(c)(4), a Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation (OPPR) was issued on October 25, 1983, to determine whether the Colorado recommendation should be adopted.[2] No comments were received.

[1] 18 CFR 271.703 (1986).

[2] 48 FR 50088, October 31, 1983.

**Discussion**

As authorized by § 271.703(c)(3)(vii), the Commission's staff requested by letter dated January 11, 1985, that Colorado submit additional information to supplement its recommendations. The Commission's staff required further data in order to determine whether the average *in situ* gas permeabilities were expected to be 0.1 millidarcy or less, in accordance with § 271.703(c)(2)(i)(A). The Commission's staff also requested well information since portions of the recommended area subject to infill spacing orders appear to be substantially developed and may meet the guidelines of the infill exclusion established in § 271.703(c)(2)(i)(D). On December 23, 1985, the Commission staff sent a letter to Colorado resubmitting its data request.

In response to the Commission staff request, the petitioners for the tight formation designation, Coral Gulf Exploration Corporation, Vessels Oil and Gas Company, and Machii-Ross Petroleum Company, indicated to Colorado that they wished to withdraw their applications for tight formation designation. By letter dated February 3, 1987, Colorado transmitted the petitioners' request for withdrawal to the Commission and indicated its concurrence. The Commission is treating the Colorado concurrence as a request for withdrawal of Colorado's recommendation. This action is without prejudice to resubmittal of the recommendation if and at such time as additional information required by the Commission's regulations becomes available.

*The Commission orders:*

(A) The request by the Colorado Oil and Gas Commission that the subject recommendation for designation of a tight formation be withdrawn is granted.

(B) The Notice of Proposed Rulemaking in this docket be withdrawn.

(C) Docket No. RM79-76-175 is hereby terminated without prejudice to any subsequent recommendation that Colorado may resubmit that the Sussex Formation be designated as a tight formation under § 271.703.

By the Commission.

**Kenneth F. Plumb,**

*Secretary.*

[FR Doc. 87-11236 Filed 5-15-87; 8:45 am]

BILLING CODE 6717-01-M

18 CFR Part 271

[Docket No. RM79-76-174 (Colorado—33)]

## High-Cost Gas Produced From Tight Formations; Order Withdrawing Proposed Rulemaking and Terminating Docket

Issued: May 12, 1987.

**AGENCY:** Federal Energy Regulatory Commission, DOE.

**ACTION:** Order withdrawing proposed rulemaking and terminating docket.

**SUMMARY:** Under section 107(c)(5) of the Natural Gas Policy Act of 1978, the Federal Energy Regulatory Commission designates certain types of natural gas a high-cost gas. High-cost gas is produced under conditions which present extraordinary risks or costs and once designated may receive incentive price. Under section 107(c)(5), the Commission issued a rule designating natural gas produced from tight formations as high-cost gas. Jurisdictional agencies may submit recommendations of areas for designation as tight formations. Here, the Commission received a request from the Colorado Oil and Gas Commission to withdraw a recommendation previously submitted to the Commission that the Shannon Formation underlying certain acreage in Boulder and Weld Counties, Colorado (Colorado—33) be designated a tight formation under § 271.703(d). The Commission grants the request for withdrawal of the recommendation, withdraws its proposed rulemaking and terminates this docket.

**DATE:** This order is effective June 11, 1987.

**FOR FURTHER INFORMATION CONTACT:** Edward G. Gingold, (202) 357-9114 or Victor H. Zabel, (202) 357-8737.

### Background

Before Commissioners: Martha O. Hesse, Chairman; Anthony G. Sousa, Charles G. Stalon, Charles A. Trabandt and C.M. Naeve.

Section 271.703 [1] of the Federal Energy Regulatory Commission's (Commission) regulations establishes procedures and substantive guidelines whereby a jurisdictional agency may submit recommendations to the Commission that a particular formation or portion thereof be designated as a tight formation. Section 271.703(c)(2)(i) establishes the guidelines which a formation must meet to be designated as a tight formation.

On January 10, 1983, the Commission received from the State of Colorado Oil and Gas Conservation Commission (Colorado) a recommendation that the Shannon Formation in portions of Boulder and Weld Counties, Colorado, be designated as a tight formation. Pursuant to § 271.703(c)(4), a Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation (OPPR) was issued on October 25, 1983, to determine whether the Colorado recommendation should be adopted.[2] No comments were received.

### Discussion

As authorized by § 271.703(c)(3)(vii), the Commission's staff requested by letter dated January 11, 1985, that Colorado submit additional information to supplement its recommendations. The Commission's staff required further data in order to determine whether the average *in situ* gas permeabilities were expected to be 0.1 millidarcy or less, in accordance with § 271.703(c)(2)(i)(A). The Commission's staff also requested well information since portions of the recommended area subject to infill spacing orders appear to be substantially developed and may meet the guidelines of the infill exclusion established in § 271.703(c)(2)(i)(D). On December 23, 1985, the Commission staff sent a letter to Colorado resubmitting its data request.

In response to the Commission staff request, the petitioners for the tight formation designation, Coral Gulf Exploration Corporation, Vessels Oil and Gas Company, and Machii-Ross Petroleum Company, indicated to Colorado that they wished to withdraw their applications for tight formation designation. By letter dated February 3, 1987, Colorado transmitted the petitioners' request for withdrawal to the Commission and indicated its concurrence. The Commission is treating the Colorado concurrence as a request for withdrawal of Colorado's recommendation. This action is without prejudice to resubmittal of the recommendation if and at such time as additional information required by the Commission's regulations becomes available.

*The Commission orders:*

(A) The request by the Colorado Oil and Gas Commission that the subject recommendation for designation of a tight formation be withdrawn is granted.

(B) The Notice of Proposed Rulemaking in this docket be withdrawn.

(C) Docket No. RM79-76-174 is hereby terminated without prejudice to any subsequent recommendation that Colorado may resubmit that the Shannon Formation be designated as a tight formation under § 271.703.

By the Commission.

Kenneth F. Plumb,

*Secretary.*

## DEPARTMENT OF THE TREASURY

## Internal Revenue Service

26 CFR Part 1

[LR-295-84]

## Diversification Requirements for Variable Annuity, Endowment, and Life Insurance Contracts; Public Hearing on Proposed Regulations

**AGENCY:** Internal Revenue Service, Treasury.

**ACTION:** Notice of public hearing on proposed regulations.

**SUMMARY:** This document provides notice of a public hearing on proposed regulations relating to the diversification requirements for variable annuity, endowment, and life insurance contracts.

**DATES:** The public hearing will be held on Wednesday, July 1, 1987, beginning at 10:00 a.m. Outlines of oral comments must be delivered or mailed by Wednesday, June 17, 1987.

**ADDRESS:** The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, DC. The requests to speak and outlines of oral comments should be submitted to the Commissioner of Internal Revenue, ATTN: CC:LR:T (LR-295-84), Washington, DC 20224.

**FOR FURTHER INFORMATION CONTACT:** Angela Wilburn of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, DC. 20224, telephone 202-566-3935 (not a toll free call).

**SUPPLEMENTARY INFORMATION:** The subject of the public hearing is proposed regulations under section 817(h) of the Internal Revenue Code of 1986. The proposed regulations appeared in the Federal Register for Monday, September 15, 1986 (51 FR 32664).

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of

proposed rulemaking and who also desire to present oral comments at the hearing on the proposed regulations should submit, not later than Wednesday, June 17, 1987, an outline of oral comments to be presented at the hearing and the time they wish to devote to each subject.

Each speaker will be limited to 10 minutes for an oral presentation exclusive of the time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

By direction of the Commissioner of Internal Revenue.

**CENTRAL INTELLIGENCE AGENCY**

**32 CFR Part 1900**

## Public Access to Documents and Records and Declassification Requests

**AGENCY:** Central Intelligence Agency.

**ACTION:** Proposed rule.

**SUMMARY:** The Central Intelligence Agency is proposing to amend 32 CFR Part 1900, title—Public Access to Documents and Records And Declassification Requests, which implements the Freedom of Information Act, as amended (5 U.S.C. 552) within the Central Intelligence Agency. The Agency proposes to amend its FOIA fee schedule in compliance with pertinent section of the Freedom of Information Reform Act (FOIRA) of 1986, (Pub. L. 99-570). The FOIRA requires that all agencies conform to a uniform schedule of fees in conformance with the Office of Management and Budget (OMB). The Agency's proposed fee schedule is based on the OMB guidelines issued March 27, 1987 (52 FR 10012) and certain Justice Department guidance.

**DATE:** Comments must be submitted on or before June 2, 1987.

**ADDRESS:** Send written comments to: Lee S. Strickland, Information and Privacy Coordinator, Central Intelligence Agency, Washington D.C. 20505 Telephone: (703) 351-2083.

**FOR FURTHER INFORMATION CONTACT:** Lee S. Strickland, Information and Privacy Coordinator, Central Intelligence Agency, Washington DC 20505, Telephone: (703) 335-2083.

**SUPPLEMENTARY INFORMATION:** The Central Intelligence Agency's policies and procedures for handling requests for Agency records under the Freedom of Information Act (FOIA) appear in 32 CFR Part 1900. The Agency proposes to amend those portions of the regulations concerned with fees charged for records services in response to FOIA requests, to be consistent with the provisions of the FOIRA. To accomplish the purposes of the amendment it will be necessary to modify § 1900.3 (Definitions) and § 1900.25 (Fees for Records Services). The proposed fee schedule reflects recommended adjustments for agency-wide charges that are permitted by law and the remaining charges are based on the government-wide schedule. The proposed increases in fee schedule charges more accurately reflect current, direct costs.

Additionally, FOIRA specifies two basic requirements to be met for qualification for a waiver or reduction of chargeable fees. This proposed amendment sets forth the factors which will be used in making fee waiver determinations, based on the Justice Department's April 2, 1987 guidance.

The FOIRA also requires that we publish our regulations specifying a schedule of fees to be charged for processing FOIA requests, after public notice and opportunity for comment. Because FOIRA requires that our fees conform to guidelines promulgated by the Director, Office of Management and Budget, we have waited OMB's issuance of final guidelines on March 27, 1987 (52 FR 10012) before beginning this proceeding. The Agency believes that a 15 day comment period on the fee schedule is appropriate because the

Agency's proposed rule follows the OMB guidelines on uniform fee schedule on which the public had a opportunity to comment, and because of the short deadline in FOIRA for publishing these regulations.

Set forth below are specific policies and procedures for incorporation into the original regulation which will allow efficient processing of requests consistent with the FOIA, as amended. The Agency will issue a final rule on the fee schedule pursuant to FOIRA as soon as is possible. Between May 26 and the date that the revised fees schedule becomes effective, the Agency intends to exercise its discretion to waive or reduce fees, upon request, and otherwise conform, as nearly as practicable, to the standards set forth by the FOIRA.

This proposed rule is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in:

(1) An annual effect on the economy of $100 million or more:

(2) A major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment productivity, innovation or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This rule does not contain a collection of information for purposes of the Paperwork Reduction Act.

**List of Subjects in 32 CFR Part 1900**

Freedom of Information.

For reasons set forth in the preamble, 32 CFR Part 1900 is amended as follows:

**PART 1900—[AMENDED]**

1. The authority for Part 1900 is revised to read as follows:

**Authority:** Sec. 102 of the National Security Act of 1947, as amended (50 U.S.C. 403), the Central Intelligence Act of 1949 (50 U.S.C. 403a *et seq.*) E.O. 12356 (3 CFR Apr. 2, 1982) and the Freedom of Information Act as amended (5 U.S.C. 552).

2. Sections 1900.3 paragraphs (j) through (q) are added to read as follows:

**§ 1900.3 Definitions.**

* * * * *

(j) "Direct costs" means those expenditures which an agency actually incurs in searching for and duplicating (and in the case of commercial requesters, reviewing) documents to respond to a FOIA request. Direct costs include, for example, the current salary of the employee performing work (the basic rate of pay for the employee plus 16 percent of that rate to cover benefits) and the cost of operating duplicating machinery. Not included in direct costs are overhead expenses such as costs of space and heating or lighting the facility in which the records are stored.

(k) "Search" includes all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material within documents. Efforts will be made to ensure that search for material is done in the most efficient and least expensive manner so as to minimize costs for both the Agency and the requester. "Search" for the purpose of determining whether a document is responsive is distinguishable from "review" where the objective is to determine whether any of the responsive material is exempt from disclosure. Searches may be done manually or by computer using existing programming.

(l) "Duplication" refers to the process of making a copy of a document necessary to respond to an FOIA request. Such copies can take the form of paper copy, microform, audio-visual materials, or machine readable documentation (e.g. magnetic tape or disk) among others. The copy provided must be in a form that is reasonably useable by requesters.

(m) "Review" refers to the process of examining documents located in response to a request that is for a commercial use (see paragraph (n) of this section) to determine whether any portion of any document located is permitted to be withheld. It also includes processing any documents for disclosure, e.g. doing all that is necessary to remove or obliterate any material which is exempt from disclosure and otherwise preparing them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(n) "Commercial use request" refers to a request in which the disclosure sought is primarily in the commercial interest of the requester. It is a request from or on behalf of one who seeks information primarily for the use or purpose that furthers the commercial, trade, or profit interests of the requester or person on whose behalf the request is made. The requester is expected to provide information as to the use to which the requester intends to put the requested information. Moreover, where there is reasonable cause to doubt the use to which the requester will put the information sought, or where that use is not clear from the request itself, the agency will seek additional clarification before assigning the request to a specific catetory.

(o) "Educational institution" refers to a preschool, public or private elementary or secondary school, an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education and an institution of vocational education which operates a program or programs of scholarly research. The institution should be located in the United States. The criteria to be met to be included in this category, for the purposes of fee waivers, are not satisfied simply by showing that the request is for a library or other records repository. Such requests, like those of other requesters, will be analyzed to identify the particular person who will actually use the requested information in a scholarly or other analytic work and then disseminate it to the general public.

(p) "Non-commercial scientific institution" refers to an institution in the United States that is not operated on a "commercial" basis as that term is referenced in paragraph (n) of this section and which is operated solely for the purpose of conducting natural life or physical sciences research the results of which are not intended to promote any particular product or industry.

(q) "Representatives of the news media" refers to any person actively gathering news for an United States entity that is organized and operated to publish or broadcast news to the United States public. The term "news" means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large and publishers of periodicals (but only in those instances when they qualify as disseminators of "news") who make their products available for purchase or subscription by the general public. These examples are not intended to be all-inclusive. Moreover, as traditional methods of news delivery evolve (e.g. electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. In the case of "freelance" journalists, they may be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even though not actually employed by it. A publication contract would be the clearest proof, but the requester's past publication record may also be relevant evidence of the requester's status.

3. Section 1900.25 is revised to read as follows:

**§ 1900.25 Fees for records services.**

(a) Search and duplication fees will be charged in accordance with the schedule set forth in paragraph (c) of this section for services rendered in responding to requests for Agency records under this part. To the extent possible, the most efficient and least costly methods will be used to comply with requests for documents made under the FOIA. Records will be furnished without charge or at a reduced rate whenever the Coordinator determines that a waiver or reduction is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the United States government and is not primarily in the commercial interest of the requester. The Coordinator shall consider the following factors in making his determination:

(1) Whether the subject of the requested records concerns the operations or activities of the United States government; and, if so,

(2) Whether disclosure of the requested information is likely to contribute to an understanding of United States government operations or activities; and, it so,

(3) Whether disclosure of the requested information will contribute to public understanding of United States government operations or activities; and if so,

(4) Whether disclosure of the requested information is likely to contribute significantly to public understanding of United States government operations and activities; and,

(5) Whether the requester has a commercial interest that would be furthered by the requested disclosure; and if so,

(6) Whether the magnitude of the identified commercial interest of the requester is sufficiently large, in comparison with the commercial interest of the requester.

The Coordinator may also waive or reduce the charge whenever he determines that the interest of the government would be served thereby. Fees shall not be charged where they would amount, in the aggregate, for a request or for a series of related requests, to less than $600. Denials of requests for fee waiver may be appealed by writing to the Chairman of the Information Review Committee, via the Coordinator.

(b) In order to protect the requester and the Agency from large, unexpected fees, when the anticipated charges will amount to more than $2500, the processing of the request shall be suspended until the requester indicates his willingness to pay. The requester shall be notified and asked for this commitment to pay all reasonable search and duplication (and when appropriate, review) fees. At his option, the requester may indicate in advance a dollar limitation to the fees he is prepared to pay. In such an event, the Coordinator, shall initiate a search of the system or systems of records deemed most likely to produce relevant records, instructing the system managers to discontinue the search as soon as the stipulated amount has been expended. Where an advance limit has not been stipulated, the Coordinator may, at his discretion or at the behest of the requester, compile an estimate of the search fees likely to be incurred in processing a request, or of such portion thereof as can readily be estimated. The requester shall be promptly notified of the amount and be asked to approve its expenditure. In those cases where the Coordinator estimates that the fees will exceed $250.00 and the requestor has no history of payment, an advance deposit of up to 100 percent of the estimated fees will be required. In all cases where there is reasonable evidence that the requestor may possibly fail to pay the fees which would be accrued by processing his request, an advance deposit of 100 percent of the estimated fees will be required. The notice or request for an advance deposit shall extend an offer to the requester whereby he is afforded an opportunity to revise the request in a manner calculated to reduce the fees. Dispatch of such a notice shall suspend the running of the period for response by the Agency until a reply is received from the requester. Except for requests that are for commercial use, the Agency may not charge for the first two hours of search time or for the first 100 pages of reproduction. However, a requester may not file multiple requests at the same time, which are merely discrete subdivisions of the information he actually seeks, for the purpose of artificially diminishing the individual requests solely to avoid payment of fees. When the Coordinator reasonably believes that a requester or a group of requesters acting in concert, is attempting to break a request down into a series of smaller requests solely for the purpose of evading the assessment of fees, the Coordinator may aggregate any such requests and charge accordingly.

(c) The schedule of fees for services performed in responding to requestes for CIA records is established as follows:

(1) For each one quarter hour, or fraction thereof, spent by non-professional personnel in searching for a record, $2.50;

(2) For each one quarter hour, or fraction thereof, spent by a professional personnel in searching for a record, $4.50;

(3) For each on-line computer search, $11.00;

(4) For each off-line (batch) computer search of Central Reference Files, $27.00;

(5) For all other off-line computer searches of Agency files, $8.00 per minute of Central Processing Unit (CPU) time;

(6) For copies of paper documents in sizes not larger than 8½×14, $0.10 per copy of each page;

(7) For duplication of non-paper media (film, magnetic tape disc etc.) for any document that cannot be reproduced on a standard office copier, actual direct cost; and

(8) For extra copies of reports, maps, reference aids, and other Agency publications, actual costs.

(d) Inasmuch as the Agency's systems of records are highly decentralized, several computer searches may be required to process a request, depending upon its scope. The computer search costs given in paragraph (c) of this section, do not include whatever professional/clerical search time is needed to determine whether the records located are in fact responsive to the request.

(e) Search fees are assessable even when no records pertinent to the requests, or no releaseable records are found, provided the requester has been advised of this fact and he has, that notwithstanding, agreed to incur the costs of search.

(f) For requests which have accrued search and duplication fees in excess of $250.00, or where there is reasonable evidence that the requester may possibly fail to pay the accrued fees, then, at the discretion of the Coordinator, the requester may be required to pay the accrued search and duplication fees prior to the actual delivery of the requested records; otherwise, the requester shall be billed for such fees at the time the records are provided. Payment shall be remitted by check or money order, made payable to the Treasurer of the United States, and shall be sent to the Coordinator. No appeals or additional requests shall be accepted for processing until the requester has paid all outstanding charges for services rendered under this part.

(g) With the exception of requesters seeking documents for a commercial

use, section 4(A)(iv) of the Freedom of Information Act, as amended, requires agencies to provide the first 100 pages of duplication and the first two hours of search time without charge. Moreover, this section prohibits agencies from charging fees to any requester, including commercial use requesters, if the cost of collecting a fee would be equal to or greater than the fee itself. These provisions work together, so that except for commercial use requesters, the Agency will not begin to assess fees until after providing the specified free search and reproduction. If the amount of the chargeable fees is equal to or less than the cost of the Agency of billing the requester and processing the fee collected, no charges would result. The elements to be considered in determining the "cost of collecting a fee" are the administrative costs to the Agency of receiving and recording a requester's remittance, and processing the fee for deposit in the Treasury Department's special account. The per-transaction cost to the Treasury to handle such remittances will not be considered in the Agency's determination. For purposes of these restrictions on assessment of fees, the word "pages" refers to paper copies of a standard Agency size which will normally be "8½×11" or "11×14." Thus, requesters would not be entitled to 100 microfiche or 100 computer disks, for example. A microfiche containing the equivalent of 100 pages or 100 pages of computer printout, however, might meet the terms of the restriction. Similarly, the term "search time" in this context has as its basis, manual search. To apply this term to searches made by computer, the Agency will determine the hourly cost of operating the central processing unit and the operator's hourly salary plus 16 percent. When the cost of the search (including operator time and the cost of operating the computer to process a request) equals the equivalent dollar amount of two hours of the salary of the person performing the search, i.e., the operator, the Agency will begin assessing charges for computer search.

(h) There are four categories of FOIA requesters: commercial use requesters; educational and non-commercial scientific institution; representatives of the news media; and all other requesters. The Act prescribes specific levels of fees for each of these categories:

(1) *"Commercial Use" requesters.* When the Agency receives a request for documents for commercial use, it will assess charges which recover the full direct costs of searching for, reviewing for release, and duplicating the records sought. Requesters must reasonably describe the records sought Commercial use requesters are not entitled to two hours of free search time nor 100 free pages of reproduction of documents. The Agency will recover the cost of searching for and reviewing records even if there is ultimately no disclosure of records.

(2) *"Educational and Non-commercial Scientific Institution" Requesters.* The Agency will provide documents to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, requesters must show that the request is being made as authorized by and under the auspices of a qualifying United States institution and that the records are not sought for commercial use, but are sought in furtherance of scholarly (if the request is from an educational institution) or scientific (if the request is from a non-commercial scientific institution) research. Requesters must reasonably describe the records sought.

(3) *Requesters who are "Representatives of the News Media".* The Agency shall provide documents to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, a requester must meet the criteria in § 1900.3(g), and his or her request must not be made for a commercial use. In reference to this class of requester, a request for records supporting the news dissemination function of the requester shall not be considered to be a request that is for commercial use. Requesters must reasonably describe the records sought.

(4) *All other requesters.* FOIA requesters who do not fit in any of the categories above will be charged fees which recover the full reasonable direct cost of searching for and reproducing records that are responsive to the request, except that the first 100 pages of reproduction and the first two hours of search time shall be furnished without charge. Moreover, requesters asking for records about themselves will continue to be treated under the CIA fee provisions of the privacy Act of 1974 which permit access to records without charge.

Dated: May 11, 1987.

Approved:

William F. Donnelly,

*Deputy Director for Administration.*

BILLING CODE 6315-02-M

## DEPARTMENT OF TRANSPORTATION

### Coast Guard

### 33 CFR Part 117

[CGD7 87-04]

### Drawbridge Operation Regulations; Taylor Creek, Florida

**AGENCY:** Coast Guard, DOT.

**ACTION:** Proposed rule.

**SUMMARY:** At the request of the Florida Department of Transportation (FDOT), the Coast Guard is considering a change to the regulations governing the Taylor Creek Bridge, U.S. 441, at Okeechobee, Florida, by requiring that requests for opening be made further in advance than at present. This proposal is being made because of the limited number of requests for opening of the draw. This action should relieve the bridge owner of the burden of having a person constantly available on short notice to open the draw, yet still provide for the reasonable needs of navigation.

**DATE:** Comments must be received on or before July 2, 1987.

**ADDRESSES:** Comments should be mailed to Commander (oan), Seventh Coast Guard district, 51 SW. 1st Avenue, Miami, Florida 33130-1608. The comments and other materials referenced in this notice will be available for inspection and copying at 51 SW. 1st Avenue, Room 816, Miami, Florida. Normal office hours are from 7:30 a.m. Monday through Friday, except holidays. Comments also may be hand-delivered to this address.

**FOR FURTHER INFORMATION CONTACT:** Mr. Wayne Lee, Chief, Bridge Section, Seventh Coast Guard District, telephone (305) 536-4103.

**SUPPLEMENTARY INFORMATION:** Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data, or arguments. Persons submitting comments should include their names and addresses, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal.

The Commander, Seventh Coast Guard District, will evaluate all communications received and determine a course of final action on this proposal. The proposed regulations may be changed in light of comments received.

### Drafting Information

The drafters of this notice are Mr.

Walt Paskowsky, Bridge Administration Specialist, project officer, and Lieutenant Commander S.T. Fuger, Jr., project attorney.

**Discussion of Proposed Regulations**

The Taylor Creek drawbridge presently opens on signal if requests for opening are made at least two hours in advance. Records show the bridge was opened only 50 times between March 1985 and February 1986. Based on the infrequent operation of this bridge, providing requests 48-hours in advance should not be an unreasonable burden on navigation and will allow FDOT ample time to arrange for openings.

**Economic Assessment and Certification**

These proposed regulations are considered to be non-major under Excecutive Order 12291 of Federal Regulation and nonsignificant under the Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. We conclude this because so few vessels would be affected. Since the economic impact of this proposal is expected to be minimal, the Coast Guard certifies that, if adopted, it will not have a significant economic impact on a substantial number of small entites.

**List of Subjects in 33 CFR Part 117**

Bridges.

**Proposed Regulations**

In consideration of the foregoing, the Coast Guard proposes to amend Part 117 of Title 33, Code of Federal Regulations, as follows:

**PART 117—DRAWBRIDGE OPERATION REGULATIONS**

1. The authority citation for Part 117 continues to read as follows:

**Authority:** 33 U.S.C. 499; 49 CFR 1.46 and 33 CFR 1.05–1(g).

2. Section 117.335 is revised to read as follows:

**§ 117.335 Taylor Creek.**

The draw of the US 441 bridge, mile 0.3 at Okeechobee, shall open on signal if at least 48 hours advance notice is given.

Dated: May 12, 1987.

**M.J. O'Brien,**

*Captian, U.S. Coast Guard, Acting Commander, Seventh Coast Guard District.*

[FR Doc. 87–11279 Filed 5–15–87; 8:45 am]

BILLING CODE 4910-14-M

**ENVIRONMENTAL PROTECTION AGENCY**

**40 CFR Part 261**

**[SW–FRL–3199–2]**

**Hazardous Waste Management System; Identification and Listing of Hazardous Waste**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Supplemental Notice of Proposed Rulemaking.

**SUMMARY:** On June 13, 1986, the Agency proposed to amend its hazardous waste identification regulations under Subtitle C of the Resource Conservation and Recovery Act (RCRA) by modifying the existing toxicity characteristic. This modified characteristic would replace the existing EP toxicity characteristic and be used by all generators in determining whether their solid wastes are toxic hazardous wastes. Among other comments, a large number of comments were received which questioned the validity of applying the proposed toxicity characteristic to wastes, including wastewaters, likely to be managed in surface impoundments. In response to comments, EPA is considering, in addition to the option of promulgating the Toxicity Characteristic as proposed, a number of modifications to the proposal and is requesting comments with supporting documentation on these options.

**DATE:** EPA will accept public comments on this notice until July 2, 1987. Comments postmarked after the close of the comment period will be stamped "late".

Any person may request a hearing on this notice by filing a request with Sylvia Lowrance, whose address appears below by May 28, 1987.

**ADDRESSES:** One original and three copies of all comments, identified by the docket number F–87–TCN–FFFFF should be sent to the following address: EPA RCRA Docket [S–212], U.S. Environmental Protection Agency [WH–562], 401 M Street, SW., Washington, DC 20460. The EPA RCRA docket is located in the sub-basement area at the above address, and is open from 9:30 a.m. to 3:30 p.m., Monday through Friday, excluding Federal holidays. To review docket materials, the public must make an appointment by calling Mia Zmud at 475–9327. A maximum of 50 pages of material may be copied from any one regulatory docket at no cost. Additional copies cost $.20/page.

**FOR FURTHER INFORMATION CONTACT:** The RCRA Hotline, call toll-free at (800) 424–9346 or (202) 382–3000. For technical information, contact Doreen Sterling, Office of Solid Waste (WH–562B), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 475–8551.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

On June 13, 1986, the Agency proposed to amend its hazardous waste identification regulations by modifying the existing Toxicity Characteristic (referred to as the Extraction Procedure Toxicity Characteristic (EPTC)). The proposed characteristic, like the existing one, would estimate the migration potential of toxicants to leach from the waste if the waste were managed in a co-disposal scenario; that is, we assume that the waste is managed in a sanitary landfill with municipal trash and garbage, that acetic acid is the primary extractant medium, and that the toxicants would contaminate a well 500 feet downstream of the landfill at levels that exceed the health-based numbers. Among other things, the proposed toxicity characteristic would increase the number of toxicants to be considered in defining a waste as hazardous and would introduce a new leach procedure, the Toxicity Characteristic Leaching Procedure (TCLP). (See 51 FR 21648, June 13, 1986). In addition, in establishing the regulatory levels, the Agency proposed to use a ground water transport model (EPASMOD) to generate the dilution/attenuation factors for each of the chemicals. The details of the modeling approach were provided in the Federal Register notice of January 14, 1986 (51 FR 1602).

The Agency received comments on many aspects of the proposal. However, a large number of comments were received which questioned the validity of applying the toxicity characteristic to wastes, including wastewaters, likely to be managed in surface impoundments; in particular, the commenters argued that the mismanagement scenario (*i.e.*, codisposal of industrial waste with municipal wastes) assumed in the characteristic is not a reasonable mismanagement scenario for certain wastes (*i.e.*, wastewaters). In particular, they argued that wastewaters were normally managed in surface impoundments and/or tanks and not in a municipal landfill.

In response to comments, the Agency is reexamining the applicability of the co-disposal scenario to wastes likely to be managed in surface impoundments and is requesting comments and

supporting documentation on the points discussed in the next section.

It should be noted that the Agency is *only* soliciting comments on this aspect of the proposal.

## II. Notice and Request for Comments

A number of comments were received which questioned the validity of applying the proposed toxicity characteristic to industrial wastes likely to be managed in surface impoundments. As we described earlier, many of these commenters objected to using the proposed characteristic since the assumptions used in developing it (*i.e.*, industrial waste would be co-disposed with municipal trash and garbage in a landfill) are not relevant to certain wastes, including wastewaters, likely to be managed in impoundments. In particular, the commenters argued that wastewaters are normally managed in surface impoundments and/or tanks, the discharges of which are normally regulated under a NPDES or pretreatment permit. Commenters further noted that the characteristic does not account for the waste management processes, such as equalization and biological treatment, which normally occur in these units. The commenters state that the objective of these treatment processes is to achieve an averaging of constituent concentration through equalization and an overall decrease of concentration through biological removal. They further argue that it is this "average" concentration that is experienced by the aquifer and, therefore, the sampling of the unit itself is a more accurate measure of leachate concentration.

As a result of these comments, the Agency is seriously considering, in addition to the option of promulgating the toxicity characteristic as proposed, modifying the proposed characteristic as it would apply to wastes which are likely to be managed in surface impoundments, such as industrial wastewaters. The Agency is therefore considering, as one option, developing a mismanagement scenario that assumes that certain wastes are managed in an unlined impoundment. One major reason for adopting this scenario is that a large amount of industrial wastes are managed in these types of impoundments. For example, according to the RCRA Subtitle D Census,[1] there are 227,000 Subtitle D Facilities in the United States, 85% of which are surface impoundments. In addition, data from the Office of Solid Waste's Industry Studies Data Base (ISDB) [2] reveal that for the seven industrial categories for which information was tabulated, 63 million metric tons of waste are managed in on-site impoundments. We, therefore, believe that a surface impoundment scenario may be an appropriate scenario to consider for certain types of wastes.

Developing a surface impoundment scenario, in addition to the landfill scenario, would mean that the toxicity characteristic would have two possibly different regulatory levels. Waste generators would first have to determine which scenario is appropriate and then would be responsible for evaluating whether their waste exceeded the applicable regulatory levels. The Agency is considering a number of approaches for deciding the applicability of the surface impoundment characteristic. These include the following:

- *Management based.* Under this approach, the surface impoundment scenario would be applicable only to those wastes actually managed in impoundments (*i.e.*, those wastes that are managed in tanks would still be subject to the proposed OTC). Waste constituent concentrations could either be measured directly by an analysis of: a representative liquid sample taken from within the impoundment; the supernatant from a representative sludge sample taken from within the impoundment; or a representative sludge sample extracted according to the TCLP (or modified TCLP) using liquid in the impoundment as the extractant. Another alternative would be to sample the waste at the influent to the impoundment and apply factors to take into account attenuative mechanisms (such as biodegradation, and hydrolysis).
- *Physical property based.* The surface impoundment scenario could also be implemented to apply to those wastes having a certain physical property such as percent solids (*e.g.*, any waste that contains less than 5% solids, for instance, would be subject to the surface impoundment characteristic). The rationale for this approach is that those wastes having low per cent solids [3] are likely to be managed in an impoundment (*i.e.*, this is the reasonable mismanagement scenario). Once a waste is defined as being subject to the surface impoundment scenario, the waste could then be sampled. The regulatory levels will have been established so as to take into account attenuative mechanisms (such as biodegradation, and hydrolysis).
- *Definition based.* The surface impoundment scenario could also be applied to those wastes which are managed in treatment/disposal units, the discharge of which is subject to regulation under either section 402 or section 307(b) of the Clean Water Act (including wastewater at facilities which have eliminated the discharge of the wastewater). Once a waste is defined as being subject to the surface impoundment scenario the waste could either be sampled at some point in the unit or at the inlet and factors for attentive mechanisms (*e.g.*, biodegradation, hydrolysis, etc.) would be applied. (This is more thoroughly described above, under the management based approach.)

While the Agency believes that the third approach may be the most appropriate, we are today inviting the public to further comment and provide specific documentation on this issue. The Agency specifically requests comment and data on the following points:

1. If the Agency decides to develop (as part of the characteristic) a separate mismanagement scenario for wastes likely to be managed in surface impoundments, what criteria should be used to determine whether the surface impoundment scenario should apply (*e.g.*, should it apply to wastes managed in surface impoundments, wastes having certain physical characteristics such as percent solids, etc.)? The Agency is, in particular, requesting available data on the relationship between constituent concentrations at the inlet, effluent, and in the sludge of an impoundment; dimensions of impoundments; depth of impoundments; and retention time in impoundments. The Agency is also requesting comment on whether a different mismanagement scenario should apply.

2. Should evaluation of the waste be based on actual measurement of concentration in the impoundment or calculated through measurement at the inlet and application of predictive models? This may involve either measuring. (1) A representative sample of the liquid portion at some location in the impoundment, (2) measuring the liquid portion and the sludge in the impoundment, or (3) measuring the

[1] "Subtitle D Study, Phase I Report," U.S. EPA, Office of Solid Waste and Emergency Response, EPA/530-SW-86-054 (October 1986).

[2] Data was tabulated on the following six industrial categories: Organic Chemicals, Synthetic Fibers and Plastics, Wood Preserving, Pesticides, Coke, and Inorganic Chemicals. One major industry which was not included was Refining. Inclusion of this industry would likely increase the amounts and overall percentages of wastes managed in impoundments.

[3] Per cent solids can be determined by Method 160.3, Standard Methods for Chemical Analysis of Water and Wastes, USEPA, EPA-600/04-79-020, Revised March 1983.

concentration at the inlet and applying attenuation factors.

3. How should multiple impoundments be handled?

Based on the comments received on this notice and previous comments received on the proposed characteristic, the Agency may modify its regulatory definition of those wastes subject to the characteristic in one of the ways noted above.

Comments on the issues raised in this notice must be received by EPA on or before July 2, 1987 date of publication to ensure consideration. It should be noted that we are reopening the comment period for only those issues discussed in this notice.

Dated: May 6, 1987.

J.W. McGraw,

*Acting Assistant Administrator, Office of Solid Waste and Emergency Response.*

BILLING CODE 6560-50-M

## NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

### 45 CFR Part 1100

### Statement for the Guidance of the Public Organization, Procedures and Availability of Information

**AGENCY:** National Foundation on the Arts and the Humanities.

**ACTION:** Proposed rule.

**SUMMARY:** The National Foundation on the Arts and the Humanities (NFAH) proposes to amend its Freedom of Information Act (FOIA) regulations to incorporate recent changes to the FOIA effected by the Freedom of Information Reform Act of 1986, Pub. L. 99-570, which requires agencies to issue final regulations in conformance with guidelines issued by the Office of Management and Budget. In addition, this rule replaces the existing regulation at 45 CFR Part 1100 which was published in the **Federal Register** on April 17, 1979 in order to include the Institute of Museum Services in the National Foundation on the Arts and the Humanities.

**DATE:** Comments must be received by June 17, 1987.

**ADDRESS:** Comments should be sent to Ms. Tracy Joselson, Attorney/Advisor, National Endowment for the Humanities, 1100 Pennsylvania Avenue NW., Washington, DC 20506.

**FOR FURTHER INFORMATION CONTACT:** Ms. Tracy Joselson, National Endowment for the Humanities, 1100 Pennsylvania Avenue NW., Washington, DC 20506 or call (202) 786-0322.

**SUPPLEMENTARY INFORMATION:** This proposed rule is not a major rule for the purpose of Executive Order 12291. As is required by the Regulatory Flexibility Act, it is hereby certified that this proposed rule will not have a significant impact on small business entities. This proposed rule does not contain information collection requirements that require approval by the Office of Management and Budget pursuant to the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

**List of Subjects in 45 CFR Part 1100**

Administrative practice and procedures, Freedom of Information Act.

For the reasons set out in the preamble, it is proposed to revise 45 CFR Part 1100 as follows:

## PART 1100—STATEMENT FOR THE GUIDANCE OF THE PUBLIC—ORGANIZATION, PROCEDURE AND AVAILABILITY OF INFORMATION

Sec.

1100.1 Definitions.
1100.2 Organization.
1100.3 Availability of information to the public.
1100.4 Current index.
1100.5 Agency procedures for handling requests for documents.
1100.6 Fees.
1100.7 Foundation report of actions.

**Authority:** 5 U.S.C. 552, as amended by Pub. L. 99-570.

### § 1100.1 Definitions.

(a) "Agency" means the National Endowment for the Arts, the National Endowment for the Humanities, the Institute of Museum Services, or the Federal Council on the Arts and the Humanities.

(b) "Commercial use request" means a request by or on behalf of anyone who seeks information for a use or purpose that furthers the commercial trade or profit interests of the requestor (or the person on whose behalf the request is made.) The agency must determine the use to which a requestor will put the document. Where the agency has reasonable cause to doubt the use to which a requestor will put the records sought or the use is not clear from the request, the agency may seek additional clarification. The requestor bears the burden of demonstrating the use or purpose of the information requested.

(c) "Direct costs" means those expenditures which an agency actually incurs in searching for the duplicating documents to respond to a Freedom of Information Act (FOIA) request. In the case of commercial use requests, the term shall also include expenditures for reviewing documents.

(d) "Duplication" means the process of making a copy of a document necessary to respond to a FOIA request. Such copies may be in the form of paper, microfilm, machine readable documents, or other materials.

(e) "Educational institution" means a preschool, elementary, or secondary school, an institution of graduate or undergraduate higher education, an institution of professional education, or an institution of vocational education, which operates a program or programs of scholarly research.

(f) "Non-commercial scientific institution" means an institution that is not operated on a "commercial use" basis as defined in paragraph (b) of this section and which is operated solely for the purposes of conducting scientific research the results of which are not intended to promote any particular product or industry.

(g) "Representative of the news media" means any person actively gathering news for an entity that is organized and operated to publish or broadcast information that is about current events or that would be of current interest to the public. Freelance journalists may be regarded as working for a new organization if they can demonstrate a sound basis for expecting publication through that organization, even though not actually employed by it.

(h) "Review" means the process of examining a document located in response to a commerical use request to determine whether any portion is permitted to be withheld. Review includes processing documents for disclosure, including all that is necessary to excise them and otherwise prepare them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(i) "Search" means all the time that is spent looking for material that responds to a request, including page-by-page or line-by-line identification of material in documents. Searches may be done manually or by computer using existing programs.

### § 1100.2 Organization.

(a) The National Foundation on the Arts and the Humanities was established by the National Foundation on the Arts and the Humanities Act of 1965, 20 U.S.C. 951 *et seq.* The Foundation is composed of the National Endowment for the Arts, the National Endowment for the Humanities, the Institute of Museum Services, and the Federal Council on the Arts and the

Humanities. The Institute of Museum Services became a part of the National Foundation on the Arts and Humanities pursuant to Pub. L. 97–384 (December 30, 1982) and Pub. L. 98–306 (May 31, 1984). Each Endowment is headed by a Chairman and has an advisory national council composed of 26 presidental appointees. The Institute of Museum Services is headed by a Director and has a National Museum Services Board composed of 15 presidential appointees. The Federal Council on the Arts and the Humanities, comprised of Executive branch offcials and appointees of the legislature branch, is authorized to make agreements to idemnify against loss or damage for certain exhibitions and advise on arts and humanities matters.

**§ 1100.3 Availability of information to the public.**

(a) All inquiries, or requests should be addressed to the appropriate agency. Descriptive brochures of the organization, programs, and function of each agency are available upon request. Inquiries involving work of the National Endowment for the Arts should be addressed to the National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506. The telephone number of the National Endowment for the Arts is (202) 682–5400. Requests or inquiries involving the National Endowment for the Humanities should be addressed to the National Endowment for the Humanities, 1100 Pennsylvania Avenue, NW., Washington DC 20506. The telephone number of the National Endowment for the Humanities is (202) 786–0310. Requests or inquiries involving the Institute of Museum Services should be addressed to the Institute of Museum Services, 1100 Pennsylvania Avenue, NW., Washington, DC 20506. The telephone number of the Institute of Museum Services is (202) 786–0536.

(b) The head of each agency is responsible for the effective administration of the Freedom of Information Act. The head of each agency pursuant to this responsibility hereby directs that every effort be expended to facilitate service to the public with respect to the obtaining of information and records.

(c) Requests for access to records of the National Endowment for the Arts, the National Endowment for the Humanities, or the Institute of Museum Services may be filed by mail with the General Counsel of the National Endowment for the Arts, the Deputy Chairman of the National Endowment for the Humanities, or the Public Affairs Officer of the Institute of Museum Services, as is appropriate. Requests for access to records of the Federal Council on the Arts and the Humanities should be directed to the attention of the National Endowment for the Humanities. All requests should reasonably describe the record or records sought. Requests submitted should be clearly identified as being made pursuant to the Freedom of Information Act.

**§ 1100.4 Current index.**

(a) Each agency shall maintain and make available for public inspection and copying a current index providing identifying information for the public as to any matter which is issued, adopted, or promulgated and which is required to be made available pursuant to 5 U.S.C. 552(a) (1) and (2). Publication and distribution of such indices has been determined by the Foundation to be unnecessary and impracticable. The indices will be provided upon request at a cost not to exceed the direct cost of the duplication.

**§ 1100.5 Agency procedures for handling requests for documents.**

(a) Upon receiving a request for documents in accordance with the rules of this part, the General Counsel of the National Endowment for the Arts, Deputy Chairman of the National Endowment for the Humanities, or the Public Affairs Officer of the Institute of Museum Services, as is appropriate, shall determine whether or not the request shall be granted in whole or in part.

(1) The determination shall be made within ten (10) days (excepting Saturdays, Sundays, ad legal holidays) after receipt of such request.

(2) The requestor shall be notified of the determination and the reasons that support it. When a request is denied in whole or in part, the requestor, will be notified of his or her rights to appeal the determination to the head of the agency.

(b) Any party whose request for documents has been denied in whole or in part may file a appeal no later than ten (10) working days following receipt of the notification of denial. Appeals must be addressed to the Chairman, National Endowment for the Arts, Washington, DC 20506, the Chairman, National Endowment for the Humanities, Washington, DC 20506, or the Director Institute of Museum Services, Washington, DC 20506, as is appropriate.

(2) The head of the agency or his delegatee shall make a determination with respect to the appeal within twenty (20) days) excepting Saturdays, Sundays, and legal holidays) after the agency has received the appeal, except as provided in paragraph (c) of this section. If, on appeal, the denial is upheld either in whole or in part, he head of the agency shall notify the party submitting the appeal of the judicial review provisions of 5 U.S.C. 552(a)(4)(B).

(c) In unusual circumstances, the time limits prescribed to determine a request for documents with respect to initial actions or actions on appeal may be extended by written notice from the General Counsel of the National Endowment for the Arts, the Deputy Chairman of the National Endowment for the Humanities, or the Public Affairs Officer of the Institute of Museum Services as is appropriate. The notice shall describe the reason for the extension and the date on which the determination is expected to be made. No notice shall specify a date that would result in an extension of more than ten (10) days (excepting Saturdays, Sundays, and legal holidays). As is used in this paragraph, "unusual circumstances" means:

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having a substantial subject-matter interest in the request.

**§ 1100.6 Fees.**

(a) *Categories of fees.* Fees will be charged according to the category of the FOIA request.

(1) *Commercial use requests.* The agency will assess charges to recover the full direct cost of searching for, reviewing, and duplicating the requested document. The agency may recover the full cost of searching for and reviewing records even if there is ultimately no disclosure.

(2) *Requests from educational and non-commercial scientific institutions.* The agency will charge for duplication costs. To qualify for this category the requestor must show:

(i) That requested records are being sought under the auspices of a qualified institution as defined in § 110.1 (e) or (f) of this part;

(ii) The records are not sought for commercial use; and

(iii) The records are being sought in furtherance of scholarly or scientific research of the institution.

(3) *Requests by representatives of the news media.* The agency will charge duplication costs for the requests in this category.

(4) *All other requests.* (i) All other request shall be charged fees which recover the full reasonable cost for searching for and duplicating the requested records.

(b) *General fee schedule.* The agency shall use the most efficient and least costly method to comply with requests for documents made under the FOIA. The agency will charge fees to recover all allowable direct costs incurred. The agency may charge fees for searching for and reviewing requested documents even if the documents are determined to be exempt from disclosure or cannot be located. If search charges are likely to exceed $25, the agency shall notify the requestor, unless the requestor has indicated in advance the willingness to pay higher fees. The following fees shall be charged in accordance with paragraph (a) of this section.

(1) *Searches*—(i) *Manual.* The fee charged will be the salary rate(s) (i.e., basic pay plus 16.1 percent) of the employee(s) conducting the search.

(ii) *Computer.* The fee charged will be the actual direct cost of providing the service including the cost of operating the central processing unit for the operating time that is directly attributed to searching for records responsive to a request and the operator/programmer salary apportionable to the search.

(2) *Review.* The fee chargd will equal the salary rate(s) (basic pay plus 16.1 percent) of the employee(s) conducting the review.

(3) *Duplication.* Copies of documents photocopied on a 8½ x 11 inch sheets of paper will be provided at $.10 per page. For duplication of other materials, the charge will be the direct cost of duplication.

(c) *Restrictions on charging fees.*

(1) Except for documents provided in response to a commercial use request, the first 100 pages of duplication or the first two (2) hours of search time shall be provided at no charge.

(i) For the purposes of this section, two (2) hours of search time by computer entitles the requestor to two (2) hours of computer operator salary translated into computer search costs. Computer search costs consist of operator salary plus central proceeding unit operating time costs for the duration of the research.

(2) Fees shall not be charged to any requestor, including commercial use requestors, if the cost of collecting a fee would be equal to or greater than the fee itself.

(d) *Waiver or reduction of fees.* Documents shall be furnished without charge or at reduced charge if disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requestor.

(e) *Assessment and collection of fees.* (1) Interest will accrue from the date the bill is mailed if the fee is not paid within thirty (30) days. Interest will be assessed at the rate prescribed in 31 U.S.C. 3717.

(2) If the agency reasonably believes that a requestor(s) is making multiple requests to avoid the assessment of fees, the agency may aggregate such requests and charge accordingly.

(3) The agency may request an advance payment of the fee if

(i) The allowable charges are likely to exceed $250; or

(ii) The requestor has failed previously to pay a fee in a timely fashion.

(4) When the agency requests an advance payment, the time limits prescribed in section (a)(6) of the Freedom of Information Act will begin only after the agency has received full payment.

**§ 1100.7 Foundation report of actions.**

(a)(1) On or before March 1 of each calendar year, the National Foundation on the Arts and the Humanities shall submit a report of its activities with regard to public information requests during the preceding calendar year to the Speaker of the House of Representatives and to the President of the Senate. The report shall include:

(i) The number of determinations made by the National Foundation on the Arts and the Humanities not to comply with requests for records made to the agency under the provisions of this part and the reasons for each such determination;

(ii) The number of appeals made by persons under such provision, the result of such appeals, and the reasons for the action upon each appeal that results in the denial of information;

(iii) The names and titles or positions of each person responsible for the denial of records requested under the provisions of this part and the number of instances of participation for each;

(iv) The results of each proceeding conducted pursuant to 5 U.S.C. 552(a)(4)(F), as amended, including a report of the disciplinary action taken against the officer or employee who was primarily responsible for improperly withholding records or an explanation of why disciplinary action was not taken;

(v) A copy of every rule made by the Foundation implementing the provisions of the FOIA.

(vi) A copy of the fee schedule and the total amount of fees collected by the agency for making records available under this section; and

(vii) Such other information as indicates efforts to administer the provisions of the FOIA, as amended.

Dated: May 7, 1987.

## DEPARTMENT OF AGRICULTURE

### National Commission on Dairy Policy; Advisory Committee Meeting

Pursuant to provisions of section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), a notice is hereby given of the following committee meeting.

Name: National Commission on Dairy Policy.

Time and Place: Sheraton Atlanta Airport Hotel, 1325 Virginia Ave., Atlanta, GA 30344.

Status: Open.

Matters To Be Considered: On June 1, the Commission will hold a public hearing to receive testimony on the dairy price support program, new dairy technologies, and the influence of the program and technologies on the family farm. The meeting on June 2 is expected to review the public hearing, disuss Commission matters with the Executive Director, and discuss background materials related to the dairy industry.

Written Statements may be filed before or after the meeting with: Contact person named below.

Contact Person for More Information: Mr. Jeffrey Lyon, Assistant Director, National Commission on Dairy Policy, 1401 New York Ave., NW., Suite 1100, Washington, DC 20005, [202] 638–5222.

Signed at Washington, DC, this 11th day of May 1987.

David R. Dyer,

*Executive Director, National Commission on Dairy Policy.*

## DEPARTMENT OF COMMERCE

### Agency Form Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration.

Title: Incidental Take—Sea Turtles.

Form Number: Agency—N/A; OMB—0648–0178.

Type of Request: Reinstatement of a previously approved collection—Expedited review requested.

Burden: 12 respondents; 1 burden hour.

Needs and Uses: Shrimp fishermen in a selected area off Texas must report any catch of sea turtles incidental to their shrimping activities. The information will be used to ensure allowable incidental take levels are not exceeded.

Affected Public: Businesses or other for-profit institutions; small businesses or organizations.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: John Griffin, 395–7340.

Copies of the above information collection proposal can be obtained by calling or writing DOC Clearing Officer, Edward Michals, (202) 377–3271, Department of Commerce, Room 6228, 14th and Constitution Avenue NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to John Griffin, OMB Desk Officer, Room 3228, New Executive Office Building, Washington, DC 20503.

Dated: May 13, 1987.

Edward Michals,

*Department Clearance Officer, Office of Management and Organization.*

[FR Doc. 87–11306 Filed 5–15–87; 8:45 am]

### Agency Form Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of the Census.

Title: Survey of Building and Zoning Permit Systems

Form Number: Agency—C–411; OMB—0607–0350.

Type of Request: Revision of currently approved collection.

Burden: 400 respondents; 68 reporting hours.

Needs and Uses: This data is needed to update the universe of permit-issuing places which is required to select reliable samples for estimating building permit authorizations. Estimates of building permits authorized are widely used for economics and business decisions. The respondents are state and local building permit officials.

Affected Public: State or local governments.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Don Arbuckle, 395–7340.

Copies of the above information collection proposal can be obtained by calling or writing DOC Clearance Officer, Edward Michals, (202) 377–3271, Department of Commerce, Room H6622, 14th and Constitution Avenue, NW, Washington, DC. 20230.

Written comments and recommendations for the proposed information collection should be sent to Don Arbuckle, OMB Desk Officer, Room 3228 New Executive Office Building, Washington, DC 20503.

Dated: May 13, 1987.

Edward Michals,

*Departmental Clearance Officer, Office of Management and Organization.*

[A–588–703]

### Initiation of Antidumping Duty Investigation; Certain Internal-Combustion, Industrial Forklift Trucks From Japan

AGENCY: Import Administration, International Trade Administration, Commerce.

ACTION: Notice.

SUMMARY: On the basis of a petition filed in proper form with the U.S. Department of Commerce, we are initiating an antidumping duty investigation to determine whether imports of certain internal-combustion, industrial forklift trucks (forklift trucks) from Japan are being, or are likely to be, sold in the United States at less than fair value. We are notifying the U.S. International Trade Commission (ITC) of this action so that it may determine

whether imports of this product materially injure, or threaten material injury to, a U.S. industry. If this investigation proceeds normally, the ITC will make its preliminary determination on or before June 8, 1987. If that determination is affirmative, we will make a preliminary determination on or before September 29, 1987.

**EFFECTIVE DATE:** May 18, 1987.

**FOR FURTHER INFORMATION CONTACT:** Gary Taverman or Kathleen Doering, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 377–0161 or 377–8498.

**SUPPLEMENTARY INFORMATION:**

**The Petition**

On April 22, 1987, we received a petition filed in proper form by the Hyster Company, the Independent Lift Truck Builders Union, the International Association of Machinists and Aerospace Workers, the International Union, Allied Industrial Workers of America (AFL–CIO), and the United Shop and Service Employees, on behalf of the U.S. industry producing forklift trucks. On May 7, 1987, an amendment to the petition was filed to include as petitioners a group of workers employed by the Hyster Co. in its Berea, Kentucky and Sulligent, Alabama facilities, and to enlarge the scope of the petition to cover certain less than complete forklift trucks. In compliance with the filing requirements of 19 CFR 353.36, petitioners allege that imports of forklift trucks from Japan are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Tariff Act of 1930, as amended (the Act), and that these imports materially injure, or threaten material injury to, a U.S. industry.

Petitioners' estimate of United States price is based on actual sales, price quotes, price bids, price lists and advertisements. Prices provided were generally to the end-user from the dealer, with deductions made for dealer mark-up, estimated foreign inland freight, ocean freight, marine insurance, dock and customs fee, duties, and U.S. inland freight. Petitioners' estimate of foreign market value is based on retail list prices and average actual prices on sales to end-users in Japan, with deductions made for foreign inland freight. In addition, petitioners made adjustments and deductions, where appropriate, for options, credit expenses, product liability costs, reclearing fees, warranty expenses, and indirect selling expenses.

Based on a comparison of United States prices and foreign market value, petitioners allege dumping margins ranging from 1.1 percent to 56.8 percent.

Petitioners have requested that we specifically look at certain resales which involve new trucks that may or may not have been operated for a few hours and which then may be sold by Japanese resellers or trading companies at a discount to the United States. We will look at resales and other distribution practices as part of this investigation.

After analysis of petitioners' allegations and supporting data, we conclude that a formal investigation is warranted.

**Initiation of Investigation**

Under section 732(c) of the Act, we must determine, within 20 days after a petition is filed, whether it sets forth the allegations necessary for the initiation of an antidumping duty investigation, and whether it contains information reasonably available to the petitioners supporting the allegations.

We examined the petition on forklift trucks from Japan and found that it meets the requirements of section 732(b) of the Act. Therefore, in accordance with section 732 of the Act, we are initiating an antidumping duty investigation to determine whether imports of forklift trucks from Japan are being, or are likely to be, sold in the United States at less than fair value. If our investigation proceeds normally, we will make our preliminary determination by September 29, 1987.

**Scope of Investigation**

The United States has developed a system of tariff classification based on the international harmonized system of Customs nomenclature. The U.S. Congress is considering legislation to convert the United States to this Harmonized System (HS) by January 1, 1988. In view of this, we will be providing both the appropriate *Tariff Schedules of the United States Annotated* (TSUSA) item numbers and the appropriate HS item numbers with our product descriptions on a test basis, pending Congressional approval. As with the TSUSA, and HS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

We are requesting petitioners to include the appropriate HS item number(s) as well as the TSUSA item number(s) in all new petitions filed with the Department. A reference copy of the proposed HS schedule is available for consultation at the Central Records Unit, Room B–099, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230. Additionally, all Customs offices have reference copies and petitioners may contact the Import Specialist at their local Customs office to consult the schedule.

The products covered by this investigation are certain internal-combustion, industrial forklift trucks, with lifting capacity of 2,000 to 15,000 lbs, currently provided for under TSUSA items 692.4025, 692.4030 and 692.4070, and currently classifiable under HS item numbers 84272000–0, 84279000–0 and 84312000–0. The products covered by this investigation are further described as follows: Assembled, not assembled, and less than complete, finished and not finished operator-riding forklift trucks powered by gasoline, propane, or diesel fuel internal-combustion engines of off-the-highway types used in factories, warehouses, or transportation terminals for short-distance transport, towing, or handling of articles "less than complete" forklift trucks are defined as imports which include a frame by itself or a frame assembled with one or more component parts. We understand that the frame by itself is the identifying feature and principal component part of the product, and is solely dedicated for the manufacture of a complete internal-combustion, industrial forklift truck.

**Notification of ITC**

Section 732(d) of the Act requires us to notify the ITC of this action and to provide it with the information we used to arrive at this determination. We will notify the ITC and make available to it all nonprivileged and nonproprietary information. We will allow the ITC access to all privileged and business proprietary information in our files, provided it confirms in writing that it will not disclose such information either publicly or under an administrative protective order without the written consent of the Deputy Assistant Secretary for Import Administration.

**Preliminary Determination by ITC**

The ITC will determine by June 8, 1987, whether there is a reasonable indication that imports of forklift trucks from Japan materially injure, or threaten material injury to, a U.S. industry. If its determination is negative, the investigation will terminate; otherwise, it will proceed according to the statutory and regulatory procedures.

This notice is published pursuant to section 732(c)(2) of the Act.

Gilbert B. Kaplan,

*Deputy Assistant Secretary for Import Administration.*

May 12, 1987.

[C-614-701]

## Initiation of Countervailing Duty Investigation; Certain Steel Wire Nails From New Zealand

**AGENCY:** Import Administration, International Trade Administration, Commerce.

**ACTION:** Notice.

**SUMMARY:** On the basis of a petition filed in proper form with the U.S. Department of Commerce, we are initiating a countervailing duty investigation to determine whether manufacturers, producers, or exporters in New Zealand of certain steel wire nails, as described in the "Scope of Investigation" section of this notice, receive benefits which constitute bounties or grants within the meaning of the countervailing duty law. If this investigation proceeds normally, we will make our preliminary determination on or before July 14, 1987.

**EFFECTIVE DATE:** May 18, 1987.

**FOR FURTHER INFORMATION CONTACT:** Tom Bombelles or Gary Taverman, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 377-3174 or 377-0161.

**SUPPLEMENTARY INFORMATION:**

### The Petition

On April 20, 1987, we received a petition in proper form filed on behalf of the U.S. industry producing certain steel wire nails from the Air Nail Company, the Atlas Steel & Wire Corporation, CF & I Steel Corporation, Davis Walker Corporation, Dickson Weatherproof Nail Company, Exposaic Industries, Inc., Keystone Steel and Wire Company and Northwestern Steel & Wire Company. In compliance with the filing requirements of § 355.26 of the Commerce Regulations (19 CFR 355.26), the petition alleges that manufacturers, producers, or exporters in New Zealand of certain steel wire nails receive bounties or grants withion the meaning of section 303 of the Tariff Act of 1930, as amended ("the Act").

New Zealand is not a "country under the Agreement" within the meaning of section 701(b) of the Act, and the merchandise being investigated is dutiable. Therefore, sections 303(a)(1) and (b) of the Act apply to this investigation. Accordingly, petitioners are not required to allege that, and the U.S. International Trade Commission is not required to determine whether, imports of the subject merchandise cause or threaten material injury to a U.S. industry.

### Initiation of Investigation

Under section 702(c) of the Act, we must determine, within 20 days after a petition is filed, whether the petition sets forth the allegations necessary for the initiation of a countervailing duty investigation and whether it contains information reasonably available to the petitioner supporting the allegations. We have examined the petition on certain steel wire nails and have found that it meets the requirements of section 702(b) of the Act. Therefore, we are initiating a countervailing duty investigation to determine whether manufacturers, producers, or exporters in New Zealand of certain steel wire nails, as described in the "Scope of Investigation" section of this notice, receive benefits which constitute bounties or grants within the meaning of the Act. If our investigation proceeds normally, we will make our preliminary determination on or before July 14, 1987.

### Scope of Investigation

The United States has developed a system of tariff classification based on the international harmonized system of Customs nomenclature. Congress is considering legislation to convert the United States to this Harmonized System ("HS") by January 1, 1988. In view of this, we will be providing both the appropriate *Tariff Schedule of the United States Annotated* ("TSUSA") item numbers and the appopriate HS item numbers with our product descriptions on a test basis, pending Congressional approval. As with the TSUSA, the HS item numbers are provided for convenience and Customs purposes. The written descriptions remains dispositive.

We are requesting petitioners to include the appropriate HS item number(s) as well as the TSUSA item number(s) in all new petitions filed with the Department. A reference copy of the proposed Harmonized System schedule is available for consultation at the Central Records Unit, Room B-099, U.S. Department of Commerce, 14th Street, NW., and Constitution Avenue, Washington, DC 20230. Additionally, all Customs offices have reference copies, and petitioners may contact the Import Specialist at their local Customs office to consult the schedule.

The products covered by this investigation are certain steel wire nails from New Zealand. These nails are: one-piece steel wire nails as currently provided for in TSUSA item numbers 646.2500 and 646.2610-00, and similar steel wire nails of one-piece construction, whether at, over or under .065 inch in diameter as currently provided for in item number 646.3040; two-piece steel wire nails as currently provided for in item number 646.3200; and steel wire nails with lead heads as currently provided for in item number 646.3800. These products are currently classifiable under HS item numbers 7317.0055, 7317.0065, 7317.0075 and 7616.1010.

### Allegations of Bounties or Grants

The petition lists a number of practices by the Government of New Zealand which allegedly confer bounties or grants on manufacturers, producers, or exporters in New Zealand of certain steel wire nails. Although some of the programs listed below have been or are in the process of being terminated by the Government of New Zealand, we are initiating an investigation to determine whether any of the respondents in this investigation receive benefits under programs currently in effect and residual benefits under the terminated programs. We are initiating an investigation on the following programs:

- Export Performance Taxation Incentive (EPTI);
- Export Market Development Taxation Incentive (EMDTI);
- Export Marketing Assistance;
- Export Credits from the Development Finance Corporation;
- Export Suspensory Loan Scheme (ESLS);
- Export Programme Grant Scheme (EPGS) and Export Programme Suspensory Loan Scheme (PSLS);
- Export Manufacturing Investment Allowance (EMIA);
- Exemption from or Refund of Sales Taxes on Machinery and Equipment Used in the Production of Goods for Export;
- Preferential Treatment to Exporters in Granting Import Licenses;
- Regional Development Investment Incentives; and
- Supplementary Investment Allowances for Plant and Machinery.

Although not specifically alleged by petitioners, we are initiating an investigation to determine whether the New Zealand steel wire nail industry receives countervailable benefits under

the following programs cited in previous investigations:

• Development Financing from the Development Finance Corporation; and

• Research and Development Incentives.

Both these programs were investigated in *Final Affirmative Countervailing Duty Determination and Countervailing Duty Order: Steel Wire from New Zealand* (51 FR 31156, September 2, 1986) and *Final Affirmative Countervailing Duty Determination and Countervailing Duty Order: Carbon Steel Wire Rod from New Zealand* (51 FR 7971, March 7, 1986) (*"Steel Wire Rod"*) but found not to have been used in those cases. The latter program was also investigated in *Final Affirmative Countervailing Duty Determination and Countervailing Duty Order: Low Fuming Brazing Copper Rod and Wire from New Zealand* (50 FR 31638, August 5, 1985) (*"Copper Rod"*) and found not to have been used.

Petitioners have provided no new information on programs determined in previous investigations not to confer bounties or grants or to have been terminated. We are therefore not initiating an investigation on the following programs for the reasons stated below:

• Technical Assistance from the Testing Laboratory Registration Council (TELARC) and the Department of Scientific and Industrial Research (DSIR)—

We have previously investigated the provision of such assistance by TELARC and DSIR and have determined that it is not contingent upon export performance and is not limited to a specific enterprise or industry or group of enterprises or industries. See *Steel Wire Rod, supra.*

• Exemption from or Refund of Import Duties on Machinery and Equipment Used in the Production of Goods for Export—

We have previously investigated this program and have determined that it is not contingent upon export performance and is not limited to a specific enterprise or industry or group of enterprises or industries. See *Steel Wire Rod, supra.*

• New Markets Increased Exports Taxation Incentive—

We have previously investigated this program and have determined that it was terminated by the Government of New Zealand in March 1981 and that benefits could not still have been accruing during the review period of this investigation. See *Steel Wire Rod, supra.*

• Regional Investment Allowance—

We have previously investigated this program and have determined that it was terminated by the Government of New Zealand in March 1983 and that benefits could not still have been accruing during the review period of this investigation. See *Copper Rod, supra.*

• Extraordinary Depreciation Allowance—

We have previously investigated this program and have determined that it is not contingent upon export performance and is not limited to a specific enterprise or industry or group of enterprises or industries. See *Copper Rod, supra.*

This notice is published pursuant to section 702(c)(2) of the Act.

**Gilbert B. Kaplan,**

*Deputy Assistant Secretary for Import Administration.*

## Initiation of Countervailing Duty Investigation; Certain Steel Wire Nails From Thailand

**AGENCY:** Import Administration, International Trade Administration, Commerce.

**ACTION:** Notice.

**SUMMARY:** On the basis of a petition filed in proper form with the U.S. Department of Commerce, we are initiating a countervailing duty investigation to determine whether manufacturers, producers, or exporters in Thailand of certain steel wire nails as described in the "Scope of Investigation" section of this notice, receive benefits which constitute bounties or grants within the meaning of the countervailing duty law. If this investigation proceeds normally, we will make our preliminary determination on or before July 14, 1987.

**EFFECTIVE DATE:** May 18, 1987.

**FOR FURTHER INFORMATION CONTACT:** Tom Bombelles or Gary Taverman, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 377-3174 or 377-0161.

**SUPPLEMENTARY INFORMATION:**

### The Petition

On April 20, 1987, we received a petition in proper form filed on behalf of the U.S. industry producing certain steel wire nails from Air Nail Company, Atlas Steel & Wire Corporation, CF & I Steel Corporation, Davis Walker Corporation, Dickson Weatherproof Nail Company, Exposaic Industries, Inc., Keystone Steel and Wire Company and Northwestern Steel & Wire Company. In compliance with the filing requirements of section 355.26 of the Commerce Regulations (19 CFR 355.26), the petition alleges that manufacturers, producers, or exporters in Thailand of certain steel wire nails receive bounties or grants within the meaning of section 303 of the Tariff Act of 1930, as amended (the "Act").

Thailand is not a "country under the Agreement" within the meaning of section 701(b) of the Act, and the merchandise being investigated is dutiable. Therefore sections 303 (a)(1) and (b) of the Act apply to this investigation. Accordingly, petitioners are not required to allege that, and the U.S. International Trade Commission is not required to determine whether, imports of the subject merchandise cause or threaten material injury to a U.S. industry.

### Initiation of Investigation

Under section 702(c) of the Act, we must determine, within 20 days after a petition is filed, whether the petition sets forth the allegations necessary for the initiation of a countervailing duty investigation, and whether it contains information reasonably available to the petitioners supporting the allegations. We have examined the petition on certain steel wire nails and have found that it meets the requirements of section 702(b) of the Act. Therefore, we are initiating a countervailing duty investigation to determine whether manufacturers, producers, or exporters in Thailand of certain steel wire nails as described in the "Scope of Investigation" section of this notice, receive benefits which constitute bounties or grants within the meaning of the Act. If our investigation proceeds normally, we will make our preliminary determination on or before July 14, 1987.

### Scope of Investigation

The United States has developed a system of tariff classification based on the international harmonized system of Customs nomenclature. Congress is considering legislation to convert the United States to this Harmonized System ("HS") by January 1, 1988. In view of this, we will be providing both the appropriate *Tariff Schedule of the United States Annotated* ("TSUSA") item numbers and the appropriate HS item numbers with our product descriptions on a test basis, pending Congressional approval. As with the TSUSA, the HS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

We are requesting petitioners to include the appropriate HS item number(s) as well as the TSUSA item number(s) in all new petitions filed with the Department. A reference copy of the proposed Harmonized System schedule is available for consultation at the Central Records Unit, Room B-099, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230. Additionally, all Customs offices have reference copies, and petitioners may contact the Import Specialist at their local Customs office to consult the schedule.

The products covered by this investigation are certain steel wire nails from Thailand. These nails are: one-piece steel wire nails as currently provided for in TSUSA item numbers 646.2500 and 646.2610–90, and similar steel wire nails of one-piece construction, whether at, over or under .065 inch in diameter as provided for in item number 646.3040; two-piece steel wire nails as provided for in item number 646.3200; and steel wire nails with lead heads as provided for in item number 646.3600. These products are currently classifiable under HS item numbers 7317.0055, 7317.0065, 7317.0075 and 7616.1010.

**Allegations of Bounties or Grants**

The petition lists a number of practices by the Government of Thailand which allegedly confer bounties or grants on manufacturers, producers, or exporters in Thailand of certain steel wire nails. We are initiating an investigation on the following alleged programs:

- Export Packing Credits under the "Regulations Governing the Rediscount of Promissory Notes Arising from Exports;"
- Rediscounts of Industrial Bills under the "Regulations Governing the Rediscount of Promissory Notes Arising from Industrial Undertakings;"
- Electricity Discounts for Exporters;
- Tax Certificates for Exports;
- Investment Promotion Act:

—Section 31: Income Tax Exemption
—Section 33: Goodwill and Royalties Exemption
—Section 34: Tax Deduction for Dividends
—Section 36: Benefits for International Trading Companies;

- Export Processing Zones;
- Export Promotion Fund;
- Sales Tax Exemptions for Promoted Industries; and
- Business Tax Exemption for Manufacturers of Construction Materials.

This notice is published pursuant to section 702(c)(2) of the Act.

**Gilbert B. Kaplan,**

*Deputy Assistant Secretary for Import Administration.*

## National Bureau of Standards

**[Docket No. 70474-7074]**

## National Voluntary Laboratory Accreditation Program

**AGENCY:** National Bureau of Standards, Commerce.

**ACTION:** Notice; request for comments.

**SUMMARY:** The National Bureau of Standards (NBS) has received a request to establish a laboratory accreditation program under the procedures of the National Voluntary Laboratory Accreditation Program (NVLAP) (15 CFR Part 7). In a letter dated March 13, 1987, the California Energy Commission, Sacramento, CA, requested that NBS establish an accreditation program for laboratories that test plumbing fixtures fittings. A copy of the request letter is set out as an appendix to this notice. Announcement of this request by the California Energy Commission and of the NBS request for comments with respect thereto are being made under § 7.11(d) of the referenced procedures.

**DATE:** Comments must be submitted in writing on or before July 17, 1987.

**ADDRESS:** Comments may be mailed to the Director, Office of Product Standards Policy, National Bureau of Standards, ADMIN A603, Gaithersburg, MD 20899.

**FOR FURTHER INFORMATION CONTACT:** Lawrence S. Galowin, Laboratory Accreditation, National Bureau of Standards, ADMIN A531, Gaithersburg, MD 20899; phone (301) 975-4022.

**SUPPLEMENTARY INFORMATION:**

**Scope of LAP**

The California Energy Commission NVLAP request concerns their regulatory jurisdiction for energy efficiency on a statewide basis. The selected plumbing fittings (showerheads, kitchen faucets and lavatory faucets including public restroom lavatory faucets) use significant amounts of energy in the state. The requestor finds that effectiveness of regulations depends on credibility of testing and certification. Other interests beyond flow rate testing consider quality and safety aspects of plumbing fixture fittings. Consequently, the program should cover all aspects of ANSI Standard A112.18.1M–1979 (current revision under development) for all plumbing fixture fittings within the scope of that standard. The California Energy Commission expects that it would be petitioned to have participation in NVLAP become a condition of approval of test laboratories to eliminate unsubstantiated claims and assure quality of products in accordance with the ANSI standard.

**Procedure Following Receipt of Comments**

After the 60 day comment period, NBS will thoroughly evaluate all comments pertaining to the proposed program and will notify all interested persons (those who submit comments or request to be placed on the NVLAP mailing list) of the decision, by the Director of NBS, regarding development of this program. If the decision is made to develop the program, technical assistance will be sought from all interested parties to develop the technical requirements for assessing applicants and establishing appropriate proficiency testing programs.

**Documents in Public Record**

All comments in response to this notice will be made part of the public record and will be available for inspection and copying at the NBS Records Inspection Facility, Administration Building, Room E106, Gaithersburg, Maryland.

Dated: May 12, 1987.

**Ernest Ambler,**

*Director.*

March 13, 1987

**Lawrence S. Galowin,**

*National Bureau of Standards, Washington, D.C. 20234*

Dear Mr. Galowin: Michael Martin has passed me the information you sent him about the National Voluntary Laboratory Accreditation Program and how to request new programs.

The California Energy Commission has for eleven years regulated the energy efficiency of all appliances which use a significant amount of energy on a statewide basis. Plumbing fittings (specifically showerheads, lavatory faucets and kitchen faucets) fall into that category. We have found that the effectiveness of these regulations depends on the credibility of those who test and certify. We therefore urge you to develop a laboratory accreditation program for plumbing fixture fittings. We also urge the ASME A112 Committee at its meeting in New York on April 27, 1987 to pass a resolution supporting such a request.

Should you have any questions, please contact R. Michael Martin at (916) 324-3354 or at the ASME April 27th meeting.

Sincerely,

G. William Pennington,

*Manager, New Building and Appliance Efficiency Office.*

**Request for Laboratory Accreditation Program**

1. *Scope of Program.*

Since the California Energy Commission's jurisdiction is limited to energy related subjects, we are requesting only a program for the flow rate testing of showerheads, kitchen faucets and lavatory faucets including public restroom lavatory faucets. Since other parties have interests in quality and safety aspects of a wider range of plumbing fixture fittings, it would be logical for the program to cover all aspects of ANSI Standard A112.18.IM–1979 and all plumbing fixture fittings within the scope of that standard.

2. *Applicable Standards and Test Methods.*

ANSI/ASME A112.18.1–1987 Plumbing Fixture Fittings (a revision of ANSI A112.18.IM–1979 presently being developed by the ASME A112 Committee).

3. *Statement of Need.*

i. *Technical and Economic Reasons.* The California Energy Commission in 1986 completed a rulemaking proceeding which determined that a need for approval of testing laboratories existed (a) because some certification of flow rates to CEC contained unsubstantiated claims and (b) because poor quality products which do not comply with the quality requirements of the ANSI standard were being sold in quantities (frequently from Far East sources). The CEC set up a program of approving laboratories for testing flow rate. The approval is based solely on the submittal of a written application and includes no on-site inspection. It is likely that if a NVLAP system of approval existed, the CEC would be petitioned to make participation in the NVLAP program a conditions of approval of a laboratory.

ii. *Evidence of Need Beyond Existing Programs.* We are unaware of any accreditation program other than the CEC laboratory approval program which we consider to be inadequate.

iii. *Estimated Number of Laboratories.* Twenty-four laboratories have requested approval by the CEC for testing flow rates. Applications are still coming in. We estimate a national program would have thirty laboratories. Some of these would be in Europe and the Far East.

iv. *Estimated Number of Users of the Laboratories.* We estimate that one hundred companies would use the laboratories accredited by NVLAP. Some of these companies would be in Europe and the Far East. The number of companies would depend on the scope of the program.

4. *Statement of Support.*

The Commission believes that financial support should be provided by the manufacturers who use the laboratories and the cost passed on to those who buy the fittings. The Commission pledges enthusiastic staff support in the development and management of the program.

### Marine Mammals; Issuance of Permit; National Marine Fisheries Service, Northwest and Alaska Fisheries Center

On October 10, 1986, notice was published in the **Federal Register** (51 FR 36458) that an application has been filed by the Northwest and Alaska Fisheries Center, National Marine Mammal Laboratory, 7600 Sand Point Way NE., BIN C15700, Seattle, Washington 98115 to take gray whales (*Eschrichtius robustus*) and humpback whales (*Megaptera novaeangliae*) for scientific research.

Notice is hereby given that on May 8, 1987 as authorized by the provisions of the Marine Mammal Protection Act (16 U.S.C. 1361–1407) and the Endangered Species Act of 1973 (16 U.S.C. 1531–1543), the National Marine Fisheries Service issued a Permit for the above taking subject to certain conditions set forth therein.

Issuance of this Permit as required by the Endangered Species Act of 1973 is based on a finding that such Permit: (1) was applied for in good faith; (2) and will be consistent with the purposes and policies set forth in section 2 of the Endangered Species Act of 1973. This Permit was also issued in accordance with and is subject to Parts 220–222 of Title 50 CFR, the National Marine Fisheries Service regulations governing endangered species permits.

This Permit is available for review in the following offices:

Office of Protected Resources and Habitat Programs, National Marine Fisheries Service, 1825 Connecticut Avenue, NW Room 805, Washington, DC; and

Director, Alaska Region, National Marine Fisheries Service, 709 West Street, Federal Building, Juneau, Alaska 99802;

Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Federal Building, Gloucester, Massachusetts 01930

Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Point Way, B.E., BIN C15700 Seattle, Washington 98115

Director, Southeast Region, National Marine Fisheries Service, 9450 Koger Boulevard, St. Peterburg, Florida 33702

Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, California 90731–7415.

Dated: May 11, 1987.

Dr. Nancy Foster, *Director, Office of Protected Resources and Habitat Programs, National Marine Fisheries Service.*

### Marine Mammals; Application for Permit; Dr. Richard H. Lambertsen

Notice is hereby given that an Applicant has applied in due form for a Permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), the Endangered Species Act of 1973 (16 U.S.C. 1531–1544), and the National Marine Fisheries Service regulations governing endangered fish and wildlife permits (50 CFR Parts 217–222).

1. Applicant: Dr. Richard H. Lambertsen, Director, Institute of Biomedical Aquatic Studies, University of Florida Box J–144, Gainesville, Florida 32610.

2. Type of Permit: Scientific Research/Scientific purposes.

3. Name and Number of Marine Mammals: An unspecified number of all species of cetaceans.

4. Type of Take: Harassment during close approach for photography and underwater photography for the analysis of feeding behavior, kinematics, jaw dynamics, and body velocity profiles of cetaceans.

5. Location of Activity: U.S. coastal waters, S.E. Alaska, Hawaiian Islands.

6. Period of Activity: 5 Years.

Concurrent with the publication of this notice in the Federal Register, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, U.S. Department of Commerce, Washington, DC 20235, within 30 days of the publication of this notice. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries.

All statements and opinions contained in this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review in the following offices:

Office of Protected Resources and Habitat Programs, National Marine Fisheries Service, 1825 Connecticut Avenue, NW., Room 805, Washington, DC;

Director, Alaska Region, National Marine Fisheries Service, 709 West 9th Street, Federal Building, Juneau, Alaska 99802;

Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Federal Building, Gloucester, Massachusetts 01930;

Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Point Way, NE., BIN C15700, Seattle, Washington, 98115;

Director, Southeast Region, National Marine Fisheries Service, 9450 Koger Boulevard, St. Petersburg, Florida 33702; and

Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, California 90731–7415.

Dated: May 11, 1987.

Nancy Foster,

*Director, Office of Protected Resources and Habitat Programs, National Marine Fisheries Service.*

BILLING CODE 3510-22-M

## Permits; Foreign Fishing

This document publishes for public review a summary of applications received by the Secretary of State requesting permits for foreign vessels to fish in the exclusive economic zone under the Magnuson Fishery Conservation and Management Act (Magnuson Act, 16 U.S.C. 1801 *et seq.*)

Send comments on applications to: Fees, Permits and Regulations Division (F/M12), National Marine Fisheries Service, Department of Commerce, Washington, DC 20235.

or, send comments to the Fishery Management Council(s) which review the application(s), as specified below:

Douglas G. Marshall, Executive Director, New England Fishery Management Council, 5 Broadway (Route 1), Saugus, MA 01906, 617/231–0422

John C. Bryson, Executive Director, Mid-Atlantic Fishery Management Council, Federal Building Room 2115, 320 South New Street Dover, DE 19901, 302/674–2331

Robert K. Mahood, Executive Director, South Atlantic Fishery Management Council, Southpark Building, Suite 306, 1 Southpark Circle, Charleston, SC 29407, 803/571–4366

Omar Munoz-Roure, Executive Director, Caribbean Fishery Management Council, Banco De Ponce Building, Suite 1108, Hato Rey, PR 00918, 809/753–4926

Wayne E. Swingle, Executive Director, Gulf of Mexico Fishery Management Council, Lincoln Center, Suite 881, 5401 West Kennedy Blvd., Tampa, FL 33609, 813/228–2815

Joseph C. Greenley, Executive Director, Pacific Fishery Management Council, Metro Building, Suite 420, 2000 S.W. First Avenue, Portland, OR 97201, 503/221–6352

Jim H. Branson, Executive Director, North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, AK 99510, 907/274–4563

Kitty M. Simonds, Executive Director, Western Pacific Fishery Management Council, 1164 Bishop Street, Room 1405, Honolulu, HI 96813, 808/523–1368.

For further information contact John D. Kelly or Shirley Whitted (Fees, Permits, and Regulations Division, 202–673–5319).

The Magnuson Act requires the Secretary of State to publish a notice of receipt of all applications for such permits summarizing the contents of the applications in the Federal Register. The National Marine Fisheries Service, under the authority granted in a memorandum of understanding with the Department of State effective November 29, 1983, issues the notice on behalf of the Secretary of State.

Individual vessel applications for fishing in 1987 have been received from the Governments shown below.

Dated: May 12, 1987.

Richard B. Roe,

*Director, Office of Fisheries Management, National Marine Fisheries Service.*

Fishery codes and designation of Regional Fishery Management Councils which review applications for individual fisheries are as follows:

| Code | Fishery | Regional fishery management councils |
|---|---|---|
| ABS | Atlantic Billfishes and Sharks. | New England, Mid Atlantic, South Atlantic, Gulf of Mexico, Caribbean. |
| BSA | Bering Sea and Aleutian Islands Groundfish. | North Pacific. |
| GOA | Gulf of Alaska | North Pacific. |
| NWA | Northwest Atlantic Ocean. | New England, Mid-Atlantic. |
| SNA | Snails (Bering Sea) | North Pacific. |
| WOC | Pacific Groundfish (Washington, Oregon and California). | Pacific. |
| PBS | Pacific Billfishes and Sharks. | Western Pacific. |

Activity codes which specify categories of fishing operations applied for are as follows:

| Activity code | Fishing operations |
|---|---|
| 1 | Catching, processing and other support. |
| 2 | Processing and other support only. |
| 3 | Other support only. |
| * | Vessel(s) (in support of U.S. vessels Joint Venture). |
| ** | Cargo transport vessels with fish finding equipment on board will receive an activity code 2 to enable them to perform both scouting as well as support activities. |

| Nation, vessel name, vessel type | Application No. | Fishery | Activity |
|---|---|---|---|
| Government of the People's Republic of China: | | | |
| *Yan Yuan No. 2*, Factory Ship | CH-87-0006 | BSA, WOC, GOA | 1*, 2* |
| *Yun Hai*, Factory Ship | CH-87-0007 | BSA, WOC, GOA | 1*, 2* |

| Nation, vessel name, vessel type | Application No. | Fishery | Activity |
|---|---|---|---|
| Government of the German Democratic Republic: | | | |
| *Evershagen*, Cargo/Transport Vessel | GC-87-0057 | NWA | 3 |
| Government of Japan: | | | |
| *Atago Maru*, Cargo/Transport Vessel | JA-87-0195 | BSA, GOA, NWA, SNA | 3 |
| *Eniwa Maru*, Large Stern Trawler | JA-87-0998 | BSA, GOA | 1*, 2* |
| *Heiklu*, Cargo/Transport Vessel | JA-87-0196 | BSA, GOA, SNA, NWA | 3 |
| *Sanyo Maru*, Cargo/Transport Vessel | JA-87-0024 | BSA, GOA, SNA, NWA | 3 |
| *Kaiyo Maru No. 28*, Medium Stern Trawler | JA-87-1544 | BSA | 1 |
| *Ryoun Maru No. 8*, Pot Fishing Vessel | JA-87-0850 | SNA | 1 |
| *Kiyo Maru*, Cargo/Transport Vessel | JA-87-1026 | BSA, GOA, NWA, SNA | 3 |
| *Uno Maru No. 8*, Cargo/Transport Vessel | JA-87-1032 | BSA, GOA, NWA, SNA | 3 |

| Government of the Kingdom of the Netherlands: | | | |
| *Friesland*, Large Stern Trawler | NL-87-0031 | NWA | 1* |
| *Geertruid Margreta*, Medium Stern Trawler | NL-87-0032 | NWA | 1* |
| Government of the Polish People's Republic: | | | |
| *Altair*, Large Stern Trawler | PL-87-0115 | BSA, WOC, GOA | 1*, 3* |
| *Gopto*, Medium Stern Trawler | PL-87-0057 | BSA, WOC | 1* |
| *Kociewie*, Cargo/Transport Vessel | PL-87-0116 | BSA, GOA, NWA, WOC | 3 |
| Union of the Soviet Socialist Republics: | | | |
| *Aleksandr Ivanov*, Cargo/Transport Vessel | UR-87-0575 | NWA | 3 |
| *Mys Lazareva*, Large Stern Trawler | UR-87-0013 | BSA, GOA | 1*, 2* |
| *Mys Svobodnyi*, Large Stern Trawler | UR-87-0544 | BSA, GOA | 1*, 2* |
| *Paudzha*, Large Stern Trawler | UR-87-0704 | BSA, GOA | 1*, 2* |
| *Tatarstan*, Large Stern Trawler | UR-87-0903 | BSA, GOA, WOC | 3 |
| *Serebriannyi*, Cargo/Transport Vessel | UR-87-0797 | BSA, GOA | 3 |
| *Soiuz-5*, Large Stern Trawler | UR-87-0226 | BSA, GOA | 1*, 2* |

**Joint Venture**

The Government of the Republic of Korea has submitted a permit application requesting authorization for joint venture activities in the Washington, Oregon, California Trawl (WOC) fisheries. The species requested is Pacific whiting in the amount of 2500 mt for directed fishing and 2500 mt for joint venture activities. The designated American partner is Dona JV Fisheries, Seattle, WA.

The Government of Japan has submitted a permit application for the *Kohoku Maru No. 7* requesting authorization for joint venture activities in the Bering Sea and Aleutian Islands fisheries. The following table summarizes that request:

BERING SEA AND ALEUTIAN ISLANDS FISHERY

[In metric tons]

| Country | Yellowfin sole | Pacific cod | Pollock | Flounder and other flatfish | U.S. Partner |
|---|---|---|---|---|---|
| Japan | 1,120 | 270 | 130 | 480 | Profish Int'l, Inc., Seattle, WA |

BILLING CODE 3510-22-M

## COMMODITY FUTURES TRADING COMMISSION

### Leverage Survey

**AGENCY:** Commodity Futures Trading Commission.

**ACTION:** Notice of availability of leverage survey questionnaire.

**SUMMARY:** The Commodity Futures Trading Commission ("Commission" or "CFTC") has been directed by Congress, pursuant to section 109 of the Futures Trading Act of 1986, Pub. L. No. 99-641, 100 Stat. 3556 (1986), to conduct a survey, with the assistance of a registered futures association, to identify the number of firms interested in entering the leverage business. The Commission and the National Futures Association ("NFA") have now developed a leverage survey questionnaire and an accompanying explanatory cover letter which may be obtained by interested persons upon a telephone or written request to the NFA.

**DATE:** Responses to the leverage survey questionnnaire are due by no later than August 15, 1987.

**ADDRESS:** A leverage survey questionnaire may be obtained by writing to the NFA Information Center, 200 West Madison Street, Suite 1600, Chicago, Illinois 60606.

**FOR FURTHER INFORMATION CONTACT:** A leverage survey questionnaire may also be obtained by calling the NFA Information Center toll-free at (800) 621-3570 (in Illinois, 800-572-9400). Any questions regarding the survey questionnaire can be directed to Steven S. Andrews, Compliance Manager, NFA, (312) 781-1322, Regina L. Glasscock, Compliance Supervisor, NFA, at (312) 781-1300, Lawrence B. Patent, Associate Chief Counsel, Division of Trading and Markets, CFTC, at (202) 254-8955, or David R. Merrill, Assistant General Counsel, CFTC, at (202) 254-9880.

**SUPPLEMENTARY INFORMATION:** Leverage contracts are long-term contracts (ten years or longer) involving gold, silver or platinum entered into directly between a leverage transaction merchant or "LTM" and a customer. Unlike futures contracts, leverage contracts are not traded on exchanges. The current regulatory framework for leverage transactions requires registration of LTMs and their salespeople as well as the leverage commodities they offer. LTMs are also subject to minimum financial, disclosure, recordkeeping and reporting requirements.

The NFA plans to mail the leverage survey questionnaire to all of its member futures commission merchants and to those member introducing brokers which are also securities broker-dealers. A direct mailing to certain banks and metals firms will also be made. However, a firm need not be in the metals business or registered with

the CFTC or any other regulatory agency to have an interest in entering the leverage business or to participate in the survey.

Issued in Washington, DC, on May 13, 1987 by the Commission.

Jean A. Webb,

*Secretary of the Commission.*

## DEPARTMENT OF DEFENSE

### Office of the Secretary

### Defense Science Board Task Force on Improving the Acquisition Management Process for Conventional Munitions Meeting

**ACTION:** Notice of Advisory Committee Meetings.

**SUMMARY:** The Defense Science Board Task Force on Improving the Acquisition Management Process for Conventional Munitions will meet in closed session on June 9, 1987 at the Pentagon, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting the Task Force will reconvene to evaluate the managerial aspects (both organizational and procedural) of the acquisition management process of conventional munitions systems.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. No. 92-463, as amended (5 U.S.C. App. II, (1982)), it has been determined that this DSB Task Force meeting, concerns matters listed in 5 U.S.C. 552b(c)(1) (1982), and that accordingly this meeting will be closed to the public.

Patricia H. Means,

*OSD Federal Register Liaison Officer, Department of Defense.*

May 12, 1987.

### Graduate Medical Education Advisory Committee; Open Meeting

**AGENCY:** Department of Defense Graduate Medical Education Advisory Committee.

**ACTION:** Notice of open meeting.

**SUMMARY:** Pursuant to the provisions of Pub. L. 92-463, notice is hereby given that an open meeting of the Department of Defense Graduate Medical Education Advisory Committee has been scheduled as follows:

**DATE:** June 12, 1987, 8:00 a.m. to 5:00 p.m.

**ADDRESS:** Sheraton National Hotel, Columbia Pike and Washington Boulevard, Arlington, Virginia.

**FOR FURTHER INFORMATION CONTACT:** Lieutenant Colonel Michael Herndon, Executive Secretary, DoD Graduate Medical Education Advisory Committee, Office of the Assistant Secretary of Defense (Health Affairs), Room 3E349, the Pentagon, Washington, DC 20301 (202) 694-5355.

**SUPPLEMENTARY INFORMATION:** This will be the tenth and final meeting of the Advisory Committee. The Advisory Committee will prepare and discuss the final Committee report.

Linda M. Lawson,

*Alternate OSD Federal Register Liaison Officer, Department of Defense.*

### Department of the Army

### Army Science Board; Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Committee Meeting:

Name of the committee: Army Science Board (ASB).

Date of meeting: 11 June 1987.

Time of meeting: 0800-1600 hours.

Place: Pentagon, Washington, DC.

Agenda: The Army Science Board 1987 Summer Study on Lightening the Force will meet in executive session for the purpose of developing and discussing preliminary issues and recommendations. Chairmen of the Technology Subgroup, Logistics Subgroup and Operational Subgroup will present their preliminary findings to the Panel. This meeting will be closed to the public in accordance with section 552b(c) of Title 5, U.S.C., specifically subparagraph (1) thereof, and Title 5, U.S.C., Appendix 1, subsection 10(d). The classified and nonclassified matters and proprietary information to be discussed are so inextricably intertwined so as to preclude opening any portion of the meeting.

The ASB Administrative Officer, Sally Warner, may be contacted for further information at (202) 695-3039 or 695-7046.

Sally A. Warner,

*Administrative Officer, Army Science Board.*

### Army Science Board; Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting:

Name of committee: Army Science Board (ASB).

Dates of meeting: 9-10 June 1987.

Times of meeting:

0900-1630 hours, 9 June 1987

0800-1500 hours, 10 June 1987

Place: LTV Company, Aerospace Divison, 1725 Jefferson Davis Highway (Suite 900), Crystal City, Arlington, VA.

Agenda: The Army Science Board Summer Study Panel for Army Force Cost Drivers will meet for briefings and discussions on findings determined by the Natural, Induced, and Process and Methods Subpanels. Executive session will focus on outlining overall findings and recommendations of the study, organizing activities between this meeting and the summer study, and the summer study itself at Fort Monroe, VA. This meeting will be closed to the public in accordance with section 552b(c) of Title 5, U.S.C., specifically subparagraph (1) thereof, and Title 5, U.S., Appendix 1, subsection 10(d). The classified and nonclassified matters and proprietary information to be discussed are so inextricably intertwined so as to preclude opening and portion of the meeting. Contact the Army Science Board Administrative Officer, Sally Warner, for further information at (202) 695-7046.

## DEPARTMENT OF EDUCATION

[CFDA 84.168B]

### Notice Inviting Applications for a New Award Under the Secretary's Discretionary Program for Mathematics, Science, Computer Learning, and Critical Foreign Languages for Fiscal Year 1987

*Purpose:* To fund a project of national significance to improve curricula in science.

*Deadline for Transmittal of Applications:* July 10, 1987.

*Applications Available:* May 20, 1987.

*Available Funds:* Approximately $500,000.

*Estimated Number of Awards:* 1.

*Estimated Size of Award:* $500,000.

*Project Period:* Up to 3 years.

*Applicable Regulations:* (a) The regulations governing the Secretary's

Discretionary Program for Mathematics, Science, Computer Learning, and Critical Foreign Languages at 34 CFR Part 755. Amendments to these regulations were published in the Federal Register on January 28, 1987 (52 FR 2891); and (b) the Education Department General Administrative Regulations at 34 CFR Parts 74, 75, 77, and 78.

*Priorities:* From the broader priority to "improve curricula in mathematics, science, computer learning, and critical foreign languages" at 34 CFR 755.11(b)(3), the Secretary has chosen the improvement of curricula in science as an absolute priority for this competition in accordance with 34 CFR 75.105(c)(3). Only those applications meeting this priority will be considered under this competition.

The Secretary particularly invites applications proposing a research center to examine what is and what should be learned and taught in science, how student performance in science is and should be assessed, and how content in science is and should be delivered through instruction. However, applications meeting this invitational priority will not receive an absolute or competitive advantage over other applications to conduct activities to improve curricula in science.

*Selection Criteria:* The program regulations at 34 CFR 755.30 authorize the Secretary to distribute 15 reserved points among the selection criteria described in the regulations at § 755.32 to bring the total of possible points to a maximum of 100 points. For the purposes of this competition, the Secretary will distribute the reserved points as follows:

*Plan of operation* (§ 755.32(a)). Ten (10) additional points will be added for a possible total of 20 points for this criterion.

*Quality of key personnel* (§ 775.32(b)). Five (5) additional points will be added for a possible total of 10 points for this criterion.

*For Application or Information Contact:* Conrad Katzenmeyer, Office of Educational Research and Improvement, Office of Research, Room 608–D, 555 New Jersey Avenue, NW., Washington, DC 20208–1430, 202–357–6026.

*Program Authority:* 20 U.S.C. 3972.

Dated: May 19, 1987.

**Chester E. Finn, Jr.,**

*Assistant Secretary for Educational Research and Improvement.*

BILLING CODE 4000–01–M

## DEPARTMENT OF ENERGY

### Financial Assistance Award; Intent To Renew Cooperative Agreement With the Alliance To Save Energy; Restricted Eligibility

**AGENCY:** Energy Department.

**ACTION:** Notice of restricted eligibility for cooperative agreement.

**SUMMARY:** The Department of Energy announces that pursuant to 10 CFR 600.7(b), it is restricting eligibility for an award under cooperative Agreement Number DE–FG01–87CE21020 to the Alliance to Save Energy (ASE) for energy conservation retrofit activities: Field studies, research, training and information dissemination.

Scope: This cooperative agreement will provide for energy conservation retrofit research, training and dissemination of results.

Field studies will consist of testing promising retrofit technologies in three different climatic areas, preparing a project plan, securing participation of utilities in those areas, comment/analysis of technical approaches and preparing technical summary reports for dissemination.

Research and Training include the development of a comprehensive retrofit audit methodology and development of curricula to enable technical schools and other training institutions to teach auditing methods and performance of retrofit installation and analyses.

Eligibility for award of the cooperative agreement is being limited to the Alliance to Save Energy because the new agreement is a continuation of, or is derived from, projects covered under an earlier cooperative agreement. In addition, the Alliance to Save Energy is a non-profit organization which provides the only demonstrated capability to secure the cooperation of state agencies, local utilities, private heating system contractors and state or regional trade associations due to their national network. This provides the necessary coordination to accomplish the goal of this program.

The term of this cooperative agreement shall be from approximately May 26, 1987, through September 30, 1988 and the project cost is estimated at $789,000.

**FOR FURTHER INFORMATION CONTACT:** U.S. Department of Energy, Office of Procurement Operations, Attn: Shari Daniels, MA–453.2, 1000 Independence Avenue SW., Washington, DC 20585.

**Stephen J. Michaleen,**

*Director, Contract Operations Division "B", Office of Procurement Operations.*

BILLING CODE 6450–01–M

## National Coal Council; Open Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770), notice is hereby given of the following meeting:

Name: National Coal Council.

Date and Time: Tuesday, June 2, 1987, from 7:30 a.m. to 12:00 Noon.

Place: Park Hyatt Hotel, 24th and M Streets, NW., Washington, DC 20037.

Contact: Georgia A. Benjamin, U.S. Department of Energy, Office of Fossil Energy (FE–23), Washington, DC 20545, Telephone: 301–353–4718.

Purpose of the Council: To provide advice, information, and recommendations to the Secretary of Energy on matters relating to coal and coal industry issues.

Tentative Agenda:

—Call to Order by James McGlothlin, Chairman.
—Remarks by Chairman McGlothlin.
—Remarks by Department of Energy official.
—Report of the Coal Policy Committee.
—Report of the Nominating Committee.
—Discussion of any other business properly brought before the Council.
—Public Comment—10 minute Rule.
—Adjournment.

Public Participation: The meeting is open to the public. The Chairman of the Council is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Council will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should contact Ms. Georgia A. Benjamin at the address or telephone number listed above. Requests must be received at least 5 days prior to the meeting and reasonable provisions will be made to include the presentation on the agenda.

Transcripts: Available for public review and copying at the Public Reading Room, Room IE–190, Forrestal Building, 1000 Independent Avenue, SW., Washington, DC, between 9:00 and 4:00 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, DC, on May 12, 1987.

**J. Robert Franklin,**

*Deputy Advisory Committee Management Officer.*

## Coal Policy Committee of the National Coal Council; Open Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given of the following meeting:

Name: Coal Policy Committee of the National Coal Council.

Date and Time: Monday, June 1, 1987, from 12:30 p.m. to 4:30 p.m.

Place: Park Hyatt Hotel, 24th and M Streets, NW., Washington, DC 20037.

Contact: Georgia A. Benjamin, U.S. Department of Energy, Office of Fossil Energy (FE-23), Washington, DC 20545, Telephone: 301-353-4718.

Purpose of the Parent Council: To provide advice, information, and recommendations to the Secretary of Energy on matters relating to coal and coal industry issues.

Purpose of the Meeting: For the Committee to discuss reports prepared by the National Coal Council with respect to requests from the Secretary of Energy for advice, information, and recommendations.

Tentative Agenda:

—Call to Order by Gerald Blackmore, Chairman.
—Approval of draft reports to be presented to full Council for consideration.
—Discussion of any other business properly brought before the Committee.
—Public Comment—10 Minute Rule.
—Adjournment.

Public Participation: The meeting is open to the public. The Chairman of the Council is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should contact Ms. Georgia A. Benjamin at the address or telephone number listed above. Requests must be received at least 5 days prior to the meeting and reasonable provisions will be made to include the presentation on the agenda.

Transcripts: Available for public review and copying at the Public Reading Room, Room IE-190, Forrestal Building, 1000 Independent Avenue, SW., Washington, DC, between 9:00 and 4:00 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, DC, on May 12, 1987.

## Energy Information Administration

### Agency Collections Under Review by the Office of Management and Budget

**AGENCY:** Energy Information Administration, DOE.

**ACTION:** Notice of requests submitted for clearance to the Office of Management and Budget.

**SUMMARY:** The Department of Energy (DOE) has submitted the energy information collection(s) listed at the end of this notice to the Office of Management and Budget (OMB) for approval under provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

The listing does not contain information collection requirements contained in new or revised regulations which are to be submitted under 3504(h) of the Paperwork Reduction Act, nor management and procurement assistance requirements collected by DOE.

Each entry contains the following information: (1) The sponsor of the collection (DOE component or Federal Energy Regulatory Commission (FERC)); (2) collection number(s); (3) current OMB docket number (if applicable); (4) collection title; (5) type of request, e.g., new, revision, or extension; (6) frequency of collection; (7) response obligation, i.e., mandatory, voluntary, or required to obtain or retain benefit; (8) affected public; (9) an estimate of the number of respondents per report period; (10) an estimate of the number of responses annually; (11) annual respondent burden, i.e., an estimate of the total number of hours needed to respond to the collection; and (12) a brief abstract describing the proposed collection and the respondents.

**DATES:** Comments must be filed by June 17, 1987. Last notice published Monday, May 4, 1987, 52 FR 16307.

**ADDRESS:** Address comments to the Department of Energy Desk Officer, Office of Management and Budget, 726 Jackson Place NW., Washington, DC 20503. (Comments may also be addressed to, and copies of the submissions obtained from, Mr. Gross at the address below.)

**FOR FURTHER INFORMATION CONTACT:** John Gross, Director, Data Collection Services Division (EI-73), Energy Information Administration, M.S. 1H-023, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-2308.

**SUPPLEMENTARY INFORMATION:** If you anticipate commenting on a collection, but find that time to prepare these comments will prevent you from submitting comments promptly, you should advise the OMB DOE desk officer of your intent as early as possible.

The energy information collection submitted to OMB for review was:

BILLING CODE 6450-01-M

## Federal Energy Regulatory Commission

[Docket No. EL85-19-114]

### Ohio River Basin, Illinois, Indiana, Kentucky, New York, Ohio, Pennsylvania, Virginia, and West Virginia; Intent to Hold Scoping Sessions and Public Hearings for the Ohio River Basin Environmental Impact Statement

May 13, 1987.

As referenced in the April 29, 1987, Notice of Intent to Prepare Environmental Impact Statement and to Hold Scoping Sessions and Public Hearings, the staff of the Federal Energy Regulatory Commission has determined that issuance of licenses for the development of 24 proposed hydroelectric projects [1] in the Ohio River Basin would constitute a major Federal action significantly affecting the quality of the human environment.

Interested persons and agencies are invited to provide comments and recommendations, including any supporting data, on the scope of the planned environmental impact statement (EIS). The target resources [2]

[1] FERC Project Nos. 2071, 3218, 3490, 4017, 4474, 4675, 6901, 6902, 6939, 6956, 7041, 7307, 7389, 7588, 7000, 7908, 7914, 8094, 8908, 8990, 9027, 9042, 9989, and 10009.

[2] A target resource is an important resource that could be adversely affected by two or more proposed hydropower projects. The staff has

Continued

will be evaluated in the EIS, along with other relevant resources and issues. Substantive evidence is requested that would support a conclusion that any one of the 24 projects would not contribute to cumulative impacts to the target resources and therefore should be excluded from further consideration of cumulative impacts within the Ohio River Basin. Substantive evidence should include but should not be limited to results of studies, resource management policies, and reports from Federal, State, and local agencies.

**Scoping Sessions**

Interested persons and agencies are invited to participate in two scoping sessions to discuss the environmental impact issues associated with the proposed 24 projects. One scoping session will be held on Thursday, June 11, 1987, from 9 a.m. to 12 noon, at the Courthouse Building (in the Gold Room), located on the corner of 5th and Grant Streets, in Pittsburgh, Pennsylvania. Another scoping session will be held on Wednesday, June 17, 1987, from 9 a.m. to 12 noon, at the Department of the Army, Corps of Engineers Federal Building (in the 6th Floor Conference Room), 502 Eighth Street, in Huntington, West Virginia.

Scoping sessions are used by the Commission staff to do the following: (1) Present environmental issues, which have been identified for coverage in the EIS, to the public and to experts familiar with the projects; (2) receive input from the public and from experts on the issues presented; (3) clarify the significance of issues; (4) identify additional issues for EIS treatment; and (5) identify issues that do not merit EIS treatment. Agencies and individuals with environmental expertise and concerns are encouraged to attend the sessions and to assist the Commission's staff in determining the issues to be addressed in the EIS. An EIS scoping document will be prepared and distributed to the interested parties before the EIS scoping sessions. For additional information, contact George Taylor at (202) 376–9288, or Brian Romanek at (202) 376–1730.

**Public Hearings**

Interested officials and members of the public are invited to express their views about the projects in two public hearings. One public hearing will be held on Thursday, June 11, 1987, from 7 p.m. to 10 p.m., at the Courthouse Building (in the Gold Room), located on the corner of 5th and Grant Streets, in Pittsburgh, Pennsylvania. Another public hearing will be held on Wednesday, June 17, 1987, from 7 p.m. to 10 p.m., at the Department of the Army, Corps of Engineers Federal Building (in the 6th Floor Conference Room), 502 Eighth Street, in Huntington, West Virginia.

The Commission's staff will conduct the public hearings. At these hearings, persons may take statements orally or in writing. The hearing will be recorded by a stenographer, and all statements, oral and written, will become part of the public hearing record. In addition, the public hearing record will remain open until June 30, 1987, and anyone may submit written comments on the projects until that time.

All written comments and recommendations must be addressed to Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, and should clearly show, on the first page, the caption, Ohio River Basin, Docket No. EL85–19–114, as well as the name and the FERC number of each project discussed.

For further information, please contact project manager George Taylor at (202) 376–9288, project manager Brian Romanek at (202) 376–1730, or attorney William O. Blome at (202) 357–8131.

**Kenneth F. Plumb,**

*Secretary.*

**[Docket Nos. CP87–303–000 et al.]**

**Natural Gas Certificate Filings; United Gas Pipe Line Co. et al.**

May 12, 1987.

Take notice that the followings filings have been made with the Commission:

**1. United Gas Pipe Line Co.**

[Docket No. CP87–303–000]

Take notice that on April 23, 1987, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251–1478, filed in Docket No. CP87–303–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205), for authorization to install a 2-inch sales tap on United's 8-inch Mississippi Power Company's Watson Generating Plant Main Line near Gulfport, Harrison County, Mississippi, under the authorization issued in Docket No. CP82–430–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

United states that the proposed sales tap would enable United to sell and deliver to Entex, Inc., the local distributor, an estimated daily average of 137 Mcf of gas per day for resale to the Intraplex -10 Industrial Park located near Gulfport, Harrison County, Mississippi, under United's Rate Schedule DG–N. It is explained that the effective service agreement for such service is dated November 17, 1971. United advises it has sufficient capacity to render the proposed service without detriment or disadvantage to United's other customers.

*Comment date:* June 26, 1987, in accordance with Standard Paragraph G at the end of this notice.

**2. Trunkline Gas Co.**

[Docket No. CP79–504–002]

Take notice that on April 30, 1987, Trunkline Gas Company (Petitioner), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP79–504–002 a petition to amend the authorization issued in Docket No. CP79–504 so as to modify Petitioner's transportation of natural gas on behalf of Amoco Production Company (Amoco), all as more fully set forth in the petition on file with the Commission and open to public inspection.

Petitioner explains that by Commission order issued on March 3, 1980, in Docket No. CP79–504, that it was authorized to receive, transport and redeliver up to 3,000 Mcf of natural gas per day on a firm basis on behalf of Amoco to assist Amoco in fulfilling a warranty sales agreement with Florida Gas Transmission Company (FGT). Petitioner states that it receives the natural gas at Amoco's production platform in South Timbalier Block 156, offshore Louisiana and redelivers such volumes for Amoco's account at the existing point of interconnection between Petitioner and FGT located in Calcasieu Parish, Louisiana. The underlying transportation agreement between Petitioner and Amoco, described in Petitioner's Rate Schedule T–57 of its FERC Gas Tariff, Original Volume No. 2, has an indefinite term tied to the life of Petitioner's facilities or to Amoco's discretion, it is noted. Petitioner also notes the Commission's March 3, 1980, order limited Petitioner's transportation service on behalf of Amoco to fulfill Amoco's warranty obligations to FGT only. Petitioner states that it has been advised that such warranty agreement between Amoco and FGT has been satisfied and that the

two parties have entered into a new sales agreement.

Petitioner specifically requests to have the warranty limitation removed from the Commission's authority as it currently applies to Rate Schedule T–57 service. Petitioner states that no other change is proposed for its transportation service on behalf of Amoco.

*Comment date:* June 2, 1987, in accordance with the first subparagraph of Standard Paragraph F at the end of this notice.

**3. Tennessee Gas Pipeline Co., A Division of Tenneco Inc.**

[Docket No. CP87–318–000]

Take notice that on April 30, 1987, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Texas 77252, filed in Docket No. CP87–318–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to establish a new delivery point to its existing firm sales customer New York State Electric & Gas Corporation (NYSEG) under the authorization issued in Docket No. CP82–413–000 pursuant to section 7(c) of the Natural Gas Act, all as more fully set forth in the request, which is on file with the Commission and open to public inspection.

Applicant states that pursuant to NYSEG's request, it has agreed to establish a new delivery point near Prattsburg, Steuben County, New York. According to Applicant, the new delivery point is necessary to enable NYSEG to render service to a new gas franchise area recently acquired by NYSEG.

The estimated $80,000 cost associated with the construction of the proposed new delivery point will be borne by NYSEG, it is stated.

Applicant further states that it does not propose to increase or decrease the total daily and/or annual quantities it is authorized to deliver to NYSEG. Applicant asserts that the establishment of the proposed new delivery point is not prohibited by Applicant's currently effective tariff and that it has sufficient capacity to accomplish the deliveries at the proposed new delivery point without detriment or disadvantage to any of Applicant's other customers.

*Comment date:* June 26, 1987, in accordance with Standard Paragraph G at the end of this notice.

**4. Southern Natural Gas Co.**

[Docket No. CP87–289–000]

Take notice that on April 15, 1987, Southern Natural Gas Company (Southern), P. O. Box 2563, Birmingham, Alabama 35202–2563, filed in Docket No. CP87–289–000 an application pursuant to section 7(c) of the Natural Gas Act for a limited-term certificate of public convenience and necessity authorizing for a term expiring on October 31, 1988, the transportation of natural gas for Bishop Pipeline Corporation (Bishop), acting as agent for various end-users, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Southern proposes to transport, on an interruptible basis, gas on behalf of Bishop, acting as agent in arranging for the transportation of natural gas supplies for Kimberly-Clark Corporation (Kimberly-Clark), United Merchants and Manufacturers (United), Allied Corporation, Engineered Materials Sector (Allied), AT&T Nassau Metals (AT&T), Pennwalt Corporation (Pennwalt) and TRT Corporation, Guilford Prints Division (TRT), hereinafter collectively referred to as "End-users."

Southern states that Bishop has agreed to sell gas to and act as agent for six End-users in order to serve their natural gas requirements.

Southern proposes to transport gas on behalf of Bishop in accordance with the terms and conditions of transportation agreements between Bishop, Southern and the End-users as shown below:

| End-user | Plant or sector | Location | Agreement date |
|---|---|---|---|
| Kimberly-Clark. | U.S. Pulp and Newsprint plant (U.S. Pulp Plant). | Coosa Pines, AL. | 1/22/87 |
| United | | Greenville, SC | 12/25/87 |
| Kimberly-Clark. | Nonwovens Support Group Plant (Nonwovens Plant). | LaGrange, GA | 1/22/87 |
| Allied | Engineered Materials. | Columbia, SC | 12/31/86 |
| AT&T | | Gaston, SC | 12/15/86 |
| Pennwalt | | Mableton, GA | 12/15/86 |
| TRT | Guilford Prints Division. | Augusta, GA | 11/11/86 |
| Kinberly-Clark | Household Products Sector Plant (Household Plant). | Beech Island, SC. | 1/22/87 |

Southern states that it has agreed to transport on an interruptible basis the following maximum daily volumes of natural gas that the End-users have arranged to purchase from Bishop: Up to 4,000 MMBtu to the Kimberly-Clark U.S. Pulp Plant; up to 2,500 MMBtu to United; up to 300 MMBtu to the Kimberly-Clark Nonwovens Plant; up to 3,500 MMBtu to Allied; up to 7,500 MMBtu to AT&T; up to 2,000 MMBtu to Pennwalt; up to 6,500 MMBtu to TRT; and up to 1,300 MMBtu to the Kimberly-Clark Household Plant.

Southern states that Bishop will cause gas to be delivered to Southern for transportation at the various existing point of delivery on Southern's contiguous pipeline system specified in Exhibit F to the Application. Southern states that it would redeliver for the account of Kimberly-Clark's U.S. Pulp Plant to the Waterworks, Sewer and Gas Board of the City of Childersberg, Alabama; for the account of Kimberly-Clark's Nonwovens Plant to the City of LaGrange, Georgia (LaGrange); for the account of Allied, AT&T and Kimberly-Clark's Household plant to South Carolina Pipeline Corporation (South Carolina); and for the account of Pennwalt and TRT to Atlanta Gas Light Company (Atlanta). Southern states that it would redeliver to United at the Clearwater Mill Meter Station in Aiken County, South Carolina. It is stated that an equivalent quantity of gas will be redelivered less 3.25 percent of such amount which shall be deemed to be used as compressor fuel and company-use gas (including system unaccounted-for gas losses); less any and all shrinkage, fuel or loss resulting from or consumed in the processing of gas; and less Bishop's pro-rata share of any gas delivered for Bishop's account which is lost or vented for any reason.

It is stated that Bishop would pay Southern each month for the transportation services rendered under the Kimberly-Clark U.S. Pulp Plant Agreement a transportation rate of 64.9 cents per MMBtu.

It is stated that Bishop would pay Southern each month for the transportation service rendered under the United Agreement a transportation rate of 77.6 cents per MMBtu.

It is stated that Bishop would pay Southern each month for performing the transportation service rendered under the Kimberly-Clark Nonwovens Plant Agreement the following transportation rates:

(a) Where the aggregate of the volumes transported and redelivered by Southern on any day to LaGrange under any and all transportation agreements with Southern, when added to the volumes of gas delivered under Southern's Rate Schedule OCD on such day to LaGrange do not exceed the daily contract demand of LaGrange, the transportation rate would be 39.9 cents per MMBtu; and

(b) Where the aggregate of the volumes transported and redelivered by Southern on any day to LaGrange under any and all transportation agreements with Southern, when added to the

volumes of gas delivered under Southern's Rate Schedule OCD on such day to LaGrange exceed the daily contract demand of LaGrange, the transportation rate for the excess volumes would be 64.9 cents per MMBtu.

It is stated that Bishop would pay Southern for the transportation services rendered under the Allied, AT&T, and Kimberly-Clark Household Plant Agreements the following transportation rates:

(a) Where the aggregate of the volumes transported and redelivered by Southern on any day to South Carolina under any and all transportation agreements with Southern, when added to the volumes of gas delivered under Southern's Rate Schedule OCD on such day to South Carolina do not exceed the daily contract demand of South Carolina, the transportation rate would be 48.2 cents per MMBtu; and

(b) Where the aggregate of the volumes transported and redelivered by Southern on any day to South Carolina under any and all transportation agreements with Southern, when added to the volumes of gas delivered under Southern's Rate Schedule OCD on such day to South Carolina exceed the daily contract demand of South Carolina, the transportation rate for the excess volumes would be 77.6 cents per MMBtu.

It is stated that Bishop would pay Southern for the transportation services rendered under the Pennwalt and TRT Agreements the following transportation rates:

(a) Where the aggregate of the volumes transported and redelivered by Soutern on any day to Atlanta under any and all transportation agreements with Southern, when added to the volumes of gas delivered under Southern's Rate Schedule OCD on such day to Atlanta do not exceed the daily contract demand of Atlanta, the transportation rate would be 48.2 cents per MMBtu; and

(b) Where the aggregate of the volumes transported and redelivered by Southern on any day to Atlanta under any and all transportation agreements with Southern, when added to the volumes of gas delivered under Southern's Rate Schedule OCD on such day to Atlanta exceed the daily contract demand of Atlanta, the transportation rate for the excess volumes would be 77.6 cents per MMBTtu.

It is further stated that Southern would also collect from Bishop the GRI surcharge of 1.52 cents per McF.

Southern also proposes to sell gas to the End-users in limited instances when the End-users take quantities of gas from Southern in excess of quantities actually delivered to Southern. Southern proposes to charge the End-users for excess takes at the effective rate provided for in Southern's Rate Schedule AO for the zone in which redeliveries would be made.

Southern states that the transportation arrangement will enable the End-users to diversify their natural gas supply sources and to obtain gas at competitive prices.

*Comment date:* June 2, 1987, in accordance with Standard Paragraph F at the end of this notice.

**5. Southern Natural Gas Co., South Georgia Natural Gas Co.**

[Docket No. CP87-282-000]

Take notice that on April 9, 1987, Southern Natural Gas Company (Southern), P.O. Box 2563, Birmingham, Alabama 35202-2563, and South Georgia Natural Gas Company (South Georgia) (jointly referred to as Applicants), P.O. Box 1279, Thomasville, Georgia 31792, filed in Docket No. CP87-282-000 an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Oil-Dri Corporation of Georgia (Oil-Dri), and for permission and approval to abandon the transportation service, all as more fully set forth in the application which is on file with the Commission and open to public insection.

Applicant proposes to transport up to 7,000 MMBtu of natural gas per day for Oil-Dri on an interruptible basis for a term expiring October 31, 1988.

It is stated that Oil-Dri has acquired the right to purchase gas from SNG Trading Inc., Diamond Shamrock Partners Limited Partnership, and Consolidated Fuel Supply Inc., (jointly referred to as Sellers), in order to serve the natural gas requirements of its plant in Ochlocknee, Georgia. It is claimed that in order to effectuate delivery of the gas, Meigs, the local distribution company that serves Oil-Dri, has agreed to deliver the gas to Oil-Dri's plant, and as agent for Oil-Dri to obtain the transportation of the gas through Southern's pipeline system. It is stated that Meigs, has entered into an agreement with South Georgia (Meigs Agreement), wherein South Georgia agreed to act as agent in arranging for the transportation of the gas through Southern's pipeline system, and that South Georgia, as agent for Meigs, and Southern entered into a transportation agreement (Southern-Meigs Agreement), under which Southern would transport the gas purchased by Oil-Dri to South Gerogia.

In addition it is asserted that Oil-Dri has entered into an agreement with South Georgia (South Georgia Agreement), for South Georgia to act as agent on behalf of Oil-Dri in arranging for the transportation of the gas through Southern's pipeline system, and that South Georgia and Southern entered into an agreement (Southern Agreement), under which Southern will transport the gas purchased by Oil-Dri from the Sellers.

Applicants state they have agreed to transport on an interruptible basis up to 4,000 MMBtu of gas per day purchased by Oil-Dri pursuant to the South Georgia Agreement, and up to 3,000 MMBtu of gas per day pursuant to the Meigs Agreement.

It is stated that under the Southern Agreement and the Southern-Meigs Agreement South Georgia would cause gas to be delivered to Southern for transportation at the various specified existing points of delivery on Southern's contiguous pipeline system, and that Southern would redeliver an equivalent quantity of gas less 3.25 percent of the volume transported for fuel use to South Georgia at the existing point of interconnection between the facilities of Southern and South Georgia in Lee County, Alabama (South Georgia Redelivery Point). It is further stated that the South Georgia Agreement and the Meigs Agreement provide for South Georgia to receive the gas for transportation on behalf of Oil-Dri at the South Georgia Redelivery Point and to deliver the gas to Meigs in Thomas County, Georgia, and to Oil-Dri in Thomas County, Georgia. Applicant states South Georgia would redeliver an equivalent volume of gas less 0.5 percent of the voume transported for fuel use.

Southern proposes to charge Oil-Dri a transportation rate of 39.9 cents where the aggregate of the volume transported and redelivered by Southern on any day to South Georgia under any and all transportation agreements with Southern, when added to the volumes of gas delivered to South Georgia under Rate Schedule OCD of Southern's FERC Gas Tariff do not exceed South Georgia's daily contract demand; for those volumes that exceed the daily contract demand, the transportation rate would be 64.9 cents per MMBtu.

South Georgia proposes to charge Oil-Dri a transportation rate of 49.88 cents for each MMBtu of gas redelivered by South Georgia under the South Georgia agreement. South Georgia also proposes to charge Meigs a transportation rate of 49.88 cents for each MMBtu of gas redelivered by South Georgia under the Meigs agreement. In addition it is stated

that either Meigs or Oil-Dri would reimburse South Georgia for all transportation and fuel charges South Georgia pays Southern for the transportation for Oil-Dri. In addition, the appropriate GRI surcharge would be collected.

*Comment date:* June 2, 1987, in accordance with Standard Paragraph F at the end of this notice.

**8. Algonquin Gas Transmission Co.**

[Docket No. CP87-317-000]

Take notice that on April 30, 1987, Algonquin Gas Transmission Company (Applicant), 1284 Soldiers Field Road, Boston, Massachusetts 02135, filed in Docket No. CP87-317-000 an application pursuant to section 7 of the Natural Gas Act and Subpart F of Part 157 of the Commission's Regulations for a blanket certificate of public convenience and necessity authorizing the construction, acquisition, and operation of certain facilities and sale of natural gas and for permission and approval to abandon certain facilities and services, all as more fully set in the petition on file with the Commission and open to public inspection.

*Comment date:* June 2, 1987, in accordance with standard Paragraph F at the end of this notice.

**Standard Paragraphs**

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken out will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person on the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

**Kenneth F. Plumb,**

*Secretary.*

[FR Doc. 87-11302 Filed 5-15-87; 8:45 am]

BILLING CODE 6717-01-M

---

[Docket Nos. CP87-296-000 et al.]

**Natural gas certificate filings; Southwest Gas Corp. et al.**

Take notice that the following filings have been made with the Commission:

**1. Southwest Gas Corporation**

[Docket No. CP87-296-000]

May 7, 1987.

Take notice, that on April 20, 1987, Southwest Gas Corporation (Southwest), P.O. Box 15015, Las Vegas, Nevada 89114, filed in Docket No. CP87-296-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to construct and operate a high pressure mainline sales tap and appurtenant facilities to enable the sale and delivery of natural gas to Gold Fields Mining Corporation (Gold Fields), a new retail customer, under the certificate issued in Docket No. CP84-739-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Southwest states that under the authorization issued in Docket No. CP84-739-000, Southwest was permitted to utilize the prior notice procedure of § 157.205 of the Commission's Regulations in connection with requests for authority to install and operate sales taps on its northern Nevada jurisdictional system to serve retail customers which are not being served by Southwest at any other location. Pursuant to such authorization, Southwest proposes to establish a sales tap to be located in Section 34, Township 42 North, Range 40 East, MDB&M, Humboldt County, Nevada. Southwest states that the tap would be used to provide up to 1,250 Mcf of natural gas per day for use by Gold Fields to meet its processing, space heating, and other energy requirements. It is estimated that the cost of the tap would be approximately $31,400, which cost would be reimbursed to Southwest by Gold Fields.

Southwest further states that service to Gold Fields would be rendered under the regulatory authority of the Public Service Commission of Nevada (PSCN) and in accordance with Southwest's rate schedules on file with the PSCN. Southwest asserts that it has sufficient capacity available to provide for the proposed deliveries without any detriment or disadvantage to any of its existing customers, and that the relatively small volumes anticipated to be delivered to Gold Fields would not affect Southwest's ability to serve its existing customers.

Comment date: June 22, 1987, in accordance with Standard Paragraph G at the end of this notice.

**2. Northwest Pipeline Corporation**

[Docket No. CP87-297-000]

May 11, 1987

Take notice, that on April 20, 1987, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84108, filed in Docket No. CP87-297-000, an application pursuant to Section 7(c) of the Natural Gas Act for authorization to construct and operate approximately 130 feet of 16-inch station piping, two 16-inch ball valves and any appurtenant facilities necessary to modify the existing Vernal Compressor Station; all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Northwest's Vernal Compressor Station compresses natural gas flowing in a northerly direction on Northwest's mainline. Northwest states that at times it is unable to delivery desired quantities of system supply gas

for injection into the Clay Basin Storage Field while concurrently maximizing transportation gas deliveries from receipt points north of Muddy Creek to Ignacio, Colorado at the southern terminus of its system. Northwest indicates that it has determined that having the capability to operate its Vernal Compressor station to compress gas flowing south would enable Northwest to increase injections into Clay Basin Storage Field when utilizing its full system capacity to flow gas south of Vernal.

All of the proposed facilities would be located within the Vernal Compressor Station site which is adjacent to Northwest's Ignacio-Sumas mainline in Uintah County, Utah, it is stated. The estimated cost of the subject facilities is approximately $163,600. The proposed modifications would enable the flow of an incremental 21 MMcf of gas per day from Muddy Creek south for injection into the Clay Basin Storage Field while maintaining mainline flows at system capacity.

Northwest states that it would obtain additional system reliability in having the flexibility to operate the Vernal Station in a southern direction should a unit at the Green River or Rangely Stations fail for any reason.

Comment date: June 1, 1987, in accordance with Standard Paragraph F at the end of this notice.

**3. Texas Gas Transmission Corporation**

[Docket No. CP86-143-006]

May 11, 1987.

Take notice, that on April 27, 1987, Texas Gas Transmission Corporation (Texas Gas), P.O. Box 1160, Owensboro, Kentucky 42302, filed in Docket No. CP86-143-006 a petition to amend the Commission's order issued February 14, 1986, in Docket No. CP86-143-000, as amended, pursuant to Section 7(c) of the Natural Gas Act so as to authorize an increase in the transportation volumes for several of the customers for whom transportation services is authorized, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Texas Gas states that by the order issued February 14, 1986, Texas Gas received authorization to transport natural gas on an interruptible basis for 52 end-user customers. By order issued February 12, 1987, it is stated, the Commission extended the term of the transportation service to the earlier of one year from the date of issuance of the order or until Texas Gas accepts a blanket certificate under Order No. 436.

Texas Gas proposes to increase the transportation volumes of several customers served under the authority granted in this docket.

| Customer | Transportation Volumes | |
|---|---|---|
| | Existing (MMBtu) | Proposed (MMBtu) |
| CSX Oil and Gas Corporation (formerly Texas Gas Exploration Corporation) | 80,364 | 85,000 |
| Brownsville/Haywood Company | 600 | 800 |
| Indiana Gas/Knauf Fiber Glass | 2,541 | 5,000 |
| Memphis/Humko Chemical | 5,086 | 6,400 |
| Western Kentucky Gas/General Tire | 4,580 | 5,670 |

Comment date: June 1, 1987, in accordance with Standard Paragraph F at the end of this notice.

**4. United Gas Pipe Line Company**

[Docket No. CP87-308-000]

May 11, 1987.

Take notice that on April 28, 1987, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77251-1478, filed in Docket No. CP87-308-000 an application pursuant to sections 7(b) and 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities and for permission and approval to abandon certain facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate 0.67 mile of 24-inch pipeline located in the Shell Chemical Company's Norco Refinery Yard in St. Charles Parish, Louisiana. Applicant explains that the proposed 24-inch pipe would replace an existing 16-inch mainline and 18-inch loopline which were installed in 1927 and have fallen into a state of disrepair. This section of pipe is part of Applicant's Baton Rouge-New Orleans line, it is indicated.

Applicant avers that it filed on February 19, 1987, in Docket No. CP87-214-000, an application to construct and operate 50.16 miles of 24-inch pipeline and to abandon by removal 53.9 miles of 18-inch pipeline and 16.6 miles of various diameter pipeline on its Baton Rouge-New Orleans line in three phases commencing in 1988 and ending in 1990. It is stated that the 0.67 mile of pipe proposed to be replaced in the instant application is part of the facilities included in the CP87-214-000 filing and were originally to be replaced in 1990. However, shortly after that filing was made, Applicant explains that it determined that the pipe in the Norco Refinery Yard should be replaced now rather than in 1990 because of operational considerations.

Applicant states that the estimated cost of the proposed project is $557,700.

Comment date: June 1, 1986, in accordance with Standard Paragraph F at the end of this notice.

**Standard Paragraphs**

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee in this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the

time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

[Project Nos. 9890-002 et al.]

**Surrender of preliminary permits; Artech, Inc., et al**

May 12, 1987.

Take notice that the following preliminary permits have been surrendered effective as described in Standard Paragraph I at the end of this notice.

**1. Artech Inc.**

[Project No. 9890-002]

Take notice that Artech, Inc., permittee for the proposed Upper and Lower Mesa Falls Project, has requested that its preliminary permit be terminated. The permit was issued on July 2, 1986, and would have expired June 30, 1989. The project would have been located on the Henry's Fork of the Snake River, in Fremont County, Idaho.

The permittee filed the request on April 23, 1987.

**2. The Town of Jackson, WY**

[Project No. 8052-001]

Take notice that The Town of Jackson, Wyoming, permittee for the proposed Jackson Lake Power Project, has requested that its preliminary permit be terminated. The permit was issued on July 25, 1985, and would have expired June 30, 1988. The project would have utilized the existing Bureau of Reclamations' Jackson Lake Dam and Reservoir, located on the Snake River, in Teton County, Wyoming. The permittee cites that the proposed project is a marginal project as the basis for the surrender request.

The permittee filed the request on April 20, 1987.

**3. Rocky Mountains Water Works Co.**

[Project No. 8942-001]

Take notice that Rocky Mountains Water Works Company, permittee for the proposed Independent Blue Ditch Project No. 8942 requested that its preliminary permit be terminated. The preliminary permit was issued on August 8, 1985, and would have expired on July 31, 1988. The project would have been located on the Blue River in Summit County, Colorado.

The permittee filed the request on April 10, 1987.

**Standard Paragraph**

I. The preliminary permit shall remain in effect through the thirtieth day after issuance of this notice unless that day is a Saturday, Sunday or holiday as described in 18 CFR 385.2007 in which case the permit shall remain in effect through the first business day following that day. New applications involving this project site, to the extent provided for under 18 CFR Part 4, may be filed on the next business day.

Kenneth F. Plumb,

*Secretary.*

[FR Doc. 87-11303 Filed 5-15-87; 8:45 am]

BILLING CODE 6717-01-M

---

[Docket Nos. QF84-323-001 et al.]

**Small Power Production and Cogeneration Facilities; Qualifying Status; Certificate Applications, etc. Fieldcrest Cannon, Inc., et al.**

Comment date: On or before June 17, 1987, in accordance with Standard Paragraph E at the end of this notice.

Take notice that the following filings have been made with the Commission.

**1. Fieldcrest Cannon, Inc.**

[Docket No. QF84-323-001]

May 12, 1987.

On May 4, 1987, Fieldcrest Cannon, Inc., (Applicant), of Eden, North Carolina 27288 submitted for filing an application for recertification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The 27,360 kW hydroelectric facility (FERC P.2655) will be located on the Chattahoochie River in Columbus, Georgia.

Recertification of the facility is requested to include the addition of one power house and three turbine generators having a total capacity of 23,100 kW. The combined total capacity of the facility will be 27,360 kW. In addition, the owner of the facility, formerly Fieldcrest Mills, Inc., is changed to Fieldcrest Cannon, Inc.

A separate application is required for a hydroelectric project license, preliminary permit or exemption from licensing. Comments on such applications are requested by separate public notice. Qualifying status serves only to establish eligibility for benefits provided by PURPA, as implemented by the Commission's regulations, 18 CFR Part 292. It does not relieve a facility of any other requirements of local, State or Federal law, including those regarding siting, construction, operation, licensing and pollution abatement.

**2. LUZ Solar Partners V, Ltd.**

[Docket No. QF87-402-000]

May 12, 1987.

On May 1, 1987, LUZ Solar Partners V, Ltd. (Applicant), a California Limited Partnership, c/o LUZ Engineering Corporation, a General Partner, 924 Westwood Boulevard, Suite 1000, Westwood, California 90024 submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located approximately 31 miles west of Barstow, California at the junction of U.S. Highway 395 and California Highway 58 at Kramer Junction, California. The primary energy source will be solar energy. The facility will consist of a solar collector field, a solar-fired preheater/steam generator, a solar-fired superheater, a separate natural gas-fired auxiliary boiler, a natural gas-fired emergency heat transfer fluid heater and a dual inlet steam turbine generator. The net electric power production capacity of the facility will be 30 MW. Potomac Capital Investment Corporation, a wholly-owned subsidiary of Potomac Electric Power Company, an electric utility, has an option to acquire equity interest in the limited partnership. No other small power production facilities owned by the Applicant and using the same energy source are located within one mile of the facility.

**3. Pennsauken Solid Waste Management Authority**

[Docket No. QF87-399-000]

May 11, 1987.

On April 28, 1987, Pennsauken Solid Waste Management Authority (Applicant), of 9600 River Road, Pennsauken, New Jersey 08110 submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Pennsauken, New Jersey. The facility will consist of two mass-burn steam generators and a

BEST COPY AVAILABLE

steam turbine generator. The primary energy source will be biomass in the form of municipal solid waste. The net electric power production capacity of the facility will be 8.9 MW. Installation of the facility will begin approximately in September 1987.

**Standard Paragraphs**

E. Any persons desiring to be heard or to protest said filing shoudl file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

**[Docket No. CP87-327-000]**

## Northwest Pipeline Corp.; Application

May 13, 1987.

Take notice that on April 30, 1987, Northwest Pipeline Corporation (Applicant), 295 Chipeta Way, Salt Lake City, Utah 84108, filed in Docket No. CP87-327-000 an application pursuant to section 7(c) of the Natural Gas Act for a limited-term certificate of public convenience and necessity authorizing the transportation of natural gas in inerstate commerce for the account of IGI Resources Inc. (IGI), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport up to 80,000 MMBtu of natural gas per day, on an interruptible basis, for the account of IGI for a term of two years commencing with the issuance and acceptance of regulatory authorization, pursuant to a gas transportation agreement datd April 23, 1987, which provides for transportation service under Rate Schedule T-4 and T-5 of Applicant's FERC Gas Tariff Volume 1-A.

It is stated that IGI owns or controls natural gas supplies which it would deliver to Applicant at various existing receipt points on Applicant's transmission system.

Applicant proposes to transport IGI's volumes on an interruptible basis, through its transmission system and redeliver to Intermountain Gas Company (Intermountain), its parent company, for ultimate delivery to essential agricultural end-users served by Intermountain at existing sales meter stations in Idaho.

It is asserted that the proposed transportation would enable IGI to provide the specific end-users with low-cost gas supplies that might not be available otherwise.

Applicant proposes to charge IGI for all volumes of gas transported and delivered under the transportation agreement at either the interruptible, incremental on system transportation rate or the interruptible, replacment on system transportation rate as set forth, respectively, in Applicant's Rate Schedules T-4 and T-5, FERC Gas Tariff, Volume No. 1-A. The T-4 transportation rate would apply to volumes transported during any months which are incremental to the corresponding 1984 monthly volumes for the end-users as indicated on Exhibit C of the transportation agreement it is stated, The T-5 transportation rate would apply to all volumes transported which are not incremental to the corresponding 1984 monthly volumes, it is stated.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 22, 1987, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission in its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

## Sole Source Designation of the Cross Valley Aquifer, Snohomish County and King County, WA

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of final determination.

**SUMMARY:** Pursuant to section 1424(e) of the Safe Drinking Water Act, the Administrator of the U.S. Environmental Protection Agency has determined that the Cross Valley Aquifer in Snohomish County and King County, Washington is the sole or principal source of drinking water for the Cross Valley area, and that the aquifer, if contaminated, would create a significant hazard to public health. As a result of this action, Federal financially assisted projects constructed in the designated area will be subject to EPA review to ensure that these projects are designed and constructed so that they do not create a significant hazard to public health.

**EFFECTIVE DATE:** This determination shall be promulgated for purposes of judicial review at 1:00 p.m. eastern time on June 1, 1987.

**ADDRESS:** The data upon which these findings are based are available to the public and may be inspected during normal business hours at the Environmental Protection Agency, Region 10 Library, 1200 Sixth Avenue, Seattle, Washington and the Snohomish Public Library, First and Cedar, Snohomish, Washington.

**FOR FURTHER INFORMATION CONTACT:** Steven Roy at (206) 442–2118 or FTS 399–2118.

**SUPPLEMENTARY INFORMATION:** Notice is hereby given that pursuant to section 1424(e) of the Safe Drinking Water Act (42 U.S.C., 300f, 300h–3(e), Pub. L. 93–523), the U.S. Environmental Protection Agency (EPA) has determined that the Cross Valley Aquifer located in Snohomish County and King County, Washington, is the sole or principal source of drinking water for much of the Cross Valley Water Association, Inc. service area and adjoining areas. Pursuant to section 1424(e), Federal financially assisted projects, constructed in this area, will be subject to EPA review.

### I. Background

Section 1424(e) of the Safe Drinking Water Act states: "If the Administrator determines, on his own initiative or upon petition, that an area has an aquifer which is the sole or principal drinking water source for the area and which if contaminated, would create a significant hazard to public health, he shall publish notice of that determination in the **Federal Register**. After the publication of such notice, no commitment for Federal financial assistance (through a grant, contract, loan guarantee, or otherwise) may be entered into for any project which the Administrator determines may contaminate such aquifer through a recharge zone so as to create a significant hazard to public health, but a commitment for Federal financial assistance may, if authorized under another provision of the law, be entered into to plan or design the project to assure that it will not so contaminate the aquifer."

On July 29, 1983, the Mount Forest Protection Association and the Cross Valley Water Association, Inc. submitted a petition requesting that the Administrator of the EPA designate the aquifer underlying the Cross Valley Water Association service area as the sole drinking water source for the area. Notice of this petition and a request for public comment was published in the **Federal Register** on September 15, 1983. In response to public comments and after analyzing additional information, the EPA Regional Office staff modified the boundary to coincide with the aquifer boundary rather than with the Water Association's service area boundary. A **Federal Register** notice was published on October 17, 1984, stating that (1) the Regional Office is proposing to recommend to the Administrator that the Cross Valley Aquifer be designated as a sole source aquifer, (2) a support document summarizing the bases for this recommendation (and describing the modified boundary) is available for review, (3) public comments are being requested, and (4) a hearing will be held if interest is expressed by the public. The hearing was subsequently cancelled due to lack of interest. The public comment period remained open until December 28, 1984. Public comments are discussed in Part V.

### II. Basis for Determination

Among the determinations which the Administrator must make in connection with the designation of an area under section 1424(e) are: (1) Whether the aquifer is the area's sole or principal source of water supply, and (2) whether, if contaminated, a significant hazard to public health would result.

Based on the information available to this Agency, EPA has made the following findings, which are the bases for the determination noted above:

1. The Cross Valley Aquifer is the principal source of drinking water for approximately 11,400 residents of the Cross Valley area in Snohomish County and King County. Approximately 77.6 per cent of drinking water used in the proposed area is supplied by the aquifer. There is no existing alternative drinking water source or combination of sources which could replace the aquifer should it become contaminated.

2. Because ground-water contamination can be difficult or impossible to reverse and because the aquifer in this area is the principal source of drinking water for the area's residents, contamination of the aquifer could pose a significant hazard to public health.

### III. Description of the Cross Valley Aquifer

The Cross Valley Aquifer is located in the Puget Sound lowland in the State of Washington, between Puget Sound and the Cascade Mountains. The 40 square mile aquifer is mostly situated in Snohomish County but extends south into northern King County. The northern and eastern boundaries of the aquifer lie close to the Snohomish River flood plain. To the south, the aquifer is approximately bounded by the county line.

Most of the Cross Valley area is an undulant drift plain with a north-south texture that is the result of glacial sculpturing. The subsurface geology, to a

depth of about 300 feet, is fairly well defined. At the surface is a mantle, up to 75 feet thick, of glacial till (hardpan). Below the till is a region-wide deposit of outwash sand and gravel with moderate permeability. This unit has been named the Esperance Sand by the U.S. Geological Survey. Below the Esperance Sand is a more complex sequence of clay and firmly cemented gravels that form a till. Information is meager on the extent and hydraulic characteristics of these deposits, but it is known that some permeable zones exist in the deeper section. Beneath the deeper glacial deposits lies bedrock composed of marine sediments and basalts.

Most wells in the area tap the unconfined Esperance Sand unit which is recharged by direct infiltration of precipitation. The Esperance Sand is generally capable of supplying yields up to 300 gpm from properly constructed wells. There is no water of regional importance in the bedrock. Available information indicates that the ground-water flows generally in a southerly direction in the main body of the aquifer. However, around the perimeter, the flow is toward the edge of the aquifer. The ground-water table is at an elevation of about 350 feet above mean sea level, which indicates that, depending on the land surface elevation, the ground water might be as deep as 200 feet below ground surface in the higher areas. In some areas the ground water is found perched above the regional water table.

There is no streamflow source zone associated with the Cross Valley Aquifer. The aquifer is recharged by downward percolation of precipitation on the plateau surface. Contamination from any surface or subsurface source can enter the aquifer by the same route. Potential sources of contamination include septic tanks, surface runoff from residential, commercial, and light industrial zones, and accidental spills or leaks of hazardous materials.

## IV. Project Review

When EPA publishes this determination for a sole or principal drinking water source, the consequence is that no commitment for Federal financial assistance may be made if EPA finds that the Federal financially-assisted project may contaminate the aquifer through a recharge zone so as to create a significant hazard to public health. . . . Safe Drinking Water Act section 1424(e), 42 U.S.C. 300h–3(e). Therefore, EPA will review Federal financially assisted projects to determine potential impacts on the aquifer, as specified by section 1424(e) of the Act. In some cases, proposed Federally-assisted projects may also be analyzed in an "Environmental Impact Statement" ("EIS"), under the National Environmental Policy Act ("NEPA"), 42 U.S.C. 4332(2)(C). All EISs, as well as any other proposed Federal actions affecting an EPA program or responsibility, are required by Federal law (under the so-called "NEPA/309" process)[1] to be reviewed and commented upon by the EPA Administrator.

Therefore, to streamline EPA's review of the possible environmental impacts on designated aquifers, when an action is analyzed in an EIS, the two reviews will be consolidated, and both authorities will be cited. The EPA review (under section 1424(e), Safe Drinking Water Act) of Federal financially-assisted projects potentially affecting sole or principal source aquifers, will be included in the EPA review (under the "NEPA/309" process) of any EIS accompanying the same Federally-assisted project. The letter transmitting EPA's comments on the final EIS to the lead agency will be the vehicle for informing the lead agency of EPA's actions under section 1424(e).

## V. Discussion of Public Comments

Three comment letters were received regarding EPA Region 10's proposal to recommend designation of the Cross Valley Sole Source Aquifer. Two of the commenters supported designation. A third commenter believed that insufficient information exists to designate the aquifer as a sole source. This commenter also stated that with designation of this aquifer as a precedent, much of the till/Esperance Sand upland areas in the Puget Sound area could be designated as sole source aquifer areas, and that this could result in limiting development in such areas.

EPA, however, has determined that there is an adequate basis for designation. Available geologic and water supply data have provided an understanding of the nature and extent of the aquifer area. These data have also allowed EPA to determine that 77.6 per cent of the water used by the population of the area is drawn from the aquifer. Designation of additional sole source aquifers in upland areas around Puget Sound may occur in the future, but only if criteria regarding dependency on ground water resources and availability of alternative water sources are met. Sole source aquifer designation has not limited development in any previously designated areas of Region 10. EPA has not used its veto authority to halt any projects, nor have any projects been cancelled by their sponsors in response to EPA requests for project modifications. EPA has closely cooperated with state and local agencies when conducting project reviews.

## VI. Summary

Today's action only affects the Cross Valley Aquifer in Snohomish and King Counties. This action provides a review process to insure that necessary ground-water protection measures are incorporated into Federal financially-assisted projects.

Dated: May 4, 1987.

## FEDERAL EMERGENCY MANAGEMENT AGENCY

### Agency Information Collection Submitted to the Office of Management and Budget for Clearance

The Federal Emergency Management Agency (FEMA) has submitted to the Office of Management and Budget the following information collection package for clearance in accordance with the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Type: Extension of 3067–0106.

Title: Flooded Property Purchase Program.

Abstract: Section 1362 of the National Flood Insurance Act of 1968 (Pub. L. 90–488) as amended (42 U.S.C. 4103), authorizes FEMA to purchase severely or repetitively damaged insured properties to reduce future Federal disaster costs. The forms will be used to collect data which determines eligibility, funding priorities and cost effectiveness.

Type of Respondents: Individuals or households, State or local governments, Farms, Businesses or other for-profit, Non-profit institutions, Small businesses or organizations.

Number of respondents: 165.

Burden Hours: 2,475.

Frequency of Recordkeeping or Reporting: Semi-annually.

Copies of the above information collection request and supporting documentation can be obtained by calling or writing the FEMA Clearance Officer, Linda Shiley, (202) 646–2624, 500 C. Street, SW., Washington, DC 20472.

## FEDERAL MARITIME COMMISSION

### Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10325. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in § 572.603 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 224–010646–002.

Title: Port of Oakland Terminal Agreement.

Parties: Port of Oakland and Hyundai Merchant Marine Co., Ltd., as assignee of Koren Marine Transport Co., Ltd.

Synopsis: The proposed agreement amendment would provide that Hyundai's right to transfer the agreement No. 224–010646 to certain other Port container terminals operated as public facilities may be exercised by Hyundai upon 60 days prior written notice to the Port or shorter prior notice as is acceptable to Port. Parties have requested shortened review.

Agreement No.: 224–011097.

Title: Port of Charleston Terminal Agreement.

Parties: South Carolina State Ports Authority (Port) ABC Containerline N.V. (ABC).

Synopsis: The proposed agreement permits the Port to grant a license unto ABC to exclusively use, pursuant to the terms of this Agreement, 110 container parking slots (Area A) at the Port's Wando Terminal. The term of the agreement shall be for a period of three contract years with a guaranteed minimun of 50,000 short tons of cargo per annum.

Dated: May 11, 1987.

By order of the Federal Maritime Commission.

Joseph C. Polking,

*Secretary.*

## FEDERAL RESERVE SYSTEM

### F.N.B. Corp. et al.; Acquisitions of Companies Engaged in Permissible Nonbanking Activities

The organizations listed in this notice have applied under § 225.23(a)(2) or (f) of the Board's Regulation Y (12 CFR 225.23(a)(2) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. section 1843(c)(8) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated for the application or the offices of the Board of Governors not later than June 8, 1987.

A. **Federal Reserve Bank of Cleveland** (Johjn J. Wixted, Jr., Vice President) 1455 East Sixth Street, Cleveland, Ohio 44101:

1. *F.N.B. Corporation*, Hermitage, Pennsylvania; to acquire Mortgage Service Corporation of Pittsburgh, Pittsburgh, Pennsylvania, and thereby engage in originating mortgage loans for non-affiliated financial institutions and performing the servicing on these loans pursuant to § 225.25(b)(1) of the Board's Regulation Y, and to act as an escrow agent on behalf of the financial institutions for which it will be servicing mortgages pursuant to § 225.25(b)(3) of the Board's Regulation Y.

B. **Federal Reserve Bank of Dallas** (W. Arthur Tribble, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *MCorp*, Dallas, Texas, and MCorp Financial, Inc., Wilmington, Delaware; to acquire Westmoreland Computer Services, Inc., Greensburg, Pennsylvania, and thereby engage in providing to others financially related data processing and data transmission services, facilities, and data bases; or access to them pursuant to § 225.25(b)(7) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, May 13, 1987.

James McAfee,

*Associate Secretary of the Board.*

BILLING CODE 6210–01–M

### First Chicago Corp. et al.; Formations of, Acquisitions by, and Mergers of Bank Holding Companies; and Acquisitions of Nonbanking Companies

The companies listed in this notice have applied under § 225.14 of the Board's Regulation Y (12 CFR 225.14) for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) to become a bank holding company or to acquire voting securities of a bank or bank holding company. The listed companies have also applied under § 225.23(a)(2) of Regulation Y (12 CFR § 225.23(a)(2)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies, or to engage in such an activity. Unless otherwise noted, these activities will be conducted throughout the United States.

The applications are available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for

processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenince, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 8, 1987.

A. **Federal Reserve Bank of Chicago** (David S. Epstein, Assistant Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *First Chicago Corporation,* Chicago, Illinois; to acquire 100 percent of the voting shares of First United Financial Services, Inc., Arlington Heights, Illinois, and thereby indirectly acquire United National Bank, Arlington Heights, Illinois; Bloomingdale State Bank, Bloomingdale, Illinois; Mount Prospect State Bank, Mount Prospect, Illinois; Oak Park Trust and Savings Bank, Oak Park, Illinois; and The Dunham Bank, St. Charles, Illinois. In connection with this application, First Chicago Acquisition Corp., Chicago, Illinois, has applied to become a bank holding company by acquiring 100 percent of the voting shares of First United Financial Services, Inc., Arlington Heights, Illinois.

In addition, Applicants also propose to acquire B.I.P. Incorporated, Bloomingdale, Illinois, and thereby engage in providing to others data processing and data transmission services facilities, data bases or access to such services, facilities, or data bases by any technological means pursuant to § 225.25(b)(7) of the Board's Regulation Y, and to acquire Arlington Commercial Finance Company, Arlington Heights, Illinois, and First United Trust Company, Arlington Heights, Illinois, and thereby engage in making, acquiring or servicing loans or other extensions of credit including letters of credit for the company's account pursuant to § 225.25(b)(1) and accepting and executing trusts and carrying on a general trust company business as permitted by the State of Illinois pursuant to § 225.25(b)(3) of the Board's Regulation Y.

2. *Valley Bancorporation,* Appleton, Wisconsin; to acquire 100 percent of the voting shares of Community Banks, Inc., Middleton, Wisconsin, and thereby indirectly acquire the Bank of Middleton, Middleton,Wisconsin; The Bank of Shorewood Hills, Madison, Wisconsin; The American Exchange Bank of Madison, Madison, Wisconsin; Monona Grove State Bank, Monona, Wisconsin; Brooklyn State Bank, Brooklyn, Wisconsin; and Farmers and Merchants Bank, Richland Center, Wisconsin.

In connection with this application, Applicant also proposes to acquire CBT Trust and Financial Services, Inc., Madison, Wisconsin, and thereby engage in trust activities including escrow accounts, guardianships, estates and other personal trust services pursuant to § 225.25(b)(3) of the Board's Regulation Y. These activities will be conducted in the State of Wisconsin.

Board of Governors of the Federal Reserve System, May 13, 1987.

**James McAfee,**

*Associate Secretary of the Board.*

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Office of Child Support Enforcement

### Conformity of Child Support Enforcement Plan of the Commonwealth of Puerto Rico With Federal Requiremetns; Hearing

Notice of hearing is hereby given as set forth in the following letter that has been sent to the Commonwealth of Puerto Rico's Department of Social Services.

The Honorable Carmen Sonia Zayas,
*Secretary; Puerto Rico Department of Social Services, P.O. Box 11398, Fernandez Juncos Station, Santurce, Puerto Rico 00910*

Dear Mrs. Zayas: This letter is in response to your letter of February 20, requesting a hearing prior to my final decision to approve or disapprove Puerto Rico's State IV–D plan in accordance with the procedures set forth in OCSE–AT–86–21.

Pursuant to 45 CFR 213.12, I am scheduling a hearing to be held on the 24th day of June 1987 in Washington, DC, at 9:30 a.m. in Room 2155 of the Board of Contract Appeals, Department of Housing and Urban Development, 451 7th Street SW., Washington, DC 20410.

In accordance with 45 CFR 213.21, I have designated Norval D. Settle, Chair of the Departmental Grant Appeals Board, as the presiding officer for the hearing in this matter. A copy of the designation is enclosed. The hearing will be conducted under the provisions of 45 CFR Part 213.

The issues which will be considered at the hearing concern whether the Commonwealth's State IV–D plan is in conformance with State plan requirements, as specified in my notice of January 2, 1987. Specifically, the issues are whether:

1. The State has failed to submit an approvable amendment to its State plan at section 2.12–1 providing for a program for wage withholding, in accordance with the requirement at 45 CFR 302.70(a)(1).

2. The State has failed to submit an approvable amendment to its State plan at section 2.12–2 providing for expedited procedures, in accordance with the requirement at 45 CFR 302.70(a)(2).

3. The State has failed to submit an approvable amendment to its State plan at section 2.12–3 providing for the collection of overdue support from State income tax refunds, in accordance with the requirement at 45 CFR 302.70(a)(3).

4. The State has failed to submit an approvable amendment to its State plan at section 2.12–4 providing for the imposition of liens against the real and personal property of absent parents who owe ovedue support, in accordance with the requirement at 45 CFR 302.70(a)(4).

5. The State has failed to submit an approvable amendment to its State plan at section 2.12–6 providing for the posting of security bond or giving some guarantee to secure payment of overdue support, in accorance with the requirement at 45 CFR 302.70(a)(6).

6. The State has failed to submit an approvable amendment to its State plan at section 2.12–7 for making absent parent information on overdue support available to consumer reporting agencies upon request, when the amount is in excess of $1,000, in accordance with the requirement at 45 CFR 302.70(a)(7).

7. The State has failed to submit an approvable amendment to its State plan at section 2.12–8 providing that all child support orders issued or modified in the State include a provision for withholding from wages as a means of collecting child support in accordance with the requirement at 45 CFR 302.(a)(8).

8. The State has failed to submit an approvable amendment to its State plan at section 2.4–2 which conforms to the requirement at 45 CFR 302.51(e) that when a family ceases to receive assistance under the State's title IV–A plan, the IV–D agency must provide support enforcement services.

9. The State has failed to submit an amendment to its State plan at section 2.5–3 which conforms to the requirement at 45 CFR 302.33(c) that beginning October 1, 1985, an application fee will be charged for IV–D services to individuals not otherwise eligible for paternity and support services.

10. The State has failed to submit an approvable amendment to its State plan at section 3.9 which conforms to the requirements at 45 CFR 302.30 that the IV-D agency publicize regularly and frequently the availability of support enforcement services.

11. The State has failed to submit an approvable amendment to its State plan at section 3.10 which conforms to the requirements at 45 CFR 302.54 that the IV-D agency annually send a notice of

support payments collected to individuals for whom an assignment of rights exists under 45 CFR 232.11.

12. The State has failed to submit an approvable amendment to its State plan at section 2.1–2 which conforms to the requirements at 45 CFR 302.31(a) that the IV–D Agency undertake to secure support for a spouse (or former spouse) who is receiving aid under the State title IV–A plan from any person who is legally liable for such support.

13. The State has failed to submit an approvable amendment to its State plan at section 2.9 which conforms to the requirements at 45 CFR 302.60(a) that the IV–D agency have in effect procedures necessary to obtain payment of past-due support from overpayments made to the Secretary of the Treasury.

14. The State has failed to submit an approvable amendment to its State plan at section 2.8 which conforms to the requirements at 45 CFR 302.80(b) that States include medical support as part of any support order whenever health coverage is available at a reasonable cost.

Any further inquiries, submissions or correspondence regarding this hearing should be filed in an original and two copies with Mr. Settle at the Departmental Grant Appeals Board, Room 451, Hubert H. Humphrey Building, 330 Independence Avenue SW., Washington, DC 20201, where the record of this hearing will be kept. Each submission must include a statement that a copy of the material has been sent to the other party, identifying when and to whom the copy was sent. For convenience, please refer to Docket No. 87–40 assigned to these proceedings.

Dated May 8, 1987.

**Wayne A. Stanton,**

*Director, Office of Child Support Enforcement.*

## Food and Drug Administration

**[Docket No. 87D–0120]**

## Computerized Drug Processing; Source Code for Process Control Application Programs; Availability of Compliance Policy Guide

**AGENCY:** Food and Drug Administration.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing the availability of Compliance Policy Guide 7132a.15, which affirms that source code and its supporting documentation for application programs used in drug process control is considered to be part of the master production and control records. Accordingly, the sections of the current good manufacturing practice regulations that pertain to master production and control records also apply to source code and its documentation.

**ADDRESS:** Written comments and requests for single copies of FDA Compliance Policy Guide 7132a.15 may be submitted to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857. Written comments and requests for single copies should include the docket number that appears in the heading of this notice. (Send two self-addressed adhesive labels to assist the Branch in processing your requests.)

**FOR FURTHER INFORMATION CONTACT:** Paul J. Motise, Center for Drugs and Biologics (HFN–323), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–295–8089.

**SUPPLEMENTARY INFORMATION:** FDA has prepared Compliance Policy Guide 7132a.15 to describe the agency's policy with regard to certain computerized operations that may be used during drug processing. An increasing number of pharmaceuticals are being manufactured under the control of computer systems. The manufacturing procedures, control, instructions, specifications, and precautions to be followed within such automated systems are embodied in the computer program(s) that drive the computer. Depending on the complexity of the programs, they may also contain controlling data on product formulation, batch size, yields, and automated in-process sampling/testing procedures. In a manual system, such procedures, instructions, specifications, precautions, and other controlling data would be embodied in master production records, which must be reviewed and approved before implementation and which must be maintained, as required by the current good manufacturing practices regulations (CGMP's). Such manual records are, of course, prepared in human readable form.

In the case of computerized drug process control, certain information required by CGMP's to be in a master production record is contained in the source code for the application program. (An application program is software written to specified user requirements for the purpose of performing a designated task.) Source code is the human readable form of the program, written in its original (source) programming language. Source code must be compiled, assembled, or interpreted before it can be executed by a computer. Because the source code ultimately has a direct and significant bearing on drug product quality as manual master records, it is vital that source code and supporting documentation be reviewed and approved by the drug manufacturer before implementation, and be maintained as the CGMP's require for master production and control records (e.g., see 21 CFR 211.100, 211.180, and 211.186). Careful review of source code and its documentation is especially important for assuring that process specifications, conditions, sequencing, decision criteria, and formulas have been properly incorporated into the computer program; source code should also be reviewed to detect and remove dead code—nonexecutable instructions that are usually artifacts of earlier versions of the program.

Supportive program documentation, such as flow diagrams and explanatory narratives, can be useful in understanding and reviewing source code. However, such documentation is not an acceptable substitute for source code itself.

Therefore, FDA regards source code and its supporting documentation for application programs used in drug process control to be part of master production and control records, within the meaning of 21 CFR Parts 210 and 211.

Compliance Policy Guide 7132a.15 is available for public examination in the Dockets Management Branch (address above). Requests for single copies of the Guide should refer to the docket number found in brackets in the heading of this document and should be submitted to the Dockets Management Branch.

Interested persons may, at any time, submit written comments regarding the Compliance Policy Guide to the Dockets Management Branch (address above). Two copies of any comments are to be submitted, except that individuals may submit one copy. Copies are to be identified with the docket number found in brackets in the heading of this document. Such comments will be considered in determining whether revisions of the Compliance Policy Guide are warranted. Received comments and the Compliance Policy Guide may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under 21 CFR 10.85.

Dated: May 8, 1987.
John M. Taylor,
*Associate Commissioner for Regulatory Affairs.*

## Allergan Medical Optics; Premarket Approval of Models YAG-100, YAG-100A and YAG-200 Nd:YAG Ophthalmic Lasers for Iridotomy

**AGENCY:** Food and Drug Administration.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing its approval of the supplemental application by Allergan Medical Optics, for premarket approval, under the Medical Device Amendments of 1976, of the Models YAG-100, YAG-100A, and YAG-200 Nd:YAG Ophthalmic Lasers for performing an iridotomy (hole in the iris). After reviewing the recommendation of the Ophthalmic Devices Panel, FDA's Center for Devices and Radiological Health (CDRH) notified the applicant of the approval of the application.

**DATE:** Petitions for administrative review by June 17, 1987.

**ADDRESS:** Written requests for copies of the summary of safety and effectiveness data and petitions for administrative review to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

**FOR FURTHER INFORMATION CONTACT:** Philip J. Phillips, Center for Devices and Radiological Health (HFZ-460), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-8221.

**SUPPLEMENTARY INFORMATION:** On January 20, 1987, Allergan Medical Optics, Irvine CA 92718, submitted to CDRH a supplemental application for premarket approval of the Models YAG-100, YAG-100A, and YAG-200 Nd:YAG Lasers. The Models YAG-100, YAG-100A, and YAG-200 Nd:YAG Lasers are neodymium-yttrium-aluminum-garnet (Nd:YAG) ophthalmic lasers that are indicated for performing an iridotomy (hole in the iris).

On February 26, 1987, the Ophthalmic Devices Panel, an FDA advisory committee, reviewed and recommended approval of the application. On April 8, 1987, CDRH approved the application by a letter to the applicant from the Director of the Office of Device Evaluation, CDRH.

A summary of the safety and effectiveness data on which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from that office upon written request. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

A copy of all approved labeling is available for public inspection at CDRH—contact Philip J. Phillips (HFZ-460), address above.

### Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)), for administrative review of CDRH's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and CDRH's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the Federal Register. If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before June 17, 1987, file with the Dockets Management Branch (address above) two copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 515(d), 520(h), 90 Stat. 554-555, 571 (21 U.S.C. 360e(d), 360j(h))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Director, Center for Devices and Radiological Health (21 CFR 5.53).

Dated: May 11, 1987.
John C. Villforth,
*Director, Center for Devices and Radiological Health.*

[Docket No. 87M-0145]

## Applied Laboratories, Inc.; Premarket Approval of Applied Laboratories Sterile Saline Solution

**AGENCY:** Food and Drug Administration.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing its approval of the application by Applied Laboratories, Inc., Columbus, IN, for premarket approval, under the Medical Device Amendments of 1976, of Applied Laboratories Sterile Saline Solution for use with soft (hydrophilic) contact lenses. Applied Laboratories Sterile Saline Solution is indicated for use in the rinsing, heat disinfection, and storage after heat disinfection of soft (hydrophilic) contact lenses. After reviewing the recommendation of the Ophthalmic Devices Panel, FDA's Center for Devices and Radiological Health (CDRH) notified the applicant of the approval of the application.

**DATE:** Petitions for administrative review by June 17, 1987.

**ADDRESS:** Written requests for copies of the summary of safety and effectiveness data and petitions for administrative review to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

**FOR FURTHER INFORMATION CONTACT:** David M. Whipple, Center for Devices and Radiological Health (HFZ-460), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7940.

**SUPPLEMENTARY INFORMATION:** On January 13, 1987, Applied Laboratories, Inc., Columbus, IN 47201, submitted to CDRH an application for premarket approval of Applied Laboratories Sterile Saline Solution. The device is indicated for use in the rinsing, heat disinfection, and storage after heat disinfection of soft (hydrophilic) contact lenses.

On February 27, 1987, the Ophthalmic Devices Panel, an FDA advisory committee, reviewed and recommended approval of the application. On March 31, 1987, CDRH approved the application by a letter to the applicant from the Director of the Office of Device Evaluation, CDRH.

A summary of the safety and effectiveness data on which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from that office upon written request. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

A copy of all approved labeling is available for public inspection at CDRH—contact David M. Whipple (HFZ–460), address above.

The labeling of Applied Laboratories Sterile Saline Solution states that the solution is indicated for use in the rinsing, heat disinfection, and storage after heat disinfection of soft (hydrophilic) contact lenses. Manufacturers of soft (hydrophilic) contact lenses that have been approved for marketing are advised that whenever CDRH publishes a notice in the Federal Register of the approval of a new solution for use with an approved soft contact lens, the manufacturer or PMA holder of each lens shall correct its labeling to refer to the new solution at the next printing or at such other time as CDRH prescribes by letter to the applicant.

**Opportunity for Administrative Review**

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)), for administrative review of CDRH's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and CDRH's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the Federal Register. If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before June 17, 1987, file with the Dockets Management Branch (address above) two copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 515(d), 520(h), 90 Stat. 554–555, 571 (21 U.S.C. 360e(d), 360j(h))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Director, Center for Devices and Radiological Health (21 CFR 5.53).

Dated: May 11, 1987.

## Bausch and Lomb Optics Center; Premarket Approval of BAUSCH & LOMB HYPO-CARE™ Sterile Saline Spray

**AGENCY:** Food and Drug Administration.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing its approval of the application by Bausch & Lomb Optics Center, Rochester, NY, for premarket approval, under the Medical Device Amendments of 1976, of the BAUSCH & LOMB HYPO-CARE™ Sterile Saline Spray for use in the rinsing, heat disinfection, and storage after heat disinfection of soft (hydrophilic) contact lenses. After reviewing the recommendation of the Ophthalmic Devices Panel, FDA's Center for Devices and Radiological Health (CDRH) notified the applicant of the approval of the application.

**DATE:** Petitions for administrative review by June 17, 1987.

**ADDRESS:** Written requests for copies of the summary of safety and effectiveness data and petitions for administrative review to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

**FOR FURTHER INFORMATION CONTACT:** David M. Whipple, Center for Devices and Radiological Health (HFZ–460), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7940.

**SUPPLEMENTARY INFORMATION:** On August 19, 1986, Bausch & Lomb Optics Center, Rochester, NY 14692, submitted to CDRH an application for premarket approval of BAUSCH & LOMB HYPO-CARE™ Sterile Saline Spray. The device is indicated for use in the rinsing, heat disinfection, and storage after heat disinfection of soft (hydrophilic) contact lenses.

On February 27, 1987, the Ophthalmic Devices Panel, an FDA advisory committee, reviewed and recommended approval of the application. On March 31, 1987, CDRH approved the application by a letter to the applicant from the Director of the Office of Device Evaluation, CDRH.

A summary of the safety and effectiveness data on which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from that office upon written request. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

## THERAKOS, Inc.; Premarket Approval of the THERAKOS UVAR™ Photopheresis System

**AGENCY:** Food and Drug Administration.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing its approval of the application by THERAKOS, Inc., King of Prussia, PA, formerly Johnson & Johnson Cardiovascular, for premarket approval, under the Medical Device Amendments of 1976, of the THERAKOS UVAR™ Photopheresis System. After reviewing the recommendation of the Gastroenterology-Urology Devices Panel, FDA's Center for Devices and Radiological Health (CDRH) notified the applicant of the approval of the application.

**DATE:** Petitions for administrative review by June 17, 1987.

**ADDRESS:** Written requests for copies of the summary of safety and effectiveness data and petitions for administrative review to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

**FOR FURTHER INFORMATION CONTACT:** Susanne R. Rohrer, Center for Devices and Radiological Health (HFZ–420), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7750.

**SUPPLEMENTARY INFORMATION:** On April 17, 1986, THERAKOS, Inc., P.O. Box 386, King of Prussia, PA 19406, submitted to CDRH an application for premarket approval of the THERAKOS UVAR™ Photopheresis System. The device consists of the TP50 UVAR instrument, the TP501 UVAR Tubing Set, and the TP502 UVAR Cassette. It is indicated for use in the ultraviolet-A irradiation, in the presence of the photoactive drug methoxsalen (8-methoxypsoralen or 8-MOP), of extracorporeally circulating leukocyte-enriched blood in patients with skin manifestations of cutaneous T-cell lymphoma (CTCL) who are enrolled under the notice of claimed investigational exemption for a new drug (IND) (IND 29.804), and have not been responsive to other therapy. The sale, distribution, and use of this device are limited to investigators participating in IND 29.804.

On July 30, 1986, the Gastroenterology-Urology Devices Panel, an FDA advisory committee, reviewed and recommended approval of the application. On April 8, 1987, CDRH approved the application by a letter to the applicant from the Director of the Office of Device Evaluation, CDRH.

A summary of the safety and effectiveness data on which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from that office upon written request. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

A copy of all approved labeling is available for public inspection at CDRH—contact Susanne R. Rohrer (HFZ–420), address above.

### Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)), for administrative review of CDRH's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and CDRH's action by an independent advisory committee of experts. ## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[NM–010–07–0119]

### Emergency Road Closure in Rio Puerco Resource Area

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** Effective May 18, 1987, the Rio Puerco Resource Area, Albuquerque District, Bureau of Land Management will be closing (except for authorized users and administrative purposes) approximately six miles of BLM Road No. 1103 traversing the Ignacio Chavez Grant located in T. 15 and 16N., R. 4 and 5W., Sandoval and McKinley Counties, New Mexico. Under the emergency closure authority contained in 43 CFR 8341.2, this action is being taken to prevent vehicle use associated with this access route from causing additional damage to the soils, vegetative and scenic resource values on the Ignacio Chavez Grant. The closure will remain in effect until the adverse impacts are eliminated and adequate measures are implemented to prevent recurrence.

**FOR FURTHER INFORMATION CONTACT:** Herrick E. Hanks, Area Manager, Rio Puerco Resource Area, 435 Montano NE, Albuquerque, NM 87107, (505) 761–4504.

### Missouri; Filing of Plat of Dependent Resurvey and Subdivision of Section 14

May 8, 1987

1. The plat of the dependent resurvey of the east boundary (Fifth Principal Meridian), a portion of the south boundary, a portion of the subdivisional lines, and the subdivision of section 14, Township 32 North, Range 1 West, Fifth Principal Meridian, Missouri, will be officially filed in the Eastern States Office, Alexandria, Virginia at 7:30 a.m., on June 22, 1987.

2. The dependent resurvey was made at the request of the U.S. Forest Service.

3. All inquiries or protests concerning the technical aspects of the dependent resurvey must be sent to the Deputy State Director for Cadastral Survey and Support Services, Eastern States Office, Bureau of Land Management, 350 South

Pickett Street, Alexandria, Virginia 22304 prior to 7:30 a.m., June 22, 1987.

4. Copies of the plat will be made available upon request and prepayment of the reproduction fee of $4.00 per copy.

**Joseph W. Beaudin,**

## Wisconsin; Filing of Plat of Dependent Resurvey and Survey of Omitted Land

May 8, 1987.

1. The plat of the dependent resurvey of a portion of the south boundary, a portion of the subdivisional lines, the reestablishment of the record meander line, a survey of omitted land in section 33, and the meanders of Lake Osborn, Township 45 North, Range 6 West, Fourth Principal Meridian, Wisconsin, will be officially filed in the Eastern States Ofice, Alexandria, Virginia at 7:30 a.m., on June 22, 1987.

2. This survey was executed in response to an application for survey of omitted lands submitted by Mr. and Mrs. Algie Montgomery, Pekin, Illinois 61554.

3. All inquiries or protests concerning the legal determination to perform the survey of omitted lands or concerning the technical aspects of either the dependent resurvey or the survey of omitted lands must be sent to the Deputy State Director for Cadastral Survey and Support Services, Eastern States Office, prior to 7:30 a.m., June 22, 1987.

4. All inquiries concerning color-of-title claims should be filed with the Deputy State Director for Lands and Renewable Resources, Eastern States Office, Bureau of Land Management, 350 South Pickett Street, Alexandria, Virginia 22304, after June 22, 1987.

5. Copies of the plat will be made available upon request and prepayment of the reproduction fee of $4.00 per copy.

## Utah; Proposed Withdrawal and Opportunity for Public Meeting

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** The Bureau of Land Management proposes to withdraw 3,537.33 acres of public land for the protection of the Tabernacle Hill Volcanic Field, near Fillmore, Utah. This notice closes the land for up to 2 years from surface entry and mining. The land will remain open to mineral leasing.

**DATE:** Comments and requests for a public meeting should be received by August 24, 1987.

**ADDRESS:** Comments and meeting requests should be sent to: Utah State Director, Bureau of Land Management, 324 South State, Suite 301, Salt Lake City, Utah 84111-2303.

**FOR FURTHER INFORMATION CONTACT:** Nancy Bloyer, BLM, Utah State Office, 801 524-4036.

On May 4, 1987, a petition was approved allowing the Bureau of Land Management to file an application to withdraw the following described public land from settlement, sale, location, or entry under the general public land laws, including the mining laws, subject to valid existing rights:

**Salt Lake Meridian, Utah**

T. 22 S., R. 6 W.,
- Sec. 3, lots 4 and 12, SW¼NW¼, W½SE¼NW¼, SW½, W½NW¼SE¼; SW¼SE¼;
- Sec. 4, lots 1 and 2, S½N½, S½;
- Sec. 5, S½S½SW¼, E½SE¼, E½W½ SE¼, SW¼SW¼SE¼;
- Sec. 7, E½E½E½;
- Sec. 8, All;
- Sec. 9, All;
- Sec. 10, W½NE¼, W½, NW¼NE¼SE¼, N½NW¼SE¼, SW¼NW¼SE¼, W½W½SW¼SE¼;
- Sec. 15, W½NE¼NW¼, W½NW¼, SE¼NW¼
- Sec. 17, N½, E½SE¼, E½NW¼SE¼, NE¼SW¼SE¼;
- Sec. 20, E½NE¼NE¼;
- Sec. 21, NW¼NW¼.

The area described contains 3,537.33 acres in Daggett County, Utah. There are no lands to be excepted from those described above.

The purpose of the proposed withdrawal is protection of the Tabernacle Hill Volcanic Field.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the Utah State Director of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the Utah State Director within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the Federal Register at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR Part 2300.

For a period of 2 years from the date of publication of this notice in the Federal Register the lands will be segregated as specified above unless the application is denied or cancelled or the withdrawal is approved prior to that date. No temporary uses will be permitted during the segregative period.

The temporary segregation of the lands in connection with a withdrawal application or proposal shall not affect administrative jurisdiction over the lands, and the segregation shall not have the effect of authorizing any use of the lands by the Bureau of Land Management.

Dated: May 7, 1987.

**Orval L. Hadley,**

## Minerals Management Service

## Alaska Outer Continental Shelf; Cancellation of Preparation of an Environmental Impact Statement for an Arctic Offshore Sand and Gravel Lease Sale

The Minerals Management Service is announcing cancellation of the preparation of an Environmental Impact Statement (EIS) for an Arctic Offshore Sand and Gravel Lease Sale.

The proposed sale was scheduled for November 1984. The Notice of Intent to prepare an EIS was published in the Federal Register November 25, 1983, page 53184. On March 30, 1984, a Request for Supplemental Information on the advisability of holding sand and gravel lease sales offshore Alaska was published in the Federal Register, page 12761. Comments indicated that industry is not interested in a lease sale of sand and gravel at this time and that alternative terms and conditions of the sales should receive more study.

Questions concerning this cancellation should be addressed to John Schindler, Chief, Environmental Assessment Section, Leasing and

Environment Office, Minerals Management Service, 949 East 36th Avenue, Anchorage, Alaska 99508–4302, telephone (907) 261–4650.

Dated: May 11, 1987.

Donald T. Sant,

*Acting Director, Minerals Management Service.*

Approved:

Bruce Blanchard,

*Director, Office of Environmental Project Review.*

## INTERSTATE COMMERCE COMMISSION

[Section 5a Application No. 61[1]]

### National Classification Committee—Agreement

AGENCY: Interstate Commerce Commission.

ACTION: Notice of decision and request for comment.

SUMMARY: The National Classification Committee (NCC) has filed, pursuant to section 14(e) of the Motor Carrier Act of 1980 (MCA), an application for approval of its ratemaking agreement filed under 49 U.S.C. 10706(b). Since several modifications are required before the agreement may receive final approval, and because new and complex questions are involved in determining whether the agreement is consistent with the MCA, the Commission solicits public comment on its interpretation and application of specific rate bureau provisions. Copies of NCC's proposed amended agreement are available for public inspection and copying at the Office of the Secretary, Interstate Commerce Commission, Washington, DC 20423, and from NCC's representatives:

John R. Bagileo, Suite 700, One Thomas Circle NW., Washington, DC 20005
William W. Pugh, 2200 Mill Road, Alexandria, VA 22314

DATES: Comments from interested parties are due June 17, 1987. Replies are due 15 days thereafter.

ADDRESS: An original and 10 copies, if possible, of comments referring to section 5a Application No. 61 sould be sent to: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT:

Jane Udovic (202) 275–7831

or

Andrew L. Lyon (202) 275–7691

SUPPLEMENTARY INFORMATION: Additional information is in the Commission's decision. To obtain a copy of the full decision, write to the Office of the Secretary, Room 2215, 12th & Constitution Avenue NW., Washington, DC 20423, or call (202) 275–7428.

We have provisionally approved NCC's agreement as consistent with 49 U.S.C. 10706(b) and *Motor Carrier Rate Bureaus—Implementation of P.L. 96–296*, 364 I.C.C. 464 (1980), and 364 I.C.C. 921 (1981) *(Rate Bureau)*, subject to certain conditions and modifications in the following subject areas: Right of independent action; rate bureau protests; employee docketing; open meetings; quorum standard; and final disposition of cases. We have also offered comments and imposed requirements concerning the agreement generally. NCC has been directed to file a revised agreement conforming to the imposed conditions within 120 days of service of the decision.

In light of the complexity of interpretation involved in determining whether the agreement is consistent with the MCA and *Rate Bureau, supra*, we request applicant and other interested parties to comment on our interpretation of the controlling statutory and administrative criteria, and their application to NCC's agreement. In addition, we request comments on our determination that only some of the requirements of 49 U.S.C. 10706(b) apply to NCC's agreement.

A copy of any comments filed with the Commission must also be served on NCC, which will have 15 days from the expiration of the comment period to reply. These comments will be considered in conjunction with our review of the modifications that NCC must submit to the Commission as a condition to final approval of its agreement.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

(40 U.S.C. 10321 and 10706 and 5 U.S.C. 553)

Decided: May 7, 1987.

By the Commission, Chairman Gradison, Vice Chairman Lamboley, Commissioners Sterrett, Andre, and Simmons. Commissioner Andre concurred.

Noreta R. McGee,

*Secretary.*

## DEPARTMENT OF JUSTICE

### Information Collection(s) Under OMB Review

May 13, 1987.

The Office of Management and Budget (OMB) has been sent for review the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) since the last list was published. Entries are grouped into submission categories. Each entry contains the following information: (1) The name and telephone number of the Agency Clearance Officer (from whom a copy of the form/supporting documents is available); (2) the office of the agency issuing the form; (3) the title of the form; (4) the agency form number, if applicable; (5) how often the form must be filled out; (6) who will be required or asked to report; an estimate of the number of responses; (7) an estimate of the total number of respondents; (8) an estimate of the total number of hours needed to fill out the form; (9) an indication of whether Section 3504(h) of Public Law 96–511 applies; and, (10) the name and the telephone number of the person or office responsible for the OMB review. Copies of the proposed form(s) and the supporting documentation may be obtained from the Agency Clearance Officer whose name and telephone number appear under the agency name. Comments and questions regarding the item(s) contained in this list should be directed to the reviewer listed at the end of each entry *AND* to the Agency Clearance Officer. If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer *AND* the Agency Clearance Officer of your intent as early as possible.

**Department of Justice**

*Agency Clearance Officer:* Larry E. Miesse, 202/633–4312.

**Extension of the Expiration Date of a Currently Approved Collection Without Any Change in the Substance or the Method of Collection**

(1) Larry E. Miesse, 202/633–4312
(2) Immigration and Naturalization Service, Department of Justice
(3) EMPLOYMENT ELIGIBILITY VERIFICATION
(4) I–9
(5) On occasion
(6) State or local governments, individuals or households, farms, businesses or other for-profit, Federal agencies or employees, non-

profit institutions. The I–9 has been developed to facilitate compliance with Section 101 of the Immigration Reform and Control Act.
(7) 135,000,000 respondents
(8) 24,900,000 burden hours
(9) Not applicable under 3504(h)
(10) Robert Fishman—395–7340

Larry E. Miesse,
*Clearance Officer, Department of Justice.*

BILLING CODE 4410–10–M

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Record Disposition Authority (Records Schedules)

**AGENCY:** National Archives and Records Administration, Office of Records Administration.

**ACTION:** Notice of availability of proposed records schedules; request for comments.

**SUMMARY:** The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 U.S.S. 3303a(a).

**DATE:** Requests for copies must be received in writing on or before July 2, 1987. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

**ADDRESS:** Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, Washington, DC 20408. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in parentheses immediately after the name of the requesting agency.

**SUPPLEMENTARY INFORMATION:** Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights and interests of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

### Schedules Pending Approval

1. Department of the Air Force, N1–AFU–87–9. Records relating to drinking water.

2. Department of the Army (N1–AU–87–11, –12, and –13). Records concerning foreign disclosure of technological information/materiels consisting of technology transfer case files and related reference papers.

3. Department of the Army, N1–AU–87–18. Records relating to appeals made by enlisted personnel of their evaluations.

4. Department of the Army, N1–AU–87–14. Records relating to child care services provided for the dependents of Army personnel.

5. Defense Logistics Agency, Headquarters and Field Units (N1–361–87–1). Records relating to administrative support activities such as supply, security and inspections.

6. Department of the Navy, Chief of Naval Operations, Bureau of Ships (N1–19–87–1). Administrative, facilitative, and non-program records created by the Bureau of Ships (1940–66). Program, policy, and primary mission related records are permanent.

7. Department of Commerce, Office of the Secretary (N1–40–87–2). Schedule for textual records of the Office of Computer Services.

8. Department of Commerce, Office of the Secretary (N1–40–87–3). Textual records of the Management Service Center within the Office of Finance and Federal Assistance.

9. Department of Commerce, Office of the Secretary (N1–40–87–6). Facilitative records of the Office of Technical Services and predecessor organizations, 1945–50.

10. Department of Commerce, National Bureau of Standards (N1–167–87–1). Selected brief public service announcements ("spots") made for TV.

11. Federal Communications Commission, Financial Management Division (N1–173–87–2). Annual budget estimate and justification files.

12. Federal Communications Commission, Field Operations Bureau (N1–173–87–3). Records of licensee violations and fines.

13. Department of Education, Administrative Resources Management Service (N1–12–87–1). Educational films of insufficient value to warrant transfer to the National Archives.

14. Environmental Protection Agency (NC1–412–85–18). Records relating to regional air and hazardous waste programs.

15. Environmental Protection Agency (N1–412–86–4). Administrative and program records of the Office of the Inspector General.

16. Environmental Protection Agency, Offices of Congressional Liaison, and Legislative Analysis (N1–412–87–2). Records relating to the legislative program of EPA.

17. Department of the Interior, U.S. Geological Survey (N1–57–87–1). Records relating to personal property accountability.

18. Agency for International Development (NC1–286–85–4). Comprehensive schedule for records of A.I.D. Overseas Missions.

19. Department of Justice, Federal Bureau of Investigation, Records Management Division (N1–65–87–7, –8, and –9). Documentation containing personal information of insufficient historical or other value to warrant archival retention. Expunction of the information has been requested by the individual to whom it relates.

20. National Archives and Records Administration, Office of the National Archives, Military Archives Division (N2–19–87–1). Accessioned records of the Department of the Navy, Bureau of

Ships. Allowance lists of hull, machinery, and consumable supplies for individual ships, 1911–45.

21. National Archives and Records Administration, Office of the National Archives, Military Archives Division (N2–80–87–1). Accessioned records of the Department of the Navy, Compensation Board, Material Order Section. Purchase orders and related correspondence for minor items used in ship construction 1917–29.

22. Tennessee Valley Authority, Office of Coal Gasification (N1–142–86–4). North Alabama Coal-to-Methanol Project case files.

23. Department of the Treasury, Synthetic Fuels Corporation (N1–56–86–5). Comprehensive schedule for records of the defunct U.S. Synthetic Fuels Corporation.

24. Department of the Treasury, Comptroller of the Currency (N1–101–87–2). Securities disclosure files.

25. Veterans Administration (N1–15–87–7). Loan Guaranty Folders, other than paid in full, which are not in default and on which no claim has been paid and no action is pending by VA.

Dated: May 12, 1987.

## NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

### Agency Information Collection Activities Under OMB Review

**AGENCY:** National Endowment for the Arts.

**ACTION:** Notice.

**SUMMARY:** The National Endowment for the Arts (NEA) has sent to the Office of Management and Budget (OMB) the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

**DATE:** Comments on this information collection must be submitted by June 12, 1987.

**ADDRESSES:** Send comments to Mr. Joseph Lackey, Office of Management and Budget, New Executive Office Building, 726 Jackson Place NW., Room 3002, Washington, DC 20503; (202–395–7316). In addition, copies of such comments may be sent to Ms. Marianna Dunn, National Endowment for the Arts, Administrative Services Division, Room 203, 1100 Pennsylvania Avenue NW., Washington, DC 20506; (202–682–5464).

**FOR FURTHER INFORMATION CONTACT:** Ms. Marianna Dunn, National Endowment for the Arts, Administrative Services Division, Room 203, 1100 Pennsylvania Avenue NW., Washington, DC 20506; (202–682–5464) from whom copies of the document are available.

**SUPPLEMENTARY INFORMATION:** The Endowment requests the reinstatement of one previously approved collection, and the approval of one revised collection and one new collection. The entry is issued by the Endowment and contains the following information: (1) The title of the form; (2) how often the required information must be reported; (3) who will be required or asked to report; (4) what the form will be used for; (5) an estimate of the number of responses; (6) an estimate of the total number of hours needed to prepare the form. This entry is not subject to 44 U.S.C. 3504(h).

*Title:* Fellowship Grant Compliance Agreement.

*OMB Number:* 3135–0031.

*Frequency of Collection:* One-time.

*Respondents:* Individuals.

*Use:* This information is used to establish the fellowship grant period and payment schedule.

*Estimated Number of Respondents:* 700.

*Estimated Hours for Respondents to Provide Information:* 140.

*Title:* Study Fellowship Grant Compliance Agreement.

*OMB Number:* 3135–0029.

*Frequency of Collection:* One-time.

*Respondents:* Individuals.

*Use:* This information is used to establish the followship grant period and payment schedule.

*Estimated Number of Respondents:* 70.

*Estimated Hours for Respondents to Provide Information:* 18.

*Title:* Final Fellowship Report.

*Frequency of Collection:* One-time.

*Respondents:* Individuals.

*Use:* The information will be used to conduct a post-award evaluation of the fellowship recipient.

*Estimated Number of Respondents:* 700.

*Estimated Hours for Respondents to Provide Information:* 700.

## Inter-Arts Advisory Panel; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Inter-Arts Advisory Panel (Folk Arts Section to the National Council on the Arts will be held on June 4–6, 1987, from 9:00 a.m.–5:30 p.m. in room 716 of the Nancy Hanks Center, 1100 Pennsylvania Avenue NW., Washington, DC 20506.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the Agency by grant applicants. In accordance with the determination of the Chairman published in the **Federal Register** of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c)(4), (6) and (9)(B) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682–5433.

**John H. Clark,**

*Director, Council and Panel Operations, National Endowment for the Arts.*

## Office for Partnership Advisory Panel; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Office for Partnership Advisory Panel (State Programs Section) to the National Council on the Arts will be held on June 4, 1987, from 9:00 a.m.–5:00 p.m. and June 5, 1987, from 9:30 a.m.–1:00 p.m. in room 730 of the Nancy Hanks Center, 1100 Pennsylvania Avenue NW., Washington, DC 20506.

This meeting will be open to the public on a space available basis. The topic of discussion will be the application review/recommendation, CPAC report, status of the reassessment process, reassessment of the regional organizations and FY 88–89 guidelines.

If you need special accommodations due to a disability, please contact the Office of Special Constituencies, National Endowment for the Arts, 1100

Pennsylvania Avenue NW., Washington DC 20506, 202/682–5532, TTY 202/682–5496 at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682–5433.

John H. Clark,

*Director, Council and Panel Operations, National Endowment for the Arts.*

## Theater Advisory Panel; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Theater Advisory Panel (Artistic Advancement Section) to the National Council on the Arts will be held on June 3–4, 1987, from 9:00 a.m.–5:00 p.m. in room M–07 of the Nancy Hanks Center, 1100 Pennsylvania Avenue NW., Washington, DC 20506.

A portion of this meeting will be open to the public on June 4, 1987 from 4:00 p.m.–5:00 p.m. The topics for discussion will include guidelines and policy issues.

The remaining sessions of this meeting on June 3, 1987 from 9:00 a.m.–5:00 p.m. and June 4, 1987 from 9:00 a.m.–4:00 p.m. are for the purpose of application review. In accordance with the determination of the Chairman published in the Federal Register of February 13, 1980, these sessions will be closed to the public pursuant to subsection (c) (4), (6) and 9(b) of section 552b of Title 5, United States Code.

If you need special accommodations due to a disability, please contact the Office for Special Constituencies, National Endowment for the Arts, 1100 Pennsylvania Avenue NW., Washington DC 20506, 202/682–5532, TTY 202/682–5496 at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call 202/682–5433.

## NUCLEAR REGULATORY COMMISSION

## Advisory Committee on Reactor Safeguards, Subcommittee on Auxiliary Systems; Meeting

The ACRS Subcommittee on Auxiliary Systems will hold a meeting on May 29, 1987, Room 1046, 1717 H Street NW., Washington, DC.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

*Friday, May 29, 1987—8:30 a.m. until the conclusion of business*

The Subcommittee will discuss the following: (1) Regulatory requirements for designing fire protection systems to prevent inadvertent actuation, (2) recent incidents associated with inadvertent actuation of fire protection systems and their interaction on safety systems, (3) systems interaction effects resulting from the December 9, 1986 Surry incident, (4) manual fire mitigation and associated issues, and (5) propagation of heat and smoke and associated issues.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Sam Duraiswamy (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m. Persons planning to attend this meeting are urged to contact one of the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: May 11, 1987.

Morton W. Libarkin,

*Assistant Executive Director for Project Review*

BILLING CODE 7590–01–M

## Advisory Committee on Reactor Safeguards, Subcommittees on Severe Accidents/Probabilistic Risk Assessment; Meeting

The ACRS Subcommittees on Severe Accidents/Probabilistic Risk Assessment will hold a joint meeting on June 3, 1987, Room 1046, 1717 H Street, NW., Washington, DC.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows: *Wednesday, June 3, 1987–8:30 a.m. until the conclusion of business—*

The Subcommittees will begin its review of the Research report NUREG–1150, "Reactor Risk Reference Document", which was issued in February 1987 for public comment.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairmen; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittees, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittees will then hear presentations by and hold discussions with representatives of the NRC Staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff members, Dr.

Richard Savio or Mr. Dean Houston (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: May 12, 1987.

Morton W. Libarkin,

*Assistant Executive Director for Project Review.*

## Advisory Committee on Reactor Safeguards; Proposed Meetings

In order to provide advance information regarding proposed public meetings of the ACRS Subcommittees and meetings of the full Committee, the following preliminary schedule is published to reflect the current situation, taking into account additional meetings which have been scheduled and meetings which have been postponed or cancelled since the last list of proposed meetings published April 20, 1987 (52 FR 12988). Those meetings which are definitely scheduled have had, or will have, an individual notice published in the Federal Register approximately 15 days (or more) prior to the meeting. It is expected that the sessions of the full Committee meeting designated by an asterisk (*) will be open in whole or in part to the public. ACRS full Committee meetings begin at 8:30 A.M. and Subcommittee meetings usually begin at 8:30 A.M. The time when items listed on the agenda will be discussed during full Committee meetings and when Subcommittee meetings will start will be published prior to each meeting. Information as to whether a meeting has been firmly scheduled, cancelled, or rescheduled, or whether changes have been made in the agenda for the June 1987 ACRS full Committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee (telephone: 202/634–3265, ATTN: Barbara Jo White) between 8:15 A.M. and 5:00 P.M., Eastern Time.

### ACRS Subcommittee Meetings

*Waste Management*, May 18 and 19, 1987, Washington, DC. The Subcommittee will review the following topics: A. *High-Level Waste:* (1) Impact of NMSS reorganization on waste management program, (2) Overview of QA program and activities, (3) Waste acceptance activities regarding the processing of radioactive wastes into glass, (4) Update on the National Bureau of Standards' waste package program, (5) Generic Technical Position (GTP) on Qualification of Existing Data for HLW Repositories, (6) GTP on Peer Review for HLW Repositories, and (7) Report on the Hanford, Washington (BWIP) hydrology meeting. B. *Waste Management Research:* (1) Demonstration of Performance Modeling of a LLW Shallow Land Burial Site—the nitrate disposal pit site at Chalk River, Canada, and (2) Control of Water Filtration into Near Surface LLW Disposal Units. C. *Low-Level Waste:* (1) Update on status of mixed wastes issue, and (2) Greater than Class C wastes.

*Nuclear Plant Chemistry*, May 19, 1987, Washington, DC (1:00 P.M.). The Subcommittee will review SRP section 6.5.2, "Containment Spray as a Fission Product Cleanup System," and SRP section 6.5.5, "Suppression Pools as Fission Product Cleanup Systems."

*Regulatory Policies and Practices*, May 28, 1987, Washington, DC. The Subcommittee will continue its review of the nuclear plant regulatory process as related to specific operating reactor events which have occurred.

*Decay Heat Removal Systems*, May 27, 1987, Washington, DC—POSTPONED.

*Generic Items*, May 27, 1987, Washington, DC. The Subcommittee will discuss the process involved in identifying, prioritizing, resolving and implementing generic issues, and unresolved safety issues (USIs) so as to determine the effectiveness of this process.

*Severe Accidents*, May 27, 1987, Washington, DC. The Subcommittee will continue the review of the proposed generic letter for Individual Plant Examinations (IPEs) as part of the NPR Implementation Plan for the Severe Accident Policy Statement.

*Auxiliary Systems*, May 29, 1987, Washington, DC. The Subcommittee will discuss the following: (1) Regulatory requirements for designing fire protection systems to prevent inadvertent actuation, (2) recent incidents associated with inadvertent actuation of fire protection systems and their interaction on safety systems, (3) systems interaction effects resulting from the December 9, 1986 Surry incident, (4) manual fire mitigation and associated issues, and (5) propagation of heat and smoke and associated issues.

*Regional and I&E Programs*, postponed from May 29, 1987 to August 28, 1987.

*Joint Severe Accidents/Probabilistic Risk Assessment*, June 3, 1987, Washington, DC. "The Subcommittees will begin its review of the Research report NUREG–1150, "Reactor Risk Reference Document", which was issued in February 1987 for public comment.

*Advanced Reactor Designs*, June 17, 1987, Washington, DC. The Subcommittee will discuss and review the three DOE-sponsored advanced reactor designs (one HTGR and two LMRs).

*Thermal Hydraulic Phenomena*, June 18, 1987, Washington, DC. The Subcommittee will review: MIST Program Status including results of MIST Phase III tests, IST Scaling Coordination, and plans for a follow-on test Program.

*Occupational and Environmental Protection Systems*, June 22 and 23, 1987, Washington, DC. The Subcommittee will discuss issue concerning emergency plans and other matters.

*Human Factors*, June 24, 1987, Washington, DC. The Subcommittee will review SECY 87–101, "Issues and Proposed Options Concerning Degree Requirement for Senior Operators."

*Joint Severe Acccidents/Probabilistic Risk Assessment*, July 8, 1987, Washington, DC. The Subcommittee will conclude its review of the Research report NUREG–1150, "Reactor Risk Reference Document", which was issued in February 1987 for public comment.

*Thermal Hydraulic Phenomena*, July 16, 1987, Washington, DC. The Subcommittee will review: (1) Development of Uncertainty Methodology for BE ECCS Codes, (2) Status of the Generic Issue addressing Steam Generator/Steam Line Overfill Issues, and (3) Status of the Water Hammer Issue.

*Babcock & Wilcox Reactor Plants*, July 22, 1987, Washington, DC. The Subcommittee will continue its review of the long-term safety review of B&W reactors. This effort was begun during the summer of 1986; initial Committee comments offered on July 16, 1986 in a letter to V. Stello, EDO.

*Auxilary Systems*, July 23, 1987, Washington, DC. The Subcommittee will discuss with the NRC research staff and the personnel from the Sandia National Laboratories the progress of the "Scoping Study" being performed by the Sandia National Laboratories for NRC on the need for future research in the fire protection area.

*Metal Components*, July 24, 1987, Washington, DC. The Subcommittee will review broad rule scope (GDC–4), SRP Section 3.6.2 (subcompartment pressurization), and other related matters.

*Regional and I&E Programs*, August 28, 1987, Walnut Creek, CA. The

Subcommittee will review the activities under the control of the Region V Office.

*Generic Items,* Date to be determined (July/August), Washington, DC. The Subcommittee will continue the discussion on the effectiveness of the programs that address generic issues and USIs. Also, it will discuss with selected licensees the contribution to plant safety resulting from the implementation of the resolved generic issues and USIs.

*Decay Heat Removal Systems,* Date to be determined (July/August), Washington, DC. The Subcommittee will review: (1) the resolution status for GI 23: "RCP Seal Failure", and (2) the resolution status for GI 124: "AFW System Reliability".

*Auxiliary Systems,* Date to be determined (August), Washington, DC. The Subcommittee will discuss the heating, ventilation, and air conditioning (HVAC) system malfunctions and their impact on safety systems. In addition, it will discuss problems associated with instrument airy systems, AEOD findings concerning the instrument air system malfunctions and its recommendations to alleviate this problem.

*Decay Heat Removal Systems,* Date to be determined (August), Washington, DC. The Subcommittee will continue its review of the NRC Resolution Position for USI A–45..

*Auxiliary Systems,* Date to be determined (September), Washington, DC. The Subcommittee will discuss the criteria used by the utilities to design Chilled Water Systems, associated regulatory requirements, and the criteria being used by the NRC Staff to review the Chilled Water System design.

*Thermal Hydraulic Phenomena,* Date to be determined (September/October), Washington, DC. The Subcommittee will review: (1) Final version of revised ECCS Rule, and (2) status of RES-proposed new integral test facility.

*Joint Seabrook/Occupational & Environmental Protection Systems/ Severe Accidents,* Date to be determined, Washington, DC. The Subcommittees will review Brookhaven National Laboratory's report of the Seabrook Emergency Planning Sensitivity Study and other related matters.

*Seabrook Unit 1,* Date to be determined, Washington, DC. The Subcommittee will review the application for a full power operating license for Seabrook Unit 1.

*Joint Standardization of Nuclear Facilities/GE Reactors,* Date to be determined, Washington, DC. The Subcommittees will review the Staff SER and Chapter I of the EPRI Requirements Document, and the GE Licensing Basis Agreement.

**ACRS Full Committee Meeting**

June 4–6, 1987

Items are *tentatively* scheduled:

*A. *NRC Severe Accident Policy (Open)*—Discuss proposed NRC Staff generic letter to implement this plan.

*B. *Foreign Nuclear Power Plant Safety features (Open/Closed)*—Discuss proposed ACRS comments regarding safety features in foreign nuclear power plants.

*C. *NRC Policy Regarding Advanced Reactors (Open)*—Discuss proposed ACRS report on NUREG–1226, Development and Utilization of NRC Policy Statement on the Regulation of Advanced Nuclear Power Plants.

*D. *Station Blackout (Open)*—Discuss proposed ACRS comments on proposed NRC rule on Loss of Alternating Current Power at Nuclear Power Plants (10 CFR 50.63).

*E. *Emergency Core (Open)*—Discuss proposed ACRS comments regarding proposed changes in NRC requirements (e.g., 10 CFR 50.55 Appendix K) regarding emergency core cooling systems in nuclear power plants.

*F. *Renewal of Nuclear Power Plant Licenses (Open)*—Briefing and discussion regarding proposed NRC policy statement on renewal of operating licenses for nuclear power plants.

*G. *Seismic Qualification of Nuclear Power Plant Components (Open)*—Report of seismic walkdown of the Zion Nuclear Station (May 11–22, 1987).

*H. *Long Range Planning (Open)*—Briefing and discussion of proposed NRC Strategic Plan for long-range planning of NRC activities.

*I. *Appointment of New ACRS Members (Closed)*—Discuss the qualifications of candidates proposed for appointment to the ACRS.

*J. *Future Activities (Open)*—Discuss anticipated subcommittee activities and items proposed for consideration by the full Committee.

*K. *ACRS Subcommittee Activities (Open/Closed)*—Hear and discuss reports of ACRS subcommittee activities in assigned areas, including performance of auxiliary systems in nuclear power plants, radwaste management and disposal, reliability assurance of nuclear power plant components and systems, resolution of generic issues, regulatory policies and practices, and nuclear power plant chemistry.

*L. *Safety Information Management Systems (Open)*—Briefing regarding the NRC Safety Information Management Systems.

*M. *Improved Safety Regarding Future Light-Water Nuclear Power Plants (Open)*—Briefing and discussion regarding proposed NRC resolution of ACRS recommendations regarding improved safety features in nuclear power plants and ACRS development of additional information regarding this topic.

*N. *Operating Experience (Open/ Closed)*—Briefing and discussion of operating events and incidents at nuclear facilities.

*O. *Control Room Habitability (Open)*—Discuss proposed ACRS comments/recommendations regarding the habitability of control rooms in nuclear power plants.

*P. *Quality Assurance in Nuclear Power Plants*—Discuss proposed ACRS comments regarding consideration of quality assurance programs in foreign nuclear facilities.

July 9–11, 1987

Agenda to be announced.

August 6–8, 1987

Agenda to be announced.

Dated: May 13, 1987.

John C. Hoyle,

*Advisory Committee Management Officer.*

[NUREG–0800]

**Standard Review Plan for the Review of Safety Analysis Reports for Nuclear Power Plants; Issuance and Availability for Comment; Errata to Proposed New Section 6.5.5**

On April 6, 1987, the U.S. Nuclear Regulatory Commission (NRC) published proposed new Section 6.5.5., "Suppression Pools as Fission Product Cleanup Systems," of NUREG–0800, "Standard Review Plan for the Review of Safety Analysis Reports for Nuclear Power Plants," LWR Edition (SRP). Due to word-processing error, parts of the published copies are incorrect. Errata will be sent directly to utilities, utility industry groups and associations, and environmental and public interest groups, and to the NRC Public Document Room.

To permit prospective commenters adequate time to study the proposed new section, the comment period will be extended. Comment should be sent to David L. Meyer, Chief, Rules and Procedures Branch, Division of Rules and Records, Office of Administration and Resources Management, U.S.

BILLING CODE 7590-01-M

## Carolina Power & Light Co.; (Brunswick Steam Electric Plant, Units 1 and 2); Exemption

I

[Dockets Nos. 50-325 and 50-324]

Carolina Power & Light Company (the licensee) is the holder of Facility Operating License Nos. DPR-71 and DPR-62 which authorize operation of the Brunswick Steam Electric Plant, Units 1 and 2, respectively (Brunswick or the facilities). These licenses provide, among other things, that the facilities are subject to all rules, regulations and Orders of the Nuclear Regulatory Commission (the Commission) now or hereafter in effect.

The facilities are boiling water reactors located at the licensee's site in Brunswick County, North Carolina.

II

Section 50.54(o) of 10 CFR Part 50 requires that primary reactor containments for water cooled power reactors be subject to the requirements of Appendix J to 10 CFR Part 50. Appendix J contains the leakage test requirements, schedules and acceptance criteria for test of the leak-tight integrity of the primary reactor containment and systems and components which penetrate the containment. Section III.D of Appendix J required that Type C local leak rate tests be performed during each reactor shutdown for refueling, but in no case at intervals greater than two years.

By letter dated October 25, 1985, the licensee requested exemptions from the Appendix J requirements for Type C testing for certain primary containment penetrations associated with (1) instrument isolation valves, (2) lines terminating below the minimum torus level, and (3) hydrogen/oxygen monitor isolation valves for Brunswick Steam Electric Plant, Unit 2 (Brunswick 2). Additional information clarifying the exemption request was provided by letters dated December 20, 1985, and March 20, 1986. By letter dated September 4, 1986, the licensee withdrew the exemption request related to lines terminating below minimum torus level and provided additional information on the hydrogen/oxygen isolation valves. By letter dated December 11, 1986, the licensee committed to perform soap bubble leak testing of the hydrogen/oxygen monitoring system in lieu of the Type C tests. Soap bubble testing would be performed at the frequency and pressure specified in Appendix J for Type C tests and also after maintenance work performed on the system. By letter dated March 17, 1987, the licensee requested that the exemption request related to the hydrogen/oxygen monitor isolation valves be extended to include the same valves on Brunswick Steam Electric Plant, Unit 1 (Brunswick 1).

With the withdrawal of the exemption request related to Type C testing of lines terminating below minimum torus level, the NRC staff considered only the exemption requests related to instrument isolation valves and hydrogen/oxygen monitor isolation valves. Subsequently, the NRC staff determined that the instrument isolation valves listed in the licensee's October 25, 1985 letter do not require Type C testing because the instrument lines are exposed to containment pressure during Type A tests. These instrument lines are connected to sealed transducers and are designed to withstand the stresses of a design basis loss of coolant accident. Since the valves are required to be operable during normal operation, shutdown and accidents in order to monitor critical parameters, the lines are considered a part of the containment barrier. Therefore, the instrument isolation valves do not require Type C testing to meet the intent of Appendix J; and no exemption is required.

The acceptability of the remaining exemption request relating to certain hydrogen/oxygen monitor isolation valves is addressed below. More details are contained in the Commission's related Safety evaluation (concurrently issued with this Exemption).

III

The exemption request under consideration involves an exemption from the Type C testing requirements of Appendix J for valves in the sample supply and return lines for the hydrogen/oxygen monitors. Type C tests are tests intended to measure containment isolation valve leakage rates in valves whose failure to close after a postulated accident could result in an uncontrolled discharge of radiation outside of the plant. The valves for which an exemption was requested are in the following penetrations in both the Brunswick Unit 1 and Unit 2 primary containments:

| Penetration number [1] | Function [1] |
|---|---|
| X-57A | CAC-AT-4408 Supply. |
| X-57B | CAC-AT-4409 Supply. |
| X-60E | CAC-AT-4409 Supply. |
| X-209B-A | CAC-AT-4409 Supply. |
| X-245E | CAC-AT-4409 Return. |
| X-73A | CAC-AT-4410 Supply. |
| X-73B | CAC-AT-4410 Supply. |
| X-73C(E) | CAC-AT-4410 Supply. |
| X-206A-A | CAC-AT-4410 Supply. |
| X-244B | CAC-AT-4410 Return. |

[1] The penetration and instrument numbers are identical for both Units.

By letter dated February 27, 1987, the licensee provided information relevant to the "special circumstances" finding required by 10 CFR 50.12(a). The licensee stated that these valves are designed to be open after a loss of coolant accident to permit discharge of the containment atmosphere into the closed hydrogen/oxygen sampling system outside of containment. The licensee stated that these sampling system lines constitute an extension of the containment boundary, and with these valves open, leakage outside the plant is prevented by the leak-tight nature of the monitoring system lines. Assurance is provided that system piping will not leak by the performance of periodic integrated leak rate (Type A) tests and soap bubble testing of the pipe joints. The licensee stated that these tests ensure system integrity and therefore, accomplish the underlying purpose of the rule. The licensee further stated that compliance with the Type C test requirements would result in undue hardship. Compliance with Appendix J for this system would result in 20 periodic tests per outage for each unit. These tests involve entry into the primary containment to attach test equipment, thus increasing occupational radiation exposure. The licensee estimated that the performance of the Type C tests on the hydrogen/oxygen monitor isolation valves cost approximately $21,000 per outage. Type C testing would therefore involve higher personnel exposures and financial expenditure compared to the soap bubble tests.

The staff agrees with the licensee's determination and therefore concludes that "special circumstances" exist for the licensee's requested exemption in that application of the regulations in these particular circumstances is not necessary to achieve the underlying purpose of Appendix J to 10 CFR Part 50 and additional costs would be imposed if the exemption were not granted. See 10 CFR 50.12(a)(2)(ii).

We have evaluated other information provided by the licensee to justify the exemption. The instrument lines associated with the penetrations listed above are one-half inch sampling lines connected to hydrogen/oxygen monitors CAC–AT–4409 and CAC–AT–4410 for both units. The piping used in these systems is seismic Category 1, Quality Group 1B. The valves are not designated for containment isolation; and, although they receive an isolation signal after a postulated accident, they are reopened for long-term containment atmosphere monitoring. Previous containment integrated leak rate tests showed no piping leakage problems with the valves opened. The staff concurs that these valves need not be considered necessary for containment isolation if assurance is provided that the system piping is leak-tight and therefore can be considered an extension of containment. However, the system piping contains some threaded and compression fittings which are not qualified to be used as extensions of the containment boundary. Threaded fittings are used in the system to permit disassembly for equipment connections and maintenance. To ensure leak tightness of these fittings, the licensee committed, by letter dated December 11, 1986, to perform soap bubble tests on the system at the same pressure and frequency as would be required for Type C testing by Appendix J and also after maintenance is performed on the system. The licensee has also stated that this system piping will continue to be tested for leak tightness during performance of the containment integrated leak rate tests as required by Appendix J.

Based on the above discussion, the licensee's request for exemption from the requirements of Appendix J for the above-listed penetrations for the hydrogen/oxygen monitoring system is granted for Brunswick 1 and 2.

IV

Accordingly, the Commission has determined that, pursuant to 10 CFR 50.12, this exemption is authroized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security. The Commission further determines that special circumstances, as provided in 10 CFR 50.12(a)(2)(ii), are present justifying the exemption, namely that application of the regulation in the particular circumstances would not serve the underlying purpose of the rule and is not necessary to achieve the underlying purpose of the rule—to ensure the leak-tight integrity of systems which penetrate primary containment, and would impose additional costs. The leak-tight integrity of the hydrogen/oxygen monitoring system is ensured through the performance of soap bubble tests and integrated leak rate tests on the system.

Accordingly, the Commission hereby grants an exemption from the Type C testing requirements of Appendix J to 10 CFR Part 50 for valves in the following hydrogen/oxygen monitoring system penetrations in both the Brunswick 1 and 2 primary containments:

| Penetration No. | Function |
|---|---|
| X–57A | CAC–AT–4409 Supply |
| X–57B | CAC–AT–4409 Supply |
| X–60E | CAC–AT–4409 Supply |
| X–209B–A | CAC–AT–4409 Supply |
| X–245E | CAC–AT–4409 Return |

BILLING CODE 7590–01–M

---

[Docket No. 30–20261; License No. 35–15486–02; EA 86–152]

## Nurrie Construction Co.; Order Imposing a Civil Monetary Penalty

I

Nurrie Construction Company, Muskogee, Oklahoma, (the "licensee") was the holder of License No. 35–15486–02 (the "license") issued by the Nuclear Regulatory Commission (the "Commission" or "NRC") on January 6, 1984, and is now holder of a revised license No. 35–15486–02 issued on May 23, 1986 which is essentially the same as the original license. The current license, as well as the former license, authorizes the licensee to use licensed materials in Troxler Model 3400 Series moisture/density gauges and Troxler Model 2401 surface moisture/density gauges for measurement of properties of materials. The current license expires on January 31, 1989.

II

NRC safety inspections of the licensee's activities under the license were conducted on April 15 and 20–22, 1986. During these inspections, the NRC staff determined that the licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalty was served upon the licensee by letter dated October 31, 1986 and nine violations were proposed. The Notice stated the nature of the violations, the provisions of the Commission's requirements that the licensee had violated, and the amount of the proposed civil penalty for the violations. A response, dated November 18, 1986, to the Notice of Violation and Proposed Imposition of a Civil Penalty was received from the licensee.

After consideration of the licensee's response and the statements of fact, explanation, and argument for mitigation contained therein, the Deputy Executive Director for Regional Operations has determined, as set forth in the Appendix to this Order, that the penalty proposed in the Notice of Violation and Proposed Imposition of Civil Penalty for the violations should be reduced because two of the nine violations have been withdrawn. Accordingly, the Notice of Violation has been amended as set forth in the Appendix.

III

In view of the foregoing and pursuant to section 234 of the Atomic Energy Act of 1954, as amended (ACT), 42 U.S.C. 2282, Pub. L. 96–295, and 10 CFR 2.205, It Is Hereby Ordered That:

The licensee pay a civil penalty in the amount of Three Hundred Eighty-Eight dollars ($388) within 30 days of the date of this Order, by check, draft, or money order, payable to the Treasuer of the United States and mailed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555.

IV

The licensee may request a hearing within 30 days of the date of this Order. A request for a hearing shall be clearly marked as a "Request for an Enforcement Hearing" and shall be addressed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555 with a copy to the Assistant General Counsel for Enforcement at the same address, and to the NRC Regional Administrator, Region IV, 611 Ryan Plaza Drive, Suite 1000, Arlington, Texas 76011. If a hearing is requested, the Commission will issue an Order designating the time and place of the hearing. If the licensee fails to request a hearing within 30 days of the date of this Order, the provisions of this Order shall be effective without further proceedings. If payment has not been made by that time, the matter may be referred to the Attorney General for collection.

In the event the licensee requests a hearing as provided above, the issues to be considered at such hearing shall be:

a. Whether the licensee was in violation of Commission requirements as set forth in violations B, C.1, C.2, D.1, D.2, D.3 and E of the Notice of Violation and Proposed Imposition of Civil Penalty referenced in Section II above, and as amended by this Order, and

b. Whether, on the basis of such violations, this Order should be sustained.

Dated at Bethesda, Maryland, this 7th day of May 1987.

For The Nuclear Regulatory Commission.

James M. Taylor,

*Deputy Executive Director for Regional Operations.*

**Appendix—Evaluation and Conclusion**

On October 31, 1986, a Notice of Violation and Proposed Imposition of Civil Penalty was issued to the licensee for nine violations of NRC requirements. The licensee responded to the Notice in a letter dated November 18, 1986, and indicated that it did not deny that six of the violations occurred, but questioned the validity of the remaining three violations. Provided below are (1) a restatement of each violation, (2) a summary of the licensee's response, and (3) the NRC evaluation of the licensee's response. Several of the licensee's responses suggested that the Notice of Violation and Proposed Imposition of Civil Penalty referred to the wrong license conditions. Contrary to that belief, the license in effect during the inspection was referred to properly. The confusion resulted from a subsequent license amendment which caused some conditions to be renumbered.

**A. Restatement of Violation A**

License Condition 13 requires, in part, that each sealed source shall be tested for leakage and/or contamination at intervals not to exceed six months.

Contrary to the above, from January 1984 to April 1986, the licensee had not performed about 25 percent of the required source leak tests on the sealed source in Troxler Density Gauge, Model 2401, Serial No. 1939.

*Summary of Licensee's Response to Violation A*

The licensee contends that Troxler Gauge Model 2401, Serial No. 1939 was in storage during the periods in question. Therefore, the licensee asserts that a violation did not occur since leak tests are not required when a gauge is in storage.

*NRC Evaluation of Licensee's Response*

This violation was cited by the NRC inspector because leak test records were not found for the last half of 1984 or the first half of 1985 and the licensee had not previously indicated that the Troxler Gauge was not being used and was in storage. However, based upon the licensee's statements in its letter of November 18, 1986, this violation is withdrawn.

**B. Restatement of Violation B**

License Condition 15 requires, in part, that the licensee conduct a physical inventory every six months to account for all sealed sources received and possessed under the license.

Contrary to the above, from January 1984 to April 1986 the licensee had not performed any physical inventories of sealed sources in its possession.

*Summary of Licensee's Response to Violation B*

The licensee contends that physical inventory records of the licensed material were not in their files at the time of inspection, but they always maintain the inventory records.

*NRC Evaluation of Licensee's Response*

At the time of the inspection, the comptroller indicated that he did not know of any physical inventories that had been performed. Since no inventory records were found, a violation was proposed. The licensee's response to the Notice of Violation and Proposed Imposition of Civil Penalty indicated that physical inventory records had been available. Subsequently, the NRC requested the licensee to submit copies of those records. The licensee submitted shipping records, not inventory records. Even these shipping records, which the NRC does not consider to be adequate substitutes for the physical inventory records, indicated that six inventories were missing for two gauges. Therefore, the violation occurred as stated.

**C. Restatement of Violation C**

License Condition 16 requires licensed material to be transported in accordance with 10 CFR Part 71. 10 CFR 71.5 requires compliance with the applicable requirements of the appropriate Department of Transportation regulations in 49 CFR Parts 170 through 189.

1. 49 CFR 173.415(a) requires, in part, that each shipper of a specification 7A package must maintain the package performance test records for at least one year after the latest shipment.

Contrary to the above, from January 1984 to April 1986, the licensee had not maintained the shipping package test records.

2. 49 CFR 172.200 requires, in part, shipping papers to be prepared for each shipment and 49 CFR Part 203(d) specifies the information required on the shipping papers.

Contrary to the above, from January 1984 to April 1986, shipping papers were not used by the licensee during transportation of licensed materials in its own vehicles and several shipments of licensed materials were made by common carriers without shipping papers containing the radionuclide or activity.

*Summary of Licensee's Response to Violation C*

Regarding Violation C.1, the licensee contends that it was not aware of the requirement to maintain package performance test records.

Regarding Violation C.2, the licensee asserts that shipping papers were always used when the Troxler gauges were transported and each company vehicle had a copy of a permanent type shipping paper in the cab when transporting the gauges.

*NRC Evaluation of Licensee's Response*

The licensee's lack of understanding of the requirement to have package performance test records does not provide a basis for withdrawal of the violation. Licensees are expected to be knowledgeable about applicable regulatory requirements. Therefore, Violation C.1 remains as stated.

Violation C.2 was cited because the comptroller indicated that he thought current shipping papers were not being utilized each time the gauges were transported and the absence of records verified his belief of this matter. The NRC inspector did find shipping papers for licensed material being shipped by common carriers, but these papers did not contain all the required information. The licensee's response to the Notice of Violation and Proposed Imposition of Civil Penalty indicated that each company vehicle contained permanent shipping papers and that individual shipping papers were used for common carrier shipments. The violation is hereby modified to read, "Contrary to the above, from January 1984 to April 1986, several shipments of licensed materials by common carrier were not accompanied by shipping papers showing the radionuclide or activity."

**D. Restatement of Violation D**

License Condition 17 requires that all licensed material be possessed and used in accordance with statements, representations, and procedures contained in application dated November 1, 1983, and letter dated December 8, 1983.

1. The license application, dated November 1, 1983, names a specific individual as Radiation Protection Officer (RPO).

Contrary to the above, qualified individuals other than the authorized RPO acted as the RPO. Specifically, the authorized RPO left the company in 1982, and his duties as RPO were assumed by two other individuals of Nurrie Construction Company. Additionally, in April

1986 the company named a third individual as RPO.

2. The licensee's letter, dated December 6, 1983, states, in part, that workers would wear a film badge or other dose measuring device when using or transporting the device.

Contrary to the above, during March and April 1986, a worker did not wear a film badge when he used the moisture/density gauge about 11 times.

3. The licensee's letter, dated December 6, 1983, states, in part, that when the gague is stored, the area would be locked and that security of the instrument would be maintained at all times.

Contrary to the above, the gauge was stored in an area that was not locked and security of the instrument was not maintained. Specifically, on April 20, 1986, the moisture-density gauge was stored in an unlocked construction trailer and no one was present to prevent unauthorized removal of the gauge.

*Summary of Licensee's Response to Violation D*

The licensee admitted Violation D and has implemented corrective actions, which include requesting an amendment to the license, estimating exposures and revising dosimetry records, and stating its intent to always maintain strict security with gauges.

*NRC Evaluation of Licensee's Response*

Since the licensee admitted the violation, Violation D remains as stated.

**E. Restatement of Violation E**

10 CFR 20.401(a) requires in part that each licensee shall maintain records showing the radiation exposures of all individuals for whom personnel monitoring is required under 10 CFR 20.202.

Contrary to the above, from January 1984 to April 1986, the licensee had not maintained the monthly dosimetry records for personnel for whom record keeping is required under 10 CFR 20.202.

*Summary of Licensee's Response to Violation E*

The licensee contends that, if records had not been misfiled, this violation would not have occurred because adequate records exist in the area of personnel monitoring.

*NRC Evaluation of Licensee's Response*

As a result of the licensee's response, the NRC requested the licensee to submit copies of those records. As received, those records were deficient in that several months of exposure data were missing. Therefore, the violation remains as stated.

**F. Restatement of Violation F**

10 CFR 30.51(a) requires in part that each person who receives byproduct material pursuant to a license shall keep records showing the receipt, transfer, and disposal of byproduct material.

Contrary to the above, from January 1984 to April 1986, the licensee failed to maintain receipt records of the licensed radioactive materials in its possession.

*Summary of Licensee's Response to Violation F*

The licensee's response stated that it had shipping records proving receipt, delivery, or transfer of sealed sources.

*NRC Evaluation of Licensee's Response*

On February 24, 1987, the licensee submitted two "shipped from and shipped to" forms showing shipments of Troxler gauges between the licensee and Troxler. Pending further review, these records will be accepted as satisfying the receipt and transfer record requirements of 10 CFR 30.51(a). Therefore, Violation F is hereby withdrawn.

**G. Summary of Licensee's Request for Mitigation**

The licensee states that it has improved its organization and has corrected all of the problems brought to its attention by the NRC. The licensee asserts that full compliance was achieved within days after the inspection and that its mistakes should not necessitate a Severity Level III problem and do not merit a civil penalty.

*NRC Evaluation of Licensee's Request for Mitigation*

During the NRC inspection, it was apparent to the NRC inspector that licensee personnel lacked knowledge of NRC requirements and that an overall strengthening of management control of licensed activities was necessary. Even with the withdrawal of two of the violations, as discussed above, the weaknesses identified in the license's control of its licensed activities is evidenced by the seven remaining violations and these violations constitute a problem are warranting a Severity Level III. No mitigations is considered appropriate.

**Conclusion**

Violations A and F have been withdrawn. The other violations occurred as stated in the Notice, as amended in this Appendix, and the licensee has not provided information to support a reduction in the severity level of the problem. Based on the reductions in the number of violations, a sufficient basis exists for reduction of the proposed civil penalty. Therefore, a civil penalty in the amount of Three Hundred Eighty-Eight Dollars (388) is imposed.

[FR Doc. 87-11296 Filed 5-15-87; 8:45 am]

BILLING CODE 7590-01-M

## University of Wisconsin; Order Imposing Civil Monetary Penalty

**[Docket No. 30-03465; Licensee No. 48-09849-18; EA 86-179]**

I

The University of Wisconsin, Madison, Wisconsin (licensee) is the holder of Materials License No. 48-09849-18 issued by the Nuclear Regulatory Commission (NRC) on March 12, 1981. The license authorizes the licensee to conduct (1) research and development; (2) medical research, diagnosis, and therapy; and (3) tracer studies in accordance with the conditions specified therein.

II

A special safety inspection of the licensee's activities was conducted from September 2 through 19, 1986. The results of that inspection indicated that the licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was served upon the licensee by letter dated December 11, 1986. The Notice stated the nature of the violations, the provisions of the NRC's requirements that the licensee had violated, and the amount of the civil penalty proposed for the violations. The licensee responded to the Notice by two letters dated January 6, 1987.

III

After consideration of the licensee's responses and the statements of fact, explanation, and argument for mitigation contained therein, the Deputy Executive Director for Regional Operations, has determined, as set forth in the appendix to this Order, that the violations occurred as stated and that the penalty proposed for the violations designated in the Notice should be imposed.

IV

In view of the foregoing and pursuant to section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, It Is Hereby Ordered That:

The licensee pay a civil penalty in the amount of One Thousand Two Hundred Fifty Dollars ($1,250) within 30 days of the date of this Order by check, draft, or money order, payable to the Treasurer of the United States and mailed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

The licensee may request a hearing within 30 days of the date of this Order. A request for a hearing shall be addressed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555. A copy of the hearing request also shall be sent to the Assistant General Counsel for Enforcement, Office of General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 and to the Regional Administrator, U.S. Nuclear Regulatory Commission, Region III, 799 Roosevelt Road, Glen Ellyn, Illinois 60137.

If a hearing is requested, the Commission will issue an Order designating the time and place of the hearing. If the licensee fails to request a hearing within 30 days of the date of this Order, the provisions of this Order shall be effective without further proceedings. If payment has not been made by that time, the matter may be referred to the Attorney General for collection.

In the event the licensee requests a hearing as provided above, the issues to be considered at such hearing shall be:

(a) Whether the licensee was in violation of the Commission's requirements as set forth in the Notice referenced in Section II above and

(b) Whether, on the basis of such violation, this Order should be sustained.

Dated at Bethesda, Maryland, this 7th day of May 1987.

For the Nuclear Regulatory Commission.

**James M. Taylor,**

*Deputy Executive Director for Regional Operations.*

**Appendix—Evaluations and Conclusions**

On December 11, 1986, a Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was issued for violations identified during an NRC special safety inspection. The University of Wisconsin, Madison, Wisconsin, responded to the Notice by two letters dated January 6, 1987. In its response, the licensee admits the violations occurred as described in the Notice, but requests remission or further mitigation of the proposed civil penalty.

**I. Restatement of Violations**

10 CFR 20.201(b) requires each licensee to make or cause to be made such surveys as (1) may be necessary for the licensee to comply with the regulations in this part and (2) are reasonable under the circumstances to evaluate the extent of radiation hazards that may be present. As defined in 10 CFR 20.201(a), "survey" means an evaluation of the radiation hazards incident to the production, use, release, disposal, or presence of radioactive materials or other sources of radiation under a specific set of conditions.

10 CFR 20.105(b) requires in part that no licensee possess, use, or transfer licensed material in such a manner as to create in any unrestricted area radiation levels that, if an individual were continuously present in the area, could result in that individual receiving a dose in excess of two millirems in any 1 hour, or 100 millirems in any 7 consecutive days.

1. Contrary to the above, on June 26 and 27, 1986, the licensee failed to perform a survey of unrestricted areas to assure compliance with 10 CFR 20.105(b) following the implant of 557 iridium-192 seeds in animals at the Charmany Instructional Facility.

2. Contrary to the above, from June 26 until August 21, 1986, the licensee failed to perform reasonable surveys under the circumstances to determine the extent of radiation hazards that may have been present. Specifically, surveys of the floor, rubber mats, and animal feces were not conducted to detect loose radioactive sources immediately prior to having the feces washed down the drain. This resulted in the loss of seven iridium-192 sealed sources.

Collectively, these violations have been categorized as a Severity Level III problem (Supplement IV).

Civil Penalty—$1,250—assessed equally among the violations.

**II. Licensee's Response and NRC Evaluation of Licensee's Response**

In its response, the licensee admits the violations occurred as described in the Notice, states reasons why the violations occurred, states corrective action taken and steps to avoid further violations as well as the dates when full compliance was achieved. The licensee also acknowledges that the NRC mitigated the base civil penalty by 50 percent for unusually prompt and extensive corrective action. However, the licensee submits that, given all the circumstances of the incident, the violations identified are not at the same level of concern as the example of a Severity Level III violation set forth in Supplement IV.C.2 of the Enforcement Policy regarding radiation exposure rates in unrestricted areas. The licensee also requests remission or further mitigation of the proposed civil penalty based on the additional reasons set forth below:

**A. Severity Level**

*Licensee Assertion*

The licensee agrees that the unrestricted areas were not surveyed, but argues that the likelihood of exposures at the level identified in Supplement IV.C.2 of the Enforcement Policy as meriting classification at Severity Level III was small. The licensee also asserts that the loss of the sources occurred because of a series of unforseeable happenings, and it is mere speculation to conclude that adequate control and oversight were not exercised.

*NRC Evaluation*

The violations described in the Notice concern the licensee's failure to conduct adequate radiation hazard surveys in unrestricted areas as well as within the animal experimental area, which resulted in the loss of seven sealed iridium-192 sources. As such, these violations represent a failure to control licensed material, which is properly categorized at Severity Level III pursuant to Supplement IV.C.2 of the Enforcement Policy.

It is not speculation to say that increased oversight would have recognized and prevented the violations. This was an unusual experiment which was authorized without a full review by the Radiation Safety Committee. Furthermore, the health physics staff was not actively involved in the experiment until the seeds were reported missing. More active health physics staff involvement would have resulted in more appropriate surveys and radiological controls being performed.

**B. Remission or Mitigation**

*Licensee Assertion*

The licensee offers five reasons why it believes the proposed penalty should be remitted or mitigated further based on its prompt actions taken in response to the event. These are: (1) Upon notification that sources were missing, University personnel immediately surveyed the facility and physically inspected and surveyed the grounds surrounding the facility, (2) when sources could not be located within the facility, health physicists physically inspected and surveyed the creek which receives effluent water from the sewer system and did dosimetry calculations for potential exposures, (3) the NRC was promptly notified, (4) a press release was prepared and a press conference was held, and (5) the primary investigator's authorization to use radio-nuclides was revoked pending full University Radiation Safety Committee (URSC) review and the radionuclides in his possession were confiscated.

The licensee also asserts that, in addition to these immediate steps, the University critically reviewed the internal procedures used to review and monitor experiments with radionuclides and extensively revised its process for reviewing and approving radionuclide experiments. The licensee also states that assessment of 50 percent of the fine is inappropriate because of the University's past record of compliance and commitment to safety.

*NRC Evaluation*

The NRC has already recognized both the licensee's immediate and long-range corrective actions, and has reduced the base civil penalty by the maximum allowable 50 percent for unusually prompt and extensive corrective actions. Further reduction for the licensee's past record of compliance is not considered appropriate because of the seriousness of this event which could have been prevented by appropriate surveys in response to available information.

With regard to the licensee's assertion that the NRC was promptly notified, the NRC agrees that the licensee promptly reported the loss of licensed material once the licensee determined the seeds were lost. However, the NRC Enforcement Policy, 10 CFR Part 2, Appendix C, Section V.B.1 states, "Reduction of up to 50 percent of the base civil penalty may be given when a licensee identifies the violation and promptly reports the violation to the NRC. In weighing this factor, consideration will be given to, among other things, the length of time the violation existed prior to discovery, the opportunity available to discover the violation, the ease of discovery and the promptness and completeness of any required report." In addition, immediate corrective action is required to apply this factor. This experiment began on June 26, 1986, and concluded on August 21, 1986. On June 29, 1986, the licensee became aware that there were problems with the experiment when it discovered a template holding sources was partially hanging from an animal and some sources had separated

from the template and migrated into the animal tissue. Furthermore, the licensee found one catheter containing sources loose on the floor. The licensee discovered the discrepancy in a source inventory on August 21, 1986. On August 25, 1986, the licensee determined that the sources were lost and notified the NRC as required by 10 CFR 20.402. The licensee had ample opportunity to involve the health physics staff and incorporate comprehensive survey procedures, which may have averted the loss of sources, more promptly than it did. Therefore, mitigation for this factor is not warranted.

**III. NRC Conclusion**

The NRC staff has concluded that all violations did occur as originally stated in the December 11, 1986 Notice of Violation and Proposed Imposition of Civil Penalty and that the problem represented by these violations was properly categorized at Severity Level III in accordance with 10 CFR Part 2, Appendix C, Supplement IV. In addition, the staff concludes that a sufficient basis was not provided for remission or further mitigation of the proposed civil penalty. Therefore, the NRC staff has concluded that a $1,250 civil penalty should be imposed.

[FR Doc. 87-11291 Filed 5-15-87; 8:45 am]

BILLING CODE 7590-01-M

---

[Docket No. 50-352-OLA ASLBP No. 87-550-03-LA]

**Philadelphia Electric Co.; Establishment of Atomic Safety and Licensing Board**

Pursuant to delegation by the Commission dated December 29, 1972, published in the **Federal Register**, 37 FR 28710 (1972), and §§ 2.105, 2.700, 2.702, 2.714, 2.714a, 2.717 and 2.721 of the Commission's Regulations, all as amended, an Atomic Safety and Licensing Board is being established in the following proceeding to rule on petitions for leave to intervene and/or requests for hearing and to preside over the proceeding in the event that a hearing is ordered.

**Philadelphia Electric Co. Limerick Generating Station, Unit 1 Facility Operating License No. NPF-39**

This Board is being established pursuant to a notice published by the Commission on March 12, 1987, in the **Federal Register** (52 FR 7675-7676, 7691-7693) entitled, "Consideration of Issuance of Amendment to Facility Operating License and Proposed no Significant Hazards Consideration Determination and Opportunity for Hearing." The proposed amendment would authorize the licensee to revise the reporting requirements on primary coolant iodine spikes as described in the Model TS accompanying Generic Letter No. 85-19 issued on September 27, 1985.

The Board is comprised of the following Administrative Judges:

Sheldon J. Wolfe, Chairman, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555

Dr. Richard F. Cole, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555

Dr. Peter A. Morris, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Issued at Bethesda, Maryland, this 7th day of May 1987.

B. Paul Cotter, Jr.,

*Chief Administrative Judge, Atomic Safety and Licensing Board Panel.*

## POSTAL SERVICE

**Privacy Act of 1974; Matching Program—Postal Service/State of Alaska Department of Revenue**

**AGENCY:** Postal Service.

**ACTION:** Notice of matching program—Postal Service/State of Alaska Department of Revenue.

**SUMMARY:** The purpose of this document is to publish notice of the Postal Service's plan to participate in a computer matching program with the State of Alaska Department of Revenue to identify and locate postal employees who are absent parents owing child support obligations in Alaska.

**DATE:** The match is expected to begin in or about May 1987.

**ADDRESS:** Send any comments to Records Officer, Room 8121, U.S. Postal Service, 475 L'Enfant Plaza SW., Washington, DC 20260-5010. Copies of all written comments will be available for inspection and photocopying between 9:00 a.m. and 4:00 p.m. Monday through Friday in Room 8121 at the above address.

**FOR FURTHER INFORMATION CONTACT:** Betty Sheriff, Records Office, (202) 268-5158.

**SUPPLEMENTARY INFORMATION:** The Child Support Enforcement Division of the State of Alaska Department of Revenue is charged with the responsibility of enforcing child support orders issued by courts in other jurisdications and establishing, enforcing, and administering child support orders and obligations in the State of Alaska. The Postal Service has agreed to assist that office in its efforts to identify and locate current postal employees who have failed to fulfill child support obligations so that those obligations may be enforced. Set forth below is the information required by paragraph 5.f.(1) of the Revised Supplemental Guidance for Conducting Computer Matching Programs issued by the Office of Management and Budget (47 FR 21656; May 19, 1982). A copy of this notice has been provided to both Houses of Congress and the Office of Management and Budget.

**Report of a Matching Program: U.S. Postal Service (USPS) and State of Alaska Department of Revenue (A-DOR).**

a. *Authority:* 39 U.S.C. 404.

b. *Program Description:* Under the planned program, the A-DOR will submit to the USPS a computer tape of the names, social security account numbers (SSANs), and dates of birth of absent parents within the State of Alaska. The USPS will match that tape against its payroll system files (USPS 050.020, Finance Records—Payroll System) for the purpose of identifying postal employees who are absent parents delinquent in their child support obligations and will disclose to the Child Support Enforcement Division of the A-DOR the following information about resultant "hits": Name, SSAN, date of birth, home address, facility where employed, and gross wage information.

The validity of "matched" employee/absent parent information will be verified by the Child Support Enforcement Division of the A-DOR. Subsequent enforcement actions may include service of notice and/or garnishment of or lien against assets to collect delinquent child support from the nonsupporting parent. Further, the USPS Inspection Service may participate in the investigation of hits as a result of this matching program and establish investigative case files within the parameters of Privacy Act system USPS 080.010, Inspection Requirements Investigative File System (last published in 48 FR 10975 of March 15, 1983). Any actions taken as a result of the match will comply with all applicable due process standards. Disclosure of this information is authorized by routine use No. 32 in USPS 050.020, Payroll System, most recently published in 52 FR 6251 of March 2, 1987.

c. *Period of the Match:* The matching program will be on a one-time basis and is expected to begin in May 1987 and end no later than November 1988.

d. *Security:* The USPS personnel who perform the match will: (a) Have the only USPS access to the A-DOR

computer tape: (b) use it for the purpose of the match and for no other purpose; and (c) safeguard it from unauthorized access. Likewise, the postal employee information disclosed to the A–DOR will be used by authorized A–DOR personnel only for the purpose of the match and for no other purpose and will be safeguarded from unauthorized access.

e. *Disposition of Records:* The USPS will not retain or copy the tape provided by A–DOR and will return it upon completion of the match. All information complied as a result of this matching effort must be destroyed as soon as the determination is made that no irregularity has occurred.

f. *Other Comments:* No bestowed rights, privileges, or benefits will be terminated solely on the basis of a "hit" or the records provided by the USPS in connection with this program.

**Fred Eggleston,**

*Assistant General Counsel Legislative Division.*

## SECURITIES AND EXCHANGE COMMISSION

**[Release No. 34–24438; File No. SR–BSE–86–5]**

### Self-Regulatory Organizations; Proposed Rule Changes by the Boston Stock Exchange, Inc.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, ("Act") 15 U.S.C. 78 s(b)(1), notice is hereby given that on November 12, 1986 the Boston Stock Exchange, Incorporated ("BSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed changes as described in Items I, II and III below, which items have been prepared by the self-regulatory organization.[1] The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

### I. Self-Regulatory Organization's Statement on the Terms of Substance of the Proposed Rule Changes

The proposed amendments to Chapter XXXII, sections 31 and 33 conform the Boston Stock Exchange's arbitration fee schedules to those of the New York Stock Exchange ("NYSE").[2] The proposed Chapter XXXII, section 34 would require parties to an arbitration hearing to exchange documents in their possession which they intend to introduce to the arbitrators at least ten days before a hearing.[3]

### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes

In its filing with the Commission, the self-regulatory organization included statements governing the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) *Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes*

The purpose of the proposed rule change is to conform the BSE's arbitration fee schedules to those adopted by the Uniform Code of Arbitration. The Commission recently published notice of and solicited comments on a similar conforming arbitration amendment submitted by the New York Stock Exchange, Inc. ("NYSE").[4] Such conformity is important not only to ensure consistent procedures among self-regulatory organizations, but also because many of the arbitration filings brought to the BSE are subsequently referred to other self-regulatory organizations.

Proposed new section 34 would be an experimental rule for a one year pilot period. If approved, it would require that parties to an arbitration proceeding exchange documents to be introduced to the arbitrators at least ten days prior to the scheduled hearing date.[5] Arbitrator time will be saved both in terms of session hours saved and adjournments avoided. For example, when documents are introduced at a hearing, parties may need to recess to read the documents which can cause session delays. Parties have also requested adjournments at the hearing because they were not able to anticipate the contents of an opposing party's exhibits and hence could not effectively address the documents. If the parties are compelled to exchange relevant documents prior to the commencement of a hearing, the arbitration process will be improved. The length of this experiment will be one year. The NYSE also proposed this change in its arbitration rule filing.

(B) The statutory basis for the proposed rule changes is section 6(b)(5) of the Act in that they promote just and equitable principles of trade by ensuring that members and member-organizations and the public have an impartial forum for the resolution of their disputes.

(C) *Self-Regulatory Organization's Statement on Comments on the Proposed Rule Changes Received from Members, Participants, or Others*

The Exchange has neither solicited nor received comments on the proposed rule changes.

### III. Date of Effectiveness of the Proposed Rule Changes and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(a) By order approve such proposed changes, or

(b) Institute proceedings to determine whether the proposed rule changes should be disapproved.

### IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities, and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule changes that are filed with the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC. Copies of such filing will also be available for inspection and copying at the principal office of the BSE. All submissions should refer to the

---

[1] The BSE filed Amendment No. 1 to its proposed rule change on April 10, 1987.

[2] In its filing, the BSE included copies of its revised fee schedule. Copies of the fee schedule are available from the Commission at the address noted in section IV below and from BSE.

[3] As discussed in more detail below, Amendment No. 1 indicates that proposed Chapter XXXII, section 34 concerning the exchange of documents will be implemented for a one year period.

[4] See, Securities Exchange Act Release No. 24282, March 5, 1987, 52 FR 7722, March 13, 1987.

[5] We note that under the rule the arbitrator may exclude any document not so exchanged.

file number in the caption above and should be submitted by June 8, 1987.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: May 8, 1987.

[Release No. 34-24440; File No. SR-CBOE-87-15]

## Self-Regulatory Organizations; Proposed Rule Change by the Chicago Board Options Exchange, Inc.; Relating to Government Securities Options Permits

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on April 27, 1987, the Chicago Board Options Exchange, Incorporated ("CBOE" or "Exchange") filed with the Securities and Exchange Commission the proposed rule change as described in Items, I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

### I. Text of the Proposed Rule Change

Additions are italicized; deletions are bracketed.

Definitions

Rule 1.1. No change except as follows.

[Nonequity Options Permit Holder

(hh) The terms "nonequity options permit holder" or "permit holder" mean a qualified individual or organization with an approved nominee that has been issued a nonleasable, nontransferable temporary permit for effecting transactions in nonequity, that is, debt, options designated by the Board. Each permit holder shall be subject to the provisions of the Constitution and Rules that are applicable to the owner of a regular Exchange membership, unless exempted from such provisions by the Board; provided, however, Rule 3.12, which concerns the ownership of membership, Rule 3.13, which concerns the purchase of membership, and section 2.6 of the Constitution, which concerns voting and other rights and powers, shall not apply to a permit holder in his or its capacity as such.]

[Nonequity] *Government Security* Options Permits

Rule 3.20. Permits issued for effecting transactions *pursuant to Exchange Rules and policies* in [nonequity] *Government security* options *settled by physical delivery* shall be effective for one year and shall be renewable annually for a maximum duration of three (3) years from the date of issuance. Permits which are not renewed shall be retired and shall not be reissued by the Exchange. Permits not issued by December 31, 1984 shall be withdrawn.

Privileges and Responsibilities of Permit Holders

Rule 3.21. (a) Privileges. *Government security* [P]permits issued by the Exchange shall entitle the holders to:

(i) Be admitted to the Floor of the Exchange during business days;

(ii) Enter into principal transactions as a Market-Maker in [nonequity] *Government security* options during the prescribed business hours and days;

(iii) Purchase a regular membership during the last month of the three-year permit period in accordance with procedures established by the Exchange;

(iv) Such other privileges as may subsequently be granted by the Board.

Permit holders, however, shall have no right to petition or to vote at Exchange meetings or elections *and shall have no interest in Exchange assets.*

(b) Nontransferability. The foregoing privileges may not be transferred or assigned; however, an organization with an approved permit-holder nominee may, upon approval of the Exchange, substitute another permit-holder nominee.

(c) Dues and Fees. Fees for the first fifty (50) permits [issued in connection with the opening of the GNMA options market] shall be ten-thousand dollars ($10,000) per year. Permit holders shall not be charged Exchange dues, but each permit holder and applicant for a permit shall be subject to all other fees and charges established by the Board.

. . . Interpretations and Policies:

.01 The Board has entitled permit holders to enter into agency transactions as Floor Brokers in [nonequity] *Government security* options during the prescribed business hours and days.

Procedures for *Government Security* Permit Issuance

Rule 3.22. Permits may be issued to qualified applicants who are either individuals or organizations with an approved nominee meeting the same qualifications as an individual permit holder. The Membership Committee shall select the applicants who appear most qualified based on demonstrated knowledge of and experience in the securities and related industries, adequacy of financial resources and successful completion of a proficiency examination.

*Additional Government Security Options Permits*

*Rule 3.22A. The Exchange may issue up to 20 three-year permits for effecting transactions in Government security options settled by physical delivery, since no new permits may be issued under Rule 3.20. All of these permits shall expire three years after [insert date to be set by the Exchange after SEC approval]. These additional permits shall have the same terms as the old permits with the following exceptions. There is no right to purchase a regular membership. No member or member organization may hold more than two permits. A member who is a sole proprietor may employ a nominee to use a permit, with the approval of the Membership Committee. The Membership Committee may withdraw, temporarily or permanently, some or all unused permits.*

Admission to and Conduct on the Trading Floor

Rule 6.20. No change except as follows.

. . . Interpretations and Policies:

.03 Rule 3.21 provides that a [nonequity] *Government securities* options permit holder is entitled to enter into principal transactions as a Market-Maker and agency transactions as a Floor Broker in [nonequity] *Government securities* options *settled by physical delivery* on the floor of the Exchange until his permit expires.

Letters of Authorization

Rule 6.72. No change except as follows.

. . . Interpretations and Policies:

.01 Floor brokers executing [nonequity] *Government security* options must have a separate Letter of Authorization issued by a Debt Securities Clearing Member.

Letters of Guarantee

Rule 8.5. No change except as follows.

. . . Interpretations and Policies:

.01 Market-Makers entering into [nonequity] *Government securities* options transactions must have a separate Letter of Guarantee issued by a Debt Securities Clearing Member.

**II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below and is set forth in sections (A), (B), and (C) below.

*(A) Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change*

The proposed rule change would enable the Exchange to issue up to 20 permits that would give market-makers and floor brokers inexpensive access to the trading of Government securities options settled by physical delivery. With the exceptions noted in proposed Rule 3.22A, these new permits have the same terms as those permits approved by the SEC in filing SR–CBOE–81–13. There are only two of the old permits in existence at present, and no additional old permits can be issued. Therefore the Exchange wishes to create new permits in order to provide inexpensive access to attract market-makers and floor brokers to trade Government securities options.

In addition, this proposed rule change replaces the term "nonequity options" with the more precise term "Government securities options settled by physical delivery" in the Rules concerning both the old and the new permits. The definition of a "nonequity options permit holder" contained in Rule 1.1(hh) is omitted as unnecessary, since the permit Rules in Chapter Three provide an adequate definition. Definition 1.1(ii) will become 1.1(hh). The statutory basis for this proposed rule change is section 6(b)(5) of the Securities Exchange Act of 1934 (the Act), in that the proposed rule changes are designed to facilitate transactions in Government securities options settled by physical delivery.

*(B) Self-Regulatory Organization's Statement on Burden on Competition.*

The proposed rule change will not impose any burden on competition.

*(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others*

Comments were neither solicited nor received.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

**IV. Solicitation of Comments**

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submission should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by June 8, 1987.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: May 11, 1987.

Jonathan G. Katz,

*Secretary.*

[FR. Doc. 87–11290 Filed 5–15–87; 8:45 am]

BILLING CODE 8010-01-M

---

**[Release No. 34–24445; File No. SR–NASD–87–22]**

**Self-Regulatory Organizations; Proposed Rule Changes by National Association of Securities Dealers, Inc. Relating to Amendments to Code of Arbitration Procedure**

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on April 20, 1987, the National Association of Securities Dealers, Inc. ("NASD") filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which items have been prepared by the NASD. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

**I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change**

The NASD proposes to change its Code of Arbitration Procedure ("Code") to conform it to changes in the securities industry's Uniform Code of Arbitration regarding the schedule of fees to be deposited by claimants with the NASD at the beginning of the arbitration, and the amounts ultimately chargeable to the parties for the use of the arbitration forum.[1]

In addition, the NASD proposes to amend the Resolution of its Board of Governors concerning failure to act under provisions of the Code, to provide that all arbitration awards must be honored by a cash payment to the prevailing party of the exact dollar amount of the award and must be honored upon receipt of the award or within such other time period as may be prescribed by the award.

**II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In the filing with the Commission, the NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NASD has prepared summaries, set forth in sections (A), (B), and (C), below, of the most significant aspects of such statements.

**III**

*(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change*

(1) *Increase in Filing Fees.* A Uniform Arbitration Code ("Uniform Code") has been developed by the Securities Industry Conference on Arbitration

[1] In its filing, the NASD included copies of its revised fee schedule. Copies of the fee schedule are available from the Commission at the address noted in section IV below and from the NASD.

("SICA"), which is composed of the representatives of the NASD, nine other self-regulatory organizations, four public members, and the Securities Industry Association. The Uniform Code, as implemented by the various self-regulatory organizations, has established throughout the securities industry a uniform system of arbitration procedures. The proposed rule change is intended to conform the provisions of the Association's Code of Arbitration Procedure to amendments to the Uniform Code approved by SICA.

The proposed increase affects cases where the amount in controversy is over $10,000. The fee increase allows the NASD to charge the users of the arbitration facility a larger share of the cost while still maintaining a fee schedule that makes arbitration affordable to the public. The fee change reduces the amount of deposit required for claims between $20,000 and $50,000, making the filing fee less burdensome. The fee schedule places a higher fee on claims exceeding $500,000. Claims in this category require multiple hearing sessions of over one day's duration and are administratively more expensive to conduct. Even with this fee increase, the arbitration service is a highly subsidized activity.

(21) *Manner and Time of Payment of Awards.* The proposed change is intended to clarify that awards must be paid in cash, rather than by offsetting the award against other monies owed to the prevailing party. In a 1986 decision of the NASD's Board Governors, a decision of a District Business Conduct Committee was reversed because NASD did not have a rule or written policy specifically prescribing or prohibiting a particular method of payment. The District Committee had imposed sanctions on the respondent broker/dealer, which had offset a debit balance in its customer's account in satisfaction of an arbitration award rendered against it in an action brought by the customer. The District Committee found that the respondent did not remit a cash payment to the claimant customer for more than one year after the award was rendered, and then only after the institution of disciplinary proceedings. In order to avoid such delays in the future, the Board determined to amend its Resolution to provide for cash payment and timely payment of awards.

These changes are consistent with section 15A(b)(6) of the Securities Exchange Act of 1934, which requires that the Association's rules be designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and, in general, protect the investors and the public interest; and with section 15A(b)(5) of that Act, which requires that the Association's rules provide for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility or system which the Association operates or controls.

*(B) Self-Regulatory Organization's Statement on Burden on Competition*

The NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Securities Exchange Act of 1934.

*(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others*

Comments were neither solicited nor received.

**IV. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or,

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

**V. Solicitation of Comments**

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, an all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, at the above address. Copies of such filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to file number SR–NASD–87–22 and should be submitted by June 8, 1987.

For the Commission by the Division of Market Regulation, pursuant to delegated authority, 17 CFR 200.30–3(a)(12).

Dated: May 12, 1987.

Jonathan G. Katz,

*Secretary.*

**[Release No. 34–24239; File No. SR–PHLX–87–17]**

**Self-Regulatory Organizations; Proposed Rule Change by the Philadelphia Stock Exchange, Inc.**

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on April 27, 1987 the Philadelphia Stock Exchange, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

**I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change**

The Philadelphia Stock Exchange ("PHLX" or the "Exchange") proposes to amend its Exchange Rule 101 to modify the hours business trading may be conducted in foreign currency options. Italics indicates material proposed to be added; brackets indicate material proposed to be deleted.)

Dealings Upon the Exchange

Hours of Business

Rule 101. Except as otherwise ordered by the Board of Governors, the Exchange shall be open for the entrance of members upon every business day, at 8:00 A.M. The Exchange shall conform with daylight saving time when effective in the City of Philadelphia. The Board of Governors shall determine by resolution the hours during which business may be transacted on the Exchange. The Board of Governors has resolved that no option series shall freely trade after 4:10 P.M. except that Value Line Index Options and National Over-the-Counter Index Options shall freely trade until 4:15 P.M. each business day. The Board of Governors has resolved that except under unusual conditions as may be determined by the Board (or the *Foreign Currency* Options Committee or the

Exchange official or officials designated by the Board) foreign currency option *trading sessions shall be conducted in the evening from 7:00 P.M. to 11:00 P.M. Sundays through Thursdays and in the daytime from 8:00 A.M. to 2:30 P.M. Mondays through Fridays.* [transactions may commence on the exchange at 8:00 A.M. each business day and may be effected on the Exchange until 2:30 P.M. each business day at which time no further foreign currency option transactions may be made.]

**II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

*A. Self-Regulatory Organization's Statements of the Purpose of, and Statutory Basis for the Proposed Rule Change*

The purpose of the proposed rule change is to extend trading hours in foreign currency options. The PHLX proposes to add an evening trading session from 7:00 P.M. to 11:00 P.M. Sundays through Thursdays to accommodate market interest in the Far East. In this regard the Exchange recently established liaison offices in Hong Kong and Tokyo. Exchange executives accompanied by representatives of member organizations and the Options Clearing Corporation recently completed an extensive trip to various Far East money centers to assess market potential and penetration of PHLX foreign currency options as a strategic investment and risk hedging product. The Exchange has been particularly encouraged by the trading activity of the recently introduced Australian Dollar foreign currency option which, despite trading during off-business hours respecting the primary inter-bank market, have traded 800 contracts average daily trading volume since their introduction on January 19, 1987. The PHLX believes that evening trading sessions in foreign currency options will provide it a significant real time opportunity to meet the exchange rate risk protection and related hedging needs of Far East manufacturing, banking and other commercial firms during Far East business hours.

For virtually all purposes, the regular daytime trading session and the preceding evening session will be treated as parts of a single trading day. Thus, with the addition of the evening session, each trading day will be deemed to commence at 7:00 p.m. and continue until 2:30 p.m. the following afternoon. For example, open interest and volume will be calculated at the end of the regular daytime trading session reflecting activity from the entire trading day (*ie.*, the prior evening session plus the regular daytime trading session). Margin requirements will be based on a net calculation of positions created throughout the entire trading day (*ie.*, the daytime trading session plus the prior evening session). The Exchange contemplates that evening trading sessions will not necessitate any changes in current procedures respecting options exercises or assignments. The Exchange's real time trade comparison system will be utilized in all trading sessions and augmented computer processing of evening trading sessions transactions will be initiated by the Exchange and OCC, respectively.

The proposed rule change is consistent with the requirements of the Securities Exchange Act of 1934 ("the Act"), and in particular, section 6(b)(5) of the Act. Implementation of the proposed rule change will allow the Exchange to offer an organized trading market during Far East business hours, during which no such market currently is available. Hence, the proposal should promote the maintenance of fair and orderly markets. In addition, provision of such a market during Far East business hours should further the public interest and promote the protection of investors desiring to use the options markets during these hours. Finally, the interbank currency markets operate on a 24-hour basis. Hence, persons that establish currency options positions during U.S. business hours are at risk that the underlying currency markets may move against them after the PHLX market closes. Addition of an evening trading session will provide an opportunity for daytime trading session participants to better protect themselves against 24-hour currency market fluctuations.

*B. Self-Regulatory Organization's Statements on Burden on Competition*

The PHLX does not believe that the proposed rule change will impose any burden on competition.

*C. Self-Regulatory Organization's Statements on Comments on the Purposed Rule Change Received From Members, Participants, or Others*

No written comments were either solicited or received.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or,

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

**IV. Solicitation of Comments**

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street NW, Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by June 8, 1987.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: May 11, 1987.

BILLING CODE 8010-01-M

[Release No. IC-15772; 812-6636]

## American Southwest Financial Corporation; Application

Dated: May 11, 1987.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of Application to Amend Order of Exemption under the Investement Company Act of 1940 (the "1940 Act").

*Applicants:* American Southwest Financial Corporation and American Southwest Finance Co., Inc. (the "Applicants").

*Relevant 1940 Act Sections:* Exemption requested under section 6(c) from all provisions of the 1940 Act.

*Summary of Application:* The Applicant seeks to amend an order exempting Applicants from all provisions of the 1940 Act for the limited purpose of issuing mortgage-collateralized obligations and investing in certain mortgage certificates.

*Filing Date:* The application to amend the previous order was filed on February 25, 1987 and amended on April 10, and 30, 1987.

*Hearing or Notification of Hearing:* If no hearing is ordered, the Application will be granted. Any interested person may request a hearing on this Application or ask to be notified if a hearing is ordered. Any requests must be received by the SEC by 5:30 p.m. on June 1, 1987. Request a hearing in writing, giving the nature of your interest, the reason for the request, and the issues you contest. Serve the Applicant with the request either personally or by mail, and also send it to the Secretary of the SEC, along with proof of service by affidavit, or, for lawyers, by certificate. Request notification of the date of a hearing by writing to the Secretary of the SEC.

ADDRESS: Secretary, SEC, 450 5th Street NW., Washington, DC 20549. Applicants, 15060 North Black Canyon Highway, Suite 120, Phoenix, Arizona 85023.

FOR FURTHER INFORMATION CONTACT: Denis R. Molleur, Staff Attorney (202) 272-2383 or H. R. Hallock, Jr., Special Counsel (202) 272-3030 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the Application; the complete Application is available for a fee from either the Commission's Public Reference Branch in person, or the Commission's commerical copier (800) 231-3282 (in Maryland (301) 258-4300).

### Summary of Current Application

Applicants are Arizona corporations organized in 1982 by a number of then otherwise unrelated entities. Applicants have previously received an Exemptive Order from the Commission on November 23, 1982 (Investment Company Act Release No. 12944), pursuant to an application filed September 9, 1982 (the "Original Application"); an Order dated August 7, 1984 (Investment Company Act Release No. 14099) amending the terms of the prior order pursuant to a "First Amended Application"; and an Order dated December 28, 1986 (Investment Company Act Release No. 15510) amending the terms of the prior order pursuant to a "Second Amended Application" (the First Amended Application and the Second Amended Application are together referred to herein as the "Amended Application"). As stated in the Original Application and in the Amended Applications, each Applicant is a limited purpose financing corporation which, in turn, is wholly owned by other limited purpose financing companies (collectively the "Finance Companies"), each of which is principally owned by or otherwise affiliated with one or more concerns engaged in the homebuilding business, or which is a mortgage banking or other financial institution providing financing or other services to builders. Each Applicant was incorporated for the limited purpose of facilitating the financing of long-term residential mortgages on single family residences and does not engage in any other unrelated business or investment activities. Each Applicant issues mortgages-collateralized bonds ("Bonds") in series ("Series") pursuant to an indenture (the "Indenture") between the issuer of the Bonds of such Series and an independent trustee (the "Trustee") as supplemented by one or more supplemental indentures, and enters into Funding Agreements (as described in the Original Application and in the Amended Applications) with various Finance Companies with respect to such Series of Bonds. Applicants propose to continue to conduct business and engage in the transactions set forth in the Original Application, as modified in the Amended Applications, subject to the addition of the representations and conditions set forth in this application (the "Current Application"). The specific changes sought by Applicants' Current Application related solely to the issuance of variable interest rate Bonds, the election of REMIC status, and the plege of collateral owned by Applicants to secure a Series of Bonds.

### Applicants' Representatives

1. The Bonds of a Series issued by either Applicant may in the future include, in addition to fixed interest rate Bonds, one or more classes of Bonds ("Classes") bearing variable or floating interest rates ("Variable Rate Bonds"). A Variable Rate Bond is one on which the interest rate adjusts periodically according to a fixed index set forth in the Prospectus Supplement and in the Indenture with respect to such Bonds.

Any Series of Bonds containing one or more Classes of Variable Rate Bonds will be structured with reference to the set maximum interest rate ("Interest Rate Caps") for that particular Series, insuring that the scheduled cash flow from the Mortgage Collateral (as defined in the Original Application) pledged to secure the Bonds will be sufficient to make all payments of principal and interest on the Bonds, even if the interest rate on any Class of Variable Rate Bonds rose to the interest Rate Cap in the first interest period and remained constant throughout the life of the Variable Rate Bonds. The structure for each Series of Bonds will be reviewed independently by the agencies rating the Bonds (as well as by the independent accountants for the issuing Applicant) to insure, for the appropriate rating, that the collateral is sufficient to meet all such payments of principal and interest on the Bonds.

2. With respect to any Series of Bonds, the Applicant issuing such Series of Bonds may elect treatment as a "real estate mortgage investment conduit" ("REMIC"), in which case the Bonds of such Series would be considered to be "regular interests" in the REMIC. Any such election will have no effect on the level of expenses that would be incurred by the Applicant issuing such Series of Bonds. Each Applicant that makes a REMIC election will provide that all administrative fees and expenses in connection with the issuance of a Series of Bonds with respect to which a REMIC election has been made will be paid or provided for in a manner satisfactory to the rating agency rating such Series of Bonds.

3. The Original Application and the Amended Applications noted that each Series of Bonds would be secured primarily by Mortgage Collateral pledged to an Applicant issuing a Series by Finance Companies pursuant to Funding Agreements with respect to such Series of Bonds and that the Applicant would lend all or a portion of the proceeds of the sale of such Series of Bonds to such Finance Companies to repay indebtedness with respect to the

Mortgage Collateral securing the Series of Bonds incurred by such Finance Companies.

Although the Mortgage Collateral securing a Series of Bonds generally will include Mortgage Collateral pledged to the Applicant issuing such Series of Bonds pursuant to Funding Agreements, Applicants expect that in the future the Mortgage Collateral securing a Series of Bonds also may consist of or include Mortgage Collateral owned by the Applicant issuing such Series of Bonds. If a Series of Bonds is secured by Mortgage Collateral owned by the Applicant issuing such Series the proceeds from the sale of such Series of Bonds will be used by the Applicant to purchase or repay indebtedness with respect to such Mortgage Collateral.

4. Applicants request that the Commission issue an Order pursuant to section 6(c) exempting Applicants from all of the provisions of the Act on the terms, and subject to the conditions set forth in the Original Application and in the Amended Applications as modified by the Current Application to permit Applicants (1) to issue Series of Bonds that may include one or more Classes of Variable Interest Bonds, (2) to make REMIC elections with respect to one or more Series of Bonds, and (3) to issue Series of Bonds secured by Mortgage Collateral owned by the Applicant issuing such Series of Bonds.

5. For the reasons set forth above, Applicants believe that each such modification is (1) in the interest of Applicants and the participating entities (including the small affiliated builders that established Applicants), (2) supportive of the national goals established by Congress and set forth in the Amended Applications, including the goal of enhancing a strong and liquid secondary mortgage market, and (3) consistent with the best interests of investors, who will acquire a more diversified and stable portfolio of mortgage obligations.

Applicants therefore believe that granting the relief requested is, and will continue to be, in the public interest and consistent with the protection of investors and the policies and purposes fairly intended by the 1940 Act. Applicants believe that the modifications requested are necessary to permit their continued operations on such terms, and request that the Commission issue an Order granting the requested relief.

**Applicants' Conditions**

*A. Conditions relating to Variable-Rate Bonds*

1. Each Class of Variable Rate Bonds of a Series will have an Interest Rate Cap.

2. At the time of the deposit of the collateral with the Trustee for the Bonds, as well as during the life of the Bonds, the scheduled payments of principal and interest to be received by the Trustee on all Mortgage Collateral pledged to secure the Bonds, plus reinvestment income thereon, and funds, if any, pledged to secure the Bonds (as described in the Original Application and the Amended Applications) will be sufficient to make all payments of principal and interest on the Bonds then outstanding, assuming the Interest Rate Cap of each Class of Variable Rate Bonds. Such collateral will be paid down as the mortgage underlying the Mortgage Certificates (as defined in the Original Application) are repaid, but will not be released from the lien of the Indenture prior to payment of the Bonds of such Series.

*B. Condition Relating to REMICs*

The election by an Applicant to be treated as a REMIC will have no effect on the level of the expenses that would be incurred by any such Applicant. Any Applicant which elects to be treated as a REMIC will provide for the payment of administrative fees and expenses as set forth in the application. Each Applicant will ensure that the anticipated level of fees and expenses will be adequately provided for regardless of the method selected.

*C. Condition relating to Bonds secured by Mortgage Collateral owned by the Applicant issuing such Series of Bonds*

The issuance of Bonds secured primarily by Mortgage Collateral owned by the Applicant issuing such Series of Bonds will be subject to the same conditions applicable to Bonds secured primarily by Mortgage Collateral pledged to an Applicant issuing a Series of Bonds by Finance Companies pursuant to Funding Agreements with respect to such series.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

**Jonathan G. Katz,**

*Secretary.*

BILLING CODE 8010-01-M

[Rel. No. IC-15725; 812-6611]

## ASW Residential Mortgage Financial Coporation; Application

May 11, 1987.

**AGENCY:** Securities and Exchange Commission ("SEC").

**ACTION:** Notice of Application for Exemption under the Investment Company Act of 1940 (the "1940 Act").

*Applicant:* ASW Residential Mortgage Financial Corporation.

*Relevant 1940 Act Section:* Exemption requested under section 6(c) from all provisions of the 1940 Act.

*Summary of Application:* Applicant seeks an order conditionally exempting certain trusts ("Trusts") to be established by Applicant from all provisions of the 1940 Act for the limited purpose of issuing collateralized mortgage obligations, investing in certain mortgage certificates, and selling beneficial interests in such Trusts.

*Filing Date:* The application was filed January 30, 1987.

*Hearing or Notification of Hearing:* If no hearing is ordered, an order disposing of the application will be issued. Any interested person may request a hearing on this application, or ask to be notified if a hearing is ordered. Any requests must be received by the SEC no later than 5:30 p.m., on June 1, 1987. Requests must be in writing, setting forth the nature of your interest, the reasons for the request, and the issues contested. Applicants should be served with a copy of the request, either personally or by mail, and the request should also be sent to the Secretary of the SEC, along with proof of service (by affidavit or, in the case of an attorney-at-law, by certificate). Notification of the date of a hearing should be requested by writing to the Secretary of the SEC.

**ADDRESSES:** Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549; Applicant, 15650 North Black Canyon, Hwy, Suite 120, Phoenix, Arizona 85023.

**FOR FURTHER INFORMATION CONTACT:** Special Counsel Curtis R. Hilliard (202) 272-3026 or Special Counsel H.R. Hallock, Jr. (202) 272-3030, Office of Investment Company Regulation.

**SUPPLEMENTARY INFORMATION:** The following is a summary of the application. The complete application is available for a fee from either the SEC's Public Reference Branch in person or the SEC's commercial copier (800) 231-3282 (in Maryland (301) 258-4300).

**Applicant's Representations**

1. Applicant is an Arizona corporation incorporated on May 13, 1986, as a limited purpose finance corporation wholly owned by limited purpose financing companies (the "Finance Companies"), each of which is principally owned by or otherwise affiliated with one or more concerns engaged in the homebuilding business (the "Builders"), or is a mortgage banking or other financial institution providing financing or other services to Builders. None of such Finance Companies owns more than five percent of the Applicant. Applicant was incorporated to facilitate the financing of mortgages either directly or through affiliates or Trusts, and will not engage in any other unrelated business activities.

2. Applicant will form separate trusts for the limited purpose of issuing one or more series ("Series") of collateralized mortgage obligations ("Bonds") and acquiring, owning, holding and pledging certain mortgage collateral ("Mortgage Collateral") which will be used to collateralize such Bonds.

3. Each Trust will be created under the laws of one of the States of the United States of America by an agreement (the "Deposit Trust Agreement") between the Applicant, as depositor and the initial sole beneficial owner, and an independent bank, trust company or fiduciary, acting as owner-trustee (the "Owner-Trustee"). Each such Trust will be established solely for the purpose of issuing one Series of Bonds. The Series of Bonds issued by a Trust will constitute obligations solely of the Trust and each Trust will have no significant assets other than the Collateral used to secure the particular Series. The Bonds will be secured primarily by Mortgage Collateral as defined in paragraph 6. Each Series of Bonds may also be secured by certain funds and accounts (including proceeds accounts, debt service funds, reserve funds and overcollateralization funds) and by servicing agreements, insurance policies and other credit enhancement devices described in the prospectus supplement for such Series of Bonds.

4. Under the terms of each Deposit Trust Agreement, Applicant will convey trust property to the Trust which is a party to such Deposit Trust Agreement in return for certificates or other instruments evidencing beneficial ownership of the Trust created under such Deposit Trust Agreement (the "Certificates"). On or after the closing date for the sale of any Series of Bonds issued by a Trust, Applicant may sell all or a portion of the Certificates to one or more sophisticated investors which are "accredited investors" as defined in Rule 501(a) of the Securities Act of 1933 (the "1933 Act") ("Eligible Investors") in transactions not involving any public offering within the meaning of section 4(2) of the 1933 Act. Such Eligible Investors may include mortgage lenders, thrift institutions, commercial and investment banks, savings and loan associations, pension funds, employee benefit plans, insurance companies, mutual funds, real estate investment trusts or other institutional or knowledgeable investors which customarily engage in the purchase of mortgages and mortgage-backed assets. The Owner-Trustee with respect to a Trust will act as trustee for and at the direction of the Beneficial Owners of such Trust. The Deposit Trust Agreement with respect to a Trust will prohibit the transfer of any Certificate of Beneficial Ownership in such Trust if there would be more than one hundred Beneficial Owners of such Trust at any time.

5. Each Series of Bonds will be either registered under the Securities Act of 1933 (the "1933 Act") or sold in transactions exempt from registration pursuant to section 4(2) of the 1933 Act. Each Series of Bonds will be issued pursuant to an Indenture (the "Indenture") between the Trust issuing such Series of Bonds and an independent trustee (the "Bond Trustee") as supplemented by one or more supplemental indentures.

6. The Mortgage Collateral securing a Series of Bonds will consist of one or more of the following: Conventional mortgage loans secured by first liens on single (one-to-four) family residential properties, mortgage loans insured by the Federal Housing Administration ("FHA Loans") or partially guaranteed by the Veterans Administration ("VA Loans") (collectively "Pledged Loans"), fully-modified pass-through certificates ("GNMA Certificates") guaranteed as to timely payment of principal and interest by the Government National Mortgage Association ("GNMA"), mortgage pass-through certificates ("FNMA Certificates") guaranteed as to timely payment of principal and interest by the Federal National Mortgage Association ("FNMA"), and mortgage participation certificates ("Freddie Mac Certificates") guaranteed as to timely payment of interest and ultimate collection of principal by the Federal Home Loan Mortgage Corporation ("Freddie Mac"). Each Series of Bonds also may be secured by certain funds and accounts (including proceeds accounts, debt service funds, reserve funds and over-collateralization funds) and by servicing agreements, insurance policies and other credit enhancement devices described in the Prospects Supplement for a Series of Bonds.

7. The Mortgage Collateral securing each Series of Bonds will have scheduled cash flows sufficient (together with cash available to be withdrawn from any debt service funds, reserve funds, over-collateralization funds or other funds), together with reinvestment income thereon at assumed reinvestment rates acceptable to each rating agency rating the Bonds of such Series to make timely payments of principal of and interest on the Bonds of such Series in accordance with their terms and to pay all of the fees and expenses of the Trust with respect to such Series of Bonds. The Outstanding Bond value of the Collateral securing a Series of Bonds will be described in the Indenture for such Series and will be at least equal to the initial principal amount of such Bonds on their date of issuance.

8. The Collateral securing each Series of Bonds will be owned either by the Trust issuing the Bonds of such Series or by the Finance Companies and pledged to secure such Series of Bonds pursuant to funding agreements with respect to such Series of Bonds ("Funding Agreements"). Such Collateral will consist of or include mortgage loans (1) that were initially originated by or on behalf of an affiliate of a Finance Company participating in such Series of Bonds or (2) that were purchased by the Trust issuing such Series of Bonds or an affiliate of a Finance Company participating in such Series of Bonds in the mortgage market.

9. Each Finance Company participating in a Series of Bonds will enter into a Funding Agreement with respect to such Series of Bonds pursuant to which the Finance Company will (i) borrow a portion of the proceeds of the sale of such Series of Bonds; (ii) repay such loan by causing payments to be made to the Bond Trustee for such Series of Bonds in such amounts as are necessary to pay accrued interest on such loan and to repay the principal amount of such loan; and (iii) pledge Mortgage Collateral to the Trust issuing such Series of Bonds as security for its loan. The Trust issuing a Series of Bonds will assign to the Bond Trustee for such Series of Bonds as security for such Series of Bonds its entire right, title and interest in the Collateral and all proceeds thereof pledged under the Funding Agreements (except for its right to receive certain fees and

reimbursement for certain expenses and its right to indemnification).

10. The Bonds of a Series may be subject to redemption by the Trust issuing such Series of Bonds under the circumstances set forth in the Prospectus Supplement for such Series of Bonds. Such redemption will be exercised by direction of the Beneficial Owners of the Trust issuing such Series of Bonds. The Bonds of a Series will not be redeemable at the option of holders of Bonds of such Series except that certain Series of Bonds may provide for the establishment of a redemption fund and requests for redemption by holders of such Bonds will be honored to the extent funds are available in such redemption fund.

**Applicant's Conditions**

Applicant agrees that if an order is granted it will be expressly conditioned on the following conditions:

(1) Each Series of Bonds will be registered under the 1933 Act, unless offered in a transaction exempt from registration pursuant to section 4(2) of the 1933 Act.

(2) The Bonds of each Series will be "mortgage related securities" within the meaning of section 3(a)(41) of the Securities Exchange Act of 1934. However, the Mortgage Collateral directly securing each Series of Bonds (whether owned by the Trust issuing such Series of Bonds or pledged pursuant to the Funding Agreements) will be limited to Pledged Loans, GNMA Certificates, FNMA Certificates and Freddie Mac Certificates.

(3) If new Mortgage Collateral is substituted as security for a Series of Bonds, the substitute collateral must: (i) Be of equal or better quality than the Mortgage Collateral replaced; (ii) have similar payment terms and cash flow as the Mortgage Collateral replaced; (iii) be insured or guaranteed to the same extent as the Mortgage Collateral replaced; and (iv) meet the conditions set forth in paragraphs (2), (4) and (6). In addition, new collateral may not be substituted for more than 20% of the aggregate face amount of the Pledged Loans initially pledged as Mortgage Collateral or for more than 40% of the aggregate face amount of the Mortgage Certificates initially pledged as Mortgage Collateral. New Pledged Loans may be substituted for Pledge Loans initially pledged as Mortgage Collateral only in the event of default, late payments or defect in the Mortgage Collateral being replaced. In no event may any new Mortgage Collateral be substituted for any substitute Mortgage Collateral. New Funding Agreements may be substituted for Funding Agreements initially pledged only if the substitution of Mortgage Collateral underlying those instruments would be permitted under this condition.

(4) The Mortgage Collateral and other items of collateral securing a Series of Bonds will be assigned to and held by the Bond Trustee for such Series of Bonds or on behalf of such Bond Trustee by an independent custodian. The custodian for a Series of Bonds may not be affiliate (as the term "affiliate" is defined in 1933 Act rule 405, 17 CFR 230.405) of the Trust issuing such Series of Bonds, the master servicer for such Series of Bonds or the originator of any Pledged Loans securing such Series of Bonds. The Bond Trustee for such Series of Bonds will be granted a first priority perfected security or lien interest in and all Mortgage Collateral securing such Series of Bonds.

(5) Each Series of Bonds will be rated in one of the two highest bond rating categories by at least one nationally recognized statistical rating organization that is not affiliated with the Trust issuing such Series of Bonds. The Bonds issued by each Trust will not be considered redeemable securities within the meaning of section 2(a)(32) of the 1933 Act.

(6) The master servicer of the Pledged Loans securing a Series of Bonds may not be an affiliate of the Bond Trustee for such Series of Bonds. If there is no master servicer for the Pledge Loans securing a Series of Bonds, no servicer of such Pledged Loans may be an affiliate of the Bond Trustee for such Series of Bonds. Each such master servicer and servicer will be approved by FNMA or Freddie Mac as an "eligible seller/servicer" of conventional, residential mortgage loans. The servicing agreements covering each Pledge Loan securing a Series of Bonds will obligate the servicer to provide substantially the same services with respect to such Pledged Loan as the servicer is then currently required to provide in connection with the servicing of mortgage loans insured by FHA, guaranteed by VA or eligible for purchase by FNMA of Freddie Mac.

(7) No less often than annually, an independent public accountant will audit the books and records of each Trust and in addition will report on whether the anticipated payments of principal and interest on the Mortgage Collateral securing each Series of Bonds, together with reinvestment income thereon at the assumed reinvestment rate, will continue to be adequate to pay the principal of and interest on the Bonds of each such Series in accordance with their terms. Upon completion of such audits, copies of the accountant's reports will be provided to the Bond Trustee for the related Series of Bonds.

(8) Each Class of Bonds of a Series bearing a variable interest rate will have a set maximum interest rate.

(9) At the time of the deposit of the Collateral with a Trust, as well as during the term of the Bonds issued by such Trust, the Mortgage Collateral securing such Bonds will have scheduled cash flows sufficient (together with cash available to be withdrawn from any debt service funds, reserve funds, overcollateralization funds or other funds), together with reinvestment income thereon at assumed reinvestment rates acceptable to the Rating Agency rating the Bonds of such Series, to make all payments of principal of and interest on the Bonds in accordance with their terms and to pay all of the fees and expenses of the Trust with respect to the Series of Bonds, assuming the maximum interest rate on each Class of Bonds bearing a variable interest rate. Such Collateral will be paid down as the mortgage underlying the Mortgage Collateral are repaid, but will not be released from the lien of the Indenture prior to payment of the Bonds of such Series.

(10) The Applicant hereby represents that the election by any Trust to be treated as a REMIC will have no effect on the level of the expenses that would be incurred by any such Trust. The Applicant further represents that any Trust that makes a REMIC election will provide that all administrative fees and expenses in connection with the administration of such Trust will be paid or provided for in a manner satisfactory to the Rating Agency rating the Bonds of a Series issued by such Trust.

If a Trust makes a REMIC election with respect to a Series of Bonds, such Trust will provide for the payment of the administrative fees and expenses incurred in connection with the issuance of such Series of Bonds and the administration of such Trust by one of the following methods or a combination of one or more of such methods:

(a) A third party, whose credit is acceptable to the Bond Trustee and to the Rating Agency rating the Bonds of such Series, will guarantee the payment of such fees and expenses.

(b) One or more reserve funds will be established to provide for the payment of such fees and expenses, which fees typically will be projected, assuming current inflation factors scenarios required by the Rating Agency rating the Bonds of such Series, at the time of the issuance of such Bonds and at the time of the establishment of such reserve funds. Thereafter, the Bond Trustee will

look solely to such reserve funds for the payment of certain fees and expenses.

(c) Such Series of Bonds will be secured by Collateral the value of which will be in excess of the amount necessary to make payments of principal of and interest of such Bonds. Such excess or a portion thereof will be applied to the payment of such fees and expenses, and may be used in combination with any of the other methods described herein. In no event will the Applicant deposit into such Trust Collateral with a Collateral Value which exceeds 120% of the aggregate principal amount of such Bonds.

(d) The Beneficial Owners of such Trust will be personally liable, pursuant to the Deposit Trust Agreement, for the fees and expenses of such Trust not otherwise payable from one of the sources described above.

The Applicant hereby represents that the anticipated level of fees and expenses will be more than adequately provided for regardless of which of the above methods (which methods may be used in combination) are selected to provide for the payment of such fees and expenses.

In addition, because of the possible sale of Certificates of Beneficial Ownership in each Trust, the Applicant expressly agrees that, as a condition to the granting of the order sought by the Application, the proposed transactions to be entered into by each Trust issuing a Series of Bonds will comply with the following conditions:

(1) The Beneficial Owners of each Trust will agree to be bound by the terms of the applicable Deposit Trust Agreement.

(2) Certificates of Beneficial Ownership in each Trust will be offered and sold only to one or more Eligible Investors.

(3) Each sale of Certificates of Beneficial Ownership in a Trust to an Eligible Investor will qualify as a transaction not involving any public offering within the meaning of section 4(2) of the 1933 Act.

(4) The Deposit Trust Agreement relating to each Trust will prohibit the transfer of any Certificates of Beneficial Ownership in such Trust if there would be more than one hundred Beneficial Owners of such Trust at any time.

(5) The Deposit Trust Agreement relating to each Trust will require that each purchaser of a Certificate of Beneficial Ownership in such Trust represent that it is purchasing such Certificate of Beneficial Ownership for investment purposes and not with a view to distribution thereof, in whole or in part, and that it will hold such Certificate of Beneficial Ownership in its own name and not as nominee for undisclosed investors.

(6) The Deposit Trust Agreement relating to each Trust will provide that (i) no Beneficial Owner of such Trust may be affiliated with the Bond Trustee for such Trust, (ii) no holders of a controlling (as that term is defined in Rule 405 under the 1933 Act) equity interest in such Trust may be affiliated with either the custodian of the Mortgage Collateral for such Trust or the Rating Agency rating the Bonds issued by such Trust, and (iii) the Owner Trustee for such Trust will not purchase any Certificates of Beneficial Ownership in such Trust but will function as a legal stakeholder for the assets of such Trust.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

**[Release No. IC-15726; 812-6280]**

## Merrill Lynch Retirement/Income Fund, Inc.; Application for an Amended Order

May 11, 1987.

**AGENCY:** Securities and Exchange Commission ("SEC").

**ACTION:** Notice of Application for Exemption under the Investment Company Act of 1940 (the "Act").

---

*Applicant:* Merrill Lynch Retirement/Income Fund, Inc. (the "Fund").

*Relevant 1940 Act Sections:* Exemption requested under section 6(c) from the provisions of sections 2(a)(32), 2(a)(35), 22(c) and 22(d) of the Act and Rule 22c-1 thereunder.

*Summary of Application:* Applicants seek to amend a prior order relating to the assessment of a contingent deferred sales charge ("CDSC") and to the waiver of the CDSC to permit such waiver for an additional class of investors.

*Filing Date:* The application was filed on May 1, 1987 and amended on May 11, 1987.

*Hearing or Notification of Hearing:* If no hearing is ordered, the application will be granted. Any interested person may request a hearing on this application, or ask to be notified if a hearing is ordered. Any requests must be received by the SEC by 5:30 p.m., on June 1, 1987. Request a hearing in writing, giving the nature of your interest, the reason for the request, and the issues you contest. Serve the Applicant with the request, either personally or by mail, and also send it to the Secretary of the SEC, along with proof of service by affidavit, or, for lawyers, by certificate. Request notification of the date of a hearing by writing to the Secretary of the SEC.

**ADDRESSES:** Secretary, SEC, 450 5th Street, NW., Washington, DC 20549. The Fund, Box 9011, Princeton, New Jersey 08543-9011.

**FOR FURTHER INFORMATION CONTACT:** Curtis R. Hilliard, Special Counsel (202) 272-3028, Office of Investment Company Regulation.

**SUPPLEMENTARY INFORMATION:** The following is a summary of the application. The complete application is available for a fee from either the SEC's Public Reference Branch in person or the SEC's commercial copier which may be contacted at (800) 231-3282 (in Maryland (301) 258-4300).

### Applicant's Representations

1. The Fund is registered under the Act as an open-end, diversified, management investment company and is organized under the laws of the State of Maryland. The Fund's investment adviser is Merrill Lynch Asset Management, Inc. ("MLAM") and its principal underwriter/distributor is Merrill Lynch Funds Distributor, Inc. (the "Distributor").

2. On March 5, 1986, the SEC issued an order (Investment Company Act Release No. 14970) pursuant to section 6(c) of the Act exempting the Fund from the provisions of sections 2(a)(32), 2(a)(35), 22(c) and 22(d) and Rule 22d-1 thereunder to the extent necessary to permit the Fund to assess a CDSC on certain redemptions of its shares and to permit the Fund to waive the CDSC with respect to certain types of redemptions (the "Prior Order").

3. The Fund proposes to offer its shares in connection with a new program developed by Merrill Lynch, Pierce, Fenner & Smith Incorporated ("MLPF&S"), which is called Merrill Lynch Blueprint Program (the "Program"). The Program is a service offered by MLPF&S which is designed to afford the individual investor the opportunity to trade in odd lot quantities of full and fractional shares of the publicly-traded securities of certain companies at discounts of up to 55% off the regular commission rates charged by MLPF&S. The initial minimum investment through the Program is $100 and subsequent investments as low as $50 per transaction are permitted.

The Program expands upon a program called the Merrill Lynch Sharebuilder

Plan (the "Sharebuilder Plan"). The Program also enables small investors, under certain circumstances, to purchase shares of registered, open-end investment companies for which MLAM or its wholly-owned subsidiary, Fund Asset Management ("FAMI"), acts as principal underwriter/distributor which are sold with the imposition of a front end sales charge at reduced sales charge rates. The Program will also be marketed directly by MLPF&S to participants in certain affinity groups, such as trade associations, credit unions and corporate benefit plans. Unless directed otherwise by shareholders, shares purchased through the Program are registered in a nominee name designated by MLPF&S and dividends on such shares are automatically reinvested. Participants in the Program have the right to vote full shares held in their Program account.

4. Investors may initiate orders through the Program by mail or through the MLPF&S wire system. MLPF&S aggregates overnight all orders for a particular security which it receives through the Program on the previous business day. Mail orders must be received at the Program offices prior to 3:00 P.M., New York time, wire orders must be received prior to 4:00 P.M., New York time, and telephone orders prior to 4:30 P.M., New York time, on a business day in order to ensure that the order will be processed that evening. The aggregated transactions are executed at the opening price on the applicable exchange or market on the next business day. Each investor receives a confirmation of each transaction for his account and, in addition, is sent a quarterly statement reflecting all activity in his account.

5. Recently, open-end investment companies offered with the imposition of a CDSC rather than the more traditional front end sales charge have become increasingly popular with investors. As a result, it is proposed that the Program include the offering of shares of the Fund. In this regard, it is proposed that the Fund be granted the ability to waive the CDSC related to shares of the Fund sold in connection with the Program. The ability to waive such CDSC is believed to be appropriate because investors purchasing shares of the Fund through the Program will be subject to certain procedures regarding investments and redemptions which differ from the procedures applicable to other investors. In addition, the services available to investors through the Program may be different from those available to other investors. For example, MLPF&S financial consultants will not be available to investors who purchase shares of the Fund through the Program and investments in the Fund pursuant to the Program may only be made through a special department of MLPF&S. In addition, no payment-by-wire service will be available to investors through the Program. Orders for shares received through the Program will be grouped for execution purposes which, in some circumstances, may involve the execution of such orders two business days following the day the order is placed with MLPF&S. Similarly, redemption of Fund shares held in connection with the Program may only be made through MLPF&S and if MLPF&S receives notice of a redemption of shares of the Fund after 4:00 p.m. on a particular day, the redemption will be effective on the second business day thereafter.

6. Specifically, the Fund requests that the Prior Order be amended to the extent necessary to permit the Fund, and all other open-end management companies or series thereof which may impose a contingent deferred sales charge ("CDSC") substantially as described in the application granted by the Prior Order for which MLAM acts as investment adviser or manager or the Distributor, also a wholly owned subsidiary of MLAM, is principal underwriter or distributor (together with the Fund, the "Funds"), to waive the CDSC in connection with the purchase of shares of the Funds pursuant to the Merrill Lynch Blueprint Program.

7. As discussed in the application ultimately granted in the Prior Order, the Fund believes that arguments can be made that the proposed waiver of the CDSC is consistent with the provisions of the Act and that no exemptive relief would be required in order to implement the Program with respect to the Funds. To avoid any possibility that questions may be raised as to the potential applicability of various sections of the Act, the Fund, pursuant to section 6(c) of the Act, requests an order of the Commission amending the Prior Order in connection with the offering of the Fund's shares through the Program, to the extent necessary, from section 22(d) of the Act and Rule 22d–1 thereunder.

8. Rule 22d–1, in substance, permits variation or elimination of sales loads to "particular classes of investors or transactions," provided that such variation or elimination is described in the investment company's registration statement. Because its CDSC and the waiver therefrom will be applied as described in the Fund's registration statement, the Fund believes that Rule 22d–1 exempts the CDSC and the Waiver therefrom from the prohibitions of section 22(d) of the Act. Nonetheless, to preclude any assertion that Rule 22d–1 is inapplicable to the waiver of the CDSC in connection with the Program, the Fund requests an exemption from section 22(d) to the extent necessary or appropriate to waive the CDSC as described above. The Fund believes that such an order would, in all events, be consistent with the policies embodied in Rule 22d–1, since the Fund intends to disclose fully relevant aspects of the Program, the CDSC and the waiver of the CDSC in the Fund's prospectus. Also as a condition to the granting of an Order, the Fund undertakes to comply with the requirements of Rule 22d–1.

9. The Fund believes that the waiver of the CDSC in connection with shares sold to certain individuals or groups pursuant to special arrangements similar to those under which front end sales charges could be reduced or waived pursuant to Rule 22d–1 under the Act is justified since, as in the case of front end sales charges, the Funds generally recognize economics of scale and a reduction of sales related expenses in connection with sales to such individuals or groups. The Program, in particular, is designed to enable the Funds to realize such economies of scale and reduction of expenses by virtue of the different investment and redemption procedures and services placed through a securities dealer and received by the Distributor prior to 4:30 P.M., New York time, are executed at a price based on net asset value computed following the close of the New York Stock Exchange on the day of receipt. Orders received later than 4:30 P.M. are executed at a price based on net asset value determined on the following business day. However, orders by Program customers would not be delivered to the transfer agent of the Funds on the day of receipt by MLPF&S, regardless of the time of receipt. Instead orders would be executed only upon receipt of the order by the applicable transfer agent at the net asset value next determined. Absent an exemptive order by the Commission, such procedure may be deemed to be a violation of Rule 22c–1.

14. The Fund submits that to comply with Rule 22c–1, as interpreted by the staff, would require replacement of the entire Program "bunched order" system described in the application with an "on-line" system providing instant access to computerized information. Such replacement would be prohibitively expensive and would effectively preclude the offer of shares of the Funds through the Program. 15. The Fund states that the Commission

has previously granted exemptions from Rule 22c1 to allow operation of substantially the same order processing system in connection with the Sharebuilding Plan. See *In the Matter of Merrill Lynch Basic Value Fund, Inc., et al.*, IC–13218 (May 5, 1983) and IC–13864 (April 4, 1980) (the "Sharebuilder Orders"). The Fund submits that the Rule 22c–1 exemptions in the Sharebuilder Orders are applicable to the Funds in connection with the Program. However, in order to avoid any controversy and for the sake of completeness, the Fund is requesting a similar Rule 22c–1 exemption. For the Commission, by the Division of Investment Management, pursuant to delegated authority.

**Jonathan G. Katz,**

*Secretary.*

## DEPARTMENT OF TRANSPORTATION

### Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart Q During the Week Ended May 8, 1987

The following applications for certificates of public convenience and necessity and foreign air carrier permits were filed under Subpart Q of the Department of Transportation's Procedural Regulations (See 14 CFR 302.1701 et. seq.). The due date for answers, conforming application, or motion to modify scope are set forth below for each application. Following the answer period DOT may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

*Docket No. 44858*

*Date Filed:* May 4, 1987.

*Due Date for Answers, Conforming Applications, or Motion to Modify Scope:* June 1, 1987.

*Description:* Application of New York Express, Inc., pursuant to section 401(d)(3) of the Act and Subpart Q of the Regulations requests authority to engage in foreign charter air transportation of property.

*Docket No. 44859*

*Date Filed:* May 4, 1987.

*Due Date for Answers, Conforming Applications, or Motion to Modify Scope:* June 1, 1987.

*Description:* Application of New York Express, Inc., pursuant to section 401(d)(3) of the Act and Subpart Q of the Regulations requests permanent authority to engage in interestate and oversees air transportation of persons, property and mail.

*Docket No. 44872*

*Date Filed:* May 8, 1987.

*Due Date for Answers, Conforming Applications, or Motion to Modify Scope:* June 1, 1987.

*Description:* Application of Empresa Ecuatoriana de Aviacion (Ecuatoriana), pursuant to section 402 of the Act and Subpart Q of the Regulations, applies for renewal and amendment of its foreign air carrier permit to engage in foreign air transportation with respect to persons, property and mail in accordance with the terms of the Air Transport Agreement between Ecuador and the United States signed September 26, 1986.

## Federal Highway Administration

### National Motor Carrier Advisory Committee; Working Group on Drug Testing; Meeting

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice of public meeting.

**SUMMARY:** The FHWA announces that the Working Group on Drug Testing of the National Motor Carrier Advisory Committee will hold a meeting on June 4, 1987, in Washington, DC, at the U.S. Department of Transportation headquarters, 400 Seventh Street SW., Washington, DC 20590. The meeting will be held from 9 a.m. to 5 p.m. in Room 4234. This meeting is open to the public. The agenda will focus on the issue of drug testing in the motor carrier industry. The issues to be discussed include the various methods of drug testing, the effectiveness of each of those methods, the potential cost of drug testing to the motor carrier industry, the protection of the rights of the individuals being tested and the appropriate rehabilitation programs for individuals testing positive for drug use.

**FOR FURTHER INFORMATION CONTACT:** Mr. Joseph S. Toole, Executive Director, National Motor Carrier Advisory Committee, Federal Highway Administration, HOA–1, Room 4218, 400 Seventh Street SW., Washington, DC 20590, (202) 366–2238. Office hours are from 7:45 a.m. to 4:15 p.m. e.t., Monday through Friday, except legal holidays.

Issued on: May 11, 1987.

## Public Information Collection Requirements Submitted to OMB for Review

Dated: May 12, 1987.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Pub. L. 96-511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 2224, 15th and Pennsylvania Avenue, NW., Washington, DC 20220.

### Internal Revenue Service

*OMB Number:* 1545-0887
*Form Number:* 8281
*Type of Review:* Revision
*Title:* Information Return for Publicly Offered Original Issue Discount Instruments
*Description:* Form 8281 is filed by the issuer of a publicly-offered debt instrument having Original Issue Discount. The information will be used to update Pub. 1212, List of Original Issue Discount Instruments.
*Respondents:* Businesses
*Estimated Burden:* 562 hours

*OMB Number:* 1545-0957
*Form Number:* 8508
*Type of Review:* Revision
*Title:* Request for Waiver from Filing Information Returns on Magnetic Media
*Description:* Certain filers of information returns are required by law to file on magnetic media. In some instances, waivers from this requirement are necessary and justified. Form 8508 is submitted by the filer and provides information on which IRS will base its waiver determination.
*Respondents:* State or local governments, Farms, Businesses, Federal agencies or employees, Non-profit institutions
*Estimated Burden:* 22,500 hours

*OMB Number:* 145-0351
*Form Numbers:* 3975, 3975A, 3975B, 3975C, 3975D, 3975E, 3975F, 3975G, 3975H, 3975I and 3975J,
*Type of Review:* Revision
*Title:* Tax Practitioner Mailing File [TPMF]
*Description:* Form 3975 series allows practitioners a systematic way to remain on the Tax Practitioner mailing file (TPMF) and to order informational copies of tax forms materials.
*Respondents:* Businesses
*Estimated Burden:* 41,190 hours

*OMB Number:* 1545-0225
*Form Number:* 6248-T
*Type of Review:* Extension
*Title:* Summary and Transmittal of Windfall Profit Tax Information
*Description:* Form 6248-T is used to transmit Forms 6248 to the Internal Revenue Service. The information is used to reconcile and total the Forms 6248 submitted.
*Respondents:* Businesses
*Estimated Burden:* 3,581 hours

*OMB Number:* 1545-0889
*Form Number:* 8275
*Type of Review:* Extension
*Title:* Disclosure Statement Under Section 6661
*Description:* Internal Revenue Code section 6661 imposes a penalty on taxpayers for the substantial understatement of income tax liability. The penalty may be reduced if the taxpayer adequately discloses the relevant facts affecting the tax treatment of any item on his/her return, provided the items are not from a tax shelter.
*Respondents:* Individuals, Farms, Businesses, Non-profit institutions
*Estimated Burden:* 50 hours
*Clearance Officer:* Garrick Shear, (202) 566-6150, Internal Revenue Service, Room 5571, 1111 Constitution Avenue, NW., Washington, DC 20224

# Sunshine Act Meetings

Federal Register
Vol. 52, No. 95
Monday, May 18, 1987

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

**FARM CREDIT ADMINISTRATION**

**SUMMARY:** Notice is hereby given, pursuant to the Government in the Sunshine Act (5 U.S.C. 552b(e)(3)), of the forthcoming special meeting of the Farm Credit Administration Board (Board).

**DATE AND TIME:** The meeting is scheduled to be held at the offices of the Farm Credit Administration in McLean, Virginia, on May 19, 1987, from 10:00 a.m. until such time as the Board may conclude its business.

**FOR FURTHER INFORMATION CONTACT:** William A. Sanders, Jr., Secretary to the Farm Credit Administration Board, 1501 Farm Credit Drive, McLean, Virginia 22102–5090 (703–883–4010).

**ADDRESS:** Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102–5090.

**SUPPLEMENTARY INFORMATION:** This meeting of the Board will be open to the public (limited space available). The matters to be considered at the meeting are:

1. Consideration of directives regarding Federal Land Bank Stock Reduction Programs.
*2. Review of Financial Conditions of Farm Credit System Institutions and Consideration of certifying to the Treasury that the System is in Need of Financial Assistance
*3. Consideration of Changes to FCA Statutory Authority.
*4. Examination and Enforcement Matters.

*Session closed to the public-exempt pursuant to 5 U.S.C. 552b(c)(4), (8) and (9).

Dated: May 13, 1987.

William A. Sanders, Jr.,
*Secretary, Farm Credit Administration Board.*

**SECURITIES AND EXCHANGE COMMISSION**

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94–409, that the Securities and Exchange Commission will hold the following meetings during the week of May 18, 1987:

A closed meeting will be held on Tuesday, May 19, 1987, at 2:30 p.m. An open meeting will be held on Thursday, May 21, 1987, at 10:00 a.m., in Room 1C30.

The Commissioners, Counsel to the Commissioners, the Secretary of the Commission, and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may also be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, one or more of the exemptions set forth in 5 U.S.C. 552b(c)(4), (8), (9)(A) and (10), and 17 CFR 200.402 (a)(4), (8), (9)(i) and (10), permit consideration of the scheduled matters at a closed meeting.

Commissioner Grundfest, as duty officer, voted to consider the items listed for the closed meeting in closed session.

The subject matter of the closed meeting scheduled for Tuesday, May 19, 1987, at 2:30 p.m., will be:

Institution of administrative proceedings of an enforcement nature.
Administrative proceeding of an enforcement nature.
Settlement of administrative proceedings of an enforcement nature.
Regulatory matter involving discussion of enforcement action.

The subject matter of the open meeting scheduled for Thursday, May 21, 1987, at 10:00 a.m., will be:

1. Consideration of a proposal by the New York Stock Exchange (SR–NYSE–85–1) to amend its Rules 13 and 123A.30 to broaden the ability of specialists to represent percentage orders. For further information, please contact Stephen Luparello at (202) 272–2028.

2. Consideration of whether to issue a release adopting a new rule and amendments to existing rules intended to simplify the filing requirements applicable to a registration statement at the time of effectiveness. New Rule 430A allows registrants, if specified conditions are satisfied, to omit information concerning the public offering price, price-related information and the underwriting syndicate from a prospectus contained in a registration statement at the time that it is declared effective. In addition, the Commission has adopted changes to provide for a shortened filing period for certain prospectuses, to eliminate unnecessary filings, and to classify prospectuses according to the nature of the information being modified or added. For further information, please contact Alexander G. Shtofman at (202) 272–2589.

3. Consideration of whether to issue a release adopting amendments to its proxy rules and certain other rules including

changes to conform further the proxy disclosure for mergers and similar transactions to that required for registration of securities in certain business combinations. Also, the Commission will consider whether to adopt a new rule concerning modified or superseded statements in documents incorporated by reference into a proxy statement. For further information, please contact Caroline W. Dixon or Barbara J. Green at (202) 272–2589.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Nancy Morris at (202) 272–3065.

Jonathan G. Katz,
*Secretary.*
May 13, 1987.

# Department of the Treasury

Internal Revenue Service

Tax Forms Coordinating Committee; Release of Tax Forms; Notice

**DEPARTMENT OF THE TREASURY**

**Internal Revenue Service**

**Tax Forms Coordinating Committee; Release of Tax Forms**

The Internal Revenue Service is publishing advance proof copies of the major 1987 Federal tax forms and schedules for individual taxpayers. Included are Forms 1040, 1040A, 1040EZ and 2106, and Schedules A, B, D, and E of Form 1040. In June, the Service plans to release Schedules C, F, R and SE of Form 1040, the 1987 Tax Table and Tax Rate Schedules, and other principal tax forms for individual taxpayers. Additional forms for individuals will be released in July, along with certain business income tax returns.

**Please Note That These Proofs Are Subject to Change and OMB Approval Before Being Released for Printing in Early October**

The revised forms include changes required by the Tax Reform Act of 1986. Major changes are circled. Suggestions for improving these forms should be sent by June 19, 1987, to: Tax Forms Committee, ATTN: Early Release, Internal Revenue Service, Room 5577, 1111 Constitution Avenue, NW., Washington, DC 20224.

Although IRS is not required to publish copies of the tax forms under section 1505 of the Federal Register Act or section 552 of the Administrative Procedures Act, we are doing so at this time due to wide public interest in changes to the forms caused by the Tax Reform Act of 1986 and to give the forms broad public exposure. We may be unable to give detailed replies to the comments we receive. However, each suggestion will be carefully considered before the final versions of the forms are issued.

Dated: May 8, 1987.

## 1987 Instructions for Form 1040EZ

**You can use this form if:**

- Your filing status is single.
- You do not claim any dependents.
- You had only wages, salaries, and tips, and your taxable interest income was $400 or less. **Caution:** If you received tips (including allocated tips) that are not included in Box 14 of your W-2 form, you may not be able to use Form 1040EZ. See page 15 in the **Instructions for preparing 1040EZ and 1040A.**
- You are not 65 or over, OR blind.
- Your taxable income is less than $50,000.

If you can't use this form, you must use Form 1040A or Form 1040 instead. See pages 4 through 6 in the instruction booklet. If you are uncertain about your filing status, dependents, or exemptions, read the step-by-step instructions for Form 1040A that begin on page 7.

**Completing your return**

It will make it easier for us to process your return if you print your numbers (do not type) and keep them inside the boxes. Do not use dollar signs. You may find calculations easier if you round off cents to whole dollars. See page 13 of the instruction booklet for details.

**Name and address**

Use the mailing label we sent you. After you complete your return, carefully place the label in the name and address area. Mark through any errors on the label and print the correct information right on the label. Use of the label saves processing time. If you don't have a label, print the information on the name and address lines. If your post office does not deliver mail to your street address and you have a P.O. box, enter your P.O. box number on the line for your present home address instead of your street address.

**Presidential election campaign fund**

Congress set up this fund to help pay for Presidential election campaigns. You may have one of your tax dollars go to this fund by checking the "Yes" box. Checking the "Yes" box does not change the tax or refund shown on your return.

**Report your income**

**Line 1.** Enter on line 1 the total amount you received in wages, salaries, and tips. This should be shown in Box 10 of your 1987 wage statement(s), **Form W-2.** If you don't receive your W-2 form by February 15, contact your local IRS office. You must still report your earnings even if you don't get a Form W-2 from your employer. Attach the first copy or Copy B of your W-2 form(s) to your return.

**Line 2.** Enter on line 2 the total taxable interest income you received from all sources, such as banks, savings and loans, and credit unions. You should receive a **Form 1099-INT** from each institution that paid you interest. You cannot use Form 1040EZ if your total taxable interest income is over $400. If you received tax-exempt interest, in the space to the left of line 2, write "TEI" and show the amount of your tax-exempt interest. DO NOT include tax-exempt interest in the total entered in the boxes on line 2.

**Line 4.** Generally, you should enter 2,540 on line 4. However, if you can be claimed as a dependent on another person's return (such as your parents'), check the box on line 4 and enter the larger of 500 or the amount on line 1, but DO NOT enter more than 2,540.

**Line 6.** Generally, you should enter 1,900 on line 6 as your personal exemption. However, if you can be claimed as a dependent on another person's return (such as your parents'), you cannot claim a personal exemption for yourself. Enter 0 on line 6. If you are entitled to additional exemptions for your spouse, for your dependent children, or for other dependents, you cannot use Form 1040EZ.

**Figure your tax**

**Line 8.** Enter the amount of Federal income tax withheld. This should be shown in Box 9 of your 1987 W-2 form(s). If you had two or more employers and had total wages of over $43,800, see page 25 of the instruction booklet. If you want IRS to figure your tax for you, complete lines 1 through 8, sign and date your return. If you want to figure your own tax, continue with these instructions.

**Line 9.** Use the amount on line 7 to find your tax in the tax table on pages 31–36 of the instruction booklet. Be sure to use the column in the tax table for **single** taxpayers. Enter the amount of tax on line 9. If your tax from the tax table is zero, enter 0.

**Refund or amount you owe—Compare line 8 with line 9**

**Line 10.** If line 8 is larger than line 9, you are entitled to a refund. Subtract line 9 from line 8, and enter the result on line 10.

**Line 11.** If line 9 is larger than line 8, you owe more tax. Subtract line 8 from line 9, and enter the result on line 11. Attach your check or money order for the full amount. Write your social security number, daytime phone number, and "1987 Form 1040EZ" on your payment.

**Sign your return**

You must sign and date your return. If you pay someone to prepare your return, that person must also sign it below the space for your signature and supply the other information required by IRS. See page 28.

**Mailing your return**

File your return by **April 15, 1988.** Mail it to us in the addressed envelope that came with the instruction booklet. If you don't have an addressed envelope, see page 30 of the instruction booklet for the address.

Publication 1987 Rev. 1987

Form **1040A**

Department of the Treasury Internal Revenue Service

# U.S. Individual Income Tax Return 1987

**Step 1** Name and address

Use the IRS mailing label. If you don't have one, please print or type:

OMB No. 1545-0085

Your first name and initial (if joint return, also give spouse's name and initial) | Last name | Your social security no.

Present home address (number and street). (If you have a P.O. Box, see page 7 of the instructions.) | Spouse's social security no.

City, town or post office, state, and ZIP code | If you filed a return in 1986 and this address is different, check here ▶ ☐

## Presidential Election Campaign Fund

Do you want $1 to go to this fund? ☐ Yes ☐ No

If joint return, does your spouse want $1 to go to this fund? ☐ Yes ☐ No

*Note: Checking "Yes" will not change your tax or reduce your refund.*

**Step 2** Check your filing status (Check only one)

1 ☐ Single (See if you can use Form 1040EZ.)
2 ☐ Married filing joint return (even if only one had income)
3 ☐ Married filing separate return. Enter spouse's social security number above and spouse's full name here. _____
4 ☐ Head of household (with qualifying person). If the qualifying person is your child but not your dependent, enter this child's name here. _____

**Step 3** Figure your exemptions (See page 11 of instructions.)

5a ☐ Yourself b ☐ Spouse

Caution: If you can be claimed as a dependent on another person's tax return (such as your parents'), do not check box 5a. But be sure to check the box below line 19 on page 2.

| c Dependents: 1. First and last name | 2. Check if under age 5 | 3. If age 5 or over, dependent's social security number | 4. Relationship | 5. No. of months lived in your home |
|---|---|---|---|---|
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

If more than 7 dependents, see instructions.

No. of boxes checked on 5a and 5b _____

No. of children on 5c who lived with you _____

No. of children on 5c who didn't live with you due to divorce or separation _____

No. of parents listed on 5c _____

No. of other dependents listed on 5c _____

Attach Copy B of Form(s) W-2 here.

d If your child didn't live with you but is claimed as your dependent under a pre-1985 agreement, check here ▶ ☐

e Total number of exemptions claimed. (Also complete line 16.) Add numbers entered on lines above ☐

**Step 4** Figure your total income

6 Wages, salaries, tips, etc. This should be shown in Box 10 of your W-2 form(s). (Attach Form(s) W-2.) 6

7a Taxable interest income (see page 15). (If over $400, also complete and attach Schedule 1, Part II.) 7a

Attach check or money order here.

b Tax-exempt interest income. (DO NOT include on line 7a.) 7b

8 Dividends. (If over $400, also complete and attach Schedule 1, Part III.) 8

9 Unemployment compensation (insurance) from Form(s) 1099-G. 9

10 Add lines 6, 7a, 8, and 9. Enter the total. This is your **total income**. ▶ 10

**Step 5** Figure your adjusted gross income

11a Your individual retirement arrangement (IRA) deduction, from the worksheet on page 19. 11a

b Spouse's individual retirement arrangement (IRA) deduction, from the worksheet on page 19. 11b

c Add lines 11a and 11b. Enter the total. These are your **total adjustments**. 11c

12 Subtract line 11c from line 10. Enter the result. This is your **adjusted gross income**. (If this line is less than $15,432 and a child lived with you, see "Earned Income Credit" (line 21b) on page 26 of instructions.) ▶ 12

Proposed May 1987

**1987 Form 1040A** Page 2

**Step 6** Figure your taxable income

13 Enter the amount from line 12. 13

Caution: If you can be claimed as a dependent on another person's return, see page 20 of the instructions and check here . . . . . ▶ ☐

If you are married filing separately and your spouse files Form 1040 and itemizes deductions, see page 20.

14a Check if: ☐ You were 65 or over ☐ Blind; ☐ Spouse was 65 or over ☐ Blind. Enter number of boxes checked ▶ 14a

b Standard deduction. If, on page 1, you checked filing status box: 1 or 4, enter $2,540; 2, enter $3,760; 3, enter $1,880. Caution: If you completed line 14a, enter amount from chart on page 21. 14b

15 Subtract line 14b from line 13. Enter the result. 15

16 Multiply $1,900 by the total number of exemptions claimed on line 5e. See the chart on page 22 of the instructions. 16

17 Subtract line 16 from line 15. Enter the result. This is your taxable income. ▶ 17

**If You Want IRS To Figure Your Tax, See Page 22 of the Instructions.**

**Step 7** Figure your tax, credits, and payments (including advance EIC payments)

Caution: If you are under age 14 and have more than $1,000 of unearned income, see page 22 of the instructions and check here . . . . . ▶ ☐

18 Find the tax on the amount on line 17. Check if from: ☐ Tax Table (pages 31-36); or ☐ Form 8615, Computation of Tax for Children Under Age 14 Who Have More Than $1,000 of Unearned Income. 18

19 Credit for child and dependent care expenses. Complete and attach Schedule 1, Part I. 19

20 Subtract line 19 from line 18. Enter the result. (If line 19 is more than line 18, enter -0- on line 20.) This is your total tax. ▶ 20

21a Total Federal income tax withheld. This should be shown in Box 9 of your W-2 form(s). (If line 6 is more than $43,800, see page 25 of the instructions.) 21a

b Earned income credit, from the worksheet on page 27 of the instructions. See page 26 of the instructions. 21b

22 Add lines 21a and 21b. Enter the total. These are your **total payments.** ▶ 22

**Step 8** Figure your refund or amount you owe

23 If line 22 is larger than line 20, subtract line 20 from line 22. Enter the result. This is the **amount of your refund.** 23

24 If line 20 is larger than line 22, subtract line 22 from line 20. Enter the result. This is the amount you owe. Attach check or money order for full amount payable to "Internal Revenue Service." Write your social security number, daytime phone number, and "1987 Form 1040A" on it. 24

**Step 9** Sign your return

Under penalties of perjury, I declare that I have examined this return and accompanying schedules and statements, and to the best of my knowledge and belief, they are true, correct, and complete. Declaration of preparer (other than the taxpayer) is based on all information of which the preparer has any knowledge.

Your signature — Date — Your occupation

X

Spouse's signature (if joint return, both must sign) — Date — Spouse's occupation

X

**Paid preparer's use only**

Preparer's signature — Date — Preparer's social security no.

X

Firm's name (or yours, if self-employed) — Employer identification no.

Address and ZIP code — Check if self-employed ☐

Proof Only

# 1987 Schedule 1 (Form 1040A)

Name(s) as shown on Form 1040A — Your social security number

**You MUST complete and attach Schedule 1 to Form 1040A only if you:**

- Claim the credit for child and dependent care expenses (complete Part I)
- Have over $400 of interest income (complete Part II)
- Have over $400 of dividend income (complete Part III)

## Part I Credit for child and dependent care expenses (see page 23)

Complete this part to figure the amount of credit you can take on Form 1040A, line 19. Attach Schedule 1 to Form 1040A.

**Note:** *If you paid cash wages of $50 or more in a calendar quarter to an individual for services performed in your home, you must file an employment tax return. Get Form 942 for details.*

1 Enter the number of qualifying persons who were cared for in 1987. (See the instructions for the definition of a qualifying person.) — 1

2 Enter the amount of qualified expenses you incurred and actually paid in 1987 for the care of the qualifying person. (See the instructions for which expenses qualify for the credit.) DO NOT enter more than $2,400 ($4,800 if you paid for the care of two or more qualifying persons.) — 2

3a You must enter your earned income on line 3a. — 3a

b If you are married, filing a joint return for 1987, you must enter your spouse's earned income on line 3b. — 3b

c If you are married, compare the amounts on lines 3a and 3b, and enter the smaller of the two amounts on line 3c. — 3c

4 • If you were unmarried at the end of 1987, compare the amounts on lines 2 and 3a, and enter the smaller of the two amounts on line 4.
• If you are married, filing a joint return for 1987, compare the amounts on lines 2 and 3c, and enter the smaller of the two amounts on line 4. — 4

5 Enter the percentage from the table below that applies to the amount on Form 1040A, line 13.

| If line 13 is: Over— | But not over— | Percentage is: |
|---|---|---|
| $0 | 10,000 | 30% (.30) |
| 10,000 | 12,000 | 29% (.29) |
| 12,000 | 14,000 | 28% (.28) |
| 14,000 | 16,000 | 27% (.27) |
| 16,000 | 18,000 | 26% (.26) |
| 18,000 | 20,000 | 25% (.25) |
| $20,000 | 22,000 | 24% (.24) |
| 22,000 | 24,000 | 23% (.23) |
| 24,000 | 26,000 | 22% (.22) |
| 26,000 | 28,000 | 21% (.21) |
| 28,000 | | 20% (.20) |

5 × .

6 Multiply the amount on line 4 by the percentage on line 5. Enter the result here and on Form 1040A, line 19. — 6 =

Schedule A (Form 1040) 1987

Proof of Mailing 1987

Schedules A&B (Form 1040) 1987 OMB No. 1545-0074 Page 2

Name(s) as shown on Form 1040. (Do not enter name and social security number if shown on other side.) | Your social security number

## Schedule B—Interest and Dividend Income

Attachment Sequence No. 08

**Part I Interest Income**

(See instructions on pages 8 and 22.)

Also complete Part III.

Note: If you received a Form 1099–INT or Form 1099–OID from a brokerage firm, enter the firm's name and the total interest shown on that form.

If you received more than $400 in taxable interest income, you must complete Part I and list ALL interest received. If you received, as a nominee, interest that actually belongs to another person, or you received or paid accrued interest on securities transferred between interest payment dates, see page 22.

| Interest Income | | Amount |
|---|---|---|
| 1 Interest income from seller-financed mortgages. (See Instructions and list name of payer.) ▶ | 1 | |
| 2 Other interest income (list name of payer) ▶ | 2 | |
| 3 Add the amounts on lines 1 and 2. Enter the total here and on Form 1040, line 8. ▶ | 3 | |

**Part II Dividend Income**

(See instructions on pages 8 and 22.)

Also complete Part III.

Note: If your securities were held by a brokerage firm, enter the firm's name and the total dividends shown on Form 1099–DIV.

If you received more than $400 in gross dividends and/or other distributions on stock, complete Part II. If you received, as a nominee, dividends that actually belong to another person, see page 23.

| Dividend Income | | Amount |
|---|---|---|
| 4 Dividend income (list name of payer—include on this line capital gain distributions, nontaxable distributions, etc.) ▶ | 4 | |
| 5 Add the amounts on line 4. Enter the total here | 5 | |
| 6 Capital gain distributions. Enter here and on line 13, Schedule D.* | 6 | |
| 7 Nontaxable distributions. (See Schedule B Instructions for adjustment to basis.) | 7 | |
| 8 Add the amounts on lines 6 and 7. Enter the total here | 8 | |
| 9 Subtract line 8 from line 5. Enter the result here and on Form 1040, line 10 ▶ | 9 | |

*If you received capital gain distributions for the year and you do not need Schedule D to report any other gains or losses, do not file that schedule. Instead, enter your capital gain distributions on Form 1040, line 14. Write "CGD" on the dotted line to the left of line 14.

**Part III Foreign Accounts and Foreign Trusts**

(See instructions on page 23.)

If you received more than $400 of interest or dividends, OR if you had a foreign account or were a grantor of, or a transferor to, a foreign trust, you must answer both questions in Part III.

| | Yes | No |
|---|---|---|
| 10 At any time during the tax year, did you have an interest in or a signature or other authority over a financial account in a foreign country (such as a bank account, securities account, or other financial account)? (See page 23 of the Instructions for exceptions and filing requirements for Form TD F 90-22.1.) | | |
| If "Yes," enter the name of the foreign country ▶ | | |
| 11 Were you the grantor of, or transferor to, a foreign trust which existed during the current tax year, whether or not you have any beneficial interest in it? If "Yes," you may have to file Forms 3520, 3520-A, or 926 | | |

Name(s) as shown on Form 1040. (Do not enter name and social security number if shown on other side.) Your social security number

**Part III Summary of Parts I and II**

18 Combine lines 8 and 17, and enter the net gain or (loss) here. If result is a gain, also enter the gain on Form 1040, line 14 . . . . . 18

*Note: If lines 17 and 18 are net gains and your taxable income is taxed over the 28% tax rate, you should use Part IV below to figure your tax.*

19 If line 18 is a loss, enter here and as a loss on Form 1040, line 14, the smaller of:
a The amount on line 18; or b $3,000 ($1,500 if married filing a separate return) . . . . . 19

**Part IV Alternative Tax Computation**
(You will have to complete Form 1040 in order to figure your taxable income for purposes of line 20.)

Use Part IV if both lines 17 and 18 show net gains, AND:

| You checked filing status box: | AND | Form 1040, line 36 is over: | You checked filing status box: | AND | Form 1040, line 36 is over: |
|---|---|---|---|---|---|
| 1 | | $27,000 | 3 | | $22,500 |
| 2 or 5 | | 45,000 | 4 | | 38,000 |

| | | |
|---|---|---|
| 20 | Enter amount from Form 1040, line 36 | 20 |
| 21 | Enter the smaller of the gain on line 18 or the gain on line 17 | 21 |
| 22 | Subtract line 21 from 20 and enter the result | 22 |
| 23 | Enter: a $16,800 if you checked filing status box 1; b $28,000 if you checked filing status box 2 or 5; c $14,000 if you checked filing status box 3; or d $23,000 if you checked filing status box 4 | 23 |
| 24 | Enter the greater of line 22 or line 23 | 24 |
| 25 | Subtract line 24 from line 20 | 25 |
| 26 | Figure the amount of tax on line 24. (See Instructions.) | 26 |
| 27 | Multiply line 25 by 28% (.28) and enter the result | 27 |
| 28 | Add lines 26 and 27. Enter the result here and on Form 1040, line 37 and check the box for Schedule D | 28 |

**Part V Computation of Capital Loss Carryovers From 1987 to 1988**
(Complete this part if the loss on line 18 is more than the loss on line 19.)

| | | |
|---|---|---|
| 29 | Enter the loss shown on line 8; if none, enter zero and skip lines 30 through 33 | 29 |
| 30 | Enter gain shown on line 17. If that line is blank or shows a loss, enter zero | 30 |
| 31 | Subtract line 30 from line 29 | 31 |
| 32 | Enter the smaller of line 19 or 31 | 32 |
| 33 | Subtract line 32 from line 31. This is your short-term capital loss carryover from 1987 to 1988 | 33 |
| 34 | Enter loss from line 17; if none, enter zero and skip lines 35 through 38 | 34 |
| 35 | Enter gain shown on line 8. If that line is blank or shows a loss, enter zero | 35 |
| 36 | Subtract line 35 from line 34 | 36 |
| 37 | Subtract line 32 from line 19. (Note: *If you skipped lines 30 through 33, enter the amount from line 19.*) | 37 |
| 38 | Subtract line 37 from line 36. This is your long-term capital loss carryover from 1987 to 1988 | 38 |

**Part VI Complete This Part Only If You Elect Out of the Installment Method and Report a Note or Other Obligation at Less Than Full Face Value**

| | | |
|---|---|---|
| 39 | Check here if you elect out of the installment method ▶ ☐ | |
| 40 | Enter the face amount of the note or other obligation. ▶ | |
| 41 | Enter the percentage of valuation of the note or other obligation. ▶ | |

**Part VII Reconciliation of Forms 1099-B for Bartering Transactions**
Complete this part if you received one or more Form(s) 1099-B or an equivalent substitute statement(s) reporting bartering income.

| | | Amount of bartering income from Form 1099-B or equivalent statement excluded on: |
|---|---|---|
| 42 | Form 1040, line 21 | 42 |
| 43 | Schedule C (Form 1040) | 43 |
| 44 | Schedule D (Form 1040) | 44 |
| 45 | Schedule E (Form 1040) | 45 |
| 46 | Schedule F (Form 1040) | 46 |
| 47 | Other (identify) (if not taxable, indicate reason—attach additional sheets if necessary) ▶ ..... | 47 |
| 48 | Total (add lines 42 through 47) | 48 |

Note: *The amount on line 48 should be the same as the total bartering income on all Forms 1099-B or equivalent statements received.*

## Research and Special Programs Administration

## The National Tank Truck Carriers, Inc. and the American Trucking Associations, Inc.; Application for Inconsistency Ruling; Public Notice and Invitation To Comment

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

[Docket No. IRA–40]

## The National Tank Truck Carriers, Inc. and the American Trucking Associations, Inc., Application for Inconsistency Ruling

AGENCY: Research and Special Programs Administration; DOT.

ACTION: Public notice and invitation to comment.

SUMMARY: The National Tank Truck Carriers, Inc. (NTTC) and the American Trucking Associations, Inc. (ATA) have applied for an administrative ruling to determine whether directives 3–76, 5–63, 6–76, and 7–74 of the New York Fire Department's Bureau of Fire Prevention (BFP) and the hazardous materials time and routing restrictions of the City of New York and the Port Authority of New York and New Jersey (Port Authority) are inconsistent with the Hazardous Materials Transportation Act (HMTA) and the Hazardous Materials Regulations (HMR) issued thereunder, and, therefore, preempted under section 112(a) of the HMTA. The BFP directives require tank truck carriers to receive permits before compressed gases, flammable and combustible liquids, and flammable and combustible mixtures are transported into the City of New York. The City of New York routing regulations define specific time periods when hazardous materials shipments may pass through the City and restrict the use of the George Washington Bridge and Interstate 95 for the transportation of such materials. The regulations of the Port Authority impose limitations on the quantities of flammable materials that may be transported as dry freight and prohibit tank trucks that carry flammable materials from entering the George Washington Expressway.

DATES: Comments received on or before July 10, 1987, and rebuttal comments received on or before August 25, 1987, will be considered before an administrative ruling is issued by the Director of the Office of Hazardous Materials Transportation. Rebuttal comments may discuss only those issues raised by comments received during the initial comment period and may not discuss new issues.

ADDRESSES: The application and any comment received may be reviewed in the Dockets Branch, Research and Special Programs Administration, Department of Transportation, Room 8426, Nassif Building, 400 7th Street SW., Washington, DC 20590. Comments and rebuttal comments on the application should separately address those issues related to the BFP directives and those issues related to the time and routing restrictions. They are to be submitted to the Dockets Branch at the above address, and should include the Docket Number IRA–40A if related to the BFP directives and IRA–40B if related to the time and routing restrictions. Three copies are requested. A copy of each comment and rebuttal comment also must be sent to Clifford J. Harvison, President, NTTC, 2200 Mill Road, Alexandria, VA. 22314; Daniel R. Barney, Director, ATA Litigation Center, 2200 Mill Road, Alexandria, VA 22314; Doron Gopstein, Esq., Acting Corporation Counsel, City of New York, 100 Church Street, Room 6C–37, NY, NY 10017 (Attn: Grace Goodman, Esq., Assistant Corporation Counsel); and Patrick J. Falvey, Esq., The Port Authority of New York and New Jersey, One World Trade Center, Suite 665, NY, NY 10048 (Attn: Robert Johnson, Esq.); and that fact certified to at the time the comment is submitted to the Dockets Branch. (The following format is suggested: "I hereby certify that copies of this comment have been sent to Messrs. Harvison, Barney, Gopstein, and Falvey at the addresses specified in the Federal Register.")

FOR FURTHER INFORMATION CONTACT: Edward H. Bonekemper, III, Office of the Chief Counsel, Research and Special Programs Administration, 400 Seventh Street SW., Washington, DC 20590, Telephone 202–366–4362. Single copies of the directives and regulations at issue may be obtained from Sandy Cureton, Dockets Unit, Research and Special Programs Administration, Room 8426, 400 Seventh Street SW., Washington, DC 20590, Telephone 202–366–5046.

SUPPLEMENTARY INFORMATION:

### 1. Background

The HMTA (49 App. U.S.C. 1801 *et seq.*) at section 112(a) (49 App. U.S.C. 1811(a)) expressly preempts "any requirement, of a State or political subdivision thereof, which is inconsistent with any requirement" of the HMTA or the HMR issued thereunder.

Procedural regulations implementing section 112 of the HMTA and providing for the issuance of inconsistency rulings are codified at 49 CFR 107.201 through 107.211. An inconsistency ruling is an advisory administrative opinion as to the relationship between a state or local requirement and a requirement of the HMTA or HMR. Section 107.209(c) sets forth the following factors which are considered in determining whether a state or local requirement is inconsistent:

(1) Whether compliance with both the state or local requirement and the HMTA or HMR is possible (the "dual compliance" test); and

(2) The extent to which the state or local requirement is an obstacle to the accomplishment and execution of the HMTA and the HMR (the "obstacle" test).

### 2. Application for Inconsistency Ruling

The American Trucking Associations, Inc. (ATA) and the National Tank Truck Carriers, Inc. (NTTC) have filed an application for an administrative ruling seeking a determination that directives 3–76, 5–63, 6–76, and 7–74 of the New York Fire Department's Bureau of Fire Prevention (BFP) and the hazardous materials regulations of the City of New York and the Port Authority of New York and New Jersey (Port Authority) are inconsistent with the HMTA and the HMR. BFP Directives 6–76 and 7–74 create permit systems that govern the use of tank trucks which transport combustible or flammable mixtures within New York City. BFP Directive 3–76 establishes a City permit system for transporting flammable and combustible liquids through the use of open and closed body platform trucks, while Directive 5–63 creates a permit system for the transportation of compressed gases within the City.

The New York City routing regulations define specific time periods when hazardous material shipments may pass through the City and restrict the use of the George Washington Bridge and Interstate 95 for the transportation of such materials. The regulations of the Port Authority impose limitations on the quantities of flammable materials that may be transported as dry freight and prohibit tank trucks carrying flammable materials from entering onto the George Washington Expressway.

Initially, the applicants contend that the BFP directives and the New York and Port Authority regulations, in addition to being inconsistent with the HMTA and the HMR, are inconsistent with the Federal Motor Carrier Safety Regulations (FMCSR) contained in 49 CFR Parts 391, 392, 393, and 396. The FMCSR were reissued under the authority of the HMTA to allow the imposition of civil penalties and the use of additional enforcement tools provided by such legislation. See Incorporation of the Federal Motor Carrier Safety Regulations by Reference,

43 FR 4858 (Feb. 6, 1978). However, when the FMCSR were reissued under the HMTA, such action was not intended to change the intent, scope of application, or preemptive effects of the FMCSR as they existed under their original statutory authority (Interstate Commerce Act, 49 U.S.C. 304). *Id.* Therefore, RSPA will consider the preemptive effects of 49 CFR Parts 391, 392, 393, and 396 only to the extent those effects existed prior to their reissuance under the HMTA. Inconsistency Ruling 2 (IR–2), 44 FR 75566, 75568 (Dec. 20, 1979). 49 CFR 390.30, part of the incorporation by reference, sets out the standards to be used in considering preemption under the FMCSR:

> Except as otherwise specifically indicated, Parts 390 through 397 of this subchapter are not intended to preclude States or subdivisions thereof from establishing or enforcing State or local laws relating to safety, the compliance with which would not prevent full compliance with these regulations by the person subject thereto.

The standards thus established are essentially identical to the first test used to determine preemption under the HMTA; i.e., the dual compliance test. Therefore, a state or local requirement concerning a subject addressed by the cited FMCSR provisions is preempted only if compliance with it and a provision of the FMCSR is impossible.

**3. Bureau of Fire Prevention Directives**

The receipt of a permit under any one of the four BFP directives is conditioned upon fulfillment of the requirements of that particular directive.

Directive 3–76 requires each flammable and combustible mixture platform truck to adhere to engine fuel tank volume capacity restrictions (gasoline: 60 gallons; diesel fuel: 120 gallons). Additionally, the use of certain engine fuel tanks is prohibited unless they have been approved by Underwriters Laboratory (such approval designated by a permanently attached metal label). Directive 3–76 requires engine fuel tanks, even if they conform to DOT specifications, to be additionally inspected by an entity designated by the New York Fire Department. Furthermore, Directive 3–76 imposes numerous additional equipment specifications (e.g., brakes, wiring, fire protection, engine exhaust, etc.) and mandates specific methods to haul containerized flammable or combustible materials.

To receive a permit under Directive 5–63, each owner of a vehicle transporting or delivering compressed gases must prepare and file with the Fire Commissioner, an affidavit stating that the truck chassis is adequate to transport the truck body and its contents. Also, the manufacturer of each tank truck must submit an affidavit to prove that the truck was manufactured in accordance with DOT specifications and regulations. Furthermore, each driver of a compressed gas vehicle must pass certification tests administered by New York City. Finally, to ensure that Directive 5–63 is followed, each vehicle must be inspected by City employees.

Directive 6–76 governs the use of tank trucks that transport combustible mixtures. Under Directive 6–76, engine fuel tanks must adhere to volume capacity restrictions (gasoline: 60 gallons; diesel fuel: 120 gallons), and some must be approved by Underwriters Laboratory (such approval designated by a permanently attached metal label). Furthermore, each tank must be tested pursuant to the City's prescribed procedures. Also, Directive 6–76 imposes numerous equipment specifications (e.g., capacity indicator, relief valves, bumpers, brakes, etc.). Directive 6–76 requires each driver of combustible mixture transport vehicles to pass certification tests, and the vehicle itself must be inspected for compliance with Directive 6–76's requirements. Finally, tank trucks that transport combustible petroleum products are prohibited from transporting any other type of material.

Directive 7–74 governs the use of tank trucks transporting flammable mixtures. To obtain a permit under Directive 7–74, each transport vehicle must be inspected by City authorities and the drivers of such vehicles must successfully complete certification testing. Numerous tank construction specifications are required by Directive 7–74 (e.g., engine exhaust, relief vents, mudguards, bumpers, etc.). Also, each tank must be tested and certified pursuant to New York's prescribed procedures. Similarly, fuel tanks must adhere to volume capacity restrictions (gasoline: 60 gallons; diesel fuel: 120 gallons), and some must be approved by Underwriters Laboratory (such approval designated by a permanently attached metal label). Furthermore, tank trucks carrying flammable liquids may only be unloaded pursuant to a City-approved gravity method. Directive 7–74 requires manufacturers to provide: (1) Detailed chassis specifications complete with drawings and a calibration chart as to tank capacity for each vehicle; and (2) an affidavit showing compliance with the Directive's requirements. Directive 7–76 prohibits the use of semi-trailers to haul flammable liquids and also prohibits tank trucks that carry flammable liquids from carrying other forms of materials.

The applicants contend that the directives are inconsistent for five general reasons:

(1) They impose highly technical and burdensome regulations that bear no relationship to the Federal requirements.

(2) They effectively ban from New York the vast majority of vehicles that transport hazardous materials.

(3) They would compel hazardous materials shipments to be transferred at the City's borders into specialized trucks meeting the special equipment, vehicle permit, and driver certification requirements of New York.

(4) Such increased loading will create risks of spillage, accidents, delays in transit and other significant safety concerns.

(5) The risks created by New York's regulations are imposed on the carriers, the drivers and workers involved in loading vehicles in jurisdictions surrounding the City, and the residents of those jurisdictions.

The applicants further allege that particular requirements of the directives are inconsistent with the HMTA and the HMR.

Comments and rebuttal comments concerning these directives should be addressed to Docket IRA–40A.

**4. New York City & Port Authority Time and Routing Restrictions**

City routing restrictions apply to all shipments of hazardous materials except those that conform to the City's equipment specifications, that have specialized Fire Department permits, and that are driven by City-certified drivers. Specifically, the routing restrictions only allow hazardous materials shipments to pass through the City during 9 a.m. to 4 p.m. and 6 p.m. to 7 a.m. Monday through Friday, and any time on Saturdays, Sundays and holidays. In other words, there is a 7–9 a.m. and 4–6 p.m. ban on such shipments on non-holiday weekdays.

Applicants assert that this restriction adds considerable driving time and mileage to each shipment of hazardous materials, since each non-conforming truck must go around the City or pull off the road prior to entering the City and wait for the curfew to lift.

The City regulations also require interstate traffic using Interstate Highway 95 to proceed from the George Washington Bridge to the Washington Expressway and prohibit any detours onto City streets. Additionally, the Port Authority regulations limit the quantity of flammable materials that may be transported as dry freight, and prohibit all tank trucks carrying flammable materials from entering the George

Washington Expressway. Consequently, applicants assert that the City's prohibition of detours onto City streets effectively bans the bulk transportation of flammable materials over Interstate 95 and the George Washington Bridge. The Port Authority regulations also restrict the dry freight transport of flammable materials over I–95 and the George Washington Bridge.

The applicants contend that neither the City nor the Port Authority consulted or coordinated with surrounding jurisdictions when establishing their regulations or evaluated the effects of their regulations on surrounding jurisdictions.

Comments and rebuttal comments concerning these time and routing restrictions should be addressed to Docket IRA–40B.

**5. Public Comment**

Comments should be restricted to the issues of whether the challenged BFP directives and the time and routing restrictions of New York City and the Port Authority are inconsistent with the HMTA or either the HMR or the FMSCR issued thereunder. To facilitate an orderly review of the issues raised in the inconsistency application, those comments addressing the BFP directives should be addressed to "Docket IRA–40A." Comments addressing the time and routing restrictions of the City and the Port Authority should be addressed to "Docket IRA–40B." Persons intending to comment on the application should examine the complete application in the RSPA Dockets Branch (including copies of all challenged requirements) and the procedures governing the Department's consideration of applications for inconsistency rulings (49 CFR 107.201 through 107.211).

Issued in Washington, DC on May 11, 1987.

Alan I. Roberts,

*Director, Office of Hazardous Materials Transportation.*

Part IV

# Department of Health and Human Services

**Public Health Service**

**42 CFR Part 57**

## Program of Financial Assistance for Disadvantaged Health Professions Students; Final Regulations

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Public Health Service**

**42 CFR Part 57**

**Program of Financial Assistance for Disadvantaged Health Professions Students**

**AGENCY:** Public Health Service, HHS.

**ACTION:** Final regulations.

**SUMMARY:** This rule establishes regulations for the program of Financial Assistance for Disadvantaged Health Professions Students (FADHPS), authorized by section 787 of the Public Health Service Act (the Act), as amended by Pub. L. 99–129, the Health Professions Training Assistance Act of 1985.

**EFFECTIVE DATE:** These regulations are effective May 18, 1987.

**FOR FURTHER INFORMATION CONTACT:** Ms. Peggy Washburn, Chief, Program Development Branch, Division of Student Assistance, Bureau of Health Professions, Health Resources and Services Administration, Parklawn Building, Room 8–48, 5600 Fishers Lane, Rockville, Maryland 20857; telephone number: 301 443–4540.

**SUPPLEMENTARY INFORMATION:** On September 5, 1986, the Department published a Notice of Proposed Rulemaking (NPRM) (51 FR 31920) to establish regulations for the FADHPS program. The Department received 40 comments on this NPRM from schools and professional associations. The comments and the Department's responses to the comments are discussed below. For clarity, the comments and responses are arranged according to the section numbers and titles of the NPRM to which they pertain.

*Section 57.2901 To what program do these regulations apply?*

One respondent opposed proposed § 57.2901, which stated that these regulations apply to grants to eligible schools under section 787 (a)(2)(F) and (b) of the Act. This respondent objected to using 20 percent of the funds authorized under section 787 to provide direct financial assistance to health professions students. In response to this comment, the Department clarifies that section 787(b) of the Act, as amended by Pub. L. 99–129, the Health Professions Training Assistance Act of 1985, requires that 20 percent of the section 787 funds be used for direct financial assistance to students at schools of medicine, osteopathy, and dentistry. Since this is required by statute, the Department has retained this provision as proposed.

*Section 57.2902 Definitions.*

Thirteen respondents opposed the proposed definitions of "student" and "school," which would limit eligibility to students at schools of medicine, osteopathic medicine, or dentistry. These respondents believed that students of allied health, chiropractic, clinical psychology, optometry, pharmacy, podiatry, public health, and veterinary medicine should be included as eligible recipients of these funds. In response to these comments, the Department clarifies that section 787 (a)(2)(F) and (b) of the Act limits student eligibility for these funds to students at schools of medicine, osteopathic medicine, or dentistry. Therefore, the Department has retained these definitions as proposed.

*Section 57.2904 Eligibility and selection of aid recipients.*

Nine respondents commented on proposed § 57.2904(a), which would establish student eligibility criteria for the FADHPS program. One respondent suggested a phased-in narrowing of eligibility by class year, which would limit funding in 1987–88 to students in the first 3 years of study, in 1988–89 to students in the first 2 years of study, and in 1989–90 to students in the first year of study. A second alternative suggested was to limit funding only to students in their first 2 years of study. This respondent believed that these additional restrictions would ensure a wider distribution of funds while accomplishing the goal of providing initial year debt-free support.

In response to this comment, the Department notes that the statement of consensus of the House Subcommittee on Health and Environment and the Senate Committee on Labor and Human Resources on the provisions of Pub. L. 99–129 explains that Congress intends that these funds be available to students in all years of attendance (*Congressional Record* for October 3, 1985, pages H8113–H8114, and *Congressional Record* for October 4, 1985, page S12668). Since including these suggestions in the FADHPS regulations would be contrary to Congressional intent, the Department has made no change in this provision.

Five respondents suggested that the eligibility criteria be amended to require that, to qualify as "disadvantaged," a recipient must meet Part (i) of the "disadvantaged background" definition set forth in § 57.2904(a)(3). This was considered necessary so that preferential selection would be given to students who have marginal academic preparedness as well as exceptional financial need. These respondents further suggested that, in addition to meeting the basic "exceptional financial need" requirement, all recipients of funds under this program should be required to be identified by the admissions office as having been accepted as "academically at risk," and document participation in some pre-professional school academic reinforcement program. One respondent suggested that the regulations should limit eligibility to students who are prior participants in the Health Career Opportunity Program (HCOP), to increase the likelihood that the funds are awarded to disadvantaged students who are members of ethnic or racial minorities and thus increase minority representation in the health professions. Another respondent was concerned that Part (i) of the "disadvantaged background" definition is too general, and suggested that the regulatory language or accompanying policy should more clearly define the target population. It was also recommended that the Department analyze the national applicant pool to determine the grade point average and admission test scores which should serve as the threshold for "marginal" or "academically at risk."

Two respondents were concerned that the example provided in the proposed rule for determining which students qualify as disadvantaged implied that only objective criteria used in the admissions process could be used to identify disadvantaged students. One respondent believed that since a test score considered typical at one school may be borderline at another, the example of how to determine who is disadvantaged should not be so closely tied to admissions criteria, but rather should be linked in some way to a factor in the student's background which may impede a person of lesser ability or determination from matriculating at that school. It was also suggested that the disadvantaged definition be amended to allow a student to qualify as disadvantaged based on his or her educational pathway, and to include continuing students who may not have entered as "marginal" but are currently in an environment that inhibits their graduation from school.

In response to these suggestions, the Department notes that the proposed definition of "disadvantaged background" is identical to the definition set forth in 42 CFR 57.1804 of the HCOP regulations (under which the remaining 80 percent of section 787

funds are administered), and thus assures that any prior HCOP participant meets this eligibility criterion. This definition allows a recipient to be considered disadvantaged if he or she meets the criteria in either paragraph (i) or paragraph (ii) of § 57.2904(a)(3). Since this definition has already been established as part of the HCOP regulations, no change has been made. The Department further notes that since some schools which actively recruit and enroll disadvantaged students do not participate in HCOP, it would be unfair to these schools and their disadvantaged students to limit student eligibility to prior HCOP participants.

Although the proposed definition of "disadvantaged background" is being retained, the Department clarifies that each school must develop criteria, consistent with the general requirements of the regulations, for determining which students meet Part (i) of the "disadvantaged background" definition. Some of the suggestions of those respondents—that a student must have been admitted as "academically at risk" and must have participated in a pre-professional school academic reinforcement program, that a student must be a prior HCOP participant, or that there must be a factor in the student's background which may impede matriculation at that school—are examples of appropriate criteria for a school to use in determining whether a student qualifies as disadvantaged under § 57.2904(a)(3)(i). The Department does not believe it should establish uniform grade point average or admission test score thresholds for all schools to follow in identifying students who are "marginal" or "academically at risk." Rather, since each school generally determines its own grade point average and admission test score thresholds as part of its admissions criteria, these individually established levels can be used in determining which students meet the "disadvantaged background" definition.

One respondent requested clarification of whether the family income levels mentioned in § 57.2904(a)(3)(ii) are to be based upon adjusted gross income. The Department clarifies that, as indicated in the table which sets forth these figures for calendar year 1986, the income levels do refer to adjusted gross income.

One respondent requested clarification of whether university and agency scholarships count as resources in calculating whether a student meets the exceptional financial need requirement proposed in § 57.2904(a)(4). The Department clarifies that in § 57.2904(a)(4), the term "student's resources" refers to the expected family contribution determined through the need analysis process, minus the items specifically excluded in the last sentence of § 57.2904(a)(4). Thus, for purposes of determining if a student has "exceptional financial need," university and agency scholarships would not count as resources.

One respondent commented on the introductory sentence in proposed § 57.2904(b), which stated that the school is to select qualified recipients and determine the amount of aid to be awarded. This respondent suggested that language be added to clarify that the intent of this provision is to grant schools flexibility to provide their needy students with the maximum possible benefit. In response to this comment, the Department has revised this provision to state that the school is to select qualified recipients and determine the amount of aid to be awarded to provide its needy students with the maximum possible benefit.

One respondent commented on the provision in proposed § 57.2904(b)(1)(i), which would require that, in determining the amount of aid needed, the school must take into account the expected contribution from parents, spouse, self, or (as appropriate) other family members. This respondent requested that the Department clarify the meaning of the words "as appropriate" and the circumstances under which the expected contribution from family members other than parents or a spouse should be considered.

In response to this comment, the Department clarifies that any contributions that the student receives from any family members must be considered in determining the student's resources, consistent with the information detailing the student's total financial resources that the student provides in the need analysis process. This language was included in the proposed regulations to emphasize that all resources received by the student must be considered when determining the student's financial need, regardless of where the resources are coming from. Therefore, the Department has retained this provision as proposed.

Twenty-two respondents opposed the requirement in proposed § 57.2904(b)(1)(i) that institutions collect Internal Revenue Service (IRS) certified income tax returns from the applicant, the applicant's parents, and the applicant's spouse. These respondents stated that obtaining IRS certified tax returns would be administratively impractical, cumbersome, time-consuming, unnecessary, and costly, and noted that this requirement is inconsistent with the requirements for other Federal financial aid programs. It was believed that this requirement would create lengthy delays and more paperwork in the awarding of FADHPS funds to students, and greater inconvenience and frustration among both financial aid personnel and students and their families. Respondents also indicated that it can take from 10 weeks to 6 months to acquire certified returns from the IRS. As a result, there was concern that the tax returns would not be available before the FADHPS program application deadline.

Respondents also indicated that it is unlikely that funds from this program would go to any students who are not from families with very limited financial means, and that if such a family is not required to file a tax return it is inappropriate to burden it with the cost of obtaining certification from the IRS that no return was filed. In addition, it was noted that if the request for the tax return is submitted to the IRS before the tax return has been fully processed, the IRS certification may incorrectly show that no return was filed, thus creating a potential for inaccuracies in the information received from the IRS.

As an alternative, respondents suggested that the Department eliminate this requirement completely or use the same guidelines for tax returns incorporated in the Department of Education (ED) verification system, which requires photocopies of the income tax returns with original signatures of the parents, student, and spouse. It was believed that following ED's Integrated Verification System would ensure that those applications with probable errors are identified and scrutinized more carefully. In addition, respondents suggested that financial aid administrators be given discretion to require IRS certified tax returns only when they have reason to doubt the accuracy of a signed photocopy of the tax return, or to collect alternate documentation, such as W-2 forms accompanied by a signed statement itemizing amounts and sources of all income. Other respondents suggested that, if IRS certified copies are necessary, schools should be permitted to obtain them prior to the disbursement of funds or after the application and award process, as verification of the information submitted at the time of application, and that if discrepancies occur, the student should be required to return the funds.

In response to these comments, the Department agrees that it would be

extremely difficult for most schools to implement this proposal because of the problems in obtaining tax information from the IRS congruent with the financial aid application and award deadlines. Therefore, the Department has revised this provision to state that a school must collect photocopies of Federal income tax returns with original signatures (or certification that no Federal income tax return was filed and documentation of the total income) from the parents, student, and spouse. The revised provision also states that a school may, at its option, require tax returns that are certified as having been received by the IRS.

Four respondents suggested that the language in this provision be revised to refer to the return for the "most recent tax year" rather than the "most recent tax return," to avoid misunderstandings if, for example, the most recent tax return was filed 10 years ago. The Department agrees with this suggestion and has revised the provision accordingly.

One respondent requested clarification in the regulations regarding the treatment of students with step-parents, deceased parents, or parents who reside in a country where it is impossible for the student to obtain income information directly from the parent. The Department believes it is preferable to exclude from the regulations requirements for the treatment of specific circumstances such as these. However, the Department clarifies that FADHPS applicants with unusual circumstances, such as described above, generally should be handled in the same manner that the school would handle a dependent student in a similar circumstance.

One respondent commented on the provision in § 57.2904(b)(1)(ii), which would require schools to document the criteria used for determining the costs reasonably necessary for the student's attendance at the school. This respondent requested clarification of the extent and nature of the documentation required. In response to this comment, the Department has added to this provision language which clarifies that this documentation must include resource materials used by the school to determine the dollar amount for each category of expenses (e.g., tuition, supplies, room and board, etc.) in its standard student budgets.

Five respondents commented on § 57.2904(b)(2), which would require that FADHPS recipients must be selected in order of greatest need, as determined by the school. These respondents recommended that schools be permitted to take into account other scholarship, grant, or fellowship aid that a student has received or will receive for the award period when determining the order of greatest need. The Department accepts this suggestion and has amended the provision accordingly.

*Section 57.2905 Amount of student award.*

Five respondents commented on proposed § 57.2905, which would establish requirements regarding the maximum amount of funds a student can receive under the FADHPS program. It was recommended that language be added to clarify that the total amount of assistance a student receives from this program, plus other sources of aid the student has received or will receive for the award period, may not exceed the student's need, as determined by the school. Two respondents also noted that the language of this section does not address awarding funds at an amount less than a student's need, and suggested that the regulations or policy documents should clearly permit schools to distribute funds among eligible students at amounts less than each student's full need, to allow a greater number of students to share in these grant funds. In response to these comments, the Department notes that it intended for this provision to clearly prohibit overawards and to allow each school the flexibility to distribute funds in a way that is most beneficial to its students. Therefore, the Department has revised this provision to incorporate both of these suggestions.

*Section 57.2909 What other records, audit, and inspection requirements apply to schools?*

Five respondents opposed proposed § 57.2909, which would establish school requirements regarding records, audit, and inspection for the FADHPS program. These respondents noted that few schools, if any, require a separate application form from students for each program of aid they are seeking, but rather use comprehensive applications that gather the data needed to award all forms of aid administered by the school. As a result, schools would not have a record of students who applied for aid from this program specifically. However, it was considered appropriate for schools to maintain detailed records for each recipient of FADHPS funds, including the need analysis and determination of the recipient's resources, the student budget, other sources of aid, and the amount of funds awarded to each recipient. Also, there was support for requiring that each school maintain up-to-date records of its applications for funding.

In response to these comments, the Department has revised this provision to delete the requirement to maintain a record of all applicants for the FADHPS program, and to add requirements that the school must maintain the following: (1) Documentation of the student budget and other sources of aid for each recipient of FADHPS funds, and (2) each institutional application for funding, including documentation to support the number of eligible students listed on each application.

It was also suggested that, with the increased utilization of computer support systems for financial aid administration, the Department should clarify that school records may be maintained in computer, electronic, microfiche, microfilm, or paper form. The Department has amended this provision accordingly.

The Department has also included a paragraph (c) in this section to state that institutional officials who have information which indicates the potential or actual commission of fraud or other offenses against the United States, involving these funds, should promptly provide this information to the appropriate Regional Office of Inspector General for Investigations. This language is being added to clarify the role of the HHS Office of Inspector General in investigating actual or suspected acts of fraud, as well as to inform individuals who are party to financial transactions involving these funds of their responsibility to report information regarding such acts to the appropriate Regional Inspector General for Investigations.

*Section 57.2910 Additional conditions.*

Six respondents opposed proposed § 57.2910, which would permit the Secretary to impose additional conditions if he or she determines that these conditions are necessary to assure or protect the advancement of the approved activity, the interest of the public health, or the conservation of grant funds. These respondents were concerned that this language is very broad and would appear to allow the Secretary to make any changes in the program without the benefit of a public comment period, contrary to the intent of the Administrative Procedures Act.

In response to these comments, the Department clarifies that this provision permits the Secretary to establish conditions specific to a particular grantee to be placed in the grant award document as a condition for the receipt of funds. The provision does not address substantive rules of general applicability, and thus is not subject to

the Administrative Procedures Act. Accordingly, the Department has retained this provision as proposed.

**Regulatory Flexibility Act and Executive Order 12291**

The Department believes that the resources required to implement the requirements in these regulations are minimal in comparison to the overall resources of health professions schools. Therefore, in accordance with the requirements of the Regulatory Flexibility Act of 1980, the Secretary certifies that these regulations will not have a significant impact on a substantial number of health professions schools.

The Department has also determined that this rule is not a major rule under Executive Order 12291; therefore, a regulatory impact analysis is not required. In addition, the rule will not exceed the threshold level of $100 million established in section (b) of Executive Order 12291.

**Paperwork Reduction Act**

Sections 57.2904 and 57.2909 of these regulations contain information collection requirements which have been approved by the Office of Management and Budget under section 3507 of the Paperwork Reduction Act of 1980 and assigned control number 0915–0110.

**List of Subjects in 42 CFR Part 57**

Dental health, Education of disadvantaged, Educational facilities, Educational study programs, Emergency medical services, Grant programs-education, Grant programs-health, Health facilities, Health professions, Loan programs-health, Medical and dental schools, Scholarships and fellowships, Student aid.

Accordingly, 42 CFR Part 57, Subpart DD is revised as set forth below:

(Catalog of Federal Domestic Assistance, No. 13.139, Financial Assistance for Disadvantaged Health Professions Students)

Dated: March 9, 1987.

Robert E. Windom,

*Assistant Secretary for Health.*

Approved: April 30, 1987.

Otis R. Bowen,

*Secretary.*

## PART 57—GRANTS FOR CONSTRUCTION OF TEACHING FACILITIES, EDUCATIONAL IMPROVEMENTS, SCHOLARSHIPS, AND STUDENT LOANS

1. 42 CFR Part 57 is amended by removing Subpart DD, entitled "Grants for Training United States Citizen Foreign Medical Students" and adding a new Subpart DD, entitled "Financial Assistance for Disadvantaged Health Professions Students" to read as follows:

**Subpart DD—Financial Assistance for Disadvantaged Health Professions Students**

Sec.

57.2901 To what program do these regulations apply?
57.2902 Definitions.
57.2903 How to apply for a grant.
57.2904 Eligibility and selection of aid recipients.
57.2905 Amount of student award.
57.2906 How is the amount of the grant award determined?
57.2907 For what purposes may grant funds be spent?
57.2908 What additional Department regulations apply to grants?
57.2909 What other records, audit, and inspection requirements apply to schools?
57.2910 Additional conditions.

**Subpart DD—Financial Assistance for Disadvantaged Health Professions Students**

**Authority:** Sec. 215 of the Public Health Service Act, 58 stat. 690, as amended by 63 stat. 35 (42 U.S.C. 216); sec. 787 of the Public Health Service Act, 90 stat. 2309, as amended by 95 stat. 923, 99 stat. 541 (42 U.S.C. 295g–7).

**§ 57.2901 To what program do these regulations apply?**

These regulations apply to grants to eligible schools under section 787(a)(2)(F) and (b) of the Public Health Service Act for financial assistance for disadvantaged health professions students of exceptional financial need.

**§ 57.2902 Definitions.**

"Act" means the Public Health Service Act, as amended.

"Full-time student" means a student enrolled in a school and pursuing a course of study which constitutes a full-time academic workload, as determined by the school, leading to a degree from a school of medicine, school of osteopathic medicine, or school of dentistry, as specified in section 701(4) of the Act.

"National of the United States" means—

(1) A citizen of the United States; or

(2) A person who, though not a citizen of the United States, owes permanent allegiance to the United States, as defined in the Immigration and Nationality Act, at 8 U.S.C. 1101(a)(22).

"School" means a public or private nonprofit school of medicine, osteopathic medicine, or dentistry, as defined in section 701(4) of the Act.

"School year" means the traditional approximately 9-month September to June annual session. For the purpose of computing school year equivalents for students who, during a 12-month period, attend for a longer period than the traditional school year, the school year will be considered to be 9 months in length.

"Secretary" means the Secretary of Health and Human Services and any other officer or employee of the Department to whom the authority involved has been delegated.

"State" means in addition to the several States, only the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.[1]

**§ 57.2903 How to apply for a grant.**

(a) Any school located in a State may apply for a grant. Each school seeking a grant must submit an application at the time and in the form and manner that the Secretary may require. The application must be signed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the statute, the regulations of this subpart, and the terms and conditions of the award.

(b) Each application will be reviewed to determine eligibility and the reasonableness of the amount of Federal support requested. The Secretary may require the applicant to submit additional data for this purpose.

**§ 57.2904 Eligibility and selection of aid recipients.**

(a) *Determination of eligibility.* An individual is eligible for consideration for financial assistance under this program if he or she:

(1) Is a national of the United States, a permanent resident of the Trust Territory of the Pacific Islands[1] or the Commonwealth of the Northern Mariana Islands, or a lawful permanent resident of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, or Guam;

(2) Is enrolled or has been accepted for enrollment as a full-time student at a school;

[1] In light of recent developments regarding the status of the entities that previously comprised the Trust Territory of the Pacific Islands, we are viewing the Republic of Palau, the Republic of the Marshall Islands, and the Federated States of Micronesia each as a State for purposes of this grant program.

(3) Comes from a disadvantaged background. For purposes of this program, an individual from a disadvantaged background is one who—

(i) Comes from an environment that has inhibited the individual from obtaining the knowledge, skills, and abilities required to enroll in and graduate from a school; or

(ii) Comes from a family with an annual income below a level based on low income thresholds according to family size published by the U.S. Bureau of the Census, adjusted annually for changes in the Consumer Price Index, and adjusted by the Secretary for use in all health professions programs. The Secretary will periodically publish these income levels in the Federal Register; and

(4) Has exceptional financial need. For purposes of this program, a student will have exceptional financial need if the school determines that the student's resources, as described in paragraph (b)(1) of this section, do not exceed the lesser of $5,000 or one-half of the cost of attendance at the school. Student summer earnings, educational loans, veterans (G.I.) benefits, and earnings during the school year will not be considered resources for purposes of determining whether a student has exceptional financial need.

(b) *Selection of aid recipients.* The school will select qualified recipients and determine the amount of aid to be awarded to provide its needy students with the maximum possible benefit.

(1) In determining the amount of aid an eligible student needs to pursue a full-time course of study at the school, the school will take into consideration:

(i) The financial resources available to the student by using one of the national need analysis systems or any other procedure approved by the Secretary of Education and published under 34 CFR 674.13 in combination with other information which the school has regarding the student's financial status. The school must take into account, regardless of the tax status of the student, the expected contributions from parents, spouse, self, or (as appropriate) other family members. In making this determination, the school must consider photocopies of the parents', student's, and spouse's Federal income tax forms with original signatures for the most recent tax year (or certification that no Federal income tax return was filed and documentation of the total income for the most recent tax year), and may require tax returns that are certified as having been received by the Internal Revenue Service (IRS); and

(ii) The costs reasonably necessary for the student's attendance at the school. The school must document the criteria used for determining these costs. This documentation must include resource materials used by the school to determine the dollar amount for each category of expenses in its standard student budgets.

(2) The school must select aid recipients in order of greatest need, as determined by the school. The school may consider other scholarship, grant, or fellowship funds that a student has received or will receive for the award period when determining the order of greatest need.

(Approved by the Office of Management and Budget under control number 0915-0112.)

**§ 57.2904 Amount of student award.**

(a) The total award made under this program to any student, plus all other sources of aid the student has received or will receive for the award period, may not exceed the amount the school determines that the student needs to meet the costs of education (i.e., tuition, fees, books, equipment, other expenses required by the school, and reasonable living expenses) for the period covered by the award. The total award made under this program to any student may be less than the amount the school determines that the student needs to meet the costs of education for the period covered by the award.

(b) The total award made under this program to any student for a school year may not exceed $10,000. The maximum amount awarded during a 12-month period to any student enrolled in a school which provides a full-time course of study longer than the traditional 9-month school year may be proportionately increased.

(c) The school must disburse this award to the student in payments based on the student's need during each academic period (e.g. semester, quarter, trimester) of a school year.

**§ 57.2905 How is the amount of the grant award determined?**

(a) The amount of the grant to each eligible school will be the amount requested in its application, except that if the total of the amounts requested for any fiscal year by all schools for these funds exceeds the amount of Federal funds determined by the Secretary at the time of payment to be available for this purpose, the grant to each school will be reduced to whichever is smaller:

(1) The amount requested in the application; or

(2) An amount which bears the same ratio to the total amount of Federal funds determined by the Secretary at the time of grant award to be available for that fiscal year for this program as the number of eligible students at the school bears to the total number of eligible students at all participating schools during that year.

(b) Amounts remaining after the calculation described in paragraph (a) will be distributed in accordance with paragraph (a)(2) of this section among schools whose applications requested more than the amount paid to them, but with whatever adjustments may be necessary to prevent the total grant to any school from exceeding the amount requested by it.

**§ 57.2907 For what purposes may grant funds be spent?**

(a) A school shall only spend funds it receives under this subpart in accordance with the approved application, the authorizing legislation, terms and conditions of the grant award, and these regulations.

(b) The school must discontinue all payments to a recipient in the event that the recipient ceases to be a full-time student at the school, and must remit any unused balance of funds to the Federal Government in the event it is unable to make full use of its grant award during the award period.

**§ 57.2908 What additional Department regulations apply to grants?**

Several other regulations apply to these grants. They include, but are not limited to, the following:

42 CFR Part 50, Subpart D—Public Health Service Grant Appeals Procedure

45 CFR Part 16—Procedures of the Departmental Grant Appeals Board

45 CFR Part 74—Administration of Grants

45 CFR Part 80—Nondiscrimination Under Programs Receiving Federal Assistance Through the Department of Health and Human Services Effectuation of Title VI of the Civil Rights Act of 1964

45 CFR Part 81—Practice and Procedure for Hearings Under Part 80 of This Title

45 CFR Part 83—Regulation for the Administration and Enforcement of Sections 704 and 855 of the Public Health Service Act

45 CFR Part 84—Nondiscrimination on the Basis of Handicap in Programs and Activities Receiving or Benefiting From Federal Financial Assistance

45 CFR Part 86—Nondiscrimination on the Basis of Sex in Education Programs and Activities Receiving or Benefiting From Federal Financial Assistance

45 CFR Part 91—Nondiscrimination on the Basis of Age in HHS Programs or

Activities Receiving Federal Financial Assistance

**§ 57.2909 What other records, audit, and inspection requirements apply to schools?**

(a) Each school must, in addition to the requirements of 45 CFR Part 74, meet the requirements of section 705 of the Act concerning recordkeeping, audit, and inspection.

(b) The school must also maintain the following records in computer, electronic, microfiche, microfilm, or paper form:

(1) A record of all recipients of aid under this program which includes, for each recipient, a copy of the total need analysis and determination of resources, documentation for any changes made to the need analysis report used by the school, documentation that the recipient met the eligibility requirements, a copy of the student budget used to determine the recipient's costs of attendance, and documentation of other sources of aid received by the recipient;

(2) A record of the amount of funds awarded to each recipient; and

(3) A record of each institutional application for funding, including documentation to support the number of eligible students listed on each application and how they met the eligibility criteria.

(c) Institutional officials who have information which indicates the potential or actual commission of fraud or other offenses against the United States, involving these funds, should promptly provide this information to the appropriate Regional Office of Inspector General for Investigations.

(Approved by the Office of Management and Budget under control number 0915–0110.)

**§ 57.2910 Additional conditions.**

The Secretary may impose additional conditions on any grant award before or at the time of an award if he or she determines that these conditions are necessary to assure or protect the advancement of the approved activity, the interest of the public health, or the conservation of grant funds.

Part V

# Department of the Interior

**Office of Surface Mining Reclamation and Enforcement**

**30 CFR Part 870**

**Surface Coal Mining Reclamation Operations; Initial and Permanent Regulatory Programs; Excess Moisture Content Allowance; Reclamation Fees; Proposed Rule**

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 870

Surface Coal Mining Reclamation Operations; Initial and Permanent Regulatory Programs; Excess Moisture Content Allowance; Reclamation Fees

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSMRE) of the United States Department of the Interior (DOI) proposes to amend its regulations governing how the weight of each ton of coal produced is determined for reclamation fee purposes. This action will make the weight determination consistent with the method used for certain other tax purposes. The intended effect of the proposal is to permit a deduction for moisture over and above the inherent moisture content present in coal at the point of sale.

DATES: *Written comments:* OSMRE will accept written comments on the proposed rule until 5:00 p.m. Eastern time on July 27, 1987.

*Public Hearings:* Upon request, OSMRE will hold public hearings on the proposed rule in Washington, DC.; Birmingham, Alabama; and Denver, Colorado, at 9:30 a.m. local time. The hearing will be held in Washington, DC. on July 10, 1987; in Birmingham, Alabama, on July 27, 1987; and in Denver, Colorado, on August 3, 1987. Upon request, OSMRE will also hold public hearings in the States of Georgia, Idaho, Massachusetts, Michigan, North Carolina, Oregon, Rhode Island, South Dakota, and Washington at times and on dates to be announced prior to the hearings. OSMRE will accept requests for public hearings until 5:00 p.m. Eastern time on June 17, 1987. Individuals wishing to attend but not testify at any hearing should contact the person identified under "FOR FURTHER INFORMATION CONTACT" beforehand to verify that the hearing will be held.

ADDRESSES: *Written comments:* Hand-deliver to the Office of Surface Mining Reclamation and Enforcement, Administrative Record, Room 5315, 1100 L St., NW., Washington, DC; or mail to the Office of Surface Mining Reclamation and Enforcement, Administrative Record, Room 5315–L, 1951 Constitution Avenue, NW., Washington, DC 20240.

*Public Hearings:* Department of the Interior Auditorium, 18th and C Streets, NW., Washington, DC; Birmingham, Alabama address; Brooks Towers, 2nd floor Conference Room, 1020–15th St., Denver, Colorado. The addresses for any hearings scheduled in the States of Georgia, Idaho, Massachusetts, Michigan, North Carolina, Oregon, Rhode Island, South Dakota, and Washington will be announced prior to the hearings.

*Request for public hearings:* Submit requests orally or in writing to the person and address specified under "FOR FURTHER INFORMATION CONTACT".

FOR FURTHER INFORMATION CONTACT: Jane Robinson, Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior, 1951 Constitution Avenue, NW., Washington, DC 20240; Telephone 202–343–2853 (Commercial or FTS).

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures
II. Background and Discussion of Proposed Rules
III. Procedural Matters

## I. Public Comment Procedures

### *Written Comments*

Written comments submitted on the proposed rule should be specific, should be confined to issues pertinent to the proposed rule, and should explain the reason for any recommended change. Where practicable, commenters should submit three copies of their comments (see "ADDRESSES"). Comments received after the close of the comment period or delivered to addresses other than those listed above (see "DATES") may not be considered or included in the Administrative Record for the final rule.

### *Public Hearings*

OSMRE will hold public hearings on the proposed rule or request only. The times, dates and addresses scheduled for the hearings are specified previously in this notice (see "DATES" and "ADDRESSES"). The times, dates and addresses for hearings at other locations have not yet been scheduled, but will be announced in the Federal Register at least 7 days prior to any hearings which are held at other locations.

Any person interested in participating at a hearing at a particular location should inform Ms. Robinson (see "FOR FURTHER INFORMATION CONTACT") either orally or in writing of the desired hearing location by 5:00 p.m. Eastern time June 17, 1987. If no one has contacted Ms. Robinson to express an interest in participating in a hearing at a given location by that date, the hearing will not be held. If only one person expresses an interest, a public meeting rather than a hearing may be held and the results will be included in the Administrative Record.

If a hearing is held, it will continue until all persons wishing to testify have been heard. To assist the transcriber and ensure an accurate record, OSMRE requests that persons who testify at a hearing give the transcriber a copy of their testimony. To assist OSMRE in preparing appropriate questions, OSMRE also requests that persons who plan to testify submit to OSMRE at the address previously specified for the submission of written comments (see "ADDRESSES") an advance copy of their testimony.

## II. Background and Discussion of Proposed Rule

Title IV of the Surface Mining Control and Reclamation Act of 1977, 30 U.S.C. 1231–43, (the Act) provides for the collection of a fee from coal mining operators on each ton of "coal produced." The funds are to be used for the reclamation of lands mined and abandoned or left in an inadequate reclamation status before the effective date of the Act, August 3, 1977. Neither the Act, nor the legislative history, explicitly define the term "coal produced" or indicate the congressional intent as to how that term should be implemented. See *Drummond Coal Company v. Hodel*, 796 F.2d 503 (D.C. Cir. 1986), *cert. denied*, ——— *U.S.* ——— *[1987]*.

OSMRE first promulgated regulations governing reclamation fee collections on December 13, 1977, at 30 CFR 837.12 (42 FR 62713). Those regulations were later renumbered as Part 870 without any editorial changes. On June 30, 1982, OSMRE promulgated regulatory language "to clarify the point in time of fee determination, as well as the value and weight parameters for calculating reclamation fees." (47 FR 28577). This regulation assesses the abandoned minelands (AML) fee "by the weight or value at the time of the initial bona fide sale, transfer of ownership or use by the operator." The weight of the coal taxed includes "impurities, including water, that *have not* been removed prior to the initial bona fide sale, transfer of ownership or use by the operator." Therefore, pursuant to the rule, the fee is collected on the gross weight of all materials, including moisture, extracted with the coal by the process of mining, which are not removed prior to the first disposition of the coal. In addition, any moisture absorbed by the coal after severance, which is not removed prior to

the first disposition, is also included in the gross weight.

Since Congress did not determine the point in time at which the reclamation fee should be assessed or what the weight of the coal should include, the Secretary, in adopting the regulations, had discretion to consider a number of options for determining fee liability. OSMRE considered the range of options and adopted an approach that was relatively easy to administer, could be consistently applied throughout the Field Offices, and was designed to collect the maximum amount of reclamation fees. The U.S. Court of Appeals for the District of Columbia Circuit in the *Drummond* case determined that OSMRE's approach was not inconsistent with the language of the Act or the legislative history, and its adoption, therefore, was not arbitrary and capricious. The Supreme Court declined, without explanation, to review that holding.

However, an inconsistency in the methods of determining coal weight under various Federal taxation requirements now exists. Under Internal Revenue Service Revenue Ruling 86–86, operators can reduce their Black Lung tax liability by taking a deduction based on the weight of excess moisture content of the coal. At the same time, operators are required to include that same amount when determining their AML fee liability. Since this situation is different from the one that existed prior to 1982, where only one State's taxation method differed from the AML method, OSMRE has decided to reconsider the issue of including the weight of moisture absorbed after the coal's severance from the seam in the assessment of the AML fee. Accordingly, OSMRE is proposing this change to the regulations. If adopted, a final rule would apply prospectively to coal produced after the effective date of the final rule.

Section 870.5 would be amended to include a definition of excess moisture. Excess moisture would be defined to mean moisture found with the coal at the point of first disposition that was not part of the coal as removed from the seam. Moisture found with the coal as removed from the seam is defined as inherent moisture.

Section 870.12(i) would be amended by deleting the phrase "including water" and adding the phrase "including excess moisture for which a reduction is not taken pursuant to paragraph (B) of this section" and renumbering it as § 870.12(i)(A). This provision clarifies that excess moisture will be included in the weight of the coal for determining AML fee liability unless the operator has made the reduction pursuant to the proposed § 870.12(i)(B).

Section 870.12(i)(B) is added. This subparagraph provides that, to take the reduction in fees for the weight of the moisture, an operator must: (1) Establish the amount of reduction, i.e., the percentage of excess moisture, by standardized laboratory testing; (2) retain the results of the testing for a period of six years and (3) update the laboratory test results annually. A standardized test such as the American Society for Testing and Materials (ASTM) Standard Test Method for Total Moisture in Coal, D3302–74, would be acceptable.

OSMRE is particularly interested in comments on the adequacy of procedures for testing the moisture content of coal and ways to ensure the accuracy of excess moisture measurements. OSMRE is also interested in comments on the specific economic hardships imposed by the present rule and the degree to which the proposal would alleviate such impacts. In connection with the impacts on individual operators, OSMRE seeks comments concerning the likely impact of the proposal on the coal industry and information on changes occurring in the industry since 1982. OSMRE solicits comments on whether or not a user fee should be imposed upon operators who take a deduction for excess moisture. OSMRE also seeks comments on the regional application of the present rule and whether the proposed rule would more equitably deal with regional differences in climate, business practices or other factors.

## III. Procedural Matters

### *Federal Paperwork Reduction Act*

The recordkeeping requirements in the proposed rule have been submitted to the Office of Management and Budget in accordance with 44 U.S.C. 3501 *et seq.* The recordkeeping is necessary to meet the requirements of section 402 of Pub. L. 95–87, and would be used by OSMRE to fulfill its statutory mission to collect reclamation fees.

### *Executive Order 12291*

The DOI has examined the proposed rule according to the criteria of Executive Order 12291 (February 17, 1981) and has determined that it is not a major rule and does not require a regulatory impact analysis. This determination is based in part on the conclusion that the regulatory revisions and additions proposed by this rule do not increase the regulatory burden of those who pay reclamation fees, and as a result, the rulemaking will provide an equitable economic benefit to the fee payer. Therefore, the rule should not add appreciably to the cost of operating a mine in compliance with a regulatory program.

### *Regulatory Flexibility Act*

The DOI has determined, pursuant to the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, that the proposed rule will not have a significant economic impact on a substantial number of small entities for the same reasons discussed in the preceding paragraph.

### *National Environmental Policy Act*

OSMRE has prepared a draft environmental assessment (EA) and has made an interim finding that the proposed rule would not significantly affect the quality of the human environment under section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4332(2)(C). It is anticipated that a finding of no significant impact will be approved for the final rule in accordance with OSMRE procedures under NEPA. The EA is on file in the OSMRE Administrative Record at the address listed in the "ADDRESSES" section of the preamble. An EA will be completed on the final rule and a conclusion reached on the significance of any resulting impacts before promulgation of the final rule.

### *Author*

The principal author of this rule is Jane Robinson, Division of Compliance Management, Office of Surface Mining Reclamation and Enforcement, 1951 Constitution Avenue, NW., Washington, DC 20240; Telephone: 202–343–2853 (Commercial or FTS).

### List of Subjects in 30 CFR Part 870

Reporting and recordkeeping requirements; Surface mining, Underground mining.

Accordingly, it is proposed to amend 30 CFR Part 870 as set forth below:

Dated: May 1, 1987.

J. Steven Griles,

*Assistant Secretary—Land and Minerals Management.*

## PART 870—ABANDONED MINE LAND RECLAMATION FUND—FEE COLLECTION AND COAL PRODUCTION REPORTING

1. The authority citation for Part 870 continues to read as follows:

Authority: Secs. 201, 402 and 412, Pub. L. 95–87, 30 U.S.C. 1211, 1232 and 1242.

2. Section 870.5 is amended by adding the following definition of "excess

moisture" at the appropriate point in the alphabetized list of definitions:

§ 870.5 Definitions.

* * * * *

*Excess moisture* means non-inherent water accumulated in the coal after extraction. Inherent water is natural bed moisture contained in the coal.

* * * * *

3. Section 870.12(b)(3)(i) is revised to read as follows:

§ 870.12 Reclamation fee.

* * * * *

(b) * * *

(3) * * *

(i)(A) Impurities, including excess moisture for which a reduction is not taken pursuant to paragraph (B) of this section, that *have not* been removed prior to the time of initial bona fide sale, transfer of ownership, or use by the operator *shall not* be deducted from the gross weight.

(B) The operator may take a calculated weight reduction to allow for the weight of excess moisture in the coal, if the operator retains records of a standardized laboratory analysis used to establish the amount of the excess moisture. Such analysis is to be performed by a certified testing laboratory acceptable to the Office. Laboratory analyses are to be retained for a period of six years from the date of such analysis. To verify the reduction taken, documentation of the laboratory analysis shall be updated on an annual basis.

## The President

### Memorandum of May 14, 1987

### Determination Under Section 301 of the Trade Act of 1974

**Memorandum for the United States Trade Representative**

Pursuant to Section 301 of the Trade Act of 1974, as amended (19 U.S.C. 2411), I have determined that suspending our investigation under Section 301 is an appropriate and feasible action in response to the decision by the Government of Argentina to eliminate export taxes on soybeans and soybean products. The United States Trade Representative initiated this investigation of Argentina's system of differential export taxes on soybeans and soybean products on April 25, 1986, in response to a petition filed by the National Soybean Processors Association on April 4, 1986.

I direct you as the United States Trade Representative to notify the Government of Argentina of my determination and to take any actions necessary to implement and monitor it. I also direct that the Section 301 proceeding be suspended temporarily until the Government of Argentina fully implements its decision, at which time I direct you to terminate the proceeding.

*Reasons for Determination*

In its petition, the National Soybean Processors Association alleged that Argentina's differential export tax system had caused an increase in exports of Argentine soybean meal and oil to third countries and a decrease in U.S. exports of these products. Currently, the Government of Argentina imposes a 15 percent export tax on soybeans, but only a 3 percent tax on soybean meal and oil.

Recently the Government of Argentina informed the United States Trade Representative that it had decided to eliminate the export taxes on soybeans and soybean products within 180 days. When implemented, this action will eliminate the practice under investigation.

This determination shall be published in the **Federal Register**.

Ronald Reagan

THE WHITE HOUSE,
*Washington, May 14, 1987.*

## LIST OF PUBLIC LAWS

Last List May 15, 1987

This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the Federal Register but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202–275–3030).

S. 1167 / Pub. L. 100–38

Stewart B. McKinney National Wildlife Refuge Designation Act of 1987. (May 13, 1987; 101 Stat. 306; 1 page) Price: $1.00

## CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

New units issued during the week are announced on the back cover of the daily Federal Register as they become available.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $595.00 domestic, $148.75 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, DC 20402. Charge orders (VISA, MasterCard, CHOICE, or GPO Deposit Account) may be telephoned to the GPO order desk at (202) 783-3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

| Title | Price | Revision Date |

[1] Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2] No amendments to this volume were promulgated during the period Apr. 1, 1980 to March 31, 1986. The CFR volume issued as of Apr. 1, 1980, should be retained.

[3] No amendments to this volume were promulgated during the period July 1, 1984 to June 30, 1986. The CFR volume issued as of July 1, 1984, should be retained.

[4] No amendments to this volume were promulgated during the period July 1, 1985 to June 30, 1986. The CFR volume issued as of July 1, 1985 should be retained.

[5] The July 1, 1985 edition of 32 CFR Parts 1–189 contains a note only for Parts 1–39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1–39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[6] The July 1, 1985 edition of 41 CFR Chapters 1–100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

[7] No amendments to this volume were promulgated during the period Oct. 1, 1985 to Sept. 30, 1986. The CFR volume issued as of Oct. 1, 1985 should be retained.

Briefings on How To Use the Federal Register—
For information on briefings in Washington, DC, Chicago, IL, and Boston, MA, see announcement on the inside cover of this issue.

BEST COPY AVAILABLE

**FEDERAL REGISTER** Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers for $340.00 per year, or $170.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

**How To Cite This Publication:** Use the volume number and the page number. Example: 52 FR 12345.

## THE FEDERAL REGISTER

## WHAT IT IS AND HOW TO USE IT

**FOR:** Any person who uses the Federal Register and Code of Federal Regulations.

**WHO:** The Office of the Federal Register.

**WHAT:** Free public briefings (approximately 2 1/2 hours) to present:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

**WHY:** To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

### WASHINGTON, DC

**WHEN:** June 9, at 9 a.m.
**WHERE:** Office of the Federal Register,
First Floor Conference Room,
1100 L Street NW., Washington, DC.
**RESERVATIONS:** Gertrude E. Belton, 202-523-5237

### CHICAGO, IL

**WHEN:** July 8, at 9 a.m.
**WHERE:** Room 204A,
Everett McKinley Dirksen Federal Building,
219 S. Dearborn Street,
Chicago, IL.
**RESERVATIONS:** Call the Chicago Federal Information Center, 312-353-0339.

### BOSTON, MA

**WHEN:** July 15, at 9 a.m.
**WHERE:** Main Auditorium, Federal Building,
10 Causeway Street,
Boston, MA.
**RESERVATIONS:** Call the Boston Federal Information Center, 617-565-8129

# Rules and Regulations

Federal Register
Vol. 52, No. 96
Tuesday, May 19, 1987

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

## DEPARTMENT OF AGRICULTURE

### Office of the Secretary

### 7 CFR Part 2

### Revision of Delegations of Authority; Assistant Secretary et al.

**AGENCY:** Office of the Secretary, USDA.

**ACTION:** Final rule.

**SUMMARY:** This document amends the delegations of authority from the Secretary of Agriculture and General Officers of the Department to reflect the transfer of responsibility for physical security functions from the Inspector General to the Assistant Secretary for Administration and the Director, Office of Operations.

**EFFECTIVE DATE:** May 19, 1987.

**FOR FURTHER INFORMATION CONTACT:** Charles A. Bucy, Deputy Director, Office of Operations, U.S. Department of Agriculture, Washington, DC (202) 447-2582.

**SUPPLEMENTARY INFORMATION:** The delegations of authority of the Department of Agriculture are amended to reflect the transfer of responsibility for the physical security functions for the Department of Agriculture from the Inspector General to the Assistant Secretary for Administration and the Director, Office of Operations.

The Assistant Secretary for Administration and the Director, Office of Operations, have responsibility for real property and space management in the Department. This transfer will strengthen the effectiveness and coordination of the physical security functions.

This rule relates to internal agency management. Therefore, pursuant to 5 U.S.C. 553, notice of proposed rulemaking and opportunity for comment are not required, and this rule may be made effective less than 30 days after publication in the Federal Register.

Further, since this rule relates to internal management, it is exempt from the provisions of Executive Order 12291.

Finally, this action is not a rule as defined by the Regulatory Flexibility Act and, thus, is exempt from the provisions of that Act.

### List of Subjects in 7 CFR Part 2

Authority delegations (Government agencies).

### PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Accordingly, Part 2, Title 7, Code of Federal Regulations is amended as follows:

1. The authority citation for Part 2 continues to read as follows:

**Authority:** 5 U.S.C. 301 and Reorganization Plan No. 2 of 1953, except as otherwise noted.

### Subpart C—Delegations of Authority to the Deputy Secretary, the Under Secretary for International Affairs and Commodity Programs, the Under Secretary for Small Community and Rural Development, and Assistant Secretaries

2. Section 2.25 is amended by adding a new paragraph (c)(9) as follows:

**§ 2.25 Delegations of authority to the Assistant Secretary for Administration.**

* * * * *

(c) * * *

(9) Promulgate Departmental policies, standards, techniques, and procedures and represent the Department in maintaining the security of physical facilities, self-protection, and warden services.

* * * * *

3. Section 2.33 is amended by removing and reserving paragraph (c) as follows:

**§ 2.33 Delegations of authority to the Inspector General.**

* * * * *

(c) [Reserved]

* * * * *

### Subpart J—Delegations of Authority by the Assistant Secretary for Administration

4. Section 2.76 is amended by adding a new paragraph (a)(11) to read as follows:

**§ 2.76 Director, Office of Operations.**

(a) *Delegations.* * * *

(11) Promulgate Departmental policies, standards, techniques, and procedures and represent the Department in maintaining the security of physical facilities, self-protection, and warden services.

Dated: May 11, 1987.

For Subpart C.

Peter C. Myers,

*Acting Secretary of Agriculture.*

Dated: May 11, 1987.

For Subpart J.

John J. Franke, Jr.,

*Assistant Secretary for Administration.*

BILLING CODE 3410-01-M

## Animal and Plant Health Inspection Service

### 9 CFR Part 78

**[Docket No. 86-115]**

### Validated Brucellosis-Free States

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Interim rule.

**SUMMARY:** We are amending the regulations concerning the interstate movement of swine because of brucellosis by changing the program status of Connecticut, New Jersey, New York, and Ohio to validated brucellosis-free States. This action is necessary because we have determined that Connecticut, New Jersey, New York, and Ohio meet the criteria for validated brucellosis-free States. The effect of this action is to relieve certain restrictions on moving breeding swine from these States.

**DATES:** Interim rule effective May 19, 1987. All comments must be postmarked on or before July 20, 1987.

**ADDRESSES:** Send written comments to Steven B. Farbman, Assistant Director, Regulatory Coordination, APHIS, USDA, Room 728, Federal Building, 6505

Belcrest Road, Hyattsville MD 20782. Please state that your comments refer to Docket Number 86–115. Comments received may be inspected at Room 728 of the Federal Building between 8 a.m. and 4:30 p.m. Monday through Friday, except holidays.

**FOR FURTHER INFORMATION CONTACT:**
Dr. Mitchell A. Essey, Program Planning Staff, VS, APHIS, USDA, Room 844, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301–436–5961.

**SUPPLEMENTARY INFORMATION:**

**Background**

Brucellosis is a serious, infectious, and contagious disease which affects animals and man and is caused by bacteria of the genus *Brucella*.

Title 9 of the Code of Federal Regulations Part 78 (referred to below as the regulations), regulates the interstate movement of cattle, bison, and swine with respect to brucellosis. States, areas, herds, and individual animals are classified according to brucellosis status, and interstate movement requirements for animals are based upon the disease status of the herd, area, or State from which the animal originates.

Section 78.43 of the regulations, which lists validated brucellosis-free States, is amended by changing the swine brucellosis program status of Connecticut, New Jersey, New York, and Ohio to validated brucellosis-free States. After reviewing their brucellosis program records, we have concluded that these States meet the criteria for validated brucellosis-free States. Therefore, we are adding Connecticut, New Jersey, New York, and Ohio to the list of States in § 78.43. The effect of this action is to relieve certain restrictions on moving breeding swine from these States.

**Emergency Action**

Dr. John K. Atwell, Deputy Administrator of the Animal and Plant Health Inspection Service for Veterinary Services, has determined that an emergency situation exists, which warrants publication of this interim rule without prior opportunity for public comment. It is necessary to make this interim rule effective immediately to accurately reflect the current brucellosis status of Connecticut, New Jersey, New York, and Ohio.

For this reason, we find that pursuant to the administrative procedure provisions in 5 U.S.C. 533, prior notice and other public procedures with respect to this interim rule are impracticable and contrary to the public interest; and good cause is found for making this interim rule effective less than 30 days after publication of this document in the Federal Register. We are requiring that comments concerning this interim rule be submitted within 60 days of its publication. We will discuss comments received and any amendments required in a final rule that will be published in the Federal Register.

**Executive Order 12291 and Regulatory Flexibility Act**

We are issuing this rule in conformance with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this rule will have an effect on the economy of less than $100 million; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; and will not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United-States based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this action, the Office of Management and Budget has waived its review process required by Executive Order 12291.

This action will allow breeding swine to move interstate from these States without testing for brucellosis. The groups affected by this action will be herd owners in Connecticut, New Jersey, New York, and Ohio, and the effect will be beneficial because restrictions are being relieved. This action will have no effect on the market swine identification programs in these States.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant adverse economic impact on a substantial number of small entities.

**Executive Order 12372**

This program/activity is listed in the Catalog of Federal Domestic Assistance under 10.025 and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR Part 3015, Subpart V.)

**Paperwork Reduction Act**

This rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

**List of Subjects in 9 CFR Part 78**

Animal diseases, Brucellosis, Cattle, Hogs, Quarantine, Transportation.

**PART 78—BRUCELLOSIS**

Accordingly, 9 CFR Part 78 is amended as follows:

1. The authority citation for Part 78 continues to read as follows:

**Authority:** 21 U.S.C. 111–114a–1, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 7 CFR 2.17, 2.51, and 371.2(d).

2. Section 78.43 is revised as follows:

**§ 78.43 Validated brucellosis-free States.**

Alaska, Arizona, California, Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Iowa, Maine, Maryland, Minnesota, Montana, Nebraska, Nevada, New Jersey, New York, New Hampshire, North Dakota, Ohio, Pennsylvania, Puerto Rico, Rhode Island, South Dakota, Utah, Vermont, Virgin Islands, Virginia, Washington, Wisconsin, Wyoming.

Done in Washington, DC, this 13th day of May, 1987.

**J.K. Atwell,**

*Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.*

**DEPARTMENT OF TRANSPORTATION**

**Federal Aviation Administration**

**14 CFR Parts 91 and 135**

**[Docket No. 25149; SFAR No. 50]**

**Special Flight Rules in the Vicinity of Grand Canyon National Park**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule; correction.

**SUMMARY:** The Grand Canyon National Park Special Flight Rules Area was established by a final rule published in the Federal Register on March 26, 1987, (52 FR 9784). The rule takes effect on April 27, 1987. This action makes a correction to the description of boundaries which define the Special Flight Rules Area.

**EFFECTIVE DATE:** 0001 UTC April 27, 1987.

**FOR FURTHER INFORMATION CONTACT:**
David L. Bennett, Office of the Chief Counsel AGC–230, Federal Aviation Administration, 800 Independence

Avenue SW., Washington, DC, 20591; telephone: (202) 267–3491.

SUPPLEMENTARY INFORMATION:

History

FAA Special Federal Aviation Regulation (SFAR) No. 50, published as Federal Register Document No. 87–6647 on March 26, 1987, (52 FR 9768) established rules governing flight within a special flight rules area in the vicinity of the Grand Canyon National Park. The description of the boundaries of the Grand Canyon Special Flight Rules Area contained an error which is corrected by this action.

[Docket No. 25149; SFAR No. 50]

Accordingly, Federal Register Document 87–6647, as published in the Federal Register on March 26, 1987, (52 FR 9768) is corrected as follows. The last paragraph on column 1 of page 9775, containing the description of the boundaries of the Grand Canyon National Park Special Flight Rules Area, is corrected to read:

That airspace extending upward from the surface to and including 9,000 feet MSL within an area bounded by a line beginning at lat. 36°09'30" N., long. 114°03'00" W.; northeast to lat. 36°14'00" N., long. 113°12'00" W.; to lat. 36°30'00" N., long. 112°36'00" W.; to lat. 36°30'00" N., long. 111°42'00" W.; to lat. 35°59'30" N., long. 111°42'00" W.; to lat. 35°57'30" N., long. 112°03'20" W.; thence counterclockwise via the 5-statute-mile radius of the Grand Canyon Airport reference point (lat. 35°57'09" N., long. 112°08'47" W.); to lat. 35°57'30" N., long. 112°14'00" W.; to lat. 35°58'00" N., long. 113°11'00" W.; to lat. 35°42'30" N., long. 113°11'00" W.; to lat. 35°38'50" N., long. 113°27'00" W.; thence counterclockwise via the 5-statute-mile radius of the Peach Springs VORTAC to lat. 35°41'20" N., long. 113°36'00" W.; thence to the point of beginning.

Issued in Washington, DC, on May 12, 1987.

Donald D. Engen,

*Administrator.*

BILLING CODE 4910–13–M

## SECURITIES AND EXCHANGE COMMISSION

### 17 CFR Part 200

[Release No. IC–15737]

### Delegation of Authority to Director of Division of Investment Management

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Commission is amending its rules relating to general organization and program management. The amendment will give delegated authority to the Director of the Division of Investment Management to issue a notice of the filing of an application for a temporary or permanent exemptive order from the prohibition against serving or acting in specified capacities with respect to registered investment companies where the Director has temporarily granted such an exemption for a period of up to 60 days. This amendment supplements the delegated authority granted to the Director by the Commission on January 15, 1987, and should facilitate prompt and careful review of such applications for exemption.

EFFECTIVE DATE: May 19, 1987.

FOR FURTHER INFORMATION CONTACT: Curtis R. Hilliard, Special Counsel, Office of Investment Company Regulation, Division of Investment Management, Securities and Exchange Commission, Mail Stop 5–2, 450 Fifth Street NW., Washington, DC 20549, (202) 272–3018.

SUPPLEMENTARY INFORMATION: On January 15, 1987, the Commission granted the Director of the Division of Investment Management ("Division Director") delegated authority to exempt temporarily persons from the prohibitions contained in section 9(a) [15 U.S.C. 80a–9(a) (1982)] of the Investment Company Act of 1940 ("Act") [15 U.S.C. 80a–1 *et seq.* (1982)] for up to 60 days.[1] Under that delegated authority the Division Director may grant a 60 day temporary exemption if it appears that: (i)(a) The prohibitions of section 9(a), as applied to the applicant, may be unduly or disproportionately severe, or (b) the applicant's conduct has been such as not to make it against the public interest or the protection of investors to grant the temporary exemption; and (ii) granting the temporary exemption would protect the interests of the investment companies being served by the applicant by allowing time for the orderly consideraton of the application for permanent relief or the orderly transition of the applicant's responsibilities to a successor, or both.[2] The delegated authority will allow the Commission's staff to respond promptly to emergency situations which may result from imposition of the section 9(a) bar.

Historically, where the Commission has granted temporary relief from the section 9(a) bar, it has also given notice of filing of an application for temporary or permanent relief from section 9(a) in the same release granting the temporary relief.[3] In order to continue that procedure, the Commission has determined to give the Division Director additional authority to issue notices of filing of section 9(c) applications where the Director has granted a temporary exemption from the section 9(a) bar for up to 60 days. This will allow publication of the required public notice in the same release that announces the temporary exemption. This revised delegation will *not* permit the staff to extend a temporary exemption beyond 60 days, or to take final action on the application. Any further action on the application must be taken by the Commission.

---

[1] Section 9(a) provides (the italicized language was added by the Government Securities Act of 1986, Pub. L. 99–571, and is effective July 25, 1987):

It shall be unlawful for any of the following persons to serve or act in the capacity of employee, officer, director, member of an advisory board, investment adviser, or depositor of any registered investment company, or principal underwriter for any registered open-end company, registered unit investment trust, or registered face amount certificate company.

(1) Any person who within 10 years has been convicted of any felony or misdemeanor involving the purchase or sale of any security or arising out of such person's conduct as an underwriter, broker, dealer, investment adviser, *municipal securities dealer, government securities broker, government securities dealer, or entity or person required to be registered under the Commodity Exchange Act,* or as an affiliated person, salesman, or employee of any investment company, bank, insurance company, *or entitiy or person required to be registered under the Commodity Exchange Act;*

(2) Any person who, by reason of misconduct, is permanently or temporarily enjoined by order, judgment, or decree of any court of competent jurisdiction from acting as an underwriter, broker, dealer, investment adviser, *municipal securities dealer, government securities broker, government securities dealer, or entity or person required to be registered under the Commodity Exchange Act,* or as an affiliated person, salesman, or employee of any investment company, bank, insurance company, *or entity or person required to be registered under the Commodity Exchange Act,* or from engaging in or continuing any conduct or practice in connection with any such activity or in connection with the purchase or sale of any security; or

(3) A company any affiliated person of which is ineligible, by reason of paragraph (1) or (2), to serve or act in the foregoing capacities.

For the purposes of paragraphs (1), (2), and (3) of the subsection, the term "investment adviser" shall include an investment adviser as defined in [the Investment Advisers Act of 1940].

[2] *See* Investment Company Act Release No. 15539 (January 15, 1987), which summarizes the process by which applications filed under section 9(c) of the Act for exemptions from the prohibitions of section 9(a) are reviewed by the staff and the Commission.

[3] Section 40 of the Act [15 U.S.C. 80a–41 (1982)] requires that the Commission give "appropriate" notice and opportunity to request a hearing before issuing any orders under the Act. The only orders issued under the Act without prior notice and opportunity for hearing being given are emergency temporary orders, when warranted by the circumstances, which must be issued immediately in order to resolve a problem suddenly facing an investment company under one or more of the regulatory provisions of the Act. *See, e.g.*, American Birthright Trust, Investment Company Act Release No. 11644 (February 24, 1981).

The Commission finds, in accordance with section 553(b)(A) of the Administrative Procedure Act [15 U.S.C. 553(b)(A)], that this amendment relates solely to agency organization, procedure, or practice and does not relate to a substantive rule. Accordingly, notice and opportunity for public comment are unnecessary, and publication of the amendment 30 days before its effective date is not needed.

**List of Subjects in 17 CFR Part 200**

Administrative practice and procedure, Freedom of information, Privacy, Securities.

**Text of Amendment**

The Commission hereby amends Title 17, Chapter II of Code of Federal Regulations as follows:

## PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

1. The authority citation for Part 200 continues to read as follows: (Authority citations before * * * indicate general rulemaking authority).

Authority: Secs. 19, 23, 48, Stat. 85, 901, as amended, sec. 20, 49 Stat. 833, sec. 319, 53 Stat. 1173, sec. 38, 211, 54 Stat. 841, 855; 15 U.S.C. 77s, 78w, 79t, 77sss, 8a–37, 80b–11, unless otherwise noted. * * * § 200.30–5 is also issued under Pub. L. 91–567, 84 Stat. 1497 (15 U.S.C. 77c(a)(2); Pub. L. 87–592, 76 Stat. 394, as amended by Pub. L. 94–29, 89 Stat. 163 (15 U.S.C. 78d–1, 78d–2); 15 U.S.C. 80a–44, 80b–11(a); secs. 6, 7, 8, 10, 19(a), 48 Stat. 78, 79, 81, 85; secs. 205, 209, 48 Stat. 906, 908; sec. 301, 54 Stat. 857; sec. 8, 68 Stat. 685; sec. 308(a)(2), 90 Stat. 57; secs. 3(b), 12, 13, 14, 15(d), 23(a), 48 Stat. 882, 892, 894, 895, 901; secs. 203(a), 1, 3, 8, 49 Stat. 704, 1375, 1377, 1379; sec. 202, 68 Stat. 686; secs. 4, 5, 6(d), 78 Stat. 569, 570–574; secs. 1, 2, 3, 82 Stat. 454, 455; secs. 28(c), 1, 2, 3, 4, 5, 84 Stat. 1435, 1497; sec. 105(b), 88 Stat. 1503; secs. 8, 9, 10, 89 Stat. 117, 118, 119; sec. 308(b), 90 Stat. 57; sec. 18, 89 Stat. 155; secs. 202, 203, 204, 91 Stat. 1494, 1498–1500; sec. 20(a), 49 Stat. 833; sec. 319, 53 Stat. 1173; sec. 38, 54 Stat. 841; 15 U.S.C. 77f, 77g, 77h, 77j, 77s(a), 78c(b), 78l, 78m, 78n, 78o(d), 78w(a), 77sss(a), 80a–37; 15 U.S.C. 78d–1, 78d–2.

2. Section 200.30–5 is amended by revising paragraph (a)(8) as follows:

**§ 200.30–5 Delegation of authority to Director of Division of Investment Management.**

* * * * *

(a) * * *

(8) To issue notices, pursuant to Rule 0–5(a) (§ 270.0–5(a) of this chapter) with respect to applications for temporary and permanent orders under section 9(c) of the Investment Company Act of 1940 (15 U.S.C. 80a–9(c)), and to conditionally or unconditionally exempt persons, for a temporary period not exceeding 60 days, from section 9(a) of the Investment Company Act of 1940 (15 U.S.C. 80a–9(a)), if, on the basis of the facts then set forth in the application, it appears that:

(i)(A) The prohibitions of section 9(a), as applied to the applicant, may be unduly or disproportionately severe, or (B) the applicant's conduct has been such as not to make it against the public interest or the protection of investors to grant the temporary exemption; and

(ii) Granting the temporary exemption would protect the interests of the investment companies being served by the applicant by allowing time for the orderly consideration of the application for permanent relief or the orderly transition of the applicant's responsibilities to a successor, or both.

* * * * *

By the Commission.

**Jonathan G. Katz,**

*Secretary.*

May 13, 1987.

BILLING CODE 8010–01–M

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Food and Drug Administration

### 21 CFR Parts 510, 522, and 524

### Animal Drugs, Feeds, and Related Products, Nitrofurazone Ointment

**AGENCY:** Food and Drug Administration.

**ACTION:** Final rule.

**SUMMARY:** The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by Vet Labs Limited, Inc., providing for use of a nitrofurazone ointment (water soluble dressing) for the prevention or treatment of surface bacterial infections on dogs, cats, and horses. The regulations are also amended to reflect Veterinary Laboratories' purchase of Wittney & Co. and its change of sponsor name to Vet Labs Limited, Inc.

**EFFECTIVE DATE:** May 19, 1987.

**FOR FURTHER INFORMATION CONTACT:** Sandra K. Woods, Center for Veterinary Medicine (HFV–114), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3420.

**SUPPLEMENTARY INFORMATION:** Vet Labs Limited, Inc., 12340 Santa Fe Dr., Lenexa, KS 66215, is sponsor of NADA 138–657 which provides for use of a 0.2-percent nitrofurazone ointment (water soluble dressing) for the prevention or treatment of surface bacterial infections of wounds, burns, and cutaneous ulcers of dogs, cats, and horses. The NADA is approved and 21 CFR 510.600(c) is amended to reflect this approval. The basis of this approval is discussed in the freedom of information summary.

Veterinary Laboratories, Inc., informed the agency that it purchased Wittney & Co. of Denver, CO, and changed its name to Vet Labs Limited, Inc. Accordingly, the lists of sponsors of approved NADA's in § 510.600(c) are amended to remove Veterinary Laboratories, Inc., and Wittney & Co. and to add Vet Labs Limited, Inc. Additionally, this final rule removes and adds drug labeler codes in §§ 522.1183(e)(1), 522.1680(b), 524.1580b(b), and 524.1580d(b) to reflect the purchase of Wittney & Co. and the sponsor name change. The NADA's affected are:

| NADA | Product | Ingredient |
|---|---|---|
| 8–142 | Enteritis Formula (swine) | Nitrofurazone. |
| 8–354 | Sodium Arsanilate Tablets (swine). | Sodium arsanilate. |
| 42–889 | Oxytocin Injection (cats, dogs, ewes, sows, cows, horses). | Oxytocin. |
| 121–559 | Nitrofurazone Solution 0.2 percent (dogs, cats, horses). | Nitrofurazone. |
| 136–255 | Iron Hydrogenated Dextran Injection (baby pigs). | Iron dextran. |
| 138–657 | Nitrofurazone Ointment (dogs, cats, horses). | Nitrofurazone. |

This change of sponsor does not involve any changes in current manufacturing facilities, equipment, procedures, or production personnel.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Room 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The agency has determined under 21 CFR 25.24(d)(1)(i) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

**List of Subjects**

*21 CFR Part 510*

Administrative practice and procedure, Animal drugs, Labeling, Reporting and recordkeeping requirements.

*21 CFR Part 522*

Animal drugs.

*21 CFR Part 524*

Animal drugs.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, Parts 510, 522, and 524 are amended as follows:

## PART 510—NEW ANIMAL DRUGS

1. The authority citation for 21 CFR Part 510 continues to read as follows:

**Authority:** Secs. 512, 701(a), 52 Stat. 1055, 82 Stat. 343–351 (21 U.S.C. 360b, 371(a)); 21 CFR 5.10 and 5.83.

2. Section 510.600 is amended in paragraph (c)(1) by removing the entries for "Veterinary Laboratories, Inc." and "Wittney & Co." and alphabetically adding an entry for "Vet Labs Limited, Inc.," and in paragraph (c)(2) by removing the entries for "000857" and "012481" and numerically adding an entry for "054016" to read as follows:

**§ 510.600 Names, addresses, and drug labeler codes of sponsors of approved applications.**

* * * * *

(c) * * *

(1) * * *

| Firm name and address | Drug labeler code |

| * * * * * | |
| Vet Labs Limited, Inc., 12340 Santa Fe Dr., Lenexa, KS 66215 | 054016 |
| * * * * * | |

(2) * * *

| Drug labeler code | Firm name and address |
|---|---|
| * * * * * | |
| 054016 | Vet Labs Limited, Inc., 12340 Santa Fe Dr., Lenexa, KS 66215. |
| * * * * * | |

## PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

3. The authority citation for 21 CFR Part 522 continues to read as follows:

**Authority:** Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)); 21 CFR 5.10 and 5.83.

4. Section 522.1183 is amended by revising paragraph (e)(1) to read as follows:

**§ 522.1183 Iron hydrogenated dextran injection.**

* * * * *

(e)(1) *Sponsors.* See Nos. 015562, 015579, and 054016 in § 510.600(c) of this chapter.

* * * * *

5. Section 522.1680 is amended by revising paragraph (b) to read as follows:

**§ 522.1680 Oxytocin injection.**

* * * * *

(b) *Sponsors.* See Nos. 00010, 000381, 000893, 000856, 000864, 010271, 015562, 015579, 032420, and 054016 in § 510.600(c) of this chapter.

* * * * *

## PART 524—OPHTHALMIC AND TOPICAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

6. The authority citation for 21 CFR Part 524 continues to read as follows:

**Authority:** Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)); 21 CFR 5.10 and 5.83.

**§ 524.1580b [Amended]**

7. Section 524.1580b *Nitrofurazone ointment* is amended in paragraph (b) by removing the "and" before "015579" and adding after the same number", and 054016".

8. Section 524.1580d is amended by revising paragraph (b) to read as follows:

**§ 524.1580d Nitrofurazone solution.**

* * * * *

(b) *Sponsors.* See 015562, 015579, 051259, and 054016 in § 510.600(c) of this chaper for use as in paragraphs (d) (1) and (2) of this section. See 017153 and 053617 in § 510.600(c) of this chapter for use in paragraph (d)(1) of this section.

Dated: April 30, 1987.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 81

**[Region II Docket No. 69; FRL 3283-2]**

### Designation of Areas for Air Quality Planning Purposes; Revisions to Section 107 Attainment Status Designations for the State of New Jersey

**AGENCY:** Environmental Protection Agency.

**ACTION:** Final rule.

**SUMMARY:** This notice announces the Environmental Protection Agency's approval of a request from New Jersey to revise the air quality designation of the City of Bridgeton from "does not meet secondary standards" to "better than national standards" for the particulate matter secondary standard. Such designations are required by section 107(d) of the Clean Air Act. This action means that the air quality of Bridgeton will be designated as better than the particulate matter secondary standard.

**EFFECTIVE DATE:** This action is effective June 18, 1987.

**ADDRESSES:** Copies of the proposals submitted by the State of New Jersey are available for public inspection during normal business hours at the following addresses:

U.S. Environmental Protection Agency, Air Programs Branch, Room 1005, Region II Office, Jacob K. Javits Federal Building, 26 Federal Plaza, New York, New York 10278.

State of New Jersey, Department of Environmental Protection, Division of Environmental Quality, 401 East State Street, CN 027, Trenton, New Jersey 08625.

**FOR FURTHER INFORMATION CONTACT:** Raymond Werner, Acting Chief, Air Programs Branch, U.S. Environmental Protection Agency, Region II Office, Jacob K. Javits Federal Building, 26 Federal Plaza, New York, New York 10278 (212) 264–2517.

**SUPPLEMENTARY INFORMATION:** Section 107(d) of the Clean Air Act directed each State to submit to the Administrator of the Environmental Protection Agency (EPA) a list of national ambient air quality standard attainment status designations for all areas within the State. EPA received such designations from the States and promulgated them on March 3, 1978 (43 FR 8962). As authorized by the Clean Air Act, after EPA review and approval, these designations have been revised from time to time at a State's request.

On October 25, 1985 the New Jersey Department of Environmental Protection (NJDEP) submitted a request to revise the air quality designation for the City of Bridgeton from "does not meet secondary standards" to "better than national standards" for attainment of the particulate matter secondary standards. Additional information clarifying its original request was submitted by NJDEP on February 13, 1986.

In the September 22, 1986 issue of the Federal Register (51 FR 33626) EPA advised the public that, based on its review of the technical material submitted by the State, it was proposing to approve the requested redesignation. The reader is referred to the September 22, 1986 notice for a detailed description of the State's submittal and for a description of EPA's review criteria and findings. No comments were received by EPA during the comment period, which ended on October 22, 1986.

EPA is today approving the redesignation request submitted by the State of New Jersey. The request has been found to meet the requirements of sections 107 and 301 of the Clean Air Act and applicable EPA guidelines.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 20, 1987. This action may not be challenged later in proceedings to enforce its requirements (See section 307(b)(2)).

**List of Subjects in 40 CFR Part 81**

Air pollution control, National Parks, Wilderness areas.

Dated: May 13, 1987.

Lee M. Thomas,

*Administrator, Environmental Protection Agency.*

## PART 81—DESIGNATION OF AREAS FOR AIR QUALITY PLANNING PURPOSES

Title 40 Chapter I, Subchapter C; Part 81, Code of Federal Regulations is amended as follows:

## PART 81—[AMENDED]

**Subpart C—Section 107 Attainment Status Designations**

1. The authority citation for Part 81 continues to read as follows:

**Authority:** 42 U.S.C. 7401–7642.

**§ 81.331 [Amended]**

2. Section 81.331 is amended by revising the entry for the New Jersey Intrastate AQCR in the particulate matter attainment status designation table "New Jersey—TSP" as below:

3. In the § 81.331 "New Jersey—TSP" designation table, the entry for the Northeast Pennsylvania-Upper Delaware Valley Interstate AQCR is reprinted for format purposes only.

NEW JERSEY—TSP

| Designated area | Does not meet primary standards | Does not meet secondary standards | Cannot be classified | Better than national standards |
|---|---|---|---|---|
| New Jersey Intrastate AQCR | | | | X |
| Northeast Pennsylvania-Upper Delaware Valley Interstate AQCR | | | | X |

BILLING CODE 6560-50-M

## FEDERAL MARITIME COMMISSION

**46 CFR Parts 516, 559, and 572**

**[Docket No. 85-10]**

## Marine Terminal Agreements

**AGENCY:** Federal Maritime Commission.

**ACTION:** Final rule.

**SUMMARY:** This exempts marine terminal agreements (other than marine terminal conference, interconference, joint venture and discussion agreements) from the waiting period requirement of the Shipping Act of 1984 and from the approval requirement of the Shipping Act, 1916. The Final Rule establishes a uniform exemption procedure conditioned upon the filing of the agreement and Federal Register publication. The exemptions become effective upon the filing of the agreement with the Federal Maritime Commission.

**EFFECTIVE DATE:** The amendments to Part 559 shall become effective July 20, 1987, or upon the receipt of OMB clearance for the collection of information requirements, whichever is later. OMB approval will be published when received. The amendments to Part 572 shall become effective July 20, 1987.

**FOR FURTHER INFORMATION CONTACT:**

Robert G. Drew, Director, Bureau of Domestic Regulation, Federal Maritime Commission, Washington, DC 20573, (202) 523–5796.

Robert D. Bourgoin, General Counsel, Federal Maritime Commission, Washington, DC 20573, (202) 523–5740.

**SUPPLEMENTARY INFORMATION:** By Notice of Proposed Rulemaking published in the Federal Register on April 5, 1985 (50 FR 13617) pursuant to sections 16 and 17 of the Shipping Act of 1984 (1984 Act), 46 U.S.C. app. 1715 and 1716, and sections 35 and 43 of the Shipping Act, 1916 (1916 Act), 46 U.S.C. app. 833a and 841a, the Commission invited comments on the exemption of certain classes of marine terminal agreements from the filing and/or waiting period requirements of section 5 of the 1984 Act, 46 U.S.C. app. 1705, and from the filing and/or approval requirements of section 15 of the 1916 Act, 46 U.S.C. app. 814.[1] The Proposed Rule implemented then Commissioner Robert Setrakian's recommendations in *Report of Inquiry Officer—Part I* (served September 28, 1984 (49 FR 38087)) in Federal Maritime Commission Docket No. 83–38, *Notice of Inquiry and Intent to Review Regulation of Ports and Marine Terminal Operators.*

The Proposed Rule would have incorporated the exemptions for marine terminal agreements in a new Part 516 of Title 46 of the Code of Federal Regulations. In the interest of maintaining the integrity of the current organizational scheme, the exemptions will now be included in existing Parts 559 and 572 of the Code of Federal Regulations, which currently set forth agreements that are exempt from requirements of the 1916 Act and the 1984 Act, respectively.

Fifteen port, marine terminal operator, trade association and ocean common carrier interests filed comments in response to the Commission's Notice. These are: (1) The Maryland Port Administration (MPA); (2) the Port of Sacramento (Sacramento); (3) the Terminal Operators Conference of Hampton Roads (TOCHR); (4) the Virginia Port Authority and Virginia International Terminals (collectively, VPA); (5) the Port of Houston Authority of Harris County, Texas (Port of Houston); (6) American President Lines, Ltd. (APL); (7) the Port of Oakland (Oakland); (8) Matson Terminals, Inc. (Matson) (9) the Houston Port Bureau, Inc. (Houston Port Bureau); (10) the Tampa Port Authority (Tampa); (11) the American Association of Port Authorities (AAPA); (12) the Port of Seattle (Seattle); (13) Sea-Land Service, Inc. (Sea-Land); (14) the United States Atlantic & Gulf Ports/Italy France & Spain Freight Conference (Conference); and (15) the Jacksonville Port Authority (Jacksonville).

[1] A correction to the Supplementary Information of the Proposed Rule was published in the Federal Register on May 10, 1985 (50 FR 19727).

All of the commenters support at least a partial exemption for marine terminal agreements, other than marine terminal conference and interconference agreements, from the waiting period/approval requirements of the 1984 and 1916 Acts. A majority recommend that all exempt agreements be filed with the Commission for **Federal Register** publication. Some of the commenters favor a pre-effectiveness review procedure while others support the proposal that the exemption become effective immediately upon an agreement's filing. A number of commenters also addressed the Commission's policy concerning agreements that relate back to events or activities that occurred before the agreement became effective or was approved pursuant to the appropriate Shipping Act.[2]

**Discussions.**[3]

After careful consideration of the comments, we are establishing a uniform waiting period/approval exemption procedure for all classes of marine terminal agreements, other than marine terminal conference, interconference, joint venture, and discussion agreements. This procedure requires agreements to be filed and published in the **Federal Register**, with the exemption becoming effective upon the agreement's filing. The Final Rule should serve to reduce regulatory delays to a minimum while preserving the benefits derived from prompt public notice of the existence and content of marine terminal agreements. For the reasons more fully explained below, we have determined that the Final Rule will not substantially impair effective regulation by the Commission, be unjustly discriminatory or detrimental to commerce within the meaning of section 16 of the 1984 Act and section 35 of the 1916 Act; nor result in a substantial reduction in competition within the meaning of section 16 of the 1984 Act.

We have considered all of the comments received in this proceeding and the Supplementary Information discusses some of the more significant issues raised by the comments. Any comments not expressly discussed have either been incorporated as a technical change without discussion, have been found to be mooted by the changes incorporated in the Final Rule, or have been found to be irrelevant or without merit.

*A. Proposed § 516.4 (a) and (e)—"Agreement" and "Marine Terminal Agreement" (now §§ 559.7(a) and 572.307(a))*

Proposed § 516.5(a) defined the term "agreement" for the purposes of the rule. This definition was narrowly drawn to exclude agreement provisions relating back to activity or events that occurred prior to an agreement's execution. Proposed § 516.4(d) defined the term "marine terminal agreement." The Final Rule combines these definitions under the term "marine terminal agreement."

However, because the Final Rule exempts the agreement only upon filing, the term "marine terminal agreement" is defined to only include agreements that apply to "future, prospective activities" that occur after filing. In response to comments filed in this proceeding and consistent with the Commission's action taken this date in Docket No. 85–22, *supra*, the Final Rule deletes specific references to unacceptable types of agreement provisions. It is extremely difficult, if not impossible, to prescribe a rule which addresses the legitimate concerns of the commenters while at the same time providing clear, definitive guidelines covering all potential variant situations. Accordingly, determinations as to retroactivity will continue to be made on an *ad hoc* basis.

Four commenters urge clarification as to the manner in which the exemption should apply to agreement provisions relating to activity or events occurring prior to an agreement's execution. VPA notes that neither the 1916 and 1984 Acts nor the cases interpreting them provide adequate guidance in this area, and states that a number of valid factors in the business environment could result in entirely reasonable circumstances where parties to marine terminal agreements—wholly lacking unlawful intent—might lock in triggering events or dates ultimately predating the agreement's actual effectiveness. APL believes that the Proposed Rule may blur the distinction between agreement provisions which are, on the one hand, prospective in effect, but which quite properly relate back in terms of an accounting or an adjustment period or some other measure of future performance, and, on the other hand, provisions which on their face provide for performance which predates the filing of an agreement. Accordingly, APL recommends revising the proposed definition to exclude agreement provisions that on their face become effective as of a date, or as of an event, or as of any activity, occurring prior to the agreement's execution, rather than categorically excluding all agreement provisions relating back to pre-execution activity or events.

Oakland is encouraged to see a clear statement on the retroactivity issue in the Proposed Rule, stating that it has found some uncertainty concerning the acceptability of pre-execution provisions under the Commission's precedents. AAPA urges the Commission to advise whether preapproval events may properly be included in marine terminal agreements.

The complexity of the retroactivity issue is amply attested to by the comments which have been received in this proceeding and in Docket No. 85–22, *supra*. The Commission limited the exemption provided by the rule proposed in this proceeding to those agreements which relate to prospective events or activities on the grounds that is unlawful to implement an agreement that has not been approved, become effective or exempted from applicable 1916 or 1984 Act requirements. *See* 46 U.S.C. app. 816, 833a, 1704, 1706(a), 1709(a) and 1715. The Commission may not therefore exempt, or otherwise act to grant antitrust immunity to an agreement or the activity that occurred thereunder prior to the agreement being made lawful under the applicable Shipping Act. *Mediterranean Pools Investigation*, 9 F.M.C. 264 (1966). *See also, Carnation v. Pacific Westbound Conference*, 383 U.S. 213 (1966); *Pacific Coast European Conference v. FMC*, 439 F.2d 514 (D.C. Cir. 1970); *River Plate and Brazil Conference v. Pressed Steel Car Co.*, 327 F.2d 60 (2d Cir. 1955). The Final Rule continues the limitation to the exemption conferred and defines the term "marine terminal agreement" in §§ 559.7(a) and 572.307(a) to limit the exemption provided to those arrangements which apply soley to prospective activities or events.

Finally, the Final Rule also clarifies that the definition of "marine terminal agreement" (and therefore any exemption accorded herein to that class of agreement) does not apply to joint venture arrangements among marine terminal operations. Given their significant and possible competitive

---

[2] On December 17, 1986, the Commission published a Notice of Proposed Rulemaking in the Federal Register (50 FR 51418) in Docket No. 86–22, *Agreements by Ocean Common Carriers and Other Persons Subject to the Shipping Act of 1984*. Docket No. 86–22 proposed to add a new paragraph (h) to Part 572 setting forth the Commission's policy with regard to agreement provisions that relate back to events that occurred before the agreement's effectiveness or approval. By separate Notice served this date, the Commission has determined to withdraw the proposed rule and to continue to address retroactive agreement provisions on an *ad hoc* basis.

[3] This discussion addresses those sections of proposed Part 516 that are being retained in the Final Rule. Certain sections, such as proposed § 516.3 "Policy and Scope," are not being retained and will not be addressed herein. It indicates, however, where the retained provisions of Part 516 will appear in Parts 559 and/or 572.

impact, these arrangements will continue to be subject to the filing and approval/waiting period requirements of the 1916 and 1984 Acts.

*B. Proposed § 516.5 (a) and (b)—Marine Terminal Agreements—Exemptions (now §§ 559.7(f) and 572.307(e))*

Proposed § 516.5 (a) and (b) contained the operative provisions exempting certain classes of marine terminal agreements from the filing and/or waiting period requirements of the 1984 Act, or from the filing and/or approval requirements of the 1916 Act, depending on which Act applies to the agreement in question. Two types of exemptions were proposed, which were differentiated on the basis of the likely anticompetitive impacts of the classes of agreement involved. The Supplementary Information to the Proposed Rule also invited comment on an alternative to each type of exemption.

The first alternative was set forth in § 516.5(a) and proposed an exemption from both Acts' filing requirements (hereinafter referred to as the "Paragraph (a) Exemption") for four classes of agreements: (1) Landlord-tenant marine terminal facility leases; (2) agreements relating to marine terminal facilities or services used in connection with the handling of proprietary cargo; (3) agreements relating to the financing or construction of marine terminal facilities; and (4) agreements relating to off-dock container freight station facilities or services (the four classes hereinafter referred to as "Paragraph (a) Agreements").

We also invited comments on a procedure that would exempt Paragraph (a) Agreements from only the waiting period/approval requirements, on condition that they be filed for informational purposes and **Federal Register** publication (hereinafter referred to as the "Paragraph (a) Exemption Alternative"). The exemption provided by the Paragraph (a) Exemption Alternative would become effective upon filing as the Commission did not intend to substantially review these agreements before they were implemented. The Commission proposed this Alternative because of its concern that agreements should generally be made available to the maritime community as a matter of public information.

The second type of exemption, as proposed in § 516.5(b), provided an exemption from the 1984/1916 Acts' waiting period/approval requirements (hereinafter referred to as the "Paragraph (b) Exemption") for classes of marine terminal agreements other than Paragraph (a) Agreements, with the exception of marine terminal conference, marine terminal interconference and marine terminal discussion agreements, on condition that they be filed for **Federal Register** publication. (These "other" marine terminal agreements are hereinafter referred to as "Paragraph (b) Agreements").[4] Again, no substantive pre-implementation review of these agreements would be undertaken.

We also invited comments on an alternative exemption for Paragraph (b) Agreements which would provide a substantive pre-effectiveness review procedure to ensure overall conformity with the exemption's standards and the Commission's rules (hereinafter referred to as the "Paragraph (b) Exemption Alternative"). Under this Alternative, the exemption would take effect on the earlier of: (1) Twenty-one days after the filing of the agreement; and (2) the date of the letter from the Commission advising that the agreement has been accepted for exemption. An agreement not accepted for exemption under the Paragraph (b) Exemption Alternative would instead be processed for effectiveness or approval under the normal procedures prescribed in 46 CFR Part 572 or 560, as appropriate for the category of agreement involved.

Fourteen commenters specifically addressed proposed § 516.5(a): One favors the Paragraph (a) Exemption in its proposed form; four recommend that certain other agreements be designated Paragraph (a) Agreements; and nine urge adoption of the Paragraph (a) Exemption Alternative. TOCHR favors adoption of the Paragraph (a) Exemption in its proposed form.

Of the four commenters recommending that other types of agreements be designated Paragraph (a) Agreements, MPA and APL suggest inclusion of marine terminal leases where the lessor retains some control over the facility through its public tariff. Matson urges the Commission to classify marine terminal services agreements between marine terminal operators and their common carrier customers as Paragraph (a) Agreements. Matson argues that there is competition among terminal operators performing terminal services and there is therefore no regulatory need to file such agreements. However, if this suggestion is not adopted, Matson urges enforcement of the requirement that complete marine terminal services agreements be filed, including the rates and charges agreed to by the parties involved.

The Conference recommends that all marine terminal agreements, except marine terminal conference agreements, be classified as Paragraph (a) Agreements. The Conference argues that the majority of such agreements have no anticompetitive effects, due to the availability of such facilities and services, as well as the innocuous, purely operational nature of the arrangements involved. The Conference also urges elimination of § 516.5(a)(3), which requires furnishing exempted agreements to any interested party, stating that this procedure is without precedent in Commission practice and is susceptible to abuse through "fishing expeditions" by carriers and terminals solely interested in keeping abreast of competitors' terminal rates and conditions.

Whatever the merits of the various recommendations to expand the types of agreements classified as Paragraph (a) Agreements, they are beyond the scope of this rulemaking and will not be addressed further. With regard to Matson's comments concerning the need for file complete marine terminal agreements, we believe that the Final Rule makes clear that agreements are not entitled to the exemption if they do not completely set forth the rates and charges agreed to by the parties.[5]

A majority of commenters support the Paragraph (a) Exemption Alternative in one form or another, on the grounds that it would allow all interested parties timely and accurate notice of the existence and content of agreements that may affect them, protect the Commission and other interested parties from the loss of relevant information that would otherwise be in the agreement parties' private files,[6] and

[4] Terminal services arrangements, berthing agreements and other such arrangements are examples of Paragraph (b) Agreements.

[5] The Commission has recently received numerous inquiries and requests concerning its requirement that marine terminal operators' charges for terminal services be set forth in an agreement on file with the Commission or separately reflected in a filed tariff. As a result of these inquiries, and the apparent confusion regarding the Commission's requirements, the Commission gave notice that it would waive assessing penalties for the pre-filing implementation of such terminal services agreements until a formal study of the issue had been completed. *Notice of Waiver of Penalties*, 51 FR 23145 (June 25, 1986). Because there still appeared to be some continuing confusion regarding its requirement, the Commission on October 15, 1986 extended indefinitely the waiver of penalties provided by the June Notice. The Commission, by separate Order served this date is instituting Fact Finding Investigation No. 17 to study this matter. The Commission is also issuing this date a Second Supplemental Notice of Waiver of Penalties to extend the June Notice.

[6] Sea-Land argues that the Paragraph (a) Exemption would be counterproductive to the

Continued

enable negotiations and decisions in the industry to be based on actual knowledge of the relevant facts.

Many commenters urge the Commission to avoid artificial distinctions between classes of agreements and to treat all classes the same. The division of marine terminal agreements into different categories for exemption purposes, some of which would no longer be filed and others continuing to be filed but exempt from subsequent waiting period/approval requirements, allegedly would create uncertainty concerning which agreements should be filed; may be discriminatory as between the types of agreements and carriers involved, particularly as to off-dock CFS agreements; and would render effective regulation of agreements entitled to the Paragraph (a) Exemption impossible, since there would be no effective, uniform and timely procedure to ascertain the nature of an agreement to ensure that it properly falls within the exemption. Several of these commenters note that the Paragraph (a) Exemption Alternative would create no additional burden for marine terminal operators in comparison to the system currently in place, and is similar to current procedures, while affording a significant savings in time.

The reasons advanced in support of the Paragraph (a) Exemption Alternative are meritorious and this Alternative, modified as discussed below, is adopted in the Final Rule. The common tread running through virtually all of the comments supporting this Alternative is that marine terminal agreements falling within the scope of the 1984 or 1916 Acts should generally be made available to the maritime community as a matter of public information.The concern here is that all interests that are not parties to an agreement—but nonetheless may be affected by the agreement—have timely and accurate knowledge of the agreement's existence and content.

The objections to dividing marine terminal facility and services agreements into classes for exemption purposes are also well supported. Marine terminal faciltiy and services agreements are often "mixed" in their characteristics. As a result, the proposed Paragraph (a) Exemption would not apply to agreements which, while primarily landlord-tenant leases or other arrangements described in § 516.5(a) of the Proposed Rule, also include other activities which would not fit within the Paragraph (a) Agreement category. Moreover, the several recommendations for aggregating all marine terminal facility and services agreements into a single class for uniform treatment for exemption purposes are well supported in logic. The adoption of this approach should result in a significantly clarified and more easily administered Final Rule.

Eleven commenters specifically address proposed § 516.5(b): Four support the Paragraph (b) Exemption as proposed; another would classify intra-port discussion agreements as Paragraph (a) Agreements; two suggest that some or all of the agreements included as Paragraph (b) Agreements be instead classified as Paragraph (a) Agreements; and four support the Paragraph (b) Exemption Alternative.

Sacramento, Tampa, Seattle and Sea-Land favor the Paragraph (b) Exemption without substantive change. They state that this procedure would allow all interested parties sufficient and timely notice of agreements that may affect them, provide adequate safeguards to make the Paragraph (b) Exemption Alternative unnecessary and avoid significant and unnecessary delay to the parties. Tampa believes that this exemption would provide a basis for ensuring that Congress continues the antitrust exemption presently afforded marine terminal agreements by the 1916 and 1984 Shipping Acts. Seattle suggests clarifying the effective date of the Paragraph (b) Exemption to deem an agreement to be "filed" when deposited in the United States mail or delivered to a courier for delivery. Seattle also urges the Commission to reduce the number of copies required to be filed to the absolute minimum necessary—perhaps a true original and two copies—in view of the cost and time consumed in providing the oversized exhibits often included in a terminal lease.

The Final Rule does not adopt Seattle's suggested technical modifications. The filing "date" for exemption purposes is consistent with our procedures for agreements in general, and the requirement that an original and fifteen copies be filed is based on our need to have sufficient number of copies available to facilitate agency processing, the Federal Register notice and assure prompt public access to copies of filed agreements. We will, however, continue the current practice of accepting agreement copies that have had oversized exhibits reduced to standard paper size, provided that they are complete, legible and reproducible.

MPA suggests that intra-port discussion agreements be classified as Paragraph (b) Agreements, stating that such agreements warrant special treatment. A discussion agreement involving local port interests is said to present a much different set of regulatory options than do two-port or range-wide discussion agreements.

Two other commenters recommend that certain or all of the Paragraph (b) Agreements be instead classified as Paragraph (a) Agreements and therefore entitled to the less stringent Paragraph (a) Exemption. Matson believes that marine terminal services agreements should be classified as Paragraph (a) Agreements for the reasons summarized in the discussion of § 516.5(a); and the Conference urges that all agreements proposed as Paragraph (b) Agreements be instead afforded the Paragraph (a) Exemption, for the reasons summarized in the discussion of § 516.5(a). As noted earlier, we cannot consider the merits of recommendations to expand the scope of this proceeding beyond that originally set forth in the Proposed Rule.

TOCHR, VPA, Oakland and Houston Port Bureau favor adoption of the Paragraph (b) Exemption Alternative in one form or another. They note that it is consistent with the shortened review procedure now requested by many parties under the 1984 Act, and argue that it is preferable to the Paragraph (b) Exemption since the latter exemption may permit agreements that do not conform to the Commission's requirements to become effective without even a cursory review. These commenters argue that Paragraph (b) Exemption is inconsistent with the Commission's obligations, and would be inequitable to other parties who might well be damaged if they did not have the opportunity to review and challenge an agreement before it became effective.

The Final Rule adopts the Paragraph (b) Exemption for all classes of marine terminal agreements, other than marine terminal conference, interconference, joint venture and discussion agreements, with the exemption becoming effective upon the filing of an agreement with the Commission. Thus, the Final Rule implements a uniform procedure consisting of the Paragraph (a) Exemption Alternative and the Paragraph (b) Exemption for all classes of marine terminal agreements, excepting marine terminal conference, interconference, joint venture and discussion agreements.

On balance, we agree with the many views favoring a uniform exemption

---

Commission's obligations under section 18 of the 1984 Act, 46 U.S.C. app. 1717, which requires the Commission to collect and analyze information concerning the Act's impact on the international ocean shipping industry, and to submit a report thereon specifically addressing, among other things, the need for antitrust immunity for ports and marine terminals.

procedure. There is merit to the objections to the classification system upon which the Proposed Rule was predicated. Another factor we considered in adopting this Final Rule is the disproportionate amount of the Commission's own resources that would have been required to administer an exemption alternative that would subject all agreements filed thereunder to a substantive pre-effectiveness review procedure within twenty-one days following filing (as suggested under proposed § 516.5(b) (the Paragraph (b) Exemption Alternative)) or within fourteen days following Federal Register publication (as suggested by some of the commenters favoring this alternative). The Commission will, however, monitor those agreements that are filed for exemption pursuant to the Final Rule to ensure that the agreements otherwise conform to the Commission's statutory and regulatory requirements. In this connection it should be noted that the Final Rule makes it clear that only agreements that apply to prospective activities, *i.e.*, events or payments that occur after filing are entitled to the exemption. The exemption also does not apply to agreements which fail to completely set forth the rates and charges agreed to by the parties. Parties who implement agreements that do not qualify for the exemption or which otherwise are in violation of the Commission's requirements will be subject to substantial penalties of the applicable statute.

The Federal Maritime Commission has determined that this Final Rule is not a "major rule" as defined in Executive Order 12291 dated February 17, 1981, because it will not result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effect on competition, employment, investment, productivity, innovations, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Chairman of the Federal Maritime Commission certifies pursuant to section 605(b) of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, that this rule will not have a significant economic impact on a substantial number of small entities, including small businesses, small organizational units or small governmental jurisdictions. The primary economic impact of this rule would be on marine terminal operators and common carriers which generally are not small entities. A secondary impact may fall on shippers, some of whom may be small entities but that impact is not considered to be significant.

The Federal Maritime Commission has determined that this action does not constitute a major Federal action significantly affecting the quality of the human environment. Therefore, no environmental assessment or environmental impact statement was prepared.

The collection of information requirements contained in this regulation have been previously approved under 46 CFR Part 516, OMB Control Number 3072–0049. Since that Part is being discontinued, the requirements that are being codified in Part 559 are being resubmitted to OMB for review under section 3504(h) of the Paperwork Reduction Act of 1980 (44 U.S.C. 3504). No clearance is necessary for the requirements being codified in Part 572 as these requirements do not add to the burden already present therein. A copy of the request for OMB review and supporting documentation may be obtained from John Robert Ewers, Director, Bureau of Administration, Federal Maritime Commission, 1100 L Street NW., Room 12211, Washington, DC 20573, telephone number (202) 523–5866. Comments may be submitted to the Agency and the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, Attention: Desk Officer for the Federal Maritime Commission.

**List of Subjects in 46 CFR Parts 559 and 572**

Antitrust, Contracts, Maritime carriers, Administrative practice and procedure, Rates and fares, Reporting and record-keeping requirements.

Therefore, pursuant to 5 U.S.C. 553, and sections 5, 16 and 17 of the Shipping Act of 1984, 46 U.S.C. 1704, 1715, 1716 and sections 15, 35 and 43 of the Shipping Act, 1916, in order to exempt certain marine terminal agreements from the waiting period requirements of the 1984 Act, and from the approval requirement of the 1916 Act, Title 46 of the Code of Federal Regulations is amended as follows:

**PART 559—[AMENDED]**

1. The authority citation to Part 559 continues to read:

Authority: 5 U.S.C. 553; secs. 15, 35 and 43 of the Shipping Act, 1916, 46 U.S.C. app. 814, 833a and 841a.

**§ 559.8 [Redesignated from § 559.7]**

2. Section 559.7 to Part 559 in Subchapter C in Title 46 of the Code of Federal Regulations is redesignated § 559.8.

3. A new § 559.7 to Part 559 in Subpart C in Title 46 of the Code of Federal Regulations is added to read as follows:

**§ 559.7 Marine terminal agreements—exemption.**

(a) *Marine terminal agreement* means an agreement, understanding, arrangement or association, written or oral (including any modification, cancellation or appendix) that applies to future, prospective activities between or among the parties and which relates solely to marine terminal facilities and/or services among marine terminal operators and among one or more marine terminal operators and one or more common carriers in interstate commerce that completely sets forth the applicable rates, charges, terms and conditions agreed to by the parties for the facilities and/or services provided for under the agreement. The term does not include a joint venture arrangement among marine terminal operators to establish a separate, distinct entity that fixes its own rates and publishes its own tariff.

(b) *Marine terminal conference agreement* means an agreement between or among two or more marine terminal operators and/or common carriers in interstate commerce for the conduct or facilitation of marine terminal operations in connection with waterborne common carriage in the domestic commerce of the United States and which:

(1)(i) Provides for the fixing of and adherence to uniform marine terminal rates, charges, practices and conditions of service relating to the receipt, handling and/or delivery of passengers or cargo for all members; and/or

(ii) Provides for the conduct of the collective administrative affairs of the group; and

(2) May include the filing of a common marine terminal tariff in the name of the group and in which all the members participate, or, in the event of multiple tariffs, each member participates in at least one such tariff.

(c) *Marine terminal discussion agreement* means an agreement between or among two or more marine terminal operators and/or marine terminal conferences and/or common carriers in interstate commerce solely for the discussion of subjects including marine terminal rates, charges, practices and conditions of service relating to the

receipt, handling and/or delivery of passengers or cargo.

(d) *Marine terminal interconference agreement* means an agreement between or among two or more marine terminal conference and/or marine terminal discussion agreements.

(e) *Marine terminal facilities* means one or more structures (and services connected therewith) comprising a terminal unit, including, but not limited to, docks, berths, piers, aprons, wharves, warehouses, covered and/or open storage spaces, cold storage plants, grain elevators and/or bulk cargo loading and/or unloading structures, landing and receiving stations, which are used for the transmission, care and convenience of cargo and/or passengers or the interchange of some between land and common carriers by water in interstate commerce, or between two common carriers by water in interstate commerce. This term is not limited to waterfront port facilities and includes so-called off-dock container freight stations at inland locations and any other facility from which inbound waterborne cargo may be tendered to consignees or at which outbound cargo may be received from shippers for vessel or container loading.

(f) All marine terminal agreements as defined in § 559.7(a), with the exception of marine terminal conference, marine terminal interconference and marine terminal discussion agreements, as defined in § 559.7 (b), (c) and (d) are exempt from the approval requirements of section 15 of the Shipping Act, 1916 on the condition that they be filed with the Commission. Such filing shall consist of:

(1) A true copy and 15 additional copies of the filed agreement;

(2) A letter of transmittal, which shall:

(i) Clearly state that the agreement is being filed for exemption pursuant to this paragraph;

(ii) Identify all of the documents being transmitted including, in the instance of a modification to an approved or exempted agreement, the full name of the approved or exempted agreement, the Commission-assigned agreement number of the approved or exempted agreement and the revision, page and/or appendix number of the modification being filed;

(iii) Provide a concise summary of the filed agreement or modification separate and apart from any narrative intended to provide support for the acceptability of the agreement or modification;

(iv) Clearly provide the typewritten or otherwise imprinted name, position, business address and telephone number of the filing party; and

(v) Be signed in the original by the filing party or on the filing party's behalf by an authorized employee or agent of the filing party.

(3) To facilitate the timely and accurate publication of the Federal Register Notice, the letter of transmittal shall also provide a current list of the agreement's participants where such information is not provided elsewhere in the transmitted documents.

(f) Agreements filed for and entitled to exemption under this paragraph will be exempted from the approval requirements of the Shipping Act, 1916 effective on the date they are filed with the Commission.

## PART 572—[AMENDED]

4. The authority citation to Part 572 continues to read:

**Authority:** 5 U.S.C. 553; 46 U.S.C. app. 1701–1707, 1709–1710, 1712 and 1714–1717.

§ 572.308 [Redesignated from § 572.307]

5. Section 572.307 to Part 572 in Subpart C of Subchapter D of Title 46 of the Code of Federal Regulations is redesignated § 572.308.

6. A new § 572.307 to Part 572 in Subpart C of Subchapter D, Marine Terminal Agreements-Exemption is added to read as follows:

**§ 572.307 Marine terminal agreements-exemption.**

(a) *Marine terminal agreement* means an agreement, understanding, or association written or oral (including any modification, cancellation or appendix) that applies to future, prospective activities between or among the parties and which relates solely to marine terminal facilities and/or services among marine terminal operators and among one or more marine terminal operators and one or more ocean common carriers that completely sets forth the applicable rates, charges, terms and conditions agreed to by the parties for the facilities and/or services provided for under the agreement. The term does not include a joint venture arrangement among marine terminal operators to establish a separate, distinct entity that fixes its own rates and publishes its own tariff.

(b) *Marine terminal conference agreement* means an agreement between or among two or more marine terminal operators and/or ocean common carriers for the conduct or facilitation of marine terminal operations in connection with waterborne common carriage in the foreign commerce of the United States and which:

(1)(i) Provides for the fixing of and adherence to uniform marine terminal rates, charges, practices and conditions of service relating to the receipt, handling and/or delivery of passengers or cargo for all members; and/or

(ii) Provides for the conduct of the collective administrative affairs of the group; and

(2) May include the filing of a common marine terminal tariff in the name of the group and in which all the members participate, or, in the event of multiple tariffs, each member participates in at least one such tariff.

(c) *Marine terminal discussion agreement* means an agreement between or among two or more marine terminal operators and/or marine terminal conferences and/or ocean common carriers solely for the discussion of subjects including marine terminal rates, charges, practices and conditions of service relating to the receipt, handling and/or delivery of passengers or cargo.

(d) *Marine terminal interconference agreement* means an agreement between or among two or more marine terminal conference and/or marine terminal discussion agreements.

(e) All marine terminal agreements, as defined in § 572.307(a), with the exception of marine terminal conference, marine terminal interconference and marine terminal discussion agreements as defined in § 572.307 (b), (c) and (d) are exempt from the waiting period requirements of section 6 of the Shipping Act of 1984 and Part 572 of this chapter on the condition that they be filed in the form and manner presently required by Part 572 of this chapter.

(f) Agreements filed for and entitled to exemption under this paragraph will be exempted from the waiting period requirements effective on the date of their filing with the Commission.

By the Commission.

**Joseph C. Polking,**

*Secretary.*

## FEDERAL COMMUNICATIONS COMMISSION

**47 CFR Part 73**

**[MM Docket No. 85-390; RM-4963, 5052, 5084, 5882, 6361]**

## Radio Broadcasting Services; Roswell, GA

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** This document allots Channel 298A to Roswell, Georgia, at the request of Willian E. Mallon, as a first FM service. The requests for Channel 298A at Elizabeth, Georgia (Elizabeth Community Broadcasters), Acworth, Georgia (C. Phillip Robuck), Carterville, Georgia (Julia N. Frew) and the counterproposal for Channel 298A at Duluth, Georgia (Duluth Broadcasting Company) have been denied. Each of the above petitioners have presented arguments which indicate that their respective community deserves a first local FM service. However, Channel 298A is the only available channel. We have allotted Channel 298A to Roswell since it is the community with the largest population.

With this action, this proceeding is terminated.

**DATES:** Effective date: June 26, 1987. The window period for filing applications will open on June 29, 1987, and close on July 27, 1987.

**FOR FURTHER INFORMATION CONTACT:** Montrose H. Tyree, Mass Media Bureau, (202) 634–6530.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's Report and Order, MM Docket No. 85–380, adopted April 17, 1987, and released May 13, 1987. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857–3800, 2100 M Street NW., Suite 140, Washington, DC 20037.

## Radio Broadcasting Services; Lake View and Cheraw, SC

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** This document, at the request of Cheraw Broadcasting Company, Inc., substitutes Channel 277C2 for Channel 276A at Cheraw, SC, and modifies the license of Station WPDZ–FM to specify the higher powered channel. The substitution of channels could provide expanded radio service to Cheraw and its environs. Channel 277C2 can be allocated to Cheraw in compliance with the Commission's minimum distance separation requirements with a site restriction of 23.8 kilometers (13.8 miles) southwest. The request of Willard Payne to allocate Channel 277A to Lake View, SC, is dismissed due to a lack of continuing interest. With this action, this proceeding is terminated.

**EFFECTIVE DATE:** June 26, 1987.

**FOR FURTHER INFORMATION CONTACT:** Leslie K. Shapiro, Mass Media Bureau, (202) 634–6530.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's Report and Order, MM Docket No. 85–381, adopted April 17, 1987, and released May 13, 1987. ## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

50 CFR Part 91

## Migratory Bird Hunting and Conservation Stamp (Duck Stamp) Contest

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Final rule; administrative changes.

**SUMMARY:** The Service is revising the regulations governing the conduct of the annual Migratory Bird Hunting and Conservation Stamp (Duck Stamp) Contest. Among other minor changes, the amendments provide for a commendation to be given to the artists placing first, second, and third; require artists to sign both the reproduction agreement and the display agreement in order for their entries to be eligible. The

dates and location of this year's contest are also announced, and the public is invited to attend.

**DATES:**

1. This rule is effective July 1, 1987, the beginning of the 1987–1988 contest.

2. This year's contest will be held on November 9 and 10, 1987, beginning at 11 a.m. on Monday and 9 a.m. on Tuesday.

3. Persons wishing to enter this year's contest may submit entries any time after July 1, but all must be postmarked no later than midnight October 1.

**ADDRESSES:** Requests for complete copies of the regulations, reproduction rights and display agreements should be addressed to: Migratory Bird Hunting and Conservation Stamp Contest, Department of the Interior, U.S. Fish and Wildlife Service, 18th & C Streets NW., Room 2643, Washington, DC 20240.

Location of Contest

Department of the Interior Building Auditorium (C Street Entrance), 18th & C Streets NW., Washington, DC.

**FOR FURTHER INFORMATION CONTACT:** Ms. Norma Opgrand, Coordinator, U.S. Fish and Wildlife Service, Washington, DC 20240, Telephone: (202) 343–5508.

**SUPPLEMENTARY INFORMATION:** Analysis of these amendments to 50 CFR Part 91 has resulted in the Department's determining that they are not major actions under the provisions of Executive Order 12291. The amendments also will not significantly affect a substantial number of small entities under the provisions of the Regulatory Flexibility Act, since entrants are individuals and not small entities as defined in 5 U.S.C. 601, *et seq.* The amendments do not contain information collection requirements that require approval by the Office of Management and Budget under 44 U.S.C. 3501, *et. seq.* Because this rule constitutes only minor technical revisions to the duck stamp contest procedures, notice and public comment are determined to be unnecessary in accordance with the Administrative Procedure Act, 5 U.S.C. 553(b)(3). No compliance with the National Environmental Policy Act is required because this rule constitutes minor changes or amendments to an approved action (the Duck Stamp Contest), which changes have no potential for causing substantial environmental impact.

Therefore, the rulemaking is categorically excluded from NEPA compliance under departmental guidelines. 516 DM 6, App. 1. The primary authors of this document are David Fisher, James E. Pinkerton, and Norma E. Opgrand, U.S. Fish and Wildlife Service.

Accordingly, 50 CFR Part 91 is amended to read as follows:

1. Part 91 is revised to read as follows:

## PART 91—MIGRATORY BIRD HUNTING AND CONSERVATION STAMP CONTEST

**Subpart A—Introduction**

Sec.

91.1 Purpose of regulations.
91.2 Definitions.
91.3 Public attendance at contest.

**Subpart B—Procedures for Entering the Contest**

91.11 Contest deadlines.
91.12 Contest eligibility.
91.13 Technical requirements for design and submission of entry.
91.14 Restrictions on subject matter of entry.
91.15 Suitability of entry for engraving.
91.16 Submission procedures for entry.
91.17 Property insurance for entries.
91.18 Failure to comply with contest regulations.

**Subpart C—Procedures for Administering the Contest**

91.21 Selection and qualification of contest judges.
91.22 Display of entries for contest.
91.23 Scoring criteria for contest.
91.24 Contest procedures.

**Subpart D—Post-Contest Procedures**

91.31 Return of entries after contest.

Authority: 5 U.S.C. 301, 31 U.S.C. 9701.

### Subpart A—Introduction

**§ 91.1 Purpose of regulations.**

The purpose of the regulations is to establish procedures for selecting a design that will be used for the annual Migratory Bird Hunting and Conservation Stamp.

**§ 91.2 Definitions.**

"Contest coordinator:" The contest official responsible for overseeing the judges' scores for each entry. The contest coordinator will be named by the Secretary of the Interior and will not be a past or present employee of the Fish and Wildlife Service.

"Display agreement:" A document that each contestant must complete, sign and submit with the entry. The signed agreement permits the Service to display the entry for Migratory Bird Hunting and Conservation Stamp for promotional purposes.

"Qualifying entry:" Each original work of art submitted to the contest that satisfies the requirements outlined in Subpart B of this part.

"Reproduction rights agreement:" A document that each contestant must sign and submit with the entry. The signed agreement certifies that the entry is an original work of art and stipulates how the Fish and Wildlife Service may use the winning entry.

**§ 91.3 Public attendance at contest.**

All phases of the nomination and voting process will be open for viewing by the general public.

### Subpart B—Procedures for Entering the Contest

**§ 91.11 Contest deadlines.**

(a) The contest will officially open on July 1 of each year.

(b) All individuals entering the contest must comply with the regulations. A copy of these regulations may be requested from the Migratory Bird Hunting and Conservation Stamp Office (Duck Stamp Office), U.S. Fish and Wildlife Service, Department of the Interior, Washington, DC 20240. Entries must be postmarked no later than midnight of October 1.

**§ 91.12 Contest eligibility.**

United States citizens, nationals, or resident aliens are eligible to participate in the contest. Any person who has won the contest during the preceding three years shall be ineligible to submit an entry in the current year's contest. Contest judges and their relatives are ineligible to submit an entry. All entrants must submit a non-refundable fee of $50.00. The fee must be a cashier's check, a certified check or a money order made payable to: Fish and Wildlife Service. (Personal checks will not be accepted). All entrants must submit signed reproduction rights and display agreements.

**§ 91.13 Technical requirements for design and submission of entry.**

The design must be a horizontal drawing or painting seven (7) inches high and ten (10) inches wide. The entry may be drawn in any medium desired by the contestant and may be in either multicolor or black and white. No scrollwork, lettering, bird band numbers, signatures or initials may appear on the design. Each entry must be matted (over or under) with a nine (9) inch by twelve (12) inch white mat, one (1) inch wide, and cannot exceed one quarter (¼) inch in total thickness. Entries must not be framed, under glass or have a protective covering that is attached to the entry.

BEST COPY AVAILABLE

**§ 91.14 Restrictions on subject matter of entry.**

A portrayal of live, non-extinct, North American migratory ducks, geese, or swans (Family Anatidae) must be the dominant feature of the design. No species that has been selected for the Migratory Bird Hunting and Conservation Stamp during the preceding five years will be eligible. The design must be the contestant's original creation and may not be copied or duplicated in whole or in part from previously published art, including photographs. An entry submitted in a prior contest that was not selected for the Federal or a State stamp design may be submitted in the current contest.

**§ 91.15 Suitability of entry for engraving.**

All entries should be drawn with fullest attention to clarity of detail and the relationship of total values. These prerequisites are important to interpret pictorial elements to hand engraving for printing, as they determine the engraved line techniques and direction. The engraver relies on the accuracy of the artist's work for successful interpretation. Detailed art can be drawn as transparent or opaque watercolor, oil painting, or pencil drawings. An entry that is a line pencil drawing, scratchboard or an etching should effectively interpret the full range of tone, rather than duplicate line engraving techniques of past Migratory Bird Hunting and Conservation Stamps. The engraver is primarily responsible for line interpretation and discipline, creating the miniature image of the stamp.

**§ 91.16 Submission procedures for entry.**

(a) Each contestant may submit only one entry. Each entry must be accompanied by a non-refundable entrance fee and a completed and signed Reproduction Rights Agreement and a completed and signed Display Agreement. The bottom portion of the Reproduction Rights Agreement must be attached to the back of the entry.

(b) Each entry should be appropriately wrapped to protect the art work and sent by registered mail or hand delivered to: Migratory Bird Hunting and Conservation Stamp Contest, Room 2643, U.S. Fish and Wildlife Service, Department of the Interior, Washington, DC 20240.

**§ 91.17 Property insurance for entries.**

Each contestant is responsible for obtaining adequate insurance coverage for his/her entry. The Department of the Interior will not insure the entries it receives. The Department of the Interior is not responsible for loss or damage unless it is caused by its negligence or willful misconduct; in any event, the liability of the Department of the Interior will not exceed the amount of the fifty dollar ($50.00) entry fee.

**§ 91.18 Failure to comply with contest regulations.**

Any entry that does not comply with the requirements of Subpart B will be disqualified from the contest.

## Subpart C—Procedures for Administering the Contest

**§ 91.21 Selection and qualification of contest judges.**

Five judges will be selected annually by the Secretary of the Interior. Current employees of the Fish and Wildlife Service and their relatives are ineligible to serve as judges for the contest. The judges will be reimbursed for reasonable travel expenses. The judges will be announced on the first day of the contest.

**§ 91.22 Display of entries for contest.**

Entries selected by the judges under the procedures described in Subpart C, § 91.24 will be displayed in numerical order. The only visible identification on each entry will be the number assigned to it in chronological order when it is received and processed by the Service.

**§ 91.23 Scoring criteria for contest.**

Entries will be judged on the basis of anatomical accuracy, artistic composition and suitability for engraving the production of a stamp.

**§ 91.24 Contest procedures.**

(a) Prior to the judging of entries, the judges will be briefed by a printing and engraving expert on the characteristics that make a design suitable for engraving.

(b) All eligible entries will be displayed in the Department of the Interior auditorium. Prior to the first round of judging, the judges will spend two hours in the auditorium reviewing the entries the first day before the official contest begins. Public viewing will begin at 11 a.m.

(c) All qualified entries will be shown one at a time to the judges by the Contest Coordinator or a contest staff member. The judges will vote "in" or "out" on each entry; those entries receiving a majority of votes "in" will receive further consideration. The remaining eligible entries will be placed on display as a group for public viewing and further judging.

(d) In the second round of judging each entry selected in the first round will be shown one at a time to the judges by the Contest Coordinator or a contest staff member. The judges will vote by indicating a numerical score from zero to nine for each entry. One highest and one lowest score for each entry will be eliminated and the remaining scores will be totaled to provide the entry score. The entries receiving the five highest scores will be advanced to the third and final round.

(e) In the third round of judging, the judges will vote on the remaining entries using the same method as in round two. The Contest Coordinator will tabulate the final votes and present them to the Director, U.S. Fish and Wildlife Service, who will announce the winning entry as well as the entries that placed second and third.

(f) In case of a tie vote for first place in the final round, the judges will vote again on the entries that are tied. Each judge will vote by raising his or her hand for the one entry believed to be the most qualified. The entry receiving the most votes will be declared the winner.

(g) The selection of the winning entry by the judges will be final. Each contestant will be notified of the winning artist and the design. The winning artist will receive a pane of stamps signed by the Secretary of the Interior at the Duck Stamp Contest the following year. The artists placing first, second and third will receive a framed commendation from the Director of the U.S. Fish and Wildlife Service.

## Subpart D—Post-Contest Procedures

**§ 91.31 Return of entries after contest.**

All entries will be returned by certified mail to the participating artists within 120 days after the contest. If artwork is returned to the Service because it is undelivered or unclaimed (this may happen if an artist changes address), the Service will not be obligated to trace the location of the artist to return the artwork. Any artist who changes his or her address is responsible for notifying the Service of the change. All unclaimed entries will be destroyed one year from the date of the contest.

Dated: May 5, 1987.

Susan Recce,

*Acting Assistant Secretary for Fish and Wildlife and Parks.*

BILLING CODE 4310-55-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 661

[Docket No. 70845-7085]

## Ocean Salmon Fisheries Off the Coasts of Washington, Oregon, and California

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of closure and request for comments.

SUMMARY: NOAA announces the closure of the commercial salmon fishery in the exclusive economic zone (EEZ) from Sisters Rocks to Chetco Point, Oregon, at midnight, May 14, 1987, to ensure that the chinook salmon quota is not exceeded. The Director, Northwest Region, NMFS (Regional Director), has determined in consultation with the Pacific Fishery Management Council, and the Oregon Department of Fish and Wildlife, that the commerical fishery quota of 7,500 chinook salmon for the subarea will be reached by that time. The closure is necessary to conform to the preseason announcement of 1987 management measures. This action is intended to ensure conservation of chinook salmon.

EFFECTIVE DATES: Closure of the EEZ from Sisters Rocks to Chetco Point, Oregon, to commerical salmon fishing is effective at 2400 hours local time, May 14, 1987. Comments on this closure will be received until May 29, 1987.

ADDRESSES: Comments may be mailed to Rolland A. Schmitten, Director, Northwest Region, NMFS, BIN C15700, 7600 Sand Point Way N.E., Seattle, WA 98115-0070. Information relevant to this notice has been compiled in aggregate form and is available for public review during business hours at the same address.

FOR FURTHER INFORMATION CONTACT: Rolland A. Schmitten at 206-526-6150.

SUPPLEMENTARY INFORMATION: Regulations governing the ocean salmon fisheries at 50 CFR Part 661 specify at § 661.21(a)(1) that "When a quota for the commercial or the recreational fishery, or both, for any salmon species in any portion of the fishery management area is projected by the Regional Director to be reached on or by a certain date, the Secretary will, by publishing a notice in the Federal Register under § 661.23, close the commercial or recreational fishery, or both, for all salmon species in the portion of the fishery management area to which the quota applies as of the date the quota is projected to be reached."

Management measures for 1987 were effective on May 1, 1987 (52 FR 17264, May 6, 1987). The 1987 commercial fishery for all salmon except coho from Sisters Rocks to Chetco Point, Oregon, was established as May 1, 1987, through the earlier of May 31, 1987, or the attainment of a quota of 7,500 chinook salmon.

Based on the best available information, the commercial fishery catch in the subarea is projected to reach the 7,500 chinook quota by midnight, May 14, 1987.

Therefore, NOAA issues this notice to close the commercial fishery in the EEZ from Sisters Rocks to Chetco Point, Oregon, effective midnight, May 14, 1987. This notice does not apply to treaty Indian fisheries or to other fisheries which may be operating in other areas.

The Regional Director consulted with representatives of the Pacific Fishery Management Council and the Oregon Department of Fish and Wildlife (ODFW) regarding a closure of the commercial fishery between Sisters Rocks and Chetco Point, Oregon. ODFW repesentatives confirmed that Oregon will close the commercial fishery in State waters adjacent to this subarea of the EEZ effective noon, May 14, 1987. Oregon will allow a period of 24 hours for landings.

### Other Matters

This action is authorized by 50 CFR 661.23 and is in compliance with Executive Order 12291.

### List of Subjects in 50 CFR Part 661

Fisheries, Fishing, Indians.

(16 U.S.C. 1801 *et seq.*)

Dated: May 14, 1987.

# Proposed Rules

Federal Register
Vol. 52, No. 98
Tuesday, May 19, 1987

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## FEDERAL RESERVE SYSTEM

**12 CFR Part 225**

**[Regulation Y; Docket No. R-0567]**

### Capital Maintenance; Revision to Capital Adequacy Guidelines

**AGENCY:** Board of Governors of the Federal Reserve System.

**ACTION:** Extension of Time to Comment on Proposed Rulemaking.

**SUMMARY:** On February 12, 1987, the Board announced a proposed modification of its Guidelines for minimum and appropriate levels of capital for bank holding companies and state chartered banks that are members of the Federal Reserve System. [52 FR 5119 (February 19, 1987)] This proposed amendment to the Board's Guidelines, contained in Appendix A to the Board's Regulation Y, 12 CFR Part 225, was designed to make the Board's capital policies more systematically and explicitly sensitive to the risk exposure of individual banking organizations by providing for a risk-based capital measure to be used in tandem with existing capital ratios and to amend the definition of primary capital for purposes of computing existing capital-to-total assets ratios. The Board indicated that it would consider comments on this proposal received by May 13, 1987.

Subsequently, on March 18, 1987, the Board announced a proposal to incorporate credit risks on off-balance sheet interest rate and exchange rate contracts (including interest rate swaps) into the proposed risk-based capital measure. [52 FR 9304 (March 24, 1987)].

Since publication of these proposals the Board has received several requests for additional time to comment on these proposals, requests which cite the nature of the proposals and the importance of the issues they raise. While the Board has provided for a substantial comment period and while there is a need to proceed expeditiously to consider the proposals and the comments received, the Board is extending the comment period for both of its risk-based capital proposals (Docket R-0567) until June 1, 1987. The Board believes such an extension of the comment period will allow it to receive additional and more complete responses to its proposal.

**DATE:** All comments should be received by June 1, 1987.

**ADDRESS:** All comments, which should refer to Docket No. R-0567, should be mailed to William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, 20th and Constitution Avenue, NW., Washington, DC 20551, or should be delivered to the courtyard entrance, Eccles Building, 20th Street, NW., between "C" Street and Constitution Avenue, NW., between the hours of 8:45 a.m. and 5:15 p.m. weekdays. Comments may be inspected in Room 1122, Eccles Building between 9:00 a.m. and 5:00 p.m. weekdays.

**FOR FURTHER INFORMATION CONTACT:** Richard Spillenkothen, Deputy Associate Director (202/452-2594), Anthony G. Cornyn, Assistant Director (202/452-3354), or James E. Scott, Senior Counsel, Legal Division (202/452-3513) of the Board's staff; or Andrew Spindler, Vice President, Federal Reserve Bank of New York (212/791-5846). For the hearing impaired *only*, Telecommunication Device for the Deaf (TDD), Earnestine Hill or Dorothea Thompson (202) 452-3544.

By order of the Board of Governors of the Federal Reserve System, May 13, 1987.

**William W. Wiles,**

*Secretary of the Board.*

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

**18 CFR Parts 157 and 284**

**[Docket No. RM87-16-000]**

### Abandonment of Sales and Purchases of Natural Gas Under Expired, Terminated, or Modified Contracts

May 7, 1987.

**AGENCY:** Federal Energy Regulatory Commission.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The Federal Energy Regulatory Commission (Commission) proposes to amend its regulations to provide for abandonment of certain sales and purchases under the Natural Gas Act by both sellers and purchasers where the underlying contract term has expired, the contract has been terminated under a provision of the contract, or the contract has been terminated or modified by mutual agreement of the parties. Under the proposal, when a contract has expired or been terminated, either party to the contract may, upon thirty (30) days written notice, abandon its service obligation to purchase or sell the gas. However, if an interstate pipeline purchaser is seeking to abandon purchases from a producer, it must continue the transportation of the "abandoned" gas if the producer so elects. The abandonment is automatically effective in accordance with the notice given. The abandoning party must notify the Commission of the abandonment within thirty (30) days of the effective date of abandonment. If the parties agree to terminate the contract or to modify their sales and purchase obligations under the contract, the abandonment is effective in accordance with the parties' agreement, but one of the parties must notify the Commission within thirty (30) days of the effective date of abandonment.

**DATE:** An original and 14 copies of the written comments on this proposed rule must be filed with the Commission by June 18, 1987.

**ADDRESS:** All filings should refer to Docket No. RM87-16-000 and should be addressed to: Office of the Secretary, Federal Energy Regulatory Commission, 825 N. Capital Street, NE., Washington, DC 20426.

**FOR FURTHER INFORMATION CONTACT:** Jacob Silverman, Federal Energy Regulatory Commission, 825 N. Capital Street, NE., Washington, DC 20426, (202) 357-8119.

**SUPPLEMENTARY INFORMATION:**

#### I. Introduction

The Federal Energy Regulatory Commission (Commission) is proposing to amend its regulations to permit abandonment under section 7(b) of the

Natural Gas Act (NGA) [1] of certain sales and purchases of natural gas under an expired or terminated contract upon 30-days written notice, or where the parties to the contract have mutually agreed upon termination or modification of the contract.

## II. Background

### A. History

The NGA declares that the business of transporting and selling natural gas for ultimate distribution to the public is affected with a public interest. The NGA was adopted "so as to afford consumers a complete, permanent and effective bond of protection from excessive rates and charges." [2] Critical to the achievement of those objectives is the assurance of an adequate and reliable supply of natural gas.[3] To achieve that assurance of supply, gas companies that seek to sell or transport natural gas for resale in interstate commerce are required, under section 7(c) of the NGA,[4] to obtain a certificate of public convenience and necessity from the Commission.

The Federal Power Commission (predecessor to the Commission) took the position, which the Supreme Court affirmed, that there was "a continuing obligation to perform 'service' imposed by the [NGA] which outlasts the term of a seller's original contract of sale." [5] Thus, once gas service in interstate commerce has commenced, natural gas companies are precluded—under section 7(b) of the NGA—from abandoning all or part of this service without Commission approval. Abandonment within the meaning of section 7(b) "occurs whenever a natural gas company abandons facilities or permanently reduces a significant portion of a particular service." [6] Similarly, although a pipeline does not need a certificate to purchase gas, the pipeline's purchase and transportation of the gas constitute "services" under the NGA, and accordingly, a pipeline requires abandonment authorization to cease purchases, even if no facilities are abandoned.[7]

Under section 7(b), an applicant has the burden of demonstrating that abandonment is permitted due to the depletion of reserves or is otherwise permitted by the present or future public convenience or necessity.[8] Most producer abandonment applications are based on depletion of reserves. They are generally not opposed and the Commission routinely grants them.[9] Where the gas supply is not depleted, and abandonment has been contested, the courts have said that, in determining whether the public convenience or necessity permits such abandonment, (1) a pipeline with a certificate of public convenience and necessity to serve a particular market has a "deep legal obligation" to continue service; (2) the burden of proof is on the proponent of the abandonment to demonstrate that the public interest "will in no way be disserved" by the abandonment; and (3) the principal index of the public interest is a comparative needs test which balances the relative needs of the competing pipelines and their ultimate consumers.[10]

These standards for abandonment were developed during a period marked at its close in the 1970's by gas shortages in the interstate market. By enacting the Natural Gas Policy Act of 1978 (NGPA) [11] to meet this shortage and other problems, Congress transformed federal regulation of the gas industry from an all-encompassing regulatory approach to one which "move[s] toward a less-regulated national natural gas market," and "leave[s] determination of supply and first-sale price to the market." [12]

In the Commission's April 10, 1985 Policy Statement,[13] the Commission expressed an intent to allow parties to change their service obligations to accommodate take-or-pay buy-out agreements. The Commission stated that it would expeditiously grant abandonment authorization necessary to implement any such agreement reached by the parties, and that where a producer files for abandonment based on payments made pursuant to the policy statement, the pipeline purchaser will be deemed to have waived its right to oppose the abandonment. Subsequently, in Order No. 436, the Commission developed a regulatory approach to "allow competitive forces to operate in those areas where Congress has determined they will better protect the public interest than traditional utility-type regulation, while retaining traditional-type regulation in those areas where competitive forces have been found inadequate by the Congress."[14]

In Order No. 436, the Commission reaffirmed its April 1985 Policy Statement, and expanded the categories of gas that could be the subject of expedited abandonment, stating:

> In the Commission's judgment, new § 2.77 is consistent with the policies reflected in this rule, in that producers should be able to sell shut-in gas and purchasers, to the extent possible, should be able to renegotiate or buy-out higher priced contracts so that gas under those contracts can be sold at market-clearing prices. To this end, the Commission will consider requests for permanent, limited-term, or partial abandonment of sales subject to reduced takes irrespective of the NGPA price category of such gas.[15]

The Commission further noted its concern "about the need for abandonment in cases where the underlying contract has expired" because of "the market disordering effects of reduced sales of lower-priced gas as well as the economic effect on sellers." [16] The Commission declined to issue any criteria for allowing abandonment under expired contracts at that time but added that it would:

> Review the matter based on experience gained in individual proceedings and will, if it appears reasonable and desirable to do so,

---

[1] Section 7(b), 15 U.S.C. 717f(b) (1982), provides: No natural gas company shall abandon all or any portion of its facilities subject to the jurisdiction of the Commission, or any service rendered by means of such facilities, without permission and approval of the Commission first had and obtained, after due hearing, and a finding by the Commission that the available supply of natural gas is depleted to the extent that the continuance of service is unwarranted, or that the present or future public convenience or necessity permit such abandonment.

establish guidelines to be applied in ruling on future contested abandonments as a means of further expediting the determination of such abandonments.[17]

In 1985, the Commission reconsidered its abandonment policy under section 7(b) in *Felmont Oil Corp. et al.* (*Felmont* and Opinion No. 245).[18] The applicant therein was a producer seeking abandonment (which the pipeline's customers opposed) because of the expiration of the underlying contract and the reduced takes by the purchaser, which had led to the shutting-in of the gas.[19] The Commission held that in light of substantially changed conditions in the natural gas market following enactment of the NGPA, the "comparative needs" test articulated in the *Transcontinental* case, *supra* n. 10, which was developed in quite different conditions, had to be reexamined.

The Commission adopted an abandonment policy that would allow shut-in, low-priced gas to enter the marketplace in order to allow purchasers to displace higher cost gas. The Commission reasoned that if lower-priced gas begins to displace some high-cost gas, pipelines and gas producers will have the incentive to renegotiate their contracts both to reduce prices and lower take-or-pay requirements. The Commission, therefore, held that:

> Where a party can demonstrate that abandonment in a particular instance would have beneficial effects on the market overall, such as increasing competition and causing gas prices to respond to that competition, and the benefits of the abandonment outweigh any adverse effect to the purchaser to whom the gas is presently dedicated, or that purchaser's customers, the Commission will grant abandonment.[20]

Applying that standard to the case before it, the Commission held that the record supported the grant of a limited term three-year abandonment, suggested by the producer in a settlement offer.[21] On rehearing, the Commission, in rejecting the specific arguments made by the petitioners,[22] stressed inter alia, that "[t]he abandonment policy expressed in Opinion No. 245 is designed to facilitate competition in the natural gas markets resulting in significant benefits to the overall public interest." The Commission concluded that, "[g]iven the limited nature of the abandonment approved, Opinion No. 245 represents a careful and modest application of the Commission's revised approach to abandonment."[23]

The Commission, in revising its abandonment policy, essentially changed the focus of its analysis in light of the current situation in the gas industry. Rather than limiting its analysis to the needs of a current purchaser and a prospective new purchaser, the Commission sought to balance the benefits to natural gas customers as a whole from a release of gas against any detriments to the current purchaser and its customers. In *Felmont*, the Commission recognized that it was changing prior policy, and set forth a reasoned explanation for its action. Specifically, the Commission recognized that other fuels have become more competitive with gas, that demand for gas has accordingly declined, and that a significant surplus has developed. In such circumstances, the Commission concluded that, where the abandonment request is predicated upon a current purchaser's failure to buy substantial amounts of available gas due to a sharp decline in the market, the traditional comparative needs test was inappropriate and the Commission "must look at a wider range of factors than it has previously considered".[24] Thus:

> The real change from the past will be a shift in the identification of the public interest, from the interest of only specific customers to the interest of the market as a whole and in the determination of how the public's needs are best served.[25]

After passage of the NGPA and the onset of an over-supply condition, diminution of demand, and the incurring of take-or-pay obligations by pipelines, the Commission recognized the need to change existing regulations governing the release of gas. Thus the Commission permitted special marketing programs (SMPs). These authorized the release by pipelines, temporary abandonment, and sale of certain categories of gas under certain conditions to other (generally industrial, fuel switching) customers, in order to allow pipelines to obtain take-or-pay relief.

The U.S. Court of Appeals for D. C. Circuit struck down the SMP's in *Maryland People's Counsel* v. *FERC*, (*MPC I*)[26] because of the exclusion of "captive customers" from the class of customers eligible to participate in the programs. The SMP's in *MPC I* had already expired when the court rendered its decision on May 10, 1985. Since successor SMP orders with later expiration dates had been issued by the Commission, the Court directed the Commission to show cause why the successor orders should not also be vacated. In *MPC II*,[27] the court held that the new orders were similarly infected with unlawful discrimination. However, since the new orders were scheduled to expire on October 31, 1985, the court stated that it would "allow the current SMP orders to die a natural death" by which time the Commission was expected "to promulgate new rules that may effect fundamental changes in the marketing of natural gas." The court was referring to the Notice of Proposed Rulemaking that ultimately resulted in Order No. 436.

In a series of orders subsequent to *MPC II*, the Commission approved limited-term abandonments (LTA's) and granted sales certificates to permit continuation of the sale of the gas that had been sold under various SMP's that expired on October 31, 1985.[28] These orders were originally intended to be a temporary bridge between the defunct SMP arrangements and arrangements under Order No. 436, and thus the Commission limited the duration of

---

[17] *Id.* at 31,567. The Commission referred to its policy at that time that a seller was obligated to continue providing service under an expired contract, if requested to do so, even though the purchaser had no obligation to continue purchasing, and required no Commission authorization to cease its purchases, citing Mississippi River Transmission Corporation (MRT), 30 FERC ¶ 61,185 (1985). In *Panhandle*, *supra* n.7, the United States Court of Appeals for the District of Columbia reversed the Commission's decision to dismiss MRT's application to abandon purchases, and remanded the case for further Commission consideration.

[18] 33 FERC ¶ 61,333 (1985), *reh'g denied*, 34 FERC ¶ 61,350 (1986). The orders in *Felmont* and the subsequent certificate orders involving the released gas, are on appeal. Oral argument was heard by the court on February 18, 1987. *Consolidated Edison* v. *FERC*, Docket Nos. 86-1108 *et al.* (D.C. Cir.).

[19] The gas involved was priced under NGPA sections 104 and 106.

[20] 33 FERC at 61,857.

[21] The order also included a provision granting the purchaser's customers a call upon the gas, as requested by the parties. The Commission has not imposed that condition in subsequent abandonment orders.

[22] Petitioners argued that the Commission could not change the "comparative needs" test and that, in any event, there was no substantial evidence to support the application of the new policy in the case before it.

[23] 34 FERC at 61,555.

[24] 33 FERC at 61,856.

[25] *Id.* at 61,857.

[26] 761 F.2d 768 (D.C. Cir. 1985) (MPC I).

[27] 785 F. 2d 999 (D.C. Cir. 1986).

[28] The LTA's were issued in basket orders covering numerous applications. The leading case is Tenneco Oil Co., 35 FERC § 61,134 (1986), *reh'g denied and clarification granted*, 34 FERC ¶ 62,145 (1986). The Commission has also issued other LTA orders approving many applications. 35 FERC ¶ 61,233 (1986), 35 FERC ¶ 61,173 (1986), and 39 FERC ¶ 61,325 (1985).

authorizations until March 31, 1986.[29] However, the Commission later determined that these orders would provide important benefits to the public interest, even after Order No. 436 programs were implemented, and extended the authorizations because they allowed for the release by pipelines of shut-in, above-market-priced gas which could be sold by producers at market clearing prices. The public interest was served by the releases because pipelines could by this means obtain take-or-pay relief, producers were able to sell gas and generate cash flow, and increased gas sales made the natural gas market more price sensitive.[30]

The Commission has granted LTA authorizations not only for individual producers but also for applications filed by pipelines on behalf of their producer-suppliers.[31] The Commission recognized that this was an extension of *Felmont supra*, and granted such pipeline applications because:

> Based upon [the pipeline's] assertions that it has substantially reduced takes from all of its producer-suppliers and that it may be unable to take even minimum volumes of gas to protect against drainage and well or reservoir damage, and upon our own review of [the pipeline's] demand and supply projections for 1986 and 1987, we have determined that the requested abandonment is permitted by the public convenience [or] necessity.[32]

The LTA orders have stated that any release is a matter of mutual agreement between the pipeline and its producers. The authorizations merely allow the release, but do not mandate it. Each producer is free to determine whether it wishes to enter into the release arrangement. Second, administration of the program by the pipelines must be on a non-discriminatory basis. Furthermore, the authorizations do not alter the pipelines' responsibilities to meet service obligations under their certificates. The pipelines' decisions to release gas constitute purchasing practices subject to review in rate proceedings. Third, the authorizations granted do not provide for blanket transportation, and transportation authorization must be obtained through other proceedings.

The changed gas marketing environment after the NGPA also prompted the Commission to authorize abandonment on a generic basis under Order No. 451.[33] This new rule provides an alternative maximum lawful price (MLP) for older vintages of gas under NGPA sections 104 and 106 (old gas). It also establishes a good faith negotiation procedure. The negotiation procedure is available to a producer who sells old gas under an interstate contract or the service obligation of a certificate in effect on July 18, 1986, that provides for escalation of the contract price to a higher MLP. This negotiation rule grants such producers abandonment if the producer seeks a higher price for its old gas, is unable to reach agreement with the purchaser on a suitable price, finds another purchaser, and gives 30-days written notice to the existing purchaser. The rule further grants the seller, with respect to the abandoned gas, a blanket certificate authorizing sales for resale in interstate commerce, with pre-granted abandonment upon termination of any contract. In addition, the rule grants abandonment for the benefit of purchasers in certain circumstances. In response to a producer's request for a higher price for old gas, the purchaser may seek a lower price for any gas in any contract with the producer which includes old gas. The purchaser may terminate purchases of any such gas on which no agreement as to price is reached, and abandonment authority is granted for any such gas that is subject to the Commission's NGA jurisdiction.

The abandonment provisions under Order No. 451 are not available for gas sold under interstate contracts that do not provide for escalation of the contract price to a higher MLP, or for gas sold under intrastate rollover contracts. However, the price of gas sold under such contracts may be increased up to the new higher MLP if the producer can nevertheless secure the purchaser's agreement to a higher price.

In support of the rule the Commission stated:

> Abandonment under the good faith negotiation rule is in the public interest, since it is necessary to ensure that the goals of Order No. 451 of increased production of old gas and overall lower prices * * * are achieved. Those goals cannot be achieved unless producers can obtain the market-responsive prices permitted by the rule. Without the possibility of abandonment, purchasers under existing contracts could prevent producers from obtaining those prices by insisting on continuation of the present price. In addition, requiring individual producers to file abandonment applications and considering those applications on a case-by-case basis is an inadequate solution. That would cause lengthy delays before abandonments could be granted, given the vast number of producers in the nation and the Commission's limited resources. Achievement of the goals of increased production and lower overall prices would thereby be substantially delayed. Thus, granting abandonment in the present proceeding, if the conditions set forth in the good faith negotiation rule are met, is in the interest of the natural gas market as a whole and is necessary to bring about market-responsive prices for old gas and overall lower prices.[34]

### *B. The Need for the Rule*

Under the NGA the Commission had concluded that service obligations should not be limited to the contractual term between the parties.[35] To permit the contract term to govern the service obligation would allow the parties to avoid the Commission's authority over abandonment. Thus, the Commission's prior policy attempted to ensure that the interstate market would not be subject to limitations of supplies because of competition from the unregulated markets.

Furthermore, the prior policy on abandonment protected pipelines, which had substantial capital investment in the facilities to deliver the gas, from being cut-off from their supplies. The crux of that policy was that under the NGA, it was "Congress' purpose to regulate the supply and price of natural gas." [36] However, Congress significantly changed the method of achieving this desired objective in enacting the NGPA by permitting market forces, to a very large extent, to regulate price and

[35] *Sunray, supra*, text at n.5.

[36] United Gas Pipe Line Co. v. McCombs, 442 U.S. 529, 539 (1979). The Commission notes that in *Sunray*, the court held that another reason for permitting the Commission to issue certificates of indefinite duration was to prevent producers from obtaining, at the contract expiration date, a higher price as an initial rate under a new certificate. The Court reasoned that to consider sales after the contract expiration as new service under a new certificate would force the Commission to test the reasonableness of the rate under NGA section 5(a), where the Commission has the burden of proof and where experience had shown the procedure to be subject to great delays, and would avoid the rate-change procedures of NGA section 4(e), where the producer has the burden of proof and rates can be temporarily suspended, and implemented subject to refund, pending issuance of a final rate order. This distinction between the effective date and burden of proof concerning producers' rate increases under new service and a continuation of existing service is no longer relevant because Congress has provided in NGPA section 601(b) that for purposes of NGA sections 4 and 5, ceiling prices under the NGPA are deemed to be "just and reasonable."

supply. The conversion of the natural gas market to a nationwide market has virtually eliminated the need for the Commission's prior abandonment policy, because the NGPA has eliminated the dual (inter and intrastate) markets altogether by establishing a single national market where both interstate and intrastate gas purchasers have equal access to new gas production without substantial price disparity, "to assure adequate supplies of natural gas at fair prices." [37]

The Commission believes that the continuation of service obligations after the contract has expired prevents market forces from operating to the extent envisaged under the NGPA, and frustrates the parties' agreements. To the extent that either a producer or a purchaser concludes that it no longer wishes to continue its contractual arrangement after the contract has expired, Congress' NGPA policies are thwarted by policies that interfere with parties' bargained-for arrangement. Thus producers with contracts for the sale of gas at prices that may be less than the replacement cost of gas reserves should be permitted to seek the market price up to the maximum lawful price for that gas once the contract terminates. Similarly, purchasers should not be required to continue purchasing relatively high-priced gas when the contract term expires, unless it is in their interest to do so. In that situation, the purchaser, and not the Commission, should determine whether it wishes to continue purchasing under the contract. Expedited abandonment procedures, such as those in this proposed rule, are necessary to ensure that the parties are not required to continue selling or purchasing gas where the marketplace provides a better alternative than their expired or terminated contractual arrangement. Requiring sellers to continue selling gas at a lower price than the gas commands in the market, or requiring the purchaser to continue purchasing the gas where it could satisfy its requirements with lower-priced gas, may prevent the gas being priced at its real value to the economy. Accordingly, the proposed rule would treat both producers and purchasers evenhandedly and allow either party to terminate its purchase or sale obligation when the contract term expires without the need to obtain Commission approval on a care-by-case basis. [38]

Dedication and abandonment do not, at a particular moment in time, impact the total gas supply available to the market as a whole. Continuation of the dedication after expiration or termination of a contact merely places restraints on the movement of the gas, preventing it from going from one group of customers to other customers who may have a greater need for it. When there were distinct markets prior to the NGPA, dedication and abandonment arguably helped achieve the goals of the NGA. However, even under the NGA, natural gas shortages were a recurring phenomena, and to some extent abandonment policies exacerbated the shortages because where gas surpluses existed on certain pipeline systems, the surplus gas could not readily be utilized to alleviate gas shortages existing on other pipeline systems. If supplies were free to move quickly, as contemplated under this rule, the nation's entire gas supply could be more efficiently utilized to satisfy consumer needs, thereby allocating the gas supply as the economy dictated rather than in accordance with "dedicated reserves," as under the current policy.

The Commission notes that a study prepared by the Commission's Office of Pipeline and Producer Regulation (OPPR), entitled "Dedicated Interstate Gas Supply, Potential Supplemental Sources and Their Effects on Meeting Potential Demand" (April 1987), provides information relevant to the evaluation of the need for the rule, and is attached as Appendix A. The study indicates that at the present time the reserves of dedicated gas subject to the Commission's certificate and abandonment authority are serving a diminishing role in satisfying total nationwide natural gas requirements of residential and commercial customers. Dedicated production is estimated to have been between 5.1 and 5.2 Tcf in 1985 while total U.S. residential and commercial consumption in 1985 in interstate and intrastate markets amounted to 6.8 Tcf. Accordingly, assurance of supply to these customers cannot come solely from dedicated reserves.

The OPPR study also indicates that future supply for these customers must increasingly come from sources other than dedicated gas. New reserves that are dedicated account for a decreasing percentage of total new reserve additions and will continue to decrease in the future because the NGPA "prevents the universe of gas subject to the NGA from expanding." [39] Yet, dedicated reserves provide a disproportionate amount of production. In 1985, for example, dedicated reserves provided an average of 58% of dedicated and/or contractually committed production [40] while comprising only 45% of reserves dedicated and/or contractually committed to interstate pipelines in 1985. This disparity between the addition of reserves and production has caused dedicated reserves to decline approximately 10% per year since 1976.

Finally, the OPPR study estimates the potential for supplemental sources to meet gas requirements. The 1987 U.S. surplus deliverability is estimated at 3.6 Tcf but, since this surplus may be exhausted in the near future, other supplemental sources were evaluated. Fuel switching by dual fuel industrials and electric utilities, infill drilling, and imports could potentially make available a range of 3.92 to 7.69 Tcf in one year and up to 10.44 Tcf in two or more years. The potential of this range of supplemental sources is dependent upon alternative fuel availability, market price signals that encourage production of the supplemental supplies, and the absence of bottlenecks that prevent access to the available gas. However, one important fact noted by the study is that an oil supply disruption would increase demand for gas and possibly eliminate the estimated supplemental gas potential of 5.64 Tcf from fuel switching.

As the OPPR study indicates, dedicated reserves have diminished to the point that they already appear questionable in meeting the demands of total U.S. high-priority customers, [41] and are estimated to continue dwindling. Therefore, it is obvious that the purpose of the Commission's certificate and abandonment policy during the 1970's of maintaining enough dedicated reserves to protect high-priority customers in the interstate market against possible shortages cannot possibly be realized in the future by denying applications for abandonment.

---

[37] See Transcontinental Gas Pipe Line Corp. v. State Oil and Gas Board of Mississippi, 106 S. Ct. 709, 710 [1986].

[38] Termination of the sale or purchase obligation will not, of course, affect the parties' contractual rights and obligations arising prior to the termination.

[39] *Pennzoil Co.* v. *FERC*, 645 F.2d 360, 380 (5th Cir. 1981).

[40] In this context, contractually committed production means production that is committed to an interstate pipeline under a contract, but is not subject to the Commission's NGA jurisdiction as are "dedicated reserves."

[41] The OPPR estimate for residential and commercial use does not exactly correspond to the definition of "high priority users" under section 401(f)(2) of the NGPA. The estimate includes commercial establishments consuming more than 50 Mcf on a peak day that would not be "high priority" and excludes "high priority use" for life, health, and maintenance of physical property.

Interstate pipelines and local distribution companies cannot rely on the authority of the Commission under section 7(b) of the NGA to deny contested applications for abandonment to meet their duty of assuring an adequate supply of reasonably priced natural gas to their high-priority customers. As a matter of hindsight, it is apparent that the Commission's ability to deny abandonment was never an effective means of securing gas supplies for the interstate market. The effort to secure supplies for the interstate market by attempting to force producers to sell gas beyond the terms of their contractual commitments at prices that were less than they could receive from other potential purchasers was ultimately a failure, as the recurring shortages in the interstate market during the 1970's made abundantly clear.[42]

While the proposed rule will not detrimentally affect high priority customers' assurance of supply, the rule will provide three related economic benefits. First, the rule would increase competition by allowing more gas to enter the market. Purchasers may have an opportunity to lower their gas costs which in turn, would exert pressure on other sellers of gas to reduce prices. Further, in contrast to limited term abandonments, dedicated gas abandoned under the rule would be available for purchase under either short- or long-term contracts. This maximizes the competitive effect by allowing the gas to be purchased in the most highly valued manner: As a spot purchase, a long-term contract to ensure supply reliability, or something between.

The second economic benefit of the rule is that it increases high-priority user's access to gas. If expired contracts are not abandoned, high priority customers are not expected to have access to all of the existing dedicated production. Some pipelines are likely to have dedicated production in excess of their customers' high priority usage. But that excess dedicated production would not be available to other high priority users. However, under the rule, the free market's ability to move reserves among different systems and regions in response to consumers' demands would be enhanced.[43]

Closely related to the other two economic benefits is the improved allocation of society's resources. The OPPR study indicates that additional supplies of gas from various sources will quickly become available under adequate price incentives. However, if underpriced dedicated gas continues to be sold under expired contracts, unregulated market prices will be distorted upward. The distorted price response to any future gas shortage will then induce more supply from supplemental sources than is socially optimal. The rule will remove this distortion, allowing the market to allocate more optimally the use of gas, alternative fuels, and other resources associated with the "potential supplemental sources of gas supply."

The new rule will provide economic benefits to the market as a whole. The standard used in *Felmont* and in Order No. 451, of balancing the particular purchaser's needs and the needs of the market as a whole, provides support for the proposed rule.

The Commission believes that security of supply can best be achieved under the NGPA's schedule of decontrol by permitting producers and purchasers of natural gas to buy and sell gas in accordance with their contractual commitments, free of the constraints of any requirement to seek Commission approval on a case-by-case basis. The mechanism of a free market will provide adequate gas supplies to pipelines to meet their customer's demands, and in the event of a shortfall of supply, gas will be allocated on individual pipelines in accordance with Commission approved curtailment plans. It is possible that a disruption could be so severe that market forces would not satisfy the supply needs of high priority users. Under this emergency condition, Title III [44] of the NGPA provides authority to the President to allocate natural gas supplies to meet those needs from any available source of gas, without regard to whether such gas is subject to the Commission's NGA jurisdiction. This authority under Title III provides a more effective way to deal with any emergency shortage of natural gas supply than the Commission trying to anticipate such an event by refusing to permit abandonments. In addition, in both times of surplus and shortage, nothing in the proposed rule will alter the continued sales service obligations of pipelines to their customers, unless revised by the Commission after case specific review under the NGA.

For all the reasons stated above, the Commission also believes that parties to gas purchase contracts should be free to terminate their contractual arrangements either permanently or for a limited period without Commission approval on a case-by-case basis. Given the limitations on Commission resources, requiring such individual approval serves no useful purpose and merely imposes an unnecessary step that injects uncertainty, and delays the parties from consumating sales which would benefit the public interest in general. It should be noted, however, because a pipeline's decision to release gas constitutes a purchasing practice, a pipeline's agreement to modify contracts will be subject to scrutiny in rate proceedings. This rule does not preclude parties from challenging any release of gas by a pipeline in future rate cases, where the pipeline has voluntarily agreed to enter into such arrangement.

The goal of assuring high-priority users an adequate supply of gas can thus be furthered by removing regulatory impediments to the efficient operation of the forces of supply and demand in a competitive natural gas market.

## III. Discussion

### *A. The Proposed Rule*

The proposed rule will be applicable to "first sales" of gas as defined in the NGPA and to purchases by a pipeline from producers or another pipeline. The rule permits any party to a contract for such a sale, once the contract term has expired or has been terminated by exercise of an option contained therein, to notify the other party that it will cease sales or purchases under the contract at the expiration of thirty days from the date of notification or the notification period in the contract, whichever period is longer. The rule also applies where the parties to the contract have mutually agreed to terminate, or modify the contract. Termination or modification of the parties' certificate obligations becomes effective in accordance with the parties' agreement.

Where a pipeline is abandoning purchases of gas from a producer, abandonment under the proposed rule will be conditioned upon providing for the transportation of the abandoned gas. If the abandoning pipeline is not an open-access transporter subject to the non-discrimination provisions of § 284.8(b) or § 284.9(b) of the

---

[42] The bizarre situation of natural gas shortages in the interstate market concurrent with a glut of natural gas in certain intrastate markets, was a compelling factor leading to enactment of the NGPA.

[43] Moreover, the nation's broader energy security interests will be served by the removal of regulatory impediments to the marketing of natural gas by reducing the vulnerability of the economy to oil supply disruptions. Oil shortages can be ameliorated by the ability of many boiler fuel users to switch to gas, if gas reserves can be quickly brought to market without the delay of abandonment proceedings before the Commission. (U.S. Department of Energy, *Energy Security: A Report to the President of the United States* at p. 40 (March 1987)).

[44] 15 U.S.C. 3361 *et. seq.* (1982).

Commission's regulations, transportation will be available under § 284.227, a blanket transportation provision similar to that promulgated in Order No. 451.

Authority to abandon the purchase or sale of gas is granted automatically upon compliance with the above conditions. The rule further provides for the grant of a blanket certificate to the producer or other first seller under § 157.301 of the Commission's regulations to sell the abandoned gas for resale in interstate commerce, with pregranted abandonment of any sale of the gas under the blanket certificate upon termination of the contract.

The abandoning party, or the purchaser if the abandonment is mutually agreed to, must notify the Commission of the abandonment within thirty days after the effective date of the abandonment, and shall provide the Commission with certain information concerning the abandoned transaction.

The rule will apply to all contracts between producers and pipelines, and will not be limited to contracts containing an indefinite price escalation clause, as under the good faith negotiation procedures of Order No. 451. Thus all gas sold under any expired contract will be eligible for price renegotiation or abandonment.[45] In addition, purchases under expired contracts between pipelines would be covered by this proposed rule, although beyond the scope of Order No. 451.

*B. Hearing Requirement and the Legal Basis for the Commission's Action*

Once gas reserves have been committed to an interstate pipeline, any sales from these reserves cannot be made to another purchaser without Commission approval under section 7(b). In other words, a producer cannot cease service to an interstate pipeline without a Commission grant of abandonment authority. Abandonment, while typically considered on a case-specific basis, has been generically authorized.[46] The ultimate criterion in determining whether abandonment should be granted under section 7(b) is the public interest.[47] As stated above, the Commission believes that the Congressional policy of achieving market-responsive pricing of gas that is embodied in the NGPA would be furthered by permitting generic abandonment as provided herein. Permitting both producers and purchasers to terminate obligations which they consider disadvantageous in the present market would help further the objective of achieving an equilibrium between supply and demand because gas would move more readily to the market that needs it and at the same time diminishing surplus deliverability in markets where it is not needed. Therefore, the Commission believes that, where contracts have expired and other conditions set forth in the rule are met, abandonment is in the interest of the natural gas market as a whole and is necessary to bring about a closer equilibrium between supply and demand.

In this proceeding, the Commission will consider all relevant factors involved in determining the overall public interest. The Commission believes that generally a purchaser's loss of gas under abandonment provisions where contracts have expired should not cause it, or the market it serves, to experience a shortage of supply. The move to market-responsive prices for new gas over the last eight years under the NGPA has already eliminated shortages of gas. Permitting old gas covered by expired or terminated contracts to enter the gas market will ensure that present adequate supplies of gas continue into the foreseeable future. Therefore, there is no reason to believe that purchasers losing supplies under this rule should have difficulty replacing those supplies. In addition, the increased flexibility of supply brought about by this rule should allow purchasers to replace lost supplies at reasonable prices.[48] Of course initially at least, some persons, particularly those who benefitted from the distortions inherent in the continuation of expired contracts with low fixed prices, may experience price increases. However, such isolated instances are outweighed by the benefits to the market as a whole described above.

The present rule is consistent with section 7(b). Abandonment authorization is, and will continue to be required, for gas still subject to the NGA. Where the conditions described in this rule are met, the Commission grants abandonment authorization by the rule. Where the conditions are not met, a party must seek abandonment authorization by a specific filing. In enacting the NGPA Congress limited the role of dedication under the NGA in regulating the nation's gas supply by legislating a continued diminution of dedicated reserves with the passage of time. Security of supply at reasonable prices was to be achieved by the working of the incentive price provisions and free market forces. This rule merely accelerates that process in light of the success of the NGPA along with other economic factors in creating a competitive wellhead market.

For the reasons stated, the Commission believes that the present and future public convenience or necessity would permit abandonment when the parties' contract has expired or the parties have agreed to such abandonment, because the abandonment will serve the overall interest of all participants in the natural gas market. The proposed rule permitting abandonment on a generic basis is limited to expired contracts, contracts terminated in accordance with a provision of the contract, or terminated or modified by mutual agreement of the contracting parties. Accordingly, there can be no conflict with the *Sierra-Mobile* doctrine [49]

---

[45] Where the contract has not expired and the parties cannot mutually agree upon termination or a modification, a party may seek abandonment under other Commission procedures, including, 18 CFR 2.77 (1986), *supra* pp. 4–5, which provides expedited procedures where the producer is subject to substantially reduced takes, or abandonment is sought in connection with take-or-pay buy-out arrangements.

[46] FPC v. Moss, 424 U.S. 494 U.S. 494, 501 (1975); Order No. 436, *supra*.

[47] *Transco, supra.*, n. 10.

[48] In short, the Commission relies on market forces to assure that purchasers have adequate supplies at reasonable cost. Such reliance on market forces in the context of NGA section 7(b) is supported by the Supreme Court's decision in FCC v. WNCN Listeners Guild, 450 U.S. 482 (1981). That case involved a similar requirement that the Federal Communications Commission (FCC) determine whether the "public interest, convenience, and necessity" permit radio station license renewals or transfers. Among the factors to be considered in making the necessary determination is whether granting the renewal or transfer will promote diversity in entertainment programming. The FCC issued a policy statement that it would not consider this in individual cases since it would rely on market forces to promote diversity. The Supreme Court upheld the policy statement, finding that the FCC had provided a rational explanation of its reliance on the market. The Court noted that an agency's decision "must sometimes rest on judgment and predictions rather than pure factual determination", 450 U.S. 581. The Commission here has provided a detailed explanation why under this rule market forces should assure adequate supplies at reasonable costs, and would provide for a more efficient utilization of the nation's natural gas supply.

[49] Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956); United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956); United Gas Pipe Line Co. v. Memphis Light, Gas & Water Division, 358 U.S. 103 (1958). The doctrine established in these cases recognizes that the NGA preserved the integrity of private contracts, and that the scheme of the NGA was one applying the regulatory system on the foundation of private contracts. The NGA did not abrogate private contracts, but simply provided protection to the public interest through the statutory filing procedures and notice requirements.

because the Commission action is in conformity with the parties' contractual agreement.

To the extent that the Commission adopts the proposed rule, the present rulemaking proceeding would satisfy the hearing requirement under NGA section 7(b). That hearing requirement will be satisfied by the opportunities to file comments in this proceeding. Section 7(b) does not require that the Commission hold individual case-by-case hearings.[50] The Commission may determine in this proceeding that the public interest permits abandonment where the underlying contract has expired or has been terminated or modified by agreement. If so, it would make no sense for the Commission to require individual producers to file abandonment applications and to hold a hearing on each application for abandonment under such a contract. Given the large number of certificates where the underlying contract has expired or may be terminated or temporarily modified by mutual agreement, that procedure could result in a very large number of hearings.[51] The inevitable result would be lengthy delays before individual abandonments could be granted because of the Commission's limited resources, which would seriously impede the achievement of this rule's goals of permitting the market allocation of gas that Congress intended in enacting the NGPA. As the Supreme Court stated in *Texaco* v. *FPC*, "We see no reason why under this statutory scheme the processes of regulation need be so prolonged and crippled." [52]

[50] *See Phillips Petroleum Co.* v. *FPC*, 475 F.2d 842, 848–852 (10th Cir. 1973), and *American Public Gas Ass'n.* v. *FPC*, 567 F.2d 1016, 1064–1067 (D.C. Cir. 1977), holding that the Commission may establish area and national rates in rulemaking proceedings as opposed to case-by-case adjudications without violating the similar hearing requirements of NGA sections 4 and 5. *See also FPC* v. *Moss*, 424 U.S. 494, 500–501 (1976), stating that the Commission has discretion to determine the timing of its finding that the public convenience or necessity permits abandonment, including the discretion to pre-grant abandonment on a generic basis, even though years may elapse before the abandonment actually occurs.

[51] The Commission notes that in the short time that LTA programs have been in effect, almost half of the major interstate pipelines have filed for LTA's on behalf of their producer-suppliers. Furthermore, the number of abandonment applications filed with the Commission has increased from 455 in 1985 to 792 in 1986, and the number of abandonments granted by the Commission has increased from 569 in 1985 to 792 in 1986.

[52] 377 U.S. at 38, 44 (1964). *See also Phillips Petroleum Co.* v. *FPC*, 475 F.2d at 849, 851, citing *Permian*, 380 U.S. at 777, holding the Commission has broad discretion to contrive expeditious administrative methods in order to achieve its regulatory purposes.

## V. Request for Comments

At the request of Commissioner Charles G. Stalon, the Commission seeks comments on the following questions:

1. The Commission is concerned that the benefits meant to accrue from the adoption of this Notice of Proposed Rulemaking may not be fully realized by captive residential customers of local distribution companies because of the unavailability of Order No. 436 transportation. Under Order No. 436, firm customers have the ability to reduce firm sales entitlements or convert firm sales entitlements to firm transportation. Without the right to sign long-term contracts with producers that include assured transportation, captive customers may not be able to realize the benefits of competitive wellhead markets. The Commission, therefore, seeks comments on modifying the proposed rule to condition the blanket abandonment authorized under the rule on the pipeline purchaser providing Order No. 436 transportation.

2. The Commission also seeks comments on modifying its proposal to require pipeline purchasers to transport from producer sellers in cases where the producer initiates the abandonment.

At the request of Commissioner Charles A. Trabandt, the Commission seeks comments on the following questions:

1. The Commission is interested in receiving comments with regard to the extent to which the Commission, pursuant to section 7(b) of the Natural Gas Act, may grant its permission and approval of this generic abandonment rule, after due hearing, and a finding that the present or future public convenience or necessity permit such abandonment. The Commission is particularly interested in the extent to which such a finding may be based upon (1) a general public interest test placing primary emphasis on beneficial effects of the abandonment on the overall natural gas market rather than an individual producer-pipeline specific standard; (2) an analysis placing primary reliance on national market forces as a substitute for the traditional concept of dedication and abandonment in achieving the statutory objective of section 7(b); (3) an interpretation of law placing primary emphasis on general Congressional intent embodied in the Natural Gas Policy Act of 1978, as interpreted by the Courts, and the application of recent Commission precedent under section 7(b) particularly *Felmont* and the LTA cases and; (4) an approach incorporated in the proposed rule providing prior generic approvals of qualified abandonments conditioned on filing of a report and, in certain situations, a transportation service requirement, rather than a case-by-case determination after prior notice and comment. The Commission also is particularly interested in the extent to which "the present or future public convenience or necessity" should be deemed as a matter of law or as a matter of policy to require the Commission to consider whether and how natural gas consumers are provided with an assured and reliable supply of natural gas under applicable judicial precedent.

2. The Commission seeks comments on modifying its proposal to provide for a one-year Limited-Term Abandonment using the same generic approach and procedures, rather than the permanent abandonment included in the proposed rule.

## VI. Initial Regulatory Flexibility Analysis

Whenever the Commission is required by section 553 of the Administrative Procedure Act (APA) [53] to publish a general notice of proposed rulemaking, it is also required by section 603 of the Regulatory Flexibility Act (RFA) [54] to prepare and make available for public comment an initial regulatory flexibility analysis. The analysis must describe the impact the proposed rule will have on small entities. The broad purpose of the RFA is to ensure more careful and informed agency consideration of rules that may significantly affect small business and small government entities, and to encourage cost-benefit analyses of these rules, as well as the agency's consideration of alternative approaches that may better resolve any unnecessarily costly or adverse effects on these small entities. The Commission is not required to make an RFA analysis, however, if it certifies that a rule "will not, if promulgated, have a significant economic impact on a substantial number of small entities." [55]

In this notice of proposed rulemaking, the Commission presents its reasons for this agency action, its objectives, and the legal basis for this rulemaking. As discussed above, the proposed rule would allow all producers and purchasers, many of which would probably be classified as small businesses,[56] to abandon a certificated

[53] 5 U.S.C. 553 (1982).

[54] 5 U.S.C. 601 through 612 (1982).

[55] 5 U.S.C. 605(b) (1982).

[56] 5 U.S.C. 601(c), citing to section 3 of the Small Business Act, 15 U.S.C. 632 (1982). Section 3 of the Small Business Act defines small business concerns

Continued

obligation upon the underlying contract's expiration, termination in accordance with a provision of the contract, or the parties' mutual agreement to terminate or temporarily suspend the contract, by notification to the other party of its intention to do so at the expiration of the notice period. Abandonment would be granted automatically, and the need for filing an application for abandonment with the Commission would be eliminated. The only requirement imposed on the abandoning party is notifying the Commission of the action taken. The rule will thus benefit small producers by permitting them to abandon sales in a simple and expeditious manner at minimal cost.

Since the impact of the proposed rule on small producers is expected to be beneficial, the Commission does not believe that the economic impact will be "significant" within the meaning of the RFA. Pursuant to section 605(b), the Commission certifies that the rule, if promulgated, will not have a "significant economic impact on a substantial number of small entities".

## VII. Paperwork Reduction Act Statement

The information collection provisions in this proposed rule are being submitted to the Office of Management and Budget (OMB) for its approval under the Paperwork Reduction Act [57] and OMB's regulations.[58] Interested persons can obtain information on the proposed information collection provisions by contacting the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426. (Attention: Peg Covello, Energy Validation Data Branch, (202) 357–5402). Comments on the information collection provisions can be sent to the Office of Information and Regulatory Affairs of OMB, New Executive Office Building, Washington DC 20503 (Attention: Desk Officer for Federal Energy Regulatory Commission).

## VIII. Comment Procedures

The Commission invites interested persons to submit written comments, data, views, and other information concerning the matters set out in this notice including the questions in Part V, *supra*. An original and 14 copies of comments should be filed with the Commission by June 18, 1987. Comments should be submitted to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, and should refer to Docket No. RM87–16–000. All written submissions will be placed in the Commission's public files and will be available for public inspection through the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, DC 20426, during regular business hours.

## List of Subjects

*18 CFR Part 157*

Administrative practice and procedure, Natural gas, Reporting and recordkeeping requirements.

*18 CFR Part 284*

Continental Shelf, Natural gas, Reporting and recordkeeping requirements.

In consideration of the foregoing, the Commission is proposing to amend Parts 157 and 284, Title 18, Code of Federal Regulations, as set forth below.

By direction of the Commission. Commissioner Trabandt concurred in part and dissented in part with a separate statement attached.

**Kenneth F. Plumb,**

*Secretary.*

## PART 157—[AMENDED]

1. The authority citation for Part 157 continues to read as follows:

**Authority:** Natural Gas Act, 15 U.S.C. 717–717w (1982); Department of Energy Organization Act, 42 U.S.C. 7101–7352 (1982); E.O. 12009, 3 CFR 142 (1978); Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432 (1982).

2. The table of contents for Part 157 is amended by adding a new section to Subpart A to read as follows:

Sec.

* * * * *

157.21 Abandonment of purchases.

3. Part 157 is amended by adding a new § 157.21 to Subpart A to read as follows:

### § 157.21 Abandonment of purchases.

(a) A purchaser subject to the Commission's jurisdiction under the Natural Gas Act is authorized, upon 30-days written notice to the seller, or any longer notice period required by contract, to abandon purchases of natural gas from any first seller or pipeline, subject to the provisions of paragraph (c) of this section, under a contract that has expired or has been terminated by the purchaser under any provision of the contract.

(b) A purchaser subject to the Commission's jurisdiction under the Natural Gas Act is authorized to abandon purchases of gas from any first seller or pipeline in accordance with the terms of any contract under which the purchase obligations have been modified or terminated by agreement of the parties to the contract.

(c) A purchaser that is an interstate pipeline not subject to the non-discriminatory access provisions of § 284.8(b) or § 284.9(b) of this chapter that abandons purchases of gas under paragraph (a) of this section from any seller that is not a pipeline must transport the gas in accordance with § 284.227 of this chapter. The notice required under paragraph (a) of this section must indicate the conditions under which such gas will be transported.

(d) A purchaser that abandons purchases of gas under this section must file a report with the Commission within 30 days of the date that purchases are terminated providing the following information:

(1) The name of the former seller;

(2) A description of the certificate authority under which the former seller sold the abandoned gas;

(3) A description of the contractual authority under which the purchases were terminated; and

(4) If the abandonment is partial, a description of the acreage from which purchases were terminated and acreage from which purchases continue.

(e) For purposes of this section, the term "first seller" means any seller that engages in a sale of natural gas that is a "first sale" under section 2(21) of the Natural Gas Policy Act of 1978.

4. In § 157.30, paragraph (a) is amended by adding the phrase, "Except as provided in paragraph (c) of this section," to the beginning of the paragraph, and paragraphs (c) through (f) are added to read as follows:

### § 157.30 Abandonment of service.

* * * * *

(c) A first seller is authorized, upon 30-days written notice to the purchaser, or any longer notice period required by contract, to abandon sales of gas to any purchaser except a local distribution company under a contract that has expired or has been terminated by the seller under any provision of the contract.

(d) A first seller is authorized to abandon sales of gas to any purchaser, except a local distribution company, in accordance with the terms of any contract under which the sales obligations have been modified or terminated by agreement of the parties to the contract.

---

as a business which is independently owned and operated and which is not dominant in its field of operation.

[57] 44 U.S.C. 3501 through 3520 (1982).

[58] 5 CFR 1320.12 (1986).

(e) Unless the former purchaser agrees to file a report of the abandonment under § 157.21(d), a seller that abandons sales of gas under paragraph (c) of this section must file a report with the Commission within 30 days of the date that sales are terminated providing the following information:

(1) A description of the certificate authority under which the abandoned sales were made;

(2) The name of the former purchaser;

(3) A description of the contractual authority under which the sales were terminated; and

(4) If the abandonment is partial, a description of the acreage from which sales were terminated and acreage from which sales continue.

(f) For purposes of this section, the term "first seller" means any seller that engages in a sale of natural gas that is a "first sale" under section 2(21) of the Natural Gas Policy Act of 1978.

5. Amend § 157.301 by revising paragraph (a) to read as follows:

**Subpart G—Natural Gas Producer Blanket Authorization for Sales and Abandonment**

**§ 157.301 Blanket certificate authority, pregranted abandonment, and reporting requirements.**

(a) *Blanket certificate authority.* Any first seller of natural gas that is authorized to abandon the sale of gas under § 157.30(c) or the good faith negotiation procedures set forth in § 270.201 of this chapter is granted a certificate of public convenience and necessity to sell such gas for resale in interstate commerce, subject to the reporting requirements of paragraph (c) of this section.

* * * * *

**PART 284—[AMENDED]**

6. The authority for Part 284 continues to read as follows:

**Authority:** Natural Gas Act, 15 U.S.C. 717–717w (1982); Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432 (1982); Department of Energy Organization Act, 42 U.S.C. 7107–7352 (1982); E.O. 12,009, 3 CFR 142 (1978).

7. The table of contents for Part 284 is revised by adding a new section to subpart G to read as follows:

Sec.

* * * * *

284.227 Transportation by interstate pipelines of gas released under generic abandonment procedures.

8. Part 284 is amended by adding a new § 284.227 to read as follows:

**§ 284.227 Transportation by interstate pipelines of gas released under generic abandonment procedures.**

(a) *Applicability.* This section applies to any interstate pipeline that must transport natural gas under the abandonment provisions of § 157.21 of this chapter.

(b) *Blanket certificate.* An interstate pipeline is granted a blanket certificate of public convenience and necessity that authorizes firm and interruptible transportation of natural gas to any existing customer of the interstate pipeline or to any pipeline to which the interstate pipeline is interconnected, if the sale of the gas is abandoned under § 157.21 of this chapter.

(c) *Terms and conditions of service.* (1) An interstate pipeline that transports gas under a certificate granted by this section is subject to the provisions of paragraphs (c), (d), (e), (f)(1), and (f)(3) of § 284.225.

(2) An interstate pipeline that transports gas under a certificate granted by this section and is not otherwise subject to the non-discriminatory access provisions of § 284.8(b) or § 284.9(b) is not required to transport on behalf of others any gas the sale of which is not abandoned under § 157.21 of this chapter.

Note.—This appendix is not being codified in the Code of Federal Regulations.

**Appendix A—Dedicated Interstate Gas Supply, Potential Supplemental Supply Sources and Their Effects on Meeting Potential Demand—April 1987—Office of Pipeline and Producer Regulation**

**Index**

I. Introduction
II. Executive Summary
III. Analysis
IV. Summary and Conclusion

**I. Introduction**

The purpose of this study is to identify the amount of dedicated interstate reserves (those which require Natural Gas Act (NGA) section 7(b) abandonment to be sold to a new customer) and the ability of these reserves and other supplemental sources to meet gas supply requirements of all gas customers and particularly high priority users in the next several years. The availability of short term supplemental supplies would be instrumental in allowing adequate time for market forces to stimulate drilling and bring on longer term supply.

With the diminution of supplies dedicated to interstate commerce, depressed oil and gas prices, and the significant plunge in gas exploration there is growing pessimism in some quarters about future gas supply.

Currently dedicated reserves are preserved for the interstate market even after the contract to purchase these volumes has expired unless the seller receives abandonment authority. The concern of this study is to investigate the supply and market consequences of a generic policy that facilitates the abandonment of dedicated reserves not currently needed. To analyze the possibilities this study will examine the volume of dedicated reserves, the deliverability of these reserves, and the potential for other supplemental sources to meet high priority gas requirements and other requirements in the near future and in the longer term.

The potential supplemental sources that will be analyzed are: (a) Alternate fuel switching capability, (b) infill drilling, (c) imports, and (d) current surplus deliverability. The potential of these supplemental supplies is aggregated to examine their effectiveness. The oil/gas price relationship is incorporated to investigate the impact of market forces on the effectiveness of these supplemental sources. The study also reviews the ability to respond to a gas or oil shortage with the assistance of these sources under market conditions. The possible use of mandatory allocation mechanisms provided by the Natural Gas Policy Act of 1978 (NGPA) is also considered. Other factors that may inhibit the mobility of the interstate pipeline system to respond are discussed. Finally a brief review of three studies considers the long term supply/demand outlook to the year 2000 and beyond.

**II. Executive Summary**

*Dedicated Supplies*

Gas reserves dedicated to interstate commerce as of January 1, 1986 are calculated to be approximately 38 Tcf. This accounts for 45% of U.S. reserves dedicated under the NGA or legally committed by contract only to interstate pipelines of 85.1 Tcf, and 20% of total U.S. reserves of 193.4 Tcf. Dedicated production for 1985 was approximately 5.2 Tcf. This accounted for approximately 58% of dedicated and/or committed production and 31% of total U.S. production.

A comparison of the reserve and production percentages indicates that dedicated gas reserves are progressively decreasing. Since 1976, dedicated reserves have declined approximately 10% each year. The picture for dedicated and/or committed reserves is brighter. Until the recent gas glut, committed reserves were increasing rapidly enough

to counterbalance the decrease in dedicated reserves.

*Current Surplus Deliverability*

The Office of Pipeline and Producer Regulation (OPPR) estimates 1986 excess deliverability was 4.7 Tcf. The Energy Information Administration (EIA) estimates that the 1987 surplus will be 3.8 Tcf. Uncertainty has arisen over the length of the current surplus.

Even with this current surplus some energy analysts predict peak day shortages in the winter of 1987–88. With the low gas and oil prices, the U.S. drilling rig count in June of 1986 fell to 686 compared to 4,530 at yearend 1981. Gas well completions are projected to drop to 6,800 in 1986, and 6,300 in 1987 from 13,600 in 1985. Several studies predict the gas bubble will be exhausted between 1988 and 1990.

*Potential Supplemental Sources*

Potential supplemental sources of gas supply that might be exploited to meet future demand or deliverability shortages include: (1) Industrial and electric generation fuel switching capability, (2) infill drilling, and (3) imports.

The following chart demonstrates the potential supplemental supplies that may be available on a short term basis to meet any potential shortages.

POTENTIAL SUPPLEMENTAL SOURCES PER YEAR (TCF)

| | Minimum | Maximum |
|---|---|---|
| Fuel Switching of Dual Fuel Industrials | 1.31 | 3.07 |
| Fuel Switching of Electric Utilities | 1.71 | 3.57 |
| Infill Drilling | .10 | .75 |
| Imports: | | |
| Mexico | 0 | .20 |
| LNG | 0 | .10 |
| Canada | .80 | 1.00 |
| Total | 3.92 | 7.69 |
| Two or more years | | 2.75 |
| | | 10.44 |

*Shortages*

The estimated volumes of potential supplies could probably meet shortages of reasonable duration (not a long term oil embargo). This would allow time for expected market-induced price rises to stimulate additional exploration and production of longer term gas supplies. Furthermore, a significant contribution toward a safety margin for residential and commercial consumption (6.8 Tcf in 1985) could be made by these supplemental sources. Pipeline capacity to move the supplemental supplies to the affected markets should generally be available but some capacity bottlenecks could occur.

Mandatory allocation under Title III of the NGPA could be used to move the supplemental supplies to high priority markets if price stimulus does not elicit the supply. While dedicated supplies could help an individual pipeline in a time of shortage, mandatory allocation applies to all supplies moving through interstate pipelines and all boiler fuel gas including intrastate users. Therefore the distinction between dedicated and non-dedicated supply is not necessarily important during a shortage. Dedicated production still plays a significant role as part of total interstate production but with dedicated reserves continuously being depleted, the role of dedicated production is diminishing. Dedicated production has been decreasing almost continuously reaching a low of 4.3 Tcf in 1986 as estimated by OPPR.

**III. Analysis**

*U.S. Gas Supplies Dedicated to Interstate Commerce*

Supplies of natural gas dedicated to interstate commerce peaked at 198.1 Tcf in 1968 but have declined steadily ever since. Prior to the Natural Gas Policy. Act of 1978 (NGPA), dedicated reserves experienced a steady decline from 198.1 Tcf in 1968 to 98.3 Tcf in 1977. With the enactment of the NGPA and associated price deregulation total interstate (dedicated & committed) reserves began to increase beginning in 1979. However as a result of the NGPA, many reserves added after February 19, 1977 were no longer legally dedicated to interstate commerce, just committed under a contract.

The following chart describes the NGPA categories that are still dedicated under section 7(b) of the Natural Gas Act (NGA) and those that are just committed:

STATUS UNDER NGPA [1]

| Section | Subject to price ceiling | Dedicated Under section 7 of NGA |
|---|---|---|
| 102(c) | No | No. |
| 102(d) | Yes | Yes. |
| 103 Committed or dedicated on 4/20/77. | Yes | No. |
| 103 Not Committed or dedicated on 4/20/77. | No | No. |
| 104 | Yes | Yes. |
| 106(a) | Yes | Yes. |
| 105 and 106(b) price greater than $1.00 on 12/31/84. | No.[2] | No. |
| 105 and 106(b) price less than $1.00 on 12/31/84. | Yes | No. |
| 107(c)(1)–(c)(4) | No | No. |
| 107(c)(5) Post 2/19/77 wells. | Yes | No.[3] |
| 107(c)(5) Pre 2/19/77 wells. | Yes | Yes.[4] |
| 108 | Yes | No.[5] |
| 109 | Yes | No.[5] |

[1] As of July 1, 1987.
[2] Unless sold under indefinite price escalator clause.
[3] Per Commission Order No. 406 (NOTE.—Court reversed Commission—on appeal).
[4] If committed or dedicated prior to 11-9-78.
[5] Unless committed or dedicated prior to 11-9-78.

The NGPA catecories that are not dedicated under section 7 of the NGA no longer require abandonment to be sold to other parties. These reserves are committed to interstate commerce in the sense that these volumes are committed by contract to the interstate market but are bound only by the terms of the contract. All dedicated volumes recuire Commission authorized abandonment to terminate sales even if the contract has expired.

OPPR and EIA performed studies attempting to estimate the dedicated reserves remaining. Using different methodologies, the OPPR and EIA estimates were 37.5 Tcf (45%) and 38.5 Tcf (48%), respectively for the 1986, beginning of the year, dedicated reserves. The percentages represent the share of the estimated 1986 total interstate reserves.

OPPR develooed its estimate by using available reserve and production data [1] beginning with 1976 and with the use of extrapolations and regression analysis derived final 1986 and 1987 figures. The year 1976 was chosen as the initial year because it was the last year that all U.S. reserves and production were dedicated. Althouqh the NGPA was enacted in November 1978, certain reserves could qualify as not dedicated (committed) if the production well had a spud date of February 19, 1977 or later.[2] To derive an

[1] The two major sources of data used in the OPPR analysis consisted of: (1) Gas Supplies of Interstate Natural Gas Pipeline Companies 1985 annual report, and
(2) Natural Gas Monthly November 1986, both of these reports are published by EIA.
[2] The spud date is the day drilling of the well begins.

estimate of the 1977 reserve composition, it was assumed that 50% of the net reserve additions were designated as new gas. But to account for new added reserves subject to NGPA section 102(d) (new gas which is discovered on old OCS leases),[3] it was assumed that 13% [4] of the 50% was dedicated. As a result 1977 dedicated reserves added were 57% of the new reserve additions. This 13% figure for section 102(d) gas was subsequently assumed for the years 1978 through 1986, in deriving the net reserve addition composition.

The data points of 1973–76 were used to extrapolate 1977–80 dedicated production. The new production for 1977–80, was obtained by subtracting dedicated from total production. To derive the production composition for the years 1981 through 1985, projected PGA volumes under categories 102(c), 103, 105, 107, and 109 were used to estimate new gas production. The PGA volumes of new gas purchases by NGPA category as shown in Table 5 of the Natural Gas Monthly are assumed to be proportionately correct. New Gas Production for the years 1981–85 was taken from PGA Projected New Gas Production. The sum was divided by the PGA projected total production for the same year. The quotient or fraction was then multiplied by actual total production from FERC Form 15 to obtain an estimate of actual new production. For the years 1981–86, dedicated production was obtained by subtracting new production from total production. The estimated production figure in 1986 was obtained from PGA estimations and extrapolated. Extrapolation was used to calculate total net reserve additions in 1986.

Section 102(d) production was derived by multiplying projected section 102 production volumes by 40% to reflect the portion of 102 production subject to abandonment. The figure is based on an OPPR 1984, section 102(d) production study which estimated 1.1 Tcf of 102(d) production which was 40% of total 102 production in 1984. This OCS gas typically is produced at a much higher production rate than onshore gas, thus any reserve additions of Section 102(d) gas may also be depleted at a high rate.

To calculate the beginning-of-year dedicated reserve volume for 1978, the dedicated production for 1977 was subtracted from the 1977 beginning-of-year dedicated reserve volume and the result added to the 1977 net dedicated reserve additions. The 1978 committed reserve volume was then calculated by subtracting the 1978 dedicated reserve volume from the 1978 total reserve volume. These calculations were repeated for each year 1979 through 1987 (1987 calculations included estimates for total production and net reserve additions for 1986).

The EIA study began with a base year of 1978 end-of-year reserves level. In addition to the same data sources as OPPR, EIA used Dwight's Energy Data. From this data source EIA estimated reserves and production volumes at the regional level and by pipeline. The specifics of the EIA methodology are explained below.

The 1978 end-of-year reserves level from the FERC Form 15 data base was assumed to be the base point from which reserves dedicated under the Natural Gas Act were to be calculated. Since passage of the NGPA in 1978, it was assumed that any new gas reserves contracted to the interstate market were no longer subject to FERC contract abandonment procedures, thus all production from old gas reserves decreased the level of gas still subject to abandonment procedures. Based upon data available at the state and field level for the years 1978 through 1985 (FERC Form 15 merged with Dwight's Energy Data (from which old vs new gas production was discernible)), the percent of old and new gas produced, per field, in each year was developed and decremented from the 1978 end-of-year reserves. This new reserves level (remaining dedicated reserves and additional new gas reserves (post NGPA)), became the end-of-year reserves for the following year, and the calculation repeated for each year 1979 through 1985. The result was a 1985 end-of-year reserve level per field that represented that gas still dedicated as of 1985. The difference between this and the 1985 total remaining reserves represented the level of gas reserves made up of post NGPA reserve additions.

These field specific data were merged with detail 1985 data at the pipeline level. The percent of dedicated reserves (derived by dividing 1978 reserves by computed 1985 remaining old gas reserves) for the field was then used as an approximation of the pipeline's own level of dedicated reserves in the field.

In some specific states and in instances where nonmatches occurred between data sources, a remaining dedicated reserve level and percentage could not be derived. In these instances, and if PGA data were available at either the field or pipeline level, a ratio of old/new gas purchased in 1985 was calculated, and the result then used to impute a level of remaining dedicated reserves. This percent of PGA old gas 1985 purchases was applied to the Form 15 remaining reserves for pipeline/field to arrive at an estimated level of dedicated reserves.

The intermediate totals for reserve and production shown on the tables approximate those published in the EIA publication "Gas Supplies of Interstate Natural Gas Pipeline Companies—1985." They differ primarily in that the published figures include dedicated plant supplies as well as SNG, miscellanous supplies and storage volumes. EIA tables include only gas supplies identified at the wellhead (i.e., the field). EIA reserve and production data does not include any plant gas or storage gas. At the national level the difference is 5 trillion cubic feet of reserves and 300 billion cubic feet of production. These volumes could be dedicated and/or committed.

EIA notes the following data limitations regarding use of Dwight's Energy Data to derive levels of old/new gas production for the years 1978 through 1985:

1. Dwight's does not provide coverage of the northeast and northcentral United States. Purchased Gas Adjustments (PGA) gas purchase levels were used to provide estimated dedication levels in these States.

2. Dwight's does not distinquish between gas produced for the interstate and intrastate markets. As a result, the percentage of old/new gas produced at the field level represented all production regardless.

3. The distinction between pre-NGPA and post-NGPA production is based upon the date of first production for each gas well. Since Dwight's only provides this item of data for gas wells only, old vs new gas production from oil wells could not be calculated.

Old gas levels included NGPA Sections 104, 106(a), and 102(d), as well as Sections 108 and 107(c) sold under contracts effective prior to February 1977. New gas levels included all other production.

The following table compares the EIA and FERC estimates:

[3] NGPA categories section 107(c)(5), pre-February 19, 1977 wells, section 108 if committed or dedicated prior to November 9, 1978, and sections 104 and 105 volumes remained dedicated but there were no additions to dedicated reserves in these categories.

[4] A staff judgement based on NGPA production filings.

| 1986 beginning-of-year dedicated reserves Tcf/% | 1986 beginning-of-year committed reserves Tcf/% | 1985 dedicated production Tcf/% | 1985 committed production Tcf/% |
|---|---|---|---|
| OPPR 37.52(44) | 47.56(56) | 5.24(58) | 3.58(42) |
| EIA 38.54(48) | 41.61(52) | 5.07(59) | 3.53(41) |

Comparing the methodologies and data limitations of the studies, the EIA study does not include approximately 5 Tcf of reserves and 300 Bcf of production that is included in the Form 15 data base (and therefore in the OPPR data) which is reported as plant supplied gas to the interstate market from solution and gas well gas reservoirs and reserves and production from storage. This will account for some of the differences in committed and dedicated reserves and production of the two estimates. Some of the difference in dedicated reserves can be explained by the different beginning base years of early 1977 (OPPR) versus end-of-year 1976 (EIA) for estimating reserve additions. OPPR estimates non-dedicated reserves of 2.2 Tcf at the beginning of 1978 which EIA would consider dedicated. Also EIA evidently assumed all new reserves after 1978 were not dedicated. OPPR assumed an adjustment of 13% to account for NGPA section 102(d) additions to dedicated reserves. EIA was able to use actual projected PGA production figures for sections 106(a), 107(c) contracts dated prior to February 19, 1977, and 102(d) categories. OPPR used estimates of these categories assuming percentages of the totals. OPPR assumed NGPA Section 107(c)(5) production was deminutus and not included. Finally EIA merged PGA and Form 15 data and where there were nonmatches used the lower figure. OPPR did not make these adjustments.

Remaining dedicated reserves fall somewhere in the range of 37.5 to 38.5 Tcf. Dedicated reserves accounted for approximately 45% of total dedicated and committed reserves in the U.S. which were 85.1 Tcf in January of 1986. Dedicated reserves accounted for 20% of total U.S. reserves of 193.4 Tcf. Dedicated production for 1985 was in the range of 5.1 Tcf to 5.2 Tcf. This accounts for approximately 58% of dedicated and committed U.S. production and 31% of total U.S. production.

These estimates of dedicated reserves and production demonstrate a progressive deterioration of this gas supply as a percentage of U.S. total supplies. Dedicated reserves have been declining approximately 10% each year since 1976. Dedicated production still plays a significant role (58% in 1985) as part of total interstate production but with dedicated reserves continuously being depleted, the role of dedicated production is diminishing. Dedicated production has been decreasing every year since 1972 (except 1981) declining to 4.3 Tcf in 1986.

In 1985, total residential and commercial gas consumption in the U.S. was 6.8 Tcf which exceeded dedicated interstate production but represented 75% of 1985 dedicated and committed production. The interstate system is becoming increasingly dependent on contractually committed production and reserves (those not subject to abandonment requirements). The role of dedicated production in serving the residential and commercial market will diminish in the future (see the figure on page III–7)

Gas reserves dedicated and committed in January, 1986 accounted for approximately 44% of total U.S. reserves (85.1 Tcf out of 193.4 Tcf). Dedicated and committed production for 1985 was approximately 54% of the U.S. total production (8.9 Tcf [5] out of 16.4 Tcf).[6] Total interstate reserves (dedicated and committed) were increased from 1978 to 1983 by 6%. Until the U.S. gas surplus ballooned to 3.4 Tcf in 1983, price incentives from the NGPA were effective in maintaining the level of supplies either dedicated or committed to interstate commerce.

The remainder of this study will focus on the ability of the interstate system to respond to short term and long term changes in supply and demand. As gas supplies tighten, market pressures should increase gas prices which will stimulate exploration and drilling. But there will be a lag time between the period when supplies tighten and when increased gas production from these reserves are realized. This study will focus on the supply sources that may be available in the short term (within one year) and near term (2 to 3 years). A look at the ability of gas markets to respond to an oil or gas shortage and views of the long term gas market will be reviewed.

BILLING CODE 6717-01-C

*Current Surplus Deliverability*

The timing of and the need for the following discussed supplemental supply sources is dependent upon when the current gas bubble is exhausted. OPPR estimated that U.S. surplus deliverability was 4.7 Tcf in 1986. EIA estimates that surplus deliverability will be 3.6 Tcf in 1987 with estimated production at 13.1 Tcf and total available deliverability at 16.7 Tcf for non-associated gas in the lower-48 states. For all practicable purposes, the difference between flow capacity and production for associated dissolved gas is considered to be zero.

There is disagreement within the natural gas industry over the length of this annual deliverability surplus and the current peak day supply availability.

The low oil and gas prices have brought a depression to the oil and gas exploration and drilling industry. As of June 9, 1986, only 686 drilling rigs were in service [7] compared to 4,530 units at year end 1981.[8] According to AGA oil and gas completions in the first half of 1986 were down 25% from the first half of 1985 and down 33.2% from the first half of 1984.[9] Gas well completions are projected to drop from a level of 13,600 in 1985 to 6,800 in 1986 and 6,300 in 1987.[10]

A Shearson Lehman Bros. Inc. study estimates that the current surplus will be exhausted in 1988.[11] Joe B. Foster, executive vice president of Tenneco predicts peak day shortages are possible in the winter of 1987–88.[12] He notes that the lower-48 gas reserves inventory is down to 160 Tcf from 260 Tcf in 1970. The surplus has been a result of inventory drawdown, not reserve additions.

As this deliverability surplus approaches exhaustion, market signals should begin to bring spot market gas price increases. The price incentive will enhance the effectiveness of the following mentioned supplemental sources.

*Fuel Switching Capability of Dual Fuel Industrial Users*

The fuel switching capability of dual fuel industrial consumers has historically served as a critical supply source during periods of curtailment and supply shortages. Pipelines and utilities are able to use this dual fuel industrial consumption as a type of storage which can be made available to meet peak day needs and if necessary on a longer term. Due to insufficient data, estimates of this capability vary. The AGA [13] and Dun & Bradstreet Major Industrial Plant Database [14] (MIPD) have collected data on this capability and analyses of these data have been performed by OPPR and EIA [15] respectively.

The AGA study surveys a sample of 37 gas utilities representing approximately 50% of the gas utility industry's industrial/ electric generation markets in 1985.[16] The alternate fuels of the industrial users included under "oil" were identified as residual oil (49%) distillate (36%) and LPG (15%).[17] (In a combined category, identified as "other", alternate fuels of coal, wood, electricity and site-generated waste fuels were separately measured.) The industrial use of the gas or alternate fuel was not identifed.

Firms in the industrial sector which had dual fuel capability with oil represented 52% of gas sales. (In the "other" category an additional 2% capability was reflected.) To derive a volume estimate for nationwide dual fuel capability, OPPR multiplied by this 52% the total natural gas consumption of the U.S. industrial sector which in 1985 was 5.901 Tcf. This product provides an estimate of 3.069 Tcf of dual fuel capability for the industrial sector. (This estimate does not incorporate the capability of those industrial users that could use gas but in 1985 were using oil.)

The MIPD/EIA study provides a review of 1984 data from the 20,000 largest energy consuming plants accounting for over 90% of manufacturing energy use. Residual fuel oil was the only alternate fuel considered in measuring fuel switching capability. The data on the industrial use of gas or residual fuel oil was limited to fuel in dual fired boilers. The MIPD/EIA study limited the analyses to industrial boiler fuel use because of the relative ease of switching from one fuel to another without affecting the product or production process. Gas use in furnaces and as feedstock generally is limited to more stringent fuel use constraints. Fuel switching cannot necessarily be accomplished as rapidly.

The MIPD recorded fuel switching capability between gas and residual oil in dual fired boilers of 1,349 Quadrillion Btu's or approximately 1.31 Tcf. In 1984, these industrial boiler fuel users consumed 1,092 Quads (81%) of gas and 257 Quads (19%) of oil.

Differences in the industrial fuel switching capability derived in the AGA/OPPR study of 3.07 Tcf and the MIPD/EIA study of 1.31 Tcf can be explained by the significant differences in study definitions and data considerations of alternate fuel and plant use. In the AGA data (from 1981) residual oil accounted for approximately 49% [18] of the alternate fuels while in the MIPD data residual oil was 100% of the alternate fuel. By this 49% share of fuel switching capability, dual fuel users who consume residual oil in the AGA data account for approximately 1.50 Tcf (.49 x 3,069 Bcf) of the total fuel switching capability.

In the AGA study the plant use of the gas or alternate fuel is not specified while the scope of the MIPD study is limited to boiler fuel. Table A4 of the EIA/MIPD study shows the following breakdown in fossil fuel consumption by end-use in 1984: Boilers (49.7%), Furnaces (43.5%), and Feedstock (6.7%). The percentage of dual fuel capability installed in furnaces and in feedstock processes is not known; however, in the AGA study it was noted that there was a net gain of 13 Bcf of gas use in industrials from fuel switching to gas from distillate oil and LPG in 1984. Apparently some dual fuel capability exists for distillate oil and LPG in furnaces and feedstock uses. This dual fuel capability would bring the AGA/OPPR estimate of 1.5 Tcf even closer to the MIPD/EIA estimate of 1.3 Tcf. The following table compares the assumptions of the two studies and results.

[15] "Industrial Fuel Switching," EIA, February 10, 1987.
[16] Estimated gas utility industry sales to the industrial/ electric generation sector were 5.265 Tcf. Total industrial consumption in 1985 was 5.901 Tcf.
[17] Percentages were obtained from: "Percentage of 1981 Gas Use in Dual Fuel Capable Facilities by Alternate Fuel, by Region and Total U.S.," Energy Analysis, American Gas Association September 3, 1982.

[18] In Table A5 of the MIPD/EIA study consumption of distillate oil and other oil represented a combination of 9% of total consumption in boilers in 1984. Residual oil also accounted for 9%. The 1981 data from AGA shows dual fuel industrial consumption of 51% distillate and LPG, 49% residual oil for dual fuel capable facilities.

| AGA/OPPR | MIPD/EIA |
|---|---|
| **Data Source** | |
| 37 gas utilities representing 50% of gas utility industry's industrial/electric generation market. | 20,000 largest energy consuming plants accounting for over 80% of manufacturing energy use. |
| **Alternate Fuel** | |
| Residual oil, LPG, distillate 49%, 15% and 36% respectively. | Residual oil 100%. |
| **Plant Use** | |
| Any manufacturing use where gas is alternate fuel. | Boiler fuel—just dual fired boilers. |
| **Derivation of Fuel Switching Capability** | |
| Fuel use in Dual Fuel Facilities (AGA) X 1985 Industrial Gas Consumption (EIA) | |
| .52 x 5.901 Tcf=*3.069 Tcf=1.31 Tcf* | |
| 1984 Consumption in Dual Fired Boilers (Quads): | |
| Gas | +1,092 |
| Oil | 257 |
| Total | 1,349 |

In summary, dual fuel capability of industrial boiler fuel facilities which use residual oil as an alternate fuel appears to be in the area of 1.31 Tcf.[19] The total dual fuel capability of the industrial sector including all uses of gas and its alternate fuel which includes residual oil, distillate, and LPG as the alternate fuel appears to be in the area of 3 Tcf.

With the recent decline in oil prices a trend of industrial fuel switching to gas from oil, which ran from 1982 through 1985, has reversed itself in 1986. In both 1984 and 1985 natural gas showed a net gain of 40 Bcf and 28 Bcf respectively. Based on the first quarter figures of 1986, the estimated net switching to oil was 92 Bcf on an annualized basis. Therefore this 3 Tcf of the displacement capability of 1985 may be reduced when the final figures are in for 1986. The MIPD/EIA study projected 1985 fuel switching capability to be 1.17 Quads, a drop of nearly .2 Quads from 1984.

In addition, these fuel switching estimates assume rather optimistically that all these volumes of alternate fuel users could be made available in times of shortages. A portion of these volumes are consumed totally in the intrastate market where bottlenecks and barriers could arise in times of nationwide shortages. Also, contract terms between these alternate fuel users and producers may inhibit the mobility of these volumes to assist the residential and commercial markets in times of shortage.

*Fuel Switching Capability of Electric Utilities*

Fuel switching capability of electric utilities is another short term and possibly long term supply source that may be available during periods of gas supply shortages. EIA and AGA have performed studies evaluating this potential fuel switching capability.

The EIA study used historical generation and consumption data from Form EIA–759, "Monthly Power Plant Report" to develop their fuel switching potential.[20] There are three basic methods for reducing the use of natural gas. One method is for a utility to rearrange the mix of generators emphasizing the use of plants fired by alternate fuels to gas. A second method is to use alternate fuel in dual fired boilers that use gas. A final option is for a utility to purchase power rather than generate it with its own gas-fired facilities.

In estimating the potential for reduction in gas consumption, gas, oil and coal consumption were evaluated on a utility-by-utility basis. For each utility with gas-fired generation, potential gas consumption reduction or elimination was evaluated by assessing the ability to switch to an alternate fuel in dual-fired units; to utilize other types of generating ability more intensively, or to combine both methods. If a plant could only burn alternate fuel (oil or coal) for a limited amount of time (30 days or less) it was not considered dual-fired. The study limited its focus to steam electric plants which account for 92% of the gas consumed by electric utilities.[21]

From the aggregated results of all utilities EIA estimates that utility gas consumption can be reduced by 1.706 Tcf. The primary reduction in gas consumption would be due to displacement by oil of 1.608 Tcf. Coal could displace .098 Tcf.

The AGA study of gas utility switching capability was incorporated in the "Survey of Industrial Fuel Switching and Dual-Fired Capability: 1985/1986," in which the industrial fuel switching study was performed. The study surveyed 37 gas utilities representing 50% of the industry's industrial/electric generation market.

The alternate fuel categories in the electric generation market included residual oil and other fuels (other fuels was not defined). The study acknowledged the potential weakness of the data:

> In the electric generation sector the percentage of dual-fired capability (99%) was more reflective of those utilities whose power plant customers are almost entirely dual-fuel capable. It should be borne in mind that these data are only estimates and that they reflect a sample of gas utility companies.

Subject to the above caveats the estimated dual fuel capability of the electric generation market in 1986 would be approximately 2.570 Tcf (99% of EIA estimated total 1986 utility gas consumption—2.600 Tcf).

The .994 Tcf difference in the EIA and AGA estimates can be accounted for primarily by the stricter assumptions of the EIA study and the weakness of the AGA data. The EIA study included only those steam generation plants that could burn alternate fuel on a sustained basis. The alternate fuels considered were limited to oil and coal. The AGA study did not incorporate any of the above restrictions. In addition the AGA study surveyed gas utilities who served the electric generation sector which was by acknowledgement almost entirely dual-fuel capable. The following table (next page) compares the assumptions and conclusions of the two studies.

Estimates of electric generation fuel switching potential range from 1.706 Tcf to 2.570 Tcf. This true potential is probably closer to the 1.706 Tcf estimate. Both studies point out possible problems of exploiting this alternate supply potential. One concern is adequate transportation facilities and arrangements to move volumes from the areas of the greatest fuel switching potential, the Southwest and West to possible problem markets areas such as the Northeast. A large potential source of fuel switching supply is the significant number of electric generation plants in Western Texas. Intrastate pipelines provide the only capacity to transport gas volumes cross the state to interconnect with the interstate trunklines serving the Northwest. The availability of this intrastate capacity during periods of peak conditions cannot be guaranteed. Also due to the price advantage of gas, plants in the Southwest have never relied on oil as a major source of electric generation.

[19] This EIA estimate of 1.31 Tcf includes 1.06 Tcf of boiler fuel use of gas and .25 Tcf oil. So actual fuel switching capability (from oil to gas) in 1984 by the EIA estimate was 1.06 Tcf.

[20] Data for 1986 are preliminary but are estimated to differ less than 1% from final data.

[21] The remaining 8% of gas consumption is by gas turbines and combined cycle plants. The alternate fuel burned, if any, is distillate fuel.

Although some fuel switching capability exists, the true capability of this potential large fuel switching source has hardly been tested. Adequate oil storage is also in question.

**Electric Generation Fuel Switching**

*Infill Drilling*

Accelerated infill drilling is another source of enhancing short term gas supply. Infill drilling causes a gas field to be produced at a faster rate by drilling more wells with closer spacing. There are two primary considerations of a producer in deciding on infill drilling. A necessary consideration is the approval of the State regulatory body to alter its rules such that well spacing is allowed on a smaller acreage unit. However, depending on the geological structure and the oil and gas composition and age of a field, well spacing can be adjusted. Closer spacing on an older field usually enhances productivity.

The second primary consideration is the profit incentive to the producer. If the producer is obligated by a contract where all wells in a field are priced the same, the price incentive may not exist to consider further development of a field. Also currently depressed oil and gas prices will dampen the producer motivation to infill drill.

In addition to the above potential constraints, infill drilling potential is also limited by the number of drilling rigs and crews available, environmental regulations, and available gathering systems.

Subject to the above considerations the potential for infill drilling production potential can be estimated using drill rig activation rates, drill rates and gas production per well averages. EIA, OPPR and AGA have performed studies attempting to evaluate this infill potential.

The EIA study [22] began with an attempt to quantify a maximum production response from a nationwide infill drilling program. The number of non-associated gas wells producing in the U.S. as of December 31, 1985, was 233,797 onshore gas wells (excluding Alaska). The average daily production (1985) of onshore wells was about 110 Mcf per day. Assuming that one offset well could be completed for each of the 233,797 onshore gas wells in the U.S., the new production would amount to 233,797 x 110 Mcf/day x 365 days or 9.39 Tcf per year. Assuming that half the current non-associated gas wells are stripper wells, the number of infill wells is reduced by half to 120,000 prospects. Assuming among these prospects, many have been drilled, are on low spacing units, or are poor infill drilling prospects, this number was reduced further (by approximately 50%) arriving at between 50,000 to 55,000 prospects that would be suitable for infill drilling. Assuming that these more suitable prospects would produce the national average of 110 Mcf per day, new production from 55,000 infill wells would amount to 2.2 Tcf per year. With proper price incentives these 55,000 infill prospects could be drilled and completed in one to two years.

The EIA study included additional pricing scenarios attempting to obtain more realistic estimates of the infill drilling potential. The results demonstrated that, in general, higher prices would allow infill wells that are deeper and smaller to be economically developed, but the questions of how many of the infill prospects at what price and how much ultimate recovery would be added, have not been answered.

The OPPR study [23] assumed a one year time frame and attempted to determine the volume and timing of gas extraction.

According to oil and gas publications in a period of one year approximately 1,200 rigs could be assembled with crews in areas where infill drilling is most suitable, provided there are no constraints. Using this figure, a finding success ratio of 90% and a national average production of 54 MMcf per non-associated gas well per year (including onshore and offshore), as reported by AGA, 295 Bcf of additional gas would be available from infill drilling in the first year.

According to the AGA study [24] certain producers predicted ultimate reserve increases of as much as 7.6 Tcf in the Hugoton field, 1.4 Tcf in the San Juan area, and as much as 400 Bcf per year on a national basis (no recovery period was identified). Hugoton and San Juan areas are considered prime areas for infill production as they could be developed at very low costs. In consideration of the current low gas market prices, AGA estimates that 50 to 100 Bcf of added production from infill drilling would be feasible within 12 months. With higher natural gas prices this capability increases to 100 to 400 Bcf.

The EIA and the OPPR infill drilling figures are possibly optimistic since constraints such as state spacing and other state regulations, environmental restrictions and especially a lack of pricing incentives will inhibit drilling activity.

The EIA estimate of 2.2 Tcf, when considering more of the nonquantifiable constraints, is extremely optimistic in its one or two year infill drilling potential. The AGA estimate of 50 to 100 Bcf provides a bottom range. The OPPR estimate of approximately .3 Tcf and AGA upper range of .1 to .4 Tcf may be feasible one year estimates. Physical constraints of drilling rigs, equipment and crews; and pipeline gathering systems; regulatory constraints of adopting new spacing policies and environmental concerns; and finally pricing incentive constraints all play major roles in determining the infill

[22] "Infill Drilling Response," EIA, March 3, 1987.

[23] OPPR Infill Drilling Calculations, March 1987.

[24] "Short Term Supply Potential," Energy Analysis, American Gas Association, September 28, 1986.

production potential. A comparison chart of the assumptions and estimates of the three studies follows:

INFILL DRILLING COMPARISON OF RESULTS

| | Additional annual production | Assumptions |
|---|---|---|
| OPPR | .285 Tcf | (a) Availability of drilling rigs based on historical data.<br>(b) No regulatory constraints such as spacing or environmental restrictions.<br>(c) A 90% success ratio, since these wells would be direct offsets to producing wells. |
| EIA | 2.2 Tcf | (a) For each of the 233,797 gas wells in the U.S. one successful offset could be drilled.<br>(b) One half of U.S. N/A gas wells are Stripper reducing number to 120,000.<br>(c) One half of 120,000 wells are unsuitable prospects.<br>(d) An average of 110 Mcf per well per day in the first year.<br>(e) No regulatory constraints such as spacing and environmental restriction. |
| AGA | 0.1–.4 Tcf | (a) Infill drilling is sensitive to market prices. |
| | 0.5–1.0 Tcf (with higher prices). | (b) Only Hugoton and San Juan areas were considered to arrive at their estimates.<br>(c) All their figures were strictly estimates. |

*Imports*

Imports from Mexico and Canada and LNG imports have in the past served as supplemental supplies to the U.S. gas supply. Currently Canada is the only import source that is operational.

Mexico

Authorized transmission capacity for gas imports from Mexico is currently 300 MMcf per day or 110 Bcf per year. However due to a lack of a market for Mexican gas, falling U.S. gas prices and negotiation problems, Mexican gas imports were suspended November 1, 1984.

According to AGA,[25] Mexican gas production may be over the 1.37 Tcf reported for 1984. With the Mexican reserve to production ratio of over 56 to one, AGA estimates that 1.5 Tcf could be produced, with a Mexican market for 1.3 Tcf leaving a surplus of 200 Bcf. The 110 Bcf per year transmission capacity could also be increased to 200 Bcf per year with minor construction in Mexico and the U.S. EIA[26] is much more optimistic in projecting a potential import of 700 Bcf per year with economic incentives, more pipeline construction, refurbishing existing pipeline facilities, and substantial field development. If justified by U.S. demand, a supplemental supply of 200 Bcf per year and possibly as much as 700 Bcf could be imported.

LNG

LNG deliveries ended in 1985. Terminals at Everett, Massachusetts; Cove Point, Maryland; Elba Island, Georgia; and Lake Charles, Louisiana could be made operational with a capability of recovering the LNG equivalent of 770 to 900 Bcf annually. The constraining factor would be in price. However, on an optimistic note, Panhandle Eastern Corporation recently announced a new agreement with Sonatrech, the Algerian national oil and gas company, to resume imports of LNG for peak day supply for the 1987/88 winter. The agreement calls for no minimum annual purchase obligation, but Sonatrech will make available up to 3 Tcf of supply over 20 years. Volume, terms and selling price are negotiated for each individual sales proposal.

Canada

Canada appears to be the primary and most reliable source of import supply.

Assuming no new facilities and that exporters can honor the maximum licensed export quantities (which appears to be very likely), the five major interconnection points which account for more than 90% of available transmission capacity provide the following available summer (s) and winter (w) capacity:

| Company name | Available transmission capacity (MMcf/day) | Current use (est. 1984–85) MMcf/day | Excess (MMcf/day) |
|---|---|---|---|
| Northwest | 824 | 300 | 524 |
| PGT | 1,475 (s)<br>1,610 (w) | 840 (s)<br>1,140 (w) | 635 (s)<br>470 (w) |

[1] TCPL could release capacity to U.S. shippers in emergencies if they do not have the same emergency situations.

OPPR estimates that under current use patterns Canada exports about 900 Bcf per year to 1,000 Bcf per year. Additional exports of approximately 1,000 Bcf per year could be made available through the five major importing pipelines. Imports are currently authorized at approximately 1,700 Bcf per year, thus additional authorization would be needed.[27]

EIA also projects potential Canadian annual import increases of 1,000 Bcf and with added construction Canadian reserves would allow substantial increases of exports.

## IV. Summary and Conclusion

*Supplies*

As indicated above, gas reserves dedicated to interstate commerce as of January 1, 1986 are calculated to be approximately 38 Tcf.

As shown on the following table, potential supplemental sources to meet any sudden supply shortage in the U.S. range from a minimum of 3.92 Tcf to a maximum of 7.69 Tcf. It should be noted that the above mentioned current annual deliverability surplus would first have to be depleted before the following supplies are needed.

POTENTIAL SUPPLEMENTAL SOURCES PER YEAR

[Tcf]

| | Minimum | Maximum |
|---|---|---|
| Fuel Switching of Dual Fuel Industrials | 1.31 | 3.07 |
| Fuel Switching of Electric Utilities | 1.71 | 2.57 |
| Infill Drilling | .10 | .75 |
| Imports: | | |
| Mexico | 0 | .30 |
| LNG | 0 | .10 |
| Canada | .80 | 1.00 |
| Total | 3.92 | 7.69 |
| Two or more years | | 2.75 |
| | | 10.44 |

These are estimates based on the logic and supporting data in the subject studies that form the basis for this paper. If one wanted to be extremely

[26] "Expected U.S. Natural Gas Surplus, Flow Capacity for 1987," EIA, March 3, 1987.

[27] The National Energy Board is considering a plan to increase permitted exports to 1.9 Tcf per year by year-end 1989.

BEST COPY AVAILABLE

optimistic, the maximum potential could be increased as follows: 1.45 Tcf from the EIA infill drilling projection; .5 Tcf from the EIA Mexican imports projection and an additional .8 Tcf if all LNG terminals could be quickly activated for a total additional supplemental supply potential of 2.75 Tcf. Realistically these additions may be possible in two or more years with the proper price incentives. Natural gas consumption in the U.S. in 1985 for residential and commercial use was 6.8 Tcf so that a significant contribution toward a safety margin for such uses exists in the potential short term gas supply sources even without the 2.75 Tcf of the more difficult to obtain supplemental supplies.

The range of the potential supplements is wide due to the uncertainty over the numerous parameters that impact the effectiveness of these sources. The following discussion will focus on those parameters that bear the most weight and how the gas market might react to shortage scenarios. Certainly these supplemental sources can quickly react to market demand and provide time for additional drilling to bring on longer term sources of supplies.

*Oil/Gas Price Relationship*

The price of gas has been a significant parameter in determining the potential of the various gas supply sources. A major cause of the gas price decline, in addition to the current gas surplus, is the collapse in oil prices. As long as oil prices remain low the alternate fuel users market will only be maintained by keeping gas prices at similar competitive low levels. As gas supplies tighten market forces will tend to drive up production gas prices but, if oil prices remain low, distributors will be forced to pass increases in the marginal cost of gas to their residential and commercial markets or face load loss of the alternate fuel users market. A tightening of gas supplies may cause gas price increases but as long as a low price of oil exists an upper limit is established on gas price increases in the alternate fuel users market.

Unless gas prices begin to move upward, new gas exploration, infill drilling and Canadian, Mexican, and LNG imports will lack incentive or motivation to expand. Low oil prices inhibit the potential of these sources of supply. At current oil and gas prices the potential supplemental sources of infill drilling and imports are likely to produce only their minimum of .1 and .8 Tcf respectively. Of course low production gas prices indicate gas supplies are still plentiful. As the need for supplemental supply sources increases gas production prices are likely to be on the increase. Also, as gas prices rise, some gas utilities with high average gas costs will be unable to retain all of their dual fuel customers. This would release a portion of the 3.0 to 5.6 Tcf of fuel switchable volumes.

*Gas Shortage—Decreasing Deliverability Due to Declining Reserve Base*

As 1990 approaches and if the prediction of a tightening gas supply prevails, assuming stable oil prices, a demand/supply imbalance will exert upward pressure on gas prices. Utilities will attempt to maintain their fuel switching market by attempting to pass on higher gas costs to the residential and commercial markets. However, as was the case in 1985 and 1986, some of the fuel switching market will convert to oil, freeing up at least a portion of the 3 to 5 Tcf available, conservatively 1 Tcf. Higher gas production prices will encourage more infill drilling and production in general, conservatively .1 Tcf. Canada could fairly quickly increase exports by .8 Tcf. If Mexico and Algeria are back on line, another .3 Tcf could be added. In summary, with a tightening of gas supplies and stable oil prices (which assumes stable oil supplies) supplemental sources could conservatively add 2.2 Tcf within a year. Assuming 1 Tcf of fuel switching took place throughout the year, at least a minimum of 2 Tcf of further fuel switching gas would remain available to meet any peak services needs.

*Oil Supply Disruption*

In the event OPEC attempted an embargo on all exports to the U.S., gas supply should be able to meet demand at least in the short term. An OPEC oil embargo will cause a leap in oil spot prices which will be followed by significant increases in gas spot prices. Assuming a significant shortage of oil supplies dual fuel users will be attempting to purchase any available fuel at the cheapest price. Assuming at the time of the embargo gas supply and demand are in balance, price and supply advantages will initially be with gas. Increased demand from dual fuel consumers will exert pressure on available gas supplies and gas prices will rise. The higher gas prices should encourage infill drilling to reach a level of .75 Tcf and Mexican and Canadian exports to reach their maximum potential of 1.20 Tcf for an increase of 1.95 Tcf. During previous oil embargoes gas production increased by less than 1 Tcf which was the volume required. The Strategic Oil Reserve with a 1986 estimated stock of 511 million barrels (approximately 3 Tcf) [28] will provide a buffer zone for these supplemental supplies to come on line. With this buffer zone and the supplemental sources, supplies should be able to meet demand needs in the short term and in the longer term price incentives should continue to encourage exploration and production.

The overall effectiveness of market signals and the quick response of the participants in the U.S. gas market may be enhanced or inhibited by other factors which warrant a brief discussion.

*Dedicated Versus Non-Dedicated Reserves*

Dedicated supplies could give some protection to those pipelines having a high percentage of such reserves. Of course the percentage is not uniform throughout the pipeline industry. However, mandatory allocation procedures in Title III of the NGPA covers non-dedicated supplies also. Therefore the distinction between dedicated and non-dedicated supply is not that meaningful during a shortage. As indicated in the reserve analysis above, dedicated reserves have been decreasing at approximately 10% a year since 1976 so that the effect of such reserves will be diminishing as we move toward a predicted period of tighter supply/demand balances.

*Caveats*

Mobility of Volumes in the Interstate System and Ability To Respond on Short Notice

During the severe shortages of the mid-1970's, a basic problem was the inability of the interstate system to draw on the intrastate system and other nonjurisdictional sources due to regulatory constraints. The NGPA attempted to correct this with price deregulation and section 311 allowing reciprocal transportation in the inter and intrastate systems. Mobility of gas volumes were improved with Order No. 436. This is evidenced by the fact that more than 50% of all volumes moving through the interstate system are now transportation volumes, not sales volumes.

Potential Insufficient Pipeline Capacity to the Northeast

The Northeast region of the U.S. is one of the more prolific consuming regions of gas in the U.S. Yet this area is one of the most remote areas from major

[28] EIA Monthly Energy Review, October, 1986.

production regions in the U.S. During the periods of shortage in the 1970's, this region experienced some difficulty in meeting peak day needs. The potential problem is the lack of available pipeline capacity from the large electric generation and industrial fuel switchable market in Northeast Texas to the major interstate pipeline systems originating in Southwest Texas and Louisiana which are the major trunklines serving the Northeast region of the U.S.

**Future Considerations: Gas Supply/ Demand in the Year 2000**

The AGA, Gas Research Institute (GRI), and EIA have developed forecasting models that forecast the U.S. gas supply/demand scenario. AGA's Total Energy Resource Base Analysis Model (TERA) Base Case 1986 predicts that gas supply and demand will be in balance with a total output of 23.1 Tcf [20] in the year 2000. GRI's 1986 Baseline Projection of U.S. Energy Supply and Demand to 2010 predicts that supply will be 19.7 Tcf and demand 19.1 Tcf in the year 2000. EIA's 1986 Annual Energy Outlook predicts in the year 2000 the projected supply of 18.6 Tcf will be sufficient to meet the projected demand of 17.9 Tcf. The following summary will review assumptions and projections of these models and how they expect gas supplies will be available to meet projected demand.

AGA predicts that between 1985 and 2000 average retail constant dollar gas prices will decrease while the prices of oil, coal and electricity will increase. During this period gas sales will grow more rapidly than these other energy sources. Only nuclear fuel use will increase faster than gas consumption. The model assumed oil prices of $25/bbl. in 1986 and 1987. A rather startling prediction is that gas prices to residential consumers will decrease from $5.33/MMBtu in 1986 to $5.16/MMBtu in 2000.

The model projects conventional lower-48 natural gas will represent 94% of natural gas utility industry supplies in 1985, and about 98% of total U.S. supplies. By 2000 domestic natural gas will represent only 80% of flowing gas supply and this includes 1.1 Tcf of incremental tight formation gas which it is assumed will be technically feasible then. Without this tight gas, conventional supplies will comprise only 75% of total supply. Conventional supplies will decline to 17.1 Tcf in 2000. Supplemental supplies will make up the difference in meeting the expected demand of 23.1 Tcf. Of the 4.7 Tcf of supplemental supplies, imports from Canada and Mexico will account for 57%, other various technologies will supply 22%, and other sources such as LNG, SNG, and coal gas, will make up the remaining 21%. The model optimistically predicts that 2.5 Tcf will be available but not taken.

The most surprising aspect of the TERA projections is the optimistic prediction of lower gas prices in the year 2000 while gas supplies become more dependent on expensive supplemental sources such as LNG, SNG, coal gas and 22% from unknown technologies. As supplies tighten, Canada and Mexico can also be expected to attempt to increase price margins. Gas prices will be determined by the marginal cost of these supplemental supplies and imports.

The GRI baseline projection presents the GRI planning outlook for the economic and energy supply and demand situation to the year 2010. GRI states that as a result of the recent fall in world oil prices, this year has been a particularly difficult period in which to produce a forecast. The projection includes much lower oil prices over the projection time frame reaching $27/bbl. by 2000. The study projects steady economic growth, although at rates less than historical norms, with energy prices gradually increasing from today's low levels.

Natural gas acquisition prices are projected to increase from an average of $2.53/MMBtu in 1985 to $4.01/MMBtu in 2000. Between 1985 and 1990 lower-48 production prices will grow less than 5%.

The significant price increase will begin after 1990 due to the need for increasing new producer investment. Lower-48 prices are projected to grow 55% between 1990 and 2000.

In projecting future gas supply GRI initially assumes a base technology and then advanced technology using unconventional supplies. With this base technology, lower-48 production will begin to decline in the 1990's. Under the base technology lower-48 production will decline from 15.8 Tcf in 1985 to 13.4 Tcf in 2000. Increased availability of supplemental supplies would compensate for the decline in lower-48 natural gas production through the 1990's. But after 2000 the rate of decline of the lower-48 base technology production is projected to accelerate, and at the price of alternate fuels, practicable supplemental supplies from imports and synthetics would be unable to completely compensate for the decline. Overall availability of competitively priced gaseous fuels in the U.S. would begin to decline.

With advanced gas supply technology GRI projects an additional .3 Tcf in 1990, 2.5 Tcf in 2000, and 4.6 Tcf in 2010 at market clearing prices. GRI estimates that average U.S. gas acquisition prices could be reduced by about 25% with the introduction of the advanced technologies. These supplemental supplies in addition to SNG and imports from Canada will comprise most of the supply to meet demand until 2000. After 2000, LNG imports, more SNG and coal gas will add to supplies. In addition the Alaska Natural Gas Pipeline will begin operation in 2002.

In the EIA base case the economy is assumed to maintain an average growth of 2.5% per year through 2000. Oil prices will reach $33 by the year 2000. The average wellhead price of gas will increase at an annual rate of 9% reaching $5.38 Mcf in 2000. The current gas bubble will be absorbed by 1990. Demand for natural gas in all sectors will rise up until 1990 and afterward will decline at 1% per year through 2000. Electric utility demand will outpace gas. The gas industry should satisfy demand with market-based, competitive prices.

In summary all models project adequate supplies in the year 2000. GRI and EIA are not as optimistic as AGA on the costs of obtaining these supplies.

## FEDERAL MARITIME COMMISSION

### 46 CFR Part 572

[Docket No. 85-22]

### Agreements by Ocean Common Carriers and Other Persons Subject to the Shipping Act of 1984

**AGENCY:** Federal Maritime Commission.

**ACTION:** Discontinuance of proceeding.

**SUMMARY:** The Federal Maritime Commission is discontinuing its proposed rulemaking proceeding concerning provisions in agreements subject to the Shipping Act of 1984 that affect or relate back to activities or events which occurred prior to the agreements becoming effective. The Commission will continue to address these matters on an *ad hoc* basis.

**DATES:** This proceeding is discontinued effective May 19, 1987.

**FOR FURTHER INFORMATION CONTACT:** Robert D. Bourgoin, General Counsel, Federal Maritime Commission, 1100 L

Street, NW., Washington, DC 20573, (202) 523–5740.

SUPPLEMENTARY INFORMATION: The Commission initiated this proposed rulemaking proceeding by Notice published in the **Federal Register** (50 FR 51418–51420, December 17, 1985). The proposed rule would have amended the Commission's agreement rules by adding a new subparagraph to 46 CFR 572.103 to read as follows:

(h) An agreement filed under the Act shall apply only to prospective, future activities of the parties and may not in any way directly or indirectly affect or rely upon activities, events or payments which occurred prior to the effective date of the agreement.

In proposing this rule, the Commission advised that it had been receiving an increasing number of agreements which contained provisions affecting activities or events which occurred prior to the effective dates of the agreements. The Commission noted that these provisions were particularly pervasive in the area of marine terminal agreements, where ocean common carriers often agree to use port facilities in the future, but in so doing attempt to credit prior use to future formulas or rerate prior use at a new and lower rate once the agreement becomes effective. The Commission explained that agreements with retroactive application raised legal concerns under various provisions of the Shipping Act of 1984 ("1984 Act"), 46 U.S.C. app. 1701 through 1720.

Comments in response to the Notice were received from ocean common carriers, ocean carrier conferences, port authorities, terminal operators, law firms, and the Department of Justice. Some commenters supported the rule as proposed or in a modified form. Several commenters expressed the view that there is no particular need for a rule on "retroactivity" because the parameters of acceptable conduct under the 1984 Act are already clear, as a matter of law. In addition, many of the commenters raised concerns about portions of the proposed rule which appeared to be overbroad, in that they would condemn agreement provisions which have heretofore been considered legitimate. In this regard, some commenters requested that any final rule identify with particularity unacceptable retroactive provisions.

Upon careful consideration of all of the comments submitted, and in light of the regulatory objectives underlying this proceeding, the Commission has decided to withdraw the proposed rule. We do not believe that a formal regulation defining the limits of an agreement's application to past events is either feasible or necessary, at least at this time. Section 10(a)(2) of the 1984 Act, 46 U.S.C. app. 1709(a)(2), prohibits anyone from "operat[ing] under an agreement required to be filed under section 5 * * * that has not become effective under section 6 [of that Act] * * *." Similarly, section 7 of the Act, 46 U.S.C. app. 1706, conveys no antitrust immunity on activity which has occurred prior to an agreement becoming effective. As a result, and because it would be extremely difficult, if not impossible, to prescribe a rule which would address the legitimate concerns of the commenters while at the same time providing clear, definitive guidelines covering all potential variant situations, the Commission has decided to discontinue this rulemaking proceeding and continue to address the issue of possible retroactive agreement provisions on an *ad hoc* basis.

*Therefore, It Is Ordered,* That the rule proposed in this proceeding is withdrawn and the proceeding discontinued.

By the Commission.

**Joseph C. Polking,**

*Secretary.*

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 73

**[MM Docket No. 87–128, RM–5675]**

### Radio Broadcasting Services; Blackduck, MN

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule.

**SUMMARY:** This document requests comments on a petition by Roger Paskvan, proposing the allocation of FM Channel 252A to Blackduck, Minnesota, as that community's first FM broadcast service. Concurrence of the Canadian government is required for the allotment of FM Channel 252A at Blackduck.

**DATES:** Comments must be filed on or before July 6, 1987, and reply comments on or before July 21, 1987.

**ADDRESS:** Federal Communications Commission, Washington, DC. 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Harry F. Cole, Bechtel & Cole, Chartered, 2101 L Street, NW. Suite 502, Washington, DC 20036 (counsel for petitioner).

**FOR FURTHER INFORMATION CONTACT:** Kathleen Scheuerle, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rule Making, MM Docket No 87–128, adopted April 17, 1987, and released May 13, 1987. The full test of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857–3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1231 for rules governing permissible *ex parte* contact.

For information regarding proper filing procedures for comments, See 47 CFR 1.415 and 1.420.

**List of Subjects in 47 CFR Part 73**

Radio broadcasting.

Federal Communications Commission.

**Mark N. Lipp,**

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

### 50 CFR Part 663

**[Docket No. 70101–7001]**

### Pacific Coast Groundfish Fishery; Proposed Inseason Adjustment

**AGENCY:** National Marine Fisheries Service (NMFS), NOAA, Commerce.

**ACTION:** Notice of proposed inseason adjustment and request for comments.

**SUMMARY:** NMFS announces and requests comments on a proposed inseason adjustment to the 1987 specifications for three species of Pacific Coast groundfish caught in the ocean off Washington, Oregon, and California.

The adjustment would increase the acceptable biological catch (ABC) for widow rockfish by 3 percent to 12,500 metric tons (mt), for chilipepper rockfish by 20 percent to 3,600 mt, and would increase the ABC and optimum yield (OY) for sablefish by 12 percent to 13,400 mt. This action makes use of the best available scientific information for estimating the 1987 specifications and is intended to promote full utilization of available groundfish resources without biological stress to these or other species.

**DATE:** Comments on this action will be accepted until June 3, 1987.

**ADDRESSES:** Send comments to Rolland A. Schmitten, Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Point Way N.E., BIN C15700, Seattle, WA 98115; or E. Charles Fullerton, Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, CA 90731.

**FOR FURTHER INFORMATION CONTACT:** Rolland A. Schmitten, 206–526–6150, or E. Charles Fullerton, 213–514–6196.

**SUPPLEMENTARY INFORMATION:** The implementing regulations for the Pacific Coast Groundfish Fishery Management Plan (FMP) at 50 CFR 663.24(a) state that annual specifications of ABC and OY will not exceed by more than 30 percent the ABCs and OYs specified at the beginning of the previous fishing year. The FMP also provides at § 663.22(b) for inseason increases in OYs that cumulatively do not exceed by more than 30 percent the ABCs and OYs set at the beginning of the current fishing year.

ABCs are specified for all groundfish species, individually or in a group, and are estimates of the annual catch that could be taken without jeopardizing a resource's biological productivity. OYs are specified for six species, including sablefish, and set the maximum amount of fish (round weight) that may be taken and retained, or landed each year from the ocean off Washington, Oregon, and California.

The 1987 specifications of ABC and OY were developed in public meetings of the Pacific Fishery Management Council (Council) in September and November 1986. The preliminary specifications were published at 51 FR 43057 (November 28, 1986) and the final specifications at 52 FR 682 (January 8, 1987). The final 1987 ABCs for widow and chilipepper rockfishes were restricted by the regulations at § 663.24 limiting annual increases to 30 percent. Accordingly, the 1986 ABX for widow rockfish of 9,300 mt was increased the maximum 30 percent to reach the 1987 ABC of 12,100 mt, even though scientific data support a 34 percent increase to 12,500 mt. The 1986 ABC for chilipepper rockfish of 2,300 mt also was increased the maximum amount to reach the 1987 ABC of 3,000 mt. even though scientific data support a 57 percent increase to 3,600 mt. Subsequently, additional increases to the 1987 ABCs for widow and chilipepper rockfishes were recommended at the November 1986 Council meeting, based on the best available scientific information.

The recommendation to increase the ABC and OY for sablefish was made at the April 7–10, 1987, Council meeting after the Groundfish Management Team (State and Federal fishery and social scientists) presented new survey data and revised methods of estimating the available biomass for sablefish. The Council considered this analysis in addition to advice from its Groundfish Advisory Subpanel (industry and consumer representatives) and Scientific and Statistical Committee (State, Federal, and university scientists) in recommending an inseason increase to the 1987 ABC and OY for sablefish based on the best available scientific information.

The Secretary of Commerce concurs with the Council's recommendations. The aggregate data upon which these increases are based are available for public inspection at the Regional Offices at the above addresses during business hours until the end of the comment period.

### Widow Rockfish

The Council recommended increasing the 1987 coastwide widow rockfish ABC from 12,100 mt to 12,500 mt, a 3 percent inseason increase and 34 percent greater than the 9,300 mt ABC established at the beginning of 1986. The proposed increase would raise the widow rockfish ABC to the 1987 OY. It is supported by the most recent scientific data indicating that the 1978, 1979, and 1980 year classes, which are contributing to the fishery, are considerably stronger than previously estimated. The ABC could not be raised to 12,500 mt on January 1, 1987, because of the 30 percent limit on annual increases. The OY could be increased to 12,500 mt in January , however, because OY was 10 percent greater than ABC in 1986, i.e., 10,200 mt. Thus the annual increase to OY in 1987 was within the 30 percent limit. This increase would remove the discrepancy between ABC and OY and would not warrant changes to the trip limits for this species because they are based on achieving OY.

### Chilipepper Rockfish

The Council recommended increasing the 1987 coastwide chilipepper rockfish ABC from 3,000 mt to 3,600 mt, a 20 percent inseason increase and 57 percent greater than the 2,300 mt ABC in 1986. This increase was not made between seasons because of the 30 percent limit. The proposed increase would raise the chilipepper rockfish ABC to the level supported by a revised assessment methodology, which shows that several large year classes are contributing to the fishery. This increase would be too small to warrant changes to the trip limits for the *Sebastes* complex of rockfishes (which includes this species south of Coos Bay, Oregon.

### Sablefish

The Council recommended increasing the 1987 coastwide ABC and OY for sablefish by 12 percent, from 12,000 mt to 13,400 mt based upon the best available scientific information. This proposed level of 13,400 mt is 200 mt below the 13,600 mt OY for sablefish in 1986, 26 percent greater than the 10,600 mt ABC for sablefish in 1986, and equals the ABC for sablefish each year from 1982 through 1984. This most recent estimate does not reflect growth of the resource but rather results from revised analytical procedures and inclusion of areas that were not previously considered and which have been found to contain some fishable concentrations of sablefish. The regulations at § 663.22(b) require that the following factors be considered in a determination to increase an OY during the fishing year.

#### *(i) Exploitable Biomass and Spawning Biomass Relative to Maximum Sustainable Yield (MSY) Levels*

(MSY is the average of the largest catch which can be taken continuously from a stock over a period of years.) Data are inadequate to determine the relationship between the exploitable biomass, the spawning biomass, and the MSY.

#### *(ii) Fishing Mortality Rate Relative to MSY Levels*

Although MSY is not known for certain, fishing mortality is expected to exceed the proposed ABC of 13,400 mt if the fishery is not restricted.

#### *(iii) Magnitude of Incoming Recruitment*

The sablefish fishery is dominated by

a relatively small number of large year classes. The contribution of the strong 1980 year class is declining, and the strength of subsequent year classes is uncertain; therefore, the magnitude of incoming recruitment is unknown.

*(iv) Projected Effort and Corresponding Catches Relative to ABC*

Effort on groundfish species is expected to increase as groundfish fisheries in Alaska close and those vessels move to the Washington-Oregon-California fishery. Sablefish landings have exceeded ABC in recent years (OY has been set higher than ABC), with the 5-year average landings (1982–1986) being about 15,000 mt. Since 1982, various management strategies have been used to avoid reaching OY early in the year and closing the fishery. Fishing effort in 1987 is expected to be capable of harvesting the proposed ABC/OY before the end of the year if not restricted.

*(v) In the Case of Species Normally Taken in Mixed Catches, the Relative Contribution of the Species to the Total Catch*

Although sablefish may be a significant incidental catch in the trawl fishery for Dover sole, adjustment of the sablefish OY is not expected to influence incidental catch rates in the trawl fishery. A target trawl fishery might be slightly encouraged, however.

*(vi) The Impact, if any, of the Proposed Increase in OY on Other Species*

Sablefish can be caught fairly selectively in a target fishery. The proposed increase in OY should have little or no impact on other species.

Because shore-based processors intend to use all available sablefish, none of the proposed increase would be made available for joint venture processing (JVP) or foreign fishing (TALFF) except for minimal allowances for unavoidable incidental catches.

In 1987 the sablefish OY is allocated 52 percent to trawl gear and 48 percent to fixed gear (52 FR 790, January 9, 1987). Therefore, based on these percentages the proposed increase would change the gear allocations from 6,200 mt to 7,000 mt for trawl gear and from 5,800 mt to 6,400 mt for fixed gear. The proposed increase would be too small to necessitate changes to the current management strategy for this species.

In accordance with the recommendations above, Tables 1 and 2 (published at 52 FR 683 and 684) are proposed to be revised as indicated below. Only these portions (including footnotes) that pertain to widow and chilipepper rockfishes and sablefish are revised and printed here. All other portions remain unchanged except for footnote 2 to Table 2 which was deleted by Amendment 2 to the FMP (52 FR 4910, February 18, 1987) with the elimination of the separate 2,500 mt OY for sablefish in Monterey Bay, California.

TABLE 1.—FINAL ESTIMATES OF ABC FOR 1987 IN METRIC TONS (MT) FOR GROUNDFISH OFF WASHINGTON, OREGON, AND CALIFORNIA BY INTERNATIONAL NORTH PACIFIC FISHERIES COMMISSION AREAS

| Species | Vancouver | Columbia | Eureka | Monterey | Conception | Total |
|---|---|---|---|---|---|---|
| Roundfish: | | | | | | |
| Sablefish | | | | | | [3] 13,400 |
| Rockfish | | | | | | |
| Widow | | | | | | [3] 12,500 |
| Other Rockfish: [4] | | | | | | |
| Chilipepper | | | | | | [3] 3,600 |

[3] Total all areas.
[4] "Other Rockfish" means rockfish species at § 663.2, as amended, which do not have a numerical OY.

TABLE 2.—FINAL SPECIFICATIONS OF OY AND ITS DISTRIBUTION FOR 1987 IN THOUSANDS OF METRIC TONS (MT) FOR GROUNDFISH OFF WASHINGTON, OREGON, AND CALIFORNIA

| Species | Total OY | DAP | JVP | DAH | Reserve | TALFF |
|---|---|---|---|---|---|---|
| Sablefish | 13.4 | 13.4 | 0.0 | 13.4 | 0.0 | 0.0 |

## Classification

This proposed inseason adjustment is made under the authority of §§ 663.22 and 663.23 and complies with Executive Order 12291. This action is covered by the regulatory flexibility analysis prepared for the implementing regulations.

## List of Subjects in 50 CFR Part 663

Administrative practice and procedure, Fisheries, Fishing.

Federal Register
Vol. 52, No. 96
Tuesday, May 19, 1987

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## ARMS CONTROL AND DISARMAMENT AGENCY

### General Advisory Committee; Closed Meeting

In accordance with the Federal Advisory Committee Act, as amended, the U.S. Arms Control and Disarmament Agency announces the following meeting:

Name: General Advisory Committee on Arms Control and Disarmament.

Date: May 27, 28, 1987.

Time: 9:00 a.m.

Place: State Department Building, Washington, DC.

Type of Meeting: Closed.

Contact Person: Barry Daniel, Executive Director, General Advisory Committee, U.S. Arms Control and Disarmament Agency, Room 5927, Washington, DC 20451, (202) 647–5177.

Purpose of Advisory Committee: To advise the Director of the U.S. Arms Control and Disarmament Agency on arms control and disarmament policy and activities, and from time to time to advise the President and the Secretary of State respecting matters affecting arms control, disarmament, and world peace.

Agenda: Will present the following discussions and presentations:

*May 27, 1987*

AM—Receive briefing on and discuss arms control and NATO/WP forces.

PM—Receive briefing on and discuss ATBM issues.

*May 28, 1987*

AM—Receive briefing on and discuss Verification ATBM issues and requirements. Executive Discussions.

Reason for Closing: The GAC members will be reviewing and discussing matters specifically required by Executive Order to be kept secret in the interest of national defense and foreign policy.

Authority to Close Meeting: The closing of this meeting is in accordance with a determination by the Director of the U.S. Arms Control and Disarmament Agency dated April 1, 1987, made pursuant to the provisions of section 10(d) of the Federal Advisory Committee Act as amended.

William J. Montgomery,
*Committee Management Officer.*

## DEPARTMENT OF COMMERCE

### International Trade Administration

[C–351–529]

### Certain Castor Oil Products From Brazil; Preliminary Results of Countervailing Duty Administrative Review

**AGENCY:** International Trade Administration/Import Administration, Department of Commerce.

**ACTION:** Notice of preliminary results of countervailing duty administrative review.

**SUMMARY:** The Department of Commerce has conducted an administrative review of the countervailing duty order on certain castor oil products from Brazil. The review covers the period January 1, 1985 through December 31, 1985 and 15 programs.

As a result of the review, the Department has preliminarily determined the net subsidy for the period of review to be 0.63 percent *ad valorem*. Interested parties are invited to comment on these preliminary results.

**EFFECTIVE DATE:** May 19, 1987.

**FOR FURTHER INFORMATION CONTACT:** Richard C. Henderson or Bernard Carreau, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202 377–2786).

**SUPPLEMENTARY INFORMATION:**

#### Background

On December 19, 1986, the Department of Commerce ("the Department") published in the **Federal Register** (51 FR 45497) the final results of its last administrative review of the countervailing duty order on certain castor oil products from Brazil (41 FR 8634; March 16, 1976). On March 31, 1986, the petitioner, the American Manufacturers of Castor Oil Products, requested in accordance with § 355.10 of the Commerce Regulations that we conduct an administrative review of the order. We published the initiations on April 16, 1986 (51 FR 13274). The Department has now conducted that administrative review in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

#### Scope of Review

Imports covered by the review are shipments of Brazilian hydrogenated castor oil and 12-hydroxystearic acid. Such merchandise is currently classifiable under items 178.2000, 490.2050, and 490.2070 of the Tariff Schedules of the United States Annotated.

The review covers the period January 1, 1985 through December 31, 1985 and 15 programs: (1) CACEX export financing; (2) an income tax exemption for export earnings; (3) the export credit premium for the IPI; (4) CIC–CREGF 14–11 financing; (5) incentives for trading companies (Resolution 683); (6) accelerated depreciation for Brazilian-made capital goods; (7) BEFIEX; (8) CIEX; (9) FINEX; (10) duty-free treatment and tax exemption on equipment used in export production ("CDI"); (11) FUNPAR; (12) exemption from state-administered value-added taxes on domestic sales ("ICM"); (13) PROEX; (14) PROSIM; and (15) financing for the storage of merchandise destined for export (Resolution 330).

#### Analysis of Programs

*(1) CACEX Export Financing*

Under this program, the Department of Foreign Commerce ("CACEX") of the Banco do Brasil provides short-term working capital financing to exporters at preferential rates. The loans have a duration of up to one year. During the period of review, producers of certain castor oil products could obtain CACEX financing based on the value of their previous year's exports. The maximum amount of CACEX financing that could be obtained in Brazil was 20 percent of the value of the previous year's exports.

Resolution 882, which became effective on January 2, 1984, required the full interest payment at maturity. It also set the maximum interest rate at

monetary correction (calculated by the change in the value of readjustable treasury bonds, "ORTN") plus 3 percentage points.

On August 21, 1984, Resolution 950 superseded Resolution 882 and changed the short-term export financing program substantially. Resolution 950, which was made effective retroactively to January 2, 1984, made working capital financing available through commercial banks at prevailing market rates, with interest due at maturity. It authorized the Banco do Brasil to pay the lending institution an "equalization fee," or rebate, of up to 10 percentage points over the commercial interest rate, which the lending institution can pass on to the borrowers. On May 2, 1985, Resolution 1009 increased the equalization fee to 15 percentage points.

To find the interest differential for Resolution 882 loans, we compared to effective rates. The nominal interest rates on Resolution 882, 950, and 1009 loans are the same as the effective rates because the full amount of interest is paid at maturity. For our benchmark, we took the national average rate for thirty-day discounts of accounts receivable, as reported in *Analise/Business Trends*. This rate includes the 1.5 percent tax on financial transactions ("IOF"), from which preferential loans are exempt. We then compounded this rate to find the effective annual commercial benchmark.

Since the interest charged on CACEX export financing under Resolutions 950 and 1009 is now at prevailing market rates, this program would not be countervailable absent the equalization fee and the exemption from the IOF. Therefore, the interest differential for those loans is equal to the equalization fee plus the 1.5 percent IOF.

We consider the benefit from loans to occur when the borrower makes the interest payments. For Resolution 882, 950, and 1009 loans on which interest was paid during the period of review, we multiplied the interest differential by the loan principal. We allocated the result over each firm's total exports and then weight-averaged each company's benefit by its share of total exports of this merchandise to the United States. On this basis, we preliminarily determine the benefit from this program to be 0.10 percent *ad valorem*.

*(2) Income Tax Exemption for Export Earnings*

Under this program, exporters of certain castor oil products are eligible for an exemption from income tax on a portion of their profits attributable to exports. The Brazilian government calculates the tax-exempt fraction of profit as the ratio of export revenue to total revenue. Two firms took advantage of this program in 1983.

The nominal corporate tax rate in Brazil is 35 percent. However, Brazilian tax law permits companies to reduce their income taxes by investing up to 26 percent of their tax liability in specified companies and funds. This tax credit effectively reduces the nominal 35 percent corporate tax rates. The firms under review invested in the specified companies and funds.

We calculated the effective tax rates by dividing each company's net tax liability by its taxable profit. We calculated the benefit by multiplying the amount of tax-exempt profit by the effective corporate tax rate and allocating the result over each company's total exports. We then weight-averaged each company's benefit by its share of total exports of the merchandise to the United States. On this basis, we preliminarily determine the benefit from this program to be 0.46 percent *ad valorem*.

*(3) The Export Credit Premium for the IPI*

Exporters of certain castor oil products are eligible for the maximum export credit premium for the IPI. The Brazilian government pays exporters in cash a percentage of the f.o.b. price of the exported merchandise. The payment is made through the bank involved in the export transaction.

Effective June 26, 1981, the Brazilian government imposed an export tax to offset the benefit of the premium on exports to the United States. Therefore, we preliminarily determine that exporters of this merchandise received no benefits from this program during the period of review.

Further, on May 1, 1985, the Brazilian government eliminated the IPI credit premium for exporters of certain castor oil products.

*(4) CIC–CREGE 14–11 Financing*

Under its CIC–CREGE 14–11 circular, the Banco do Brasil provides preferential financing to exporters on the condition that they maintain on deposit a minimum level of foreign exchange. Exporters of certain castor oil products participated in this program during the period of review.

There is no maximum interest rate for this program. Interest payments are normally made quarterly or semiannually, with the full principal to be repaid at maturity. We calculated the benefit based on the interest payment date in a manner similar to that used for CACEX export financing, using the same benchmark rate. We preliminarily determine the benefit from this program to be 0.02 percent *ad valorem*.

*(5) Incentives for Trading Companies (Resolution 883)*

Under this program, CACEX declares trading companies eligible to receive loans at preferential rates. Eligible firms have access to a line of credit that can be drawn down to purchase goods for export. The trading companies use the loans as advance payment for the goods purchased. These loans are subject to interest constraints similar to those on Resolution 882 loans. Normally, the term of the loan does not exceed 180 days, but the actual length varies, running from the date of receipt of the loan to the date of shipment of the goods. The interest is paid in full at maturity.

During the period of review, one firm received benefits under this program for the purchase of certain castor oil products for export. We calculated the benefit in a manner similar to that for CACEX export financing, based on the interest payment date. We allocated the benefit over the firm's total exports and weight-averaged the result by the firm's share of total exports of this merchandise to the United States. On this basis, we preliminarily determine the benefit from this program to be 0.03 percent *ad valorem*.

*(6) Accelerated Depreciation for Brazilian-made Capital Goods*

Firms may depreciate Brazilian-made capital equipment at twice the normal rate allowed under Brazilian tax laws if they obtain approval from the Industrial Development Council ("CDI") for a plant expansion project. One firm benefited from this page in 1984.

To calculate the benefit, we multiplied the amount of accelerated depreciation declared on the income tax return filed in the review period by the effective corporate income tax rate and divided the result by the firm's total sales in 1985. We then weight-averaged the benefit by the firm's share of total exports of this merchandise to the United States.

On this basis, we preliminarily determine the benefit to be 0.001 percent *ad valorem*.

*(7) Other Programs*

We also examined the following programs and preliminarily find that exporters of certain castor oil products did not use them during the review period:

a. Fiscal Benefits for Special Export Programs ("BEFIEX");

b. Tax Reductions on Equipment used in Export Production ("CIEX");

c. Export Financing under Resolution 68 ("FINEX");

d. Duty-free treatment and tax exemptions on equipment used in export production ("CDI");

e. Export financing under the Fundo Nacional de Participadoes ("FUNPAR");

f. Exemption from state-administered value-added taxes ("ICM") on domestic sales;

g. Export Promotion Financing ("PROEX");

h. Benefits from Import Substitution ("PROSIM"); and

i. Financing for the storage of merchandise destined for export ("Resolution 330").

**Preliminary Results of Review**

As a result of our review, we preliminarily determine the net subsidy to be 0.63 percent *ad valorem* for the period of review. The Department intends to instruct the Customs Service to assess countervailing duties of 0.63 percent of the f.o.b. invoice price on all shipments of this merchandise exported on or after January 1, 1985 and on or before December 31, 1985.

The Department intends to instruct the Customs Service to collect a cash deposit of estimated countervailing duties, as provided by section 751(a)(1) of the Tariff Act, of 0.63 percent of the f.o.b. invoice price on all shipments of this merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review. This deposit requirement shall remain in effect until publication of the final results of the next administrative review.

Interested parties may submit written comments on these preliminary results within 30 days of the date of publication of this notice and may request disclosure and/or a hearing within 10 days after the date of publication. Any hearing, if requested, will be held 30 days after the date of the publication or the first workday thereafter. Any request for an administrative protective order must be made no later than five days after the date of publication. The Department will publish the final results of this administrative review including the results of its analysis of issues raised in any such written comments or at a hearing.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 355.10 of the Commerce Regulations (50 FR 32556, August 13, 1985).

Dated: May 12, 1987.

**Gilbert B. Kaplan,**

*Deputy Assistant Secretary, Import Administration.*

## Short-Supply Review on Certain Flat-Rolled Steel Products; Request For Comments

**AGENCY:** Import Administration/ International Trade Administration, Commerce.

**ACTION:** Notice and request for comments.

**SUMMARY:** The Department of Commerce hereby announces its review of a request for short supply under Article 8 of the U.S.–EC Arrangement on Certain Steel Products with respect to certain hot-rolled steel sheet and strip used to manufacture bi-metal band saws.

**DATE:** Comments must be submitted on or before May 29, 1987.

**ADDRESS:** Send all comments to Nicholas C. Tolerico, Acting Director, Office of Agreements Compliance, Import Administration, U.S. Department of Commerce, Room 3099, 14th Street and Constitution Avenue NW., Washington, DC 20230.Q02

**FOR FURTHER INFORMATION CONTACT:** Richard O. Weible, Office of Agreements Compliance, Import Administration, U.S. Department of Commerce, Room 3099, 14th Street and Constitution Avenue NW., Washington, DC 20230, (202) 377–0159.

**SUPPLEMENTARY INFORMATION:** Article 8 of the U.S.–EC Arrangement on Certain Steel Products provides that if the U.S. "* * * determines that because of abnormal supply or demand factors, the US steel industry will be unable to meet demand in the USA for a particular product (including substantial objective evidence such as allocation, extended delivery periods, or other relevant factors), an additional tonnage shall be allowed for such product * * *."

We have received a short-supply request for D6A hot-rolled alloy steel sheet and strip, ranging from 0.080 to 0.125 inch in thickness and from 10 to 16 inches in thickness. This material is used to produce cold-rolled steel sheet and strip for bi-metal band saws.

Any party interested in commenting on this request should send written comments as soon as possible, and no later than May 29, 1987. Comments should focus on economic factors involved in granting or denying this request.

Commerce will maintain this request and all comments in a public file. Anyone submitting business proprietary information should clearly identify that portion of their submission and also provide a non-proprietary submission which can be placed in the public file. The public file will be maintained in the Central Records Unit, Room B-099, Import Administration, U.S. Department of Commerce at the above address.

**Gilbert B. Kaplan,**

*Deputy Assistant Secretary for Import Administration.*

## Short-Supply Review on Certain Flat-Rolled Steel Products; Request For Comments

**AGENCY:** International Trade Administration/Import Administration, Commerce.

**ACTION:** Notice and request for comments.

**SUMMARY:** The Department of Commerce hereby announces its review of a request for a short supply determination under Article 8 of the U.S.-Brazil Arrangement Concerning Trade in Certain Steel Products with respect to certain high carbon flat-rolled products for use in the manufacture of spherical agricultural disk blades.

**DATE:** Comments must be submitted no later than May 29, 1987.

**ADDRESS:** Send all comments to Nicholas C. Tolerico, Acting Director, Office of Agreements Compliance, Import Administration, U.S. Department of Commerce, Room 3099, 14th Street and Constitution Avenue NW., Washington, DC 20230.

**FOR FURTHER INFORMATION CONTACT:** Richard O. Weible, Office of Agreements Compliance, Import Administration, U.S. Department of Commerce, Room 3099, 14th Street and Constitution Avenue NW., Washington, DC 20230, (202) 377–0159.

**SUPPLEMENTARY INFORMATION:** Article 8 of the U.S.-Brazil Arrangement Concerning Trade in Certain Steel Products provides that if the U.S. "* * * determines that because of abnormal supply or demand factors, the United States steel industry will be unable to meet demand in the USA for a particular product (including substantial objective evidence such as allocation, extended delivery periods, or other relevant factors), an additional tonnage shall be allowed for such product * * *.

We have received a short supply request for certain high carbon flat-rolled steel products, 0.079 to 0.472 inch in thickness, that is used in the manufacture of disk blades for agricultural machinery. The products are made either:

(a) Through cross-rolling, with widths ranging from 20 to 48 inches and lengths ranging from 176 to 312 inches; or

(b) Through straight-rolling with sulphur inclusion controls, with widths ranging from 20 to 48 inches, in cut lengths from 176 to 312 inches, or in coils.

Any party interested in commenting on this request should send written comments as soon as possible, and no later than May 29, 1987. Comments should focus on economic factors involved in granting or denying this request.

Commerce will maintain this request and all comments in a public file. Anyone submitting business proprietary information should clearly so label the business proprietary portion of the submission and also provide a non-proprietary submission which can be placed in the public file. The public file will be maintained in the Central Records Unit, Room B-099, Import Administration, U.S. Department of Commerce, at the above address.

## Minority Business Development Agency

## Financial Assistance Applications; New York

**AGENCY:** Minority Business Development Agency, Commerce.

**ACTION:** Notice.

**SUMMARY:** The Minority Business Development Agency (MBDA) announces that it is soliciting competitive applications under its Minority Business Development Center (MBDC) Program to operate a MBDC for a 3 year period, subject to available funds. The cost of performance for the first twelve (12) months is estimated at $416,000 for the project performance of October 1, 1987 to September 30, 1987. The MBDC will operate in the Brooklyn Metropolitan Statistical Area (MSA). The first year cost for the MBDC consist of $416,000 in Federal funds and a minimum of $73,412 in non-Federal funds (which can be a combination of cash, in-kind contribution and fees for services).

The funding instrument for the MBDC will be a cooperative agreement and competition is open to individuals, nonprofit and for-profit organization, local and State governments, American Indian tribes and educational institutions.

The MBDC will provide management and technical assistance to eligible clients for the establishment and operation of businesses. The MBDC program is designed to assist those minority businesses that have the highest potential for success. In order to accomplish this, MBDA supports MBDC programs that can: Coordinate and broker public and private sector resources on behalf of minority individuals and firms; offer them a full range of management and technical assistance; and serve as a conduit of information and assistance regarding minority business.

Applications will be judged on the experience and capability of the firm and its staff in addressing the needs of minority business individuals and organizations; the resources availalbe to the firm in providing management and technical assistance; the firm's proposed approach to performing the work requirements included in the application; and the firm's estimated cost for providing such assistance. It is advisable that applicants have an existing office in the geographic region for which they are applying.

The MBDC will operate for a 3 year period with periodic reviews culminating in annual evaluations to determine if funding for the project should continue. Continue funding will be at the discretion of MBDA based on such factors as an MBDC's satisfactory performance, the availability of funds, and Agency priorities.

Closing Date: The closing date for applications is June 18, 1987. Applications must be postmarked on or before June 18, 1987.

**ADDRESS:** New York Regional Office, Minority Business Development Agency, Jacob J. Javits Federal Building, Rm. 3720, New York, New York 10278, Area Code/Telephone Number (212) 264-3262.

**FOR FURTHER INFORMATION CONTACT:** Gina A. Sanchez, Regional Director, New York Regional Office.

**SUPPLEMENTARY INFORMATION:** Questions concerning the preceding information, copies of application kits and applicable regulations can be obtained at the above address.

(11.800 Minority Business Development Catalog of Federal Domestic Assistance).

Dated: May 14, 1987.

## Minority Business Development Center (MBDC) Program, Texas; Financial Assistance Application Announcement

**SUMMARY:** The Minority Business Development Agency (MBDA) announces that it is soliciting competitive applications under its Minority Business Development Center (MBDC) Program to operate an MBDC for a three (3) year period, subject to available funds. The cost of performance for the first twelve (12) months is estimated at $194,118 for the project's performance period of 9/01/87-8/31/88. The MBDC will operate in the Beaumont, Texas Standard Metropolitan Statistical Area (SMSA).

The first year's cost for the MBDC will consist of:

| | |
|---|---|
| Federal Funding | $165,000 |
| Non-Federal Funding [1] | 29,118 |
| Grand Total | 194,118 |

[1] Can be a combination of cash, in-kind contribution and fees for services.

The funding instrument for the MBDC will be a cooperative agreement and competition is open to individuals, nonprofit and for-profit organizations, local and state governments, American Indian Tribes and educational institutions.

The MBDC will provide management and technical assistance (M&TA) to eligible clients for the establishment and operation of businesses. The MBDC program is designed to assist those minority businesses that have the highest potential for success. In order to accomplish this, MBDA supports MBDC programs that can: Coordinate and broker public and private sector resources on behalf of minority individuals and firms; offer them a full range of management and technical assistance (M&TA); and serve as a conduit of information and assistance regarding minority business.

Applications will be judged on the experience and capability of the firm and its staff in addressing the needs of minority business individuals and organizations; the resources available to the firm in providing management and technical assistance (M&TA); the firm's

proposed approach to performing the work requirements included in the application; and the firm's estimated cost for providing such assistance. It is advisable that applicants have an existing office in the geographic region for which they are applying.

The MBDC will operate for a three (3) year period with periodic reviews culminating in annual evaluations to determine if funding for the project should continue. Continued funding will be at the discretion of MBDA, based on such factors as an MBDC's satisfactory performance, the availability of funds, and Agency priorities.

*Closing Date:* The closing date for receipt of application is June 18, 1987.

ADDRESS: MBDA, Dallas Regional Office, 1100 Commerce Street, Suite 7B23, Dallas, Texas, 75242–0790.

FOR FURTHER INFORMATION, CONTACT: Marie Hearne, Business Development Clerk, Dallas Regional Office, 214/767–8001.

*A pre-bid conference will be held:* May 26, 1987—10:00 am., MBDA, Dallas Regional Office, 1100 Commerce, Suite 7B23, Dallas, Texas, 75242–0790, 214/767–8001.

SUPPLEMENTARY INFORMATION: Questions concerning the preceding information, copies of application kits and applicable regulations can be obtained at the above address.

Melda Cabezas,

*Acting Regional Director, Minority Business Development Agency, Dallas Regional Office.*

*Section B. Project Specifications*

Program Number and Title: *11.800 Minority Business Development*
Project Name: *Beaumont, Texas MBDC* (Geographic Area or SMSA)
Project Identification Number: *06–10–87007–01*
Project Start and End Dates: *9/01/87 thru 8/31/88*
Project Duration: *12 Months*
Total *Federal Funding (85%) $165,000*
Minimum *Non-Federal Funding* Sharing (15%) *29,118*
Total Project Cost (100%) *$194,118*

*Closing Date for Receipt of this Application:* June 18, 1987.

*Geographic Specification:* The Minority Business Development Center shall offer assistance in the geographic area of: Beaumont, Texas.

*Eligibility Criteria:* There are no eligibility restrictions for this project. Eligible applicants may include individuals, non-profit organizations, for-profit firms, local and state governments, American Indian Tribes, and educational institutions.

*Project Period:* The competitive award period will be for approximately three years consisting of three (3) separate budget periods. Performance evaluations will be conducted, and funding levels will be estimated for each of the three (3) budget periods. The MBDC will receive continued funding, after the initial competitive year, at the discretion of MBDA based upon the availability of funds, the MBDC's performance, and Agency priorities.

*MBDA's Minimum Levels of Effort:* Financial Packages, $2,286,000; Billable M&TA, $103,000; Procurements, $4,807,000; Number of Clients, 65.

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

## Export Visa Requirement for Certain Cotton Textile Products Produced or Manufactured in India

May 14, 1987.

The Chairman of the Committee for the Implementation of Textile Agreements (CITA), under the authority contained in E.O. 11651 of March 3, 1972, as amended, has issued the directive published below to the Commissioner of Customs to be effective on May 14, 1987. For further information contact Eve Anderson, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212.

### Background

Under the terms of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of Febraury 6, 1987, the Governments of the United States and India have agreed to further amend the existing export visa requirement to designate Category 341–Y for cotton shirts and blouses made from yarn-dyed fabric of two or more colors in the warp or filling and Category 341–O for cotton shirts and blouses made from fabrics other than yarn-dyed. Accordingly, in the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to permit entry of cotton textile products in Category 341, produced or manufactured in India and exported on and after May 1, 1987 and until further notice visaed as 341–Y and 341–O.

Merchandise in Category 341, exported before July 1, 1987, may be visaed as 341, 341–Y, 341–N or 341–O, provided all other requirements established under this visa arrangement have been met.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983, (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 28622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782) July 14, 1986 (51 FR 25386), July 29, 1986 (51 FR 27068) and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States annotated (1987).

Ronald I. Levin,

*Acting Chairman, Committee for the Implementation of Textile Agreements.*

### Committee for the Implementation of Textile Agreements

May 14, 1987.

Commissioner of Customs,
*Department of the Treasury, Washington, DC 20229.*

Dear Mr. Commissioner: This directive cancels and supersedes the directive of January 26, 1987 which directed you to permit entry or withdrawal from warehouse for consumption in the United States of cotton textile products in Category 341, visaed as 341, 341–Y, 341–N exported from India.

Effective on May 14, 1987 and until further notice, the existing export visa requirement established by the directive of November 28, 1979, as amended, is hereby further amended to permit entry for consumption, or withdrawal from warehouse for consumption, in the United States of cotton textile products in Category 341 which have been visaed as Category 341–Y and 341–O, if exported on and after May 1, 1987. Cotton textile products in Category 341, exported before July 1, 1987, may be visaed as 341, 341–Y, 341–N or 341–O, provided all other requirements established under this visa arrangement have been met.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 533.

Sincerely,

Ronald I. Levin,

*Acting Chairman, Committee for the Implementation of Textile Agreement.*

BILLING CODE 3510–DR–M

## Exemption of Certain Products in Category 627pt.; Film Strips

May 14, 1987.

The purpose of this notice is to advise the public that, effective on May 14, 1987, shipments of inked ribbon film strips in Category 627 (only TSUSA numbers 389.6260 and 389.6265) exported from all countries are exempt from the terms of bilateral agreements and export visa arrangements negotiated by the United States.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983, (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 18, 1984 (49 FR 28754), November 9, 1984) 49 FR 44782), July 29, 1986 (51 FR 27088) and in Statistical Headnote 5, Schedule 3 of the *Tariff Schedules of the United States Annotated* (1987).

**FOR FURTHER INFORMATION CONTACT:** Marty Walsh, Office of Textiles and Apparel, (202) 377–4212.

Ronald I. Levin,

## COMMODITY FUTURES TRADING COMMISSION

### Agricultural Advisory Committee; Second Renewal

The Commodity Futures Trading Commission has determined to renew again for a period of two years its advisory committee designated as the "Commodity Futures Trading Commission Agricultural Advisory Committee." As required by section 14(a)(2)(A) of the Federal Advisory Committee Act, 5 U.S.C. App. I, section 14(a)(2)(A), and 41 CFR 101–6.1007 and 101–6.1029, the Commission has consulted with the Committee Management Secretariat of the General Services Administration, and the Commission certifies that the renewal of the advisory committee is in the public interest in connection with duties imposed on the Commission by the Commodity Exchange Act, 7 U.S.C. 1, *et seq.*, as amended.

The objectives and scope of activities of the Agricultural Advisory Committee are to conduct public meetings and submit reports and recommendations on issues affecting agricultural producers, processors, and lenders and others interested in or affected by the agricultural commodities markets, and to facilitate communications between the Commission and the diverse agricultural and agriculture-related organizations represented on the committee.

Commissioner Kalo A. Hineman serves as Chairman and Designated Federal Official of the Agricultural Advisory Committee. The Committee's membership represents a cross-section of interested and affected groups including representives of producers, processors, lenders and other interested agricultural groups.

Interested persons may obtain information or make comments by writing to the Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581.

Issued in Washington, DC, this 13 day of May, 1987 by the Commission.

Jean A. Webb,

*Secretary of the Commission.*

## DEPARTMENT OF DEFENSE

### Office of the Secretary

### Advisory Committee on Integrated Long-Term Strategy; Meeting

**ACTION:** Notice of Advisory Committee Meeting.

**SUMMARY:** The Advisory Committee on Integrated Long-Term Strategy will meet in closed session on 11–12 June 1987 in the Pentagon, Arlington, VA.

The mission of the Advisory Committee on Integrated Long-Term Strategy is to provide the Secretary of Defense and the Assistant to the President for National Security Affairs with an independent, informed assessment of the policy and strategy implications of advanced technologies for strategic defense, strategic offense and theater warfare, including conventional war. At this meeting the Committee will hold classified discussions of national security matters dealing with long term strategy and policy.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92–463, as amended [U.S.C. App. II, (1982)], it has been determined that this Advisory Committee meeting concerns matters listed in 5 U.S.C. 552b(c)(1)(1982), and that accordingly this meeting will be closed to the public.

Patricia H. Means,

*OSD Federal Register Liaison Officer, Department of Defense.*

## DEPARTMENT OF EDUCATION

[CFDA No. 84.199]

## Applications for a New Award Under the National Assessment of Educational Progress (NAEP) Program for FY 1988; Invitation

*Purpose:* Provide a grant to a nonprofit educational organization to conduct the biennial NAEP assessment during the 1987–88 school year and to analyze and report the results of this assessment; to develop the objectives and exercises for the assessment to be conducted during the 1989–90 school year; and, if adequate funding is available, to design, with the States' participation, an assessment to provide comparable data for each State. This grant does not include the conduct of either the 1989–90 biennial assessment or the State comparable assessment of one subject area.

*Deadline for transmittal of applications:* July 6, 1987.

*Applications available:* May 22, 1987.

*Available funds:* $50,000 (fiscal year 1987 appropriation). It is anticipated that up to $10,800,000 will be awarded during the 30-month project period.

*Estimated number of awards:* 1.

*Project period:* 30 months.

*Applicable regulations:* The Education Department General Administrative Regulations, 34 CFR Parts 74, 75, 77, and 78.

*Weighting for selection criteria:* Educational Department General Administrative Regulations at 34 CFR 75.210(c) authorize the Secretary to distribute an additional 15 points among the selection criteria in 34 CFR 75.210 to bring the total possible points to maximum of 100 points. For the purpose of this competition, the Secretary will distribute the additional points as follows:

Plan of operation: (§ 75.210 (b)(3)). Fifteen (15) additional points will be added for a possible total of 30 points for this criterion.

*Information conference:* An information conference for prospective applicants will be held on June 1, 1987, from 1:00 p.m. to 4:00 p.m. in Room 326, 555 New Jersey Avene NW., Capitol Place, Washington, DC 20208. Potential applicants who are unable to attend the information conference are invited to contact Eugene Owen for a written report of the conference.

*For applications or information contact:* Eugene Owen, U.S. Department of Education, 555 New Jersey Avenue NW., Room 306–C, Capitol Place, Washington, DC 20208 Telephone: (202) 357–6748.

Program authority: 20 U.S.C. 1221e.

*Dated:* May 14, 1987.

Chester E. Finn, Jr.,

*Assistant Secretary and Counselor to the Secretary.*

## DEPARTMENT OF ENERGY

## Federal Energy Regulatory Commission

[Docket Nos. RP82–80–024 and CP82–542–011]

## ANR Pipeline Co.; Compliance Filing

May 13, 1987.

Take notice that on April 29, 1987, ANR Pipeline Company (ANR) tendered for filing proposed changes in its FERC Gas Tariff, Original Volume Nos. 1 and 1–A, to become effective November 1, 1987. ANR states that the filing reflects compliance with the Commission's Opinion Nos. 258 and 258–A. The revised Tariff Sheets designated PRO FORMA are listed below:

**Original Volume No. 1**

Sheet No. 18
Sheet No. 20
Sheet No. 25
Sheet No. 79
Sheet No. 80
Sheet No. 80A
Sheet No. 111
Sheet No. 112
Sheet No. 113
Sheet No. 114

**Original Volume No. 1–A**

Sheet No. 5
Sheet No. 6
Sheet No. 7
Sheet No. 8.

ANR states that this filing is being made under protest, and with full

reservation of all rights relative to appeal of Opinion Nos. 258 and 258–A and any other lawful action relative to the subject matter. ANR has also stated that it has filed its appeal of Opinion Nos. 258 and 258–A to a Court of competent jurisdiction, and that it anticipates that aspects thereof will be set aside, and may be stayed.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NW., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before May 20, 1987. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceedings. Any party wishing to become a party to the proceeding must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

*Secretary.*

BILLING CODE 6717–01–M

---

[Docket RP86–105–007 and RP86–169–004]

## ANR Pipeline Co.; Tariff Revision

May 13, 1987.

Take notice that on May 7, 1987, ANR Pipelien Company (ANR) tendered for filing with the Federal Energy Regulatory Commission ("Commission") the following revised tariff sheets to Original Volume No. 1–A of its F.E.R.C. Gas Tariff.

Substitute First Revised Sheet No. 6
Substitute First Revised Sheet No. 13
Substitute First Revised Sheet No. 14
Original Sheet No. 14A
Substitute First Revised Sheet No. 35
Substitute First Revised Sheet No. 36
Original Sheet No. 36A
Substitute First Revised Sheet No. 54
Substitute First Revised Sheet No. 55
Substitute First Revised Sheet No. 56
Substitute First Revised Sheet No. 136

ANR states that on April 17, 1987 it indicated in the Public Hearings at Docket Nos. RP86–105–000 and RP86–169–000, that it would revise certain balancing provisions included in Original Volume No. 1–A of its F.E.R.C. Gas Tariff. Accordingly, the revised tariff sheets listed above have been submitted for filing. ANR further states that the above tariff sheets reflect only those revisions necessary to reflect the modified balancing provisions which ANR indicated it would submit for filing to the Commission during the proceeding at the captioned dockets.

ANR has requested an effective date of July 1, 1987 for these tariff sheets. ANR has served copies of this filing on all parties to the captioned proceedings.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214, 385.211). All such motions or protests should be filed on or before May 20, 1987. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. CI87–406–000]

## R. Lacy, Inc., et al.; Application for Abandonment and Pregranted Abandonment for Sales Under Small Producer Certificate

May 12, 1987.

Take notice that on April 13, 1987, as amended on April 23, and 30, 1987, R. Lacy, Inc., *et al.*[1] (Lacy) of P.O. Box 2146, Longview, Texas 25606 filed an application pursuant to section 7(b) of the Natural Gas Act and § 2.77 of the Commission's rules. Lacy requests authorization to abandon sales to Natural Gas Pipeline Company of America (Natural) from the Carthage Field, Panola County, Texas. Lacy also requests pregranted abandonment for three years for sales of such gas under Lacy's small producer certificate in Docket No. CS72–250. Lacy states it is subject to substantially reduced takes without payment. The wells produce NGPA section 104 replacement contract and post-1974 gas and 108 gas. Deliverability is 2,800 Mcf/day. Lacy proposes to make sales of the subject gas in intrastate or interstate commerce.

The circumstances presented in the application meet the criteria for consideration on an expedited basis, pursuant to § 2.77 of the Commission's rules as promulgated by Order No. 490 and 436–A, issued October 9, and December 12, 1985, respectively, in Docket No. RM85–1–000, all as more fully described in the application which is on file with the Commission and open to public inspection.

Accordingly, any person desiring to be heard or to make any protest with reference to said application should on or before 15 days after the date of publication of this notice in the Federal Register, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding herein must file a petition to intervene in accordance with the Commission's Rules.

Under the procedures herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

*Secretary.*

[Docket No. CP86–701–003]

## Tennessee Gas Pipeline Co., a Division of Tenneco Inc.; Tariff Filing

May 13, 1987.

Take notice that on May 4, 1987, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), tendered for filing six copies of the following tariff sheets to its FERC Gas Tariff:

**Original Volume No. 2**

Second Revised Sheet Nos. 3, 6 and 9
First Revised Sheet Nos. 464 through 479
First Revised Sheet Nos. 923, 924, 927, 928, 929 and 945
Original Sheet Nos. 1848 through 1917
Original Sheet Nos. 1918 through 5000

Tennessee states that the purpose of these revised tariff sheets is to

implement new rate schedules for certain long-term transportation agreements that have received authorization in various proceedings before the Commission, to amend existing transportation rate schedules pursuant to Commission authorization, to provide notice of cancellation of Rate Schedule T-66, and to revise the Table of Contents and the Summary of Rates and Charges in Original Volume No. 2.

Tennessee states that copies of this filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any persons desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before May 20, 1987. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket Nos. ER87-280-000, et al.]

## Electric Rate and Corporate Regulation Filings; American Electric Power Service Corp., et al.

May 12, 1987.

Take notice that the following filings have been made with the Commission:

### 1. American Electric Power Service Corp.

[Docket No. ER87-280-000]

Take notice that American Electric Power Service Corporation (AEP) on April 17, 1987, tendered for filing on behalf of its affiliates, Appalachian Power Company, Indiana & Michigan Electric Company, Kentucky Power Comnpany, Ohio Power Company, and Wheeling Electric Company, which are all AEP affiliated operating subsidiaries, revisions to the cost support data previously submitted in this docket to take into account a federal tax rate of 34%.

Copies of this filing were served upon the Kentucky Public Service Commission, Public Service Commission of Indiana, Michigan Public Service Commission, Public Utilities Commission of Ohio, State Corporate Commission of Virginia, and Public Service Commission of West Virginia.

*Comment date:* May 28, 1987, in accordance with Standard Paregraph E at the end of this notice.

### 2. American Electric Power Service Corp.

[Docket No. ER87-281-000]

Take notice that American Electric Power Service Corporation (AEP) on April 17, 1987, tendered for filing on behalf of its affiliates, Appalachian Power Company, Ohio Power Company, and Wheeling Electric Company, which are all AEP affiliated operating subsidiaries, revisions to the cost support data previously submitted in this docket to take into account a federal tax rate of 34%.

Copies of this filing were served upon the Public Utilities Commission of Ohio, State Corporate Commission of Virginia, and Public Service Commission of West Virginia.

*Comment date:* May 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

### 3. American Electric Power Service Corp.

[Docket No. ER87-355-000]

Take notice that American Electric Power Service Corporation (AEP) on April 17, 1987, tendered for filing on behalf of its affiliates, Appalachian Power Company, Indiana & Michigan Electric Company, and Ohio Power Company, which are all AEP affiliated operating subsidiaries, revisions to the cost support data previously submitted in this docket to take into account a federal tax rate of 34%.

Copies of this filing were served upon the Public Service Commission of Indiana, Michigan Public Service Commission, Public Utilities Commission of Ohio, State Corporate Commission of Virginia, and Public Service Commission of West Virginia.

*Comment date:* May 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

### 4. Boston Edison Co.

[Docket No. ER87-423-000]

Take notice that on May 5, 1987, Boston Edison Company (Edison) tendered for filing a supplemental Exhibit A to a Service Agreement for Braintree Electric Light Department (Braintree), under its FERC Electric Traffic, Originial Volume No. III, Non/Firm Transmission Service (the Tariff). The Exhibit A specifies the amount and duration of transmission service required by Braintree under the Tariff.

Edison requests waiver of the Commission's notice requirements to permit the Exhibit A to become effective as of the commencement date of the transaction to which it relates, May 1, 1987.

Edison states that it has served the filing on Braintree Electric Light Department and the Massachusetts Department of Public Utilities.

*Comment date:* May 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

### 5. Consolidated Edison Co. of New York, Inc.

[Docket No. ER87-421-000]

Take notice that on May 5, 1987, Consolidated Edison Company of New York, Inc. ("Con Edison") tendered for filing, as an initial rate schedule, an agreement to provide interruptible transmission service to Atlantic City Electric Company ("Atlantic Electric"). The agreement provides for a change of 2.6 mills per kilowatthour for transmission of power purchased by Atlantic Electric from companies in the New England Power Pool.

Con Edison requests waiver of the notice requirements of Section 35.3 of the Commission's regulations so that the Rate Schedule can be made effective as of September 1, 1986.

Con Edison states that a copy of this filing has been served by mail upon Atlantic Electric.

*Comment date:* May 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

### 6. The Dayton Power and Light Co. and the Ohio Edison Co.

[Docket No. ER 87-333-000]

Take notice that The Dayton Power and Light Company on May 7, 1987 tendered for filing, on its own behalf, and on behalf of The Ohio Edison Company, a revision to the Interconnection Agreement filed in this docket March 26, 1987. Specifically, DP&L has reduced the minimum charge associated with economy transactions.

This filing was served upon the Public Utilities Commission of Ohio.

*Comment date:* May 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

### 7. Pacific Gas and Electric Co.

[Docket No. ER87-424-000]

Take notice that Pacific Gas and Electric Company (PGandE) tendered for filing, on May 6, 1987, the 1985 recorded cost of thermal capacity to be

used in calculating the Capacity Account repurchase rate that PGand E charges the Western Area Power Administration (Western) pursuant to Article 22(c)(1)(i) of Contract No. 14–06–200–2948A.

Copies of this filing were served upon Western and the California Public Utilities Commission.

*Comment date:* May 26, 1987, in accordance with Standard Paragraph E at the end of this notice.

**8. Southern California Edison Co.**

[Docket No. ER87–422–000]

Take notice that, on May 5, 1987, Southern California Edison Company ("Edison") tendered for filing, as an initial rate schedule, the following Agreement, which has been executed by Edison and the City of Anaheim, California ("Anaheim").

Edison-Anaheim Deseret Firm Transmission Service Agreement

Under the terms and conditions of the Agreement, Edison, will make available to Anaheim firm transmission service for its purchases of nonintegrated capacity and energy from Deseret Generation and Transmission Cooperative, Inc. ("Deseret") to the Point of Delivery at Lewis Substation, Anaheim, California.

The Agreement is proposed to become effective when executed by the Parties and accepted for filing by the Commission (without changes unacceptable to either party); and as such, Edison requests, to the extent necessary, waiver of notice requirements.

Copies of this filing were served upon the Public Utilities Commission of the State of California and the City of Anaheim California.

*Comment date:* May 26, 1987, in accordance with Standard Paragraph E at the end of this notice.

**9. System Energy Resources, Inc.**

[Docket No. ER82–616–031]

Take notice that on April 17, 1987, System Energy Resources, Inc. (SERI) tendered for filing supplemental information with respect to the Nuclear Decommissioning Trust Fund Agreement which has been proposed for accumulation of money intended to compensate for SERI's share of anticipated decommissioning expenses for Unit 1 of its Grand Gulf Nuclear Electric Station.

*Comment date:* May 20, 1987, in accordance with Standard Paragraph E at the end of this document.

**10. Utilicorp United Inc.**

[Docket No. ES87–26–000]

Take notice that on April 29, 1987, UtiliCorp United Inc., pursuant to section 204 of the Federal Power Act, filed an application for authorization to issue 400,000 shares of common stock, par value $1.00 per share pursuant to its Savings Plan, 100,000 shares of its common stock, par value $1.00 per share pursuant to its 1986 Employee Stock Purchase Plan and 200,000 shares of its common stock, par value $1.00 per share pursuant to its Dividend Reinvestment and Stock Purchase Plan. Utilicorp is requesting that the Commission grant authorization effective retroactive to April 1, 1987.

*Comment date:* May 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

**11. Utilicorp United Inc.**

[Docket No. ES87–27–000]

Take notice that on April 29, 1987, UtiliCorp United Inc., pursuant to section 204 of the Federal Power Act, filed an application for authorization to issue up to and including 300,000 shares of common stock, par value $1.00 per share, pursuant to a proposed two percent stock dividend based on the number of shares outstanding as the record date and requesting exemption from the competitive bidding requirements of the Commission's Regulations.

The securities will be issued pro rata on the basis of one new share for each fifty shares held for record. Should a shareholder have shares not evenly divisible by two, a fractional share cash payment will be made based on the closing price on the New York Stock Exchange at such record date.

*Comment date:* May 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

**12. UtiliCorp United Inc.**

[Docket No. ES87–28–000]

Take notice that on April 29, 1987, UtiliCorp United Inc., pursuant to section 204 of the Federal Power Act, filed an application for authorization for UtiliCorp to issue common stock to holders of existing shares of common stock on a three for two basis, based on the number of shares outstanding as of the record date established by the Executive Committee of UtiliCorp and requesting exemption from the competitive bidding requirement of § 34.2 of the Commission's Regulations.

The securities will be issued pro rata on the basis of one additional share for each two shares held of record, such record date to be determined by UtiliCorp's Executive Committee after receipt of all regulatory approvals. Should a shareholder have shares not evenly divisible by two, a fractional share cash payment will be made based on the closing price on the New York Stock Exchange at such date to be fixed by the Executive Committee.

*Comment date:* May 28, 1987, in accordance with Standard Paragraph E at the end of this document.

**Standard Paragraph**

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestant's parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

*Secretary.*

BILLING CODE 6717–01–M

---

[Docket Nos. CP86–408–002, et al.]

**Natural Gas Certificate Filings; Southern Natural Gas Co., et al.**

May 12, 1987.

Take notice that the following filings have been made with the Commission:

**1. Southern Natural Gas Co.**

[Docket No. CP86–408–002]

Take notice that on April 27, 1987, Southern Natural Gas Company (Southern), P.O. Box 2563, Birmingham, Alabama 35202–2563, filed in Docket No. CP86–408–002 a petition pursuant to section 7(c) of the Natural Gas Act to further amend the certificate issued in Docket No. CP86–408–000, so as to permit Southern to increase the currently authorized transportation volume for Atlanta Gas Light Company (Atlanta) and to extend the authorized transporation term for such services, all as more fully set forth in the petition to amend, which is on file with the Commission and open to public inspection.

Southern proposes in Docket No. CP86-406-002 to increase the volumes of gas transported on an interruptible basis for Atlanta, acting as agency for Anglo-American Clays Corporation (Anglo-American), from 4,700 MMBtu per day to 12,000 MMBtu per day. It is stated that Anglo-American has arranged to obtain additional sources of gas and has requested that Southern add these volumes to those presently authorized for transportation. In addition, Southern proposes to extend the term of the transporation service to October 31, 1988. It is stated that this extension would permit Southern to continue to transport gas for Anglo-American beyond the October 31, 1987, termination date authorized in Docket No. CP86-406-001. It is asserted that the proposed extension of the transportation term is consistent with Southern's policy statement filed in Docket Nos. CP86-277-001, *et al.* Southern further states it will receive take-or-pay relief on gas Anglo-American may receive from its suppliers.

*Comment date:* June 2, 1987, in accordance with Standard Paragraph F at the end of this notice.

**2. Southern Natural Gas Co.**

[Docket Nos. CP86-400-002 and CP86-467-002]

Take notice that on April 23, 1987, Southern Natural Gas Company (Southern), P.O. Box 2563, Birmingham, Alabama 35202-2563 filed in Docket Nos. CP86-400-002 and CP86-467-002 petitions pursuant to section 7(c) of the Natural Gas Act to further amend the certificates issued in Docket Nos. CP86-400-000 and CP86-467-000, so as to permit Southern to increase the currently authorized transportation volume and, in Docket No. CP86-467-002, to extend the authorized transportation term, all as more fully set forth in the petitions which are on file with the Commission and open to public inspection.

Southern requests authorization in Docket No. CP86-400-002 to increase the volumes of interruptible natural gas transported by Southern for Engelhard Corporation (Engelhard), with Atlanta Gas Light Company acting as agent, from 20,000 MMBtu of gas per day to 30,000 MMBtu of gas per day, for a limited term ending October 31, 1988. It is stated that Engelhard had obtained additional gas supplies and has requested that Southern add these volumes to those presently authorized for transportation. Southern further states it will receive take-or-pay relief on gas Engelhard may receive from its suppliers.

Southern requests authorization in Docket No. CP86-467-002 to increase the volumes of natural gas transported on an interruptible basis by Southern for the City of Austell Natural Gas System (Austell) from 6,500 MMBtu of gas per day to 20,000 MMBtu of gas per day, for a limited term ending October 31, 1988. It is stated that Austell has arranged to obtain additional gas supplies and has requested that Southern add these volumes to those presently authorized for transportation. It is explained that both Engelhard and Austell have arranged to obtain the additional gas supplies in order to gain access to more competitively priced gas. Southern further states it will receive take-or-pay relief on gas Austell may obtain from its suppliers.

In Docket No. CP86-467-002 Southern also requests authorization to amend the certificate by extending the transportation term to October 31, 1988, in order that Southern may continue to transport gas for Austell beyond the October 31, 1987, termination date authorized in Docket No. CP86-467-001. It is asserted that the proposed extension of the transportation term is consistent with Southern's policy statement filed in Docket Nos. CP-86-277-001, *et al.*

*Comment date:* June 2, 1987, in accordance with the first subparagraph of Standard Paragraph F at the end of this notice.

**Standard Paragraph**

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10) All protests filed with the Commission will be considered by it in detemining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motin to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

Kenneth F. Plumb,
*Secretary.*

BILLING CODE 6717-01-M

## ENVIRONMENTAL PROTECTION AGENCY

[FRL 3263-4]

**Fuels and Fuel Additives**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency has reconsidered a portion of a fuel waiver granted under section 211(f) of the Clean Air Act to E. I. DuPont de Nemours and Company, Inc. (DuPont) on January 10, 1985. This waiver was previously reconsidered and modified on October 31, 1986 (51 FR 39800). Today's notice approves the use of an alternative corrosion inhibitor, DMA-67, in DuPont's gasoline-alcohol fuel.

**ADDRESS:** Copies of the information relative to this notice are available for inspection in public docket FN-84-06 at the Central Docket Section (LE-131A) of EPA, Gallery 1—West Tower, 401 M Street SW., Washington, DC 20460, (202) 382-7548, between the hours of 8:00 a.m. and 4:00 p.m. As provided in 40 CFR Part 2, a reasonable fee may be charged for copying materials in the docket.

**FOR FURTHER INFORMATION CONTACT:** Sylvia L. Correa, Attorney/Advisor, Field Operations and Support Division (EN-397F), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460, (202) 382-2635.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

Section 211(f)(1) of the Clean Air Act (Act), 42 U.S.C. 7545(f)(1), states that effective upon March 31, 1977, it shall be unlawful for any manufacturer of any fuel or fuel additive to first introduce

into commerce or to increase the concentration in use of any fuel or fuel additive for general use in light-duty motor vehicles manufactured after model year 1974, which is not substantially similar to any fuel or fuel additive utilized in the certification of any model year 1975, or subsequent model year, vehicle or engine under section 206 of the Act. Section 211(f)(4) of the Act, 42 U.S.C. 7545(f)(4), provides that the Administrator of EPA, upon application of any manufacturer of any fuel or fuel additive, may waive the prohibitions established under section 211(f)(1), if the Administrator determines that the applicant has established that such fuel or fuel additive or a specified concentration thereof, or the emission products of such fuel or additive or specified concentration thereof, will not cause or contribute to a failure of any emission control device or system (over the useful life of any vehicle in which such device or system is used) to achieve compliance by the vehicle with the emission standards with respect to which it has been certified pursuant to section 206 of the Act. If the Administrator does not act to grant or deny an application within 180 days of receipt of the application, the waiver authorized by section 211(f)(4) shall be treated as granted.

DuPont submitted a waiver application for a gasoline-alcohol blend on July 16, 1984. On January 10, 1985, the Administrator granted the waiver, subect to certain conditions. 50 FR 2615. On March 18, 1985, the Oxygenated Fuels Association (OFA), on behalf of its member companies, filed petitions for reconsideration. On April 22, 1986 (51 FR 15064), EPA granted OFA's petition for reconsideration and, on October 31, 1986 (51 FR 39800), EPA decided to rescind one condition of the waiver and to modify certain other conditions.

One of the conditions that was modified concerned which corrosion inhibitor formulation could be used in the waived fuel. In that notice, EPA allowed the use of corrosion inhibitor, Petrolite's TOLAD MFA–10, as an alternative to the inhibitor originally allowed under the waiver (DuPont's DGOI–100). At the same time, EPA invited other corrosion inhibitor manufacturers to submit test data to the Agency to establish, on a case-by-case basis, whether their formulations are environmentally acceptable.

On November 13, 1986, DuPont requested that EPA allow the use of its corrosion inhibitor, DMA–67, in its gasoline-alcohol fuel blend which otherwise would not be allowed under the waiver. DMA–67 is a formulation consisting of a corrosion inhibitor and a carburetor detergent. The physical properties of DMA–67 are shown in Table 1 in the DuPont Docket (EN–84–06), document no. VIII–A–3.

On March 31, 1987, EPA published a notice in the **Federal Register** (52 FR 10261) announcing receipt of DuPont's request and inviting comment on it. The comment period closed on April 30, 1987.

## II. Discussion

One of the major areas of concern to EPA in reviewing any waiver request is the problem of materials compatibility. Materials compatibility date could show a potential failure of fuel systems, emissions-related parts and emission control parts from use of the fuel of additive. Any failure could result in greater emissions.

Initially, DuPont had requested the use of DGOI–100 or its equivalent in the final fuel. However, at that time the Agency had no measure of equivalency that could be used to test other corrosion inhibitors. The Agency decided, therefore, to look at corrosion inhibitors on a case-by-case basis to establish whether each formulation was environmentally acceptable. Subsequently, EPA did recise the waiver to allow the use of Tolad MFA–10 as an alternative to DGOI–100.

DuPont has submitted information demonstrating that DMA–67 has the same level of corrosion inhibitor and carburetor detergent as was used in its original 50,000-mile waiver test data. The principal ingredient of both DMA–67 and DGOI–100 relative to vehicle emissions in DuPont's DMA–54. DMA–54 is a widely used carburetor detergent in the United States.

The principal ingredient of both DMA–67 and DGOI–100 relative to corrosion inhibition is DCI–11. DCI–11 is currently used in over 80 percent of the fuel grade ethanol in the United States. It was specifically designed to provide corrosion protection to gasoline-alcohol blends.

In order to determine whether the DuPont waiver would meet the criteria of section 211(f)(4) DMA–67 is used as an inhibitor, EPA reviewed all data submitted with the application. No comments regarding DMA–67 have been received at this time.

## III. Finding and Conclusion

Based on the information submitted by DuPont in its application, I conclude that DMA–67 is comparable to DGOI–100 and TOLAD MFA–10. Therefore, I am modifying condition (3) of the waiver to read as follows:

(3) Any one of the following three corrosion inhibitor formulations must be included:

(a) DuPont's proprietary corrosion inhibitor formulation, DGOI–100, blended in the final fuel at 41.2 milligrams per liter (mg/1); OR.

(b) Petrolite's corrosion inhibitor formulation, TOLAD MFA–10, blended in the final fuel at 42.7 mg/1; OR

(c) DuPont's corrosion inhibitor formulation, DMA–67, blended in the final fuel at 31.4 mg/1.

This should provide additional flexibility to manufacturers wishing to produce the DuPont blend. Since EPA is still unaware of any single test which assure the environmental compatibility of an inhibitor, the Agency will continue to examine the emissions impact of any specific future corrosion inhibitor formulation on a case-by-case basis.

## IV. Miscellaneous

EPA has determined that this action does not meet any of the criteria for classification as a major rule under Executive Order 12291. Therefore, no regulatory impact analysis is required.

This action is not a "rule" as defined in the Regulatory Flexibility Act, 5 U.S.C. 601(2), because EPA is not required to undergo "notice and comment" under section 553(b) of the Administrative Procedure Act of other law. Therefore, EPA has not prepared a supporting regulatory flexibility analysis addressing the impact of this action on small business entities.

This is a final Agency action of national applicability. Jurisdiction to review the action lies exclusively in the U.S. Court of Appeals for the District of Columbia Circuit. Under section 307(b)(1) of the Act, judicial review of this action is available only by the filing of a petition for review in the U.S. Court of Appeals for the District of Columbia Circuit within 60 days of the date of publication of this notice. Under section 307(b)(2), judicial review may not be obtained in any subsequent judicial proceeding brought by the Agency to enforce the statutory prohibitions.

Dated: May 13, 1987.

**Lee M. Thomas,**

*Administrator.*

[PF–482; FRL: 2204–1]

## Pesticide Tolerance Petition

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice amends a pesticide petition by Ciba-Geigy Corp. proposing tolerances for the combined residues of the fungicide 1-[[2-]2,4-dichlorophenyl]-4-propyl-1, 3-dioxolan-2-yl]-methyl[1*H*1, 2, 4-triazole and its metabolites, determined as 2, 4-dichlorobenzoic acid and expressed as the parent compound, in or on certain agricultural commodities. The amendment proposed to increase tolerance levels and proposes additional tolerances on certain commodities.

**ADDRESS:** By mail, submit comments identified by the document control number [PF-482] at the following address:

Information Services Section (TS-757C) (Attn: Product Manager (PM-21)), Program Management and Support Division, Office of Pesticide Programs, Environmental Protection Agency, 401 M Street SW., Washington, DC 20460.

In person, bring comments to:

Information Services Section (TS-757C), Room 227, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR Part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. Written comments filed in response to this notice will be available for public inspection in the Information Services Section office at the address given above, from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays.

**FOR FURTHER INFORMATION CONTACT:** By mail:

Lois Rossi, PM-21, Registration Division (TS-767C), Environmental Protection Agency, Office of Pesticide Programs, 401 M Street SW., Washington, DC 20460.

Office location and telephone number: Room 227, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703-557-1900).

**SUPPLEMENTARY INFORMATION:** EPA issued a notice, published in the Federal Register of May 23, 1984 (49 FR 21796), which announced that Ciba-Geigy Corp., P.O. Box 18300, Greensboro, NC 27419, submitted pesticide petition 4F3074 to EPA proposing tolerances for the fungicide 1-[[2-]2,4-dichlorophenyl]-4-propyl-1, 3-dioxolan-2-yl]-methyl[1*H*1, 2, 4-triazole and its metabolites, determined as 2, 4-dichlorobenzoic acid and expressed as the parent compound, in or on certain agricultural commodities. Ciba-Geigy Corp. has amended the petition as follows:

1. By increasing the tolerance levels for the kidney and liver of cattle, goats, hogs, horses, poultry, and sheep from 0.1 part per million (ppm) to 0.2 ppm.

2. By adding tolerances for fat, meat, and meat byproducts (except kidney and liver) of cattle, goats, hogs, horses, poultry, and sheep at 0.1 ppm; eggs at 0.1 ppm; and milk at 0.05 ppm.

The proposed analytical method for determining residues is gas liquid chromatograph equipped with an electron capture detector.

Authority: 21 U.S.C. 346a.

Dated: May 15, 1987.

**[OPTS-42060B; FRL 3203-6]**

## Testing Consent Agreement Development for Chemical Subatances Under TSCA Section 4; Solicitation for Public Participation

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** EPA issued a proposed test rule on three triethylene glycol ethers (triethylene glycol monomethyl ether, CAS No. 112-35-6; triethylene glycol monoethyl ether, CAS No. 112-50-5; triethylene glycol monobutyl ether, CAS No. 143-22-6) published in the Federal Register of May 15, 1986 (51 FR 17883). The Agency is considering a testing consent agreement for these three chemicals and is soliciting public participation in the process. EPA invites persons interested in becoming involved in or monitoring negotiations for the development of a consent agreement to identify themselves as "interested parties". A public meeting is announced to discuss the Agency's consideration of a testing consent agreement for these chemicals.

**DATES:** Submit written notice of interest to be designated an "interested party" on or before June 8, 1987. A public meeting will be held on May 28, 1987.

**ADDRESS:** Submit written notice of interest in being designated an "interested party" in triplicate identified by the document control number [OPTS-42060B] to:

TSCA Public Information Office (TS-793), Office of Toxic Substances, Environmental Protection Agency, Rm. NE-G004, 401 M Street, SW., Washington, DC 20460.

**FOR FURTHER INFORMATION CONTACT:** Edward A. Klein, Director, TSCA Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. E-543, 401 M Street, SW., Washington, DC 20460, (202) 554-1404.

Persons interested in attending the public meeting should notify EPA by telephone before May 26, 1987.

**SUPPLEMENTARY INFORMATION:** EPA has issued amendments to the procedural regulations in 40 CFR Part 790, which govern the development and implementation of testing requirements under section 4 of TSCA. These amendments establish procedures for using enforceable consent agreements to develop testing requirements under section 4 of the Act. This notice serves three purposes under those procedures. First, it announces a public meeting to initiate testing negotiations for the chemicals. Second, it requests "interested parties", who wish to participate in testing negotiations for the three triethylene glycol ethers proposed for testing by EPA, to identify themselves to the Agency. Third, it proposes a target schedule for implementation of the consent agreement process for the chemicals under consideration.

### I. Identification of Interested Parties

Under 40 CFR 790.22 the testing negotiation procedures are initiated by the publication of a Federal Register notice which invites persons interested in participating in or monitoring negotiations for the development of a consent agreement to notify the Agency in writing. Those individuals and groups who respond to EPA's notice by the deadline established in the notice will have the status of "interested parties" and will be afforded opportunities to participate in the negotiation process. These "interested parties" will not incur any obligations by being designated "interested parties". The procedures for these negotiations are described in 40 CFR 790.22.

Individuals and groups desiring to have the status of "interested parties" in the development of testing consent agreements for the three triethylene glycol ethers should submit a written notice of this fact to the Agency at the address given above on or before June 8,

1987. The Agency is considering initiating the consent agreement process rather than finalizing the proposed rule for these chemicals because EPA believes the consent agreement process will lead to the development of necessary test data significantly earlier.

The Agency has not previously applied the consent order process to chemicals for which testing has already been proposed, but in this instance an exception is being made because: (1) The Interim Final Rule on consent order procedures was published after the proposed rule on the triethylene glycol ethers, and (2) an industry group approached EPA with some testing in progress and plans for further studies. EPA would like to examine this proposal in the context of a testing consent order.

### II. Public Meetings

A public meeting will be held to discuss EPA's evaluation of testing needs for these chemicals and industry's proposal on May 28, 1987 at 1:30 p.m. This meeting will be held in Room 103, Northeast Mall, EPA Headquarters, 401 M Street, SW., Washington, DC 20460. Persons interested in attending this meeting should notify the EPA TSCA Assistance Office by telephone at the telephone number listed above on or before May 26, 1987.

### III. Timetable for Negotiating Consent Agreements

In accordance with the procedures for the development of consent agreements established in 40 CFR 790.22, the following target schedule is established for the three triethylene glycol ethers. EPA has shortened the negotiating time for these chemicals because: (1) The process is beginning after the proposal, and (2) an industry group has already come together and been able to agree on some joint testing.

May 28, 1987—Public meeting to discuss EPA's preliminary testing decisions.

June 8, 1987—Deadline for the notice of interested party designation.

June 19, 1987—Decision by EPA on whether to use consent order or finalize test rule.

July 13, 1987—Draft consent order sent to interested parties for comment (if EPA decides to use the consent order).

October 5, 1987—Issue consent order.

Dated: May 14, 1987.

J. Mereanda,

*Director, Existing Chemical Assessment Division.*

### Petitions for Reconsideration of Actions in Rulemaking Proceedings

May 11, 1987.

Petitions for reconsideration have been filed in the Commission rule making proceeding listed in this Public Notice and published pursuant to 47 CFR 1.429(e). The full text of these documents are available for viewing and copying in Room 239, 1919 M Street, NW., Washington, DC, or may be purchased from the Commission's copy contractor, International Transcription Service (202-857-3800). Oppositions to these petitions must be filed May 19, 1987. See § 1.4(b)(1) of the Commission's rules (47 CFR 1.4(b)(1)). Replies to an opposition must be filed within 10 days after the time for filing opposition has expired.

Subject: Revision and Update of Part 22 of the Public Mobile Radio Service Rules. (CC Docket No. 80-57) Number of petitions received: 2.

Subject: Implementation and Scope of the International Settlements Policy for Parallel International Communications Routes. (CC Docket No. 85-204) Number of petitions received: 1.

Subject: Amendment of § 73.202(b), Table of Allotments, FM Broadcast Stations. (Livingston, Texas) (MM Docket No. 86-268, RM-5285) Number of petitions received: 1.

Federal Communications Commission.

William J. Tricarico,

*Secretary.*

[MM Docket No. 86-484; FCC 87-113]

### Comparative Licensing, Distress Sales and Tax Certificate Policies Premised on Racial, Ethnic or Gender Classifications; Order

**AGENCY:** Federal Communications Commission.

**ACTION:** Order.

**SUMMARY:** This action modifies one aspect of the Commission's *Notice of Inquiry*, 52 FR 596 (January 7, 1987), to provide that in comparative licensing cases in which a racial, ethnic, or gender-based enhancement credit is dispositive: (1) Initial decisions will issue and will make alternative findings as to the successful applicants if the subject credit is allowed or disallowed; (2) appeal of an initial decision can be taken and decided by the Commission's Review Board or the Commission itself; and (3) final decisions will be held in abeyance pending the conclusion of the Commission's general inquiry only if the enhancement credit is held to be dispositive and the case is no longer subject to appeal. This action is taken to avoid unnecessary delay of comparative licensing cases and to expedite provision of radio and television service to the public.

**ADDRESS:** Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Terry L. Haines, Policy and Rules Division, Mass Media Bureau, (202) 632-7792.

**SUPPLEMENTARY INFORMATION:** This is the complete text of the Commission's *Order* in MM Docket No. 86-484, adopted April 7, 1987, and released April 22, 1987.

Federal Communications Commission.

William J. Tricarico,

*Secretary.*

## FEDERAL DEPOSIT INSURANCE CORPORATION

### Information Collection Submitted to OMB For Review

**AGENCY:** Federal Deposit Insurance Corporation.

**ACTION:** Notice of information collection submitted to OMB for review and approval under the Paperwork Reduction Act of 1980.

BEST COPY AVAILABLE

Title of Information Collection: Quarterly Report of Pledged Assets (OMB No. 3064–0010).

Background: In accordance with requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35), the FDIC hereby gives notice that it has submitted to the Office of Management and Budget a request for OMB review for the information collection system identified above.

**ADDRESS:** Written comments regarding the submission should be addressed to Robert Fishman, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 and to John Keiper, Assistant Executive Secretary (Administration), Federal Deposit Insurance Corporation, Washington, DC 20429.

**COMMENTS:** Comments on this collection of information should be submitted on or before June 3, 1987.

**FOR FURTHER INFORMATION CONTACT:** Requests for a copy of the submission should be sent to John Keiper, Assistant Executive Secretary (Administration), Federal Deposit Insurance Corporation, Washington, DC 20429, telephone (202) 898–3810.

**SUMMARY:** The FDIC is requesting OMB approval to extend, for a three-year period, the Quarterly Report of Pledged Assets information collection system. The current clearance for this information collection expires on July 31, 1987. There is no change in the method or substance of the collection. The information collection requirements are contained in 12 CFR Part 346 of FDIC's rules and regulations.

Reports of pledged assets are submitted to the FDIC by insured U.S. branches of foreign banks and by the depositories holding the pledged assets. The purpose of the pledge of assets is to provide protection to the deposit insurance fund against the risks entailed in insuring the domestic deposits of a foreign bank whose activities, assets, and personnel are in large part outside the jurisdiction of the United States. The provision for the pledge of assets by an insured U.S.-based branch of a foreign branch is contained in section 5(c) of the Federal Deposit Insurance Act (12 U.S.C. 1815(c)). While no form is prescribed for the reporting, the items of information to be furnished are prescribed in § 346.19(e) of 12 CFR Part 346. The FDIC requires the reporting to verify that foreign banks are in compliance with the statute and FDIC's regulation. It is estimated that the reporting creates an annual burden of 132 hours on the respondents collectively.

Dated: May 13, 1987.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

*Executive Secretary.*

BILLING CODE 6714–01–M

## Request for Comments on Proposed Guidelines Regarding Bank Bribery Law

**AGENCY:** Federal Deposit Insurance Corporation.

**ACTION:** Request for comments on proposed guidelines.

**SUMMARY:** The Bank Bribery Amendments Act of 1985 requires that Federal agencies with responsibility for regulating financial institutions establish guidelines to assist financial institution officials in complying with this law. The proposed guidelines were developed by the Interagency Bank Fraud Working Group. The guidelines proposed by the Federal Deposit Insurance Corporation ("FDIC") encourage all FDIC-insured state-chartered banks that are not members of the Federal Reserve System and all FDIC-insured state-licensed branches of foreign banks to adopt codes of conduct that describe the prohibitions of the bank bribery law. The guidelines also identify situations that, in the opinion of the FDIC, do not constitute violations of the Federal bank bribery law.

**DATE:** Comments must be received on or before July 20, 1987.

**ADDRESS:** Comments regarding the proposed guidelines should be submitted to Hoyle L. Robinson, Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, DC 20429, or delivered to Room 6108 at the same address between the hours of 9:00 a.m. and 5:00 p.m. on business days. Comments will be available for photocopying and inspection between 9:00 a.m. and 5:00 p.m. on business days at the Office of the Executive Secretary.

**FOR FURTHER INFORMATION CONTACT:** James R. Dudine, Chief, Special Activities Section, Division of Bank Supervision (202–898–6750), or Ronald R. Glancz, Assistant General Counsel, Legal Division (202–898–7266), 550 17th Street, NW., Washington, DC 20429.

### Guidelines on Bank Bribery Law

*Background*

The Comprehensive Crime Control Act of 1984 (Pub. L. 98–473, Title 11, October 12, 1984) amended the Federal bank bribery law, 18 U.S.C. Section 214, to prohibit employees, offices, directors, agents and attorneys of financial institutions from seeking or accepting anything of value in connection with any transaction or business of their financial institution. The amended law also prohibited anyone from offering or giving anything of value to employees, officers, directors, agents or attorneys of financial institutions for or in connection with any transaction or business of the financial institution. Because of its broad scope, the 1984 Act raised concerns that it might have made what is acceptable conduct unlawful.

In July 1985, the Department of Justice issued a Policy Concerning Prosecution Under the New Bank Bribery Statute. In that Policy, the Department of Justice discussed the basic elements of the prohibited conduct under section 215, and indicated that cases to be considered for prosecution under the new bribery law entail breaches of fiduciary duty or dishonest efforts to undermine financial institution transactions. Because the statute was intended to reach acts of corruption in the banking industry, the Department of Justice expressed its intent not to prosecute insignificant gift giving or entertaining that does not involve a breach of fidiciary duty or dishonesty.

Congress decided that the broad scope of the statute provided too much prosecutorial discretion. Consequently, Congress adopted the Bank Bribery Amendments Act of 1985 (Pub. L. 99–370, August 4, 1986) to narrow the scope of 18 U.S.C. section 215 by adding a new element, namely, an intent to corruptly influence or reward an office in connection with financial institution business. As amended, section 215 provides in pertinent part:

Whoever—

(1) Corruptly gives, offers, or promises anything of value to any person, with intent to influence or reward an officer, director, employee, agent, or attorney of a financial institution in connection with any business or transaction of such institution; or

(2) As an officer, director, employee, agent, or attorney of a financial institution, corruptly solicits or demands for the benefit of any person, or corruptly accepts or agrees to accept, anything of value from any person, intending to be influenced or rewarded in connection with any business or transaction of such institution; shall be [guilty of an offense]

The law now specifically excepts the payment of bona fide salary, wages, fees, or other compensation paid, or expenses paid or reimbursed, in the usual course of business. This exception is set forth in subsection 215(c).

The penalty for violation remains the same as it was under the 1984 Act. If the value of the thing offered or received exceeds $100, the offense is a felony

BEST COPY AVAILABLE

punishable by up to five years imprisonment and a fine of $5,000 or three times the value of the bribe or gratuity. If the value does not exceed $100, the offense is a misdemeanor punishable by up to one year imprisonment and a maximum fine of $1,000.

In addition, the law now requires the financial institution regulatory agencies to publish guidelines to assist employees, officers, directors, agents and attorneys of financial institutions in complying with the law. The legislative history of the 1985 Act makes it clear that the guidelines would be relevant to, but not dispositive of, any prosecutorial decision the Department of Justice may make in any particular case. 132 Cong. Rec. 5944 (daily ed. Feb. 4, 1986). Therefore, the guidelines developed by the financial regulatory agencies are not a substitute for the legal standard set forth in the statute. Nonetheless, in adopting its own prosecution policy under the bank bribery statute, the Department of Justice can be expected to take into account the appropriate financial institution regulatory agencies' expertise and judgment in defining those activities or practices that the agencies believe do not undermine the duty of an employee, officer, director, agent or attorney to the financial institution. *United States Attorneys' Manual* section 9–40.439.

*Proposed Guidelines*

The proposed guidelines encourage all FDIC-insured state-chartered banks that are not members of the Federal Reserve System and all FDIC-insured State-licensed branches of Foreign banks ("insured state nonmember banks") to adopt internal codes of conduct or written policies or to amend their present codes of conduct to include provisions that explain the general prohibitions of the bank bribery law. The proposed guidelines relate only to the bribery law and do not address other areas of conduct that an insured state nonmember bank would find advisable to cover in its code of ethics. The code should, consistent with the statute, prohibit any employee, officer, director, agent or attorney of an insured state nonmember bank (hereinafter "Bank Official(s)") from (1) Soliciting for themselves or for a thrid party (other than the bank itself) anything of value from anyone in return for any business, service or confidential information of the bank and (2) accepting anything of value (other than normal authorized compensation) from anyone in connection with the business of the bank either before or after a transaction is discussed or consummated.

The insured state nonmember bank's codes or policies should be designed to alert Bank Officials about the bank bribery statute, as well as to establish and enforce written policies on acceptable business practices.

In its code of conduct, the insured state nonmember bank may, however, specify appropriate exceptions to the general prohibition of accepting something of value in connection with bank business. There are a number of instances where a Bank Official, without risk of corruption or breach of trust, may accept something of value from one doing or seeking to do business with the insured State nonmember bank. The most common examples are the business luncheon or the special occasion gift from a customer. In general, there is no threat of a violation of the statute if the acceptance is based on a family or personal relationship existing independent of any business of the institution; if the benefit is available to the general public under the same conditions on which it is available to the Bank Official; or if the benefit would be paid for by the insured state nonmember bank as a reasonable business expense if not paid for by another party. Indeed, by adopting a code of conduct with appropriate allowances for such circumstances, an insured State nonmember bank recognizes that acceptance of certain benefits by its Bank Officials does not amount to a corrupting influence on the bank's transactions.

In issuing guidance under this statute in the area of business purpose entertainment or gifts, it is not advisable for the FDIC to establish rules about what is reasonable or normal in fixed dollar terms. What is reasonable in one part of the country may appear lavish in another part of the country. An insured State nonmember bank should seek to embody the highest ethical standards in its code of conduct. In doing this, an insured state nonmember bank may establish in its own code of conduct a range of dollar values which covers the various benefits that its Bank Officials may receive from those doing or seeking to do business with the bank.

The code of conduct should provide that, if a Bank Official is offered, receives, or anticipates receiving something of value from a customer beyond what is expressly authorized in the bank's code of conduct or written policy, the Bank Official must disclose that fact to an appropriately designated official of the bank. The insured state nonmember bank should keep contemporaneous written reports of such disclosures. An effective reporting and review mechanism should serve to prevent situations that might otherwise lead to implications of corrupt intent or breach of trust and should enable the insured State nonmember bank to better protect itself from self-dealing. However, a Bank Official's full disclosure evidences good faith only when such disclosure is made in the context of properly exercised supervision and control. Thus, the prohibitions of the bank bribery statute cannot be avoided by simply reporting to management the acceptance of various gifts unless management reviews the disclosures and determines that what is accepted is reasonable and does not pose a threat to the integrity of the insured State nonmember bank.

The FDIC recognizes that a serious threat to the integrity of an insured State nonmember bank occurs when its Bank Officials become involved in outside business interests or employment that gives rise to a conflict of interest. Such conflicts of interest may evolve into corrupt transactions that are covered under the bank bribery statute. Accordingly, insured State nonmember banks are encouraged to prohibit, in their codes of conduct or policies, their Bank Officials fromn self-dealing or otherwise trading on their positions with the bank or accepting from doing or seeking to do business with the bank a business opportunity not generally available to the public. In this regard, an insured State nonmember bank's code of conduct or policy should require that its Bank Officials disclose all potential conflicts of interest, including those in which they have been inadvertenly placed due to either business or personal relationship with customers, suppliers, business associates, or competitors of the bank.

*Exceptions*

In its code of conduct or written policy, an insured State nonmember bank may describe appropriate exceptions to the general prohibition regarding the acceptance of things of value in connection with bank business. These exceptions may include those that:

(a) Permit the acceptance of gifts, gratuities, amenities or favors based on obvious family or personal relationships (such as those between the parents, children or spouse of a Bank Official) where the circumstances make it clear that it is those relationships rather than the businees of the bank concerned which are the motivating factors;

(b) Permit acceptance of meals, refreshments or entertainment of reasonable value in the course of a

meeting or other occasion the purpose of which is to hold bona fide business discussions (the bank may establish a specific dollar limit for such an occasion);

(c) Permit acceptance of loans from other banks or financial institutions on customary terms to finance proper and usual activities of Bank officials, such as home mortage loans, except where prohibited by law;

(d) Permit acceptance of advertising or promotional material of nominal value, such as pens, pencils, note pads, key chains, calendars and similar items;

(e) Permit acceptance of discounts or rebates on merchandise or services that do not exceed those available to other customers;

(f) Permit acceptance of gifts of modest value that are related to commonly recognized events or occasions, such as a promotion, new job, wedding, retirement, holiday or birthday (the bank may establish a specific dollar limit for such an occasion); or

(g) Permit the acceptance of civic, charitable, educational, or religious organization awards for recognition of service and accomplishment (the bank may establish a specific dollar limit for such an occasion).

The policy or code may also provide that, on a case by case basis, an insured state nonmember bank may approve of other circumstances, not identified above, in which a Bank Official accepts something of value in connection with bank business, *Provided That* such approval is made in writing on the baiss of a full written disclosure of all relevant facts and is consistent with the bank bribery statute.

*Disclosures and Reports*

To make effective use of these guidelines, the FDIC recommends the following additional procedures:

(a) The insured state nonmember bank should maintain a copy of any code of conduct or written policy it establishes for its Bank Officials, including any modifications thereof;

(b) The insured state nonmember bank should require periodic written acknowledgement from its Bank Officials of its code or policy and the Bank Officials' agreement to comply therewith; and

(c) The insured State nonmember bank should maintain contemporaneous written reports of any disclosures made by its Bank Officials in connection with a code of conduct *or* written policy.

By Order of the Board of Directors, this 12th day of May, 1987.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

*Executive Secretary.*

BILLING CODE 6714-01-M

## FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-790-DR]

### Massachusetts; Amendment to Notice of a Major Disaster Declaration

**AGENCY:** Federal Emergency Management Agency.

**ACTION:** Notice.

**SUMMARY:** This notice amends the notice of a major disaster for the Commonwealth of Massachusetts (FEMA-790-DR), dated April 18, 1987, and related determinations.

**DATED:** May 11, 1987.

**FOR FURTHER INFORMATION CONTACT:** Sewall H.E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3616.

Notice: The notice of a major disaster for the Commonwealth of Massachusetts, dated April 18, 1987, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of April 18, 1987:

The communities of Ashby and Billerica in Middlesex County; Hubbardston, Phillipston, and Warren in Worcester County; Georgetown, Hamilton, Manchester, Methuen, Middleton, Newbury, Rowley, Topsfield, Amesbury, and Boxford in Essex County; and Blandford, Chester, and Granville in Hampden County for Public Assistance.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance)

Dave McLoughlin,

*Deputy Associate Director, State and Local Programs and Support, Federal Emergency Management Agency.*

BILLING CODE 6718-02-M

### Anti-Arson Program; Solicitation for Award of Cooperative Agreement

**AGENCY:** Federal Emergency Management Agency.

**ACTION:** Notice of solicitation for award of cooperative agreement.

Notice of Solicitation is hereby given that the Federal Emergency Management Agency, under the Fire Prevention and Control Act of 1974, will issue a Request for Assistance (RFA) No. EMW-87-S-2561 on May 29, 1987, regarding the design and implementation of anti-arson strategy program for Community-Based Anti-Arson Programs. This program is limited to Community-Based Organizations.

The purpose of this assistance is to focus on nationwide efforts to reduce the number of arson related fires that occur every year throughout this country.

Some broad objectives of this program are:

- To encourage neighborhood involvement in reducing arson fires through new and innnovative broad spectrum programs.
- To expand the neighborhood involvement to a community-wide participation in fighting arson.
- To make information available to other neighborhoods and communities regarding successful programs.
- To increase the cooperation between neighborhood residents, community groups and public service organizations such as fire, police, building and code departments.
- To build a comprehensive community anti-arson program.

Applications for assistance must be requested in writing and addressed as follows: Federal Emergency Management Agency, Office of Acquisition Management, 500 C Street, SW., Room 728, Washington, DC 20472, ATTN: Mark Russell, Contract Specialist.

Request for Assistance No. EMW-87-S-2561.

Please include a self-addressed mailing label with the request.

Cooperative Agreements are anticipated to be awarded as a result of this request for assistance. It is anticipated that a minumum of five (5) and a maximum of thirty (30) assistance awards will be made. The anticipated funding levels of this program are between $5,000.00 to $25,000.00 based on the criteria shown in Attachment C of the solicitation package.

Joseph A. Pegnato,

*Acting Director, Office of Acquisition Management.*

May 4, 1987.

BILLING CODE 6718-01-M

## FEDERAL MARITIME COMMISSION

[Fact Finding Investigation No. 17]

### Rates, Charges and Services Provided at Marine Terminal Facilities; Order of Investigation

May 14, 1987.

On September 5, 1985, International Transporation Service, Inc. (ITS), a marine terminal operator (MTO), filed a petition for declaratory order on the issue of whether a lump-sum charge to an ocean carrier for wharfage, dockage, and stevedoring would have to be filed with the Commission. In a subsequently filed "Supplemental Statement Regarding Facts and Grounds Prompting the Petition" ITS outlined certain practices that have developed in the MOT industry which prompted it to file the petition. The Commission, on April 4, 1986, denied the petition on procedural grounds but in so doing noted that an MTO's charges for terminal services must be set forth in a tariff or an agreement on file with the Commission. The Commission further advised that it wold initiate an informal investigation into MTO practices to ensure compliance with the shipping statutes and the Commission's regulations.

As a result of this informal inquiry, the Commission has learned that a widespread practice appears to have developed in the MTO industry whereby MTOs are providing services to ocean carriers pursuant to negotiated agreements which may be required to be filed with the Commissin but which have not been so filed. As there appeared to be industry-wide uncertainty regarding the applicable filing requirements and in order to encourge compliance with these requirements, the Commission determined to waive the assessment of penalties for previously implemented but unfiled terminal service agreements if submitted to the Commission within 120 days of the Commission's Notice. Notice of Waiver of Penalties, 51 FR 23154 (June 25, 1986) (June Notice).

A number of terminal service agreements were filed with the Commission in apparent response to the June Notice. The Commission also received numerous requests for clarification of its filing requirements and expressions of concern as to their commerical impact and regulatory necessity. In addition several marine terminal/stevedore associations filed petitions seeking either an enlargement of time to comply with the Commission's requirements or exemption from these requirements pursuant to section 16 of the Shipping Act of 1984, 46 U.S.C. app. 1715 or section 35 of the Shipping Act, 1916, U.S.C. app. 833(a).[1] As a result of these communications, the Commission extended indefinitely the waiver of penalties provided by the June Notice. Supplemental Notice of Waiver of Penalties, 51 FR 36755 (October 15, 1986) (October Notice).[2]

One of the primary reasons given by MTOs or their associations for the uncertainty regarding the Commission's filing requirements is the maritime industry's transition from breakbulk carriage to containerized and Ro-Ro operations. As a result of this technological development, the traditional line demarcation between MTOs and stevedores has allegedly become blurred. stevedores which has not heretofore been regulated by the Commission, are said to have gegun to offer services other than physically moving cargoes an and off vessels. Consequently, we are advised that stevedoring/MTO agreements oftern provide for a combination of terminal and stevedoring or other services and that it is difficult, allegedly, to distinguish in which category a particular service would fall and whether it would be subject to the Commission's jurisdiction and, in particular, its filing requirements.

Because of this difficulty in distinguishing the various services, certain MTOs/stevedores view the Commission's filing requirements as unduly burdensome. Other have advised the Commission that their lump-sum all-inclusive rates are confidential commercial information which should not be subject to the Commission's filing requriements.

The Commission believes that a nonadjudicatory investigation initiated pursuant to Subpart R of its Rules of Practice and Procedure, 46 CFR 502.281, would be the most appropriate vehicle for examining the various issues arising from the Commission's June Notice and the responses received thereto. Given the absence of a factual record, and the industry-wide uncertainty regarding the Commission's requirements, a nonadversarial proceeding like that provided by Subpart R would appear to be the most appropriate vehicle for gathering information to facilitate the resolution the issues raised concerning the Commission's requirements.

Accordingly, the Commission is initiating a nonadjudicatory investigation and will appoint an Investigative Officer who will identify and make recommendations as to which services being furnished at terminal facilities, as well as the rates and charges therefor, should be classified as rates and services subject to the Commission's jurisdiction. In this connection, the Investigative Officer should determine the scope and impact of the Commission's filing requirements and assess the advisability of exempting certain kinds of services or the rates therefor from the Commission's filing requirements. This investigation shall also address such other matters as the Investigative Officer may determine to be relevant to the Commission's resolution of this matter.

*Therefore, It Is Ordered,* That pursuant to sections 11 and 12 of the Shipping Act of 1984, 46 U.S.C. app. 1710 and 1711; sections 22 and 27 of the Shipping Act, 1916, 46 U.S.C. app. 821 and 826; and Subpart R of Title 46 of the Code of Federal Regulations, 46 CFR 502.281, a nonadjudicatory investigation is hereby instituted into the furnishing of marine terminal facilities and services in connection with the transfer of cargo between an ocean common carrier, on the one hand, and a shipper or consignee or other means of transportation, on the other.

*It Is Further Ordered,* That the Investigative Officer shall be Commissioner Thomas F. Moakley of the Commission. The Investigative Officer shall direct the investigation and shall be assisted by such staff as may be assigned by the Commission's Managing Director;

The Investigative Officer shall have the full authority of the Commission to hold public or nonpublic sessions, to resort to all compulsory processes authorized by law (including the

---

[1] The Commission received petitions or requests for clarification from the New York Terminal Conference, the Port of Philadephia Marine Terminal Association, Inc., the Traffic Board of the North Atlantic Ports Association, the Baltimore Marine Terminal Association, the New Orleans Steamship Association, Maher Terminals, Inc., West Gulf Maritime Association and the law firm of Lillick, McHose & Charles. In general, the parties urge the Commission to extend the waiver period until the Commission clarifies its filing requirements. They argue that the Commission's regulations do not clearly require the filing of agreements which provide for lump-sum rates for both terminal and stevedoring services. These parties further argue that it would be unduly burdensome to requise MTOs to segregate their terminal service rates from their stevedoring rates and to file the former with the Commission. In this connection, it is alleged that it is difficult, given modern technology, to categorize the services MTOs provide carriers. Accordingly, many MTOs urge the Commission to exempt terminal service agreements from its filing requirements.

Some of the petitions were held in abeyance in the October Notice. The Commission will now hold all of the various petitions or requests for clarification in abeyance pending its further Order.

[2] By a separate Order served this date, the Commission has further clarified the waiver of penalties for marine terminal service agreements.

issuance of subpoenas), to administer oaths and to perform such other duties as may be necessary in accordance with the laws of the United States and the regulations of the Commission;

*It Is Further Ordered,* That any person having an interest and desiring to participate in this proceeding, shall file a statement with the Investigative Officer, describing its interest on or before June 15, 1987;

*It Is Further Ordered,* That the Investigative Officer shall issue to the Commission interim progress reports at least every three months, and a final report of findings and recommendations no later than one year after publication of this Order in the **Federal Register** all such reports to remain confidential unless and until the Commission rules otherwise; and

*It Is Further Ordered,* That Notice of this Order be published in the **Federal Register.**

By the Commission.

**Joseph C. Polking,**

*Secretary.*

[FR Doc. 87-11362 Filed 5-18-87; 8:45 am]

BILLING CODE 6730-01-M

## Marine Terminal Service Agreements

May 14, 1987.

**AGENCY:** Federal Maritime Commission.

**ACTION:** Second supplemental notice of waiver of penalties.

**SUMMARY:** This Second Supplemental Notice clarifies that the Commission's waiver of the assessment of penalties under the Shipping Act, 1916, and the Shipping Act of 1984 for pre-filing implementation of marine terminal service agreements: (1) Applies only to marine terminal service agreements, and not to leases, licenses, assignments, or other agreements of a similar nature for the use of marine terminal property; (2) extends to penalties which could otherwise be assessed for failure to file the rates and charges set forth in such terminal service agreements in a marine terminal tariff; and (3) encompasses marine terminal agreements entered into after June 25, 1986.

**DATE:** May 19, 1987.

**FOR FURTHER INFORMATION CONTACT:** Robert G. Drew, Director, Bureau of Domestic Regulation, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573, (202) 523-5796.

**SUPPLEMENTARY INFORMATION:** On October 15, 1986, the Commission published in the **Federal Register** (51 FR 36755) a Supplemental Notice of Waiver of Penalties (October Notice), which extended indefinitely its June 25, 1986 Notice of Waiver of Penalties (June Notice) (51 FR 23154) concerning the pre-filing implementation of marine terminal service agreements.

The October Notice stated that the Commission was extending until further notice its waiver of penalties for terminal service agreements pending a formal study to determine the scope and impact of the Commission's filing requirement. The Commission also intended to explore whether an exemption would be appropriate for certain such agreements.

The Commission has by separate Order issued this date instituted a non-adjudicatory fact finding investigation into the nature and scope of marine terminal services and their relationship to the Commission's agreement filing requirements. However, in the interim, there is a need to clarify the Commission's policy with regard to terminal service agreements, particularly with respect to its waiver of penalties in this area.

On the basis of its experience to date under the June and October Notices, the Commission has determined it necessary to clarify its intention that the waiver applies only to marine terminal service agreements, and not to leases, licenses, assignments, or other agreements of a similar nature for the use of marine terminal property.[1] The Commission is also clarifying its intention that the waiver extend to penalties which could otherwise be assessed for failure to file the rates and charges set forth in the unfiled marine terminal service agreements in a marine terminal tariff as required by 46 CFR Part 515. Finally, the Commission desires to hereby clarify that this waiver of penalties encompasses marine terminal service agreements entered into after June 25, 1986.

Parties to marine terminal service agreements are, of course, free to file such agreements with the Commission under the 1916 and 1984 Acts pursuant to 46 CFR Part 560 and/or 46 CFR Part 572, respectively, during this period.

Accordingly, notice is hereby given that, until further notice, the penalty provisions of sections 32(a) and 32(c) of the Shipping Act, 1916, 46 U.S.C. app. 831, and section 13 of the Shipping Act of 1984, 46 U.S.C. app. 1712, will not be invoked against parties to terminal service agreements, including agreements entered into after June 25, 1986, for failure to file such agreements with the Commission as required by section 15 of the Shipping Act, 1916, 46 U.S.C. app. 814, and/or section 5 of the Shipping Act of 1984, 46 U.S.C. app. 1704; or for failure to file the rates and charges set forth in such unfiled marine terminal service agreements in the marine terminal operator's terminal tariff, as required by 46 CFR Part 515.

This notice supersedes the October Notice.

By the Commission.

**Joseph C. Polking,**

*Secretary.*

[FR Doc. 87-11361 Filed 5-18-87; 8:45 am]

BILLING CODE 6730-01-M

[1] For the purpose of this notice, "terminal service agreement" means an agreement which relates to rates and charges for terminal services including, but not limited to, "services" as defined in 46 CFR 515.6(d), performed for common carriers pursuant to negotiated contracts. The term "terminal service agreement" does not, however, include leases, licenses, assignments or other arrangements of a similar nature for the use of marine terminal property.

## Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10325. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in § 572.603 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

*Agreement No.:* 217-011098.

*Title:* Shipping Corporation of New Zealand Limited/Pacific Australia Direct Line Reciprocal Space Charter Agreement.

*Parties:*

Shipping Corporation of New Zealand Limited

Pacific Australia Direct Line

*Synopsis:* The proposed agreement would permit the parties to charter space on one another's vessels and to interchange containers and related equipment in the trade between North American Pacific Coast ports and ports in Australia.

Dated: May 14, 1987.

By Order of the Federal Maritime Commission.

Joseph C. Polking,

*Secretary.*

## FEDERAL RESERVE SYSTEM

### Asia Bancshares, Inc., et al.; Formations of; Acquisitions by; and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than June 11, 1987.

A. Federal Reserve Bank of New York (William L. Rutledge, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Asia Bancshares, Inc.*, Flushing, New York; to become a bank holding company by acquiring 100 percent of the voting shares of Asia Bank, National Association, Flushing, New York.

B. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St., Louis, Missouri 63166:

1. *Arkansas Union Bancshares, Inc.*, Benton, Arkansas; to become a bank holding company by acquiring at least 80 percent of the votong shares of Union Bancshares of Benton, Inc., Benton, Arkansas, and thereby indirectly acquire The Union Bank of Benton, Benton, Arkansas.

Board of Governors of the Federal Reserve System, May 13, 1987.

James McAfee,

*Associate Secretary of the Board.*

BILLING CODE 6210-01-M

### Bankcore, Inc.; Application To Engage de Novo in Permissible Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 11, 1987.

A. Federal Reserve Bank of Boston (Robert M. Brady, Vice President) 600 Atlantic Avenue, Boston, Massachusetts 02106:

1. *Bankcore, Inc.*, North Conway, New Hampshire; to engage *de novo* in data processing advisory services and management consulting to depository institutions pursuant to § 225.25(b)(7) and (b)(11) of the Board's Regulation Y. These activities will be conducted in the State of New Hampshire.

Board of Governors of the Federal Reserve System, May 13, 1987.

James McAfee,

*Associate Secretary of the Board.*

BILLING CODE 6210-01-M

### Change in Bank Control; Acquisitions of Shares of Banks or Bank Holding Companies; Alan E. Johnson et al.

The notifications listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. Once the notices have been accepted for processing, they will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than June 3, 1987.

A. Federal Reserve Bank of Atlanta (Robert E. Heck, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. *Alan E. Johnson*, Jacksonville, Florida; to acquire 38.80 percent of the voting shares of St. Petersburg, St. Petersburg, Florida.

B. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *Charles D. Campbell*, Paragould, Arkansas; to acquire 59.94 percent of the voting shares of Mountain Bancshares, Inc., Yellville, Arkansas, and thereby indirectly acquire The Bank of Yellville, Yellville, Arkansas.

2. *Louis H. Schlafly*, Kenneth W. Stumpf; Horce C. Volkert; William E. Mixon III; Harold A. Dashner; and

Gernald L. Giffhorn; all of Columbia, Illinois; to acquire 25.14 percent of the voting shares of Columbia Bancshares, Inc., Columbia, Illinois, and thereby indirectly acquire Columbia National Bank, Columbia, Illinois.

Board of Governors of the Federal Reserve System, May 13, 1987.

James McAfee,

*Associate Secretary of the Board.*

## Rebank Netherlands Antilles, N.V.; Formation of, Acquisition by, or Merger of Bank Holding Companies; and Acquisition of Nonbanking Company

The company listed in this notice has applied under § 225.14 of the Board's Regulation Y (12 CFR 225.14) for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) to become a bank holding company or to acquire voting securities of a bank or bank holding company. The listed company has also applied under § 225.23(a)(2) of Regulation Y (12 CFR 225.23(a)(2)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbaking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies, or to engage in such an activity. Unless otherwise noted, these activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be acompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 8, 1987.

A. Federal Reserve Bank of Atlanta (Robert E. Heck, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. *Rebank Netherlands Antilles, N.V.*, Miami, Florida; to become a bank holding company by acquiring 100 percent of the voting shares of Republic Banking Corporation of Florida, Miami, Florida.

In connection with this application, Applicant also proposes to acquire Rebank Mortgage Corporation, Miami, Florida, and thereby engage in making and servicing mortgage loans pursuant to § 225.25(b)(1)(iii) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, May 13, 1987.

James McAfee,

*Associate Secretary of the Board.*

BILLING CODE 6210-01-M

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control

### Cooperative Agreements for Community Chronic Disease Prevention; Availability of Funds for Fiscal Year 1987

#### Introduction

The Centers for Disease Control (CDC) announces the availability of funds in Fiscal Year 1987 for competitive applications for cooperative agreements for building State capacity for community chronic disease prevention.

#### Authority

This cooperative agreement is authorized by section 301(a)[42 U.S.C. 241(a)] of the Public Health Service Act, as amended. The Catalog of Federal Domestic Assistance Number is 13.283.

#### Eligible Applicants

Because the intent of this cooperative agreement program is to develop State capacity to assist communities in the development and implementation of community-based chronic disease prevention programs, competition is limited to the official State public health agencies, including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, American Samoa, the Federated States of Micronesia, the Republic of the Marshall Islands and the Republic of Palau. No other applications will be accepted.

#### Program Background and Objectives

The purpose of this program is to assist States to build a capacity for assistance to communities in the development of community-based chronic disease prevention programs, which relate to cardiovascular disease (CVD) and cancer. These chronic diseases are of obvious importance as a public health issue in the United States; they rank as numbers 1 and 2 for a variety of negative health indicators, including leading causes of death, total hospital days, and expected years of life lost. Thus, they rank overall as the two most important diseases in this nation.

Objectives for this cooperative agreement are:

- To develop State's internal capacity to process and analyze community-level chronic disease behavioral risk factor data.
- To demonstrate the capacity of these same States to assist two or more communities each to design and implement effective community-based

interventions focusing on measurable, local chronic disease priorities related to CVD and cancer.

It is expected that 50 percent of the resources specified for intervention activities under this cooperative agreement will be directed at high risk and minority populations.

### Availability of Funds

Approximately $400,000 will be available in Fiscal Year 1987 to award 3–5 cooperative agreements. The average award will be $100,000 with individual cooperative agreements ranging from approximately $50,000 to $130,000. It is expected that cooperative agreements will begin on or about September 30, 1987. The cooperative agreements will be awarded in 12 month budget periods within a 3 year project period. Funding estimates outlined above may vary and are subject to change.

### Application Submission and Deadline

The original and two copies of the application must be submitted to Chief, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road NE., Room 321, Atlanta, Georgia, 30305, on or before July 15, 1987.

*1. Deadline*

Applications will be considered to meet the deadline if they are either:

a. Received at the above address on or before the deadline date, or

b. Sent on or before July 15, 1987, and received in time for submission to the independent review group. (Applicants should request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier. Private metered postmarks will not be accepted as proof of timely delivery).

*2. Late Applications*

Applications which do not meet the above criteria are considered late applications. Late applications will not be considered in the current competition and will be returned to the applicant.

### Other Submission and Review Requirements

Applications are not subject to review as governed by Executive Order 12372, Intergovernmental Review of Federal Programs.

### Where to Obtain Additional Information

Information on application procedures, copies of application forms and other material may be obtained from Nealean Austin, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road NE., Room 321, Atlanta, Georgia 30305, telephone (404) 262–6575, or FTS 236–6575. Technical assistance may be obtained from James S. Belloni, Division of Health Education, Center for Health Promotion and Education, Centers for Disease Control, Atlanta, Georgia 30333, telephone (404) 329–3452 or FTS 236–3452.

Dated: May 13, 1987.

**Robert L. Foster,**

*Acting Director, Office of Program Support, Centers for Disease Control.*

## Food and Drug Administration

[Docket No. 87S–0025]

## Preproduction Quality Assurance Planning; Draft Recommendations for Medical Device Manufacturers

**AGENCY:** Food and Drug Administration.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing the availability of draft recommendations entitled "Preproduction Quality Assurance Planning: Recommendations for Medical Device Manufacturers—February 1987." The draft recommendations were prepared by FDA's Center for Devices and Radiological Health (CDRH). FDA is making available the draft recommendations to assist a device manufacturer to plan and implement a preproduction quality assurance program to provide reasonable assurance of the safety and effectiveness of the designs of medical devices before the manufacturer releases the designs to production for routine manufacturing.

**DATE:** Comments by August 17, 1987.

**ADDRESS:** Written requests for single copies of the draft recommendations to the Division of Small Manufacturers Assistance (HFZ–220), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857. Submit written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, Room 4–62, 5600 Fishers Lane, Rockville, MD 20857. The draft recommendations are also on file, and available for review, at the Dockets Management Branch.

**FOR FURTHER INFORMATION CONTACT:** Sharon Kalokerinos, Center for Devices and Radiological Health (HFZ–330), Food and Drug Administration, 6757 Georgia Avenue, Silver Spring, MD 20910, 301–427–7984.

**SUPPLEMENTARY INFORMATION:** FDA, through CDRH, develops and carries out a national program to ensure the safety and effectiveness of medical devices. One aspect of this program involves regulatory activities under the laws administered by the agency. As an important adjunct to its regulatory program, CDRH conducts a variety of educational efforts, such as making available recommendations that anesthesia professionals perform a daily checkout and inspection procedure of the anesthesia gas machine before using it (52 FR 5583; February 25, 1987).

FDA now is making available draft recommendations intended to assist a device manufacturer to plan and implement a preproduction quality assurance program to provide reasonable assurance of the safety and effectiveness of the designs of its devices before the manufacturer releases the designs to production for routine manufacturing.

CDRH prepared the draft recommendations for preproduction quality assurance planning for device designs following its evaluation of over 1,000 device recalls that manufacturers have made during 1983 through 1985. CDRH believes that the device problems that resulted in about half of these recalls would not have occurred had the manufacturers established and implemented a preproduction quality assurance program for device designs. These draft recommendations are based on 30 cited scientific references describing good design practices that CDRH has adapted to medical device manufacturing.

FDA often formulates and disseminates recommendations about matters which are authorized by, but do not involve direct regulatory action under, the laws administered by the agency. Accordingly, FDA is making these draft recommendations available under 21 CFR 10.90(c) of the agency's administrative practices and procedures regulations.

Comments received before August 17, 1987, will be considered by FDA during its preparation of final recommendations on this matter; however, comments on these draft recommendations may be submitted at any time. The comments will be considered in determining whether amendments of the recommendations are warranted.

Interested persons may, on or before August 17, 1987 submit to the Dockets Management Branch (address above)

written comments regarding these draft recommendations. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the document number found in brackets in the heading of this document. Received comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: May 12, 1987.

John M. Taylor,

*Associate Commissioner for Regulatory Affairs.*

## DEPARTMENT OF THE INTERIOR

### Alaska Land Use Council; Meeting

As required by the Alaska National Interest Lands Conservation Act (ANILCA), Pub. L. 96-487, dated December 2, 1980, Section 1201, Paragraph (b), the Alaska Land Use Council will meet at 10:00 a.m., Thursday, June 4, 1987, in the Juneau City and Borough Assembly Chamber, 155 South Seward Street, Juneau, Alaska.

The Tentative Agenda will include Council consideration of:

—Kodiak and Kenai NWR Comprehensive Conservation Plans,
—Council Work Program Recommendations for 1988-87,
—Council Call for Work Program Items,
—Recreation Use of Land, State of Alaska, House Bill 136,
—Cooperative Planning Zones Recommendations,
—National Park Service Proposed Mining Rule, 36 CFR Part 9,
—Trans-Alaska Gas System EIS Status,
—U.S. FWS Development of Regulations for Subsistence Hunting of Migratory Birds,
—Tongass Timber Reform Act,
—Other items as may be appropriately considered by the Council.

Any individual desiring to appear before the Council to address any of the above matters or matters of general concern to the Council should contact either Cochairman's office before the close of business Thursday, May 21, 1987.

FOR FURTHER INFORMATION CONTACT:

Alaska Land Use Council, Office of the Federal Cochairman, P.O. Box 10012, Anchorage, Alaska 99510, (907) 272-3422, (FTS) 271-54f85;

Alaska Land Use Council, Office of the State Cochairman Designee, Pouch AM, Juneau, AK 99811, (907) 465-3562 or 2600 Denali St., Suite 700, Anchorage, AK 99503, (907) 274-3528.

The public is invited to attend.

William P. Horn,

*Assistant Secretary for Fish and Wildlife and Parks.*

May 12, 1987.

## Office of the Secretary

### Reservation of Colorado River Water for Use on Federally Owned Lands in Arizona; Boulder Canyon Project

Pursuant to the authority contained in the Boulder Canyon Project Act, dated December 21, 1928 (45 Stat. 1057), as amended; section 301(b) of the Colorado River Basin Project Act, dated September 30, 1968 (82 Stat. 887); and consistent with the Supreme Court Opinion of June 3, 1963 (373 U.S.C. 546); the Supreme Court Decree of March 9, 1964, in *Arizona v. California et al.* (376 U.S. 340), as supplemented January 9, 1979 (439 U.S. 419); and the February 9, 1944, contract between the United States and the State of Arizona, notice is given that there is hereby reserved to the United States out of the waters of the Colorado River the annual consumptive use of 1,930 acre-feet for use on Federally owned lands in Arizona which are administered by the Bureau of Land Management of the Department of the Interior. The water so reserved is in addition to 800 acre-feet previously reserved for said purpose in Arizona by notice dated August 30, 1973, (Federal Register, Volume 38, No. 173, Pages 24389 and 24390, Friday, September 7, 1973), and 1,280 acre-feet previously reserved for said purpose in Arizona by notice, dated September 29, 1981, (Federal Register, Volume 46, No. 194, Pages 49654 and 49655, Wednesday, October 7, 1981). The water is for culinary, sanitary, and related nonagricultural domestic uses on Bureau of Land Management campsites, concession areas, cabinsites, and other purposes involved in the recreational program of the Bureau of Land Management along the Lower Colorado River in Arizona.

In times of shortage, the quantity of water available for delivery under this reservation will be accorded equal priority with all similar uses of water in Arizona authorized by contracts or other arrangements after September 30, 1968, irrespective of the order in which such contracts or other arrangements were made after September 30, 1968.

The aforesaid reservation of water is suject to

(a) The provisions of the Colorado River Compact signed in Santa Fe, New Mexico, November 24, 1922;

(b) The provisions of the Boulder Canyon Project Act of December 21, 1928 (45 Stat. 1057), as amended;

(c) The provisions of the Supreme Court Opinion, dated June 3, 1963 (373 U.S. 546), and the Supreme Court Decree of March 9, 1964, in *Arizona v. California, et al.* (376 U.S.C 340), as supplemented January 9, 1979 (439 U.S. 419);

(d) The provisions of the Mexican Water Treaty, signed in Washington, DC, February 3, 1944, and Minute 242 of the International Boundary and Water Commission, United States and Mexico, dated August 30, 1973; and

(e) The provisions of section 301(b) of the Colorado River Basin Project Act of September 30, 1968 (82 Stat. 885).

For further information, you may contact Mr. LeGrand Neilson, Contracts and Repayment Branch, Bureau of Reclamation, P.O. Box 427, Boulder City, Nevada 89005, at (702) 293-8536.

Dated: April 27, 1987.

## Colorado; Availability of the Approved Grand Junction Resource Management Plan and Record of Decision

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969 (40 CFR 1505.2), the Department of the Interior, Bureau of Land Management (BLM), has prepared a record of decision for the approved Grand Junction Resource Management Plan and Environmental Impact Statement. The BLM also has designated eight areas of critical environmental concern (ACECs).

**ADDRESS:** Copies of the record of decision and approved resource management plan are available upon request at the Grand Junction Resource Area Office, Bureau of Land Management, 764 Horizon Drive, Grand Junction, Colorado 81506.

**FOR FURTHER INFORMATION CONTACT:** John Singlaub, Area Manager, Bureau of Land Management, Grand Junction Resource Area Office, 764 Horizon Drive, Grand Junction, Colorado 81506.

**SUPPLEMENTARY INFORMATION:** The Grand Junction Resource Management Plan is approved. The plan was prepared under the regulations for implementing the Federal Land Policy and Management Act (FLPMA) of 1976 (43 CFR Part 1600). An environmental impact statement was prepared for this plan in compliance with the National Environmental Policy Act (NEPA) of 1969. The approved plan is identical to the one set forth in the proposed plan and associated final environmental impact statement published in November 1985.

### Decisions

—Withdraw an additional 171,320 acres from mineral entry.

—Identify approximately 390,000 acres of the Book Cliffs potential coal development area as acceptable for further coal leasing consideration.

—Increase fuelwood harvesting approximately 8 percent, from 2,600 to 2,800 cords per year.

—Manage deer, elk, and bighorn sheep as the key wildlife species on about 80 percent of the resource area.

—Continue to manage livestock grazing as described in the Grand Junction Grazing Management Environmental Statement. Reevaluate existing allotment management plans to ensure consistency with objectives for riparian and critical erosion area goals.

—Expand the Little Book Cliffs Wild Horse Range by 2,380 acres for a total of 30,281 acres and manage for 65 to 120 wild horses.

—Protect approximately 35 percent of the resource area's visual resources from impairment.

—Designate 480,110 acres as open, 640,323 acres as limited, and 156,627 acres as closed to off-road vehicle use. Allow competitive events and intensive off-road vehicle activity on approximately 11,000 acres.

—Recommend four wilderness study areas totaling 166,340 acres as preliminarily suitable for wilderness designation.

—Dispose of approximately 25,000 acres of mostly small, isolated, and difficult to manage public land tracts.

—Designate eight areas covering 23,240 acres as areas of critical environmental concern (ACECs) and as either research natural areas (RNAs) or outstanding natural areas (ONAs).

### ACEC Designations

*1. Fruita Paleontological Site (280 acres)*

Designate as an RNA and ACEC to protect fossils. Close the area to off-road vehicle travel. Continue the withdrawal for locatable minerals under the 1872 Mining Laws, as amended. Close the area to mineral material disposal. Designate the area as unsuitable for public utilities. Place a no surface occupancy stipulation on all new oil and gas leases and on applications for permit to drill existing oil and gas leases.

*2. Rabbit Valley Paleontological Site (280 acres)*

Designate as an RNA and ACEC for educational purposes and to protect fossils. Limit off-road vehicle travel to designated roads and trails. Close the area to mineral material disposal. Identify the area as unsuitable for public utilities. Place a no surface occupancy stipulation on all new oil and gas leases and on applications for permit to drill existing oil and gas leases.

*3. Unaweep Seep RNA (37 acres)*

Designate this RNA as an ACEC and manage to protect a sensitive butterfly. Close the area to off-road vehicle travel and wood harvesting. Place a no surface occupancy stipulation on all new oil and gas leases and on applications for permit to drill existing oil and gas leases.

*4. Badger Wash (1,520 acres)*

Designate as an ACEC and manage to protect sensitive plants and a hydrologic study area. Identify the entire ACEC as sensitive to placement of public utilities. Protect the sensitive plants on the entire ACEC by placing an avoidance stipulation on all proposed projects. Prohibit surface-disturbing activities on 685 acres (the Badger Wash hydrologic study area) of this ACEC. Close the hydrologic study area to mineral material disposal. Place a no surface occupancy stipulation on new oil and gas leases and on applications for permit to drill existing oil and gas leases in the hydrologic study area.

*5. Pyramid Rock (470 acres)*

Designate as an RNA and ACEC. Manage to protect sensitive and endangered plants. Limit off-road vehicle travel to designated roads and trails. Place a no surface occupancy stipulation on new leases and on applications for permit to drill existing oil and gas leases. Close the ACEC to mineral material disposal.

*6. Rough Canyon (1,470 acres)*

Designate as an RNA and ACEC. Manage to protect endangered and sensitive plants, scenic, geologic, and cultural values. Limit off-road vehicle travel to existing roads and trails. Maintain the existing natural recreation setting and recreational opportunities in this special recreation management area. Place a no surface occupancy stipulation on all new oil and gas leases and on applications for permit to drill existing oil and gas leases. Close the ACEC to mineral material disposal, public utilities, and wood sales. Classify as a visual resource management class

II area to retain the landscape character. Provide for continued educational and interpretive uses.

*7. Gunnison Gravels (5 acres)*

Designate as an RNA and ACEC. Manage to protect the sand and gravel deposit (geologic processes). Close the area to off-road vehicle travel. Close the area to mineral material disposal. Identify the area as unsuitable for public utilities. Place a no surface disturbance stipulation on all new oil and gas leases and on applications for permit to drill existing oil and gas leases.

*8. The Palisade (19,178 acres)*

Designate as an RNA and ACEC. Manage to protect scenic values. Close 1,930 acres to off-road vehicle use and limit 17,258 acres to designated roads and trails. Maintain the national setting and recreational opportunities in this special recreation management area. Classify 1,920 acres as a visual resource management class I area to preserve the natural landscape character and 17,258 acres as a visual resource management class II area to retain the landscape character. Place a no surface occupancy stipulation on new oil and gas leases and on applications for permit to drill existing oil and gas leases. Design firewood sales to protect scenic values and to remain compatible with other ONA management objectives. Close the area to mineral material disposal and to public utilities.

Dated: May 8, 1987.

## Proposed Modification and Continuation of Withdrawals; Nevada

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** The Federal Aviation Administration (FAA) proposes that the two withdrawals aggregating 40 acres for an air navigation site near Reno, Nevada, be modified to establish a 20-year term. The land will remain closed to surface entry and mining, but will be opened to application under the mineral leasing laws.

**DATE:** Comments should be received by August 17, 1987.

**FOR FURTHER INFORMATION CONTACT:** Vienna Wolder, Bureau of Land Management, Nevada State Office, P.O. Box 12000, Reno, NV 89520 (702) 784-5481.

**SUPPLEMENTARY INFORMATION:** The FAA proposes that the existing withdrawals made by Secretarial Order of January 31, 1936, and BLM Order of April 3, 1957, be modified to establish a 20-year term. This action is taken pursuant to section 204 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2751; 43 U.S.C. 1714). The lands are described as follows:

**Mount Diablo Meridian, NV**

T. 19 N., R. 21 E.,

Sec. 8, W½SW¼NE¼, E½SE¼NW¼.

The area described aggregates 40 acres in Washoe County.

The purpose of the withdrawals is to provide the minimum essential acreage required to protect the construction, operation, and maintenance of this site from electronic or physicial interference for flight safety purposes. The withdrawals segregate the land from operation of the public land laws, including the mining laws, but not the mineral leasing laws. No change is proposed in the purpose. The segregative effect of the withdrawals will be modified to allow applications under the mineral leasing laws.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments in connection with the proposed withdrawals continuation may present their views in writing to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Nevada State Office, P.O. Box 12000, Reno, Nevada 89520.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. A report will also be prepared for consideration by the Secretary of the Interior, the President, and the Congress, who will determine whether or not the withdrawals will be continued and, if so, for how long. The final determination on the continuation of the withdrawals will be published in the Federal Register. The existing withdrawals will continue until such final determination is made.

Dated: May 11, 1987.

**Maria B. Bohl,**

*Acting Deputy State Director, Operations.*

## National Public Lands Advisory Council; Meeting

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of meeting of the National Public Lands Advisory Council.

**SUMMARY:** Notice is hereby given that the National Public Lands Advisory Council will meet June 19, 1987. The meeting will be held at the Sheraton Hotel, 401 East Sixth Avenue, Anchorage, Alaska, from 8:00 a.m. to 5:00 p.m. Preceding the June 19 meeting, Council members will participate in a field tour of BLM-managed lands in Alaska. The proposed agenda for the meeting is:

**Friday, June 19**

*Morning*

Status report on gas transmission system development; Discussion of the Department's Arctic National Wildlife Refuge (ANWR) report; Placer mining operations in Alaska; Meeting and Council Subcommittees (Energy and Minerals, Lands, and Renewable Resources).

*Afternoon*

Public Statement Period; Council old and new business, to include Department responses to previous Council resolutions; Presentation on the Automated Land Records System; Alaska conveyance issues; Final meeting of Council subcommittees; Report from subcommittees to full Council, and consideration of Council resolutions.

All meetings of the Council are open to the public. Opportunity will be given for members of the public to make oral statements to the Council, beginning at 1:00 p.m. on June 19. Speakers should address specific national public lands issues on the meeting agenda and are encouraged to submit a copy of their written testimony prior to oral delivery. Please send written comments by June 12 to the Bureau of Land Management's Alaska State Office at the address listed below. Depending on the number of people who wish to address the Council, it may be necessary to limit the length of oral presentations.

**DATE:** June 19—Council Meeting and Public Statements.

**ADDRESS:** Copies of public statements should be mailed by June 12 to: Director, Alaska State Office (912), Bureau of Land Management, Box 13, 701 C Street, Anchorage, Alaska 99513.

**FOR FURTHER INFORMATION, CONTACT:** Karen Slater, Washington, D.C. Office BLM, telephone (202) 343–2054; or Joette Storm, Alaska State Office, BLM, telephone (907) 271–5555.

**SUPPLEMENTARY INFORMATION:** The Council advises the Secretary of the Interior through the Director, Bureau of Land Management, regarding policies and programs of a national scope related to public lands and resources under the jurisdiction of BLM.

Dated: May 13, 1987.

**Robert F. Burford,**

*Director.*

## Realty Action; Exchange of Public and Private Lands; Lewis and Clark County, MT

**AGENCY:** Butte District Office Bureau of Land Management, Interior.

**ACTION:** Notice of Realty Action Exchange of public and private lands in Lewis and Clark County.

**SUMMARY:** The following described lands have been determined to be suitable for disposal by exchange under section 206 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1716.

**Principal Meridian, Montana**

T. 13 N., R. 5 W.,
Sec. 2, Lot 4, S½NW¼, N½SE¼,
Sec. 4, S½NW¼,
Sec. 6, Lot 1,
Sec. 10, SE¼SW¼, SW¼SE¼,
Sec. 20, E½NE¼, N½NW¼, SW¼NW¼,
Sec. 28, E½NE¼, NW¼NE¼,
Sec. 28, W½NW¼, SW¼, W½SE¼, SE¼SE¼,
Sec. 33, Lot 1, N½SE¼,
Sec. 34, NE¼, N½NW¼, SW¼NW¼, SE¼SW¼, S½SE¼.
T. 13 N., R. 4 W.,
Sec. 18; Lot 1,
T. 13 N., R. 3 W.,
Sec. 32; W½NW¼SE¼, W½SE¼ NW¼SE¼.
Aggregating 1809.71 acres of public land.

In exchange for these lands, the United States will acquire a portion of the following described lands:

**Principal Meridian, Montana**

T. 14 N., R. 4 W.,
Sec. 32; SE¼,
Sec. 34; SE¼SW¼, SW¼SE¼.
T. 13 N., R. 3 W.,
Sec. 18; Lots 1,3,4, E½NW¼, NE¼SW¼.
T. 13 N., R. 4 W.,
Sec. 3; All,
Sec. 9; All lands in the N½N½ located east of the Interstate R/W,
Sec. 10; S½N½,
Sec. 11; S½NW¼, N½SW¼, NW¼SE¼,
Sec. 13; NE¼, N½NW¼.
T. 12 N., R. 3 W.,
Sec. 22; W½,
Sec. 27; NW¼, N½SW¼,SW¼, SW¼,
Sec. 28; S½NW¼, N½SW¼, SE¼SE¼.
Aggregating 2553.81 acres of private lands.

**DATE:** For a period of on or before July 6, 1987, interested parties may submit comments to the address shown below. Any adverse comments will be evaluated by the BLM, Montana State Director, who may vacate, sustain, or modify this realty action and issue a final determination. In the absence of any objections, this realty action will become the final determination of the Department of Interior.

**FOR FURTHER INFORMATION CONTACT:** Information relating to the exchange, including the environmental assessment and land report, is available at the Butte District Office, P.O. Box 3388, Butte, Montana 59702.

**SUPPLEMENTARY INFORMATION:** The purpose of this exchange is to acquire additional public lands in the Sleeping Giant area which have high recreational and wildlife values in exchange for small, isolated public domain tracts which are difficult and uneconomical to manage.

The publication of this notice segregates the public lands described above from settlement, sale, location and entry under the public land laws, including the mining laws but not from exchange pursuant to section 206 of the Federal Land Policy and Management Act of 1976.

The exchange will be made subject to:

1. A reservation to the United States of a right-of-way for ditches or canals in accordance with 43 U.S.C. 945.

2. All valid existing rights (e.g., rights-of-way, easements and leases of record).

3. Value equalization by cash payments or acreage adjustments.

4. The exchange must meet the requirements of 43 CFR 4110.4–2(b).

This exchange is consistent with Bureau of Land Management policies and planning and has been discussed with State and local officials. The public interest will be served by completion of this exchange.

Dated: May 8, 1987.

**James A. Moorhouse,**

*District Manager.*

## National Park Service

### To Negotiate Concession Contract; Temple Bar Resort

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that sixty (60) days after the date of publication of this notice, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with Temple Bar Resort authorizing it to continue to provide lodging, food and beverage, merchandising, trailer village, marina and related facilities and services for the public at Lake Mead National Recreation Area, Nevada for a period of fifteen (15) years from January 1, 1988, through December 31, 2002.

The proposed contract requires a construction and improvement program which was previously described in the Environmental Impact Statement (September 11, 1986 FES–86–27) for the General Management Plan for Lake Mead National Recreation Area.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under an existing contract which expires by limitation of time on December 31, 1987, and therefore, pursuant to the Act of October 9, 1965, as cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract as defined in 36 CFR 51.5.

The Secretary will consider and evaluate all proposals received as a result of this notice. Any proposal, including that of the existing concessioner, must be postmarked or hand-delivered on or before the sixtieth (60th) day following publication of this notice to be considered and evaluated.

Interested parties should contact the Regional Director, Western Regional Office, 450 Golden Gate Avenue, San Francisco, California 94102, for information as to the requirements of the proposed contract.

Dated: April 22, 1987.

**Howard H. Chapman,**

*Regional Director, Western Region.*

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

[Docket No. M-87-65-C]

### Birchfield Mining, Inc.; Petition for Modification of Application of Mandatory Safety Standard

Birchfield Mining, Inc., 41 Eagles Road, Beckley, West Virginia 25801 has filed a petition to modify the application of 30 CFR 75.1701 (abandoned areas, adjacent mines; drilling of boreholes) to its No. 1 Mine (I.D. No 46-07273) located in Boone County, West Virginia. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that whenever any working place approaches within 90 feet of abandoned areas in the mine as shown by surveys made and certified by a registered engineer or surveyor, or within 200 feet of any other abandoned areas of the mine which cannot be inspected and which may contain dangerous accumulations of water or gas, or within 200 feet of any workings of an adjacent mine, a borehole or boreholes shall be drilled to a distance of at least 20 feet in advance of the working face of such working place and shall be continually maintained to a distance of at least 10 feet in advance of the advancing working face. When there is more than one borehole, they shall be drilled sufficiently close to each other to insure that the advancing working face will not accidentally hole through into abandoned areas or adjacent mines. Boreholes shall also be drilled not more than 8 feet apart in the rib of such working place to a distance of at least 20 feet and at an angle of 45 degrees.

2. The Birchfield No. 1 Mine is a new operation which is currently mining in a southeastern direction which will approach within 100 feet of the west bleeder entries of the Quinland No. 1 Mine.

3. Petitioner requests a modification of the standard to allow mining to within 100 feet of the Quinland No. 1 Mine, without the drilling of boreholes. In support of this request, petitioner states that:

(a) The west bleeder entries of the Quinland No. 1 Mine are being ventilated and evaluated in compliance with the approved ventilated plan;

(b) The west bleeder entries of the Quinland No. 1 Mine do not contain dangerous accumulations of water or gas;

(c) A resurvey was carried from the Birchfield No. 1 Mine permanent underground points into the affected area of the Quinland No. 1 Mine as a second check on the coordinates and location of the Quinland mine workings; and

(d) Birchfield and Quinland employ the same engineering firm for engineering services (spads and maps) which gives assurance that the mine maps of the Quinland No. 1 and Birchfield No. 1 Mines are compatible and contain consistent references to each mine since both mines are on the same coordinate system.

4. Petitioner states that the proposed alternate method will provide the same degree of safety for the miners affected as that afforded by the standard.

#### Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before June 18, 1987. Copies of the petition are available for inspection at that address.

Dated: May 8, 1987.

Patricia W. Silvey,

*Associate Assistant Secretary for Mine Safety and Health.*

[FR Doc. 87-11383 Filed 5-18-87; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-87-110-C]

### Fox Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Fox Coal Company, 1744 Grand Avenue, Tower City, Pennsylvania 17980 has filed a petition to modify the application of 30 CFR 75.1400 (hoisting equipment; general) to its Little Vein Slope (I.D. 36-02000) located in Dauphin County, Pennsylvania. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that cages, platforms or other devices which are used to transport persons in shafts and slopes be equipped with safety catches or other approved devices that act quickly and effectively in an emergency.

2. Petitioner states that no such safety catch or device is available for the steeply pitching and undulating slopes with numerous curves and knuckles present in the main haulage slopes of this anthracite mine.

3. Petitioner further believes that if "makeshift" safety devices were installed they would be activated on knuckles and curves when no emergency existed and cause a tumbling effect on the conveyance.

4. As an alternate method, petitioner proposes to operate the man cage or steel gunboat with secondary safety connections securely fastened around the gunboat and to the hoisting rope, above the main connecting device. The hoisting ropes would have a factor of safety in excess of the design factor as determined by the formula specified in the American National Standard for Wire Rope for Mines.

5. Petitioner states that the proposed alternate method will provide the same degree of safety for the miners affected as that afforded by the standard.

#### Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before June 18, 1987. Copies of the petition are available for inspection at that address.

Dated: May 6, 1987.

Patricia W. Silvey,

*Associate Assistant Secretary for Mine Safety and Health.*

[FR Doc. 87-11384 Filed 5-18-87; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-87-66-C]

### G & G Coal & Equipment Co., Inc.; Petition for Modification of Application of Mandatory Safety Standard

G & G Coal & Equipment Co., Inc., Route 1, Box 152, Woodbine, Kentucky 40771 has filed a petition to modify the application of 30 CFR 75.313 (methane monitor) ot its Mine No. 1 (I.D. No. 15-14281) located in Knox County, Kentucky, and its Mine No. 4 (I.D. No.

15–15833) located in Whitley County, Kentucky. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that a methane monitor be installed on any electric face cutting equipment, continuous miner, longwall face equipment and loading machine and shall be kept operative and properly maintained and frequently tested.

2. Petitioner states that no methane has been detected in the mine. The three wheel tractors are permissible DC powered machines, with no hydraulics. The bucket is a drag type, where approximately 30–40% of the coal is hand loaded. Approximately 20% of the time that the tractor is in use, it is used as a man trip and supply vehicle.

3. As an alternate method, petitioner proposes to use hand held continuous oxygen and methane monitors in lieu of continuous methane monitors on three wheel tractors. In further support of this request, petitioner states that:

(a) Each three wheel tractor will be equipped with a hand held continuous monitoring methane and oxygen detector and all persons will be trained in the use of the detector;

(b) A gas test will be performed, prior to allowing the coal loading tractor in the face area, to determine the methane concentration in the atmosphere. The air quality will be monitored continuously after each trip, provided the elapse time between trips does not exceed 20 minutes. This will provide continuous monitoring of the mine atmosphere for methane to assure any undetected methane buildup between trips;

(c) If one percent of methane is detected, the operator will manually deenergize his/her battery tractor immediately. Production will cease and will not resume until the methane level is lower than one percent;

(d) A spare continuous miner will be available to assure that all coal hauling tractors will be equipped with a continuous miner;

(e) Each monitor will be removed from the mine at the end of the shift, and will be inspected and charged by a qualified person. The monitor will also be calibrated monthly; and

(f) No alterations or modifications will be made in addition to the manufacturer's specifications.

4. Petitioner states that the proposed alternate method will provide the same degree of safety for the miners affected as that afforded by the standard.

**Request for Comments**

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before June 18, 1987. Copies of the petition are available for inspection at that address.

Dated: May 6, 1987.

Patricia W. Silvey,

*Associate Assistant Secretary for Mine Safety and Health.*

[FR Doc. 87–11385 Filed 5–18–87; 8:45 am]

BILLING CODE 4510–43–M

---

[Docket No. M–87–99–C]

## Laurel Fork Mining Co.; Petition for Modification of Application of Mandatory Safety Standard

Laurel Fork Mining Company, Route 2, Box 1043, Wartburg, Tennessee 37887 has filed a petition to modify the application of 30 CFR 77.1605(k) (berms or guards) to its Mine No. 7 (I.D. No. 40–02944) located in Morgan County, Tennessee. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that berms or guards be provided on the outer banks of elevated roadways.

2. Petitioner states that application of the standard will result in a diminution of safety to the miners affected because berms confine water runoff to the road surface which washes away the surfacing materials, resulting in a dangerous road surface. The berms also hamper the removal of snow and ice with a motor grader.

3. As an alternate method, petitioner states that:

(a) Daily inspections of all coal-hauling vehicles will be made. Any defects will be corrected before the vehicle is put into service;

(b) A specific traffic system will be developed for the roads. These rules will be posted on the bulletin boards throughout the mine area, and they will become a part of the training and retraining programs;

(c) Warning signs will be posted designating curves, steep grades, where trucks should shift to a lower gear, and where roadways are reduced to one-lane traffic. Stop signs will be posted where one road intersects another, giving main haulage traffic the right-of-way, and signs will be posted designating passing points. Passing of one vehicle by another vehicle while traveling in the same direction is prohibited; except in the case where one vehicle is parked in a run-around area out of the normal lanes of traffic.

(d) All haulage vehicles will have original manufacturers brakes and an emergency braking system;

(e) All equipment operators will be trained in the use of haulage equipment and the safety of vehicles on haulage roads;

(f) Where abrupt drop-offs occur along the outer banks, elevation will be provided to cause the vehicles to gravitate toward the highwall side of the road;

(g) Roadway surfaces will be kept free of debris, excessive water, snow, and ice, and maintained as free as practicable of small ditches (washboard effects); and

(h) The speed at which trucks will be operated will be consistent with conditions of roadway clearance, visibility and traffic. Trucks operating on any descending grade will be restricted to 10 miles per hour.

**Request for Comments**

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before June 18, 1987. Copies of the petition are available for inspection at that address.

Dated: May 6, 1987.

## Pension and Welfare Benefits Administration

[Application Nos. D–5598 and D–5776]

## Amendment to Prohibited Transaction Exemption (PTE) 81–6 Involving Lending of Securities by Employee Benefit Plans

**AGENCY:** Pension and Welfare Benefits Administration, Department of Labor.

**ACTION:** Adoption of amendment to PTE 81–6.

**SUMMARY:** This document amends PTE 81–6. PTE 81–6 is a class exemption that permits the lending of securities by

employee benefit plans to certain broker-dealers and banks which are parties in interest with respect to the plans. The amendment affects participants, beneficiaries and fiduciaries of plans engaging in the described transactions, banks, and certain broker-dealers.

**EFFECTIVE DATE:** January 23, 1981.

**FOR FURTHER INFORMATION CONTACT:** Paul Kelty of the Office of Regulations and Interpretations, Pension and Welfare Benefits Administration, Department of Labor, (202) 523–8196. This is not a toll-free number.

**SUPPLEMENTARY INFORMATION:** On March 21, 1986, notice was published in the **Federal Register** (51 FR 9900) of the pendency before the Department of two proposed amendments to PTE 81–6. PTE 81–6 provides an exemption from the prohibited transaction restrictions of section 406(a)(1) (A) through (D) of the Employee Retirement Income Security Act of 1974 (ERISA or the Act) and from the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1986 (the Code) by reason of section 4975(c)(1) (A) through (D) of the Code.

Manufacturers Hanover Trust Company (Manufacturers Hanover) requested the first proposed amendment to PTE 81–6 by application dated June 29, 1984 (Application No. D–5598). The second proposed amendment was requested by Merrill Lynch, Pierce, Fenner & Smith (Merrill Lynch) in an application dated September 26, 1984 (Application No. D–5776). Both applications were submitted pursuant to section 408(a) of ERISA and section 4975(c)(2) of the Code[1] and in accordance with ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). The amendment requested by Merrill Lynch was withdrawn by the applicant by letter dated January 9, 1987.

Information collection requirements contained in PTE 81–6 have been approved by the Office of Management and Budget under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96–511) and have been assigned OMB #1210–0065 approved for use through May 31, 1987.

The notice gave interested persons an opportunity to comment on the proposal. Public comments were received pursuant to the provisions of section 408(a) of ERISA and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1.

[1] Section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978), effective December 31, 1978 (44 FR 1065, January 3, 1979), transferred the authority of the Secretary of the Treasury to issue exemptions of this type to the Secretary of Labor.

### 1. Description of the Exemption

PTE 81–6 permits an employee benefit plan to lend securities to a broker-dealer registered under the Securities Exchange Act of 1934 (the 1934 Act) or to a bank, provided certain conditions are met. These conditions include a requirement that the lending plan must receive from the borrower collateral consisting of cash, securities issued or guaranteed by the United States Government or its agencies, or irrevocable bank letters of credit. In the absence of an exemption, securities lending transactions would be prohibited under circumstances where the borrowing broker-dealer or bank is a party in interest or disqualified person with respect to the plan under section 3(14) of ERISA or section 4975(e)(2) of the Code.

The amendment to PTE 81–6 granted pursuant to this notice, requested by Manufacturers Hanover, adds broker-dealers which are exempted from registration under section 15(a)(1) of the 1934 Act as dealers in exempted Government securities to the categories of securities borrowers with whom plans may engage in transactions in reliance on the class exemption. The amendment requested by Merrill Lynch would have expended the types of premissible collateral under the exemption to include qualifying irrevocable surety bonds. Since Merrill Lynch no longer contemplates the use of surety bonds as collateral in securities lending transactions and, therefore, has withdrawn its request for exemptive relief, the proposed amendment has not been adopted. For the sake of convenience, the entire text of PTE 81–6, as amended, is reprinted with this notice.

### 2. Discussion of Comments Received

The Department received three letters commenting on various aspects of the proposed amendments to PTE 81–6. Both the American Bankers Association (ABA) and the California Bankers Association expressed support for the proposal. A letter from the ABA noted that, under the existing class exemption, a bank trustee of an employee benefit plan would be hesitant to lend securities to a dealer in Government securities if the dealer is not registered under the 1934 Act unless it can clearly be demonstrated that the dealer is not a party in interest with respect to the plan. According to the ABA, the burden of proving that a dealer is not a party in interest may be a deterrent to making the securities loan. However, Government securities dealers are major market participants and plans should not be precluded from lending securities to them. The ABA stated that, if the proposed amendments were adopted, employee benefit plans would benefit from the additional income resulting from the wider universe of eligible borrowers.

A letter submitted on behalf of the Committee on Securities Lending of the Robert Morris Associates, a trade group of over 35 banks representing securities lenders, asserted that the availability of surety bonds as acceptable collateral under PTE 81–6 would diminish the level of protection for employee benefit plans lending securities. In view of Merrill Lynch's decision to withdraw its request for amendment of PTE 81–6, it is unnecessary for the Department to respond to this comment.

### 3. Miscellaneous

Paragraph 2 of PTE 81–6 states that "securities issued or guaranteed by the United States Government or its agencies" are acceptable collateral to secure loans of securities made in reliance on the class exemption. The Department was asked by a fourth commentator to clarify the scope of the phrase "securities issued or guaranteed by the United States Government or its agencies." In this respect, the Department has concluded that obligations of instrumentalities of the United States Government are sufficiently similar to U.S. Government obligations that they are appropriate collateral for securities lending transactions. Thus, the Department has modified paragraph 2 of the final exemption to clearly indicate that securities issued or guaranteed by instrumentalities of the U.S. Government are acceptable collateral.[2]

### General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of ERISA does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of ERISA and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary

[2] In the Department's view, it would not be proper for a plan fiduciary to accept U.S. Government or Governmental instrumentality securities as collateral in a securities lending transaction unless the securities are sufficiently liquid to be readily marketable in the event of default. U.S. Government securities were included within the categories of permissible collateral under the original exemption because such securities are essentially treated by investors as being equivalent to cash.

responsibility provisions of section 404 of ERISA which require, among other things, that a fiduciary discharge his or her duties respecting the plan solely in the interests of the participants and beneficiaries of the plan; nor does it affect the requirement of seciton 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) In accordance with section 408(a) of ERISA, the Department makes the following determinations:

(i) The amendment set forth herein is administratively feasible,

(ii) It is in the interests of plans and of their participants and beneficiaries, and

(iii) It is protective of the rights of the participants and beneficiaries of plans;

(3) The class exemption is applicable to a particular transaction only if the transaction satisfies the conditions specified in the exemption; and

(4) The amendment is supplemental to, and not in derogation of, any other provisions of ERISA and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

**Exemption**

Accordingly, PTE 81-6 amended under the authority of section 408(a) of ERISA and section 4975(c)(2) of the Code and in accordance with ERISA Procedure 75-1 (40 FR 18471, April 28, 1975).

Effective January 23, 1981, the restrictions of section 406(a)(1)(A) through (D) of the Act and the taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975(c)(1)(A) through (D) of the Code shall not apply to the lending of securities that are assets of an employee benefit plan to a broker-dealer registered under the Secutities Exchange Act of 1934 (the 1934 Act) or exempted from registration under section 15(a)(1) of the 1934 Act as a dealer in exempted Government securities (as defined in section 3(a)(12) of the 1934 Act) or to a bank, if:

1. Neither the borrower nor an affiliate of the borrower has discretionary authority or control with respect to the investment of the plan assets involved in the transaction, or renders investment advice (within the meaning of 29 CFR 2510.3-21(c)) with respect to those assets;

2. The plan receives from the borrower (either by physical delivery or by book entry in a securities depository) by the close of the lending fiduciary's business on the day in which the securities lent are delivered to the borrower, collateral consisting of cash, securities issued or guaranteed by the United States Government or its agencies or instrumentalities, or irrevocable bank letters of credit issued by a person other than the borrower or an affiliate thereof, or any combination thereof, having, as of the close of business on the preceding business day, a market value or, in the case of letters of credit a stated amount, equal to not less than 100 percent of the then market value of the securities lent;

3. Prior to the making of any such loan, the borrower shall have furnished the lending fiduciary with (1) the most recent available audited statement of the borrower's financial condition, (2) the most recent available unaudited statement of its financial condition (if more recent than such audited statement), and (3) a representation that, at the time the loan is negotiated, there has been no material adverse change in its financial condition since the date of the most recent financial statement furnished to the plan that has not been disclosed to the lending fiduciary. Such representation may be made by the borrower's agreeing that each such loan shall constitute a representation by the borrower that there has been no such material adverse change;

4. The loan is made pursuant to a written loan agreement, the terms of which are at least as favorable to the plan as an arm's-length transaction with an unrelated party would be. Such agreement may be in the form of a master agreement covering a series of securities lending transactions;

5. (a) The plan (1) receives a reasonable fee that is related to the value of the borrowed securities and the duration of the loan, or (2) has the opportunity to derive compensation throught the investment of cash collateral. Where the plan has that opportunity, the plan may pay a loan rebate or similar fee to the borrower, if such fee is not greater than the plan would pay in a comparable transaction with an unrelated party;

(b) The plan receives the equivalent of all distributions made to holders of the borrowed securities during the term of the loan, including, but not limited to, cash dividends, interest payments, shares of stock as a result of stock splits and rights to purchase additional securities;

6. If the market value of the collateral at the close of trading on a business day is less than 100 percent of the market value of the borrowed securities at the close of trading on that day, the borrower shall deliver, by the close of business on the following business day, an additional amount of collateral (as described in paragraph 2) the market value of which, together with the market value of all previously delivered collateral, equals at least 100 percent of the market value of all the borrowed securities as of such preceding day.

Notwithstanding the foregoing, part of the collateral may be returned to the borrower if the market value of the collateral exceeds 100 percent of the market value of the borrowed securities, as long as the market value of the remaining collateral equals at least 100 percent of the market value of the borrowed securities;

7. The load may be terminated by the plan at any time, whereupon the borrower shall deliver certificates for securities identical to the borrowed securities (or the equivalent thereof in the event of reorganization, recapitalization or merger of the issuer of the borrowed securities) to the plan within (1) the customary delivery period for such securities, (2) five business days, or (3) the time negotiated for such delivery by the plan and the borrower, whichever is lesser; and

8. In the event the loan is terminated, and the borrower fails to return the borrowed securities or the equivalent thereof within the time described in paragraph 7, above, (i) the plan may, under the terms of the loan agreement, purchase securities identical to the borrowed securities (or their equivalent as described above) and may apply the collateral to the payment of the purchase price, any other obligations of the borrower under the agreement, and any expenses associated with the sale and/or purchase, and (ii) the borrower is obligated, under the terms of the loan agreement, to pay, and does pay to the plan the amount of any remaining obligations and expenses not covered by the collateral plus interest at a reasonable rate.

Notwithstanding the foregoing, the borrower may, in the event the borrower fails to return borrowed securities as described above, replace non-cash collateral with an amount of cash not less than the then current market value of the collateral, provided such replacement is approved by the lending fiduciary.

If the borrower fails to comply with any condition of this exemption in the course of engaging in a securities lending transaction, the plan fiduciary who caused the plan to engage in such transaction shall not be deemed to have caused the plan to engage in a transaction prohibited by section 406(a)(1)(A) through (D) of the Act solely by reason of the borrower's failure to

comply with the conditions of the exemption.

For purposes of this class exemption the term "affiliate" of another person shall include: (i) Any person directly or indirectly, through one or more intermediaries, controlling, controlled by, or under common control with such other person; (ii) any officer, director, or partner, employee or relative (as defined in section 3(15) of the Act) of such other person; and (iii) any corporation or partnership of which such other person is an officer, director or partner. For purposes of this definition the term "control" means the power to exercise a controlling influence over the management or policies of a person other than an individual.

Signed at Washington, DC, this 13th day of May, 1987.

**David M. Walker,**

*Deputy Assistant Secretary, Pension and Welfare Benefits Administration, U.S. Department of Labor.*

BILLING CODE 4510-23-M

## Occupational Safety and Health Administration

### National Advisory Committee on Occupational Safety and Health; Full Committee Meetings

Notice is hereby given that the National Advisory Committee on Occupational Safety and Health (NACOSH) meeting previously announced in the **Federal Register** May 7, 1987 (Vol. 52 No. 86 page 17344) for May 20 and 21, 1987 will be meeting only on May 21 1987 at 9:00 am in Room C-2313 in the Frances Perkins Department of Labor Building, 200 Constitution Avenue, NW., Washington, DC

NACOSH was established under section 7 (a) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656) to advise the Secretary of Labor and the Secretary of Health and Human Services on matters relating to the administration of the Act.

The public is invited to attend these meetings. The committe will discuss general issues affecting the workplace safety and health. A detailed agenda will be prepared, made publicly available and sent to members prior to the meetings. Anyone who wishes to make an oral presentation should notify the Division of Consumer Affairs before the meeting date. The request should include the amount of time desired, the capacity in which the person will appear, and a brief outline of the content of the presentation. Oral presentations will be scheduled at the discretion of the Committee chairperson to the extent to which time permits.

For additional information contact: Tom Hall, Division of Consumer Affairs, Occupational Safety and Health Administration, Room N-3647, Third Street and Constitution Avenue, NW., Washington, DC., 20210. Telephone: 202-523-8615.

Official records of the meetings will be available for public inspection at the Division of Consumer Affairs.

Signed at Washington, DC this 15th day of May, 1987.

**John A. Pendergrass,**

*Assistant Secretary.*

BILLING CODE 4510-26-M

## Pension and Welfare Benefits Administration

**[Prohibited Transaction Exemption 87-37; Exemption Application No. D-5612 et al.]**

### Grant of Individual Exemptions; Retirement Plan for Employees of Hemphill-Wells Co.

**AGENCY:** Pension and Welfare Benefits Administration, Labor.

**ACTION:** Grant of individual exemptions.

**SUMMARY:** This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1954 (the Code).

Notices were published in the **Federal Register** of the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations. The applications have been available for public inspection at the Department in Washington, DC. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for a hearing, unless otherwise stated, were received by the Department.

The notices of pendency were issued and the exemptions are being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

**Statutory Findings**

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

### Retirement Plan for Employees of Hemphill-Wells Co. (the Plan) Located in Lubbock, TX

[Prohibited Transaction Exemption 87-37; Exemption Application No. D-5612]

*Exemption*

The restrictions of sections 406(a) and 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the leasing from July 1, 1984 through April 30, 1986 of certain parcels of real property by the Plan to Hemphill-Wells Company provided all of the terms of the leases were as favorable to the Plan as those obtainable in an arm's-length transaction with an unrelated party.

*Effective Date:* This exemption will be effective July 1, 1984 through April 30, 1986.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on December 5, 1986 at 51 FR 43991.

*For Further Information Contact:* Linda Hamilton of the Department, telephone (202) 523-8194. (This is not a toll-free number.)

**The Longmont National Bank Pension Plan (the Pension Plan); The Longmont National Bank Profit Sharing Plan (the Profit Sharing Plan); and the Harvey Potts Individual Retirement Account (the IRA) Located in Longmont, CO**

[Prohibited Transaction Exemption 87–40; Exemption Application Nos. D-6363, D-6364, and D-6365]

*Exemption*

The restrictions of section 406(b)(2) of the Act shall not apply to the October 10, 1984 sale of two portions of a U.S. Treasury Note by the IRA, one portion each to the Pension Plan and the Profit Sharing Plan, provided such transaction was consummated at fair market value on the date of the sale.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on March 9, 1987 at 53 FR 7235.

*Effective Date:* This exemption is effective October 10, 1984.

*For Further Information Contact:* Gary H. Lefkowitz of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

**Diamond Shamrock Employee Stock Ownership Plan and the Employee Shareholding and Investment Plan of Diamond Shamrock Corporation (the Savings Plan; collectively, the Plans) Located in Cleveland, OH**

[Prohibited Transaction Exemption 87–42; Exemption Application Nos. D–6360 & D–6361]

*Exemption*

The restrictions of sections 406(a) and 407(a) of the Act shall not apply, effective October 30, 1985, to (1) the acquisition and holding by the Plans of certain Units (the Units) representing limited partnership interests in Diamond Shamrock Offshore Partners, Ltd. (the Partnership) distributed as dividends to the Plans as shareholders of Diamond Shamrock Corporation (DSC) Common Stock (the Stock); and (2) the acquisition and holding by the Plans of Units acquired on the open market as a result of either the Plans' reinvestment of cash distributions made with respect to the Units or the purchase by the Savings Plan of Units with contributions from participants of the Savings Plan in accordance with directions given by those participants.

*Effective Date:* The effective date of this exemption is October 30, 1985.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on September 9, 1986 at 51 FR 32141.

*Written Comments:* The Applicants submitted certain comments on the proposed exemption.

First, the Applicants represent that on July 17, 1986, DSC announced that beginning with the third quarter of 1986 and continuing for a period of unknown duration, DSC's quarterly dividend distributions will consist only of cash and will not include Units. However, the Applicants state that the exemption as proposed is still necessary since the distribution of the Units as dividends may be resumed at some future time. In addition, the Plans will continue to acquire Units in open-market transactions as a result of the Plans' reinvestment of cash which is distributed to the Plans by the Partnership with respect to Units already held by the Plans. Finally, the exemption is necessary for the open-market acquisition of Units pursuant to the directions of Savings Plan participants as of the first date such transactions are permitted.

Second, in response to the Department's suggestion, the Applicants state that additional Units will not be acquired and held for any participant's account in the Plan if, immediately before such acquisition, the Units comprise ten percent or more of the value of the participant's account balance. The Applicants also state that if Units comprise less than ten percent of the value of a participant's account immediately before the acquisition, but would exceed ten percent immediately after the acquisition, then the acquisition and holding of such additional Units for the participant's account would be carried out only to the extent that it is possible to do so without exceeding the ten percent limit. The Applicants represent that at no time prior to the date of their comment letter had any Units held for a participant's account in either of the Plans exceeded ten percent of the value of such participant's account.

Third, the Applicants have requested clarification as to whether the ten percent limitation would be violated by the receipt by a participant's account of additional Units as a distribution with respect to securities held for the participant's account. The Department does not belive that the ten percent limitation should preclude a participant's account from receiving Units that the account would otherwise be entitled to receive as a holder of any security. In addition, the Department does not believe that the ten percent limitation should impose upon the Trustee of the Plans an obligation to dispose of any Units merely because the value of the Units exceeds ten percent of the value of the participant's account on a date subsequent to the date the Units were acquired due to, for example, an increase in the market value of the Units.

After consideration of the entire record, the Department has determined to grant the exemption.

*For further Information Contact:* Mr. E.F. Williams of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

**The Bloserman Companies, Inc. Employee Stock Ownership Plan and Trust (the Plan) Located in Ocean Springs, MS**

[Prohibited Transaction Exemption 87–43; Exemption Application No. D-6041]

*Exemption*

The restrictions of section 406 (a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to: (1) the proposed sales by the Plan of certain improved real property (the Property) and a lease with respect to the Property to Alpha Investment Corporation (Alpha), a party in interest with respect to the Plan; and (2) the assumption by Alpha, in connection with the proposed sale, of a first deed of trust obligation of the Plan, provided the terms of the transactions are at least as favorable to the Plan as those obtainable in arm's length transactions with an unrelated party.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 13, 1987 at 52 FR 4686.

*For Further Information Contact:* Ms. Jan D. Broady of the Department, telephone (202) 523–8196. (This is not a toll-free number.)

**Gainesville Medical Group—Andrews & Associates, P.A. Profit Sharing Plan (the Plan) Located in Gainesville, FL**

[Prohibited Transaction Exemption 87–44; Exemption Application No. D–6050]

*Exemption*

The restrictions of section § 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the lease of real property located in the North Florida

Doctors Office Park in Gainesville, Florida, by the Plan to GMG Enterprises, a partnership whose partners are composed of the Plan's trustees, provided that the terms and conditions of the transaction are at least as favorable to the Plan as those obtainable in an arm's-length transaction with an unrelated party.

For a more complete statement of the fact and representation supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on March 17, 1987 at 52 FR 8376.

For Further Information Contact: Alan H. Levitas of the Department, telephone (202) 523–8194. (This is not a toll-free number.)

**Tuscaloosa News, Inc. Profit Sharing Plan and Trust (the Plan) Located in Tuscaloosa, AL**

[Prohibited Transaction Exemption 87–45; Exemption Application No. D–6832]

*Exemption*

The restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanction resulting from the application of section 4975 of the Code, by reason of section 4975 (c)(1)(A) through (e) of the Code, shall not apply to the cash sale on December 15, 1986 by the Plan of three unsecured promissory notes (the Notes) to the Tuscaloosa News Division of the New York Times Company, the sponsor of the Plan, provided that the sales price for each of the Notes was no less than the fair market value of each Note on the date of sale.

**Minnesota Mutual Fire & Casualty Co. Performance Share Program (the Plan) Located in Minnesota, MN**

[Prohibited Transaction Exemption 87–49; Exemption Application No. D–7040]

*Exemption*

The restrictions of sections 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the sale of an annuity contract to the Plan by Minnesota Mutual Life Insurance Company (MML), provided the following conditions are met:

(a) MML—

(1) Is a party in interest with respect to the Plan by reason of its ownership of guaranty fund certificates of Minnesota Mutual Fire and Casualty Company (MMF&C),

(2) Is licensed to sell insurance in at least one State as defined in section 3(10) of the Act,

(3) Has obtained a Certificate of Compliance from the Insurance Commissioner of its domiciliary state, Minnesota, within the 18 months prior to the date when the transaction is entered into, or when such certificates were last made available by the domiciliary state, if earlier, and

(4)(A) Has undergone a financial examination (within the meaning of the law of its domiciliary state, Minnesota) by the Insurance Commissioner of Minnesota within 5 years prior to the end of the year preceding the year in which the subject transaction occurs; or

(B) Has undergone an examination by an independent certified public accountant for its last completed taxable year immediately prior to the taxable year of the subject transaction.

(b) The Plan pays no more than adequate consideration for the annuity contract;

(c) No commissions are paid with respect to the sale of the contract; and

(d) For each taxable year of MML, the gross premiums and annuity considerations received in that taxable

BEST COPY AVAILABLE

year by MML for life and health insurance or annuity contracts for the Plan, MMF&C, and all employee benefit plans (and their employers) with respect to which MML is a party in interest by reason of a relationship to such employer described in sections 3(14) (E) or (G) of the Act, or by reason of its ownership or guaranty fund certificates, does not exceed 50 percent of the gross premiums and annuity considerations received for all lines of insurance in that taxable year by MML. For purposes of this condition (d):

(1) The term "gross premiums and annuity considerations received" means that total of premiums and annuity considerations received, reduced (in both the numerator and denominator of the fraction) by experience refunds paid or credited in that taxable year by MML.

(2) All premiums and annuity considerations written by MML for plans which it alone maintains are to be excluded from both the numerator and the denominator of the fraction.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on March 17, 1987 at 52 FR 8378.

*For Further Information Contact:* Gary H. Lefkowitz of the Department, telephone (202) 523-8881. (This is not a toll-free number.)

**General Information**

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, DC, this 12th day of May, 1987.

Elliot I. Daniel,

BILLING CODE 4510-29-M

---

[Application No. D-6792 et al.]

## Proposed Exemptions; Hochman, Salkin and DeRoy Money Purchase Pension Plan, et al.

**AGENCY:** Pension and Welfare Benefits Administration, Labor.

**ACTION:** Notice of proposed exemptions.

**SUMMARY:** This document contains notices of pendancy before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1954 (the Code).

**Written Comments and Hearing Requests**

All interested persons are invited to submit written comments or requests for a hearing on the pending exemptions, unless otherwise stated in the Notice of Pendency, within 45 days from the date of publication of this **Federal Register** Notice. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption.

**ADDRESS:** All written comments and requests for a hearing (at least three copies) should be sent to the Pension and Welfare Benefits Administration, Office of Regulations and Interpretations, Room N-5669, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. Attention: Application No. stated in each Notice of Pendency. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, DC 20210.

**Notice to Interested Persons**

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of pendency of the exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

**SUPPLEMENTARY INFORMATION:** The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 CFR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of pendency are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for a complete statement of the facts and representations.

**Hochman, Salkin and DeRoy Money Purchase Pension Plan (the Plan) Located in Beverly Hills, CA**

[Application No. D-6792]

*Proposed Exemption*

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (D) of the Code shall not apply to the proposed cash sale by the Plan of a single family residence in Los Angeles, California (the Property) to Richard Marmaro (Mr. Marmaro), a party in interest with respect to the Plan; provided that the cash received from the sale is not less than the fair market

BEST COPY AVAILABLE

value of the Property on the date of the sale.

*Summary of Facts and Representations*

1. The Plan is a defined contribution money purchase pension plan with an estimated thirty (30) individual accounts for the participants and total assets of approximately $6,253,541, as of February 28, 1986.

2. Hochman, Salkin & DeRoy, a profesional corporation engaged in the practice of law and located at 9100 Wilshire Boulevard, Beverly Hills, California, is the employer and sponsor of the Plan (the Employer). Bruce I. Hochman, Avram Salkin, and George DeRoy are the officers, directors, and shareholders of the Employer and the discretionary trustees (the Trustees) of the Plan. As of February 28, 1986, the Trustees held 89% of the assets of the Plan in their individual accounts.

3. On March 4, 1983, the Plan lent $450,000 (the Loan) at an interest rate of 21% per annum to Jin Ho Chang and Martha Sung Ja Chang (Mr. & Mrs. Chang), unrelated third parties. The Loan was secured by a second deed of trust on the Property located at 201 South Rimpau St., Los Angeles, California. Concurrent with the funding of the Loan, the Plan retained $47,250 as the first six month's interest. At the time the Loan was made, the Property also secured a first deed of trust (the 1st Mortgage) in favor of Great Western Savings & Loan Association in the amount of $166,000 at the interest rate of 11.5% per annum. On November 16, 1983, after payment of $7,875, Mr. & Mrs Chang defaulted on the Loan. Foreclosure procedures were completed in August 1985. Between the default and the foreclosure lengthy negotiations took place which resulted in payments of $40,000. The applicants represent that because California law effectively precludes deficiency judgments, the Plan took title to the Property subject to the 1st Mortgage. Subsequently, an unlawful detainer action was brought, which resulted in possession of the Property in January 1986, by the Plan. Since January 1986, the Property has been vacant. It is represented that the Property constitutes approximately 10% of the Plan's assets.

4. Since its acquisition of the Property, the Plan has had a total of $224,737 in expenditures, including principal and interest payments of $193,524 to pay the 1st Mortgage in full and $31,213 on foreclosure costs, legal fees, property taxes, repairs, maintenance, and utilities on the Property, including roof repair, clean-up, and the purchase of new draperies, carpets, and applicances.[1] The applicants represent that the roof repair, clean-up, and purchases of draperies, carpets, and appliances were necessary prior to listing the Property for sale with a realtor.

5. On August 18, 1986, Arthur B. Goode (Mr. Goode) of Arthur B. Goode Liquidators & Appraisers, 8532 Melrose Avenue, Los Angeles, California, appraised the Property. Mr. Goode has determined that the current fair market value of the Property is $565,000. Mr. Goode's qualifications include more than fifty (50) years experience in buying, selling, and appraising all types of property in Los Angeles. He is also a Senior Member of the International Society of Appraisers, a member of the American Society of Appraisers, and is a licensed auctioneer and real estate broker.

6. The Plan proposes to sell the Property to Mr. Marmaro, a full-time employee of the Employer and a party in interest with respect to the Plan. It is represented that Mr. Marmaro is not a shareholder, officer, director, or member of the management committee of the Employer, nor is he one of the Trustees of the plan who were responsible for the Plan's making the Loan or acquiring and holding the Property. Mr. Marmaro is seeking an exemption from the prohibited transaction provisions of the Act and Code to permit him to purchase the Property for cash in the amount of the higher of the fair market value of the Property on the date of sale or $565,000. It is represented that the plan will incur no fees, commissions, or other costs as a result of the sale.

7. The Trustees represent that the sale is in the best interest of the plan. During the four months that Coldwell Banker and company listed the Property for sale at a price of $665,000, the Plan received only one offer of $575,000. The Trustees responded with a price of $625,000 which was countered with an offer for $600,000 at 9% interest involving a cash downpayment of approximately $100,000 on a first mortgage of approximately $500,000. The Trustees represent that after the above round of negotiations, it did not appear that after the payment of brokerage commissions by the Plan, a third party purchase would realize net proceeds greater than that which the Plan will obtain from the sale of the Property to Mr. Marmaro. Upon sale of the Property the Plan will be relieved of costly maintenance and taxes of approximately $500 per month and will be able to earn a substantial income from investment of the proceeds from the sale.

8. In summary, Mr. Marmaro represents that the proposed transaction satisfies the criteria for exemption under section 408(a) of the Act and section 4975(c)(2) of the Code because: (a) The sale of the Property will be a one-time transaction for cash; (b) no fees, commissions, or other cost will be incurred by the Plan as a result of the sale; (c) the Plan will sell the Property at its fair market value as determined by a qualified, independent appraiser; (d) the Plan will use the proceeds from the sale to earn a substantial income, and (e) the Plan will be relieved of Property which is costly to maintain.

For Further Information Contact: Angelena C. Le Blanc of the Department, telephone (202) 523-8196. (This is not a toll-free number.)

**Ralph Korte Enterprises Profit Sharing Plan (the Plan) Located in Highland, IL**

[Application No. D-6938]

*Proposed Exemption*

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of sections 406(a) and 406(b) (1) and (2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the sale of certain real property by the Plan to Ralph Korte, a party in interest with respect to the Plan provided all the terms of the transaction are as favorable to the Plan as those obtainable by the Plan in an arm's-length transaction with an unrelated party on the date the transaction was consummated.

*Effective Date:* April 30, 1987.

*Summary of Facts and Representations*

1. The Plan is a defined contribution profit-sharing plan with 77 participants. The Plan had net assets of $1,156,343 as of October 31, 1985. The trustees of the Plan are William D. Boudouris, Ralph Korte and Gerald E. Staley (the Trustees). The Trustees are stockholders of the Employer. The Employer is a construction company.

2. On February 23, 1978, the Plan purchased a parcel of real property, together with a building, garage and

[1] The Department is expressing no opinion herein as to whether the initial Loan by the Plan to Mr. & Mrs. Chang or the acquisition and holding of the Property by the Plan violates any of the fiduciary responsibility provisions of Part 4 Subtitle B of Title I of the Act.

shed thereon, located at 822 Broadway, Highland, Illinois (the Property) from Laurence A. and Anna Lou Heineman and Michael and Delores Kapilla (the Sellers) for $84,000 in cash. The Sellers are unrelated parties with respect to the Plan. A 7,800 square foot commercial building constitutes the primary improvement on the Property. A 20 foot by 30 foot garage, and a 10 foot by 20 foot concrete block shed (the Shed) are also located on the Property.

3. Since the Plan's purchase of the Property in 1978, it has leased space in the commercial building and garage to various tenants who are unrelated parties with respect to the Plan. The Plan presently leases commercial space to five such unrelated parties at competitive rental rates. During the calendar year 1985, the Plan received $16,794 in rental income, and incurred expenses respecting such building of $9,150, thereby realizing a net profit of $7,674 from operation of the commercial building and garage. In 1986, it is projected that the Plan will realize a net profit of $7,223 respecting the commercial building and garage.

4. Since the Plan's purchase of the property in 1978, it has rented the Shed to the Employer's wholly-owned subsidiary, Ralph Korte, Inc. (Korte Realty) at a rate of $50 per month. The applicant states that such rental rate represents the fair market rental value of the Shed. Korte Realty has timely remitted payment of the plan of its rental obligations.[2]

5. The applicant represents that over the past three to four years, the Plan has unsuccessfully attempted, through the use of several independent realtors, to sell the Property to unrelated parties. The Plan initially attempted to sell the Property for a sale price of $115,000, but reduced the sales price to $90,000. To date, the Plan has received no offers from unrelated parties to purchase the Property at a price of $90,000.

6. On February 4, 1986, Wilfred Holzinger, an independent professional appraiser, established the fair market value of the Property at $86,000. Over the eight year period since the Plan purchased the Property, its fair market value has risen only $2,000. Due to the Plan's lack of success in selling the Property to unrelated parties, the applicant proposes that the Property be sold to Ralph Korte (Mr. Korte), a Trustee and stockholder of the Employer for a purchase price of $90,000, which is in excess of the fair market value of the Property. The proposed sale would be an all cash sale. The Plan would incur no real estate commissions or fees in connection with the sale. The applicants have requested an effective date of April 30, 1987 so that the Plan can expeditiously invest the proceeds of the sale in various interest bearing accounts.

7. In summary, the applicant represents that the proposed transaction meets the statutory criteria of section 408(a) of the At because:

(a) This will be a one-time cash transaction;

(b) The Plan will receive an amount in excess of the fair market value of the Property as determined by an independent appraisal;

(c) The Plan will not be required to pay any real estate commissions in connection with the sale of the Property, and;

(d) The Trustees have determined that the proposed transaction is in the interests of and protective of the Plan and its participants and beneficiaries.

*For Further Information Contact:* Ms. Linda Hamilton of the Department, telephone (202) 523-8194. (This is not a toll-free number.)

**General Information**

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete, and that each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, DC, this 12th day of May, 1987.

**Elliot I. Daniel,**

*Associate Director for Regulations and Interpretations, Pension and Welfare Benefits Administration, U.S. Department of Labor.*

[FR Doc. 87-11429 Filed 5-18-87; 8:45 am]

BILLING CODE 4510-29-M

[2] The applicant represents that the trustees of the Plan and Korte Realty were unaware that such use and rental of the Shed constituted a prohibited transaction. Within 60 days after the date an exemption is granted, Korte Realty will pay all applicable excise taxes for its prior prohibited transaction.

## LIBRARY OF CONGRESS

### American Folklife Center Board of Trustees; Meeting

**AGENCY:** Library of Congress.

**ACTION:** Notice of meeting.

**SUMMARY:** This notice announces a meeting of the Board of Trustees of the American Folklife Center. This notice also describes the functions of the Center. Notice of this meeting is required in accordance with Pub. L. 94-463.

**DATE:** June 12, 1987, 9:30 a.m. to 4:30 p.m.

**ADDRESS:** Whittall Pavilion, Jefferson Building, Library of Congress, 10 First Street SE., Washington, DC.

**FOR FURTHER INFORMATION CONTACT:** Raymond L. Dockstader, Deputy Director, American Folklife Center, Washington, DC 20540.

**SUPPLEMENTARY INFORMATION:** The meeting will be open to the public. It is suggested that persons planning to attend this meeting as observers contact Raymond Dockstader (202) 287-6590.

The American Folklife Center was created by the U.S. Congress with passage of Pub. L. 94-201, the American Folklife Preservation Act, in 1976. The Center is directed to "preserve and present American folklife" through programs of research, documentation, archival preservation, live presentation, exhibition, publications, dissemination,

training, and other activities involving the many folk cultural traditions of the United States. The Center is under the general guidance of a Board of Trustees composed of members from Federal agencies and private life widely recognized for their interest in American folk traditions and arts.

The Center is structured with a small core group of versatile professionals who both carry out programs themselves and oversee projects done by contract by others. In the brief period of the Center's operation it has energetically carried out it mandate with programs that provide coordination, assistance, and model projects for the field of American folklife.

Dated: May 11, 1987.

## NATIONAL COMMISSION FOR EMPLOYMENT POLICY

### Meeting

**ACTION:** Notice of meeting.

**SUMMARY:** Under the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given of a public meeting of the National Commission for Employment Policy at the Ramada Renaissance Hotel, 1143 New Hampshire Avenue, NW., Washington, DC 20037.

**DATES:** Thursday, June 11, 1987—9:00 a.m. to 5:00 p.m., Friday, June 12, 1987 9:00 a.m. to 3:00 p.m.

Status: The meeting is open to the public.

Matters To Be Discussed: Commission members will discuss the NCEP Budget, the research agenda for Program Year 1987, proposed new JTPA research, and the legislative update.

**FOR FURTHER INFORMATION CONTACT:** Mr. Robert Mahaffey, Public Affairs Officer, National Commission for Employment Policy, 1522 K. St., NW., Suite 300, Washington, DC 20005, 202-724-1545.

**SUPPLEMENTARY INFORMATION:** The National Commision for Employment Policy is authorized by the Job Training Partnership Act (Pub. L. 97-300). The Act gives the Commission the broad responsibility of advising the President and the Congress. Handicapped individuals wishing to attend should contact the Commission so that appropriate accommodations can be made. Copies of the minutes and materials prepared for the meeting will be available for public inspection at the Commission's offices, 1522 K St., NW., Suite 300, Washington, DC 20005.

Signed this 11th day of May 1987.

BILLING CODE 4510-30-M

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-528]

### Arizona Public Service Co., et al.; Notice of Consideration of Issuance of Amendment to Facility Operating License and Proposed no Significant Hazards Consideration Determination

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. NFP-41 issued to Arizona Public Service Company (the licensee), et al., for operation of the Palo Verde Nuclear Generating Station, Unit 1, located in Maricopa County, Arizona.

The amendment would change Technical Specification 3/4.11.1, "Secondary System Liquid Waste Discharges to the Onsite Evaporation Pond," to allow the concentrations of Antimony-124 (Sb-24) discharged from the secondary system liquid waste to the onsite evaporation pond to exceed $5X10^{-7}$ μCi/ml for a period not to exceed 292 days. This discharge will be within the limits of 10 CFR part 20, Appendix B, Table II, Column 2, concentrations. These revisions to the technical specifications would be made in response to the licensee's application for amendment dated May 10, 1987.

On March 24, 1987, the Commission granted an emergency Technical Specification change (documented in Amendment 16 to Facility Operating License NPF-41) in response to the licensee's application or amendment dated March 23, 1987, to allow for a period of 60 days the release of secondary system liquid waste, to the onsite evaporation pond, while the concentration of principal gamma emitters with half-lives less than 75 days is in excess of $5XC10^{-7}$ μCi/ml, provided that 10 CFR part 20 limits are not exceeded. The required cleanup activities of the secondary system are due to the primary to secondary leakage which occurred in January 1987. In the present request, the licensee has determined that 60 days authorized in March 1987 would not afford adequate time for removal of the isotope Antimony-124 (Sb-124), with a half life of 60 days, and has requested an additional 292 days.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration.

The Commission has provided standards for determining whether a significant hazards consideration exists as stated in 10 CFR 50.92. A proposed amendment to an operating license for a facility involes no significant hazards consideration if operation of the facility in accordance with proposed amendment would not: (1) involve a significant increase in the probability or consequences of an accident previously evaluated; (2) create the possibility of a new or different kind of accident from any accident previously evaluated; (3) involve a significant reduction in a margin of safety.

a discussion of these standards as they relate to the amendment request follows:

#### Standard 1—Involve a Significant Increase in the Probability or Consequences of an Accident Previously Evaluated

The proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated, because the proposed change does not alter the current design of the facility. The proposed Technical Specifications change would allow continued operation of the unit while the concentration of Sb/124 discharged from secondary system liquid waste to the onsite evaporation ponds is above the lower limit of detectability but within the limits of 10 CFR Part 20, Appendix B, Table II, Column 2. This would allow for cleanup (decontamination) activities of radioactive liquids resulting from a previous primary to secondary leak, while maintaining the unit in an operational condition. Therefore, this change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

#### Standard 2—Create the Possibility of New or Different Kind of Accident From Any Accident Previously Evaluated

The proposed amendment will not create the possibility of a new or different kind of accident from any accident previously evaluated because

the proposed amendment does not vary, effect, or provide any physical changes to the facility. This proposed change allows for discharge of Sb-24 which has been generated during processing/regeneration of condensate demineralizer resins. The small amounts ($5X10^{-6}$ to $5X10^{-7}$ μCi/ml) of Sb-124 activity present in regeneration wastes, which will be discharged into the onsite evaporation ponds, are within the limits of 10 CFR part 20, Appendix B, Table II, Column 2. (the current inventory of Antimony in the secondary system is estimated to be less than one Curie.) For these reasons, the proposed amendment does not create the possibility of a new or different kind of accident from any accident previously evaluated.

**Standard 3—Involve a Significant Reduction in a Margin of Safety**

The requested amendment does not involve a significant reduction in a margin of safety, because the proposed change does not affect the design basis of the plant. The existing limits for concentrations of radioactive material discharged from secondary system liquid waste on the onsite evaporation ponds will remain at $5X10^{-7}$ μCi/ml for principal gamma emitters, except for Sb-124. Releases of Sb-124 may be allowed to exceed $5X10^{-7}$ μCi/ml for a period not to exceed 180 days, but will be limited to 10 CFR Part 20, Appendix B, Table II, Column 2 concentrations. Because of the short half life (60 days) and the limited time involved (292 days), the effect of the proposed action on the previous accident analysis, i.e., the dose to the public from accumulated particulates in the evaporation ponds after the three units have been operating for 40 years, is negligible. For these reasons, it has been determined that the change does not involve a significant reduction in the margin of safety.

The staff has reviewed the licensee's no significant hazards consideration determination and agree with the licensee's analysis. Accordingly, the Commission proposes to determine that the proposed amendment involves no significant hazards consideration.

The licensee states and the Commission has agreed that failure to act in a timely way would result in derating and subsequent loss of power generation commencing in late May 1987. Therefore, the Commission has insufficient time to issue its usual 30-day notice of the proposed action for public comment.

If the proposed determination becomes final, an opportunity for a hearing will be published in the Federal Register at a later date and any hearing request will not delay the effective date of the amendment.

If the Commission decides in its final determination that the amendment does invove a significant hazards consideration, a notice of opportunity for a prior hearing will be published in the Federal Register and, if a hearing is granted, it will be held before any amendment is issued.

The Commission is seeking public comments on this proposed determination of no significant hazards consideration. Comments on the proposed determination may be telephoned to George W. Kinghton, Director, Project Directorate V, by collect call to 301–492–7331 or submitted in writing to the Rules and Procedures Branch, Division of Rules and Records, Office of Administration and Resource Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should cite the publication date and page number of this Federal Register Notice. Written comments may also be delivered to Room 4000, Maryland National Bank Building, 7735 Old Georgetown Road, Bethesda, Maryland, from 8:15 a.m. to 5:00 p.m. All comments received by June 3, 1987, will be considered in reaching a final determination. A copy of the application may be examined at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC and at the Phoenix Public Library, Business, Science and Technology Department, 12 East McDowell Road, Phoenix, Arizona 85007.

Dated at Bethesda, Maryland, this 14th day of May, 1987.

For the Nuclear Regulatory Commission.

## General Electric Co., Wilmington, NC Facility; Receipt of Petition for Director's Decision

Notice is hereby given that by Petition dated April 6, 1987, as corrected April 8, 1987, Anthony Z. Roisman and Mozart G. Ratner requested that the Director, Office of Inspection and Enforcement, take action with regard to the General Electric Company (GE) for its alleged illegal discrimination against Ms. Vera English. The Petition requests that the NRC impose upon GE the maximum fine permitted by statute for its willful discrimination against Ms. English, and that it impose a license condition upon GE requiring GE to fully compensate Ms. English for her losses incurred as a result of her alleged illegal discharge. The Petition asserts as bases for this request that the reason given to justify deferral of action on this issue in an earlier Director's Decision (DD 86–11), i.e., awaiting action by the Secretary of Labor, is no longer valid; that a Department of Labor Administrative Law Judge found that GE had discriminated against Ms. English but GE has not paid any fine for its conduct, nor has Ms. English been compensated for the wrong done her; and that the effectiveness of the NRC's program to protect and encourage workers to report safety violations is severely hampered by any further delay in taking action. The request is being treated pursuant to 10 CFR 2.206 of the Commission's regulations. As provided by § 2.206, appropriate action will be taken on this request within a reasonable time.

A copy of the Petition is available for inspection in the Commission's Public Document Room, 1717 H Street, NW., Washington, DC 20555.

Dated at Silver Spring, Maryland, this 13th day of May 1987.

For the Nuclear Regulatory Commission.

## Advisory Panel for the Decontamination of Three Mile Island, Unit 2; Meeting and States Report From GPU Nuclear Corp.

Notice is hereby given pursuant to the Federal Advisory Committee Act that the Advisory Panel for the Decontamination of Three Mile Island Unit 2 (TMI–2) will be meeting on June 10, 1987, from 7:00 pm to 10:00 pm at the Lancaster Council Chambers, Public Safety Building, 201 North Duke Street, Lancaster, PA 17603. The meeting will be open to the public.

The Panel will receive from General Public Utilities Nuclear Corporation, the licensee, a status report on the progress of the cleanup. The licensee will comment on the schedule for accomplishing the remaining tasks of the cleanup. At the direction of the Nuclear Regulatory Commission, the Panel will

discuss the timing for a final Commission decision on the disposal of the accident-generated water. A recommendation will be forwarded to the Commission. Members of the public will be given the opportunity to address the Panel.

Further information on the meeting may be obtained from Dr. Michael T. Masnik, Three Mile Island Cleanup Project Directorate, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone 301–492–0445.

Dated: May 14th, 1987.

## SECURITIES AND EXCHANGE COMMISSION

### Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Philadelphia Stock Exchange, Inc.

May 13, 1987.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the following securities:

Astrotech International Corporation
Common Stock, $0.30 Par Value (File No. 7–9933)
B.A.T. Industries PLC
Ordinary Shares 25p Par Value (File No. 7–9934)
Cablevision Systems Corporation
Class A Common Stock, $0.01 Par Value (File No. 7–9935)
Computer Consoles, Incorporated
Common Stock, $0.10 Par Value (File No. 7–9936)
Conquest Exploration Company
Common Stock, $0.20 Par Value (File No. 7–9937)
Dillard Department Stores, Inc.
Class A Common Stock, No Par Value (File No. 7–9938)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before June 3, 1987, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the application if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

### Self-Regulatory Organizations; Philadelphia Stock Exchange, Inc.; Creation of a Foreign Currency Options Committee

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)91), notice is hereby given that on April 27, 1987, the Philadelphia Stock Exchange, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Subetance of the Proposed Rule Change

The Philadelphia Stock Exchange, Inc. ("PHLX"), pursuant to Rule 19b–4 of the Securities Exchange Act of 1934 ("Act"), hereby proposes the following changes to the PHLX By-Laws: (Brackets indicate deletions; Italics indicates additions.)

*Standing Committees*

Section 10–1(a). The Standing Committees of the Corporation shall consist of: An Admissions Committee, an Allocation, Evaluation and Securities Committee, an Arbitration Committee, a Business Conduct Committee, a Disciplinary Review Committee, an Elections Committee, an Executive Committee, a Finance Committee, a Floor Procedure Committee, *a Foreign Currency Options Committee,* a Marketing Committee, a Nominating Committee, and an Options Committee. Each of such Committees, except as otherwise specifically provided in the by-laws or rules shall be composed of not less than nine members, exclusive of ex officio members, as may be determined by the Chairman of the Board with the approval of the Board of Governors, at least three of whom, exclusive of ex officio members, shall be members of the Board of Governors, and any additional number of whom may be members of this Corporation or general partners of officers or member organizations, or other persons who are considered to be qualified.

Sec. 10–1(b). No change.

Sec. 10–1(c). No change.

Sec. 10–2 through Sec. 10–14. No changes.

*Foreign Currency Options Committee*

*Section 10–15. The Foreign Currency Options Committee shall have general supervision of the dealings of members of the foreign currency options trading floor, and of the premises of the exchange facility immediately adjacent thereto. It shall make or recommend for adoption, and administer such rules as it may deem necessary for the convenient and orderly transaction of business upon the foreign currency options trading floor.*

*The Committee shall have supervision of the activities on the foreign currency options trading floor of specialists, assistant specialists, registered option traders, floor brokers, or other types of market-makers and shall establish standards and procedures for the training and qualification of members active on the foreign currency options trading floor. It shall have supervision over all foreign currency options floor employees of members or participants of the Corporation, and shall make and enforce such rules with respect to such employees as it may deem necessary.*

*The Committee shall resolve trading disputes. It shall have supervision of all connections or means of communications with the foreign currency options trading floor and may require the discontinuance of any such connnection or means of communication when, in the opinion of the Committee, it is contrary to the welfare or interest of the Corporation. It shall also have supervision over the location of equipment and the assignment and use of space on the foreign currency options trading floor.*

*The Committee shall have supervision over relations with other options exchanges in the areas of foreign currency trading, market-making and related matters. It shall coordinate with and provide information and assistance to the Allocation, Evaluation and Securities and the Options Committees as appropriate.*

*The Committee shall make and enforce rules and regulations relating to order, decorum, health, safety and welfare on the foreign currency options trading floor and the immediately adjacent premises of the exchange facility and shall be empowered to impose penalties for violations thereof.*

*The Committee, in its discretion, may delegate to other Standing or Special Committees of the Exchange supervision over questions pertaining to foreign currency options trading and over administration of such Rules as it deems appropriate.*

*Marketing Committee*

Sec. [10–15] *10–16*—[No change].

*Options Committee*

Sec. [10–16] *10–17.* The Options Committee shall have general supervision of the dealings of members on the *equity and index* options trading floor, and of the premises of the exchange facility immediately adjacent thereto. It shall make or recommend for adoption, and administer such rules as it may deem necessary for the convenient and orderly transaction of business upon the *equity and index* options trading floor.

The Committee shall have supervision of the activities on the *equity and index* options trading floor of specialists, assistant specialists, registered option traders, floor brokers, or other types of market-makers and shall establish standards and procedures for the training and qualification of members active on the *equity and index* options trading floor. It shall have supervision over all *equity and index* options floor employees of members of the Corporation, and shall make and enforce such rules with respect to such employees as it may deem necessary.

The Committee shall resolve trading disputes. It shall have supervision of all connections or means of communications with the *equity and index* options trading floor and may require the discontinuance of any such connection or means of communication when, in the opinion of the Committee, it is contrary to the welfare or interest of the Corporation. It shall also have supervision over the location of equipment and the assignment and use of space on the *equity and index* options trading floor.

The Committee shall have supervision over relations with other options exhcanges in the areas of trading, market-making and related matters. It shall coordinate with and provide information and assistance to the Allocation, Evaluation and Securities and *Foreign Currency Options Committees* as appropriate [and shall be empowered to make temporary appointments of specialists, assistant specialists, registered options traders or other types of options floor market-makers until permanent appointments are made by the latter Committee].

The Committee shall make and enforce rules and regulations relating to order, decorum, health, safety and welfare on the *equity and index* options trading floor and the immediately adjacent premises of the exchange facility and shall be empowered to impose penalties for violations thereof.

The Committee, in its discretion, may delegate to other Standing or Special Committees of the Exchange supervision over questions pertaining to *equity and index* options trading and over administration of such Rules as it deems appropriate.

**II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

*A. Self-Regulatory Organization's Statements of the Purpose of, and Statutory Basis for the Proposed Rule Change*

The purpose of the proposed rule change is to designate a new Standing Committee of the Board of Governors, the Foreign Currency Options Committee.The Committee was created to handle the significant policy and structural decisions which will be made in the future regarding foreign currency options trading. Also, since foreign currency options trading is a separate and distinct market from the market for equity and index options, with its own participants, it is appropriate to designate a Foreign Currency Options Committee to oversee such trading.

This new Standing Committee would have a charter basically identical to that of the Options Committee with responsibility for interpreting the Exchange's rules as they apply to foreign currency options trading and to oversee the operations of the currency options floor. By-Law Section 10–16 respecting the Options Committee is redesignated as By-Law Section 10–17 with deletion of language respecting temporary appointment of specialists, assistant specialists, and registered options traders. Those responsibilities now reside in the Allocation, Evaluation and Securities Committee.

The proposed rule change is consistent with section 6(b)(5) of the Securities and Exchange Act of 1934 in that it will facilitate growth of foreign currency options trading while fostering the protection of investors and the public interest.

*B. Self-Regulatory Organization's Statement on Burden on Competition*

The PHLX does not believe that the proposed rule change will impose any burden on competition.

*C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others*

No written comments were either solicited or received.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or,

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

**IV. Solicitation of Comments**

Interested persons are invited to submit writen data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section,

450 Fifth Street NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying of at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by June 9, 1987.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: May 11, 1987.

Jonathan G. Katz,

*Secretary*

BILLING CODE 8010-01-M

---

[Release No. 34-24441; File No. SR-PHLX-87-19]

**Self-Regulatory Organizations; Philadelphia Stock Exchange, Inc.; Stop and Stop Limit Orders**

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on April 20, 1987 the Philadelphia Stock Exchange, Inc. ("PHLX" or "Exchange") filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

**I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change**

The Philadelphia Stock Exchange, Inc., ("PHLX"), pursuant to Rule 19b-4 of the Securities Exchange Act of 1934 ("Act"), proposes to amend Exchange Rule 1066(c)(3) and Option Floor Procedure Advice A-5 ("Advice"), as follows (new material is italicized; deleted material is bracketed):

Rule 1066(c)(3). A stop order and a stop limit order in option contracts shall also be elected by a quotation, as follows. A stop order to buy shall become a market order when the bid price in the options series is at or above the stop price, after the order is represented in the trading crowd. A stop order to sell shall become a market order when the offer price in the option series is at or below the stop price, after the order is represented in the trading crowd.

A stop limit order to buy shall become a limit order executable at the limit price or a better price, if obtainable, when the bid price in the option series is at or above the stop price, after the order is represented in the trading crowd.

A stop limit order to sell shall become a limit order executable at the limit price or a better price, if obtainable, when the bid price in the option series is at or above the stop price, after the order is represented in the trading crowd.

[No stop or stop limit order elected by a quotation may be executed without prior approval of a Floor Official.] *Stop and stop limit orders elected by a quotation must be brought to the attention of a floor official (who may then refer questionable instances to market surveillance staff) by the respective specialist, or his representative, prior to, or promptly after, the execution. Specialists should ensure that stop and stop-limit orders are reported to the tape with a designation to that effect (i.e., "STPD").*

*A-5*

Execution of Stop and Stop-Limit Orders.

[Stop Order

A stop order to buy becomes a market order when the bid price in the option series is quoted at or above the stop price. Conversely, a stop order to sell becomes a market order when the offer price in the option series is quoted at or below the stop price.

Stop Limit Orders

A stop limit order to buy becomes a limit order executable at the limit price or at a better price, if obtainable, when the bid price in the option series is quoted at or above the stop price. Conversely, a stop limit order to sell becomes a limit order executable at the limit or at a better price, if obtainable, when the offer price in the option series is quoted at or below the stop price.

All stop and stop limit orders, prior to being executed on the established bid and offer, must be approved by a Floor Official.

See Rule 1018(a) or Rule 1066(2) and (1).

Fine Schedule

*A-5*

Fine not applicable]

*Stop and stop-limit orders are contingency orders to buy or sell when the market for a particular option reaches a specified price.*

*Stop and stop-limit orders to buy become eligible for execution when the option trades at or above the stop price or when the bid price for the option is at or above the stop price. Stop and stop-limit orders to sell become eligible for execution when the option trades at or below the stop price or when the offer price for the option is at or below the stop price.*

*A stop or stop-limit order made eligible by an opening sale or quote should be executed during the opening of the respective series. An order made eligible by an opening sale should print as a separate trade immediately following the opening trade. An order made eligible by an opening quote should print immediately following dissemination of the quote.*

*Stop and stop-limit orders elected by a quotation must be brought to the attention of a floor official (who may then refer questionable instances to market surveillance staff) by the respective specialist, or his representative, prior to, or promptly after, the execution.*

Specialists should ensure that stop and stop-limit orders are reported to the tape with a designation to that effect (i.e., "STPD").

Fine Schedule

*A-5*

*Fine not applicable.*

**II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the Self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. the self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

*A. Self-Regulatory Organization's Statements of the Purpose of, and Statutory Basis for the Proposed Rule Change*

The purposes of the proposed rule and Advice change are: (i) To provide members with a description of the circumstances under which a stop and stop-limit order is elected; (ii) to adopt procedures for the handling of stop and stop-limit orders on the opening; and (iii) to address functional problems surrounding the requirement for floor official approval *prior to* execution of a stop or stop-limit order elected by a quotation. In order to monitor the effectiveness of the above stop and stop-limit execution procedures, the rule and Advice change would also require

the respective specialist to ensure that stop and stop-limit order executions be appropriately designated (i.e., "STPD") when reported to the tape.

Moreover, the Advice as currently written refers to stop and stop-limit orders made eligible by a quote change but does not contain language pertaining to stop and stop-limit orders made eligible by a trade. The proposed Advice change would enhance the Advice in this regard by describing how stop and stop-limit orders are made eligible by a trade.

Similarly, the Advice does not now provide direction for the handling of stop and stop-limit orders made eligible on the opening. This has resulted in inconsistencies in the handling of such Orders. The proposed Advice change would promote uniformity in this area by providing that orders elected by an opening trade or quotation would be assured of a prompt execution without having to wait until the end of rotation in the option.

Securing floor official approval prior to executing a stop or stop-limit order elected by a quotation can cause functional problems in instances where the market is active and a floor offical is not within the immediate area. Under such circumstances, the specialist faces a dilemma: Either to stay at his post and facilitate the execution of the numerous orders there (and thereby not seek out a floor official to approve execution of the stop order ) or to leave his post to seek out a floor official and disrupt the activity at his post. To address this problem, the proposed Advice change would allow specialists to notify floor officials promptly after such executions rather than having to receive prior floor official approval. The Exchange does not believe that this alternative would impede its safeguarding against improper executions since all such trades will still be subjected to floor official review.

Furthermore, the requirement that the specialist designate the execution of such an order "STPD" enables Exchange Market Surveillance staff effectively to monitor the execution of stop orders. All "STPD" orders can be singled our for special surveillance to ensure they were appropriately handled. Additionally, the Exchange notes that its rules also provide that a member organization may reject a transaction taken or supplied by the specialist for his own account if the specialist is notified in accordance with Commentary .05 to Exchange Rule 1019.

The Exchange believes the proposed rule and Advice change are consistent with Section 6 of the Act, and, in particular, section 6(b)(5), in that the proposed changes are designed to promote fair and orderly markets and otherwise foster the protection of investors and the public interest.

*B. Self-Regulatory Organization's Statement on Burden on competition*

The PHLX does not believe that the proposed rule and advice change will impose any burden on competition.

*C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others*

No written comments were either solicited or received.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or,

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

**IV. Solicitation of Comments**

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street NW., Washington, DC. 20549. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by June 9, 1987.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: May 11, 1987.

Jonathan G. Katz,

*Secretary.*

## DEPARTMENT OF TRANSPORTATION

### Federal Highway Administration

### Environmental Impact Statement; U.S. Route 29, Montgomery County, MD; Notice of Intent To Prepare

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Correction of notice of intent.

**SUMMARY:** The FHWA is issuing this correction to the May 5, 1987, **Federal Register** (published on p. 16477) advising the public of our intent to prepare an environmental impact statement for highway improvements on U.S. Route 29 in Montgomery County.

**FOR FURTHER INFORMATION CONTACT:** Mr. Louis Ege, Jr., Deputy Director, Project Development Division, Maryland State Highway Administration, 707 North Calvert Street, Room 310, Baltimore, Maryland 21202, telephone 301/333-1130.

**SUPPLEMENTARY INFORMATION:** The project limits were incorrectly stated as being from the Patuxent River to Interstate 495 (Capital Beltway). The correct limits are from the Patuxent River to Sligo Creek.

(Catalog of Federal Domestic Assistance Program Number 20.025, Highway Research, Planning and Construction. The provisions of Executive Order 12372 regarding State and local review of Federal and Federally assisted programs and projects apply to this program)

BILLING CODE 4910-22-M

### Uniform Relocation Act Amendments of 1987

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice.

**SUMMARY:** The Surface Transportation and Uniform Relocation Assistance Act of 1987, Pub. L. 100-17, 101 Stat. 132, was enacted April 2, 1987. Title IV of the Act (the 1987 Amendments) amends the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act), 42 U.S.C. sections 4601 through 4655 (1982). Among other things, the 1987 Amendments established the

Department of Transportation (DOT) as the lead agency for implementing the Uniform Act. The lead agency has a number of continuing responsibilities in the administration of the Uniform Act. DOT's function will largely be the responsibility of the Federal Highway Administration (FHWA). The FHWA is issuing this notice to inform all interested parties and agencies of the significant changes in the law and general plans to implement those changes.

**FOR FURTHER INFORMATION CONTACT:** Barbara Reichart, Chief, Relocation Division, HRW–20, (202) 366–0116; Gerald Saunders, Chief, Real Estate Division, HRW–10, (202) 366–2015; or Reid Alsop, Attorney Advisor, Office of the Chief Counsel, HCC–40, (202) 366–1371. The address is Federal Highway Administration, 400 Seventh Street SW., Washington, DC 20590.

**SUPPLEMENTARY INFORMATION:** The following are brief descriptions of the more significant amendments to the Uniform Act. The citations are to sections of the 1987 Amendments.

The 1987 Amendments enhance the benefits provided under the Uniform Act to individuals and businesses that are required to move as a result of a Federal or federally assisted project. The 1987 Amendments also, for the first time, address the treatment of utilities which must relocate as a result of such projects, unless another Federal law governs their relocation. Furthermore, State and local autonomy is enhanced by allowing certification of State and local programs which are carried out in accordance with State laws that are determined to have the same purpose and effect as the Uniform Act. Finally, greater uniformity of program implementation and administration at the Federal level is attained by designating a lead agency for the Federal government which has the responsibility of issuing government wide standards, and generally overseeing Federal activities under the Uniform Act. The Congress clearly envisioned that the lead agency would coordinate with other Federal agencies in carrying out its responsibilities.

Key changes provided by the 1987 Amendments include:

—*Lead Agency.* The Department of Transportation has been designated as lead agency. (Section 402(e)). By delegation from the Secretary of Transportation, FHWA will carry out these responsibilities. Lead agency duties include the development and issuance, with the active participation of the Secretary of Housing and Urban Development, and other Federal agencies, of such regulations as may be necessary to carry out the Uniform Act. (Section 412). The lead agency is specifically required to issue rules, establish procedures and make interpretations to implement the provisions of the Uniform Act.

—*Displaced person.* The definition is expanded to include displacement because of rehabilitation and demolition if such displacement is permanent. (Section 402(d)).

—*Federal and State agencies.* These definitions have been expanded to include any private entity that has the power of eminent domain under Federal or state law. (Sections 402 (a) and (b)).

—*Replacement housing payments.* The maximum payment to homeowners is increased to $22,500. (Section 406). The maximum payment for tenants and certain others is increased to $5,250. These payments to tenants are based on the increased rent required over a specified period of time which is reduced to 42 months. The requirement that a displaced tenant, who elects to receive a downpayment in lieu of a rent supplement, must match a portion of the amount provided has been eliminated. (Section 407).

—*Moving expenses.* Benefits are expanded to include a reestablishment payment not to exceed $10,000 for small businesses, farms, or non-profit organizations. Under certain conditions a payment is permitted to qualifying utility companies for certain extraordinary moving costs. The maximum payment to a business in lieu of moving costs is increased to $20,000 while the minimum payment has been reduced to $1,000. (Section 405).

—*Certification.* Regarding programs or projects carried out with Federal financial assistance, as an alternative to the assurances under sections 210 and 305 of the Uniform Act, the Federal agency providing the financial assistance may accept a certification from a State agency that it will carry out the responsibilities of the Federal agency under the Uniform Act. The lead agency must first determine if State law is sufficient to accomplish the purpose and effect of the Uniform Act (as amended). Before making this determination, the lead agency must provide an opportunity for public review and comment, and consult with local general purpose governments within the State. (Section 403).

—*Effective Date.* The provisions of section 412 with respect to lead agency authority to develop and issue regulations were effective upon enactment. The remaining provisions will be effective on the effective date specified in the regulations issued under such authority, but not later than two years from the date of enactment which was April 2, 1987. (Section 418).

FHWA intends to implement those provisions of the 1987 Amendments which are not amenable to notice and comment as soon as practical. Where the law is explicit and admits to little, if any, administrative discretion or significant agency interpretation we do not consider that a period for notice and comment would serve a useful purpose. In addition, such a comment period could, in certain cases, delay eligibility for benefits provided in the 1987 amendments. Thus, we expect to issue an interim final rule, primarily on specific payments, in the near future. To the maximum extent practicable, displaced persons should be considered eligible for the enhanced benefits contemplated by the Act if they are displaced after the date of enactment of the 1987 Amendments (April 2, 1987).

Federal and State agencies that consider themselves to now have statutory authority that is broad enough to allow the additional benefits set forth in the 1987 Amendments, are encouraged to preserve the eligibility of persons displaced after the effective date of the 1987 Amendments pending the issuance of the interim final rule by the lead agency. Such agencies would probably also need to make changes, as necessary, in their existing procedures after the interim rule is published. State agencies that do not currently consider themselves to have authority to comply should continue to operate under their existing procedures until such authority is obtained prior to April 2, 1988.

Where State enabling legislation must be changed to conform to the amended Federal law, State legislatures are encouraged to begin this process. The FHWA is drafting model legislation to provide assistance to such States, with an emphasis on a generic statute which could accommodate expected revision in Federal regulations. We recognize that not all States may wish to use such a model law.

To further carry out its responsibility, the FHWA will develop implementing procedures and/or regulations required by the 1987 Amendments as soon as possible. In addition to the interim final rule referred to above, we plan to issue a notice of proposed rulemaking concerning implementing the remaining provisions of the 1987 Amendments within the next several months. Comments will be sought and final regulations will be issued shortly thereafter.

Issued on: May 12, 1987.

Ray Bernhart,

*Administrator.*

## DEPARTMENT OF THE TREASURY

### Public Information Collection Requirements Submitted to OMB for Review

Dated: May 14, 1987.

The Department of Treasury has made revisions and resubmitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Pub. L. 96-511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding these information collections should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Room 2224, Main Treasury Building, 15th and Pennsylvania Avenue NW., Washington, DC 20220.

**Internal Revenue Service**

*OMB Number:* New.
*Form Number:* IRS Form 8610.
*Type of Review:* Resubmission.
*Title:* Annual Low-Income Housing Credit Agencies Report.
*Description:* Form 8610 is used as a transmittal form for Forms 8609, Low-Income Housing Credit allocation Certification. Form 8610 is completed by state and local housing credit agencies.
*Respondents:* State or local governments.
*Estimated Burden:* 60 hours.
Clearance Officer: Garrick Shear (202) 566-6150, Room 5571, 1111 Constitution Avenue, NW., Washington, DC 20224.
OMB Reviewer: Milo Sunderhauf, (202) 395-6880, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, DC 20503.

Dale A. Morgan,

*Departmental Reports Management Office.*

### Agency Form Under OMB Review

**AGENCY:** Veterans Administration.

**ACTION:** Notice.

The Veterans Administration has submitted to OMB for review the following proposal for the collection of information under the provisons of the Paperwork Reduction Act (44 U.S.C. Chapter 35). This document contains an extension and lists the following information: (1) The department or staff office issuing the form, (2) the title of the form, (3) the agency form number, if applicable, (4) a description of the need and its use, (5) how often the form must be filled out, (6) who will be required or asked to report, (7) an estimate of the number of responses, (8) an estimate of the total number of hours needed to fill out the form, and (9) an indication of whether section 3504(h) of Pub. L. 96-511 applies.

**ADDRESSES:** Copies of the forms and supporting documents may be obtained from Patti Viers, Agency Clearance Officer (732), Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 233-2146. Comments and questions about the items on the list should be directed to the VA's OMB Desk Officer, Elania Norden, Office of Management and Budget, 726 Jackson Place, NW., Washington, DC 20503, (202) 395-7316.

**DATES:** Comments on the information collection should be directed to the OMB Desk Officer by July 20, 1987.

Dated: May 13, 1987.

By direction of the Administrator.

Jack L. Sharkey,

*Director, Office of Information Systems and Telecommunications.*

**Extension**

1. Deparatment of Veterans Benefits.
2. Disability Benefits Questionnaire.
3. VA Form 29-8313.
4. The form is used to request medical and industrial data to determine the insured's continuous entitlement to disability insurance benefits.
5. On occasion.
6. Individuals or households.
7. 92,000 responses.
8. 23,000 hours.
9. Not applicable.

**Extension**

1. Department of Veterans Benefits.
2. Notice of Lapse.
3. VA Forms 29-389 & 29-389-1.
4. These forms are used to advise the insured of the lapsed status of their insurance policy and the requirements necessary for reinstatement. The information is needed to determine eligibility for reinstatement.
5. On occasion.
6. Individuals or households.
7. 23,352 responses.
8. 3,892.
9. Not applicable.

**Extension**

1. Department of Veterans Benefits.
2. Veteran's Application for Compensation or Pension.
3. VA Form 21-526.
4. This information is used to determine the eligibility for compensation or pension for a veteran, spouse, surviving spouse or dependent and the extent of intitlement.
5. On occasion.
6. Individuals or households.
7. 248,284 responses.
8. 330,218 hours.
9. Not applicable.

**Extension**

1. Department of Veterans Benefits.
2. VA Property Management Consolidated Invoice.
3. VA Form 26-6974.
4. This information is necessary to proper management of VA's properties and serves as proof of broker's expenses and claimed fees prior to authorizing payments.
5. On occasion.
6. Businesses or other for-profit; Small businesses or organizations.
7. 28,600 responses.
8. 19,200 hours.
9. Not applicable.

**Extension**

1. Department of Veterans Benefits.
2. Report of Income from Property or Business.
3. VA Form 21-4185.
4. This information is needed to determine basic eligibility for all benefits where income forms the basis for that determination.
5. On Occasion.
6. Individuals or households.
7. 59,500 responses.
8. 29,750 hours.
9. Not applicable.

# Corrections

Federal Register
Vol. 52, No. 96
Tuesday, May 19, 1987

This section of the FEDERAL REGISTER contains editorial corrections of previously published Presidential, Rule, Proposed Rule, and Notice documents and volumes of the Code of Federal Regulations. These corrections are prepared by the Office of the Federal Register. Agency prepared corrections are issued as signed documents and appear in the appropriate document categories elsewhere in the issue.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Food and Drug Administration

### 21 CFR Parts 182, 184, and 186

[Docket No. 79N-0269]

### Iron and Iron Salts; Proposed Affirmation of GRAS Status as Direct and Indirect Human Food Ingredients

*Correction*

In proposed rule document 87-8850 beginning on page 13086 in the issue of Tuesday, April 21, 1987, make the following correction:

On page 13106, in the first complete paragraph, in the last line, "not" should read "now".

BILLING CODE 1505-01-D

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

### 30 CFR Parts 5, 15, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 31, 32, 33, 35, 36 and 74

### Fees for Testing, Evaluation and Approval of Mining Products

*Correction*

In rule document 87-10389 beginning on page 17506 in the issue of Friday, May 8, 1987, make the following corrections:

1. On page 17510, in Table 1, under the heading "30 CFR part and agency tracking code", the second line should read "*12 Approval Evaluation" and the words "Permissibility Tests" should appear on a new line directly above "Physical Exam".

2. On page 17511, in Table 1, in the "Hourly rate" column, the seventh entry, now reading "28", should read "29" and in the "Flat rate" column the third entry, now reading "6", should be removed.

3. On page 17512, in the first column, in the 6th, 7th, 9th and 10th lines from the bottom, the tracking codes "*12" and "*14" should read "12" and "14".

BILLING CODE 1505-01-D

## VETERANS ADMINISTRATION

### 38 CFR Part 3

### Removal of Monetary Rates

*Correction*

In proposed rule document 87-10709 beginning on page 17773 in the issue of Tuesday, May 12, 1987, make the following corrections:

1. On page 17774, in the first column, under SUPPLEMENTARY INFORMATION, in the fifth line, "delivered" should read "derived".

**§ 3.23 [Corrected]**

2. On the same page, in the third column, in § 3.23(a), in the 10th line, "Notice" should read "Notices".

**§ 3.27 [Corrected]**

3. In § 3.27(b), on page 17776, in the first column, in the sixth line, "increases" was misspelled.

**§ 3.28 [Corrected]**

4. On the same page, in the first column, in the introductory text of § 3.28, in the second line, "improved" was misspelled; and in paragraph (b), in the fourth line, "pension" was misspelled.

**§ 3.1600 [Corrected]**

5. On the same page, in the second column, in § 3.1600(b), in the seventh line, "computed" was misspelled; and in the third column, in paragraph (f), in the eighth line, insert ")" after "§ 3.6(c)"

Part II

# General Services Administration

41 CFR Part 101-6
Federal Advisory Committee Management; Proposed Rule

GENERAL SERVICES ADMINISTRATION

41 CFR Part 101-6

Federal Advisory Committee Management; Administrative and Interpretive Guidelines and Management Controls

AGENCY: Office of Administration, General Services Administration.

ACTION: Proposed rule.

SUMMARY: This proposed rule provides administrative and interpretive guidelines and management controls for Federal agencies concerning the implementation of the Federal Advisory Committee Act, as amended (5 U.S.C., App.) (hereinafter "the Act"). In a previous issue of the Federal Register, GSA published an interim final rule on the management of Federal advisory committees and requested comments (48 FR 19324; April 28, 1983). Additional comments were requested through an advance notice of proposed rulemaking published in the Federal Register on February 13, 1987 (52 FR 4631). Comments received have been considered in formulating this proposed rule prior to its publication as a final rule. This revised rule is intended to improve the management and use of Federal advisory committees in the Executive Branch of the Federal government.

DATES: Comments must be received on or before: August 17, 1987.

ADDRESSES: Comments should be addressed to: General Services Administration, Committee Management Secretariat (CTM), Washington, DC 20405.

Copies of comments that have been received are available for public inspection in Room 7030 of the General Services Building, 18th and F Streets, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Charles F. Howton, Senior Committee Management Specialist, Committee Management Secretariat, Office of Management Services, Office of Administration, General Services Administration, Washington, DC 20405 (202–523–1343).

SUPPLEMENTARY INFORMATION:

## Background

GSA's authority for administering the Act is contained in section 7 of the Act and Executive Order 12024 (42 FR 61445, 3 CFR, 1977 Comp., p. 158). Under Executive Order 12024, the President delegated to the Administrator of General Services all of the functions vested in the President by the Act, as amended, except that the Annual Report to the Congress required by section 6(c) shall be prepared by the Administrator for the President's consideration and transmittal to the Congress.

## Prior Comments

As stated above, GSA issued an interim final rule on the management of Federal advisory committees in the Federal Register and invited comments. The substantive comments received are addressed as follows:

*Rescind the No-Compensation Policy*

It was the general opinion of the commenters responding that the policy of not paying advisory committee members should be withdrawn. The commenters felt that the decision to compensate or not to compensate members should be left to the discretion of the agency heads because needs of agencies vary, and agencies are in the best position to know when compensation is appropriate. GSA has agreed to withdraw the nocompensation requirement.

*Eliminate Quarterly Reports of Membership*

A change that many commenters recommended was elimination of the requirement to update committee membership lists on a quarterly basis. The commenters stated that these reports placed an unnecessary paperwork burden on agencies having advisory committees.

The annual report of membership that the Federal Advisory Committee Act requires was considered sufficient. GSA has eliminated this requirement from the proposed rule.

*Withdraw the Limits on Committee Size*

The interim final rule included a provision recommending that the size of committees be limited. Commenters noted that the Federal Advisory Committee Act does not establish a limit on the size of membership. Some agency heads find that larger committees can be an efficient device, saving the cost of setting up separate committees and staffs.

GSA never intended this limitation to be mandatory. To avoid misinterpretation, however, GSA has changed this provision to say that the number of members should be limited to the fewest necessary to accomplish committee objectives.

*Clarify the Requirements Applicable to Subcommittees*

The commenters recommended that subcommittees that provide advice and recommendations to the parent committee should be considered part of the parent committee and exempt from separate chartering and consultation provisions of the Federal Advisory Committee Act, although they would still be subject to the other provisions of the Act. GSA has accepted this recommendation and has reflected it in this proposed rule.

*Exempt One-Time Meetings*

Several commenters recommended that a final rule provide an exclusion for one-time meetings. GSA is of the opinion that such an exclusion is not appropriate in view of the limited litigation history available for consideration. Accordingly, GSA has not accepted the recommendation to exclude meetings or groups from the Act's coverage solely because they take place or meet only once. In the absence of any additional judicial precedent to the contrary, GSA believes a one-time meeting exclusion in this rule would be inconsistent with the Act.

*Streamline the Consultation Process*

One commenter suggested that the final rule allow an agency head to proceed to establish an advisory committee, for which consultation with the Administrator is required, if that agency head had not received GSA's views within 15 days of receipt. GSA does not believe that the lack of a final response within 15 days has been a widespread problem. For those consultations which require additional time, GSA normally provides the agency with a reason for the delay and makes every effort to expedite the review process and respond to the agency. Since the need for additional time to review a consultation often indicates a need to resolve problems or respond to additional information, GSA does not believe an agency should proceed to charter a committee until all relevant issues have been resolved.

However, GSA recognizes that an agency head retains final authority for establishing a particular advisory committee and this concept has been incorporated into the proposed rule. To expedite the consultation process generally, the proposed rule also provides for agencies to submit consultations directly to the Secretariat to streamline administrative processing.

## Miscellaneous Comments

Other sections have been amended or revised for purposes of clarity or to better explain GSA's intent.

### Additional Instructions

Pursuant to section 7(d) of the Act, the Administrator after study and consultation with the Director, Office of Personnel Management (OPM), is to establish guidelines with respect to uniform fair rates of pay for comparable services for members, staffs and consultants of advisory committees. The consultation process with OPM has taken place.

### Executive Order 12291

GSA has determined that this proposed rule is not a major rule for purposes of Executive Order 12291 of February 17, 1981, because it will not result in an annual effect on the economy of $100 million or more, will not cause a major increase in costs to consumers or others, and will not have significant adverse effects. GSA has based all administrative decisions on this proposed rule on adequate information concerning the need for and consequences of this proposed rule. GSA has also determined that the potential benefits to society from this proposed rule far outweigh the potential costs, has maximized the net benefits, and has chosen the alternative involving the least net cost to society.

### Regulatory Flexibility Act

These regulations are not subject to the regulatory flexibility analysis or other requirements of 5 U.S.C. 603 and 604.

### List of Subjects in 41 CFR Part 101–6

Civil rights, Government property management, Grant programs, Intergovernmental relations, Surplus Government property, Relocation assistance, Real property acquisition, Federal advisory committees.

Accordingly, it is proposed to amend 41 CFR Part 101–6 as follows:

## PART 101–6—MISCELLANEOUS REGULATIONS

1. Subpart 101–6.10 is revised to read as follows:

### Subpart 101–6.10—Federal Advisory Committee Management

Sec.

101–6.1001 Scope.
101–6.1002 Policy.
101–6.1003 Definitions.
101–6.1004 Examples of advisory meetings or groups not covered by the Act or this regulation.
101–6.1005 Authorities for establishment of advisory committees.
101–6.1006 [Reserved]
101–6.1007 Agency procedures for establishing advisory committees.
101–6.1008 The role of GSA.
101–6.1009 Responsibilities of an agency head for an advisory committee established under general agency authority.
101–6.1010 [Reserved]
101–6.1011 Responsibilities of the chairperson of an independent Presidential advisory committee.
101–6.1012 [Reserved]
101–6.1013 Charter filing requirements.
101–6.1014 [Reserved]
101–6.1015 Advisory committee information which must be published in the Federal Register.
101–6.1016 [Reserved]
101–6.1017 Responsibilities of the agency Committee Management Officer.
101–6.1018 [Reserved]
101–6.1019 Duties of the Designated Federal Officer.
101–6.1020 [Reserved]
101–6.1021 Public participation in advisory committee meetings.
101–6.1022 [Reserved]
101–6.1023 Procedures for closing an advisory committee meeting.
101–6.1024 [Reserved]
101–6.1025 Requirement for maintaining minutes of advisory committee meetings.
101–6.1026 [Reserved]
101–6.1027 Termination of advisory committees.
101–6.1028 [Reserved]
101–6.1029 Renewal of advisory committees.
101–6.1030 [Reserved]
101–6.1031 Amendments to advisory committee charters.
101–6.1032 [Reserved]
101–6.1033 Compensation and expense reimbursement of advisory committee members and staff.
101–6.1034 [Reserved]
101–6.1035 Reports required for advisory committees.

Authority: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); sec. 7, 5 U.S.C. App. 1; and E.O. 12024, 3 CFR 1977 Comp. p. 158.

### Subpart 101–6.10—Federal Advisory Committee Management

#### § 101–6.1001 Scope.

(a) The following regulations define the policies, establish minimum requirements, and provide guidance to agency management for the establishment, operation, administration, and duration of advisory committees subject to the Federal Advisory Committee Act, as amended. Reporting requirements which keep the Congress and the public informed of the number, purpose, membership, activities, and cost of these advisory committees are also included.

(b) The Act and these regulations do not apply to advisory meetings or groups listed in § 101–6.1004.

#### § 101–6.1002 Policy.

The policy to be followed by Federal departments, agencies, and commissions, consistent with the Federal Advisory Committee Act, as amended, is as follows:

(a) An advisory committee shall be established only when it is essential to the conduct of agency business. Decision criteria include whether committee deliberations will result in the creation, elimination of, or change in, regulations, guidelines, or rules affecting agency business; whether the information to be obtained is already available through another advisory committee or source within the Federal Government; whether the committee will make recommendations resulting in significant improvements in service or reductions in cost; or whether the committee's recommendations will provide an important additional perspective or viewpoint impacting agency operations;

(b) An advisory committee shall be terminated whenever the stated objectives of the committee have been accomplished; the subject matter or work of the committee has become obsolete by the passing of time or the assumption of the committee's main functions by another entity within the Federal Government; or the agency determines that the cost of operation is excessive in relation to the benefits accruing to the Federal Government;

(c) An advisory committee shall be balanced in its membership in terms of the points of view represented and the functions to be performed; and

(d) An advisory committee shall be open to the public in its meetings except in those circumstances where a closed meeting shall be determined proper and consistent with the Act.

#### § 101–6.1003 Definitions.

"Act" means the Federal Advisory Committee Act, as amended, 5 U.S.C. App. I.

"Administrator" means the Administrator of General Services.

"Advisory Committee" subject to the Act means any committee, board, commission, council, conference, panel, task force, or other similar group established by statute, or established or utilized by the President or any agency official for the purpose of obtaining advice or recommendations on issues or policies which are within the scope of his or her responsibilities. The term "advisory committee" includes any subcommittee or subgroup of an advisory committee, except such a group that reports to the parent group and meets as described in paragraph (k) of § 101–6.1004.

"Agency" has the same meaning as in section 551(1) of Title 5 of the United States Code.

"Committee Management Secretariat" ("Secretariat"), established pursuant to the Act is responsible for all matters relating to advisory committees, and carries out the Administrator's responsibilities under the Act and Executive Order 12024.

"Committee member" means an individual who serves by appointment on an advisory committee and has the full right and obligation to participate in the activities of the committee, including voting on committee recommendations.

"Presidential advisory committee" means any advisory committee which advises the President. It may be established by the President or by the Congress, or used by the President in the interest of obtaining advice or recommendations for the President. "Independent Presidential advisory committee" means any Presidential advisory committee not assigned by the President, or the President's delegate, or by the Congress in law, to an agency for administrative and other support and for which the Administrator of General Services may provide administrative and other support on a reimbursable basis.

"Staff member" means any individual who serves in a support capacity to an advisory committee.

"Utilized" (or "used"), as referenced in the definition of "Advisory Committee" in this section, means a committee or other group composed in whole or in part of other than full-time officers or employees of the Federal Government with an established existence outside the agency seeking its advice which the President or agency official(s) adopts, such as through institutional arrangements, as a preferred source from which to obtain advice or recommendations on a specific issue or policy within the scope of his or her responsibilities in the same manner as that individual would obtain advice or recommendations from an established advisory committee.

**§ 101–6.1004 Examples of advisory meetings or groups not covered by the Act or this regulation.**

The following are examples of advisory meetings or groups not covered by the Act or this regulation:

(a) Any committee composed wholly of full-time officers or employees of the Federal Government;

(b) Any advisory committee specifically exempted by an Act of Congress;

(c) Any advisory committee established or utilized by the Central Intelligence Agency;

(d) Any advisory committee established or utilized by the Federal Reserve System;

(e) The Advisory Committee on Intergovernmental Relations;

(f) Any local civic group whose primary function is that of rendering a public service with respect to a Federal program, or any State or local committee, council, board, commission, or similar group established to advise or make recommendations to State or local officials or agencies;

(g) Any committee which is established to perform primarily operational as opposed to advisory functions, except that such committee may be covered by the Act if it becomes primarily advisory in nature. It is the responsibility of the administering agency to determine whether such a committee is primarily operational. If so, it would not fall under the requirements of the Act and this regulation, but would continue to be regulated under relevant laws, subject to the direction of the President and the review of the appropriate legislative committees;

(h) Any meeting initiated by the President or one or more Federal official(s) for the purpose of obtaining advice or recommendations from one individual;

(i) Any meeting initiated by a Federal official(s) with more than one individual for the purpose of obtaining the advice of individual attendees and not for the purpose of utilizing the group to obtain consensus advice or recommendations. However, agencies should be aware that such a group may be covered by the Act if an agency begins to accept the group's deliberations as a source of consensus advice or recommendations;

(j) Any meeting initiated by a group with the President or one or more Federal official(s) for the purpose of expressing the group's view, provided that the President or Federal official(s) does not use the group as a preferred source of advice or recommendations;

(k) Meetings of two or more advisory committee members convened to gather information or conduct research for the committee to analyze relevant issues and facts, or to draft proposed position papers for consideration by the advisory committee or a subgroup of the advisory committee; or

(l) Any meeting with a group initiated by the President or one or more Federal official(s) for the purpose of exchanging facts or information.

**§ 101–6.1005 Authorities for establishment of advisory committees.**

An advisory committee may be established in one of four ways:

(a) By the President by Executive Order;

(b) By law where the Congress specifically directs the President or an agency to establish it;

(c) By law where the Congress authorizes but does not direct the President or an agency to establish it. In this instance, an agency head shall follow the procedures provided in § 101–6.1007; or

(d) By an agency under general agency authority in Title 5 of the United States Code or under other general agency-authorizing law. In this instance, an agency head shall follow the procedures provided in § 101–6.1007.

**§ 101–6.1006 [Reserved]**

**§ 101–6.1007 Agency procedures for establishing advisory committees.**

(a) When an agency head decides that it is necessary to establish a committee, the agency must consider similar committees in the same or other agencies before submitting a consultation to GSA to ensure that no duplication of effort will occur.

(b) In establishing or utilizing an advisory committee, the head of an agency or designee shall comply with the Act and this subpart, and shall:

(1) Prepare a proposed charter for the committee which includes the information listed in section 9(c) of the Act; and

(2) Submit a letter to the Secretariat proposing to establish or use, reestablish, or renew an advisory committee. The letter shall include the following information:

(i) An explanation of why the committee is essential to the conduct of agency business and in the public interest;

(ii) An explanation of why the committee's functions cannot be performed by the agency, another existing advisory committee, or other means such as a public hearing; and

(iii) A description of the agency's plan to attain balanced membership. For purposes of obtaining balance, agencies shall consider for membership interested persons and groups with professional or personal qualifications or experience to contribute to the functions and tasks to be performed. This shall not be construed to limit the participation of any individual where such participation is necessary to obtain divergent points of view that are

relevant to the business of the advisory committee.

(3) Subcommittees that do not function independently of the parent committee need not follow the requirements of paragraphs (b)(1) and (b)(2) of this section. However, except for the subgroups that meet solely as described in paragraph (k) of § 101–6.1004, they are subject to all other requirements of the Act.

(4) The requirements of paragraphs (b)(1) and (b)(2) of this section shall apply for any subcommittee of a chartered advisory committee, whether its members are drawn in whole or in part from the parent advisory committee, which functions independently of the parent advisory committee such as by making recommendations directly to the agency rather than for consideration by the chartered advisory committee.

(c) The Secretariat will review the proposal and notify the agency of GSA's views within 15 calendar days of receipt, if possible. The agency head retains final authority for establishing a particular advisory committee.

(d) The agency shall notify the Secretariat in writing that either:

(1) The advisory committee is being established. The filing of the advisory committee charter as specified in § 101–6.1013 shall be considered appropriate written notification in this instance. The agency head shall then comply with the provisions of § 101–6.1009 for an established advisory committee; or

(2) The advisory committee is not being established. In this instance, the agency shall also advise the Secretariat if the agency head intends to take any further action with respect to the proposed advisory committee.

**§ 101–6.1008 The role of GSA.**

(a) The functions under section 7 of the Act will be performed for the Administrator by the Secretariat. The Secretariat assists the Administrator in prescribing administrative guidelines and management controls for advisory committees, and assists other agencies in implementing and interpreting these guidelines. In exercising internal controls over the management and supervision of the operations and procedures vested in each agency by section 8(b) of the Act and by §§ 101–6.1009 and 101–6.1017 of this rule, agencies shall conform to the guidelines prescribed by GSA.

(b) The Secretariat may request comments from agencies on management guidelines and policy issues of broad interagency interest or application to the Federal advisory committee program.

(c) In advance of issuing informal guidelines, nonstatutory reporting requirements, and administrative procedures such as report formats or automation, the Secretariat shall request formal or informal comments from agency Committee Management Officers.

**§ 101–6.1009 Responsibilities of an agency head for an advisory committee established under general agency authority.**

The head of each agency that uses one or more advisory committees shall ensure:

(a) Compliance with the Act and this regulation;

(b) Issuance of administrative guidelines and management controls which apply to all advisory committees established or used by the agency;

(c) Designation of a Committee Management Officer who shall carry out the functions specified in section 8(b) of the Act;

(d) Provision of a written determination stating the reasons for closing any advisory committee meeting to the public;

(e) A review, at least annually, of the need to continue each existing advisory committee, consistent with the public interest and the purpose and functions of each committee;

(f) Rates of pay are justified and levels of agency support are adequate;

(g) The appointment of a Designated Federal Officer for each advisory committee;

(h) The opportunity for reasonable public participation in advisory committee activities; and

(i) That the number of committee members is limited to the fewest necessary to accomplish committee objectives.

**§ 101–6.1010 [Reserved]**

**§ 101–6.1011 Responsibilities of the chairperson of an independent Presidential advisory committee.**

The chairperson of an independent Presidential advisory committee shall comply with the Act and this regulation and shall:

(a) Consult with the Administrator concerning the role of the Designated Federal Officer and Committee Management Officer; and

(b) Fulfill the responsibilities of an agency head as specified in paragraphs (d) and (h) of § 101–6.1009.

**§ 101–6.1012 [Reserved]**

**§ 101–6.1013 Charter filing requirements.**

No advisory committee may operate, meet, or take any action until its charter has been filed as follows:

(a) *Advisory committee established, used, reestablished, or renewed by an agency.* The agency head shall file—(1) The charter with the standing committees of the Senate and the House of Representatives having legislative jurisdiction of the agency;

(2) A copy of the charter with the Library of Congress, Exchange and Gift Division, Federal Documents Section, Federal Advisory Committee Desk, Washington, DC 20540; and

(3) A copy of the charter, along with copies of the transmittal letters to the Senate and the House and the Library of Congress, with the Secretariat.

(b) *Advisory committee specifically directed by law.* Procedures are the same as in paragraph (a) of this section.

(c) *Presidential advisory committee.* When either the President or the Congress establishes an advisory committee that advises the President, the responsible agency head or, in the case of an independent Presidential advisory committee, the President's designee, shall file—

(1) The charter with the Secretariat;

(2) A copy with the Library of Congress; and

(3) If specifically directed by law, a copy with the standing committees of the Senate and the House of Representatives having legislative jurisdiction of the agency or the independent Presidential advisory committee.

**§ 101–6.1014 [Reserved]**

**§ 101–6.1015 Advisory committee information which must be published in the Federal Register.**

(a) *Committee establishment, reestablishment, or renewal.* (1) A notice in the **Federal Register** is required when an advisory committee, except a committee directed by law or established by the President, is established, used, reestablished, or renewed. Upon receiving notification of the completed review from the Secretariat, the agency shall publish a notice in the **Federal Register** that the committee is being established, used, reestablished, or renewed. For a new committee, such notice shall also include statements describing the nature and purpose of the committee and that the committee is necessary and in the public interest.

(2) Establishment and reestablishment notices shall appear at least 15 days before the committee charter is filed, except that the Secretariat may approve less than 15 days when requested for good cause by the agency. The 15-day advance notice requirement does not apply to committee renewals, notices of

which may be published concurrently with the filing of the charter.

(b) *Committee meetings.* (1) The agency or an independent Presidential advisory committee shall publish at least 15 days prior to an advisory committee meeting a notice in the **Federal Register**, which includes:

(i) The exact name of the advisory committee as chartered;

(ii) The time, date, place, and purpose of the meeting;

(iii) A summary of the agenda; and

(iv) A statement whether all or part of the meeting is open to the public or closed, and if closed, the reasons why, citing the specific exemptions of the Government in the Sunshine Act (5 U.S.C. 552b) as the basis for closure.

(2) In exceptional circumstances, the agency or independent Presidential advisory committee may give less than 15 days notice, provided that the reasons for doing so are included in the committee meeting notice published in the **Federal Register**.

**§ 101–6.1016 [Reserved]**

**§ 101–6.1017 Responsibilities of the agency Committee Management Officer.**

In addition to implementing the provisions of section 8(b) of the Act, the Committee Management Officer will carry out all responsibilities delegated by the agency head. The Committee Management Officer should also ensure that sections 10(b), 12(a) and 13 of the Act are implemented by the agency to provide for the appropriate recordkeeping. Agency files will constitute the official advisory committee records. Records include, but are not limited to:

(a) A set of approved charters of each advisory committee.

(b) Copies of the agency's portion of the Annual Review of Federal Advisory Committees, as required in section 6(c) of the Federal Advisory Committee Act; and

(c) Agency guidelines on committee management operations and procedures as maintained and updated.

**§ 101–6.1018 [Reserved]**

**§ 101–6.1019 Duties of the Designated Federal Officer.**

The agency head, or in the case of an independent Presidential advisory committee, the Administrator, shall designate a full-time Federal employee to be the Designated Federal Officer for the advisory committee, who:

(a) Must approve or call the meeting of the advisory committee;

(b) Must approve the agenda;

(c) Must attend the meetings;

(d) Shall adjourn the meetings when such adjournment is in the public interest; and

(e) Chairs the meeting when so directed by the agency head.

(f) The requirement in paragraph (b) of this section does not apply to a Presidential advisory committee.

**§ 101–6.1020 [Reserved]**

**§ 101–6.1021 Public participation in advisory committee meetings.**

The agency head, or the chairperson of an independent Presidential advisory committee, shall ensure that—

(a) Each advisory committee meeting is held at a reasonable time and in a place reasonably accessible to the public;

(b) The meeting room size is sufficient to accommodate advisory committee members, committee or agency staff, and interested members of the public;

(c) Any member of the public is permitted to file a written statement with the advisory committee; and

(d) Any member of the public may speak at the advisory committee meeting if the agency's guidelines so permit.

**§ 101–6.1022 [Reserved]**

**§ 101–6.1023 Procedures for closing an advisory committee meeting.**

(a) To close all or part of a meeting, the committee shall submit a request to the agency head, or, in the case of an independent Presidential advisory committee, the Administrator, citing the specific provisions of the Government in the Sunshine Act (5 U.S.C. 552b) which justify the closure. The request shall provide the agency head or the Administrator sufficient time to review the matter in order to make a determination prior to publication of the meeting notice required by § 101–6.1015(b).

(b) The general counsel of the agency, or in the case of an independent Presidential advisory committee, the General Services Administration' general counsel, should review all requests to close meetings.

(c) If the agency head, or in the case of an independent Presidential advisory committee, the Administrator, agrees that the request is consistent with the Government in the Sunshine Act and Federal Advisory Committee Act, he or she shall issue a determination that all or part of the meeting be closed.

(d) The agency head, or the chairperson of an independent Presidential advisory committee, shall:

(1) Make a copy of the determination available to the public upon request; and

(2) State the reasons why all or part of the meeting is closed, citing the specified exemptions used from the Government in the Sunshine Act in the meeting notice published in the **Federal Register**.

**§ 101–6.1024 [Reserved]**

**§ 101–6.1025 Requirement for maintaining minutes of advisory committee meetings.**

The agency head, or, in the case of an independent Presidential advisory committee, the chairperson, shall ensure that detailed minutes of each advisory committee meeting are kept. The minutes must include:

(a) Time, date, and place;

(b) A list of the following persons who were present:

(1) Advisory committee members and staff;

(2) Agency employees; and

(3) Members of the public who presented oral or written statements;

(c) An estimated number of other members of the public present;

(d) An accurate description of each matter discussed and the resolution, if any, made by the committee of such matter; and

(e) Copies of each report or other document received or issued by the committee.

**§ 101–6.1026 [Reserved]**

**§ 101–6–6.1027 Termination of advisory committees.**

Any advisory committee shall automatically terminate not later than 2 years after it is established, reestablished, or renewed, unless:

(a) Its duration is otherwise provided for by law;

(b) The President or agency head renews it prior to the end of such period; or

(c) The President or agency head terminates it before that time.

**§ 101–6.1028 [Reserved]**

**§ 101–6.1029 Renewal of advisory committees.**

(a) Advisory committees specifically directed by law:

(1) Whose duration extends beyond 2 years shall require a new charter to be filed every 2 years after the date of enactment of the law establishing the committee. If a new charter is not filed, the committee is not terminated, but may not meet or take any action.

(2) Which would terminate under the provisions of section 14 of the Act, and for which renewal would require reauthorization by law, may be reestablished by an agency provided that the agency complies under general

agency authority with the provisions of § 101–6.1007.

(b) Advisory committees established by the President may be renewed by appropriate action of the President and the filing of a new charter.

(c) Advisory committees authorized by law or established or used by an agency may be renewed, provided that at least 30 but not more than 60 days before the committee terminates, an agency head who intends to renew a committee complies with the provisons of § 101–6.1007.

**§ 101–6.1030 [Reserved]**

**§ 101–6.1031 Amendments to advisory committee charters.**

(a) *Committees specifically directed by law or established by the President.* When the Congress by law, or the President by Exective Order, changes the authorizing language which has been the basis for establishing an advisory committee, the agency head or chairperson of an independent Presidental advisory committee shall:

(1) Amend those sections of the current charter affected by the new law or Executive Order; and

(2) File the amended charter as specified in § 101–6.1013.

(b) *Committees established or used by an agency.* The charter of an advisory committee established under general agency authority may be amended when an agency head determines that the existing charter no longer accurately reflects the objectives or functions of the committee. Changes may be minor, such as revising the name of the advisory committee, or modifying the estimated number of frequency of meetings. Changes may also be major such as those dealing with the objectives or composition of the committee. Amending any existing advisory committee charter does not constitute renewal of the committee under § 101–6.1029.

(1) To make a minor amendment to a committee charter, an agency shall:

(i) Amend the charter language as necessary, and

(ii) File the amended charter as specified in § 101–6.1013.

(2) To make a major amendment to a committee charter, and agency shall:

(i) Amend the charter language as necessary,

(ii) Submit the proposed amended charter with a letter to the Secretariat requesting GSA's views on the amended language, along with an explanation of the purpose of the changes and why they are necessary. The Secretariat will review the proposed changes and notify the agency of GSA's views within 15 calendar days of the request, if possible; and

(iii) File the amended charter as specified in § 101–6.1013.

**§ 101–6.1032 [Reserved]**

**§ 101–6.1033 Compensation and expense reimbursement of advisory committee members and staff.**

(a) *Uniform pay guidelines for members of an advisory committee.* Nothing in this rule shall require agency heads to provide compensation, unless otherwise provided by law, to members of advisory committees. However, when compensation is deemed appropriate by an agency, it shall fix the pay of the members of an advisory committee to the daily equivalent of a rate of the General Schedule in 5 U.S.C. 5332 unless the members are appointed as consultants and compensated under 5 U.S.C. 3109. In determining an appropriate rate of pay for the members, an agency shall give consideration to the significance, scope, the technical complexity of the matters with which the advisory committee is concerned and the qualifications required of the members of the advisory committee. An agency may not fix the pay of the members of an advisory committee at a rate higher than the daily equivalent of the maximum rate for a GS–15 under the General Schedule, unless a higher rate is mandated by statute, or the head of the agency has personally determined that a higher rate of pay under the General Schedule is justified and necessary. Such a determination must be reviewed by the head of the agency annually. Under this rule, an agency may not fix the pay of an advisory committee member at a rate of pay higher than the daily equivalent of a rate for a GS–18, as provided in 5 U.S.C. 5332.

(b) *Pay for consultants to an advisory committee.* An agency shall fix the pay of a consultant to an advisory committee after giving consideration to the qualifications required of the consultant and the significance, scope, and technical complexity of the work. The compensation may not exceed the maximum rate of pay authorized by 5 U.S.C. 3109, and shall be in accordance with any applicable statutes, regulations, Executive Orders and administrative guidelines

(c) *Pay for staff members of advisory committee.* An agency may fix the pay of each advisory committee staff member at a rate of the General Schedule in which the Staff member's position would appropriately be placed (5 U.S.C. Chapter 51). An agency may not fix the pay of a staff member at the rate higher than the daily equivalent of the maximum rate for GS–15, unless the agency head has determined that under the General Schedule the staff member's position would appropriately be placed at a grade higher than GS–15. This determination must be reviewed annually by the agency head.

(1) In establishing rates of compensation, the agency head shall comply with any applicable statutes, regulations, Executive Orders, and administrative guidelines.

(2) A staff member who is a Federal employee shall serve with the knowledge of the Designated Federal Officer and the approval of the employee's direct supervisor. If a non-Federal employee, the staff members shall be appointed in accordance with applicable agency procedures, following consultation with the advisory committee.

(d) *Gratuitous services.* In the absence of any special limitations applicable to a specific agency, nothing in this regulation shall prevent an agency from accepting the gratuitous services of a committee member, consultant or a staff member who agrees in advance to serve without compensation.

(e) *Travel expenses.* Advisory committee members and staff members, while engaged in the performance of their duties away from their homes or regular places of business, may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of Title 5, United State Code, for persons employed intermittently in the Government service.

(f) *Services for handicapped members.* While performing advisory committee duties, an advisory committee member who is blind or deaf or who qualifies as a handicapped individual may be provided services by a personal assistant for handicapped employees if the member:

(1) Qualifies as a handicapped individual as defined by section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 794); and

(2) Does not otherwise qualify for assistance under 5 U.S.C. 3102 by reason of being an employee of an agency.

(g) *Exclusions.* (1) Nothing is this section prevents any person who (without regard to his or her service with an advisory committee) is a full-time Federal employee from receiving compensation at a rate at which he or she otherwise would be compensated as a full-time Federal employee.

(2) Nothing in this section prevents any person who immediately before his or her service with an advisory committee was a full-time Federal

employee from receiving compensation at the rate at which he or she was compensated as a full-time Federal employee.

(3) Nothing in this section affects a rate of pay or a limitation on a rate of pay that is specifically established by law or a rate of pay established under the General Schedule classification and pay system in Chapter 51 and Chapter 53 of Title 5, United States Code.

§ 101–6.1034 [Reserved]

§ 101–6.1035 Reports required for advisory committees.

(a) Within one year after a Presidential advisory committee has submitted a public report to the President, the President or his delegate will prepare a follow-up report to the Congress detailing the disposition of the committee's recommendations in accordance with section 6(d) of the Act;

(b) The President's annual report to the Congress shall be prepared by GSA based on reports filed on a fiscal year basis by each agency consistent with the information specified in section 6(c) of the Act. Reports from agencies shall be consistent with instructions provided annually by the Secretariat.

(c) In accordance with section 10(d) of the Act, advisory committees holding closed meetings shall issue reports at least annually, setting forth a summary of activities consistent with the policy of section 552(b) of Title 5, United States Code.

(d) Subject to the section 552 of Title 5, United States Code, eight copies of each report made by advisory committees and, where appropriate, background papers prepared by consultants, shall be filed with the Library of Congress for public inspection and use.

Dated: May 13, 1987.

# Department of Education

## Experimental and Innovative Training Program, Fiscal Year 1987; Proposed Funding Priorities and Invitation to Apply for New Awards; Notices

DEPARTMENT OF EDUCATION

Office of Special Education and Rehabilitative Services

## Experimental and Innovative Training Program; Proposed Funding Priorities

**AGENCY:** Department of Education.

**ACTION:** Notice of proposed funding priorities for fiscal year 1987.

**SUMMARY:** The Secretary proposes annual funding priorities for training grants under the Experimental and Innovative Training Program in order to ensure effective use of program funds and to direct funds to areas of identified personnel need during fiscal year 1987. The Secretary will give an absolute preference to applications that meet terms of the proposed priorities.

**DATE:** Comments must be received on or before June 18, 1987.

**ADDRESS:** All written comments and suggestions should be sent to Ed Sontag, Office of Developmental Programs, Rehabilitation Services Administration, Department of Education, 400 Maryland Avenue, SW., (Switzer Building, Room 3042—M/S 2312), Washington, DC 20202.

**FOR FURTHER INFORMATION CONTACT:** Toby Lawrence, Office of Developmental Programs, Rehabilitation Services Administration. Telephone: (202) 732–1351.

**SUPPLEMENTARY INFORMATION:** Grants for the Experimental and Innovative Training Program are authorized by Title III, section 304 of the Rehabilitation Act of 1973, as amended. Program regulations for the Experimental and Innovative Training Program are established at 34 CFR Part 387. The purpose of the Experimental and Innovative Training Program is to support projects designed to develop new types of rehabilitation personnel and to demonstrate the effectiveness of these new types of personnel in providing rehabilitation services to severely disabled persons and to develop new and improved methods of training rehabilitation personnel to achieve more effective delivery of rehabilitation services by State and other rehabilitation agencies.

### Eligible Applicants

Awards are made under this program to State vocational rehabilitation agencies and other public or nonprofit agencies and organizations, including institutions of higher education.

### Funds Available

The Congress appropriated $29,550,000 for the Rehabilitation Training Program in fiscal year 1987. Of this amount, approximately $800,000 to $1,200,000 will be available for the support of new experimental and innovative training projects announced under this notice. An estimated eight to twelve projects will be funded at an average project award of $100,000, with four to six project awards in the area of learning-disabilities, and four to six project awards in the area of traumatic brain-injury.

### Proposed Priorities

In accordance with the Education Department General Administrative Regulations (EDGAR) at 34 CFR 75.105(c)(3), the Secretary proposes to give an absolute preference to applications submitted under the Experimental and Innovative Training Program that address the priorities described below. An absolute preference is one which permits the Secretary to select only those applications that meet the described priorities.

*Priority 1*

The training under this priority must address the training of rehabilitation counselors and supervisors of rehabilitation counselors in State vocational rehabilitation agencies. The training must upgrade their knowledge and improve their skills: (1) To use diagnostic and evaluative techniques in identifying learning-disabled adults and determining the severity of their disabilities; (2) to interpret diagnostic, psychological, and educational background information and relate such information to the functional capacities of, and any proposed vocational planning for, learning-disabled adults; (3) to determine and substantiate the eligibility of learning-disabled adults to receive services; and (4) to plan effective rehabilitation programs for, and deliver rehabilitation services to, learning-disabled adults. The training must emphasize improving the capacity of these personnel to develop linkages between providers of special education and vocational rehabilitation services and enhance coordination and transition among service providers. The training must include technical assistance to Rehabilitation Continuing Education Programs to increase their capacity to train employed personnel to provide improved rehabilitation services to learning-disabled individuals. Program regulations for the Rehabilitation Continuing Education Programs are established at 34 CFR Part 389. Such technical assistance is intended to ensure the integration and replication of training supported under this priority by Rehabilitation Continuing Education Programs. In addition, written training materials and visual aids must be developed and made available to Rehabilitation Continuing Education Programs for their use in training rehabilitation personnel to provide effective services to learning-disabled adults.

*Priority 2*

The training under this priority must address the training of rehabilitation counselors and supervisors of rehabilitation counselors in State vocational rehabilitation agencies to provide effective rehabilitation services to traumatically brain-injured adults. The training must improve their skills: (1) To determine and substantiate the eligibility of traumatically brain-injured adults to receive rehabilitation services; (2) to evaluate the functional capacities of traumatically brain-injured adults; (3) to plan effective vocational and independent living rehabilitation programs for, and deliver vocational and independent living rehabilitation programs to, traumatically brain-injured adults; (4) to coordinate community resources in the rehabilitation plan to address their needs; and (5) to develop jobs for and place traumatically brain-injured adults in employment. The training must include technical assistance to Rehabilitation Continuing Education Programs in providing rehabilitation services to traumatically brain-injured adults. Such technical assistance is intended to ensure the integration and replication of training supported under this priority by Rehabilitation Continuing Education Programs. In addition, written training materials and visual aids must be developed and made available to Rehabilitation Continuing Education Programs for their use in training rehabilitation personnel to provide effective rehabilitation services to traumatically brain-injured adults.

A separate competition will be conducted for the two priorities described above. Each application must respond to only one of the priorities.

### Invitation to Comment

Interested persons are invited to submit comments and recommendations regarding the proposed priorities. Written comments and recommendations may be sent to the address given at the beginning of this document. All comments received on or before the 30th day after publication of this document will be considered before the Secretary issues the final priorities. All comments submitted in response to

these proposed priorities will be available for public inspection, during and after the comment period, in Room 3042, Mary E. Switzer Building, 330 C Street, SW., Washington, DC, between the hours of 8:30 a.m. and 4:00 p.m. (Washington, DC time) Monday through Friday of each week except Federal holidays.

## Invitation for Applications for New Awards Under the Experimental and Innovative Training Program for Fiscal Year 1987

*Purpose:* To provide grants to State vocational rehabilitation agencies and other public and private agencies and organizations, including institutions of higher education, for the purpose of: (1) Developing new types of rehabilitation personnel and demonstrating the effectiveness of these new types of rehabilitation personnel; and (2) developing new and improved methods of training rehabilitation personnel to achieve more effective delivery of rehabilitation services by State and other rehabilitation agencies.

*Deadline for Transmittal of Applications:* June 30, 1987.

*Applications Available:* May 19, 1987.

*Project Period:* Not to exceed 36 months.

*Applicable Regulations:* (a) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77 and 78); (b) regulations governing the Experimental and Innovative Training Program (34 CFR Parts 385 and 387); and (c) when adopted in final form, the Notice of Proposed Priorities published in this issue of the Federal Register. Applicants should prepare their applications based on the proposed priorities. If there are any changes made when the final priorities are published, applicants will be given an opportunity to amend or resubmit their applications.

*Priorities:* As described in the Notice of Proposed Priorities, the Secretary proposes to establish the following priorities for fiscal year 1987. The Secretary intends to give an absolute preference to applications that meet these priorities. Each application must respond to only one of the priorities.

| Priority | Estimated available funds | Estimated number of awards |
|---|---|---|
| Learning-Disabled | $400,000 to $600,000 | 4 to 6. |
| Traumatically Brain-Injured. | $400,000 to $600,000 | 4 to 6. |

*For Applications or Information Contact:* Mary Vest, Office of Developmental Programs, Rehabilitation Services Administration, U.S. Department of Education, 400 Maryland Avenue, SW. (Switzer Building, Room 3332-M/S 2312), Washington, DC 20202, Telephone: (202) 732-1343.

**Program Authority:** 29 U.S.C. 774.

Dated: May 13, 1987.

**Extension of Closing Dates; Transmittal of Applications for New Awards Under the Program of Special Projects and Demonstrations for Providing Supported Employment Services to Severely Disabled Individuals and Providing Transitional Planning Services; Youths With Severe Handicaps for Fiscal Year 1987; Notices**

## DEPARTMENT OF EDUCATION

[CFDA No. 84.128A]

### Extending the Closing Date for Transmittal of Applications for New Awards Under the Program of Special Projects and Demonstrations for Providing Transitional Planning Services to Youths with Severe Handicaps for Fiscal Year 1987

*Deadline for Transmittal of Applications:* The closing date for applications is extended from June 10, 1987 to June 24, 1987.

On April 10, 1987, three different Notices were published that established the closing dates for transmittal of applications for fiscal year 1987 competitions under the Program of Special Projects and Demonstrations for Providing Transmittal Planning Services to Youths with Severe Handicaps (52 FR 11729). Detailed information concerning this program is included in those Notices. The purpose of this Notice is to extend the closing date for transmittal of applications due to a delay in the availability of the application packages.

*For Applications of Further Information Contact:* Mary Vest, Office of Developmental Programs, Rehabilitation Services Administration, U.S. Department of Education, 400 Maryland Avenue, SW., Room 3332, (Switzer Building, M/S–2312), Washington, DC 20202. Telephone: 732–1343.

Program Authority: 29 U.S.C. 777a(e).

Dated: May 13, 1987.

# Department of Education

**Invitation for Application for Fiscal Year 1987 and Establishment of Closing Date for Transmittal for New Awards Under the Educational Media Research, Production, Distribution, and Training Program; Proposed Annual Funding Priority Notices**

## DEPARTMENT OF EDUCATION

### Office of Special Education and Rehabilitative Services; Educational Media Research, Production, Distribution, and Training Program

**AGENCY:** Department of Education.

**ACTION:** Notice of proposed annual funding priority.

**SUMMARY:** The Secretary proposes an annual funding priority under the Educational Media Research, Production, Distribution, and Training Program. This priority supports a single project to design and manufacture a Line 21 decoder which will be less expensive than the present decoder. The Line 21 decoder permits captions of television programs to be displayed on television sets equipped with these decoders. The project should result in reduced equipment costs for persons purchasing decoders. In addition, the present stock of decoders will eventually be depleted and new decoders will be needed to ensure a continuing supply.

**DATE:** Comments must be received on or before June 18, 1987.

**ADDRESS:** Comments should be addressed to Dr. Malcolm J. Norwood, Division of Educational Services, Office of Special Education Programs, Department of Education, 400 Maryland Avenue, SW. (Switzer Building, Room 4088–M/S 2313), Washington, DC 20202.

**FOR FURTHER INFORMATION CONTACT:** Dr. Malcolm J. Norwood. Telephone: (202) 732–1177.

**SUPPLEMENTARY INFORMATION:** The Educational Media Research, Production, Distribution, and Training Program, authorized by sections 651 and 652 of Part F of the Education of the Handicapped Act (EHA), supports the educational advancement of persons with handicaps by providing assistance for: (a) Conducting research in the use of educational media and technology for persons with handicaps; (b) production and distribution of educational media for the use of persons with handicaps, their parents, their actual or potential employers, and other persons directly involved in work for the advancement of person with handicaps; and (c) training person in the use of educational media for the instruction of persons with handicaps.

In 1972 the Federal Government, through the former Office of Education, initiated the development of the closed-captioned television Line 21 system whch allows the broadcast signal to transmit captions (subtitles) visible only on television sets equipped with decoders. This system makes television accessible to the nation's population with hearing impairments.

The system was implemented in March, 1980, and has resulted in cooperative efforts between the public and private sectors to provide closed-captioned television to Americans with hearing impairments. All major networks are making closed-captioned programs available. Federal funding supports approximately 40% of the current level of captioning programming, the networks support approximately 30%, and corporate advertisers, foundations, and individual contributions account for the remaining 30%.

The Congress has appropriated funds annually which have been used to provide support for closed-captioning. Federal funds have been used also to assist in the design and manufacture of Line 21 decoders in order to reduce the cost of decoders to persons with hearing impairments. The Secretary now proposes a priority to design a Line 21 decoder which is lower in cost than the existing unit and which will be effective in overcoming problems that have resulted from recent changes in broadcast and video technology. The Federal government will subsidize the manufacture of at least 50,000 of the new decoders.

### Proposed Priority

In accordance with Education Department General Administrative Regulations (EDGAR) as 34 CFR 75.105(c)(3), the Secretary propose to give an absolute preference to applications submitted under this priority of the Educational Media Research, Production, Distribution, and Training Program in 1987 that respond to the priority described below.

*The Design and Manufacture of a Less Expensive Line 21 Decoder*

This proposed priority will support a cooperative agreement with an organization that has the technical expertise and knowledge to design, produce, and distribute a decoder that is less expensive than existing decoders. The applicant must submit a plan for the design of a new decoder and subsequent production and distribution of at least 50,000 Line 21 decoders as part of the application. The plan must provide evidence of commitment from one or more manufacturers and retailers to assure production and sale of the units. The plan must contain a timeline for testing the new decoder for function and effectiveness in overcoming problems that have resulted from recent changes in broadcast and video technology, a timeline for production, and an estimated retail price for the assembled units to be marketed to consumers with hearing impairments. The estimated retail price must be lower than the retail price for existing units. The plan shall also provide assurances that at least 50,000 Line 21 decoders will be marketed to consumers. Existing decoders have been sold at prices ranging from $179.99 to $199.99.

### Intergovernmental Review

This program is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR Part 79. The objective of the Executive Order is to foster an intergovernmental partnership and a strengthened Federalism by relying on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

In accordance with the Order, this document provides early notification of the Department's specific plans and actions for this program.

### Invitation to Comment

Interested persons are invited to submit comments and recommendations regarding this proposed priority. All comments submitted in response to this priority will be available for public inspection, during and after the comment period in Room 4088, Switzer Building, 330 C Street, SW., Washington, DC, between the hours of 8:30 a.m. and 4:00 p.m., Monday through Friday of each week except Federal holidays.

## Inviting Applications for New Awards Under the Educational Media Research, Production, Distribution, and Training Program for Fiscal Year 1987

*Purpose:* To support a single project to design and manufacture and distribute a Line 21 decoder which will be effective in overcoming problems that have resulted from recent changes in broadcast and video technology and is lower in cost than the existing unit. The project will ensure a continuing supply of these devices to the Nation's

population of persons with hearing impairments.

*Deadline for Transmittal of Applications:* July 7, 1987.

*Deadline for Intergovernmental Review:* September 7, 1987.

*Applications Available:* May 27, 1987.

*Estimated Size of Awards:* $2,000,000.

*Estimated Number of Awards:* 1.

*Project Period:* 3 years.

*Application Regulations:* (a) The Educational Media Research, Production, and Training Regulations, 34 CFR Part 332; (b) the Education Department General Administrative Regulations, 34 CFR Parts 74, 75, 77, 78, and 79; and (c) when adopted in final form, the Annual Funding Priority for this program. A notice of proposed annual funding priority is published in this issue of the Federal Register. Applicants should prepare their applications based on the proposed priority. If there are any changes when the final annual funding priority is published, applicants will be given the opportunity to amend or resubmit their applications.

For Applications or Information Contact: Dr. Malcolm J. Norwood, Telephone: (202) 732-1177, Office of Special Education Programs, Department of Education, 400 Maryland Avenue, SW. (Switzer Building, Room 3094-M/S 2313), Washington, DC 20202.

**Program Authority:** 20 U.S.C. 1451(a)(2), 1452(b)(5).

Dated: May 14, 1987.

# Department of the Interior

**Office of Surface Mining Reclamation and Enforcement**

**30 CFR Part 762**

## Surface Coal Mining and Reclamation Operations; Permanent Regulatory Program; Areas Unsuitable for Mining; Definitions of Fragile Lands and Historic Lands; Final Rule

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 762

Surface Coal Mining and Reclamation Operations; Permanent Regulatory Program; Areas Unsuitable for Mining; Definitions of Fragile Lands and Historic Lands

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSMRE) is amending its permanent program rule that defines "fragile lands" and "historic lands," two types of lands that may be found unsuitable for certain types of surface coal mining operations. Both of these definitions, which apply throughout the lands unsuitable petition process, are being changed to eliminate the requirement of a finding of irreparable damage. These changes are being made in response to a settlement agreement resulting from litigation. In addition, the definition of fragile lands is being changed to remove buffer zones adjacent to areas where mining is prohibited, as an example of fragile lands, in response to comments on the proposed rule.

EFFECTIVE DATE: June 18, 1987.

ADDRESS: Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior, 1951 Constitution Avenue, NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Annetta Cheek, 202–343–7951 (commercial or FTS).

SUPPLEMENTARY INFORMATION:

I. Background
II. Public Comments on Proposed Rule and Responses to Comments
III. Procedural Matters

## I. Background

The Surface Mining Control and Reclamation Act of 1977 (SMCRA), 30 U.S.C. 1201 *et seq.*, sets forth the general regulatory requirements governing surface coal mining and reclamation operations and the surface impacts of underground coal mining. Section 522 of SMCRA, 30 U.S.C. 1272, establishes a process through which surface coal mining operations may be prohibited or limited under certain circumstances. Section 522(a)(3) establishes four categories of surface areas that may be determined unsuitable for certain types of surface coal mining operations, and specifies the criteria for making that determination for each category. Fragile or historic lands are included in one of these categories.

In 1979, OSMRE established performance standards under 30 CFR Chapter VII of its permanent regulatory program in order to implement SMCRA. The rules at 30 CFR 762.5 defined fragile and historic lands; 30 CFR 762.11 established criteria under which lands could be designated unsuitable for surface coal mining operations.

On September 14, 1983 (48 FR 41312), the Secretary of the Interior promulgated rules amending OSMRE's permanent regulatory program. Among other things, those rules revised the definitions of "fragile lands" and "historic lands" in § 762.5 by incorporating an irreparable damage standard. The effect of the change was to require a petitioner to show that lands would suffer irreparable damage or be destroyed before they would be considered fragile or historic.

The September 14, 1983, rules were challenged in Round III of *In re: Permanent Surface Mining Regulation Litigation II*, No. 79–1144 (D.D.C. 1984). On December 3, 1984, the district court issued an order approving an agreement between the Plaintiff Citizen and Environmental Organizations and the Defendant Secretary of the Interior. The order withdrew from the litigation an issue concerning the definitions of "fragile lands" and "historic lands."

Under the terms of the agreement, the Secretary suspended portions of the definitions of "fragile lands" and "historic lands" in §762.5 by a **Federal Register** notice published on January 3, 1985 (50 FR 257). The notice also stated that to implement the agreement OSMRE would propose a rule to amend the fragile lands and historic lands definitions to require only a finding of significant damage, in contrast to the 1983 rule which required a finding of irreparable damage or destruction.

On July 25, 1985, (50 FR 30408), OSMRE proposed rulemaking to further implement the settlement agreement. In that notice, OSMRE solicited public comments and made provision to hold public hearings upon request. Comments were received from industry, government agencies, and environmental groups during the 70-day comment period. No public hearings were requested, and none were held.

On December 10, 1986 (51 FR 44484), OSMRE reopened the comment period in order to analyze more fully the request of commenters on the proposed rule that the phrase "buffer zones adjacent to the boundaries of areas where surface coal mining operations are prohibited under section 552(e) of SMCRA and Part 761 of this chapter, if those areas have characteristics requiring additional areal protection or if the buffer zone itself contains fragile resources" be removed from the list of examples in the definition of fragile lands. Comments were received from industry and one government agency during the 60-day comment period. No public hearings were requested, and none were held.

## II. Public Comments on Proposed Rule and Response to Comments

This rule defines "fragile lands" and "historic lands," two types of lands that may be found unsuitable for certain types of surface coal mining operations. Both of these definitions, which apply throughout the lands unsuitable petition process, are being changed to eliminate the requirement of a finding of irreparable damage. In addition, the definition of fragile lands is being changed to remove buffer zones adjacent to areas where mining is prohibited under section 522(e) of SMCRA and Part 761 of this chapter as an example of fragile lands.

Fragile lands are defined by this rule to include such areas as valuable habitats for fish or wildlife, critical habitats for endangered or threatened species of animals or plants, uncommon geologic formations, paleontological sites, National Natural Landmarks, areas where mining may result in flooding, environmental corridors containing a concentration of ecologic and esthetic features, and areas of recreational value due to high environmental quality.

Historic lands are defined by this rule to mean areas containing historic, cultural, or scientific resources. Examples of historic lands include archeological sites, properties listed on or eligible for listing on a State or National Register of Historic Places, National Historic Landmarks, properties having religious or cultural significance to Native Americans or religious groups, and properties for which historic designation is pending.

OSMRE is also moving the example of paleontological lands, previously included as a type of historic land, to the definition of fragile lands. Additionally, a minor wording change, from historic "sites" to historic "property" is being made. Finally, OSMRE is removing the concept of "significant damage" from the definition of historic lands.

Twenty-two comments were received on the proposed rule. Of these, 13 came from industry or from groups representing industry, 6 came from Federal agencies, 1 came from an

environmental organization, and 2 came from a State historic preservation officer.

The comments raised several major issues and a number of minor ones. A discussion of these comments and OSMRE's responses follow:

*1. Inclusion of the Concept of "Important" Resources in the Definition*

A number of commenters suggested that the proposed definitions of "fragile lands" and "historic lands" were vague, and that OSMRE erred in not including in them the concept of "important" resources. As OSMRE has noted previously in responding to comments on earlier versions of this rule (44 FR 14998, March 13, 1979), qualifiers addressing the importance of fragile and historic lands are included in the *criteria* for finding such lands to be unsuitable for surface coal mining operations, i.e. in 30 CFR 762.11. The definitions provide guidance on what types of resources are fragile or historic, not the criteria for designating lands as unsuitable. Section 522(a)(3)(B) of SMCRA authorizes the protection of fragile or historic lands in which surface coal mining operations could result in significant damage to important resources. Thus, it is more consistent with SMCRA to address the issue of importance in the rules specifying the criteria for determining lands unsuitable than in these definitions. For these reasons, OSMRE has not included the concept of importance in the final rule defining fragile and historic lands.

*2. Inclusion of the Concept of Damage to the Resources as Part of the Definition of Fragile and Historic Lands*

A number of commenters noted that it was illogical to include a concept of damage as part of the *definition* of fragile and historic lands. The suggestion was made that it was more appropriate to reserve such considerations for the section of the rules dealing with the criteria for finding lands unsuitable for mining.

The regulations promulgated in 1979 (44 FR 15344, March 13, 1979) included the concept of damage from surface coal mining operations in the definition of fragile lands, but not in the definition of historic lands. Revisions in 1983 (48 FR 41351, September 14, 1983) introduced the concept that both fragile and historic lands were those which could be damaged beyond an operator's ability to repair or restore, or be destroyed by surface coal mining operations. This language was suspended under the terms of the settlement agreement resulting from *In Re: Permanent Surface Mining Regulation Litigation II*, discussed above. The proposed rule included the concept of significant damage in the definitions of both fragile and historic lands.

OSMRE agrees in part that it is confusing to include the issue of degree of damage in both of the definitions. On the one hand, the status of historic lands does not depend on their potential for incurring significant damage. Therefore, this final rule does not include the criterion of significant damage in the definition of historic lands.

On the other hand, however, OSMRE believes that the concept of damage is critical to the definitions of fragile lands; the term "fragile" itself implies that the lands in question are delicate and subject to damage from surface coal mining activities. Therefore, OSMRE has retained the language concerning significant damage in the definition of fragile lands.

*3. Inclusion of Terms "Important Resources" and "Significant Damage"*

A number of commenters noted that the terms "important resources" and "significant damage" were not defined in the rules, either in the definitions at § 762.5 or in the discussion of unsuitability criteria at 30 CFR 762.11. They proposed that these terms be further defined in one or the other section of the rules.

OSMRE does not believe that it is appropriate to include such guidance in a rule that will apply to all State programs. Rather, it is a matter for the individual regulatory authorities to determine what specific resources are important and what degree of damage is significant. Adoption of specific definitions for these terms is likely to generate needless controversy in an already settled process. The concepts of significant damage and important resources have been used in the unsuitability petition process since 1970 without regulatory definitions for these terms. The process has worked reasonably well and no need has been demonstrated for national definitions of these concepts.

*4. Buffer Zones*

Buffer zones that provide additional protection to areas where surface coal mining operations are prohibited under section 522(e) of SMCRA and 30 CFR Part 761, and buffer zones that themselves contain fragile resources, were cited as examples of fragile lands in the proposed definition of "fragile lands." Several commenters questioned the legitimacy of such buffer zones, claiming that they were not authorized if not specifically required under section 522(e). Contrary to what these commenters claim, however, the buffer zone concept is authorized by SMCRA. It was upheld by court decision in *In Re: Permanent Surface Mining Regulation Litigation II*, No 79-1144 (D.D.C., July 15, 1985). This concept is based on section 522(a)(3) of SMCRA, which states that an area may be designated unsuitable for surface coal mining operations which "will * * * affect fragile lands" that contain specified "important" resources that could be significantly damaged by such operations. Thus, operations may be prohibited in a buffer zone to protect important resources that could be damaged on adjacent fragile lands. Areas on which mining is prohibited under section 522(e) also can be fragile lands which may require such protection.

Other commenters stated that buffer zones were unnecessary and inappropriate examples of "fragile lands." OSMRE agrees. Although buffer zones may be found unsuitable for mining to protect important resources of fragile lands, including those in section 522(e) prohibited areas, buffer zones which do not themselves contain important resources are inappropriate examples of "fragile lands" because they do not meet the terms of the definition. Furthermore, where a buffer zone itself contains important fragile resources, its status are "fragile lands" is independent of its status as a buffer zone. Thus, an example which singles out such buffer zones for protection is unnecessary. Accordingly, all reference to buffer zones has been deleted from the rule.

Other commenters wondered why the proposed rule provided buffer zones around fragile lands, but not around historic lands. As explained previously, the final rule does not include buffer zones as examples of either fragile lands or historic lands. Nevertheless, buffer zones around historic lands may be appropriate for the same reasons as given in the previous discussion of fragile lands.

*5. Paleontological Sites*

Several commenters suggested that it is more appropriate to include paleontological sites under the definition of fragile lands, rather than historic lands. OSMRE agrees, and has moved this language accordingly. This change will have no effect on the protection afforded such lands under these rules.

*6. Historic Property Terminology*

Several commenters noted that the use of the term "historic sites" was inconsistent with common usage and

with other Department of the Interior regulations. OSMRE agrees, and has changed the term historic "sites" too historic "properties."

*7. Inclusiveness of the Term "Historic Lands"*

Several commenters questioned inclusion of properties "for which historic designation is pending" and "properties eligible for, but not listed on, the National Register of Historic Places" as historic lands. This issue was addressed by the district court in *In Re: Permanent Surface Mining Regulation Litigation II,* No. 79–1144 (D.D.C., July 15, 1985). The court agreed that the Secretary acted within his authority in including such properties under the definition of historic lands. The court noted that it is not unreasonable to protect lands which are in the process of possibly being declared historic. To do otherwise would run the risk of damaging lands before such a determination could be made. Therefore, OSMRE intends to retain these examples within the definition of historic lands. This does not mean that such properties *must* be considered unsuitable for mining under section 522(a)(3) of SMCRA. Rather, it gives regulatory authorities the discretion to do so.

*8. Inclusion of Scientific Resources as Both Fragile and Historic Lands*

One commenter questioned why scientific resources were included under both definitions. Such resources are included since both types of lands may contain properties important for the scientific information they can provide, such as geologic formations and archeological sites.

*9. Probability of Historic Properties*

One commenter suggested that the definition of historic lands be expanded to include areas *likely* to contain historic properties, even though the occurrence of such properties cannot be demonstrated. OSMRE believes that it would be confusing to introduce such a concept into the definition of historic lands. The discretion to consider such areas as historic is best left to the individual regulatory authoritites, to be considered on a case-by-case basis.

*10. Scenic Values*

Two commenters suggested that scenic values be addressed specifically in the definition of fragile lands. This change is not necessary because scenic values could be protected as esthetic resources under one of the examples in the final definition of fragile lands. For this reason, OSMRE is retaining the proposed language.

*11. Inclusion of Flooding in the Definition of Fragile Lands*

One commenter suggested that the inclusion of "areas where mining may result in flooding" in the definition of fragile lands exceeded OSMRE's mandate. The commenter suggested that if the phrase were not deleted it should at least be modified to clarify that not all flooded lands would be protected, but only those which were fragile. OSMRE believes it is reasonable to include areas susceptible to flooding within the definition of fragile lands. Furthermore, it would be confusing to use the term "fragile lands" within one of the examples of the fragile lands definition. Therefore, OSMRE has retained the proposed language in the final rule. However, it should be clear that all lands which may be flooded are not automatically fragile. Rather, a regulatory authority would have to consider the nature of the resources within an area which might be flooded and whether they could be significantly damaged as a result of surface coal mining operations. Finally, a regulatory authority would have to apply the criteria in §§ 762.11 and 762.12 before determining that an area was unsuitable for mining.

*12. Scope of Definitions*

Several commenters suggested that the list of examples of fragile and/or historic lands was too broad or included redundant items. Language suggested by the commenters focused on adding qualifiers to the definitions that would limit their scope. OSMRE believes that these commenters have failed to differentiate between these definitions and the criteria by which the regulatory authority determines whether an area such be designated unsuitable, as found in 30 CFR 762.11. OSMRE believes that the examples in the definitions provided useful guidance for regulatory authorities who must apply them to specific situations. The examples are meant to provide guidance on what general types of resources can be considered fragile or historic lands, not a list of areas which can or should automatically be designated unsuitable. The district court in *In Re: Permanent Surface Mining Regulation Litigation II,* No. 79–1144 (D.D.C., July 15, 1985), found that the Secretary is not restricted to words used in SMCRA or the legislative history because to do so would mean that the definitions could only mirror the statute. The court found that the examples were helpful to users of the regulations, and were not all-inclusive, but were intended to assist States, petitioners and operators in interpreting SMCRA.

*13. Promulgation of Rules in Response to Court Decision*

One commenter objected to OSMRE promulgating rules based on a court decision, without giving industry an opportunity to participate in the process. The availability of the proposed rule for public comment and the opportunity to request a public hearing has provided ample opportunity for any interested individual or group to participate in the regulatory process.

*14. Coverage of Privately Owned Lands*

One commenter objected to the fact that privately owned, as well as publicly owned, lands were covered by the proposed rule.

SMCRA clearly was intended to regulate surface coal mining operations on private lands, and therefore OSMRE is obliged to cover privately owned lands in this rule.

*15. Deletion of Terms "Irreparable or Permanent Damage"*

One commenter objected to the change from the terms "irreparable or permanent damage" to "significant" damage. This change is consistent with section 522(a)(3) of SMCRA which uses the concept of significant damage. Damage does not have to be permanent or irreparable in every instance to be significant. Finally, the rule is consistent with the order of the district court in *In Re: Permanent Surface Mining Regulation Litigation II,* (D.D.C., December 3, 1984).

*16. Regulation of Other Industries*

One commenter noted that other industries are not required to consider historic or fragile lands. OSMRE is required to implement SMCRA, which includes provisions for the protection of such lands.

## III. Procedural Matters

*Federal Paperwork Reduction Act*

This rule contains no information collection requirements requiring approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

*Executive Order 12291 and Regulatory Flexibility Act*

The Department of the Interior has determined that this document is not a major rule under E.O. 12291 and certifies that it will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The

rule does not distinguish between small and large entities, and will make no change in the threshold for determining whether to grant a petition designating an area as unsuitable for surface coal mining operations because the lands are fragile or historic in nature. No incremental economic effects are anticipated as a result of the rule.

*National Environmental Policy Act*

OSMRE has prepared an environmental assessment (EA) on this final rule and has made a finding that it would not have a significant impact on the quality of the human environmental under section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C). The EA and the finding of no significant impact are on file in the OSMRE Administrative Record at the Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior, 1100 L St. NW., Room 5131, Washington, DC 20240.

**Author**

The author of this final rule is Annetta L. Cheek, Division of Permit and Environmental Analysis, Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior, 1951 Constitution Avenue NW., Washington, DC 20240. Telephone: 202–343–7951.

**List of Subjects in 30 CFR Part 762**

Historic preservation, Surface mining, Underground mining, Wildlife refuges.

For the reasons set out in this preamble, 30 CFR Part 762 is amended as set forth below.

Dated: April 28, 1987.

**J. Steven Griles,**

*Assistant Secretary for Land and Minerals Management.*

## PART 762—CRITERIA FOR DESIGNATING AREAS AS UNSUITABLE FOR SURFACE COAL MINING OPERATIONS

1. The authority citation for Part 762 is required to read as follows:

**Authority:** Pub. L. 95–87 (30 U.S.C. 1201 *et seq.*).

2. In § 762.5, the definitions of "fragile lands" and "historic lands" are revised to read as follows:

**§ 762.5 Definitions.**

For purposes of this part:

*Fragile lands* means areas containing natural, ecologic, scientific, or esthetic resources that could be significantly damaged by surface coal mining operations. Examples of fragile lands include valuable habitats for fish or wildlife, critical habitats for endangered or threatened species of animals or plants, uncommon geologic formations, paleontological sites, National Natural Landmarks, areas where mining may result in flooding, environmental corridors containing a concentration of ecologic and esthetic features, and areas of recreational value due to high environmental quality.

*Historic lands* means areas containing historic, cultural, or scientific resources. Examples of historic lands include archeological sites, properties listed on or eligible for listing on a State or National Register of Historic Places, National Historic Landmarks, properties having religious or cultural significance to Native Americans or religious groups, and properties for which historic designation is pending.

# Department of Defense

Department of the Army

## Privacy Act of 1974; Amendments to Systems of Records; Notice

## DEPARTMENT OF DEFENSE

### Department of the Army

### Privacy Act of 1974; Amendments to Systems of Records Notice

**AGENCY:** Department of the Army, DOD.

**ACTION:** Notice of amendments to systems of records.

**SUMMARY:** The Army proposes to amend forty eight notices for systems of records subject to the Privacy Act of 1974. The specific changes to the notices being amended are set forth below followed by the system notices, as amended, published in their entirety.

**DATE:** This proposed action will be effective without further notice on June 18, 1987, unless comments are received which would result in a contrary determination.

**ADDRESS:** Send comments to the system manager identified in the system notice.

**FOR FURTHER INFORMATION CONTACT:** Mr. Cliff Jones, AS–OPS–RI, Room 1138, Hoffman Building I, Alexandria, VA 22331–0301. Telephone: (202) 325–6044, Autovon 221–6044.

**SUPPLEMENTARY INFORMATION:** The Army's systems of records notices inventory to the Privacy Act of 1974 (5 U.S.C. 552a), as amended, have been published to date in the **Federal Register** as follows:

FR Doc. 85–10237 (50 FR 22060) May 29, 1985 (Compilation)
FR Doc. 86–14667 (51 FR 23576) June 30, 1986
FR Doc. 86–19534 (51 FR 30900) August 29, 1986
FR Doc. 86–25274 (51 FR 40479) November 7, 1986
FR Doc. 87–8140 (52 FR 11847) April 13, 1987

The proposed amendment is not within the purview of the provisions of 5 U.S.C. 552(o) which requires the submission of an altered system report.

Linda M. Lawson,

*Alternate OSD Federal Register Liaison Officer, Department of Defense.*

May 14, 1987.

## AMENDMENTS

### A0102.03DAAG

*System Name:*

Personnel Locator/Organizational Roster/Telephone Directory, 50 FR 22111, May 29, 1985.

*Changes:*

Line 1 change "A0102.03DAAG" to "A0102.03DAIM".

*System Location:*

Lines 9, 10, and 11 change "Official mailing addresses are in the organizational directory in the appendix to Army system notices (48 FR 25773, June 1983)" to "Official mailing addresses are contained in the compilation of the Army's system notices".

**Authority for Maintenance of the System:**

Line 25 add "E.O. 9397".

*Routine Uses of Records Maintained in the System, Including Categories of Users and the Purpose of Such Uses:*

Lines 32 and 33 change "See blanket routine uses at 48 FR 25503, June 6, 1983" to "See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices".

*Storage:*

Line 39 add "or other computer media".

*Retrievability:*

Lines 40 and 41 change "By individual's surname" to "By individual's surname and SSN".

Lines 74 and 75 change "*Systems exempted from certain provisions of the Act*" to "*Exemptions claimed for the system*".

### A0305.03aDACA

*System Name:*

Travel Payment System, 50 FR 22119, May 29, 1985.

*Changes:*

**Authority for Maintenance of the System:**

Line 21 add "E.O. 9397".

*Retrievability:*

Lines 44 and 45 change "By individual's surname and/or SSN." to "By individual's SSN".

Line 68 and 75 change to read "Records of travel payments are retained for 3 years following settlement at installation making current payments. Military member's record of outstanding advance payments is transferred to new servicing finance office upon permanent change of station or to the U.S. Army Finance and Accounting Center upon death or separation from active duty. Civilian employee's record of outstanding advance payments is transferred to new servicing finance office upon reassignment. Military and civilian records of travel payments for settled travel claims are destroyed by the old duty station 3 years following separation or transfer. Records for individuals performing invitational travel are destroyed 1 year from date of final payment.

*System Manager(s) and Address:*

Lines 77 and 78 change "Comptroller of the Army, The Pentagon, Washington, DC 20310." to "Comptroller of the Army, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310."

*Notification Procedure:*

Lines 86 and 87 change "ATTN: FINCR, Indianapolis, IN 46249." to "ATTN: DACA–FAZ–S, Indianapolis, IN 46249–0526.

Lines 106 and 107 change "*Systems exempted from certain provisions of the Act*" to "*Exemptions claimed for the system*".

### A0305.10bDACA

*System Name:*

Joint Uniform Military Pay System-Reserve Components-Army, 50 FR 22121 May 29, 1985.

*Changes:*

**Authority for Maintenance of the System:**

Line 19 change "et seq." to "*et. seq*" and add "E.O. 9397".

*Routine Uses of Records Maintained in the System, Including Categories of Users and the Purpose of Such Uses:*

Lines 51 and 52 "(7) Disclosure to consumer reporting agencies."

*Notification Procedure:*

Line 102 change "of San Francisco, CA." to "of San Francisco, CA; Ft. McCoy, WI; Ft. Douglas, UT."

Lines 127 an 128 change "*Systems exempted from certain provisions of the Act*" to "*Exemptions claimed for the system*".

### A0305.10dDACA

*System Name:*

Health Professions Scholarship Program, 50 FR 22123, May 29, 1985.

*Changes:*

*System Location:*

Line 5 change "Denver, CO 80240." to "Aurora, CO 80045–5001."

*Authority for Maintenance of the System:*

Line 31 add "E.O. 9397".

*Notification Procedure:*

Line 80 change "Denver, CO 80240" to "Aurora, CO 80045–5001".

Lines 101 an 102 change "*Systems exempted from certain provisions of the Act*" to "*Exemptions claimed for the system*".

**A0305.11DAPE**

*System Name:*

USMA Cadet Account System, 50 FR 22124, May 29, 1985.

*Changes:*

*System Name:*

Lines 1 and 2 change "USMA Cadet Pay and Accounts System" to "USMA Cadet Account System".

*System Location:*

Line 4 change "10996" to "10996–1783".

*Categories of Records in the System:*

Lines 9 through 14 change to read: Monthly deposit listings of Corps of Cadet members showing entitlements and activity pertaining to funds held in trust by the USMA Treasurer.

*Authority for Maintenance of the System:*

Line 19 add "E.O. 9397".

*Purpose(s):*

Lines 20 through 28 change to read: To compute deposits and charges to cadet account to include: Barber, laundry/dry cleaning charges; advance pay, and funds deposited with Treasurer, USMA to be held in trust to pay for required uniforms, books, and equipment.

*Routine Uses of Records Maintained in the System, Including Categories of Users and the Purposes of Such Uses:*

Lines 32 through 56 change to read:

(1) Treasurer, USMA: To record and provide taxable interest data to individual cadet and Internal Revenue Service. To control and monitor charges/credits to the cadet account. To record deposits to the cadet account and to maintain records of financial institutions for direct deposit purposes.

(2) Disclosure to consumer reporting agencies: Disclosure pursuant to 5 U.S.C. 552a(b) may be made from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

*Retrievability:*

Line 62 change "By Cadet number" to "By Cadet account number".

*Retention and Disposal:*

Lines 70 through 80 change to read: Duplicate account statements are retained locally for one year after cadets graduation and then destroyed by shredding. Information in automated media is retained for one thru three months, except that annual interest tapes are retained for one year before being erased.

*System Manager(s) and Address:*

Line 83 Change "10996" to "10996–1738".

*Notification Procedure:*

Lines 84 through 91 change to read: Requests from individuals may be submitted to the U.S. Military Academy, Treasurer, West Point, NY 10996–1783; telephone 914/938–3516. Individual should provide full name, Cadet account number, SSN, graduating class year, current address and telephone number, and signature.

*Record Access Procedures:*

Lines 96 and 97 change "Finance and Accounting Officer," to "Treasurer,".

Lines 111 and 112 change "*Systems exempted from certain provisions of the Act*" to "*Exemptions claimed for the system*".

**A0306.01DACA**

*System Name:*

Civilian Employee Pay System, 50 FR 22124, May 29, 1985.

*Changes:*

*Authority for Maintenance of the System:*

Line 33 add "E.O. 9397".

*Routine Uses of Records Maintained in the System, Including Categories of Users and the Purposes of Such Uses:*

Line 62 change "Consumer reporting agencies" to " 'consumer reporting agencies' ".

*Retention and Disposal:*

Line 86 change "pay" to "retirement".

*Notification Procedure:*

Line 124 change "Accounting Offices," to "Accounting Offices worldwide,"

Lines 145 and 146 change "*System exempted from certain provisions of the Act*" to "*Exemptions claimed for the system*".

**A0306.20DACA**

*System Name:*

Military and Civilian Waiver Files, 50 FR 22126, May 29, 1985.

*Changes:*

*Categories of Individuals covered by the system:*

Line 10 change "of pay and allowances." to "of pay and allowances, travel, transportation, and relocation allowances."

*Authority for Maintenance of the System:*

Line 19 add "E.O. 9397".

*Retention and Disposal:*

Lines 36 and 39 change "Records are retained until waiver is approved/denied." to "Records are retained for 6 years after waiver is approved/denied."

Lines 62 and 63 change "*Systems exempted from certain provisions of the Act*" to "*Exemptions claimed for the system*".

**A0314.08DACA**

*System Name:*

Nonappropriated Fund Accounts Receivable System, 50 FR 22128, May 29, 1985.

*Changes:*

*Routine Uses of Records Maintained in the System, Including Categories of Users and the Purposes of Such Uses:*

Lines 54 and 55 change "at 48 FR 25503, June 6, 1983" to "set forth at the beginning of the Army's listing of record system notices".

Line 56 and 57 delete "(2) Disclosure to consumer reporting agencies."

Line 58 change "(3)" to "(2)".

*System Manager(s) and Address:*

Lines 79, 80, and 81 change "Commander, US Army Finance and Accounting Center, Indianapolis, IN 46249" to "Assistant Comptroller of the Army for Finance and Accounting, ATTN: DACA–FAP–N, STOP 66, Indianapolis, IN 46249–1056".

Lines 101 and 102 change "*Systems exempted from certain provisions of the Act*" to "*Exemptions claimed for the system*".

**A0408.01DAJA**

*System Name:*

U.S. Army Claims Service Management Information System, 50 FR 22136, May 29, 1985.

*Changes:*

*System Location:*

Lines 4, 5, and 6 change "US Army Claims Service, Office of The Judge Advocate General, Ft Meade, MD 20755–5360" to "JACS–Z, Ft Meade, MD 20755–5360".

*Authority for Maintenance of the System:*

Line 30 add "E.O. 9397".

Lines 130 and 131 change "*Systems exempted from certain provisions of the Act*" to "*Exemptions claimed for the system*".

A0708.03cDAPC

*System Name:*

Officer Personnel Management Information System (OPMIS), 50 FR 22185, May 29, 1985.

*Changes:*

*Categories of Records in the System:*

Change lines 16 through 96 to read:

(1) Officer Master File (OMF) contains name, SSN, grade and date to rank, appointment and service agreement, service data and date, promotion, assignment, qualifications, specialties, efficiency, education and training, occupation, language, career pattern, awards and badges, physical location, separation, retirement, date and place of birth, race, religion, ethnic group dependents, sex, citizenship, marital status, and mailing address.

(2) Management Accession Information System (AMIS) contains selected information for the OMF, date of entry on active duty, personal demographic data, and assignment information.

(3) Assignments and Training Selection for ROTC graduates contains selected information from the OMF, the cadet's preference statement for specialty (branch), duty and initial training; Reserve Forces duty or delay selection, Regular Army selection, and branch selection.

(4) Officer Evaluation Reporting System (OERS) contains selected information from the OMF; selection board status; OER suspense indicator for action being taken to obtain missing or erroneous OER; selected information for each of the last ten OERs; and the name, SSN, and rating history of each individual, military and civilian, who

has served as the senior rating official for an active duty Army officer.

(5) Officer Distribution and Assignment System (ODAS) contains selected information from the OMF, projected assignment information for officers and warrant officers who are being reassigned.

(6) Reserve Officer Training Corps (ROTC) Instructor File contains selected information from the OMF and the following information pertaining to ROTC instructors: ROTC detachment, duty station, date assigned to ROTC detachment, date projected to be reassigned.

(7) Officer Civil Schools Management Information System (CSMIS) contains the following selected information from the OMF and the following information concerning officer and warrant officer personnel participating or who have participated in the Army sponsored degree completion program: school attended, start and completion dates, degree level and discipline, and Army Education Requirements Board (AERB) positions.

(8) Army Education Requirements Board (AERB) File contains selected information from the OMF for officer and warrant officer personnel who are serving or are projected to serve in an AERB approved position requiring graduate level education.

(9) USMA Potential Instructor File contains selected information from the OMF and the following information pertaining to previous, current, and potential instructors for the United States Military Academy (USMA) teaching staff: academic department and projected availability for USMA instructor duty.

*Authority for Maintenance of the System:*

Line 99 add "E.O. 9397".

*Policies and Practices for Storing, Retrieving, Accessing, Retaining, and Disposing of Records in the System:*

*Retention and Disposal:*

Line 146 change "OASIS" to "AMIS".

Lines 187 and 188 change "*Systems exempted from certain provisions of the Act*" to "*Exemptions claimed for the system*".

**A0708.05DAPC**

*System Name:*

Emergency Data Files, 50 FR 22187, May 29, 1985.

*Changes:*

Lines 105 and 106 change "*Systems exempted from certain provisions of the Act* to "*Exemptions claimed for the system*":

A0102.03DAIM

SYSTEM NAME:

Personnel Locator/Organizational Roster/Telephone Directory.

SYSTEM LOCATION:

Segments are maintained by offices and/or Army telephone switchboards at Headquarters, Department of the Army, Staff and field operating agencies, commands, installations and activities. Official mailing addresses are contained in the compilation of the Army's system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military personnel, civilian employees, and in some instances their dependents.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records include cards or listings/compilations of individual's name, Social Security Number, unit of assignment and/or home address, unit and/or home telephone number, and related information. Military alert rosters, organizational telephone directories, and listings of office personnel are included in this system.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., section 3012; E.O. 9397.

PURPOSE(S):

To provide commanders and supervisors with emergency notification data, and operators and other users with locator data.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of records system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, card files, loose-leaf and bound notebooks; magnetic tape/discs or other computer media.

RETRIEVABILITY:

By individual's surname and SSN.

SAFEGUARDS:

Records are maintained in file cabinets, locked desk, or rooms accessible only to authorized personnel having official need therefor.

RETENTION AND DISPOSAL:

Individual records are destroyed upon transfer or separation of individual; rosters are destroyed upon update.

SYSTEM MANAGER(S) AND ADDRESS:

Commander or supervisor of organization maintaining locator or directory.

NOTIFICATION PROCEDURE:

Information may be obtained from commander or supervisor of organization to which individual is/was assigned or employed.

RECORD ACCESS PROCEDURES:

Requests should be made as indicated under 'Notification procedure'. Individual should provide full name, and some detail such as organization of assignment, that can be verified, except that, in cases where individual has provided written consent to release of home address/telephone number to the general public no identification is required.

CONTESTING RECORD PROCEDURES:

The Army's rules of access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; official Army records.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0305.05aDACA

SYSTEM NAME:

Travel Payment System.

SYSTEM LOCATION:

Decentralized to Finance and Accounting Offices world-wide; addresses may be obtained from the System Manager.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Miliary and civilian personnel of the Department of Defense, U.S. Army, U.S. Navy, and U.S. Air Force, and other individuals who perform invitational travel for the Army.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual travel vouchers and documents used to effect travel allowance payments.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Department of Defense Annual Appropriations Act; 5 U.S.C., sections 5701–5742; 10 U.S.C., sections 828, 832, 946, 3012; 28 U.S.C., section 1821; 37 U.S.C., sections 404–427; E.O. 9397.

PURPOSE(S):

To provide basis for reimbursing military and civilian personnel for expenses incident to travel for official Government business purposes and to account for such payments.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices. Disclosure pursuant to 5 U.S.C. 552a(b)(12) may be made from this system to 'consumer reporting agencies' as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, cards, magnetic tape/disks, cassettes, computer printouts.

RETRIEVABILITY:

By individual's SSN.

SAFEGUARDS:

Records are accessible only to authorized persons who are properly screened, cleared and trained. Buildings employ security guards and/or military police patrols. Access to automated files is controlled by assigned passwords.

RETENTION AND DISPOSAL:

Individual vouchers and documents used for payment are retained at the installation making payment until end of month, following which they are sent to U.S. Army Finance and Accounting Center.

Signature cards used for approval of certain vouchers are retained at installation where payments are made until 3 years after date of revocation of authority, following which they are destroyed.

Records of travel payments are retained for 3 years following settlement at installation making current payments. Military member's record of outstanding advance payments is transferred to new servicing finance office upon permanent change of station or to the U.S. Army Finance and Accounting Center upon death or separation form active duty. Civilian employee's record of outstanding advance payments is transferred to new servicing finance office upon reassignment. Military and civilian records of travel payments for settled travel claims are destroyed by the old duty station 3 years following separation or transfer. Records for individuals performing invitational travel are destroyed 1 year from date of final payment.

SYSTEM MANAGER(S) AND ADDRESS:

Comptroller of the Army, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Individuals desiring information on them from this system should inquire of the Finance and Accounting Office who currently pays them. For periods of Army service prior to current assignment, request should be addressed to the Commander, U.S. Army Finance and Accounting Center, ATTN: DACA–FAZ–S, Indianapolis, IN 46249–0528. Individual must provide full name and Social Security Number as well as current address.

RECORD ACCESS PROCEDURE:

Individuals desiring access to records pertaining to them should write either to the appropriate Finance and Accounting Officer where record is believed to exist or to the Commander, U.S. Army Finance and Accounting Center providing information required by 'Notification procedure'.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, Department of Defenses staff agencies and field commands/installations.

EXEMPTIONS CLAIMED FOR THE SYSTEM

None

A0305.10bDACA

SYSTEM NAME:

Joint Uniform Military Pay System-Reserve Components—Army.

SYSTEM LOCATION:

Centralized at U.S. Army Finance and Accounting Center, Indianapolis, IN 46249. Decentralized segments exist at Army Finance and Accounting Offices worldwide.

**CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:**

All members of the U.S. Army National Guard and U.S. Army Reserve who are drawing inactive duty training pay.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Individual military pay records, substantiating documents, transmittal letters, index cards, financial data record folders, miscellaneous military pay vouchers, personal financial history records.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

37 U.S.C., section 101 *et. seq;* E.O. 9397.

**PURPOSE(S):**

To maintain a record of member's drill attendance, entitlements and deductions in order to compute and disburse his/her pay while keeping a record of taxes and disbursements other than those to the member.

**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

Information from this system may be disclosed to:

(1) Treasury Department: To record check issue data, taxable earnings and taxes withheld.

(2) Individual States of the U.S.: To furnish wages earned for the calendar year; these data are furnished to the state of home record.

(3) Army National Guard Bureau: To furnish budget data to account for every expenditure within categories established.

(4) Individual National Guard States Associations: To furnish a report and an associated check regarding state sponsored life insurance premium withheld.

(5) American Red Cross: To assist military personnel and their dependents in determining the status of monthly pay, dependents allotments, loans, and related financial transactions.

(6) Disclosures pursuant to 5 U.S.C. 552a(b)(12) may be made from this system to 'consumer reporting agencies' as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

(7) See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Paper records in file folders and bulk storage; cards, computer magnetic tape and paper printouts, microfiche.

**RETRIEVABILITY:**

By SSN, name of the member, and document number.

**SAFEGUARDS:**

The U.S. Army Finance and Accounting Center employs security guards. An employee badge and visitor registration system is in use. Records are maintained in areas accessible only to authorized personnel who are properly screened, cleared, and trained. Access to computer magnetic tape files is restricted to the members' servicing finance and accounting officer. Computer equipment and files are located in a separate secure area. Within finance and accounting offices Army-wide, access is limited to designated personnel having official need for the information in the performance of their duties.

**RETENTION AND DISPOSAL:**

Individual military pay records are converted to microfiche which are retained for 56 years. Other records are retained for varying periods but total retention does not exceed 56 years; disposition is to Federal records centers; destruction thereafter is by burning or shredding.

**SYSTEM MANAGER(S) AND ADDRESS:**

Commander, U.S. Army Finance and Accounting Center, Indianapolis, IN 46249.

**NOTIFICATION PROCEDURE:**

Information may be obtained from the System Manager. Individuals may also contact U.S. Property and Fiscal Officer, Army National Guard of each state and/or the District of Columbia, Puerto Rico, and the Virgin Islands. Individual may also contact the Finance and Accounting Officer at Ft Indiantown Gap, PA; Ft McPherson, GA; Ft Riley, KS; Presidio of San Francisco, CA; Ft McCoy, WI; Ft Douglas, UT. These Finance and Accounting Officers are responsible for U.S. Army Reserve pay accounts only. Individuals must provide full name, SSN, and military status.

**RECORD ACCESS PROCEDURES:**

Requests should be addressed to the Commander, U.S. Army Finance and Accounting Center, ATTN: FINCP, Indianapolis, IN 46249 or telephoned to 317/542–2891 and should contain the information indicated in 'Notification procedure'.

**CONTESTING RECORD PROCEDURES:**

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

**RECORD SOURCE CATEGORIES:**

The source of all data to establish and maintain JUMPS–RC–Army originates at unit level; i.e., all units of U.S. Army National Guard and U.S. Army Reserve which perform inactive duty training and whose members receive drill pay as a result of this training furnish the data to support the system.

**EXEMPTIONS CLAIMED FOR THE SYSTEM:**

None.

**A0305.10dDACA**

**SYSTEM NAME:**

Health Professions Scholarship Program.

**SYSTEM LOCATION:**

Fitzsimons Army Medical Center, Aurora, CO 80045–5001. A segment of this system exists at the Army Medical Department Personnel Support Agency, 1900 Half Street SW., Washington, DC 20324.

**CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:**

Members of the U.S. Army Reserve who are enrolled in the Army-Health Professions Scholarship Program.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Contract between the Army and the University participating in the Health Professions Scholarship Program: tuition payments; individual's military pay records, cost data worksheets, active duty military pay vouchers, personal financial history records, monthly payroll listings of current members showing entitlements and deductions, bank identification data for deposit of pay, member's permanent home address, current mailing address and telephone number, orders to active duty, student's elective to defer entry on active duty, and similar relevant documents.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

10 U.S.C., Chapter 104, *et seq.:* Pub. L. 94–426; E.O. 9397.

**PURPOSE(S):**

To establish the pay account of students accepted into the Health Professions Scholarship Program; to

determine appropriate pay, deductions, reimbursable expense, taxes and disbursements.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be discussed to:

(1) Department of the Treasury: to record check issue data, taxable earnings and taxes withheld.

(2) States and cities/counties which have an agreement with the Department of the Army: to verify tax liability against member's state and city/county tax returns.

(3) Social Security Administration: to record earned wages by member under the Federal Insurance Contributions Act.

(4) See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders: Magnetic tapes; computer printouts; microfilm; ledger cards.

RETRIEVABILITY:

By member's name, SSN. Conventional indexing is used to retrieve data.

SAFEGUARDS:

Information is accessible only to authorized personnel having official need therefor. Records are stored in secured buildings protected by Military Police/security guards.

RETENTION AND DISPOSAL:

Individual pay records are retained at the Finance and Accounts Office, Fitzsimons Army Medical Center while reservist is enrolled in the Health Professions Scholarship Program. Upon completion of program, member's records are forwarded to U.S. Army Finance and Accounting Center, Indianapolis, IN 46249 for recoupment determination.

SYSTEM MANAGER(S) AND ADDRESS:

The Surgeon General, Headquarters, Department of the Army, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the Finance and Accounting Officer, Fitzsimons Army Medical Center, Aurora, CO 80045-5001 so long as reservist is enrolled in the Scholarship Program. Thereafter, information may be obtained from the Commander, Army Medical Department Personnel Support Agency, Washington, DC 20324.

RECORD ACCESS PROCEDURES:

Individuals desiring access to records concerning themselves in this system of records may write as indicated under 'Notification procedure', providing his/her full name, present address and telephone number, and sufficient detail to locate the record.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; university/college in which student is enrolled; Army records and reports.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0395.11DAPE

SYSTEM NAME:

USMA Cadet Account System.

SYSTEM LOCATION:

U.S. Military Academy, West Point, NY 10996-1783.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of the U.S. Corps of Cadets, U.S. Military Academy.

CATEGORIES OF RECORDS IN THE SYSTEM:

Monthly deposit listings of Corps of Cadets members showing entitlements and activity pertaining to funds held in trust by the USMA Treasurer.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., Sections 205, 4340 and 4350; Title 6, General Accounting Office Policy and Procedures Manual for Guidance of Federal Agencies; E.O. 9397.

PURPOSE(S):

To compute deposits and charges to cadet account to include: Barber, laundry/dry cleaning charges; advance pay, and funds deposited with Treasurer, USMA to be held in trust to pay for required uniforms, books, and equipment.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) Treasurer, USMA: To record and provide taxable interest data to individual cadet and Internal Revenue Service. To control and monitor charges/credits to the cadet account. To record deposits to the cadet account and to maintain records of financial institutions for direct deposit purposes.

(2) Disclosure to consumer reporting agencies: Disclosure pursuant to 5 U.S.C. 552a(b)(12) may be made from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

(3) See "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape and computer printout; paper records in file folders.

RETRIEVABILITY:

By Cadet account number.

SAFEGUARDS:

Records are maintained in buildings which are secured and patrolled and are accessible only to personnel who have need therefor in the performance of official duties. Automated master data and back-up files are further protected by assignment of passwords.

RETENTION AND DISPOSAL:

Duplicate account statements are retained locally for one year after cadets graduation and then destroyed by shredding. Information in automated media is retained for one thru three months, except that annual interest tapes are retained for one year before being erased.

SYSTEM MANAGER(S) AND ADDRESS:

Superintendent, U.S. Military Academy, West Point, NY 10996-1738.

NOTIFICATION PROCEDURE:

Requests from individuals may be submitted to the U.S. Military Academy, Treasurer, West Point, NY 10996-1783; telephone 914/938-3516. Individual should provide full name, Cadet account number, SSN, graduating class year, current address and telephone number, and signature.

RECORD ACCESS PROCEDURES:

Individual may request access by writing to the System Manager, furnishing information indicated in "Notification procedure". Personal visits may be made to the Treasurer, U.S. Military Academy; individual must provide acceptable identification such as valid driver's license and information that can be verified with his/her payroll.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and

appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, Department of Army, Department of the Treasury, financial institutions and insurance companies.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0306.01DACA

SYSTEM NAME:

Civilian Employee Pay System.

SYSTEM LOCATION:

U.S. Army Finance and Accounting Offices worldwide and U.S. Property and Fiscal Offices in the United States, Puerto Rico, Virgin, Islands, and the District of Columbia having civilian payroll responsibilities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Civilian employees and contract teachers employed by the Department of the Army; Office, Secretary of Defense; and specified elements of the Navy and Air Force.

CATEGORIES OF RECORDS IN THE SYSTEM:

Employees' pay, leave, and retirement records; individual withholding/deduction authorization for dependents, allotments, health benefits, savings bonds, etc.; tax exemption certificates; personal exception and indebtedness papers; statements of charges, claims, repatriated payment files; roster of authorized timekeepers and signature cards; payroll and retirement control and working paper files; unemployment compensation data requests; reports of retirement fund deductions; management narrative and statistical reports relating to pay, leave, and retirement.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 6, General Accounting Office Policy and Procedures Manual for Guidance of Federal Agencies; E.O. 9397.

PURPOSE(S):

To provide basis for computing civilian pay entitlements; to record history of pay transactions; to record leave accrued and taken, bonds due and issued, taxes paid; to answer inquiries and process claims.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to:

(1) Treasury Department: To record checks and bonds issued.

(2) Social Security Administration: to report earned wages by employees under the Federal Insurance Contributions Act.

(3) Internal Revenue Service: To record taxable earnings and taxes withheld.

(4) Office of Personnel Management: To record monies paid into Federal Retirement Fund and to provide information pertaining to health benefits.

(5) States and Cities. To provide taxable earnings of employees to those states and cities which have entered into an agreement with the Department of the Army and the Treasury Department.

(6) Disclosures pursuant to 5 U.S.C. 552a(b)(12) may be made from this system to "consumer reporting agencies" as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

(7) See "Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and bulk storage; card files, computer magnetic tapes, disks, and printouts, and microfilm.

RETRIEVABILITY:

Automated records are retrieved by SSN within payroll block; manual records are retrieved by surname within payroll block.

SAFEGUARDS:

Records are restricted to personnel who are properly cleared and trained, and have an official need therefor. In addition, integrity of automated data is ensured by internal audit procedures, data base access accounting reports, and controls to preclude unauthorized disclosure.

RETENTION AND DISPOSAL:

Individual retirement record files are permanent; they are retained at installation while member is actively employed. They are forwarded to new installation when member is transferred to another Army activity. When employee transfers to another agency under the Department of Defense not serviced by Army or separates from Federal Service, record is forwarded to the Office of Personnel Management. Microfilm of manually maintained individual retirement records is sent to the National Personnel Records Center after 3 years.

Personnel exceptions and indebtedness files are permanent. These documents are filed in individual's Official Personnel Folder (OPF). Upon separation or transfer, if OPF is not on file locally, records are forwarded to National Personnel Records Center, General Services Administration, St. Louis, MO 63118.

Repatriated personnel payment files are permanent; forwarded to National Personnel Records Center after 3 years.

Subsistence and quarters rate deviation files are permanent; they are retired on discontinuance of the installation.

Retention periods vary for other records according to category of record. The minimum retention period is 2 years and the maximum period is 12 years, after which records are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Comptroller of the Army, Headquarters, Department of the Army, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager, U.S. Army Finance and Accounting Offices worldwide or, if National Guard Technician, from the National Guard Bureau, 5600 Columbia Pike, Falls Church, VA 22041, or from U.S. Property and Fiscal Offices.

RECORD ACCESS PROCEDURES:

Requests for access should be addressed as indicated in "Notification procedure", and should include individual's full name, SSN, current address, and signature.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, former employers, DOD Staff agencies and field commands, Social Security Administration, Treasury Department, financial organizations, and automated systems interface.

EXCEPTIONS CLAIMED FOR THE SYSTEM:

None.

A0306.20DACA

SYSTEM NAME:

Military and Civilian Waiver Files.

SYSTEM LOCATION:

U.S. Army Finance and Accounting Center, Indianapolis, IN 46249.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and former Army members or civilian employees who apply for waiver of claims arising out of erroneous payments of pay and allowances, travel, transportation, and relocation allowances.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains application, employment history, reports of investigation, copies of vouchers, certificates, record of disposition, and correspondence with the U.S. General Accounting Office, Army staff offices, and other government agencies.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., section 3012; E.O. 9397.

PURPOSE(S):

To determine the validity of waivers or to make referrals to the U.S. General Accounting Office.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

By individual's surname.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel having official need therefor, within buildings which employ security guards.

RETENTION AND DISPOSAL:

Records are retained for 6 years after waiver is approved/denied.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Finance and Accounting Center, Indianapolis, IN 46249.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager, ATTN: Chief, Claims/ Inquiries Division, telephone: 317–542–2793.

RECORD ACCESS PROCEDURES:

Individuals desiring access to information about themselves in this system of records should write to the System Manager, ATTN: Chief, Claims/ Inquiries Division, Centralized Pay Operations, providing their full name, SSN, current address, and signature.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; Army Finance and Accounting Offices; and other Government agencies.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0314.09DACA

SYSTEM NAME:

Nonappropriated Fund Accounts Receivable System.

SYSTEM LOCATION:

Nonappropriated fund activities at Army installations worldwide.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and past members of Officer or Noncommissioned Officer Club facilities whose accounts show balances other than zero; persons using Post billeting facilities on a fee paid basis (bachelor officer quarters, visitor officer quarters and guesthouse facilities) and persons no longer using such facilities whose accounts have other than zero balances; any individual having a statement of account for the billing period, individuals occupying government housing at any military installation; individual class B telephone subscribers; members, customers or civilians having 30 day credit terms for "charge" sales and/or dues obligations to NAF activities; all persons whose accounts have been dishonored by banking institutions and their checks returned to NAF activities; individuals who have cash loans charged to their accounts.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, SSN, rank, amount of charges, billings of items or services furnished, subsidiary ledgers containing detail of services billed and paid by individual; work order forms, invoice listings, monthly receipt vouchers, date and method of payment, file of billings associated with returned/dishonored checks, and relevant similar documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C. 66; 10 U.S.C. 2481 and 3012; 5 U.S.C. 5101; Pub. L. 210, section 401; Pub. L. 784, section 113.

PURPOSE(S):

To maintain current rosters as subsidiary records for accounts receivable and cash accountability control; to provide monthly statements to customers; to provide ledger balances for activity financial statements; to prepare aged listing of accounts receivable, 30, 60, and 90 days; to answer inquires of members on account status and specific transactions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) See "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

(2) Disclosure pursuant to 5 U.S.C. 552a(b)(12) may be made from this system to "consumer reporting agencies" as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes and/or discs by account in numerical and alphabetical order; computer hard copy printouts filed in binders; copies of statements filed in folders.

RETRIEVABILITY:

By customer name and SSN.

SAFEGUARDS:

Records are maintained in lock-type cabinets within storage areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Destroyed after 3 years following audit with no exceptions or irregularities disclosed.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Comptroller of the Army for Finance and Accounting, ATTN: DACA–FAP–N, STOP 66, Indianapolis, IN 46249–1056.

NOTIFICATION PROCEDURE:

Individuals may submit written request to the custodian of nonappropriated fund activities at the installation where record is believed to exist.

**RECORD ACCESS PROCEDURE:**

Individuals desiring access to records pertaining to them in this system should write to the appropriate fund activity custodian, furnishing full name, SSN, and account number.

**CONTESTING RECORD PROCEDURES:**

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

**RECORD SOURCE CATEGORIES:**

From daily transaction registers/ journals received from billeting officers, signal officers, and/or club officers.

**EXEMPTIONS CLAIMED FOR THE SYSTEM:**

None.

**A0403.01DAJA**

**SYSTEM NAME:**

U.S. Army Claims Service Management Information System.

**SYSTEM LOCATION:**

JACS–Z, Ft Meade, MD 20755–5360. Segments exist at subordinate field operating agencies and at Staff Judge Advocate Offices at Army installations throughout the world.

**CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:**

Individuals, corporations, associations, countries, states, territories, political subdivisions presenting a claim against the United States.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Name of claimant, claim file number, type of claim presented, reports of investigation, witness statements, police reports, photographs, diagrams, bills, estimates, expert opinions, medical records and similar reports, copy of correspondence with claimant, potential claimants, third parties, and insurers of claimants or third parties, copies of finance vouchers evidencing payment of claims, and similar relevant information.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

10 U.S.C., sections 938, 2733, 2734, 2734a, 2734b, 2737; 28 U.S.C., sections 2671–2680; 31 U.S.C., sections 3711 and 3721; 32 U.S.C., section 715; E.O. 9397.

**PURPOSE(S):**

To develop and preserve all relevant evidence about incidents which generate claims against the Army. Evidence developed is used as a legal basis to support the settlement of claims. Data are also used as a management tool to supervise claims operations at subordinate commands world-wide.

**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

(1) Information may be disclosed to Internal Revenue Service for tax purposes;

(2) Department of Justice for assistance to deciding disposition of claims filed against the Government and for considering criminal prosecution, civil court action or regulatory orders;

(3) U.S. Claims and the Court of Appeals for the Federal Circuit, to support legal actions, considerations or evidence to support proposed legislative or regulatory changes, for budgetary purposes, for quality control or assurance type studies, or to support action against a third party;

(4) Foreign governments, for use in settlements of claims under the North Atlantic Treaty Organization Status of Forces Agreement or similar international agreements;

(5) State governments for use in defending or prosecuting claim by the state or its representatives;

(6) Department of Labor, for consideration in determining rights under Federal Employees Compensation Act or similar legislation;

(7) Civilian and Governmental medical experts for evaluation of medical aspects and records and related material;

(8) Office of Management and Budget for preparation of private relief bills for presentation to the Congress;

(9) Government contractors for use in defending or settling claims filed against them, including recovery actions, arising out of the performance of a Government contract;

(10) Federal and State workmen's compensation agencies for use in adjudicating claims.

(11) See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Index cards, paper records in file folders, computer disc.

**RETRIEVABILITY:**

By last name.

**SAFEGUARDS:**

Records are accessible only by authorized personnel who are properly instructed in the permissible use of the information, buildings housing records are locked after normal duty hours.

**RETENTION AND DISPOSAL:**

Destroyed 10 years after final action.

**SYSTEM MANAGER(S) AND ADDRESS:**

The Judge Advocate General, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

**NOTIFICATION PROCEDURE:**

Individuals desiring to know whether or not information on them exists in this system of records may write to the Commander, U.S. Army Claims Service, Ft Meade, MD 20755, furnishing full name, current address and telephone number, claim number if known, date and place of incident giving rise to the claim, and any other personal identifying data which would assist in determining location of the records.

**RECORD ACCESS PROCEDURE:**

Individuals seeking access to records about themselves in this system of records should write to the Commander, U.S. Army Claims Service, Ft Meade, MD 20755–5360, furnishing information required by 'Notification procedure' above.

**CONTESTING RECORD PROCEDURES:**

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

**RECORD SOURCE CATEGORIES:**

From the individual; investigative reports originating in the Department of the Army, Federal Bureau of Investigation, and/or foreign, State, or local law enforcement agencies; medical treatment facilities; Armed Forces Institute of Pathology; relevant records and reports in the Department of Defense.

**EXEMPTIONS CLAIMED FOR THE SYSTEM:**

None.

**A0403.06DAJA**

**SYSTEM NAME:**

Tort Claim Files.

**SYSTEM LOCATION:**

HQDA(DAJA–LT), The Pentagon, Washington, DC 20310–2210.

**CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:**

Individuals who have filed a complaint against the U.S. Army in the U.S. District Court under the Federal Tort Claims Act.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Pleadings, motions, briefs, orders, decisions, memoranda, opinions,

supporting documentation, and allied material, including claims investigation, reports and files involved in representing the U.S. Army in the Federal Court System.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

28 U.S.C., sections 2671–2680.

PURPOSE(S):

To defend the Army in Civil suits filed against it in the Federal Court System.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information is disclosed to the Department of Justice and United States Attorneys' offices handling the particular case. Most of the information is filed in some manner in the courts in which the litigation is pending and therefore is a public record. In addition, some of the information will appear in the written orders, opinions, and decisions of the courts which, in turn, are published in the Federal Reporter System under the name or style of the case and are available to individuals with access to a law library. See also 'Blanket Routine Uses' set forth at the beginning of the Army's listing of records system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; magnetic tapes/discs.

RETRIEVABILITY:

By claimant's surname and court docket number.

SAFEGUARDS:

Records are maintained in file cabinets within secured buildings and available only to designated authorized individuals who have official need thereof.

RETENTION AND DISPOSAL:

Records are destroyed 10 years after final action on the case.

SYSTEM MANAGER(S) AND ADDRESS:

The Judge Advocate General, Headquarters, Department of the Army, Washington, DC 20310–2210.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not information on them exists in this system of records may write to the System Manager, furnishing their full name, current address and telephone number, case number that appeared on documentation, any other information that will assist in locating pertinent records and signature.

RECORD ACCESS PROCEDURE:

Individuals desiring access to records on themselves should submit their request as indicated in 'Notification procedure', providing information required therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; Army records and reports.

EXEMPTION CLAIMED FOR THE SYSTEM:

None.

A0403.16DAJA

SYSTEM NAME:

Army Property Claim Files.

SYSTEM LOCATION:

HQDA(DAJA–LT), The Pentagon, Washington, DC 20310–2210.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who, having damaged Government property, were not subject to the collection activities of other agencies or organizations and therefore require litigation on behalf of the Department of the Army.

CATEGORIES OF RECORDS IN THE SYSTEM:

Copies of reports from the claim investigator, accident and police reports relating to damage, and pleadings, motions, briefs, orders, decisions, memoranda, opinions, supporting documentation, and allied material involved in representing the U.S. Army.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C., section 3711.

PURPOSE(S):

To negotiate with, or to sue, as appropriate, the individual or entity, including insurance carriers, responsible for loss or damage of U.S. Army property.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to the Department of Justice, U.S. Attorney, and opposing parties and their attorneys as deemed necessary in litigation property claims. See also "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file orders; magnetic tapes/discs.

RETRIEVABILITY:

By individual's surname and court docket number.

SAFEGUARDS:

Records are accessible only by authorized personnel who are properly instructed in the permissible use of the information. Buildings housing records are protected by security guards.

RETENTION AND DISPOSAL:

Records at The Judge Advocate General's Office are destroyed 10 years after final action; i.e., completion of litigation or determination that case will not be prosecuted. Claims settled by local Staff Judge Advocates are destroyed 5 years after final action.

SYSTEM MANAGER(S) AND ADDRESS:

The Judge Advocate General, Headquarters, Department of the Army, Washington, DC 20310–2210.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not information on them exists in this system of records may write to the System Manager, furnishing their full name, current address and telephone number, case number that appeared on documenation, any other information that will assist in locating pertinent records, and signature.

RECORD ACCESS PROCEDURES:

Individuals desiring access to records on themselves should submit their request as indicated in "Notification procedure", providing information required therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; Army records and reports; Office of Personnel Management; Department of Justice, U.S. Attorney, opposing counsel, and similar pertinent sources.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0403.17DAJA

SYSTEM NAME:

Medical Expense Claim Files.

SYSTEM LOCATION:

Staff Judge Advocate Offices at Army commands, field operating agencies, installations and activities. A segment of the System is located at HQDA(DAJA–LT), The Pentagon, Washington, DC 20310–2210.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have received medical treatment at the expense of the U.S. Army as a result of a tortuous or negligent act of a third party; third parties causing medical care to be furnished to individuals entitled to medical care at Government expense.

CATEGORIES OF RECORDS IN THE SYSTEM:

Copies of medical and personnel records of individuals injured by a third party from whom the U.S. Army is seeking to recover the costs of medical care furnished the injured party; accident and police reports relating to the injury, claims investigation files; correspondence with attorneys representing the Army's interest; court documents; and similar pertinent documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C., sections 2651–2653; Executive Order 11060; 28 CFR Part 43.

PURPOSES:

To negotiate with the tortfeasor or an insurance carrier, or to sue the same to collect the value of medical care furnished the injured party.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to the Department of Justice, appropriate U.S. Attorneys, civilian attorneys representing the injured party who agree also to represent the U.S. Army's claim, and opposing parties and their attorneys. See also "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; magnetic tapes/discs.

RETRIEVABILITY:

By individual's surname and court docket number.

SAFEGUARDS:

Records are accessible only by authorized personnel who are properly instructed in the permissible use of the information. Buildings housing records are protected by security guards.

RETENTION AND DISPOSAL:

Records at The Judge Advocate General's Office are destroyed 10 years after final action; i.e., completion of litigation or determination that case will not be prosecuted. Claims settled by local Staff Judge Advocates are destroyed 5 years after final action.

SYSTEM MANAGER(S) AND ADDRESS:

The Judge Advocate General, Headquarters, Department of the army, Washington, DC 20310–2210.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not information on them exists in this system of records may write to the System Manager, furnishing their full name, current address and telephone number, case number that appeared on documentation, any other information that will assist in locating pertinent records, and signature.

RECORD ACCESS PROCEDURES:

Individuals desiring access to records on themselves should submit their request as indicted in "Notification procedure", providing information required therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; Army records and reports; Office of Personnel Management; Department of Justice, U.S. Attorneys, opposing counsel, and similar pertinent sources.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0406.08DAJA

SYSTEM NAME:

Patent, Copyright, Trademark, and Proprietary Data Files.

SYSTEM LOCATION:

(1) Primary: JALS–PC, Nassif Building, Falls Church, Va 22041–5013

(2) Secondary: Office of the Staff Judge Advocate at major Army commands, field operating agencies, and installations; addresses are listed in the Appendix to the Army inventory of system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have submitted inventions to the Government; inventors with patents or applications for patents procured on behalf of the Department of the Army or in which the Government has an interest; authors of copyrightable or copyrighted material in which the Government has an interest; and Government employees to whom copyright assistance has been rendered.

CATEGORIES OF RECORDS IN THE SYSTEM:

Document relating to; disposition of rights in Government employees' inventions; foreign patent filings; licensing of Government-owned patents, copyrights, and service marks; Government interest in or under patents, applications for patent, and copyrights procured on behalf of the Department of the Army; and invention disclosures including drawings, patentability search reports, evaluation reports, applications, amendments, petitions, appeals, interferences, licenses, assignments, other instruments, and relevant correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., section 301.

PURPOSE(S):

To determine the rights in Government employee inventions, and to maintain evidence and record of: Documents used in filing for foreign patents; invention disclosures submitted to the Department of the Army; patents and applications for patent procured on behalf of the Army or in which the Army has an interest; patent and copyright licensing and assignments; and copyright assistance rendered.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) Information from the system may be disclosed to the U.S. Patent and Trademark Office, Department of Commerce, and/or to the Copyright Office, Library of Congress.

(2) In the event of legal proceedings and litigation, information may be disclosed to the Civil Division, Department of Justice.

(3) For foreign patent filings, records are presented to the Director of Patent Administration, Department of National Defense in Ottawa, Ontario, Canada.

(4) Parties to a licensing arrangement have access to the specific files involved.

(5) Contractors and/or Government agencies have access in

order to conduct patent investigations and evaluations.

(6) See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Paper records in file folders.

**RETRIEVABILITY:**

By individual's surname.

**SAFEGUARDS:**

Records are maintained in buildings protected by security guards, and are accessible only to authorized persons having need therefor in the performance of official duties.

**RETENTION AND DISPOSAL:**

At the primary location: Records pertaining to patent matters are retained for 20 to 25 years depending on the specific case; those concerning copyright matters are retained either for 56 years or on expiration of copyright not renewed, after which they are destroyed by shredding. Records at the secondary location are destroyed after 2 years.

**SYSTEM MANAGER(S) AND ADDRESS:**

The Judge Advocate General, Headquarters, Department of the Army, Washington, DC 20310; senior patent attorney at each secondary location.

**NOTIFICATION PROCEDURE:**

Individuals desiring to know whether or not information on them exists in the system of records may write to system location, furnishing full name, current address and telephone number, the case number of other identifying information on correspondence emanating from the Army.

**RECORD ACCESS PROCEDURES:**

Individuals desiring access to their records in system should write to the System Manager, furnishing information required under 'Notification procedure'.

**CONTESTING RECORD PROCEDURES:**

The Army's rules for access to records and for contesting contents and appealing intitial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

**RECORD SOURCE CATEGORIES:**

From the individual, Army records, the Government agency interested n the invention or copyright, research material in libraries, the Patent and Trademark Office, and/or the Copyright Office.

**EXEMPTIONS CLAIMED FOR THE SYSTEM:**

None.

**A0501.10DAMI**

**SYSTEM NAME:**

Counterintelligence Research File System (CIRFS).

**SYSTEM LOCATION:**

Counterintelligence and Security Division, Assistant Chief of Staff for Intelligence, Department of the Army, the Pentagon, Washington, DC 20310.

**CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:**

Individuals who have come to the attention of the U.S. Army counterintelligence community during the course of intelligence operations or normal mission requirements.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

File contains reports used by the U.S. intelligence community and, in some cases, photographs of the individual. File is random is structure and personalities are coded for retrieval by a computerized index.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

Executive Order 10450.

**PURPOSE(S):**

To assist the Counterintelligence Desk Analyst in compiling a historical record.

**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

None authorized.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Microfilmed reels in cassettes and indexed on computer diskpack.

**RETRIEVABILITY:**

Microfilmed in random order. Retrieved by personality name via computer index which identifies the reel and document location containing the requested name.

**SAFEGUARDS:**

Building protected by security guards and storage point electronically monitored for illegal entry. Computerized index is access controlled by a code word that is issued only to properly screened, cleared and trained personnel. Code word is presently held only by the Assistant Chief of Staff for Intelligence and issued only to the team of a group conducting a screening operation of the CIRFS.

**RETENTION AND DISPOSAL:**

Records are permanent. They photographed onto microfilm and the original document destroyed. The file is presently being screened for identification of documents no longer needed and selected documents are being destroyed at the direction of the Assistant Chief of Staff for Intelligence, Headquarters, Department of Army.

**SYSTEM MANAGER(S) AND ADDRESS:**

The Assistant Chief of Staff for Intelligence, Department of the Army, The Pentagon, Washington, DC 20310.

**NOTIFICATION PROCEDURE:**

Information may be obtained from the Commander, U.S. Army Intelligence and Security Command, ATTN: IACSF–FI, Ft Meade, MD 20755; telephone: 301/677–4242/4243.

**RECORD ACCESS PROCEDURE:**

Requests from individuals should be addressed to the Commander, U.S. Army Intelligence and Security Command, ATTN: IACSF–FI, Ft Meade, MD 20755. Written requests must contain the full name and SSN of the individual, current address, and telephone number. For personal visits, the individual should furnish acceptable identification and verbal information that can be verified from his/her file card.

**CONTESTING RECORD PROCEDURES:**

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

**RECORD SOURCE CATEGORIES:**

From investigative reports of the Defense Investigative Service, U.S. Army Intelligence and Security Command, other Federal and Department of Defense investigative and law enforcement agencies.

**EXEMPTIONS CLAIMED FOR THE SYSTEM:**

All portions of this System of records which fall within 5 U.S.C. 522a(k)(1), (2), or (5) are exempt from the following provisions of Title 5 U.S.C., Section 552a: (c)(3), (d), (e)(4)(G), (e)(4)(H), (e)(4)(I) and (f).

**A0502.03aDAMI**

**SYSTEM NAME:**

Intelligence Collection Files.

**SYSTEM LOCATION:**

U.S. Army Intelligence and Security Command, Ft Meade, MD 20755. Decentralized segments located at U.S. Army Intelligence and Security Command groups, field stations, battalions, detachments, field offices

and resident offices stationed worldwide.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual who is qualified and may be accepted for sensitive intelligence duties with the U.S. Army.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain documents which describe the requirements, the objectives, the approvals, the implementation, the reports, and the results of Department of the Army sensitive intelligence activities.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450, paragraphs 2, 3, 4, 5, 6, 7, 8, 9, and 14; 10 U.S.C., section 3012(b)(c)(g); National Security Act of 1947, as amended.

PURPOSE(S):

To support contingency planning and military operations.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) Information is used by The Federal Bureau of Investigation and the Central Intelligence Agency for counterintelligence and intelligence; within the continental United States for the FBI and outside the continential United States for the CIA.

(2) Information may be disclosed to foreign law enforcement, security, investigatory, or administrative authorities in order to comply with requirements imposed by, or to claim rights conferred in international agreements and arrangements including those regulating the stationing and status in foreign countries of DOD military and civilian personnel and other countries where there are routine reciprocal exchanges of information.

(3) See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and visible, vertical card files; automated records on disc with video display of individual source records on cathrode ray tube.

RETRIEVABILITY:

Alphabetically by last name, numerically by source and numerically by project number.

SAFEGUARDS:

Buildings employ security guards. Records are maintained in areas accessible only to authorized personnel who are properly cleared, and have a need-to-know for the information. Automated media are protected by authorized code word for access to system, controlled access to operations rooms, and controlled input distribution.

RETENTION AND DISPOSAL:

Records are permanent and retained in active file until no longer needed; then retired to the Investigative Records Repository, U.S. Army Intelligence and Security Command, Ft Meade, MD 20755.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant Chief of Staff for Intelligence, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the Commander, U.S. Army Intelligence and Security Command, ATTN; IACSF–FI, Ft. Meade, MD 20755; telephone: Area Code 301–377–4742/4743.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the Commander, United States Army Intelligence and Security Command, ATTN: IACSF–FI, Ft Meade, MD 20755. Written requests must contain the full name and SSN of the individual, current address, and telephone number. For personal visits, the individual must furnish acceptable identification and verbal information that can be verified from his/her file.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505)

RECORD SOURCE CATEGORIES:

From individual investigative reports of Defense Investigative Services, U.S. Army Intelligence and Security Command, and other Federal and DOD investigative and law enforcement agencies.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

All portions of this system of records which fall within 5 U.S.C. 552a(k)(1), (2), or (5) are exempt from the following provisions of Title 5 U.S.C., section 552a: (c)(3), (d), (e)(4)(G), (e)(4)(H), (e)(4)(I), and (f).

A0503 03bDAMI

SYSTEM NAME:

Technical Surveillance Index.

SYSTEM LOCATION:

Decentralized location at Investigative Records Repository, Headquarters, U.S. Army Intelligence and Security Command, Ft. Meade, MD; Systems Division, Office of the Deputy Chief of Staff, Intelligence, HQ, U.S. Army Europe and Seventh Army, Heidelberg, Germany; Office of the Depty Chief of Staff for Personnel, Headquarters, Department of the Army, The Pentagon; and Crimes Record Center, Ft Holabird, MD.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons whose conversations have been intercepted during techical surveillance operations conducted by, or on behalf of the Army.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name and citizenship, any associated telephone number or radio call sign; location, date, and time of the surveillance activity, and the source document.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

18 U.S.C., sections 2510–2520 and 3504.

PURPOSE(S):

To assist the Counterintelligence Officer in compiling a total investigative record.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

None authorized.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes and paper records.

RETRIEVABILITY:

U.S. Army Europe and Seventh Army segment uses a computerized retrieval system of name, address, telephone number or case designation. Other segments are retrieved manually by name, address telephone number or case designation.

SAFEGUARDS:

Access to buildings is controlled by security guards. Records are maintained in General Services Administration approved security containers, physically separated from other materials, and are accessible only to authorized personnel who are properly screened, cleared, and trained.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant Chief of Staff for Intelligence, Headquarters, Department of the Army. The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from Headquarters, Department of the Army, ATTN: DAMI–CIS, The Pentagon, Washington, DC 20310; telephone: (202) 697–7993.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the appropriate decentralized repository. Written requests should contain the full name of the individual, current address, and telephone number.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505)

RECORD SOURCE CATEGORIES:

From the Army and other investigative agencies.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

All portions of this system of records which fall within 5 U.S.C. 522a (k)(1), (2), or (5) are exempt from the following provisions of Title 5 U.S.C., Section 522a (c)(3), (d), (e)(4)(G), (e)(4)(H), (e)(4)(I).

A0502.06DAMI

SYSTEM NAME:

Badge and Credential Files.

SYSTEM LOCATION:

U.S. Army Intelligence and Security Command, Ft Meade, MD 20755. Decentralized Segments exist at U.S. Army Intelligence and Security Command groups, field stations, battalions, detachments, field or resident offices having assigned personnel who possess Military Intelligence badges and credentials.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who currently possess or in the past possessed Military Intelligence badge and credential.

CATEGORIES OF RECORDS IN THE SYSTEM:

Card file contains the names, SSN, rank, and badge and credenital number of each person who has been issued Military Intelligence badge and credential. This card file is an index to a numerical filing system consisting of envelopes having a badge and credential status and Control Card (MIA Form 70) attached which contains the name of the individual, badge and credential number, component (military or civilian), military occupational speciality, clearance of civilian, authority for issue, and comments which indicate the history of the badge and credential keyed to the individuals having been assigned the badge and credential.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450, sections 2, 3, 4, 5, 6, 7, 8, 9 and 14; 10 U.S.C., section 3012(b)(c)(d) and (g); National Security Act of 1974, as amended.

PURPOSE(S):

To maintain control and accountability over Military Intelligence badges and credentials.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to Federal investigative and/or intelligence agencies to ascertain if an individual legally possesses badges and credentials. See "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Card files.

RETRIEVABILITY:

Alphabetically by last name of possessor of badge and credential.

SAFEGUARDS:

Primary system is maintained in buildings employing security guards. Records are maintained in areas accessible only to authorized personnal who are properly cleared and trained.

RETENTION AND DISPOSAL:

Records are maintained indefinitely. Destruction is authorized by Central Custodian of the badge and credential.

SYSTEM MANAGER(S) AND ADDRESS:

The assistance Chief of Staff for Intelligence, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the Commander, U.S. Army Intelligence and Security Command, ATTN: IACSF–FI, Ft Meade, MD 20755; telephone 301/677–4742/47443.

RECORD ACCESS PROCEDURE:

Requests should be addressed to the Commander, U.S. Army Intelligence and Security Command, ATTN: IACSF–FI, Ft Meade, MD 20755. Written request must contain the full name and SSN of the individual, current address, and telephone number. For personal visits, the individual should furnish acceptable identification and verbal information that can be verified from his/her file card.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

U.S. Army personnel and security records and U.S. Army Orders.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0503.10aDAMI

SYSTEM NAME:

USAINSCOM Investigative Files System.

SYSTEM LOCATION:

U.S. Army Intelligence and Security Command, Ft Meade, MD 20755. Decentralized segments are located at U.S. Army Intelligence and Security Command groups, field stations, battalions, detachments, and field officers stationed worldwide.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military personnel of the U.S. Army, including active duty, National Guard, reservists and retirees; civilian employees of the Department of the Army, including contract, temporary, part-time, advisory, and volunteer, citizen and alien employees located both in the U.S. and in overseas areas; industrial or contractor personnel who are civilians working in private industry for firms which have contracts involving access to classified Department of Defense information; aliens granted limited access authorization to U.S. Defense information; DOD alien personnel investigated for visa purposes; individuals about whom there is a reasonable basis to believe that they are engaged in, or plan to engage in, activities such as (1) theft, destruction, or sabotage of ammunition, equipment, facilities, or records belonging to DOD units or installations, (2) possible compromise of classified defense information by unauthorized disclosure or by espionage, (3) subversion of loyalty, discipline or morale of Department of Army military or civilian personnel by actively

encouraging violation of lawful orders and regulations or disruption of military activities, (4) demonstrations on active or reserve Army installations or immediately adjacent thereto which are of such character that they are likely to interfere with the conduct of military operations, (5) direct threats to DOD military or civilian employees regarding their official duties or to other persons authorized protection by DOD resources, and (6) activities or demonstrations endangering classified defense contract facilities or key defense facilities of the Panama Canal approved by Headquarters, Department of the Army; certain non-DOD affiliated persons whose activities involve them with the DOD, namely, activities involving requests for admission to DOD facilities or requests for certain information regarding DOD personnel, activities, or facilities; persons formerly affiliated with the DOD; persons who applied for or are/were being considered for employment with or access to DOD such as applicants for military service, pre-inductees and prospective contractors; visa applicants, individuals residing on, having authorized official access to, or conducting or operating any business or other function at any DOD installation and facility; and U.S. Army Intelligence and Security Command sources.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

(1) Requests for investigation and attachments thereto such as personal history statements; fingerprint cards; personnel security questionnaire; waivers for release of credit; medical and/or educational records; and National Agency check requests.

(2) Investigations conducted by U.S. Army Intelligence and Security Command or other DOD, Federal, State or local investigative agency to include: National Agency checks; local agency checks; military records; birth records; employment records; education records; credit records; interviews of education, employment, and credit references; interviews of listed and developed character references; interviews of neighbors; documents which succinctly summarize information in subject's investigative file; case summaries prepared by both investigative control offices and requesters of investigation interrogation reports, correspondence pertaining to the investigation or its adjudication by clearance authority to include; (1) information which reflects the chronology of the investigation and adjudication; (2) all recommendations regarding the future status of the subject; (3) actions of security/loyalty review boards (4) final actions/determinations made regarding the subject, and (5) security clearance, limited access authorization, or security determination; index tracing reference which contains aliases and the names of the subject and names of co-subjects; U.S. Army Intelligence and Security Command form indicating dossier has been reviewed and all material therein conforms to Department of Defense policy regarding retention criteria; U.S. Army Intelligence and Security Command form to indicate material has been removed and forwarded to the Defense Investigative Service; security termination statements; notification of denial, suspension, or revocation of clearance; record of U.S. Army Intelligence and Security Command agent case assignments; reports of casualty, biographic data concerning Army personnel who are missing or captured; cross reference sheets which indicate the removal of investigative documents requiring limited access.

(3) Case control and management documents that serve as the basis for conducting the investigation. This includes documents requesting the investigation; background data such as personal history statement, fingerprint cards, National Agency check requests, and release statements; and documents used in case management and control such as lead sheets, other field tasking documents, and transfer forms.

(4) Card index of personnel investigations/operations which are under controlled access, to include U.S. Army Intelligence and Security Command personnel, file procurement officers, and sensitive counter-espionage, counter-sabotage, and counter-subversion investigations and/or operations.

(5) Accession file maintained to keep record of all persons and agencies authorized to receive Investigative Records Repository (IRR) Files.

(6) Microfilm index and catalogue file, which is an index to all investigative holdings contained in microfilmed investigative records.

(7) Investigative index card file record system maintained to keep a permanent record of all dossiers charged out of U.S. Army Intelligence and Security Command on loan to user agencies or on permanent transfer to Defense Investigative Service.

(8) Document account record or dossiers of their reproductions or microfiche files forwarded from and returned to U.S. Army Intelligence and Security Command.

(9) File containing a record of all favorable IRR dossiers destroyed because no action has transpired in the file within the past 15 years. File consists of either the last clearance certificate contained in the dossier or, if no clearance certificate exists, a summary card containing the name of the individual, his/her date and place of birth, his/her SSN, or Army service number, date and type of investigation, and the name of the agency which conducted the investigation.

(10) Records accounting for the disclosure of U.S. Army Intelligence and Security Command investigative material made outside the U.S. Army.

(11) Card file containing a summary of all actions taken by the U.S. Army Intelligence and Security Command in the conduct of security adjudication.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

Executive Order 10450, Sections 2, 3, 4, 5, 6, 7, 8, 9 and 14; Title 10 U.S.C., Section 3012(b)(c)(g); National Security Act of 1947, as amended; Executive Order 11652 Sections, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 and 12; Executive Order 9397.

**PURPOSE(S):**

To provide information to assess an individual's acceptability for assignment to or retention in sensitive positions consistent with the interest of national security; to provide authorized protective service; and to conduct counterintelligence and limited reciprocal investigations.

**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

Information may be disclosed to:

(1) Accredited Federal criminal and civil law enforcement agencies including those responsible for conducting their own investigations as to suitability for employment or access of current or potential employees formerly affiliated with the Department of Defense.

(2) Other accredited Federal agencies serviced by the Office of Personnel Management but with a need to evaluate the suitability of potential employees formerly affiliated with the Department of Defense.

(3) Congress, including the General Accounting Office.

(4) Veterans Administration.

(5) Specific uses of U.S. Army Intelligence and Security Command Investigative files are:

(6) To determine the loyalty, suitability, eligibility, and general trustworthiness of individuals for assignment or appointment to sensitive military duties or to critical sensitive civilian positions.

(7) To determine the eligibility and suitability of individuals for entry and retention in the Armed Forces.

(8) To provide information for ongoing security and suitability investigations being conducted by Federal agencies.

(9) To provide information to assist Federal agencies in the administration of criminal justice and prosecution of offenders.

(10) To provide information in judicial or adjudicative proceedings, including litigation, or in accordance with a court order.

(11) To make statistical evaluations of investigative activities.

(12) To provide protective services when authorized by the Secretary of Defense for the Department of Defense, Distinguished Visitors Protection Program. The objective of this program is to provide physical protection for distinguished foreign visitors of Department of Defense and the Military departments and high ranking members of the Department of Defense and its agencies, and to assist the U.S. Secret Service in its protective functions.

(13) To provide information in response to Inspector General, Equal Employment Opportunity, other complaint investigations and Congressional inquiries.

(14) To determine the eligibility and suitability of an individual for favorable personnel actions in the Armed Forces of the U.S., to include Reserve and National Guard.

(15) For use in alien admission and naturalization inquiries conducted under section 105 of the Immigration and Nationality Act of 1952, as amended.

(16) For use in benefit determinations by the Veterans Administration.

(17) The distribution of investigative information to other DA activities or outside agencies is based on this agency's evaluation of their needs and the relevance of the information to the use for which it is provided. Information collected for one purpose is not automatically used for the other purposes or by the other users indicated in this description.

(18) See 'Blanket Routine Uses set forth at the beginning of the Army's listing of record system notices.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

Upon receipt of a valid request for an investigation, the request package is given a control number and placed in a case folder (paper record) together with identification data concerning the subject of the request for investigation and control number. The request is entered into an automated data processing system (U.S. Army Intelligence and Security Command case control system) which is designed to provide statistical data and case control management information on the number and types of investigations that are opened, currently pending, and closed in U.S. Army Intelligence and Security Command. This automated system triggers automatic requests upon the Defense Central Index of Investigations (DCII), a master index that holds reference to all Department of Defense investigations conducted by U.S. Army Intelligence and Security Command and the Military Services investigative file repositories. If there are files on the subject, a request is generated by U.S. Army Intelligence and Security Command upon the appropriate repository. Upon review of the request package and other investigative files retrieved through DCII, investigative requirements are then determined by the U.S. Army Intelligence and Security Command Control Office and investigative leads are dispatched to the U.S. Army Intelligence and Security Command field elements and other pertinent Governmental investigative agencies. Upon receipt of the investigative leads at the field level, a duplicate investigative field is prepared by the receiving field element. This file contains investigatory report and case control material pertaining only to the specific investigative leads assigned to the controlling field element. At this point the U.S. Army Intelligence and Security Command investigative file enters into a pending status. During this pending status, investigative reports are prepared by U.S. Army Intelligence and Security Command field element and sent to the control office, based upon record and interview data obtained during the investigation. Upon completion of the investigation, the closed investigative file held by the U.S. Army Intelligence and Security Command Control Office is forwarded thru the IRR to the requestor of the investigation. Upon receipt, the requestor adjudicates the investigation and returns it to the IRR for retention. The duplicate files prepared by U.S. Army Intelligence and Security Command field elements are destroyed 120 days after the closing.

**STORAGE:**

Paper records in file folders, rolled microfilm, and microfiche.

**RETRIEVABILITY:**

(a) File folders are maintained in terminal digit order by regular dossier number and SSN. In order to obtain the dossier number of the subject at least one personal identifier is required. For those subjects who have no identifying data such as date of birth, military service number or SSN, the name only index is searched. Additionally, a non-standard search is required. The name only index will provide a subject's name and dossier number only. The non-standard search will provide a listing of all subjects with identifying data. In these instances, some other identifying data must be furnished such as address. Dossiers possibly identical with the subject may be forwarded to the requester.

(b) Microfiche files are maintained in duplicate copy in separate locations in Microfilm Division, IRR. The records are maintained in terminal digit order according to regular dossier number or SSN.

(c) Microfilm records are retrieved by name or dossier number.

**SAFEGUARDS:**

Building 4552, which houses the IRR, is under 24-hour guard and accessible only to authorized personnel. Only individuals accredited as file procurement officers may obtain and review IRR investigative records. Subordinate U.S. Army Intelligence and Security Command elements and other official requesters are required to have General Services Administration approved containers for the storage of investigative files. Certified mail is used to forward any investigative files to official requesters of U.S. Army Intelligence and Security Command subordinate elements.

**RETENTION AND DISPOSAL:**

Personnel security investigative files may be retained for 15 years after last action reflected in the file, except that files which resulted in adverse action against the individual will be retained permanently. However, once affiliation is terminated, acquiring and adding material to the file is prohibited unless affiliation is renewed.

**SYSTEM MANAGER(S) AND ADDRESS:**

The Assistant Chief of Staff for Intelligence, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

**NOTIFICATION PROCEDURE:**

Information may be obtained from the Commander, U.S. Army Intelligence and Security Command, ATTN: IACSF-FI, Ft. Meade, MD 20755; telephone: 301/677-4742-4743.

**RECORD ACCESS PROCEDURES:**

Requests should be sent to the Commander, U.S. Army Intelligence and

Security Command, ATTN: IACSF–FI, Ft. Meade, MD 20755. Written requests should contain the full name of the individual, SSN, previous service number (if any), current address, and telephone number. Visits are limited to Building 4552, Ft. Meade, MD 20755; Visitors must provide acceptable identification (e.g., valid driver's license, employing officer's identification card) and verbal information that can be verified with his/her case folder.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Department of Defense and Military Department records; Federal Agency records; State, county, and municipal records; employment records of private schools, colleges, universities, technical and trade schools; hospital records; real estate agencies; credit bureaus, loan companies, credit unions, banks, and other financial institutions which maintain credit information on individuals; Transportation companies, (airlines, railroads, etc.); Other private records sources deemed necessary in order to complete an investigation; miscellaneous records such as: Telephone directories; city directories; Who's Who in America; Who's Who in Commerce and Industry; Who Knows What—A listing of experts in various fields; American Medical Directory; Martindale-Hubbell Law Directory; U.S. Postal Guide; Insurance Directory; Dunn and Bradstreet; and The U.S. Army Register; any other type of miscellaneous record deemed necessary to complete the U.S. Army Intelligence and Security Command investigation; the interview of individuals who have knowledge of the subject's background and activities; the interview of witnesses; the interview of victims; the interview of confidential sources; and the interview of other individuals deem necessary to complete the U.S. Army Intelligence and Security Command investigation.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

All portions of this system of records which fall within 5 U.S.C. 552a(k) (1), (2), or (5) are exempt from the following provisions of Title 5 U.S.C. section 552a: (d), (e)(4)(G), (e)(4)(H), and (e)(4)(I).

A0503.03aDAMI

SYSTEM NAME:

Department of the Army Operational Support Activities Files.

SYSTEM LOCATION:

U.S. Army Intelligence and Security Command, Ft. Meade, MD 20755–5995.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Selected members of the U.S. Army and civilian employees of the Department of the Army who participate in and have received support for conducting U.S. Army intelligence and counterintelligence duties. Included are personnel of other Federal agencies who request and receive support from appropriate authority.

CATEGORIES OF RECORDS IN THE SYSTEM:

Card file with automated index of individuals who have received support from Department of the Army in completing specialized duties within the Army's intelligence and counterintelligence activities. Card files and duplicate automated files of individuals indicating any identity and other data which may be used to identify them in their support of the Department of Army's intelligence and counterintelligence activities.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450, sections 2, 3, 4, 5, 6, 7, 8, 9, and 14; 10 U.S.C., section 3012(b)(c)(g); National Security Act of 1947, as amended; E.O. 9397.

PURPOSE(S):

To identify and manage the career of individuals performing duties in the Department of the Army specialized intelligence and counterintelligence assignments.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Other Federal investigative and/or intelligence agencies use the file to verify identity and assignments. See also 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, vertical card file, computer diskpack and printouts.

RETRIEVABILITY:

Alphabetically by individual's surname; automated files by SSN.

SAFEGUARDS:

Material is stored in General Services Administration containers approved for the storage of secret material. Building in which material is stored is locked during hours of nonoccupancy. Automated files are access controlled by a codeword issued only to properly screened, cleared, and trained personnel.

RETENTION AND DISPOSAL:

Permanent.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant Chief of Staff for Intelligence, Department of the Army, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the Commander, U.S. Army Intelligence and Security Command, ATTN: IACSF–FI, Ft. Meade, MD 20755; telephone: 301/677–4742–4743.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the Commander, U.S. Army Intelligence and Security Command, ATTN: IACSF–FI, Ft Meade, MD 20755. Written requests must contain the full name and SSN of the individual, current address, and telephone number. For personal visits, the individual must furnish acceptable identification and verbal information that can be verified from his/her file card.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; investigative reports of Defense Investigative Service, U.S. Army Intelligence and Security Command, and other Federal and Department of Defense investigative and law enforcement agencies.

EXEMPTION CLAIMED FOR THE SYSTEM:

All portions of this system of records which fall within 5 U.S.C. 552a(k) (1), (2), or (5) are exempt from the following provisions of Title 5 U.S.C., section 552a: (c)(3), (d), (e)(4)(g), (e)(4)(H), (e)(4)(I), and (f).

A0503.05aDAMI

*System name:*

Counterintelligence Operations Files.

*System location:*

Primary: U.S. Army Intelligence and Security Command, Ft Meade, MD 20755. Decentralized segments exist at U.S. Army Intelligence and Security Command groups, field stations,

BEST COPY AVAILABLE

battalions, detachments, and field offices stationed world-wide.

*Categories of individuals covered by the system:*

Active and retired military personnel, Department of Defense affiliated civilians including contractor personnel employed by civilian firms having defense contracts, and individuals not affiliated with the Department of Defense only if there is a reasonable basis to believe that one or more of the following situations exist: Theft, destruction or sabotage of weapons, ammunition, equipment, facilities or records belonging to Department of Defense units or installations; possible compromise of classified defense information by unauthorized disclosure or by espionage; subversion of loyalty, discipline or morale of Department of the Army military or civilian personnel by actively encouraging violation of laws, disobedience of lawful orders and regulations, or disruption of military activities; demonstrations on active or reserve Army installations or demonstrations immediately adjacent to them which are of such a size or character that they are likely to interfere with the conduct of military activities (Armed Forces Induction Centers, U.S. Army Recruiting Stations located offpost and facilities of Federalized National Guard Units are considered to be active DOD installations. For the purpose of the sub-paragraph, Reserve Officer Training Corps installations on campuses are not considered to be active or reserve Army installations and coverage of demonstrations at or adjacent to such installations is not authorized); direct threats to Department of Defense military or civilian personnel regarding their official duties or to other persons authorized protection by Department of Defense resources; activities or demonstrations endangering classified Defense contract facilities or key defense facilities, including Panama Canal, approved by Headquarters, Department of the Army as key to the defense and operation of the Panama Canal.

*Categories of records in the system:*

Documents used to conduct foreign counterintelligence operations and investigations pertaining to the U.S. Army's responsibilities under the categories of counterintelligence, counterespionage, counter-sabotage, counter-subversion, and international terrorism.

*Authority for maintenance of the system:*

Executive Order 10450, Security Requirements for Government Employment, in particular Sections 2 and 9c thereof; Executive Order 12036, U.S. Intelligence Activities, in particular paragraph 1–1104, 1–1112, 1–1113, 1–204(b) and 2–208; the National Security Act of 1947, as amended (10 U.S.C., Section 3012(b)(c) and (g); E.O. 9397.

*Purpose(s):*

To document investigations and operations pertaining to the U.S. Army's responsibilities for counterintelligence, and to detect, identify, and neutralize foreign intelligence and international terrorist threats to the Department of Defense.

*Routine uses of records maintained in the system, including categories of users and the purposes of such uses:*

(1) Information is provided to Federal agencies and other services and governmental agencies whose missions contain responsibility for foreign counterintelligence activities.

(2) Information may be disclosed to foreign law enforcement, security, investigatory or administrative authorities in order to comply with requirements imposed by or to claim rights conferred in international agreements and arrangements including those regulating the stationing and status in foreign countries of Department of Defense military and civilian personnel and other countries where there are routine reciprocal exchanges of information.

(3) This distribution of operational and investigative information to outside agencies is based on the evaluation by the U.S. Army Intelligence and Security Command of the other activity's needs and the relevance of the information to the use for which it is to be provided. Information collected is not automatically used for all the purposes or by all the other users listed in this description.

(4) See 'Blanket Routine Uses' set forth at the beginning of the Army's listing or record system notices.

*Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:*

*Storage:*

Reports generated in the documentation of agency investigations and operations are retained in original report format as paper records in file folders. Other records and reports are maintained as paper records in file folders and in microfiche. Extracted information is converted into appropriate language for storage on a computer diskpack.

*Retrievability:*

Paper records are retrieved by name or file number. Computerized data are retrieved by name, SSN, date of birth, placed of birth, and aliases; by designation of the operation or investigation, or by identification of foreign intelligence agency.

*Safeguards:*

Files are maintained in three-position combination, fire resistant steel security containers housed in security controlled areas accessible only to authorized personnel. Computerized data are controlled by a codeword that is issued only to properly screened, cleared and trained personnel. System employs on-line, dial-up procedures, enhanced by shielding and other appropriate technical safeguards to protect data against potential compromising emanations and/or unauthorized access.

*Retention and disposal:*

Paper records documenting foreign counterintelligence operations are permanent. At the termination of the operation/investigation, files are retired to the U.S. Army Intelligence and Security Command's Investigative Records Repository. Computerized information is updated periodically and all previous copies destroyed.

*System manager(s) address:*

The Assistant Chief of Staff for Intelligence, Department of Army, Washington, DC 20310.

*Notification procedure:*

Information may be obtained by writing to the Commander, U.S. Army Intelligence and Security Command, ATTN: IACSF–FI, Ft Meade, MD 20755; telephone: (301) 677–4742/4743.

*Record access procedures:*

Requestor should contact the Commander, U.S. Army Intelligence and Security Command, ATTN: IACSF–FI, Ft Meade, MD 20755; furnishing full name, SSN, current address, and telephone number. For personal visits, requestor should present acceptable proof of identity such as a valid driver's license, military identification card, Department of Defense building pass, or other type of identification containing photograph and identity data.

*Contesting record procedures:*

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

*Record source categories:*

From individuals.

*Exemptions claimed for the system:*

All portions of this system of records which fall within 5 U.S.C. 552a(k)(1), (2), or (5) are exempt for provisions of Title 5 U.S.C., section 552a: (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), (e)(4)(I), and (f).

A0009.02DAAG

SYSTEM NAME:

Army Nuclear Test Personnel Review Program (ANTPR).

SYSTEM LOCATION:

(1) Primary system exist at The Adjutant General's Office, Headquarters, Department of the Army, Washington, DC 20310.

(2) Automated segments exist at JAYCOR, 1608 Spring Hill Road, Vienna, VA 22180–2270, and at Reynolds Electrical and Engineering Company, INC., Mail Shop 543, P.O. Box 1440, Las Vegas, Nevada 89114.

(3) Extracts of individual records are located at Headquarters, Defense Nuclear Agency, Washington, DC 20305.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Army military and civilian personnel and/or contractor personnel in support of the Army who were exposed to radiation as the direct result of government-sponsored atmospheric nuclear detonation occurring between 1945 and 1962.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, rank/grade, service number, Social Security Number, current or last known address, dates of test participation, radiation exposure and dosage data, Army unit/office of assignment at time of exposure, current medical status, and next- of-kin data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., section 3012; 42 U.S.C., section 2013c; E.O. 9397.

PURPOSE(S):

To identify personnel who either were exposed to or participated in the atmospheric nuclear detonation program and to collect radiation exposure information so as to determine appropriate government-provided medical treatment; and to answer inquiries.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information from this system of records may be dislcosed to:

(1) Veterans Administration, to process/adjudicate claims in which service-connected disabilities resulting from radiation exposure are alleged.

(2) National Research Council and similar government authorized agencies, to conduct epidemiological studies of effects of ionizing radition from atmospheric nuclear weapons tests.

(3) Authorized contractors of the Department of Defense and Department of Energy, to reconstruct individual dosimetry data based on research and application of mathematical factors and to write historical summaries of atmospheric nuclear testing.

(4) See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records on file folders; computer magnetic tapes, disks, and printouts.

RETRIEVABILITY:

By individual's name and/or service number/SSN.

SAFEGUARDS:

Access is limited to properly cleared personnel having need for the information in the preformance of official duties. Paper records are maintained in locked containers. Magnetic tapes and discs are stored in secured computer areas, access to which is controlled by password.

RETENTION AND DISPOSAL:

Paper records are retained after data are transferred to magnetic tapes; retired to Washington National Records Center upon completion of ANTPR program. Magnetic tapes and discs are retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager, ATTN: DAAG–ESG–N, Room 210, 1730 K Street, NW., Washington, DC 20006–3868.

RECORD ACCESS PROCEDURE:

Individuals may access records pertaining to them by writing as indicated in 'Notification procedure', and furnishing full name, SSN or service number, Army unit/office to which assigned at time of radiation exposure, and place and approximate date(s) of exposure.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, Army organizational personnel, and medical records, Veterans Administration, Department of Energy, Defense Nuclear Agency, and other military departments.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0614.01WOCE

SYSTEM NAME:

Equal Opportunity Investigative Files.

SYSTEM LOCATION:

Office of Human Resources (Field Operating Activity) HRA–FOA, 5600 Columbia Pike, Falls Church, VA 22041–5125.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

National Guard Technicians and military members who file complaints of discrimination or who are involved in such complaints.

CATEGORIES OF RECORDS IN THE SYSTEM:

Formal complaints of discrimination; counselors' reports; notification letters to the complainant; affidavits from complainant and/or witnesses; investigative reports; hearings transcript; examiner's findings, recommendations; decisional documents; and similar relevant records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title VI, Civil Rights Act of 1964, Pub. L. 92–261.

PURPOSE(S):

To investigate and resolve complaints of discrimination, provide facts to the Adjutant General of a State for issuing a proposed disposition to a complainant.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to the Equal Employment Opportunity Commission, Washington, DC (see EEOC–GOVT–1 system of records notice). See also 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

By name of complainant.

SAFEGUARDS:

Records are maintained in secured rooms/cabinest accessible only to designated officials having a need therefor in the performance of assigned duties.

RETENTION AND DISPOSAL:

Records are permanent. They are retained in active file until the case is closed, then forwarded to the Washington National Records Center, Suitland, MD.

SYSTEM MANAGER(S) AND ADDRESS:

Office of Human Resources (Field Operating Activity) HRA–FOA, 5600 Columbia Pike, Falls Church, VA 22041–5125.

NOTIFICATION PROCEDURE:

Individuals wishing to know whether or not information on them exists in this system of records should write to the System Manager, ATTN: Office of Human Resources (Field Operating Activity) HRA–FOA, 5600 Columbia Pike, Falls Church, VA 22041–5125. Individual should provide his/her full name, current address and telephone number, sufficient details concerning the complaint to facilitate locating the record, and signature.

RECORD ACCESS PROCEDURE:

Individuals desiring access to records on themselves should write as indicated in 'Notification procedure', providing information specified therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, investigative reports, witness statements, Army records and reports.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0704.10bUSMEPCOM

SYSTEM NAME:

ASVAB Student Test Scoring and Reporting System.

SYSTEM LOCATION:

Primary System is located at the U.S. Military Entrance Processing Command, 2500 Green Bay Road, North Chicago, IL 60064–3094. Segments exist at Military Entrance Processing Stations (MEPS), participating school system; State departments of education/testing agencies; Air Force Human Resources Laboratory, Brooks Air Force Base, TX 78236; Defense Manpower Data Center, Monterey, CA 93940; and all service recruiters/recruiting commands.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

High school, job corps, college, and other students who have been administered the student version of the Army Services Vocational Aptitude Battery (ASVAB).

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, SSN, address, telephone number, date of birth, sex, ethnic group identification, grade, booklet number of ASVAB test, individual's plans after graduation, and individual item responses to each of the 10 ASVAB subtests.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., sections 133 and 3012; E.O. 9397.

PURPOSE(S):

To compute and furnish test score products for career/vocational guidance and group assessment of aptitude test performance; to establish eligibility for enlistment and verify enlistment and placement scores and retest eligibility; for marketing evaluation, assessment of manpower trends and characteristics; and related statistical studies and reports.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Microfiche, optical mark sense answer sheets, computer magnetic tapes.

RETRIEVABILITY:

By individual's name and Social Security Number (SSN).

SAFEGUARDS:

Records are maintained in locked rooms or filing cabinets, accessible only to authorized personnel having need therefor in the performance of official duties. Information in automated media is further protected by user identification and manual controls.

RETENTION AND DISPOSAL:

Records are maintained for 2 years from the date the Armed Services Vocational Aptitude Battery (ASVAB) is administered. Research data maintained by contractors for longer periods require segregation of personal identifying information and test score data, with analyses performed using only summary statistics. Personal identifying information is also erased from data residing at the Defense Manpower Data Center.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Military Entrance Processing Command, 2500 Green Bay Road, North Chicago, IL 60064–3094.

NOTIFICATION PROCEDURE:

Information may be obtained from the Military Entrance Processing Stations (MEPS). Individual should provide his/her full name, SSN, date tested, address at the time of testing, and signature.

RECORD ACCESS PROCEDURE:

Individuals desiring access to records about themselves in this system should inquire of the MEPS providing information specified in 'Notification Procedure'.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; ASVAB tests.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

Portions of this system which fall within the purview of 5 U.S.C. 552a(k)(6) are exempt from subsection (d) of 5 U.S.C. 552a.

A0708.02cDAPC

SYSTEM NAME:

Officer Personnel Management Information System (OPMIS).

SYSTEM LOCATION:

U.S. Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332–0400.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals projected for entrance into the Army officer corps; Army officer and warrant officer personnel projected to

enter on active duty, separated, or in-retired status; individuals, civilian and military, who serve as senior rating officials on the officer evaluation reports (OERs) of Army officers.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Officer Master File (OMF) contains name, SSN, grade and date of rank, appointment and service agreement, service data and date, promotion, assignment, qualifications, specialties, efficiency, education and training, occupation, language, career pattern, awards and badges, physical location, separation, retirement, date and place of birth, race, religion, ethnic group, dependents, sex, citizenship, marital status, and mailing address.

(2) Management Accession Information System (AMIS) contains selected information for the OMF, date of entry on active duty, personal demographic data, and assignment information.

(3) Assignments and Training Selection for ROTC graduates contains selected information from the OMF, the cadet's preference statement for specialty (branch), duty and initial training; Reserve Forces duty or delay selection, Regular Army selection, and branch selection.

(4) Officer Evaluation Reporting System (OERS) contains selected information from the OMF; selection board status; OER suspense indicator for action being taken to obtain missing or erroneous OER; selected information for each of the last ten OERs; and the name, SSN, and rating history of each individual, military and civilian, who has served as the senior rating official for an active duty Army officer.

(5) Officer Distribution and Assignment System (ODAS) contains selected information from the OMF, projected assignment information for officers and warrant officers who are being reassigned.

(6) Reserve Officer Training Corps (ROTC) Instructor File contains selected information from the OMF and the following information pertaining to ROTC instructors; ROTC detachment, duty station, date assigned to ROTC detachment, date projected to be reassigned.

(7) Officer Civil Schools Management Information System (CSMIS) contains the following selected information from the OMF and the following information concerning officer and warrant officer personnel participating or who have participated in the Army sponsored degree completion program; school attended, start and completion dates, degree level and discipline, and Army Education Requirements Board (AERB) positions.

(8) Army Education Requirements Board (AERB) File contains selected information from the OMF for officer and warrant officer personnel who are serving or are projected to serve in an AERB approved position requiring graduate level education.

(9) USMA Potential Instructor File contains selected information from the OMF and the following information pertaining to previous, current, and potential instructors for the United States Military Academy (USMA) teaching staff; academic department and projected availability for USMA instructor duty.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., section 301; 10 U.S.C., section 3012; E.O. 9397.

PURPOSE(S):

Information used for personnel management strength accounting, manpower management, accessioning and determining basic entry specialty (branch) and initial duty assignments; tracking Officer Evaluation Reports, the rating history of senior rating official's posting of the senior rating official's rating history on individual Officer Evaluation Reports, producing reports on active duty officers who have served as senior rating officials; managing instructor population at ROTC detachments and U.S. Military Academy; tracking information relating to the Army Degree Completion Civil School Program; transmitting necessary assignment instructions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to:

(1) Social Security Administration: To verify SSNs.

(2) Smithsonian Institution (The National Museum of American History): Copy of the U.S. Army Active Duty Register, for historical research purposes (not authorized for public display).

(3) See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer mangetic tapes and discs.

RETRIEVABILITY:

By SSN, name, or other individual identifying characteristics.

SAFEGUARDS:

Physical security devices, guards, computer hareware and software features, and personnel clearances. Automated media are protected by authorized password for system controlled access to operator rooms and controlled output distribution.

RETENTION AND DISPOSAL:

Records are retained on the active OMF files for 4 months after separation. Historical OMF records are retained dating back to FY 1970. Accessions in AMIS are retained on active file until effective date of accession and are than placed on a history file for a period of 6 months. Records in the ROTC Graduate Assignment and Training Selection File are retained for approximately 400 days after the file is created (approximately December each year). Historical files for the OER system are kept for the life of the system. All other records are retained for active duty only until the individual is released from active duty and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332-0400.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager. Individuals must furnish full names, SSN, whether awaiting active duty, active retired, or separated; return address; and must identify the specific category of record involved. Blanket requests against this consolidated system will not be accepted. If separated, individual must state date of separation; if awaiting active duty, specify the date thereof.

RECORD ACCESS PROCEDURE:

Individuals desiring to access records about themselves should write to the System Manager, furnishing information required by 'Notification procedure'.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, Army records and reports, other Federal agencies and departments.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0706.05DAPC

SYSTEM NAME:

Emergency Data Files.

SYSTEM LOCATION:

U.S. Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332. Copy of Record of Emergency Data (DD Form 93) exists in soldier's Military Personnel Records Jacket.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains DD Form 93, Record of Emergency Data. Document reflects the service member's name; social security number (SSN); spouse and children's name and current address; persons to be and not to be notified in the event of death or injury; information on wills, insurance, and other such information; and designation of beneficiaries for certain benefits.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10 U.S.C., Section 3012; E.O. 9397.

PURPOSE(S):

To document names and addresses of person(s) to be notified in emergency situations; to determine lawful disposition of service member's pay and allowances when that member is missing, captured, or becomes a casualty.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Machine processed card in vertical file; paper copy in Military Personnel Records Jacket.

RETRIEVABILITY:

Card is retrieved by SSN; paper copy in MPRJ is retrieved by soldier's surname.

SAFEGUARDS:

Building employs security guards; the Office in which record is locaed is in operation 24 hours a day, 7 days a week. Records are accessible only to authorized personnel.

RETENTION AND DISPOSAL:

The Emergency Data Card is retained until individual separates from the Army; then destroyed. Copy in the MPRJ is retired with the MPRJ. If individual dies, the form becomes part of the casualty case file which is retired upon completion to the National Personnel Records Center (Military), St. Louis, MO 63132.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from HQDA (DAPC–PE–SI), 200 Stovall Street, Alexandria, VA 22332; telephone 703/325–0719

RECORD ACCESS PROCEDURES:

Individuals desiring access to information in this system should inquire of the System Manager, ATTN: DAPC–PE–SI, 200 Stovall Street, Alexandria, VA 22332, providing sufficient information to located record desired.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Service member.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0708.18DAPC

SYSTEM NAME:

Line of Duty Investigations.

SYSTEM LOCATION:

Personnel Actions Branch of Army Installations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Service members who have been injured, are diseased, or deceased.

CATEGORIES OF RECORDS IN THE SYSTEM:

Department of the Army (DA) Form 2173 (Statement of Medical Examination and Duty Status); DD Form 261 (Report of Investigation-Line of Duty and Misconduct Status); and supporting documents such as military police reports, accident reports, witness statements, and appointment instruments, and action on appeals.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., sections 972, 1204, 1207, 3822, and 37 U.S.C., 802; E.O. 9397.

PURPOSE(S):

To review facts and circumstances of service member's injury and render decision having the effect of approving/denying certain military benefits, pay and allowances.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be provided to the Veterans Administration or other Government agencies, to include State agencies, for a determination of the service member's entitlements to benefits. See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; microfiche.

RETRIEVABILITY:

By service member's surname.

SAFEGUARDS:

Records are maintained in metal file cabinets accessible only to designated authorized personnel.

RETENTION AND DISPOSAL:

The original is a permanent part of member's Official Military Personnel File. Copies filed in offices of the investigating officer, unit commander, appointing authority, and final reviewing authority are destroyed after 5 years.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332–0400.

NOTIFICATION PROCEDURE:

(1) Information may be obtained from: a. Commander, U.S. Army Enlisted Records and Evaluation Center, Ft. Benjamin Harrison, IN 46249 (for enlisted personnel on active duty); b. HQDA, U.S. Army Military Personnel Center, ATTN: DAPC–MSR–R, 200 Stovall Street, Alexandria, VA 22332 (for officers on active duty); c. Commander, Army Personnel Center, 9700 Page Boulevard, St. Louis, MO 63132 (for Army reserve personnel); d. National Personnel Records Center (Military), 9700 Page Boulevard, St. Louis, MO 63132 (for separated enlisted and officer personnel); e. National Guard Bureau, 5611 Columbia Pike, Falls Church, VA 22041 (for full-time National Guard Duty under Title 32, U.S.C., those in federalized status, or those attending active Army service school).

(2) Individual must provide full name, SSN, present address, and signature.

RECORD ACCESS PROCEDURES:

Individuals desiring to access information pertaining to them should submit a written request as indicated in 'Notification procedure', providing the information required therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505). Appeals of determinations by authority of the Secretary of the Army are governed by AR 600–8–1; collateral review of decided cases is limited to questions of completeness of the records of such determinations.

RECORD SOURCE CATEGORIES:

From the applicant, medical records, DA Form 2173, service member's commander, official Army records and reports, witness statements.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0708.20DARC

SYSTEM NAME:

Philippine Army Files.

SYSTEM LOCATION:

U.S. Army Reserve Personnel Center, 9700 Page Boulevard, St Louis, MO 63132–5200.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of the Philippine Commonwealth Army who were inducted for service with the U.S. Armed Forces Far East under the Military Order of the President of the United States dated July 26, 1941; Philippinos who served in Guerrilla units officially recognized and listed in the Recognized Philippine Guerrilla Rosters.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual military personnel file contains enlistment papers, orders inducting individual into U.S. Armed Forces Far East service, soldier's qualification card, unit orders of assignment, efficiency rating sheets, pay vouchers or receipts, affidavits and certificates, service records, determination of status under the Missing Persons Act.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 490–77, 7 May 1942.

PURPOSE(S):

To answer inquiries regarding individuals who served, or allegedly served, with the Philippine Commonwealth Army including recognized Guerrilla Forces, during World War II, in the Philippines.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to:

(1) Veterans Administration: To verify or certify service with the U.S. Armed Forces Far East or recognized guerrilla units; provide available medical records or other documents to assist in determining benefits.

(2) Department of Justice: To certify or verify service regarding application of individual for citizenship.

(3) Department of Health and Human Services: To verify type of service that is used to assist in determining eligibility for benefits.

(4) Department of State: To provide statement of service or verification of type of service performed.

(5) See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

By name, service number, VA claim number, units assigned to during period of service in question, names or parents, birth date and place, name of spouse and children if applicable. (Due to similarity of names complete file must be screened to determine proper individual.)

SAFEGUARDS:

Records are maintained in area accessible only to designated personnel having official need therefor.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Reserve Personnel Center, 9700 page Boulevard, St. Louis, MO 63132–5200.

NOTIFICATION PROCEDURE:

Individuals wishing to know whether or not information on them exists should write to the System Manager, ATTN: DARP–PAS–EAP, providing full name, service number, VA claim number, if applicable, and name and/or number of the unit to which assigned during the period of service.

RECORD ACCESS PROCEDURE:

Individuals desiring access to records on themselves should write as indicated in 'Notification procedure', providing information required therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., sections 3012 and 4334; E.O. 9397.

PURPOSE(S):

To record the Cadet's appointment to the Academy, his/her scholastic and athletic achievements, performance, motivation, discipline, final standing, and potential as a military career officer.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Academic transcripts may be provided to educational institutions. See

also 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Manual records in the file folder; microfilm.

RETRIEVABILITY:

By surname, or Social Security Number.

SAFEGUARDS:

Access to records is limited to persons having official need therefor; records are maintained in secure file cabinets and/or in locked rooms.

RETENTION AND DISPOSAL:

Records of Cadets who are commissioned become part of his/her Official Military Personnel File. Records of individuals not commissioned are destroyed after 5 years. Microfilmed records maintained by USMA are Permanent; hardcopy files are destroyed after being microfilmed.

SYSTEM MANAGER(S) AND ADDRESS:

Superintendent, U.S. Military Academy, West Point, NY 10996–5000.

NOTIFICATION PROCEDURE:

Individuals wishing to inquire whether this system of records contains information about them should contact the System Manager.

RECORD ACCESS PROCEDURE:

Individuals may request access to their records by contacting the System Manager, furnishing their full name, SSN, and signature.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, his/her sponsors, peer evaluations, grades and reports of U.S. Military Academy academic and physical education department heads, transcripts from other educational institutions, medical examinations/assessments, supervisory counseling/performance reports.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

Parts of this system which fall within 5 U.S.C. 552a(k) (5) and (7) are exempt from subsection (d) of 5 U.S.C., section 553a.

A0710.02DAJA

SYSTEM NAME:

JAGC Reserve Components Officer Personnel Records.

SYSTEM LOCATION:

JAGS–ZA, 600 Massey Street, Charlottesville, VA 22903–1781.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Judge Advocate General Corps (JAGC) U.S. Army Reserve and National Guard officers, not serving on extended active duty; and officers seeking appointment, branch transfer, or Federal Recognition to the JAGC without concurrent call to active duty.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, SSN, application for appointment, active duty training, constructive credit, mobilization designee position, educational courses completed, home and business addresses and telephone numbers, grade, promotion eligibility date, primary military occupational specialty, date of birth, sex, basic date of mandatory removal, unit assignment and address, employer, job title, specialty and awards, correspondence between Army and the individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., section 275(a); E.O. 9397.

PURPOSE(S):

To schedule Judge Advocate General Corps reserve officer training; select officers for reserve unit command positions; identify individual reservists in need of training; determine mandatory retirement dates; provide full background information on individuals applying for mobilization designee positions, constructive credit for training courses and/or active duty for training, to document background of applicants for appointment in the Judge Advocate General Corps or branch transfer consistent with prerequisites required for type of appointment/branch transfer and to establish eligibility for appointment/branch transfer. Records are also used for management and statistical studies and reports.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, magnetic tape/disc.

RETRIEVABILITY:

By individual's surname, SSN.

SAFEGUARDS:

All records are maintained in secured areas, accessible only to designated officials. Automated records require password for access.

RETENTION AND DISPOSAL:

Records are retained until individual officer retires from the Reserves, held 2 additional years, and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

The Judge Advocate General, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Individuals wishing to know whether or not information on them exists in this system should inquire of the Director, Reserve Affairs Department at The Judge Advocate School, Charlottesville, VA 22901. Individual must provide his/her name, SSN, sufficient details to permit locating pertinent records, and signature.

RECORD ACCESS PROCEDURE:

Individuals desiring access to records about themselves should submit a written request as indicated in 'Notification procedure', providing information specified therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; official personnel documents.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0710.08DAAR

SYSTEM NAME:

Career Management Files of Dual Component Personnel.

SYSTEM LOCATION:

U.S. Army Reserve Personnel Center, 9700 Page Boulevard, St. Louis, MO 63132–5200.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any reserve or warrant officer on active duty as an enlisted man; any reserve officer on active duty as a Regular Army warrant officer.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, rank, SSN, basic pay entry date, promotion eligibility date, mandatory removal date, military education, copies of officer evaluation reports, academic reports, qualification records, letters of appreciation and commendations, general orders concerning awards; and similar documents, records and reports.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., section 275; E.O. 9397.

PURPOSE:

To advise reserve officers when they will be considered for promotion, military education that needs to be completed for eligibility; to determine if officer should be removed for substandard performance of duty; to advise of eligibility for retirement as either an officer or enlisted person; to appraise individuals of changes in the reserve program affecting them.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See "Blanket Routine Uses" set forth in the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; magnetic tape/disc.

RETRIEVABILITY:

By individual's surname and SSN.

SAFEGUARDS:

All records are restricted to officially designated individuals having need therefor in assigned duties. Records are maintained in secured buildings; automated data are stored in vaults.

RETENTION AND DISPOSAL:

Records on this system are combined with Army personnel records and retained either at U.S. Army Reserve Personnel Center, if officer, or at U.S. Army Enlisted Records and Evaluation Center, if an enlisted person.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Reserve Personnel Center, 9700 Page Boulevard, St. Louis, MO 63132–5200.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager, ATTN: DARP–MOB–SD; Individual should provide full name, SSN, current address and telephone number and signature.

RECORD ACCESS PROCEDURE:

Individuals desiring access to records about themselves should write as indicated in "Notification procedure", providing information specified therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From Army records and reports.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0710.09DAAG

SYSTEM NAME:

Personnel Management Officer Files.

SYSTEM LOCATION:

U.S. Army Reserve Personnel Center, 9700 Page Boulevard, St. Louis, MO 63132–5200.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of the Individual Ready Reserve (IRR), Standby Reserve, Retired Reserve, unit personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence; orders; pay vouchers; efficiency reports; assignment instructions; medical evaluations; request for wavier of disqualifications; grade determinations; flagging actions which preclude completion of favorable personnel actions; transcripts; requests for transfer to another Branch, status, or service; claims for pay; assignment instructions for Active Duty or Active Duty for Training; applications for delay or exemption from Active Duty/Active Duty for Training; nominations for decorations or wards; notification of removal from active Reserve status for physical disqualification, nonparticipation, two-time passover for promotion or elimination action; application for waiver of disqualification for enlistment in U.S. Army Reserves; requests for discharge or voiding of enlistments; requests for transfer to or from the Ready Reserve, Standby Reserve, or Retired Reserve; claims for pay not received while on active duty; request for assignment/attachment to Army National Guard units, mobilization designation positions or detachments, reinforcement training units, and U.S. Army Reserve school student detachments; applications for participation in Army Reserve Logistic Career Program and Foreign Area Officer Program; decisions pertaining to the career management of officers and senior enlisted personnel.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., section 275.

PURPOSE(S):

To respond to inquiries from an individual or other government agencies concerning reserve status of Army personel.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Individuals desiring access to records about themselves should write as indicated in "Notification procedure", providing information required therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and

appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; Army records and reports.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0722.02DACH

SYSTEM NAME:

Baptism, Marriage, and Funeral Files.

SYSTEM LOCATION:

Records from 1917–1952 are in the National Archives, National Archives and Record Administration. Records from 1953–1977 are in the Washington National Records Center, Washington, DC 20409, as well as the office, Chief of Chaplains, Department of the Army, Washington, DC 20310.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any service member, his/her dependent, authorized civilian personnel, or retired service member for whom an Army chaplain has performed a baptism, marriage, or funeral.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names of individuals who apply for marriage, those on whom funeral services are conducted, or baptisms are performed.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., section 3547.

PURPOSE(S):

To render service to military members, their dependents and authorized civilians.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record systems notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Microfilm at office of the Chief of Chaplains; paper records at the Washington National Record Center for period 1917–1952.

RETRIEVABILITY:

Marriage records are filed by groom's surname; funeral records by surname of deceased person; baptismal records by the individual's surname.

SAFEGUARDS:

Records are retained in buildings which employ security guards.

RETENTION AND DISPOSAL:

Records from 1953 to 1977 are retained for 50 years; this system was discontinued October 1, 1977 after which no information was collected or is retained.

SYSTEM MANAGER(S) AND ADDRESS:

The Chief of Chaplains, Headquarters, Department of the Army, Washington, DC 20310–2700.

NOTIFICATION PROCEDURE:

Information may be obtained from the Office, Chief of Chaplains, Headquarters, Department of the Army, ATTN: DACH–IMW, Washington, DC 20310–2700.

RECORD ACCESS PROCEDURE:

Individuals may write to the System Manager, providing the following information:

(1) For baptismal records: Full name of person baptized, approximate date, names of parents, name of chaplain, and place of baptism.

(2) For marriage records: Full name of groom and maiden name of bride, approximate date, installation at which married, and name of chaplain.

(3) For funeral records: Name of deceased person, year of death, and name of next-of-kin.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealling initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0722.05DACH

SYSTEM NAME:

Chaplain Counseling/Interview Files.

SYSTEM LOCATION:

Army installations; official addresses are contained in the directory at the end of the Army inventory of record system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Army members, their dependents and other individuals who have received pastoral counseling from Army chaplains.

CATEGORIES OF RECORDS IN THE SYSTEM:

Memoranda and/or documents resulting from counseling or interview sessions between a chaplain and an individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., section 301.

PURPOSE(S):

To document privileged counseling/interview sessions between Army chaplains and individuals.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

None authorized; See Army Regulation 165–20.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in locked file cabinets.

RETRIEVABILITY:

By individual's surname.

SAFEGUARDS:

Information is stored in locked cabinets or desks, and is accessible only to the chaplain maintaining the record.

RETENTION AND DISPOSAL:

Retained for 2 years after the individual case is closed; then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

The Chief of Chaplains, Headquarters, Department of the Army, Washington, DC 20310–2700.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not information on them exists in this system of records should inquire of either the System Manager or the Chaplain at the Army installation where counseling or interview occurred.

RECORD ACCESS PROCEDURES:

Individuals may write to the System Manager or the Chaplain at the Army installation where record is believed to exist; individuals must provide their full name, present address and telephone number, and signature.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determination are contained in Army Regulation 340–21 (32 CRF Part 505).

RECORD SOURCE CATEGORIES:

From the individual.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0722.08DACH

SYSTEM NAME:

Religious Census, Education, and Registration Files.

SYSTEM LOCATION:

Army installations; official addresses are contained in the directory at the end of the Army inventory of record system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military, dependent, and civilian personnel who voluntarily participated in religious services and/or activities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, age, denominational preference, religious education desired/attained, and similar information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., section 301.

PURPOSE(S):

To provide data on religious education/training or needs of faith groups, denominations, or religious sects; to determine and administer educational or training needs in social, spiritual, and humanitarian relationships for military community served; to record attendance, training accomplished, participation, and spiritual growth.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

U.S. Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Army personnel who are reported as casualties in accordance with Army Regulation 600–10.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, social security number (SSN), date of brith, branch of service, organization, duty, Military Occupational Specialty, rank, sex, race, religion, home of record, and other pertinent information; DD Form 1300, notification/certificate of death.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., sec. 3012; Pub. L. 93–289; E.O. 9397.

PURPOSE(S):

To respond to inquiries; to provide statistical data comprising type, number, place and cause of casualty/death of Army members.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes, computer printouts, paper records in file cabinets.

RETRIEVABILITY:

By individual's name and/or SSN or any other data element.

SAFEGUARDS:

All information is restricted to a secure area in buildings which employ security guards. Computer printouts and magnetic tapes and files are protected by password known only to properly screened personnel possessing special authorization for access.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from HQDA (DAPC–PE–SI), 200 Stovall Street, Alexandria, VA 22332, telephone: 202/325–0719.

RECORD ACCESS PROCEDURES:

Written requests should contain the individual's name, current address and telephone number, and should identify the person who is the subject of the inquiry by name, rank and SSN.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From casualty reports received from Army commanders or from next-of-kin who provide notification or certificate of death.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0727.09DAAG

SYSTEM NAME:

Army Civilian/Military Service Review Board.

SYSTEM LOCATION:

U.S. Army Reserve Personnel Center, 9700 Page Boulevard, St. Loius, MO 63132–5200.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Civilian or contractual personnel (or their survivors) who were members of a group certified by the Secretary of the Air Force to have performed active duty with the Armed Forces of the United States.

CATEGORIES OF RECORDS IN THE SYSTEM:

Application of individuals for recognition of service, evidence that supports claim of membership in approved group, action of the Army Civilian/Military Service Review Board, DD Form 214 and DD Form 256 or 257 as appropriate, and similar relevant documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 401, Pub. L. 95–202; DOD Directive 1000.20.

PURPOSE(S):

To determine whether individual applicants were members of civilian or contractual groups approved as having rendered service to the Army and whose service constitutes active military service, and to issue appropriate discharge or casualty documents, including applicable pay and equivalent rank or grade.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Copy of DD Form 214 is furnished to the Veterans Administration for benefits entitlements. See also "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Papers stored in file folders.

RETRIEVABILITY:

By applicant's surname.

SAFEGUARDS:

Information is accessible only to designated persons having official need therefor in the performance of their duties. During non-duty house, guards assure that records areas are secured.

RETENTION AND DISPOSAL:

Upon favorable Board decision, an Official Military Personnel File is created, containing individual's application, Board action, DD Form 214, DD Form 256 or 257 as appropriate, DD Form 1300 if applicable. This file is transferred to the National Personnel Records Center, General Services Administration, where it is retained permanently. Disapproved applications, together with supporting documentation and the Board's decision, are retained for 2 years, following which they are destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Reserve Personnel Center, 9700 Page Boulevard, St. Louis, MO 63132–5200.

NOTIFICATION PROCEDURE:

Requests from individuals as to whether or not information on them exists in this system should be addressed to the System Manager, ATTN: DARP–PAS–ENC. Individual should provide full name at the time of the recognized military service, data and place of birth, details concerning affiliation with group certified to have performed active duty with the Army, and signature.

RECORD ACCESS PROCEDURES:

Requests for access should be submitted as specified under "Notification procedure" above.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial deteminations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the inidividual.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A1012.03bAMC

SYSTEM NAME:

Student/Faculty Records: AMC Schools System.

SYSTEM LOCATION:

U.S. Army Logistics Management Center, Ft. Lee, VA; U.S. Army Management Engineering Training Agency, Rock Island, IL; U.S. Army Defense Ammunition Center and School, Savanna, IL; USAMC Field Safety Agency, Charlestown, IN.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Students enrolled/attending schools identified above, faculty, instructors, and guest speakers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Student academic records consisting of course completion and results, aptitudes and personal qualities, grades/ratings assigned; instructor/guest speaker qualifications and evaluations, including biographical data; class historical/academic achievements; and related information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C sec. 301; E.O. 9397.

PURPOSE(S):

To determine applicant eligibility, monitor individual's progress, maintain record of student/faculty achievements, and to provide bases for management assessment of curricula and faculty effectiveness and class standing.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records; cards, photographs; magnetic tapes/discs; and printouts.

RETRIEVABILITY:

By name, SSN, military service number.

SAFEGUARDS:

Records are maintained in locked cabinets within secured areas accessible only to authorized persons having an official need-to-know.

RETENTION AND DISPOSAL:

Individual academic records are retained for 40 years, 3 of which are at the school which created them; they are subsequently transferred to the National Personnel Records Center, 9700 Page Boulevard, St. Louis, MO 63132. Faculty/instructor qualifications records are retained until individual transfers from the facility, held for 5 years, and then destroyed. Other records are retained until no longer needed, at which time they are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Materiel Command, 5001 Eisenhower Avenue, Alexandria, VA 22333–0001.

NOTIFICATION PROCEDURE:

Information may be obtained from the Commandant/Director of the appropriate School/Agency. Requests should contain person's full name, rank/grade, SSN, course title/class number, and date of attendance or, if a faculty member; name, course(s) taught, and period in which instructed at named training facility.

**RECORD ACCESS PROCEDURES:**

Written requests for information should be made to the Commandant/Director of the appropriate training facility, giving information specified in "Notification procedure".

**CONTESTING RECORD PROCEDURES:**

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

**RECORD SOURCE CATEGORIES:**

From the individual student, faculty, instructor, guest speaker, and management analyses of class performance.

**EXEMPTIONS CLAIMED FOR THE SYSTEM:**

None.

A1012.02g|HSC

**SYSTEM NAME:**

Academy of Health Sciences; Academic and Supporting Records.

**SYSTEM LOCATION:**

Academy of Health Sciences, Ft. Sam Houston, TX 78234 and Fitzsimons Army Medical Center, Aurora, CO 80045–5001.

**CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:**

Resident and correspondence students enrolled in courses at the Academy.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Student's name, SSN, grade/rank, academic qualifications, progress reports, academic grades, ratings attained, aptitudes and personal qualities, including corporate fitness results; faculty board records pertaining to class standing/rating/classification/proficiency of students; class academic records maintained by instructors indicating attendance and progress of class members.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

5 U.S.C. section 301; E.O. 9397.

**PURPOSE(S):**

To determine eligibility for enrollment/attendance, monitor student progress, record accomplishments, and serve as record of courses which may prerequisite for other formal courses of instruction.

**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

Information may be disclosed to colleges or universities or medical institutions which accredit the Academy's instruction. See also "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Paper records, microfiche, cards, magnetic tape and/or disc, and computer printouts.

**RETRIEVABILITY:**

By individual's name, SSN, student number.

**SAFEGUARDS:**

Information is accessed only by individuals having need therefor in the performance of their duties; automated data are protected further by assigned passwords.

**RETENTION AND DISPOSAL:**

Academic records are maintained 40 years at the Academy of Health Sciences. Except for the master file, automated data are erased after the fourth updating cycle.

**SYSTEM MANAGER(S) AND ADDRESS:**

Superintendent, Academy of Health Sciences, Ft. Sam Houston, Texas 78234.

**NOTIFICATION PROCEDURE:**

Individuals desiring to know whether or not information on them is contained in this system of records may inquire of the Register, Academy of Health Sciences, Ft. Sam Houston, TX. Inquiries should furnish full name, SSN, date attended/enrolled, current address, and signature.

**RECORD ACCESS PROCEDURES:**

Written requests should be sent to the Superintendent, Academy of Health Sciences, Ft. Sam Houston, TX 78234 and include the information in "Notification procedure".

**CONTESTING RECORD PROCEDURES:**

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

**RECORD SOURCE CATEGORIES:**

From the individual; Academy of Health Sciences staff and faculty.

**EXEMPTIONS CLAIMED FOR THE SYSTEM:**

None.

A1012.03|HSC

**SYSTEM NAME:**

Practical Nurse Course Files.

**SYSTEM LOCATION:**

Practical Nurse Course, Fitzsimons Army Medical Center, Aurora, CO 80045–5001.

**CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:**

These files relate to student personnel who attend a formal course of instruction at the Practical Nurse Course.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Individual Academic Record Files consisting of courses attended by Army members, length of each, extent of each, completion and results, aptitudes and personal qualities, grade and rating attained and related data for each individual. Faculty Board Files pertaining to the class standing, rating, classification and proficiency of students; Class Academic Record indicating progress and attendance of class members.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

5 U.S.C., section 301.

**PURPOSE(S):**

To confirm eligibility for attendance, monitor student progress, determine successful completion of academic requirements and prepare transcripts. Records reflect accomplishment of courses which may be prerequisites for attendance at other formal courses of instruction, or taking of State Board, Licensed Practical Nursing examinations.

**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

See "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Paper records in file folders, card files; magnetic discs and tapes.

**RETRIEVABILITY:**

By name and/or assigned class number.

**SAFEGUARDS:**

Building housing records has limited access; information is released only to authorized personnel.

**RETENTION AND DISPOSAL:**

Individual Academic Records and Class Academic records are destroyed after 40 years; collateral individual training records are destroyed after 1

year; Faculty Board files are destroyed after 1 year.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Health Services Command, Ft. Sam Houston, TX 78234.

NOTIFICATION PROCEDURE:

Information may be obtained from the Practical Nurse Course, Fitzsimons Army Medical Center, Aurora, CO 80045–5001.

RECORD ACCESS PROCEDURES:

Written requests for information should be addressed to the appropriate course director, and include student's full name, rank at time of attendance, SSN, military service number or student number, if applicable, course title and class number, or description of type training received and dates of course attendance.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From staff and faculty of the school responsible for presentation of instruction.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A1106.04USAISC

SYSTEM NAME:

Military Affiliate Radio System.

SYSTEM LOCATION:

U.S. Army Information Systems Command, Ft. Huachuca, AZ for individuals on whom an investigation or inquiry has been received. For addresses of locations where member records exist, the System Manager may be contacted.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals having a valid amateur radio station license issued by the Federal Communications Commission who apply for membership in the Army Military Affiliate Radio System (MARS).

CATEGORIES OF RECORDS IN THE SYSTEM:

Applicant's name, home address and telephone number, licensing data and call-sign provided by Federal Communications Commission, Army MARS call sign, relevant inquiries/records and reports.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., section 3012; DOD Directive 4650.2; E.O. 9397.

PURPOSE(S):

To provide a potential reserve of trained radio communications personnel for military duty when needed and/or to provide auxiliary communications for military, civil, and/or disaster officials during periods of emergency.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to Department of Army and Department of Defense communication agencies and their authorized contractors in connection with individual's participation in the Army Military Affiliate Radio System (MARS) Program and to Federal supply agencies in connection with individual's participation in the Army MARS Equipment Program. See also "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Cards; paper in file folders, computer tapes, discs, listings.

RETRIEVABILITY:

By member's name.

SAFEGUARDS:

Information is maintained in buildings having security guards and is accessible only to individuals who have need therefor in the performance of their duties. Automated records are further protected by a product control number assigned to designated persons.

RETENTION AND DISPOSAL:

Retained 1 year beyond the time individual is active in the program, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Information Systems Command, Ft. Huachuca, Arizona 85613–5000.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not information on them exists in this system of records should write to the System Manager, furnishing name under which licensed in the Army MARS program, SSN, present address, call sign, and signature.

RECORD ACCESS PROCEDURES:

Individuals desiring access to their records should follow instructions given under "Notification procedure".

CONTESTING RECORD PROCEDURES:

The Army rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; Federal Communications Commission.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A1106.16DAIM

SYSTEM NAME:

Postal and Mail Service System.

SYSTEM LOCATION:

Postal facilities at Army headquarters offices, commands and installations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons designated as mail agents; military personnel assigned/attached to Army installations who desire mail handling service; standing delivery order agents designated by individuals who desire such service.

CATEGORIES OF RECORDS IN THE SYSTEM:

DD Form 285 designating Army postal clerks/NCO's/supervisors; locator cards comprising a directory of individuals assigned enroute, and/or departing given installation showing individual's full name, grade, current mailing address, date of assignment/detachment, and SSN (latter is voluntary); standing delivery order designations of agents to handle individual's mail.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., section 3012; E.O. 9397.

PURPOSE(S):

To designate persons authorized to perform Army postal functions; to maintain current addresses of persons arriving/departing units for purpose of handling personal mail.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to U.S. Postal Service. See also 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Cards, paper records; microfiche, word processing disc.

RETRIEVABILITY:

By individual's surname.

SAFEGUARDS:

Records are located in secured buildings, accessible only to designated persons having an official need for the information. Where word processing equipment is used, information is protected by a password system; when not in use, word processing equipment is locked.

RETENTION AND DISPOSAL:

Postal designations and designation of mail delivery agents by individuals are destroyed 1 year following termination of individual's duty as such. Directory locator cards are retained 6 months after individual departs a unit.

SYSTEM MANAGER(S) AND ADDRESS:

The ACSIM, Headquarters, Department of the Army, 2461 Eisenhowere Avenue, Alexandria, VA 22331-0301

NOTIFICATION PROCEDURE:

Individuals desiring to know whether this system of records contains information concerning them should inquire of this Postal Director at the unit where assigned or employed.

RECORD ACCESS PROCEDURE:

Written requests should contain individual's full name, rank/grade, SSN, and any other information that will assist in locating records. Personal visits may be made; individual must furnish proof of identity.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, unit commanders and Army postal officers.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A1111.01TRADOC

SYSTEM NAME:

Individual Flight Records Folder.

SYSTEM LOCATION:

Decentralized to Flight Operations Section of Army/Army Reserve/National Guard units for all personnel on whom flight records are maintained. Copies of individual flight records (DA Form 759) are maintained at the Directorate of Evaluation and Standardization, ATTN: ATZQ-ESO, U.S. Army Aviation Center, Ft Rucker, AL, for active Army and Reserve Component personnel who are instructor pilots, standardization instructor pilots, or instrument flight examiners; USAMILPERCEN, HQDA(DAPC-OPE-V), for active Army officers; USAMILPERCEN, HQDA(DAPC-OPW-AV), for active Army warrant officers; and HDQA(DASC-HCO-A) for active Army MSC officers. Records of Army reservists not on extended active duty are maintained at the U.S. Army Reserve Personnel Center, St Louis, MO; those of National Guardsmen are maintained at the National Guard Bureau, Aberdeen Proving Ground, MD.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Army aviators who are members of the Active and Reserve Components and qualified and current in the aircraft to be flown; civilian employees of Government agencies and Government contractors who have appropriate certifications or ratings, flight surgeons or aeromedical physicians' assistance in aviation service, enlisted crew chief/crew members, aerial observers, personnel in non-operational aviation positions, and those restricted or prohibited by statute from taking part in aerial flights.

CATEGORIES OF RECORDS IN THE SYSTEM:

DA Forms 759 and 759-1 (Individual Flight Records and Flight Certificate Army (Sections I, II, and III); DA Form 4186 (Medical Recommendations for Flying Duty), results of annual aviation written examinations, waivers, disqualifications, DA Form 4187 requesting requalification, requalification orders, aeronautical orders awarding ratings.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., section 301; 10 U.S.C., section 3012; E.O. 9397.

PURPOSE(S):

To record the flying experience and qualifications data of each aviator, crewmembers, and flight surgeon in aviation service.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to the Federal Aviation Agency and/or the National Transportation safety Board. See also 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

By individual's surname and/or SSN.

SAFEGUARDS:

Records are maintained in controlled areas accessible only to designated persons having official need therefor.

RETENTION AND DISPOSAL:

So long as an aviator remains operational, records are maintained by installation operations officer; when individual is no longer in operational flying status, individual Flight Records Folder is collocated with his/her Military Personnel Records Jacket.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, U.S. Army Training and Doctrine Command, Fort Monore, VA 23651.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not this system of records contains information on them should inquire of the Flight Operations Section of their current unit, furnishing full name and SSN; if not on active duty, inquiry should be addressed as indicated in 'System location'.

RECORD ACCESS PROCEDURE:

Access may be achieved by writing or visiting the appropriate office and furnishing information required by "Notification procedure".

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulations 340-21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, Federal Aviation Agency, flight surgeon, evaluation reports, proficiency and readiness tests, and other relevant records and reports.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A1201.02SMC

SYSTEM NAME:

Personnel Property Movement and Storage Records.

**SYSTEM LOCATION:**

Installation Transportation Offices and Joint Personal Property Shipping Offices, world-wide; addresses may be obtained from the System Manager.

**CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:**

Military members of the Army, Navy, Marine Corps, and Air Force; civilian employees; dependents; personnel of other government agencies when sponsored by the Department of Defense.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Orders authorizing shipment/storage of personal property to include privately owned vehicles and house trailers/mobile homes; Department of Defense Form 1131 (Cash Collection Voucher), DD Form 1299 (Application for Shipment and/or Storage of Personal Property), DD Form 1384 (Transportation Control and Movement Document), DD Form 1797 (Personal Property Counseling Checklist), Standard Form 1203 (Government Bill of Lading), Storage contracts and other related documents.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

10 U.S.C., section 3012; E.O. 9397.

**PURPOSE(S):**

To arrange for the movement, storage and handling of personal property; to identify/trace lost of damaged shipments; to answer inquiries and monitor effectiveness of personal property traffic management functions.

**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

Information may be disclosed to commercial carriers to identify ownership, verify delivery of shipment, support billing for services rendered, and justify claims for loss, damage, or theft. See also "Blanket Routine Uses" set forth at the beginning of the Army's listing of record system notices.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Paper records in file folders; microfilm; magnetic tapes and computer printouts.

**RETRIEVABILITY:**

By individual's surname.

**SAFEGUARDS:**

Information is maintained in secured areas, accessible only to authorized personnel having an official need-to-know. Automated segments are further protected by code numbers/passwords.

**RETENTION AND DISPOSAL:**

Documents relating to packing, shipping and/or storing of household goods within continental United States are destroyed after 3 years; those relating to oversea areas are destroyed after 6 years. Documents regarding shipment of Privately owned vehicle/house trailers are destroyed after 2 years. Shipment discrepancy reports are destroyed after 2 years or when claim/investigation is settled, whichever is later. Administrative files reflecting queries and responses are retaind for 2 years; then destroyed.

**SYSTEM MANAGER(S) AND ADDRESS:**

Commander, Headquarters, Military Traffic Management Command, Falls Church, VA 22041–5050.

**NOTIFICATION PROCEDURE:**

Information may be obtained from the Installation Transportation Office which processed the shipping/storage documents.

**RECORD ACCESS PROCEDURES:**

Written requests should contain requester's full name, SSN, current address and telephone number, and any information which will assist in locating the records requested (e.g. type of shipment, origin, destination, date of application, etc.).

**CONTESTING RECORD PROCEDURES:**

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

**RECORD SOURCE CATEGORIES:**

From the individual whose personal property is shipped/stored; from the carrier/storage facility.

None.

A1402.18DAJA

SYSTEM NAME:

Procurement Misconduct Files.

SYSTEM LOCATION:

HQDA(DAJA–LT), The Pentagon, Washington, DC 20310–2210.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals or legal entities investigated for alleged procurement misconduct, such as fraudulent activities in securing or performing a Government contract.

CATEGORIES OF RECORDS IN THE SYSTEM:

Criminal and administrative investigations of fraudulent, criminal or other misconduct in connection with Government procurement activities and Consolidated List of Debarred, Suspended, and Ineligible Contractors.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., section 3012.

PURPOSE(S):

To determine whether criminal or civil proceeding should be initiated against the contractor with the Government or government procurement officials for criminal conduct in connection with procurement activities and to maintain and distribute a list of contractors determined to be ineligible to participate in Government procurement activities.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed to the Department of Justice and United States Attorney. See also 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

By last name.

SAFEGUARDS:

Records are maintained in file cabinets accessible only by authorized personnel who are properly instructed in the permissable use of the information.

RETENTION AND DISPOSAL:

Destroyed 15 years after final action on the case.

SYSTEM MANAGER(S) AND ADDRESS:

The Judge Advocate General, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Individuals wishing to know whether or not information on them exists in this system of records may write to the System Manager, ATTN: Chief, Litigation Division, furnishing full name, current address and telephone number, specific details that will enable locating the record, and signature.

RECORD ACCESS PROCEDURE:

Individuals desiring access to records about themselves should write as indicated in 'Notification procedure', supplying information required therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Department of the Army Staff agencies, Army records and reports, Department of Justice, U.S. Attorney, opposing counsel, and similar relevant sources.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A1506.03aDAEN

SYSTEM NAME:

Relocation Assistance Files.

SYSTEM LOCATION:

Office, Chief of Engineers, Headquarters, Department of the Army, Washington, DC 22314; Engineer Division and District Offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who apply for relocation assistance pursuant ot Title II of Pub. L. 91–646.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's application for relocation assistance; relevant correspondence; documents relating to the movement of displaced persons because of acquisition of real estate for Army Military, Civil works, or other Federal agency use.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 91–646.

PURPOSE(S):

To process applications for relocation assistance benefits and to consider appeals.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See 'Blanket Routine Uses' set forth at the beginning of the Army's listing of record system notice.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file holders; magnetic tape, cards, discs.

RETRIEVABILITY:

By applicant's surname.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel having need therefor, within buildings protected by security guards.

RETENTION AND DISPOSAL:

Records are destroyed 10 years after final action or determination on appeals, as applicable at offices performing Army-wide responsibility. Other offices destroy records 10 years after payment in full satisfaction of claim or final payment, as applicable. Records are destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Engineers, Headquarters, Department of the Army, Washington, DC 20314.

NOTIFICATION PROCEDURE:

Information may be obtained by writing to the System Manager, ATTN: DAEN–REH–O; individual must furnish full name, address and telephone number, state of residence at the time application was filed, other pertinent information that will assist in locating the records, and signature.

RECORD ACCESS PROCEDURES:

Individuals desiring access to records about themselves in this system of records should submit a request as indicated under 'Notification procedure', providing the information required therein.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determination are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, Army records and reports.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A1511.02DAEN

SYSTEM NAME:

Army Housing Operations Management System.

SYSTEM LOCATION:

Office, Chief of Engineers, Headquarters, Department of the Army, Washington, DC 20314; Housing Managers at Army installations world-wide.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military personnel, their dependents, Department of Defense or other key civilian personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Applications for on/off post housing containing name, service/SSN, rank/grade and date, service data, organization of assignment, home address and telephone number; locator data; appropriate travel orders; records reflecting housing availability/assignment/termination; housing financial records; referral services; property inventories, hand receipts; and issues slips; cost control, job orders; survey data; reports of liaison with real estate boards, realtors, brokers and other Government agencies; other management reports regarding the Army housing system, complaints and investigations; and similar relevant documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C., sections 133 and 2674; DOD Instructions 1100.16, 4165.27, 4165.34, 4165.43, 4165.44, 4165.47, 4165.51 and E.O. 9397.

PURPOSE(S):

To provide information relating to the management, operation, and control of the Army housing program; to provide necessary housing for military personnel, their dependents, and qualified civilian employees; to determine housing adequacy/suitability to document cost data for alterations/repair of units; to establish rental rates; to provide guidance and referral service; to reflect liaison with real estate boards, brokers, and other Government agencies; to render reports; to investigate complaints and related matters.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

See 'Blanket Routine Uses' set forth at the beginning of the Army's lising of record system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records; cards; computer tapes, discs, and printouts.

RETRIEVABILITY:

By individual's surname, facility name or number.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized persons having official need therefor, housed in buildings protected by security guards or lock when not in use. Information in automated media is further protected by physical security devices; access or to update of information in the system is protected through a system of passwords, thereby preserving integrity of data.

RETENTION AND DISPOSAL:

Installation troop housing files are destroyed after 3 years; installation housing project tenancy files are destroyed 3 years after termination of quarters occupancy; faily housing cost controls are destroyed 11 years after last entry; family housing leasing files are destroyed 3 years after lease

terminates, is cancelled, lapses, or after any litigation is concluded; family housing rental rates are destroyed after 10 years; housing referral services are destroyed after 5 years; off-post rental housing reports are destroyed after 2 years; off-post housing complaints and investigations are destroyed 5 years after completion at office having Army wide responsibility, and at other offices complaint and investigation records are destroyed 2 years after completion.

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Engineers, Headquarters, Department of the Army, Washington, DC 20314.

NOTIFICATION PROCEDURE:

Information may be obtained from the Director of Industrial Operations, Office of the Chief of Engineers or his counterpart in District/Division Engineer Offices providing housing service.

RECORD ACCESS PROCEDURES:

An individual's request may be addressed to the Director of Industrial Operations at the appropriate installation, and contain his/her name and address and last assignment location.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual, his/her personnel records, tenants/landlords and realty activities, financial institutions, and previous employers/commanders.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

## Capital Payments Under the Inpatient Hospital Prospective Payment System

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Proposed rule.

SUMMARY: We are proposing to amend the Medicare regulations governing the inpatient hospital prospective payment system to incorporate capital-related costs into that system.

DATES: Comments will be considered if we receive them at the appropriate address, as provided below, no later than 5:00 p.m on July 20, 1987.

ADDRESS: Mail comments to the following address: Health Care Financing Administration, Department of Health and Human Services, Attention: BERC-403-P, P.O. Box 26676, Baltimore, Maryland 21207.

If you prefer, you may deliver your comments to one of the following addresses:

Room 309-G, Hubert H. Humphrey Building, 200 Independence Avenue, SW., Washington, DC.

Room 132, East High Rise Building, 6325 Security Boulevard, Baltimore, Maryland.

In commenting, please refer to file code BERC-403-P. Comments received timely will be available for public inspection as they are received, generally beginning approximately three weeks after publication of a document, in Room 309-G of the Department's offices at 200 Independence Avenue, SW., Washington, DC., on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (phone: 202-245-7890).

## I. Introduction

On June 3, 1986, we published a notice of proposed rulemaking (the June 1986 NPRM) in the **Federal Register** (51 FR 19970) to amend the regulations governing the prospective payment system and to update various components of the system. In particular, we proposed, under section 1886(a)(4) of the Social Security Act (the Act), to incorporate capital-related costs into the prospective payment system effective with cost reporting periods beginning in Federal fiscal year (FY) 1987, which began on October 1, 1986. However, on July 2, 1986, the Urgent Supplemental Appropriations Act for FY 1986 (Pub. L. 99-349) was enacted, and section 206 of that law amended section 1886(a)(4) of the Act to extend the period (through cost reporting periods beginning prior to October 1, 1987) during which capital-related costs must be treated separately from other inpatient hospital costs. In effect, section 206 of Pub. L. 99-349 precluded the incorporation of capital-related payments into the prospective payment system, as we had proposed, until October 1, 1987. As a result, and in order to devote more time to analysis of the public comments on the capital-related provisions of the NPRM, we decided to remove those provisions from the prospective payment system update for FY 1987 (published as a final rule on September 3, 1986 (51 FR 31454)) and to publish them in a separate rule.

In addition, on October 21, 1986, the Omnibus Budget Reconciliation Act of 1986 (Pub. L. 99-509) was enacted and included a provision, section 9303, that amended section 1886(g) of the Act. Section 9303 of Pub. L. 99-509 also requires that the amount of payments for capital-related costs attributable to inpatient services of prospective payment hospitals, otherwise determined to be reasonable under current law, be reduced by—

- Three and one-half percent for payments attributable to portions of cost reporting periods occurring during FY 1987;
- Seven percent for payments attributable to portions of cost reporting periods or discharges (as the case may be) occurring during FY 1988; and
- Ten percent for payments attributable to portions of cost reporting periods or discharges (as the case may be) occurring during FY 1989.

Section 9303 also provides that, in any inclusion of capital-related costs into the prospective payment system, the aggregate Medicare capital payments, for those capital-related costs attributable to portions of cost reporting periods occurring during FYs 1988 and 1989, must be neither greater nor less than the aggregate Medicare capital payments that would have been made, taking into account the reductions mandated under section 9303 of Pub. L. 99-509, without such inclusion of capital related costs into the prospective payment system.

Furthermore, sections 9303(b) and 9304 of Pub. L. 99-509 amended sections 1886(d) and 1886(g) of the Act to include hospitals in Puerto Rico under the prospective payment system effective for inpatient hospital discharges in fiscal years beginning on or after October 1, 1987.

Accordingly, in this proposed rule, we are proposing to change the regulations that apply specifically to the way in which inpatient hospital capital-related costs, excluding payments to proprietary hospitals for a reasonable rate of return on equity capital, will be treated for Medicare payment purposes effective with hospital cost reporting periods beginning on or after October 1, 1987. Capital-related costs under Medicare include depreciation, interest, taxes, insurance and similar expenses (defined further in § 413.130) for plant and fixed equipment, and moveable equipment. We are taking into consideration the public comments on the June 1986 NPRM concerning the capital-related proposals (including recommendations from the Prospective Payment Assessment Commission (ProPAC)). Affected regulations are located in 42 CFR Parts 412 and 413.

Inpatient operating costs are the only costs currently covered by the prospective payment amounts for those hospitals subject to the prospective payment system (§ 412.2(c)) and by the target rate-of-increase limits for those hospitals and units excluded from the prospective payment system (§ 413.40). Accordingly, under current Medicare rules, payment for capital-related costs

BEST COPY AVAILABLE

is on a reasonable cost basis (§ 413.5) because those costs are specifically excluded from the definition of inpatient operating costs for both hospitals subject to and those excluded from the prospective payment system.

This proposed rule would eliminate the previous distinction maintained between capital-related and operating costs only for Medicare inpatient hospital services provided by hospitals subject to the prospective payment system for cost reporting periods beginning on or after October 1, 1987. However, section 9303(a) of Pub. L. 99–509 provides that sole community hospitals are exempt from the capital cost reductions through portions of cost reporting periods or discharges (as the case may be) occurring during FY 1989 (section 1886(g)(3)(A) and (B) of the Act), and from the inclusion of capital-related costs in operating costs of inpatient hospital services, through their cost reporting periods beginning before October 1, 1990 (section 1886(g)(3) (C)(i) of the Act); accordingly, we are proposing to exempt them from the provisions of this rule for those periods.

## II. Background

Section 1886(a)(4) of the Act, as amended by section 601(a)(2) of the Social Security Amendments of 1983 (Pub. L. 98–21), section 9107 of the Consolidated Omnibus Budget Reconciliation Act of 1985 (Pub. L. 99–272), section 206 of Pub. L. 99–349, and sections 9303(c) and 9320(g)(1) of Pub. L. 99–509 states:

> For purposes of this section, the term "operating costs of inpatient hospital services" includes all routine operating costs, ancillary service operating costs, and special care unit operating costs with respect to inpatient hospital services as such costs are determined on an average per admission or per discharge basis (as determined by the Secretary). Such term does not include costs of approved educational activities, a return on equity capital, or, *with respect to costs incurred in cost reporting periods beginning prior to October 1 of 1987 (or of such later year as the Secretary may, in his discretion, select), other capital-related costs, as defined by the Secretary.* (Emphasis added.)

The first statutory distinction between capital-related costs and total Medicare Part A hospital inpatient operating costs was made with the enactment of Pub L. 98–21 on April 20, 1983 Prior to that time capital-related costs were identified and treated separately for Medicare payment purposes only under regulations—specifically, § 413.30, under which capital-related costs were excluded from the inpatient routine operating cost limits (that is, the section 223 limits enacted by the Social Security Amendments of 1972 (Pub. L. 92–603)) for cost reporting periods beginning on or after July 1, 1979, and § 413.40, under which capital-related costs were excluded from the inpatient total operating cost limits and rate-of-increase limits enacted as part of the Tax Equity and Fiscal Responsibility Act of 1982 (Pub L. 97–248). Section 601(a)(2) of Pub. L. 98–21, however, amended subsection 1886(a)(4) of the Act, specifying that the term "operating costs of inpatient hospital services" did not include costs that are defined by the Secretary as capital-related costs. Initially, the exclusion of capital-related costs was to apply only to cost reporting periods beginning prior to October 1, 1986. However, section 206 of Pub. L. 99–349 further amended section 1886(a)(4) of the Act by postponing for an additional year the inclusion of capital-related costs into the definition of operating costs (that is, for cost reporting periods beginning prior to October 1, 1987). Subsequently, section 9303(c) of Pub. L. 99–509 further revised section 1886(a)(4) of the Act by providing that capital-related costs be excluded from inpatient operating costs for cost reporting periods beginning prior to October 1, 1987 or later at the Secretary's discretion. Therefore, until the Secretary amends the regulations to include them, capital-related costs are excluded from costs that are incorporated into the prospective payment system under section 1886(d) of the Act and the rate-of increase limits under section 1886(b) of the Act; they are instead subject to reasonable cost reimbursement provisions under section 1861(v) of the Act.

Section 1886(d)(1)(A) of the Act establishes the prospective payment system as the sole basis for paying for "operating costs of inpatient hospital services (as defined in subsection (a)(4))" for hospitals subject to that system. The current prospective payment rates are not set at levels designed to cover capital-related costs as well as operating costs as previously defined. We are, therefore, setting forth in this proposed rule prospectively determined capital-related payment rates to be effective with cost reporting periods beginning on or after October 1, 1987, as authorized under sections 9303 and 9304 of Pub. L. 99–509.

As a means of providing complete information to the public concerning our approach to new capital payment regulations, we summarize below the capital provisions of the June 1986 NPRM. We also discuss some of the comments on that NPRM, and a summary of the April 1, 1986 and April 1, 1987 recommendations of ProPAC concerning capital.

## III. Summary of Proposed Changes in Capital Payment in the June 1986 NPRM

We stated in the June 1986 NPRM our intention to change the way we make capital payments for hospital inpatient services from the reasonable cost-based reimbursement system to the prospective payment system in light of the statutory limit on the Secretary's authority to distinguish capital related costs from other inpatient operating costs under section 1886(a)(4) of the Act. We proposed a methodology to incorporate capital payments into the prospective payment system that conformed with the statutory provisions governing the payment for all inpatient operating costs, while using the Secretary's exceptions and adjustments authority under section 1886(d)(5)(C)(iii) of the Act as the basis for phase-in rules to ease the transition of hospitals from cost reimbursement to the inclusion of capital payments under the prospective payment system.

### *A. Hospitals Subject to the Prospective Payment System*

Section 1886(a)(4) of the Act, prior to enactment of Pub. L. 98–21, simply incorporated capital-related costs into the definition of operating costs. As noted above, we proposed to establish a transition period and other refinements that would improve the equity of the system by using the exceptions and adjustments authority under section 1886(d)(5)(C)(iii) of the Act. We proposed a four-year transition period, effective with cost reporting periods beginning on or after October 1, 1986, leading to fully national capital payment rates. During each year of the proposed transition period, payments to hospitals were to be based on a combination of a Federal capital rate and a hospital-specific capital portion. The proposed schedule for the phase-in period to national capital payment rates was indicated for each component as shown in the following table:

| For cost reporting periods beginning in Federal FY | Hospital-specific portion (percent) | Federal portion (percent) |
|---|---|---|
| 1987 | 80 | 20 |
| 1988 | 60 | 40 |
| 1989 | 40 | 60 |
| 1990 | 20 | 80 |
| 1991-on | 0 | 100 |

We proposed to add new §§ 412.85 through 412.87 to the regulations to describe the new payment policy.

*B. Determination of Federal Capital Payment Rates*

We proposed to compute the Federal capital-related rate using audited hospital inpatient capital-related cost data from Medicare cost reports for reporting periods beginning on or after October 1, 1982 and before October 1, 1983 (that is, Federal FY 1983) to develop average capital-related costs per discharge. We reduced those costs by an estimated amount to reflect an offset for interest income earned on funded depreciation. We then used the base period (Federal FY 1983) cost data to establish an average standardized amount per discharge for each payment area (that is, urban and rural) of each census division and for the nation in the following manner:

- The FY 1983 costs per discharge were inflated through FY 1986 using the historical and projected annual rates of increase in the capital component of the proposed hospital market basket.
- The costs were standardized to remove the effects of factors causing variation in hospital operating costs that are subsequently recognized in the computation of each hospital's prospective payment. Because capital-related costs were to be treated as "other nonlabor standardized amounts" in the prospective payment methodology, we proposed that each hospital's capital-related costs be standardized for the effects of case, mix, indirect medical education costs, and the higher costs of treating a disproportionate share of low income patients. In addition, because Alaska and Hawaii have a higher cost of living compared to other States, the capital-related costs for hospitals in these two States were also standardized by the applicable cost-of-living adjustment factor.
- We computed separate averages of the adjusted capital-related costs per discharge for urban hospitals and rural hospitals, nationally and in each census division.
- Each of the average capital-related standardized amounts was reduced by the estimated proportion (five percent in FY 1987) of total prospective payments that are for outlier cases.
- We adjusted each of the average capital-related standardized amounts by the appropriate indirect medical education payment equality factor.

In order to remain consistent with the prospective payment rules governing the transition from regional to national Federal rates, we proposed that the Federal capital-related rates for discharges in Federal FY 1987 be a blend of Federal regional (50 percent) and national (50 percent) rates. For discharges occurring in Federal FY 1988 and onward, we proposed that the full national rate be applicable.

*C. Determination of Hospital-Specific Capital-Related Payment Rates*

In the June 1986 NPRM, we proposed that the hospital-specific portion of the capital-related payment be based on the lesser of—

- Its hospital-specific capital-related rate (that is, its audited inpatient capital-related cost per discharge, standardized for case mix, from its cost reporting period beginning in Federal FY 1986, updated through each year of the transition period by the prospective payment update factor; or
- Its actual inpatient capital-related cost per discharge in each transition year.

*D. New Hospitals*

We proposed that new hospitals would be paid on the basis of the full Federal capital-related rate (that is, there would be no capital-related phase-in period for these facilities).

*E. Capital Expenditure Agreements*

Section 1886(g)(1) of the Act provided that, if legislation concerning payment for capital-related costs for inpatient hospital services is not enacted before October 1, 1986 (subsequently amended by section 206 of Pub. L. 99-349 to October 1, 1987), certain restrictions would apply. No payment would be made for capital-related costs of capital expenditures for inpatient hospital services in a State, if such expenditures were obligated after September 30, 1986 (subsequently amended to September 30, 1987), unless—

- The State has an agreement with the Secretary under section 1122(b) of the Act; and
- The State has recommended approval of the capital expenditure under the agreement.

For purposes of section 1886(g)(1) of the Act, capital-related costs of capital expenditures are defined in section 1122(g) of the Act as those expenditures that, under generally accepted accounting principles, are not properly chargeable as an expense of operation and maintenance, and that—

- Exceed $600,000 (or such lesser amount as the State may establish);
- Change the bed capacity of the facility with respect to which the expenditure is made; or
- Substantially change the services of the facility with respect to which the expenditure is made.

However, under section 1122(j) of the Act, for those capital expenditures that are made by a health maintenance organization or a competitive medical plan, no State review is required if 75 percent of the enrollees are expected to use the service for which the capital expenditure is made, and the Secretary determines that the expenditures are necessary for the organization to operate efficiently and economically.

Under the June 1986 NPRM, capital-related costs for expenditures disapproved by a State under section 1122 of the Act would be considered nonallowable costs for Medicare cost reporting purposes. We proposed to adjust the Federal portion of the capital-related prospective payment amount on the basis of the percentage of the total disapproved capital expenditures to total capital assets. Because our capital payment proposal provided that the hospital-specific portion of the capital payment would be determined on a reasonable cost basis for allowable costs (that is, costs that are specifically approved under section 1122 of the Act), we did not propose to adjust the hospital-specific capital payments.

*F. Sole Community Hospitals*

We proposed to pay sole community hospitals (SCHs) the capital-related payment rates for all discharges occurring in cost reporting periods beginning on or after October 1, 1986 at—

- 25 percent of the Federal regional capital-related rates, plus
- 75 percent of their capital-related hospital-specific rate.

We also proposed to—

- Disregard the blending of Federal and hospital-specific rates and the transition to full national rates applicable to all other hospitals; and
- Apply the additional payment provisions applicable to SCHs under § 412.92(e) to include capital-related payment adjustments.

*G. Hospitals and Units Not Subject to the Prospective Payment System*

We proposed, for a limited time, not to incorporate capital-related costs into inpatient operating costs for those hospitals and units not subject to the prospective payment system, using the Secretary's exception authority under section 1886(b)(4)(A) of the Act. Their capital related costs were to continue to be paid on a reasonable cost basis. However, we noted that it was our intention to develop an alternative to reasonable cost reimbursement for the capital-related costs of these excluded facilities.

*H. Summary of Additional Options Presented in the June 1986 NPRM*

We specifically invited public comment on an option in which we would not standardize for case mix, indirect medical education or disproportionate share payments. In addition to the basic proposal outlined above, we set forth and solicited comments on several options (described below) that we were considering in order to permit hospitals to better adjust to this significant change in the way Medicare would pay for inpatient hospital capital-related costs and to avoid sudden and severe disruptions in hospital capital funding.

1. Distinguishing Plant and Fixed Equipment from Moveable Equipment during Transition

Under this option, all moveable equipment costs would have been incorporated into the Federal prospective payment rates with no transition, and a transition of longer than four years as proposed would have been provided for plant and fixed equipment.

As a variation to this approach, we considered paying hospitals based on the costs reported in their FY 1986 cost reports for plant and fixed equipment related to debt service (principal and interest) and lease costs. Depreciation, as it is currently defined in regulations at § 413.134 through § 413.149, would not have been paid on a hospital-specific basis.

2. Alternative to Hospital-Specific Rate—Rolling Base

Rather than establishing a hospital-specific capital-related rate from a fixed base year, we indicated we would consider using the actual costs during each transition year to determine the hospital-specific portion of the blended payment amount

3. Transitional Exception Process for Hospitals Disadvantaged by Phasing Capital-Related Payments Into the Prospective Payment System

Under this approach, an exceptions process which was distinct for capital-related costs, was set forth pursuant to the general authority granted to the Secretary under section 1886(d)(5)(C)(iii) of the Act to provide for such exceptions and adjustments to prospective payment amounts as are deemed appropriate. Under this option, the amounts to be paid under the capital payment exception process would be funded by a reserve of funds obtained by reducing the average standardized capital-related payment rates by five to ten percent to generate a pool equal to the amount estimated to be paid to hospitals meeting the following exceptions criteria:

- The ratio of current liabilities to current assets exceeds 200 percent.
- Inpatient per discharge capital-related costs exceed 200 percent of the Medicare adjusted standardized capital payment for a hospital's payment area (region and urban or rural location). Only costs associated with capital-related items and services that were obligated before a specified date, for example, before January 1, 1986, were to be considered.
- Total inpatient cost per discharge exceeds total prospective payments and pass-through payments per discharge (capital and noncapital payments per case).

4. Lengthening the Capital Payment Transition Period

We proposed consideration of a phase-in period longer than the four years stated in our proposal.

5. Variations in Blending Federal and Hospital-Specific Rates During Transition

We proposed consideration of an increase in the hospital-specific proportion and a commensurate decrease in the Federal proportion during the transition period so that the capital-related hospital-specific portion would be weighted higher in the early years of the transition period than was specified in the June 1986 NPRM.

6. Adjustment to Hospital-Specific Rates for Low Occupancy

Under this approach, the capital-related hospital-specific rate was to be modified when a hospital's occupancy rate was significantly below the national average. We stated that we would inflate the number of total inpatient days in the cost reporting year by the percentage difference between the hospital's actual occupancy rate in that period and an appropriate percentage threshold. Using the resulting adjusted inpatient days figure, we would derive the capital-related cost per diem to be used in determining the hospital's total inpatient capital-related cost for the cost reporting period. This modification was to result in an appropriate and proportional reduction in the hospital's rate per case in making its capital payment.

7. Update of the Capital-Related Hospital-Specific Rate

Rather than updating the capital-related hospital-specific rate by the overall prospective payment update factor, as proposed, we indicated that we were considering an alternative to update that rate by the percentage change in the capital component of the hospital market basket.

## IV. April 1, 1986 ProPAC Recommendations on Capital Payment

In its April 1, 1986 Report to the Secretary (published as Appendix C of the June 1986 NPRM (51 FR 20123)), ProPAC made recommendations related to the incorporation of capital-related costs into the prospective payment system. We described those proposals in detail in that NPRM and provided our responses. The following is a summary of those recommendations.

*A. Including Capital in the Prospective Payment System (Recommendation 5)*
